Table of Contents

Allergan, Inc. hereby amends Item 7 to its Current Report on Form 8-K filed on May 28, 2003, in order to include the financial statements and pro forma financial information required by Item 7(a), Item 7(b) and the exhibit required by Item 7(c).

ITEM 7. FINANCIAL STATEMENTS, PRO FORMA FINANCIAL INFORMATION AND EXHIBITS

(a) Financial Statements of Business Acquired

The following financial statements of Bardeen Sciences Company, LLC are included in this report:

- (1) Audited financial statements of Bardeen Sciences Company, LLC as of December 31, 2002 and 2001 and for the year ended December 31, 2002, for the period from March 20, 2001 (date of inception) to December 31, 2001 and for the period from March 20, 2001 (date of inception) to December 31, 2002.
- (2) Unaudited financial statements of Bardeen Sciences Company, LLC as of March 31, 2003 and for the three months ended March 31, 2003 and March 31, 2002 and the period from March 20, 2001 (date of inception) to March 31, 2003.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Bardeen Sciences Company, LLC:

We have audited the accompanying balance sheet of Bardeen Sciences Company, LLC (a development stage company) (the Company) as of December 31, 2002, and the related statements of operations, member's equity (deficit), and cash flows for the year then ended, and for the period from March 20, 2001 (date of inception) to December 31, 2002. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. The Company's financial statements for the period from March 20, 2001 (date of inception) through December 31, 2001, were audited by other auditors who have ceased operations. Those auditors in their report dated January 18, 2002 expressed an unqualified opinion on those financial statements. The financial statements for the period March 20, 2001 (date of inception) to December 31, 2001 reflect total operating expenses of \$131,048,071 and net loss of \$130,280,616 of the related totals. The other auditors' report has been furnished to us, and our opinion, insofar as it relates to the amounts included for such prior period, is based solely on the report of such other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit and the report of the other auditors, such 2002 financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2002, and the results of its operations and its cash flows for the year then ended, and for the period from March 20, 2001 (date of inception) to December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 7 to the financial statements, the Company has outsourced all of its research and development to Allergan Inc., a related party.

BARDEEN SCIENCES COMPANY, LLC
(A development stage company)

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2002, THE PERIOD
FROM MARCH 20, 2001 (DATE OF INCEPTION) TO DECEMBER 31, 2001
AND THE PERIOD FROM MARCH 20, 2001 (DATE OF INCEPTION) TO DECEMBER 31, 2002

1. COMPANY BACKGROUND

Bardeen Sciences Company, LLC (the Company or Bardeen) was organized as a limited liability company in the state of Delaware on March 20, 2001. The sole member of the Company is Farallon Pharma Investors, LLC (FPI). The Company was organized to research, develop, test, license, produce and market various pharmaceutical products derived from certain unproven compounds, products and technologies. The Company is considered to be in the development stage, has yet to develop a product, generate significant revenues and has no assurance of future revenues. The Company currently has two employees and outsources the performance of all research and development activities to a third party. This arrangement, together with various other contracts with related parties are more fully described in Note 5.

2. RISK FACTORS AND UNCERTAINTIES

Successful future operations are subject to a number of risks, certain of which are discussed in the following paragraphs. The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. This basis of accounting contemplates the recovery of the Company's assets and the satisfaction of its liabilities in the normal course of business. Since inception, the Company has been primarily engaged in research and development, and for the year ended December 31, 2002, the Company has incurred losses of \$68.0 million. From March 20, 2001 (date of inception) through December 31, 2001, the Company incurred losses of \$130.3 million. Successful completion of the Company's clinical trials and continuation of operations is dependent upon the Company's ability to obtain and retain adequate financing. Management believes the funds on hand at December 31, 2002 plus the additional capital contributions made in January 2003 (see Note 8) and planned capital contributions for June 2003 are adequate to sustain operations through at least December 31, 2003.

