UNAUDITED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Three and Nine Months Ended March 31, 2015

(Tabular amounts in thousands, except share and per share data)

NOTE 1—BASIS OF PRESENTATION

The accompanying Condensed Consolidated Financial Statements include the accounts of Open Text Corporation and our wholly-owned and majority-owned subsidiaries, collectively referred to as "OpenText" or the "Company". Our majority owned subsidiaries include Open Text South Africa Proprietary Ltd. (OT South Africa), GXS, Inc. (GXS Korea) and EC1 Pte. Ltd. (GXS Singapore), which as of March 31, 2015, were 90%, 85% and 81% owned, respectively, by OpenText.

Throughout this Quarterly Report on Form 10-Q: (i) the term "Fiscal 2015" means our fiscal year beginning on July 1, 2014 and ending June 30, 2015; (ii) the term "Fiscal 2014" means our fiscal year beginning on July 1, 2013 and ending June 30, 2014; (iii) the term "Fiscal 2013" means our fiscal year beginning on July 1, 2012 and ending June 30, 2013; and (iv) the term "Fiscal 2012" means our fiscal year beginning on July 1, 2011 and ending June 30, 2012.

These Condensed Consolidated Financial Statements are expressed in U.S. dollars and are prepared in accordance with United States generally accepted accounting principles (U.S. GAAP). The information furnished reflects all adjustments necessary for a fair presentation of the results for the periods presented and includes the financial results of Informative Graphics Corporation (IGC), with effect from January 2, 2015, and Actuate Corporation (Actuate), with effect from January 16, 2015 (see note 18).

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates, judgments and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements. These estimates, judgments and assumptions are evaluated on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe are reasonable at that time, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from those estimates. In particular, significant estimates, judgments and assumptions include those related to: (i) revenue recognition, (ii) allowance for doubtful accounts, (iii) testing of goodwill for impairment, (iv) the valuation of acquired intangible assets, (v) the valuation of long-lived assets, (vi) the recognition of contingencies, (vii) restructuring accruals, (viii) acquisition accruals and pre-acquisition contingencies, (ix) asset retirement obligations, (x) the realization of investment tax credits, (xi) the valuation of stock options granted and obligations related to share-based payments, including the valuation of our long-term incentive plan, (xii) the valuation of financial instruments, (xiii) the valuation of pension assets and obligations, and (xiv) accounting for income taxes.

Reclassifications

Certain prior year balances have been reclassified to conform to the current year's presentation. Such reclassifications were not considered material and did not affect our consolidated total revenues, consolidated income from operations or consolidated net income.

NOTE 2—ACCOUNTING POLICIES UPDATE AND RECENT ACCOUNTING PRONOUNCEMENTS

Accounting Policy Updates

Short-Term Investments

In accordance with Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) Topic 320 "Investments - Debt and Equity Securities" (Topic 320) related to accounting for certain investments in debt and equity securities, and based on our intentions regarding these instruments, we classify our marketable securities as available for sale and account for these investments at fair value. Marketable securities consist primarily of high quality debt securities with original maturities over 90 days, and may include corporate notes, United States government agency notes and municipal notes.

Recent Accounting Pronouncements

Presentation of Debt Issuance Costs

In April 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-03 "Simplifying the Presentation of Debt Issuance Costs" (ASU 2015-03). This update amended the ASC Subtopic 835-30, "Interest - Imputation of Interest" to simplify the presentation of debt issuance costs by requiring that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. ASU 2015-03 is effective for our fiscal year ending June 30, 2017, with early adoption permitted. We believe the pending adoption of ASU 2015-03 will not have a material impact on our consolidated financial statements.

Disclosure of Going Concern Uncertainties:

In August 2014, the FASB issued ASU No. 2014-15 "Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern" (ASU 2014-15). ASU 2014-15 provides guidance on management's responsibility in evaluating whether there is substantial doubt about a company's ability to continue as a going concern and about related footnote disclosures. For each reporting period, management will be required to evaluate whether there are conditions or events that raise substantial doubt about a company's ability to continue as a going concern within one year from the date the financial statements are issued. ASU 2014-15 is effective for our fiscal year ending June 30, 2017, with early adoption permitted. We do not believe the pending adoption of ASU 2014-15 will have a material impact on our consolidated financial statements.

Revenue Recognition

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers: Topic 606" (ASU 2014-09). This update supersedes the revenue recognition requirements in ASC Topic 605, "Revenue Recognition" and nearly all other existing revenue recognition guidance under U.S. GAAP. The core principal of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. ASU 2014-09 identifies five steps to be followed to achieve this core principal, which includes (i) identifying contract(s) with customers, (ii) identifying performance obligations in the contract, (iii) determining the transaction price, (iv) allocating the transaction price to the performance obligations in the contract(s) and (v) recognizing revenue when (or as) the entity satisfies a performance obligation. On April 1, 2015 the FASB voted to defer the effective date of ASU 2014-09 for one year. ASU 2014-09 is now effective for us in the first quarter of our fiscal year ending June 30, 2019. Early adoption is not permitted. When applying ASU 2014-09 we can either apply the amendments: (i) retrospectively to each prior reporting period presented with the option to elect certain practical expedients as defined within ASU 2014-09 or (ii) retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application and providing certain additional disclosures as defined within ASU 2014-09. We are currently evaluating the impact of the pending adoption of ASU 2014-09 on our consolidated financial statements.

