NOTES TO FINANCIAL STATEMENTS — (Unaudited)

1. *Significant Accounting Policies* — Central Securities Corporation (the “Corporation”) is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The following is a summary of the significant accounting policies consistently followed by the Corporation in the preparation of its financial statements. These policies are in conformity with U.S. generally accepted accounting principles.

*Security Valuation* — Marketable common stocks are valued at the last or closing sale price or, if unavailable, at the closing bid price. Investments in money market funds are valued at net asset value per share. Other short-term investments are valued at amortized cost, which approximates fair value. Securities for which no ready market exists are valued at estimated fair value pursuant to procedures adopted by the Board of Directors. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security.

*Federal Income Taxes* — It is the Corporation’s policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income and net capital gains to its stockholders. Management has analyzed positions taken on the Corporation’s tax returns and has determined that no provision for income taxes is required in the accompanying financial statements.

*Use of Estimates* — The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported. Actual results may differ from those estimates.

*Other* — Security transactions are accounted for as of the trade date, and cost of securities sold is determined by specific identification. Dividend income and distributions to stockholders are recorded on the ex-dividend date. Interest income is accrued daily.

*Recently Issued Accounting Pronouncement* — In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2016-02, “Leases. The new standard generally requires a lessee for an operating lease to recognize on its statement of assets and liabilities (1) an asset for its right to use the underlying asset over the lease term and (2) an offsetting liability representing its obligation to make lease payments over the lease term. The new standard is effective for years beginning after December 15, 2018, including interim periods within those years. The new standard is expected to result in an increase in the Corporation’s total assets and total liabilities, but is not expected to have a material impact on its financial statements.

2. *Fair Value Measurements* — The Corporation's investments are categorized below in three broad hierarchical levels based on market price observability as follows:

*Level 1* — Quoted prices in active markets for identical investments;

*Level 2* — Other significant observable inputs obtained from independent sources, for example, quoted prices in active markets for similar investments;

*Level 3* — Significant unobservable inputs including the Corporation's own assumptions based upon the best information available. The Corporation's only Level 3 investment is The Plymouth Rock Company, Inc. Class A Common Stock ("Plymouth Rock").

The designated Level for a security is not necessarily an indication of the risk associated with investing in that security.

The Corporation's investments as of June 30, 2018 are classified as follows:

	Level 1	Level 2	Level 3	Total Value
Common stocks	\$642,094,230	—	\$159,174,400	\$801,268,630
Short-term investments	—	\$43,800,889	—	43,800,889
Total	\$642,094,230	\$43,800,889	\$159,174,400	\$845,069,519

The following is a reconciliation of the change in the value of Level 3 investments:

Balance as of December 31, 2017	\$144,962,400
Change in net unrealized appreciation of investments included in increase in net assets resulting from operations	14,212,000
Balance as of June 30, 2018	\$159,174,400

Unrealized appreciation of Level 3 investments held at June 30, 2018 increased by \$14,212,000 during the six months ended June 30, 2018, which is included in the above table.

In valuing the Plymouth Rock Level 3 investment as of June 30, 2018, management used a number of significant unobservable inputs to develop a range of possible values for the investment. It used a comparable company approach that utilized the following valuation multiples from selected publicly traded companies: price-to-book value (range: 0.6–3.6); price-to-earnings (range: 7.0–115.7); and price-to-revenue (range: 0.5–1.5). Management also used a discounted cash flow model based on a forecasted return on equity ranging from 8%–9% and a weighted average cost of capital of 11%. An independent valuation of Plymouth Rock's shares was also considered. The value obtained from weighting the three approaches described above (with greater weight given to the comparable company approach) was then discounted for lack of marketability by 20% and 40%, a range management believes market participants would apply. The resulting range of values, together with the underlying support, other information about Plymouth Rock's financial condition and results of operations, its corporate governance, the insurance industry outlook, and transacted values in Plymouth Rock's shares were

NOTES TO FINANCIAL STATEMENTS — continued (unaudited)

considered. These values as multiples of Plymouth Rock's book value were also considered. Based upon all of the above information, the Corporation's directors selected the value for the investment, which implied a discount for lack of marketability in the higher end of the above range.

Significant increases (decreases) in the price-to-book value multiple, price-to-earnings multiple, price-to-revenue multiple and return on equity rate in isolation would result in a higher (lower) range of fair value measurements. Significant increases (decreases) in the discount for lack of marketability or weighted average cost of capital in isolation would result in a lower (higher) range of fair value measurements.

3. *Common Stock* — During the six months ended June 30, 2018, the Corporation did not purchase any shares of its Common Stock. The Corporation may from time to time purchase its Common Stock in such amounts and at such prices as the Board of Directors may deem advisable in the best interests of the stockholders. Purchases will only be made at less than net asset value per share, thereby increasing the net asset value of shares held by the remaining stockholders. Shares so acquired may be held as treasury stock available for stock distributions, or may be retired.

4. *Investment Transactions* — The aggregate cost of securities purchased and the aggregate proceeds of securities sold during the six months ended June 30, 2018, excluding short-term investments, were \$55,957,872 and \$41,699,091, respectively.

As of June 30, 2018, the tax cost of investments was \$386,711,218. Net unrealized appreciation was \$458,358,301 consisting of gross unrealized appreciation and gross unrealized depreciation of \$470,662,114 and \$12,303,813, respectively.