The Company has not developed any products nor generated any revenue from its activities to date, and it is possible that it will never generate revenues or profitable operations in the future. Even if successful efforts result in the development of potential pharmaceutical products, the nature of the regulatory environment requires that substantial time is expected to pass before revenues might be realized. As part of the formation and funding of the Company's operations, FPI agreed to fund up to \$250 million, subject to certain cancellation provisions (see Note 5) through January 4, 2004, (the Capitalization Funding) of which \$114 million has already been contributed through December 31, 2002. The Company is highly dependent on the continued support from FPI in the form of the Capitalization Funding. Additionally, after the expiration of the contractual terms of the Capitalization Funding, the Company's ability to continue is dependent upon its ability to obtain additional sources of funding. There can be no assurance that the Company will successfully obtain such financing when, or if, required.

Table of Contents

The Company's potential products are in the research and development stage, and will require significant additional research and development efforts, including extensive pre-clinical and clinical testing and regulatory approval prior to commercial use. There can be no assurance that the Company's research and development efforts will be successful and that the Company's potential products will prove to be safe and effective in clinical trials. Even if developed, these products may not be successfully introduced and marketed at prices that would permit the Company to operate profitably.

The Company's operations are subject to various medical, environmental and other statutes and regulations. These statutes and regulations include federal, state and local laws and regulations that regulate the development, manufacture and sale of pharmaceutical products. The effects of penalties resulting from violations of these provisions could adversely affect the Company's ability to market, distribute and sell its products. The success of the Company's future operations could become dependent upon its ability to obtain approval from the Food and Drug Administration (FDA) to market certain new drugs. There can be no assurance that these unproven compounds will result in a new drug application (NDA) and that any NDA will be approved by the FDA.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant Accounting Policies

- a. *Cash and Cash Equivalents* Cash and cash equivalents consist of cash readily available in banks and money market accounts. The Company maintains all of its cash and cash equivalents at a limited number of financial institutions. Certain amounts are covered under a deposit insurance program. However, at various times during the year, the Company had deposits in excess of the insurance limit and at institutions which did not have a deposit insurance program. The aggregate amount of cash and cash equivalents not covered under a deposit insurance program at December 31, 2002 and 2001 was \$15,545,074 and \$11,666,306, respectively.
- b. *Research and Development Costs* Expenditures relating to research and development are expensed in the period incurred. Research and development costs also include the fair value of unproven compounds. The Company treated the unproven compounds as a capital contribution from FPI, since the transfer of unproven compounds was in substance for the Equity Purchase Option that FPI granted to Allergan. As of the date of transfer, the feasibility of the compounds had not been established and the compounds had no future alternative use in their current state.
- c. *Income Taxes* The Company is treated as a limited liability company for federal income tax and state franchise tax purposes. Accordingly, FPI, as the sole member of the Company, is responsible for federal and state tax liabilities arising out of the Company's operations.
- d. *Use of Estimates* The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- e. *Foreign Currency Transactions* Research and development activities are outsourced as discussed in Note 5. Certain research and development activities are performed by facilities in other countries and invoices are denominated in foreign currencies. The Company records the payable in United States dollars and pays the invoice in United States dollars. The difference

Table of Contents

between the spot rate at the point of invoice receipt and the point of payment results in foreign currency transaction gains or losses, which are reported in other income (expense) on the accompanying statement of operations.

- f. *Equipment* Equipment is stated at cost and depreciated over two years (computer equipment) or three years (other equipment) using the straight-line method. When assets are to be sold or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any gain or loss included in the statement of operations.

Recent Accounting Pronouncements In November 2002, the Financial Accounting Standards Board (FASB) issued Interpretation (FIN) No. 45, *Guarantor s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees and Indebtedness of Others*, and interpretation of FASB Statements No. 5, 57, and 107, and rescission of FASB Interpretation No. 34, *Disclosure of Indirect Guarantees of Indebtedness of Others*. FIN No. 45 elaborates on the disclosures to be made by the guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. It also requires that a guarantor recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and measurement provisions of this interpretation are applicable on a prospective basis to guarantees issued or modified after December 31, 2002, while the provisions of the disclosure requirements are effective for financial statements of interim or annual periods ending after December 15, 2002. The Company believes that the adoption of FIN No. 45 will not have a material impact on its financial position or results of operations.