The weighted average amortization periods for acquired technology and customer intangible assets are approximately five years and six years, respectively.

The following table shows the estimated future amortization expense for the fiscal years indicated below. This calculation assumes no future adjustments to acquired intangible assets:

	Fiscal years ending June 30,
2015 (three months ended June 30)	\$ 51,197
2016	181,453
2017	164,266
2018	151,573
2019 and beyond	182,184
Total	\$ 730,673

NOTE 7—OTHER ASSETS

	As of March 31, 2015	As of June 30, 2014
Debt issuance costs	\$ 31,580	\$ 19,834
Deposits and restricted cash	12,335	14,251
Deferred implementation costs	9,911	5,409
Cost basis investments	9,724	7,276
Marketable securities	11,182	—
Long-term prepaid expenses and other long-term assets	9,491	5,271
Total	\$ 84,223	\$ 52,041

Debt issuance costs relate primarily to costs incurred for the purpose of obtaining our credit facilities and the Senior Notes (as defined in note 10 below), and are being amortized over the respective terms of the debt agreements. During the three and nine months ended March 31, 2015 we wrote off \$2.9 million, respectively, of unamortized debt issuance costs associated with the repayment of Term Loan A (see note 10).

Deposits and restricted cash relate to security deposits provided to landlords in accordance with facility lease agreements and cash restricted per the terms of contractual-based agreements.

Deferred implementation costs relate to deferred direct and relevant costs on implementation of long-term contracts, to the extent such costs can be recovered through guaranteed contract revenues.

Marketable securities are classified as available for sale securities and are recorded on our Condensed Consolidated Balance Sheets at fair value with unrealized gains or losses reported as a separate component of Accumulated Other Comprehensive Income.

Cost basis investments relate to investments for which the Company holds less than a 20% interest, is a limited partner and does not exert significant influence over operational or investment decisions.

Long-term prepaid expenses and other long-term assets primarily relate to advance payments on long-term licenses that are being amortized over the applicable terms of the licenses.

NOTE 8—DEFERRED CHARGES AND CREDITS

Deferred charges and credits relate to cash taxes payable and the elimination of deferred tax balances relating to legal entity consolidations completed as part of internal reorganizations of our international subsidiaries. Deferred charges and credits are amortized to income tax expense over a period of 6 to 15 years.

NOTE 9—ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Current liabilities

Accounts payable and accrued liabilities are comprised of the following:

	As of March 31, 2015	As of June 30, 2014
Accounts payable—trade	\$18,003	\$16,025
Accrued salaries and commissions	68,550	80,991
Accrued liabilities	106,651	121,558
Accrued interest on the Senior Notes	9,375	—
Amounts payable in respect of restructuring and other Special charges (note 17)	8,438	11,694
Asset retirement obligations	1,380	1,686
Total	\$212,397	\$231,954

Long-term accrued liabilities

	As of March 31, 2015	As of June 30, 2014
Amounts payable in respect of restructuring and other Special charges (note 17)	\$1,115	\$4,531
Other accrued liabilities*	22,397	29,331
Asset retirement obligations	7,290	8,137
Total	\$30,802	\$41,999

* Other accrued liabilities consist primarily of tenant allowances, deferred rent and lease fair value adjustments relating to certain facilities acquired through business acquisitions.

Asset retirement obligations

We are required to return certain of our leased facilities to their original state at the conclusion of our lease. We have accounted for such obligations in accordance with ASC Topic 410 “Asset Retirement and Environmental Obligations” (Topic 410). As of March 31, 2015, the present value of this obligation was \$8.7 million (June 30, 2014—\$9.8 million), with an undiscounted value of \$9.2 million (June 30, 2014—\$10.4 million).

NOTE 10—LONG-TERM DEBT

Long-term debt

Long-term debt is comprised of the following:

	As of March 31, 2015	As of June 30, 2014
Total debt		
Senior Notes	\$ 800,000	\$—
Term Loan A	—	513,750
Term Loan B	790,000	796,000
Mortgage	7,802	9,582
	1,597,802	1,319,332
Less:		
Current portion of long-term debt		
Term Loan A	—	45,000
Term Loan B	8,000	8,000
Mortgage	7,802	9,582
	15,802	62,582
Non-current portion of long-term debt	\$ 1,582,000	\$ 1,256,750

Senior Unsecured Fixed Rate Notes

On January 15, 2015, we issued \$800.0 million in aggregate principal amount of our 5.625% Senior Notes due 2023 (the Senior Notes) in a private placement to initial purchasers in connection with offerings pursuant to Rule 144A and Regulation S under the Securities Act of 1933, as amended. The Senior Notes bear interest at a rate of 5.625% per annum and are payable semi-annually in arrears on January 15 and July 15, commencing on July 15, 2015. The Senior Notes will mature on January 15, 2023, unless earlier redeemed, in accordance with their terms, or repurchased. For the three and nine months ended March 31, 2015, we recorded interest expense of \$9.4 million, respectively, relating to the Senior Notes.

Term Loan A and Revolver

Prior to January 15, 2015, one of our credit facilities consisted of a \$600 million term loan facility (Term Loan A) and a \$300 million committed revolving credit facility (the Revolver and, together with Term Loan A, defined as the 2011 Credit Agreement).