5. *Affiliated Companies* — Plymouth Rock is an affiliated company as defined in the Investment Company Act of 1940 due to the Corporation's ownership of more than 5% of the company's outstanding voting securities. During the six months ended June 30, 2018, unrealized appreciation from the Corporation's investment in Plymouth Rock increased by \$14,212,000 and the Corporation received dividends of \$4,857,377 from Plymouth Rock. The Chief Executive Officer of the Corporation is a director of Plymouth Rock.

6. *Restricted Securities* — The Corporation may from time to time invest in securities the resale of which is restricted. On June 30, 2018, the Corporation's restricted securities consisted of 28,424 shares of Plymouth Rock that were acquired on December 15, 1982 at a cost of \$710,600. These securities had a value of \$159,174,400 at June 30, 2018, which was equal to 18.8% of the Corporation's net assets. The Corporation does not have the right to demand registration of this security.

7. *Bank Line of Credit* — The Corporation has entered into a \$25 million uncommitted, secured revolving line of credit with UMB Bank, n.a. ("UMB"), the Corporation's custodian. All borrowings are payable on demand of UMB. Interest on any borrowings is payable monthly at a rate based on the federal funds rate, subject to a minimum annual rate of 2.50%. No borrowings were made during the six months ended June 30, 2018.

8. *Compensation and Benefit Plans* —The aggregate compensation expense for all officers during the six months ended June 30, 2018 was \$1,676,918, of which \$1,290,000 was paid during the period.

Officers and other employees participate in a 401(k) and profit sharing plan. The Corporation has agreed to contribute 3% of each participant's qualifying compensation to the plan, which is immediately vested. Contributions in excess of 3% may be made at the discretion of the Board of Directors and vest after three years of service. During the six months ended June 30, 2018, the Corporation accrued \$120,499 related to the plan.

The Corporation maintains an incentive compensation plan (the "2012 Plan") which permits the grant of awards of unrestricted stock, restricted stock, restricted stock units and cash to full-time employees and non-employee directors of the Corporation. The 2012 Plan provides for the issuance of up to 1,000,000 shares of the Corporation's Common Stock over the ten-year life of the 2012 Plan, of which 941,156 remain available for future grants at June 30, 2018. The 2012 Plan limits the amount of shares that can be awarded to any one person in total or within a certain time period. Any award made under the 2012 Plan may be subject to performance conditions. The 2012 Plan is administered by the Corporation's Compensation and Nominating Committee.

Pursuant to the terms of the 2012 Plan, each non-employee director is awarded 500 shares of vested unrestricted Common Stock at his initial election to the Board of Directors or at his continuation of service as a director after the Corporation's annual meeting. During the six months ended June 30, 2018, non-employee directors were granted a total of 3,000 shares of Common Stock valued at \$27.49 per share, which was the average of the high and low prices of the Corporation's Common Stock on the grant date. The aggregate share value of \$82,470 plus cash payments of \$87,500 made to all non-employee directors are included in Directors' Fees expense in the accompanying Statement of Operations.

During the six months ended June 30, 2018, no other awards were granted under the 2012 Plan.

9. *Operating Lease Commitment* —The Corporation has an operating lease for office space that expires at June 30, 2019. Future minimum rental commitments under the lease at June 30, 2018 aggregate \$374,884 as follows: \$187,442 in 2018 and \$187,442 in 2019. The lease agreement contains escalation clauses relating to operating costs and real property taxes.

## FINANCIAL HIGHLIGHTS

The following table shows per share operating performance data, total returns, ratios and supplemental data for the six months ended June 30, 2018 and each year in the five-year period ended December 31, 2017. This information has been derived from information contained in the financial statements and market price data for the Corporation's shares.

The Corporation's total returns reflect changes in market price or net asset value, as applicable, and assume reinvestment of all distributions. Distributions that are payable only in cash are assumed to be reinvested at the market price or net asset value, as applicable, on the payable date of the distribution. Distributions that may be taken in shares are assumed to be reinvested at the price designated by the Corporation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Stockholders and Board of Directors  
Central Securities Corporation

*Results of Review of Interim Financial Information*

We have reviewed the statement of assets and liabilities of Central Securities Corporation (the Corporation), including the statement of investments, as of June 30, 2018, and the related statements of operations, changes in net assets, and cash flows for the six-month period ended June 30, 2018, and the related notes (collectively, the interim financial information), and the financial highlights for the six-month period ended June 30, 2018. Based on our review, we are not aware of any material modifications that should be made to the interim financial information and financial highlights for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the statement of assets and liabilities of the Corporation, including the statement of investments, as of December 31, 2017, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended (collectively, the financial statements), and the financial highlights for the each of the years in the five-year period then ended (not presented herein); and in our report dated February 2, 2018, we expressed an unqualified opinion on those financial statements and financial highlights. In our opinion, the information set forth in the accompanying statement of changes in net assets for the year ended December 31, 2017 and the financial highlights for each of the years in the five-year period ended December 31, 2017, is fairly stated, in all material respects, in relation to the statement of changes in net assets and financial highlights from which it has been derived.

*Basis for Review Results*

The interim financial information and financial highlights are the responsibility of the Corporation's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Corporation in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our review in accordance with the standards of the PCAOB. A review of interim financial information and financial highlights consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements and financial highlights taken as a whole. Accordingly, we do not express such an opinion.