In January 2003, the FASB issued FIN No. 46, *Consolidation of Variable Interest Entities*. In general, a variable interest entity is a corporation, partnership, trust, or any other legal structure used for business purposes that either (a) does not have equity investors with voting rights or (b) has equity investors that do not provide sufficient financial resources for the entity to support its activities. FIN No. 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The consolidation requirements apply to older entities in the first fiscal year or interim period beginning after June 15, 2003. Certain of the disclosure requirements apply in all financial statements issued after January 31, 2003, regardless of when the variable interest entity was established. The Company believes that the adoption of FIN No. 46 will not have a material impact on its financial position or results of operations because the Company has no variable interest entities.

4. ACCRUED LIABILITIES

Accrued liabilities consist of the following at December 31:

	2002	2001
Research and development costs	\$	\$6,321,580
Salaries and payroll taxes	81,848	43,924
Bonuses	99,663	84,483
Other	22,000	32,378
	<u>203,511</u>	<u>6,482,365</u>

Table of Contents**5. ORGANIZATION**

In April 2001, the Company entered into a series of agreements with Allergan Inc. (Allergan) and FPI. Upon formation of Bardeen, in order to provide Bardeen with working capital to perform research and development, FPI committed to the Capitalization Funding, which consists of \$250 million paid based on an annual payment plan agreed upon by Bardeen and FPI. The Capitalization Funding can be accelerated within limits at any time at the discretion of FPI. Payments received from FPI under the Capitalization Funding arrangement are recorded as capital contributions in the accompanying statement of member s equity.

Allergan and Bardeen also entered into the Technology Transfer Agreement, pursuant to which Allergan transferred certain rights to compounds (the Compounds) and associated intellectual property (the Property Rights) to Bardeen. The fair value of the Compounds and Property Rights already transferred to Bardeen was determined to be \$84.6 million as detailed in a valuation performed by an independent third party appraisal firm. As of the date of transfer, the feasibility of the Compounds had not been established and the Compounds had no future alternative uses in their current state. The Company treated the unproven compounds as a capital contribution from FPI, since the transfer of unproven compounds was in substance for the Equity Purchase Option (defined below) that FPI granted to Allergan. The unproven compounds were recorded as in-process research and development and are included in the research and development expenses on the accompanying statement of operations.

In partial consideration for the transfer of the Compounds and Property Rights to Bardeen, FPI granted Allergan an equity purchase option to acquire FPI s interest in Bardeen. The Equity Purchase Option (the Equity Purchase Option) becomes exercisable on the earlier of the following: (i) the date on which at least three Research Successes, as defined below, have occurred after the date of March 30, 2003; (ii) the date on which the Company notifies Allergan that a funding shortfall, as defined below, has occurred; or (iii) a change of law, as defined below.

A Research Success will mean either: (i) 30 days after the filing with the FDA of an Investigational New Drug for a Compound (IND), so long as the IND is not rejected (ii) the filing with the FDA of a protocol to begin, and commencement of, Phase III clinical trials of a Compound; or (iii) an NDA acceptance. A funding shortfall occurs when the sum of the amount in Bardeen s cash account dedicated to research and development operations, plus the Unfunded Amount, as defined below, is less than either (i) the amount required to fund Bardeen s anticipated activities during the following 90 days, or (ii) \$15 million (Funding Shortfall). A Change of Law is defined as a change or authoritative clarification in regulations, laws or generally accepted accounting principles that would materially and adversely change the relationship between Allergan and Bardeen or the manner in which Allergan accounts for Bardeen, and provided that Bardeen cannot be restructured in a manner that meets the revised or clarified requirements.

The exercise or strike price of the Equity Purchase Option varies depending on the date the option is exercised as outlined below:

Option exercised prior to March 30, 2002. The strike price equals (i) \$300 million less (ii) the Unfunded Amount as of the date of the call.

Option exercised after March 30, 2002, before March 30, 2003. The strike price equals (i) \$300 million, plus (ii) the product of \$60 million and (the fractional part of the year between March 30, 2002 and the date of the call), less (iii) the Unfunded Amount.

Table of Contents

Option exercised after March 30, 2003, before March 30, 2004. The strike price equals (i) \$360 million, plus (i) the product of \$72 million and (the fractional part of the year between March 30, 2003 and the date of the call), less (iii) the Unfunded Amount.

Option exercised after March 30, 2004, before March 30, 2005. The strike price equals (i) \$432 million, plus (ii) the product of \$68 million and (the fractional part of the year between March 30, 2004 and the date of the call), less (iii) the Unfunded Amount.