On January 15, 2015, concurrently with the closing of the offering of the Senior Notes, we used a portion of the net proceeds from the offering of the Senior Notes to repay in full, the outstanding balance of Term Loan A.

Term Loan A had a five year term and repayments made under Term Loan A were equal to 1.25% of the original principal amount at each quarter for the first 2 years, approximately 1.88% for years 3 and 4 and 2.5% for year 5. Term Loan A bore interest at a floating rate of LIBOR plus a fixed amount, depending on our consolidated leverage ratio. Prior to the repayment of Term Loan A, the fixed amount was 2.5%.

For the three and nine months ended March 31, 2015, we recorded interest expense of \$0.6 million and \$7.7 million, respectively, relating to Term Loan A (three and nine months ended March 31, 2014—\$3.2 million and \$10.1 million, respectively).

On January 15, 2015, concurrently with the closing of the offering of the Senior Notes and effective upon the repayment in full of Term Loan A with a portion of the net proceeds of the offering, the 2011 Credit Agreement was amended and restated as described in the second amendment to the 2011 Credit Agreement to, among other things, remove the provisions related to Term Loan A and modify certain provisions related to the incurrence of debt and liens and the making of acquisitions, investments and restricted payments, replace the covenants to maintain a “consolidated leverage” ratio of no more than 3:1 and a “consolidated interest coverage” ratio of 3:1 or more with a covenant to maintain a “consolidated net leverage” ratio of no more than 4:1, and make other changes, in each case, generally to conform with Term Loan B, as further described below.

Borrowings under the Revolver are secured by a first charge over substantially all of our assets, and as of January 16, 2014, on a pari passu basis with Term Loan B (as defined below). As part of the second amendment to the 2011 Credit Agreement, the commitments available under the Revolver was increased to \$300 million from \$100 million. The Revolver

will mature on December 22, 2019 with no fixed repayment date prior to the end of the term. As of March 31, 2015, we have not drawn any amounts on the Revolver.

Term Loan B

In connection with the acquisition of GXS Group, Inc. (GXS), on January 16, 2014, we entered into a credit facility, which provides for a \$800 million term loan facility (Term Loan B).

Borrowings under Term Loan B are secured by a first charge over substantially all of our assets on a pari passu basis with the Revolver. We entered into Term Loan B and borrowed the full amount on January 16, 2014.

Term Loan B has a seven year term and repayments made under Term Loan B are equal to 0.25% of the original principal amount in equal quarterly installments for the life of Term Loan B, with the remainder due at maturity.

Borrowings under Term Loan B currently bear a floating rate of interest at a rate per annum equal to 2.5% plus the higher of LIBOR or 0.75%.

For the three and nine months ended March 31, 2015, we recorded interest expense of \$6.4 million and \$19.6 million, respectively, relating to Term Loan B (three and nine months ended March 31, 2014—\$5.3 million, respectively).

Mortgage

We currently have an "open" mortgage with a Canadian bank where we can pay all or a portion of the mortgage on or before August 1, 2015. The original principal amount of the mortgage was Canadian \$15.0 million and interest accrues monthly at a variable rate of Canadian prime plus 0.50%. Principal and interest are payable in monthly installments of approximately Canadian \$0.1 million with a final lump sum principal payment due on maturity. The mortgage is secured by a lien on our headquarters in Waterloo, Ontario, Canada. We first entered into this mortgage in December 2005.

As of March 31, 2015, the carrying value of the mortgage was approximately \$7.8 million (June 30, 2014—\$9.6 million).

As of March 31, 2015, the carrying value of the Waterloo building that secures the mortgage was \$15.5 million (June 30, 2014—\$15.6 million).

For the three and nine months ended March 31, 2015, we recorded interest expense of approximately \$0.1 million and \$0.3 million, respectively, relating to the mortgage (three and nine months ended March 31, 2014—\$0.1 million and \$0.3 million, respectively).

NOTE 11—PENSION PLANS AND OTHER POST RETIREMENT BENEFITS

The following table provides details of our defined benefit pension plans and long-term employee benefit obligations for Open Text Document Technologies GmbH (CDT), GXS GmbH (GXS GER) and GXS Philippines, Inc. (GXS PHP) as of March 31, 2015 and June 30, 2014:

* The current portion of the benefit obligation has been included within "Accounts payable and accrued liabilities" in the Condensed Consolidated Balance Sheets.

Defined Benefit Plans

CDT Plan

CDT sponsors an unfunded defined benefit pension plan covering substantially all CDT employees (CDT pension plan) which provides for old age, disability and survivors' benefits. Benefits under the CDT pension plan are generally based on age at retirement, years of service and the employee's annual earnings. The net periodic cost of this pension plan is determined using the projected unit credit method and several actuarial assumptions, the most significant of which are the discount rate and estimated service costs. No contributions have been made since the inception of the plan. Actuarial gains or losses in excess of 10% of the projected benefit obligation are being amortized and recognized as a component of net periodic benefit costs over the average remaining service period of the plan's active employees. As of March 31, 2015, there is approximately \$0.1 million in accumulated other comprehensive income related to the CDT pension plan that is expected to be recognized as a component of net periodic benefit costs over the next fiscal year.

GXS Germany Plan

As part of our acquisition of GXS, we acquired an unfunded defined benefit pension plan covering certain German employees which provides for old age, disability and survivors' benefits. The GXS GER plan has been closed to new participants since 2006. Benefits under the GXS GER plan are generally based on a participant's remuneration, date of hire, years of eligible service and age at retirement. The net periodic cost of this pension plan is determined using the projected unit credit method and several actuarial assumptions, the most significant of which are the discount rate and estimated service costs. No contributions have been made since the inception of the plan. If actuarial gains or losses are in excess of 10% of the projected benefit obligation, such gains or losses will be amortized and recognized as a component of net periodic benefit costs over the average remaining service period of the plan's active employees. All information presented below for the GXS GER plan is presented for the period indicated, starting on January 16, 2014, when such plan was assumed by us with the acquisition of GXS.

GXS Philippines Plan

As part of our acquisition of GXS, we acquired a primarily unfunded defined benefit pension plan covering substantially all of the GXS Philippines employees which provides for retirement, disability and survivors' benefits. Benefits under the GXS PHP plan are generally based on a participant's remuneration, years of eligible service and age at retirement. The net periodic cost of this pension plan is determined using the projected unit credit method and several actuarial assumptions, the most significant of which are the discount rate and estimated service costs. Aside from an initial contribution which had a fair value of approximately \$36.0 thousand as of March 31, 2015, no additional contributions have been made since the inception of the plan. If actuarial gains or losses are in excess of 10% of the projected benefit obligation, such gains or losses will be amortized and recognized as a component of net periodic benefit costs over the average remaining service period of the plan's active employees. All information presented below for the GXS PHP plan is presented for the period indicated, starting on January 16, 2014, when such plan was assumed by us with the acquisition of GXS.

The following are the details of the change in the benefit obligation for each of the above mentioned pension plans for the periods indicated:

Total	\$7,972	\$8,541	\$1,489

Other Plans

Other plans include defined benefit pension plans that are offered by certain of our foreign subsidiaries. Many of these plans were assumed through our acquisitions or are required by local regulatory requirements. These other plans are primarily unfunded, with the aggregate projected benefit obligation included in our pension liability. The net periodic cost of these plans are determined using the projected unit credit method and several actuarial assumptions, the most significant of which are the discount rate and estimated service costs.

NOTE 12—SHARE CAPITAL, OPTION PLANS AND SHARE-BASED PAYMENTS

Cash Dividends

For the three and nine months ended March 31, 2015, pursuant to the Company's dividend policy, we declared total non-cumulative dividends of \$0.1725 and \$0.5175, respectively, per Common Share, in the amount of \$21.1 million and \$63.2 million, respectively, which we paid during the same period.

For the three and nine months ended March 31, 2014, pursuant to the Company's dividend policy, we paid total non-cumulative dividends of \$0.15 and \$0.45, respectively, per Common Share, in the amount of \$18.2 million and \$53.7 million, respectively.

Share Capital

Our authorized share capital includes an unlimited number of Common Shares and an unlimited number of Preference Shares. No Preference Shares have been issued.

Treasury Stock

Repurchase

During the three and nine months ended March 31, 2015, we repurchased 22,222 of our Common Shares, respectively, in the amount of \$1.3 million, respectively, for potential reissuance under our Long Term Incentive Plans (LTIP) or otherwise.

During the three and nine months ended March 31, 2014, we repurchased 25,760 of our Common Shares, respectively, in the amount of \$1.3 million, respectively, for potential reissuance under our LTIPs or otherwise.

Reissuance

During the three and nine months ended March 31, 2015, we reissued 22,222 and 377,775 Common Shares, respectively, from treasury stock (three and nine months ended March 31, 2014— 22,222 and 410,564 Common Shares, respectively), in connection with the settlement of our LTIPs and other awards. For more details on this, see "Long Term Incentive Plans" below.

Share-Based Payments

Total share-based compensation expense for the periods indicated below is detailed as follows:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2015	2014	2015	2014
Stock options	\$3,461	\$2,437	\$8,875	\$5,447

Summary of Outstanding Stock Options

As of March 31, 2015, options to purchase an aggregate of 4,625,555 Common Shares were outstanding and 2,856,328 Common Shares were available for issuance under our stock option plans. Our stock options generally vest over four years and expire between seven and ten years from the date of the grant. Currently we also have options outstanding that vest over five years, as well as options outstanding that vest based on meeting certain market conditions. The exercise price of all our options is set at an amount that is not less than the closing price of our Common Shares on the NASDAQ on the trading day immediately preceding the applicable grant date.

A summary of activity under our stock option plans for nine months ended March 31, 2015 is as follows:

	Options	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (\$'000s)
Outstanding at June 30, 2014	4,273,226	\$36.35

Exercisable at March 31, 2015	1,263,959	\$31.58	3.83	\$ 26,931

We estimate the fair value of stock options using the Black-Scholes option-pricing model or, where appropriate, the Monte Carlo Valuation Method, consistent with the provisions of ASC Topic 718, "Compensation—Stock Compensation" (Topic 718) and SEC Staff Accounting Bulletin No. 107. The option-pricing models require input of subjective assumptions, including the estimated life of the option and the expected volatility of the underlying stock over the estimated life of the option. We use historical volatility as a basis for projecting the expected volatility of the underlying stock and estimate the expected life of our stock options based upon historical data.