Option exercised after March 30, 2005, before March 30, 2006. The strike price equals (i) \$500 million, plus (ii) the product of \$100 million and (the fractional part of the year between March 30, 2005 and the date of the call), less (iii) the Unfunded Amount.

The Unfunded Amount shall mean an amount equal to \$250 million, less the aggregate actual amount of capital contributions made by FPI to Bardeen in the Capitalization Funding, not including the \$84.6 million for the fair value of the Compounds.

The Equity Purchase Option becomes void after the earlier of March 30, 2006 or 60 calendar days after Bardeen notifies Allergan in writing that a Funding Shortfall has occurred.

Additionally, Allergan received a License Option and a Product Purchase Option from Bardeen. These options are discussed further in Note 6.

The Board of Directors of Bardeen consists of five directors. As part of the agreements entered into by FPI and Allergan, Allergan has the right to nominate and currently holds a seat for one member of the Board of Directors. In addition, unanimous approval of the Board of Directors is required in order to (i) enter into any merger, liquidation or dissolution; (ii) purchase, in-license, sell, lease, exchange, transfer, license or otherwise dispose of, or acquire any material assets, including without limitation any compound, product or rights thereto; (iii) issue any additional membership interests or right or option to acquire any membership interests, or borrow or incur any indebtedness of the Company, or otherwise alter the capital structure in any way; (iv) agree or decide to cease funding related to the research and development of any compound; (v) adopt, revise or modify the strategic plan or incur obligations liabilities or expenditures in excess of 115% or less than 85% of the aggregate amount budgeted; (vi) take any actions outside the business purpose of the Company, as defined; (vii) select any portfolio addition; (viii) permit any member to withdraw capital from the Company; (ix) change the tax status of the Company; and (x) make or approve any amendment to the agreement to the extent that Allergan is a third-party beneficiary of the affected provision. As part of the agreements, the Company has the right, by unanimous consent of the Board of Directors, to direct Allergan to transfer up to 12 additional compounds to Bardeen without any further charge or other consideration. The additional compounds are selected from a listing provided by Allergan to Bardeen at the time of the request. In 2001, one new compound was transferred to Bardeen, but it was not considered one of the 12 additional compounds; rather, the Technology Transfer Agreement was amended to categorize the new compound as an Initial Compound.

6. COMMITMENTS AND CONTINGENCIES

In partial consideration for the Compounds and Property Rights, Bardeen also granted Allergan certain options and rights as described below.

Table of Contents

License Option Bardeen granted to Allergan an option to obtain an exclusive license of any Licensed Product, which is defined as any such licensed formulated pharmaceutical, chemical or biological product containing a compound, whether or not the product has received regulatory approval. The license granted under the License Option is an exclusive, royalty-bearing, worldwide license to develop, make, use, or sell the Licensed Product. The royalty rates on net sales payable to Bardeen upon exercise of the option for any Licensed Product have been agreed on for the initial nine compounds. The option to obtain an exclusive license of any Licensed Product can be granted during the period beginning on the date of NDA acceptance of the product and ending on the tenth anniversary thereof. The option can be exercised at any time after NDA acceptance, assuming NDA acceptance occurs before March 30, 2006 or 60 calendar days after Bardeen notifies Allergan in writing that a Funding Shortfall has occurred.

Right to Acquire Product Purchase Option Bardeen also granted to Allergan the right to acquire a one-time option to obtain a non-exclusive, royalty-free, perpetual, irrevocable, worldwide license to develop, make, have made, use, sell, have sold, offer for sale and import one Product of Allergan's choice for which regulatory approval has been obtained. The right to purchase the Product Purchase Option can only be exercised during the period prior to 110 days before March 30, 2006 or 60 calendar days after FPI notifies Allergan in writing that a Funding Shortfall has occurred. During this time period, the Product Purchase Option can be obtained upon the payment of \$25 million to Bardeen from Allergan. If Allergan exercises the Product Purchase Option, Allergan must pay Bardeen, in addition to the \$25 million, the fair value of the underlying Product acquired, as assessed by a pharmaceutical product valuation expert at the time of option exercise.

7. RELATED PARTY TRANSACTIONS

In April 2001, the Company entered into a research and development services agreement with Allergan whereby Allergan would conduct the research and development on the compounds owned by Bardeen through March 30, 2007. The agreement provides that Bardeen may terminate this arrangement at any time on 60 days' prior written notice to Allergan. The amount payable with respect to the work performed under any such work order shall include (i) Allergan's actual direct and indirect costs (including allocated overhead) associated with such work multiplied by 110%; (ii) Allergan's actual out-of-pocket costs incurred to subcontractors and other parties associated with such work without any mark-up; and (iii) costs incurred for the purchase of equipment, assets, intellectual property and the like associated with such work, as approved by Bardeen, also without any Allergan mark-up. The cost to Bardeen of research and development services performed (or subcontracted) by Allergan totaled \$68.1 million and \$46 million in 2002 and the period ended December 31, 2001, respectively. Research and development expense for the period ended December 31, 2001 reported as \$130.6 million in the Statement of Operations, includes the fair value of the Compounds and Property rights transferred to Bardeen (see Note 5). At December 31, 2002 and 2001, \$15.1 million and \$13.3 million, respectively, in research and development expenses incurred by Allergan were included in accounts payable and accrued liabilities on the accompanying balance sheets.

The Company has outsourced all of its research and development to Allergan, and as such, is heavily dependent upon Allergan. If research and development activities at Allergan are interrupted, it could have a material adverse impact on the Company's operations. So long as Bardeen has given its prior consent, Allergan may subcontract research and development activities to third party vendors who are reasonably acceptable to Bardeen. Bardeen shall retain the right to select and reject such vendors; however, Allergan shall at all times remain responsible to Bardeen for the due and proper performance of the research and development services in accordance with the Research and Development Services Agreement. During 2002 and 2001, over 40% of the research and development activities were subcontracted to third parties (see Notes 5 and 6).

NOTES TO UNAUDITED FINANCIAL STATEMENTS

**THREE MONTH PERIODS ENDED MARCH 31, 2003 AND 2002
AND THE PERIOD FROM MARCH 20, 2001 (DATE OF INCEPTION) TO MARCH 31, 2003**

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The unaudited balance sheet as of March 31, 2003 and the unaudited statements of operations and cash flows for the three month periods ended March 31, 2003 and 2002 and the period from March 20, 2001 (date of inception) to March 31, 2003 have been prepared in accordance with generally accepted accounting principles for interim financial information and with Article 10 of Regulation S-X. Accordingly, the unaudited financial statements do not include all of the information and notes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting only of adjustments of a normal and recurring nature) considered necessary for a fair presentation of the information for the interim periods herein reported have been included. Operating results for the three month period ended March 31, 2003 are not necessarily indicative of the results that might be expected for the year ended December 31, 2003.

The unaudited financial statements should be read in conjunction with the audited financial statements included in Item 7(a)(1) above.

2. COMMITMENTS AND CONTINGENCIES

In partial consideration for the Compounds and Property Rights, Bardeen also granted Allergan certain options and rights as described below.

License Option Bardeen granted to Allergan an option to obtain an exclusive license of any licensed product, which is defined as any such licensed formulated pharmaceutical, chemical or biological product containing a compound, whether or not the product has received regulatory approval. The license granted under the license option is an exclusive, royalty-bearing, worldwide license to develop, make, use, or sell the licensed product. The royalty rates on net sales payable to Bardeen upon exercise of the option for any licensed product have been agreed on for the initial nine compounds. The option to obtain an exclusive license of any licensed product can be granted during the period beginning on the date of NDA acceptance of the product and ending on the tenth anniversary thereof. The option can be exercised at any time after NDA acceptance, assuming NDA acceptance occurs before March 30, 2006 or 60 calendar days after Bardeen notifies Allergan in writing that a funding shortfall has occurred.

Right to Acquire Product Purchase Option Bardeen also granted to Allergan the right to acquire a one-time option to obtain a non-exclusive, royalty-free, perpetual, irrevocable, worldwide license to develop, make, have made, use, sell, have sold, offer for sale and import one product of Allergan's choice for which regulatory approval has been obtained. The right to purchase the product purchase option can only be exercised during the period prior to 110 days before March 30, 2006 or 60 calendar days after Farallon Pharma Investors, LLC notifies Allergan in writing that a funding shortfall has occurred. During this time period, the product purchase option can be obtained upon the payment of

Table of Contents

\$25 million to Bardeen from Allergan. If Allergan exercises the product purchase option, Allergan must pay Bardeen, in addition to the \$25 million, the fair value of the underlying product acquired, as assessed by a pharmaceutical product valuation expert at the time of option exercise.