We believe that the valuation techniques and the approach utilized to develop the underlying assumptions are appropriate in calculating the fair value of our stock option grants. Estimates of fair value are not intended, however, to predict actual future events or the value ultimately realized by employees who receive equity awards.

For the periods indicated, the weighted-average fair value of options and weighted-average assumptions were as follows:

	Three Months Ended March 31,		Nine Months Ended March 31,		
	2015	2014	2015	2014	
Weighted-average fair value of options granted	\$13.35	\$12.60	\$13.59	\$11.53

As of March 31, 2015, the total compensation cost related to the unvested stock option awards not yet recognized was approximately \$37.1 million, which will be recognized over a weighted-average period of approximately 2.6 years. No cash was used by us to settle equity instruments granted under share-based compensation arrangements. We have not capitalized any share-based compensation costs as part of the cost of an asset in any of the periods presented.

For the three and nine months ended March 31, 2015, cash in the amount of \$3.1 million and \$10.7 million, respectively, was received as the result of the exercise of options granted under share-based payment arrangements. The tax benefit realized by us during the three and nine months ended March 31, 2015 from the exercise of options eligible for a tax deduction was \$0.1 million and \$0.9 million, respectively.

For the three and nine months ended March 31, 2014, cash in the amount of \$13.5 million and \$17.7 million, respectively, was received as the result of the exercise of options granted under share-based payment arrangements. The tax benefit realized by us during the three and nine months ended March 31, 2014 from the exercise of options eligible for a tax deduction was \$0.8 million and \$1.4 million, respectively.

Long-Term Incentive Plans

We incentivize our executive officers, in part, with long term compensation pursuant to our LTIP. The LTIP is a rolling three year program that grants eligible employees a certain number of target Performance Share Units (PSUs) and/or Restricted Share Units (RSUs). Target PSUs become vested upon the satisfaction of certain financial and/or operational performance criteria (the Performance Conditions) that are determined at the time of the grant. Target RSUs become vested when an eligible employee remains employed throughout the vesting period. LTIP grants that have recently vested, or have yet to vest, are described below. LTIP grants will be referred to in this Quarterly Report on Form 10-Q based upon the year in which the grants are expected to vest and be settled.

Grants made in Fiscal 2012 under the LTIP (collectively referred to as Fiscal 2014 LTIP) took effect in Fiscal 2012 starting on February 3, 2012. Grants made under the Fiscal 2014 LTIP consisted of PSUs and the Performance Conditions for vesting relating to grants were based solely on market conditions. We met these performance conditions and settled Fiscal 2014 LTIP by issuing 355,553 Common Shares from our treasury stock in the three months ended December 31, 2014, with a cost of approximately \$8.5 million.

Grants made in Fiscal 2013 under the LTIP (collectively referred to as Fiscal 2015 LTIP) took effect in Fiscal 2013 starting on November 2, 2012 for the RSUs and December 3, 2012 for the PSUs. The Performance Conditions for vesting of the PSUs are based solely upon market conditions. RSUs granted are employee service-based awards and vest over the life of the Fiscal 2015 LTIP. We expect to settle the Fiscal 2015 LTIP awards in stock.

Grants made in Fiscal 2014 under the LTIP (collectively referred to as Fiscal 2016 LTIP) took effect in Fiscal 2014 starting on November 1, 2013. The Performance Conditions for vesting of the PSUs are based solely upon market conditions. RSUs granted are employee service-based awards and vest over the life of the Fiscal 2016 LTIP. We expect to settle the Fiscal 2016 LTIP awards in stock.

Grants made in Fiscal 2015 under the LTIP (collectively referred to as Fiscal 2017 LTIP), consisting of PSUs and RSUs, took effect in Fiscal 2015 starting on September 4, 2014. The Performance Conditions for vesting of the PSUs are based solely

upon market conditions. The RSUs are employee service-based awards and vest over the life of the Fiscal 2017 LTIP. We expect to settle the Fiscal 2017 LTIP awards in stock.

PSUs and RSUs granted under the LTIPs have been measured at fair value as of the effective date, consistent with Topic 718, and will be charged to share-based compensation expense over the remaining life of the plan. Stock options granted under the LTIPs have been measured using the Black-Scholes option-pricing model, consistent with Topic 718. We estimate the fair value of PSUs using the Monte Carlo pricing model and RSUs have been valued based upon their grant date fair value.

As of March 31, 2015, the total expected compensation cost related to the unvested LTIP awards not yet recognized was \$13.4 million, which is expected to be recognized over a weighted average period of 1.9 years.

Restricted Share Units (RSUs)

During the three and nine months ended March 31, 2015, we granted 30,000 and 45,000 RSUs, respectively, to certain employees in accordance with their employment agreements. The RSUs will vest equally over three years from the respective date of grants. We expect to settle the awards in stock.

Deferred Stock Units (DSUs)

During the three and nine months ended March 31, 2015, we granted 37,199 and 37,597 DSUs, respectively, to certain non-employee directors (three and nine months ended March 31, 2014—13,336 and 42,298, respectively, on a post stock-split basis). The DSUs were issued under our Deferred Share Unit Plan. DSUs granted as compensation for directors fees vest immediately, whereas all other DSUs granted vest at our next annual general meeting following the granting of the DSUs. No DSUs are payable by us until the director ceases to be a member of the Board.