3. SUBSEQUENT EVENT

On May 16, 2003, Allergan announced that it completed its acquisition of all of the outstanding equity interests in Bardeen from Farallon Pharma Investors, LLC. The acquisition occurred through the exercise of a previously granted equity purchase option that became exercisable on April 7, 2003. The option purchase price of approximately \$263 million was determined pursuant to a formula established at the time of the grant of the equity purchase option.

Table of Contents

(b) Pro Forma Financial Information

The following unaudited pro forma financial information is included in this report:

- (1) Unaudited pro forma combined condensed balance sheet of Allergan, Inc. and Bardeen Sciences Company, LLC at March 28, 2003, as if the acquisition had occurred on that date.
- (2) Unaudited pro forma combined condensed statement of earnings of Allergan, Inc. and Bardeen Sciences Company, LLC for the three months ended March 28, 2003, as if the acquisition had occurred on January 1, 2002.
- (3) Unaudited pro forma combined condensed statement of earnings of Allergan, Inc. and Bardeen Sciences Company, LLC for the year ended December 31, 2002, as if acquisition had occurred on January 1, 2002.
- (4) Notes to unaudited pro forma combined condensed financial statements.

UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL STATEMENTS

On May 16, 2003 Allergan acquired all of the outstanding equity interests in Bardeen, a development stage company organized to research, develop, test, license, produce and market various pharmaceutical products derived from certain unproven compounds, products and technologies, for an aggregate cash purchase price of \$263.1 million.

The following unaudited pro forma combined condensed balance sheet as of March 28, 2003 presents the unaudited pro forma financial condition of Allergan as if Allergan had acquired Bardeen as of March 28, 2003. The following unaudited pro forma combined condensed statements of earnings for the three months ended March 28, 2003 and the year ended December 31, 2002 present unaudited pro forma operating results for Allergan as if Allergan had acquired Bardeen as of January 1, 2002.

The unaudited pro forma information is presented for informational purposes only and is not necessarily indicative of the operating results or financial position that would have occurred had the acquisition been consummated at the dates indicated, nor is it necessarily indicative of future operating results or financial position of Allergan following the acquisition. Furthermore, the unaudited pro forma financial information presented does not consider any future events that may occur after the date of the acquisition. The unaudited pro forma financial information presented does not attempt to quantify any operating expense synergies or cost reductions of the combined operations of Allergan and Bardeen that may be realized after the date of the acquisition. Nor does the unaudited pro forma financial information consider the incremental expense or capital costs that may be incurred as a result of the acquisition. The unaudited pro forma combined condensed financial statements, including the notes thereto, are qualified in their entirety by reference to, and should be read in conjunction with, the historical financial statements of Allergan in Allergan's quarterly report on Form 10-Q for the quarter ended March 28, 2003, Allergan's annual report on Form 10-K for the year ended December 31, 2002, and the audited and unaudited financial statements of Bardeen presented in Item 7(a) above.

Table of Contents**NOTES TO UNAUDITED PRO FORMA COMBINED CONDENSED
FINANCIAL STATEMENTS**

The pro forma financial statements and related notes give effect to the acquisition accounted for as a purchase of net assets. The pro forma balance sheet has been prepared as if the acquisition was completed as of March 28, 2003 and the pro forma statements of earnings have been prepared as if the acquisition was completed on January 1, 2002. The acquisition was consummated on May 16, 2003.

All interim financial data used to develop the unaudited pro forma combined condensed balance sheet as of March 28, 2003 and statements of earnings for the three months ended March 28, 2003 and for the year ended December 31, 2002 are unaudited, but in the opinion of management, reflect all adjustments necessary (consisting only of normal recurring entries) for a fair presentation thereof.

The unaudited pro forma combined condensed statements of earnings for the three months ended March 28, 2003 and the year ended December 31, 2002 are not necessarily indicative of operating results which would have been achieved had the acquisition been consummated on January 1, 2002 and should not be construed as representative of future earnings.