Employee Share Purchase Plan (ESPP)

During the three and nine months ended March 31, 2015, cash in the amount of approximately \$0.7 million and \$2.2 million, respectively, was received from employees that will be used to purchase Common Shares in future periods (three and nine months ended March 31, 2014—\$0.8 million and \$2.1 million, respectively).

NOTE 13—GUARANTEES AND CONTINGENCIES

We have entered into the following contractual obligations with minimum payments for the indicated fiscal periods as follows:

	Payments due between				
	Total	April 1, 2015— June 30, 2015	July 1, 2015— June 30, 2017	July 1, 2017— June 30, 2019	July 1, 2019 and beyond

*Long-term debt obligations include our Senior Notes issued on January 15, 2015. For more details relating to the Senior Notes and repayment of our Term Loan A, see note 10.

**Net of \$3.2 million of sublease income to be received from properties which we have subleased to third parties.

Guarantees and Indemnifications

We have entered into customer agreements which may include provisions to indemnify our customers against third party claims that our software products or services infringe certain third party intellectual property rights and for liabilities related to a breach of our confidentiality obligations. We have not made any material payments in relation to such indemnification provisions and have not accrued any liabilities related to these indemnification provisions in our Condensed Consolidated Financial Statements.

Litigation

We are currently involved in various claims and legal proceedings.

Quarterly, we review the status of each significant legal matter and evaluate such matters to determine how they should be treated for accounting and disclosure purposes in accordance with the requirements of ASC Topic 450-20

"Loss

Contingencies" (Topic 450-20). Specifically, this evaluation process includes the centralized tracking and itemization of the status of all our disputes and litigation items, discussing the nature of any litigation and claim, including any dispute or claim that is reasonably likely to result in litigation, with relevant internal and external counsel, and assessing the progress of each matter in light of its merits and our experience with similar proceedings under similar circumstances.

If the potential loss from any claim or legal proceeding is considered probable and the amount can be reasonably estimated, we accrue a liability for the estimated loss in accordance with Topic 450-20. As of the date of this Quarterly Report on Form 10-Q, such aggregated losses were not material to our consolidated financial position or result of operations and we do not believe as of the date of this filing that it is reasonably possible that a loss exceeding the amounts already recognized will be incurred that would be material to our consolidated financial position or results of operations.

Contingencies

EasyLink Services International Corporation (EasyLink) and its United States subsidiaries were assessed by the New York State Department of Taxation and Finance for the potential applicability of telecommunications excise and franchise taxes to its New York State revenues for certain pre-acquisition EasyLink revenue. As of March 31, 2015 a settlement was reached with the New York State Department of Taxation and Finance for \$2.8 million, which was paid during the three months ended March 31, 2015.

As part of our acquisition of GXS, we have inherited a tax dispute in Brazil between the Company's subsidiary, GXS Tecnologia da Informação (Brasil) Ltda. (GXS Brazil), and the municipality of São Paulo, in connection with GXS Brazil's judicial appeal of a tax claim in the amount of \$2.2 million as of March 31, 2015. We currently have in place a bank guarantee in the amount of \$3.0 million in recognition of this dispute. However, we believe that the position of the São Paulo tax authorities is not consistent with the relevant facts and based on information available on the case and other similar matters provided by local counsel, we believe that we can defend our position and that no tax is owed. Although we believe that the facts support our position, the ultimate outcome of this matter could result in a loss of up to the claim amount discussed above, plus future interest or penalties that may accrue.

Historically, prior to our acquisition of GXS, GXS would charge certain costs to its subsidiaries, including GXS Brazil, primarily based on historical transfer pricing studies that were intended to reflect the costs incurred by subsidiaries in relation to services provided by the parent company to the subject subsidiary. GXS recorded taxes on amounts billed, that were considered to be due based on the intercompany charges. GXS subsequently re-evaluated its intercompany charges to GXS Brazil and related taxes and, upon taking into consideration the current environment and judicial proceedings in Brazil, concluded that it was probable that certain indirect taxes would be assessable and payable based upon the accrual of such intercompany charges and has approximately \$6.2 million accrued for the probable amount of a settlement related to the indirect taxes, interest and penalties.

Our Indian subsidiary, GXS India Technology Centre Private Limited (GXS India), is subject to potential assessments by Indian tax authorities in the city of Bangalore. GXS India has received assessment orders from the Indian tax authorities alleging that the transfer price applied to intercompany transactions was not appropriate. Based on advice from our tax advisors, we believe that the facts that the Indian tax authorities are using to support their assessment are incorrect. We have filed appeals and anticipate an eventual settlement with the Indian tax authorities. We have accrued \$1.4 million to cover our anticipated financial exposure in this matter.

The United States Internal Revenue Service (IRS) is examining certain of our tax returns for Fiscal 2010 through Fiscal 2012, and in connection with those examinations is reviewing our internal reorganization in Fiscal 2010 to consolidate certain intellectual property ownership in Luxembourg and Canada and our integration of certain acquisitions into the resulting structure. These examinations may lead to proposed adjustments to our taxes, which may be material, individually or in the aggregate. As of the date of this Quarterly Report on Form 10-Q, no adjustments have been proposed by the IRS, and we have not recorded any material accruals for any such potential adjustments in our Condensed Consolidated Financial Statements.

Please also see "Risk Factors" in our Annual Report on Form 10-K for our fiscal year ended June 30, 2014.

NOTE 14—INCOME TAXES

Our effective tax rate represents the net effect of the mix of income earned in various tax jurisdictions that are subject to a wide range of income tax rates.

We recognize interest expense and penalties related to income tax matters in income tax expense.

20

For the three and nine months ended March 31, 2015 and 2014, we recognized the following amounts as income tax-related interest expense and penalties:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2015	2014	2015	2014
Interest expense	1,587	2,030	\$ 5,098	\$ 6,262
Penalties expense (recoveries)	(90) 7	(385) 167
Total	\$ 1,497	\$ 2,037	\$ 4,713	\$ 6,429

As of March 31, 2015 and June 30, 2014, the following amounts have been accrued on account of income tax-related interest expense and penalties:

	As of March 31, 2015	As of June 30, 2014
Interest expense accrued *	\$30,098	\$26,235
Penalties accrued *	\$6,488	\$7,858

* These balances have been included within "Long-term income taxes payable" within the Condensed Consolidated Balance Sheets.

We believe that it is reasonably possible that the gross unrecognized tax benefits, as of March 31, 2015, could decrease tax expense in the next 12 months by \$35.9 million, relating primarily to the expiration of competent authority relief and tax years becoming statute barred for purposes of future tax examinations by local taxing jurisdictions.

Our four most significant tax jurisdictions are Canada, the United States, Luxembourg and Germany. Our tax filings remain subject to audits by applicable tax authorities for a certain length of time following the tax year to which those filings relate. For Canada, the United States, Luxembourg and Germany, the earliest fiscal years open for examination are 2006, 2010, 2011 and 2008, respectively.

We are subject to tax audits in all major taxing jurisdictions in which we operate and currently have tax audits open in Canada, the United States, France, Spain, Germany, India, Japan and the Netherlands. On a quarterly basis we assess the status of these examinations and the potential for adverse outcomes to determine the adequacy of the provision for income and other taxes. Statements regarding the United States audits are included in note 13.

The timing of the resolution of income tax audits is highly uncertain, and the amounts ultimately paid, if any, upon resolution of the issues raised by the taxing authorities may differ from the amounts accrued. It is reasonably possible that within the next 12 months we will receive additional assessments by various tax authorities or possibly reach resolution of income tax audits in one or more jurisdictions. These assessments or settlements may or may not result in changes to our contingencies related to positions on tax filings. The actual amount of any change could vary significantly depending on the ultimate timing and nature of any settlements. We cannot currently provide an estimate of the range of possible outcomes.

As at March 31, 2015, we have provided \$8.9 million (June 30, 2014—\$7.6 million) in respect of both additional foreign withholding taxes or deferred income tax liabilities for temporary differences related to the undistributed earnings of certain non-United States subsidiaries, and planned periodic repatriations from certain United States and Luxembourg subsidiaries, that will be subject to withholding taxes upon distribution. We have not provided for additional foreign withholding taxes or deferred income tax liabilities related to undistributed earnings of all other non-Canadian subsidiaries, since such earnings are considered permanently invested in those subsidiaries, or are not subject to withholding taxes. It is not practicable to reasonably estimate the amount of additional deferred income tax liabilities or foreign withholding taxes that may be payable should these earnings be distributed in the future.

The effective GAAP tax rate (which is the provision for taxes expressed as a percentage of income before taxes) decreased to a recovery, representing 1.2% of income for the three months ended March 31, 2015, compared to a charge of 22.1% for the three months ended March 31, 2014, resulting in a reduction of tax expense in the amount of \$13.3 million. This decrease is primarily the result of (i) lower net income, having an impact of \$10.8 million, (ii) a decrease in the impact of adjustments on filing tax returns in the amount of \$1.5 million, and (iii) a decrease in the impact of permanent differences in the amount of \$1.3 million, offset by an increase in the net change in valuation allowance in the amount of \$1.5 million. The remainder of the differences are due to normal course movements and non-material items.

The effective GAAP tax rate (which is the provision for taxes expressed as a percentage of income before taxes) decreased to 17.6% for the nine months ended March 31, 2015, from 27.2% for the nine months ended March 31, 2014, resulting in a reduction of tax expense in the amount of \$13.2 million. This decrease is primarily due to a decrease in the impact of non-deductible amortization expense in the amount of \$4.8 million, a decrease in the net change in valuation allowance in

the amount of \$1.3 million, a decrease in the net expense of unrecognized tax benefits with related interest and penalties in the amount of \$2.4 million, and a decrease in the impact of adjustments on filing of tax returns in the amount of \$3.8 million. The remainder of the differences are due to normal course movements and non-material items.

NOTE 15—FAIR VALUE MEASUREMENTS

ASC Topic 820 “Fair Value Measurements and Disclosures” (Topic 820) defines fair value, establishes a framework for measuring fair value, and addresses disclosure requirements for fair value measurements. Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value, in this context, should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk, including our own credit risk.