Under purchase accounting, the total acquisition cost was allocated to Bardeen's assets and liabilities based on their relative fair values as of March 28, 2003. The final purchase price allocations as of May 16, 2003 will differ from the amounts reflected herein due to expected changes in Bardeen's net tangible assets from March 31, 2003 to May 16, 2003. Allergan's pro forma analysis at March 28, 2003 resulted in an allocation of \$263.2 million to in-process research and development, which, under generally accepted accounting principles, would be expensed immediately after the acquisition was completed and, therefore, has been reflected as an adjustment, net of tax, to retained earnings at March 28, 2003. The unaudited pro forma combined condensed statements of earnings for the three months ended March 28, 2003 and for the year ended December 31, 2002 exclude the pro forma \$263.2 million pre-tax write-off of in-process research and development.

- (a) Reflects the estimated purchase price allocations and the adjustment to retained earnings at March 28, 2003 for the write-off of in-process research and development.
(in millions)

Estimated purchase price:	
Cash purchase price for Bardeen equity interests at May 16, 2003	\$ 263.1
Add: Actual and estimated cash transactions costs	1.0
Intangible contract-based product marketing and other rights	12.8
	<u>276.9</u>
Less: Bardeen cash on hand at March 31, 2003	(25.6)
	<u>Purchase price, net of cash acquired</u>
	<u>\$ 251.3</u>
Estimated fair value of assets acquired and liabilities assumed:	
Intangible assets - In-process research and development	\$ 263.2
Liabilities assumed	(11.9)
	<u>\$ 251.3</u>
Estimated write-off of in-process research and development:	
Estimated fair value of in-process research and development at March 28, 2003	\$ 263.2
Estimated tax benefit (\$94.8 million reflected as a non-current deferred tax asset; \$0.4 million reflected as a current tax benefit)	(95.2)
	<u>Write-off of in-process research and development, net of tax, reflected as an adjustment to retained earnings at March 28, 2003</u>
	<u>\$ 168.0</u>

Table of Contents

Actual and estimated transaction costs associated with the purchase of Bardeen's net assets include legal, accounting, appraisal and regulatory fees. The intangible contract-based product marketing and other rights are capitalized assets and relate to the value of certain contractual rights held by Allergan including: an option to purchase any one product developed by Bardeen for a payment of \$25 million; commercialization rights which are triggered only upon FDA (or similar regulatory body) acceptance of any product developed by Bardeen; and an option by Allergan to purchase all but not less than all, upon the occurrence of certain events, of the outstanding equity interests in Bardeen. Because Allergan exercised its option to acquire all of the outstanding equity interests in Bardeen, the value of the product marketing and other rights will be included in the purchase price and related purchase price allocation.

- (b) Eliminate Bardeen's accounts payable due to Allergan at March 31, 2003 and Allergan's receivables due from Bardeen for research services activities.
- (c) Eliminate Bardeen's equity accounts at March 31, 2003.
- (d) Reflects interest income forgone on approximately \$238.5 million of cash equivalents earning interest representing the cash purchase price for Bardeen's equity interests and cash transaction costs, net of cash acquired, calculated at 1.25% for the three months ended March 28, 2003 and for the year ended December 31, 2002.
- (e) Eliminate Allergan's research service revenues, cost of research services and research service margin related to a research and development services agreement with Bardeen.
- (f) Tax benefit resulting from Bardeen's pre-tax loss for the three months ended March 31, 2003 and the year ended December 31, 2002 and pro forma adjustments for the three months ended March 28, 2003 and for the year ended December 31, 2002 calculated using an estimated incremental effective tax rate of 38.0%.

(in millions)	For the	
	Three months ended March 28, 2003	Year ended December 31, 2002
Pre-tax Bardeen loss	\$(16.7)	\$ (68.0)
Net pre-tax pro forma adjustments	(0.7)	(3.0)
	(17.4)	(71.0)
Tax rate	38.0%	38.0%
Tax benefit	\$ (6.6)	\$ (27.0)

- (g) The Company does not believe the pro forma combined effective tax rate is necessarily indicative of the Company's future estimated annual effective tax rate.