In addition to defining fair value and addressing disclosure requirements, Topic 820 establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels which are determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1—inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2—inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3—inputs are generally unobservable and typically reflect management’s estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

Financial Assets and Liabilities Measured at Fair Value on a Recurring Basis:

Our financial assets and liabilities measured at fair value on a recurring basis consisted of the following types of instruments as of March 31, 2015 and June 30, 2014:

	March 31, 2015				June 30, 2014			
		Fair Market Measurements using:				Fair Market Measurements using:

	\$ 30,211	n/a	\$ 30,211	n/a	\$ 756	n/a	\$ 756	n/a

Financial Liabilities:

Derivative financial instrument liability (note 16)	\$ (4,050) n/a	\$ (4,050) n/a	\$ — n/a	\$ — n/a
	\$ (4,050) n/a	\$ (4,050) n/a	\$ — n/a	\$ — n/a

*These assets in the table above are classified as Level 2 as certain specific assets included within may not have quoted prices that are readily accessible in an active market or we may have relied on alternative pricing methods that do not rely exclusively on quoted prices to determine the fair value of the investments.

Our valuation techniques used to measure the fair values of the derivative instruments, the counterparty to which has high credit ratings, were derived from pricing models including discounted cash flow techniques, with all significant inputs derived from or corroborated by observable market data, as no quoted market prices exist for these instruments. Our discounted cash flow techniques use observable market inputs, such as, where applicable, foreign currency spot and forward rates.

Our cash and cash equivalents, along with our accounts receivable and accounts payable and accrued liabilities balances, are measured and recognized in our Condensed Consolidated Financial Statements at an amount that approximates their fair value (a Level 2 measurement) due to their short maturities.

A summary of our marketable securities as of March 31, 2015 is as follows:

	Cost	Gross Unrealized Gains	Gross Unrealized (Losses)	Estimated Fair Value
Commercial paper	\$5,999	\$—	\$—	\$5,999
Corporate bonds	24,208	4	—	24,212
Total	\$30,207	\$4	\$—	\$30,211

The long-term portion of the marketable securities are included within "Other Assets" in the Condensed Consolidated Balance Sheets.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

We measure certain assets at fair value on a nonrecurring basis. These assets are recognized at fair value when they are deemed to be other-than-temporarily impaired. During the three and nine months ended March 31, 2015 and 2014, no indications of impairment were identified and therefore no fair value measurements were required.

If applicable, we will recognize transfers between levels within the fair value hierarchy at the end of the reporting period in which the actual event or change in circumstance occurs. During the three and nine months ended March 31, 2015 and 2014, we did not have any transfers between Level 1, Level 2 or Level 3.

Marketable Securities

Marketable Securities are classified as available for sale securities and are recorded on our Condensed Consolidated Balance Sheets at fair value with unrealized gains or losses reported as a separate component of Accumulated Other Comprehensive Income.

NOTE 16—DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

Foreign Currency Forward Contracts

We are engaged in hedging programs with Canadian chartered banks to limit the potential foreign exchange fluctuations incurred on future cash flows relating to a portion of our Canadian dollar payroll expenses. We operate internationally and are therefore exposed to foreign currency exchange rate fluctuations in the normal course of our business, in particular to changes in the Canadian dollar on account of large costs that are incurred from our centralized Canadian operations, which are denominated in Canadian dollars. As part of our risk management strategy, we use foreign currency forward contracts to hedge portions of our payroll exposure with typical maturities of between one and twelve months. We do not use derivatives for speculative purposes.

We have designated these transactions as cash flow hedges of forecasted transactions under ASC Topic 815 "Derivatives and Hedging" (Topic 815). As the critical terms of the hedging instrument, and of the entire hedged forecasted transaction, are the same, in accordance with Topic 815 we have been able to conclude that changes in fair value or cash flows attributable to the risk being hedged are expected to completely offset at inception and on an ongoing basis. Accordingly, quarterly unrealized gains or losses on the effective portion of these forward contracts have been included within other comprehensive income. The fair value of the contracts, as of March 31, 2015, is recorded within "Accounts payable and accrued liabilities".

As of March 31, 2015, the notional amount of forward contracts we held to sell U.S. dollars in exchange for Canadian dollars was \$82.0 million (June 30, 2014—\$99.6 million).

Fair Value of Derivative Instruments and Effect of Derivative Instruments on Financial Performance

The effect of these derivative instruments on our Condensed Consolidated Financial Statements for the periods indicated below were as follows (amounts presented do not include any income tax effects).

NOTE 17—SPECIAL CHARGES (RECOVERIES)

Special charges include costs that relate to certain restructuring initiatives that we have undertaken from time to time under our various restructuring plans, as well as acquisition-related costs and other similar charges.

OpenText/Actuate Restructuring Plan

In the third quarter of Fiscal 2015 and in the context of the acquisition of Actuate, we began to implement restructuring activities to streamline our operations (OpenText/Actuate Restructuring Plan). These charges relate to workforce reductions and facility consolidations. These charges require management to make certain judgments and estimates regarding the amount and timing of restructuring charges or recoveries. Our estimated liability could change subsequent to its recognition, requiring adjustments to the expense and the liability recorded. On a quarterly basis, we conduct an evaluation of the related liabilities and expenses and revise our assumptions and estimates as appropriate. As of March 31, 2015, we expect total costs to be incurred in conjunction with the OpenText/Actuate Restructuring Plan to be approximately \$7.0 to \$10.0 million, of which \$2.1 million has already been recorded within Special charges to date. We expect the OpenText/Actuate Restructuring Plan to be substantially completed by the end of our fiscal year ended June 30, 2016.

A reconciliation of the beginning and ending liability for the nine months ended March 31, 2015 is shown below.

OpenText/Actuate Restructuring Plan	Workforce reduction	Facility costs	Total

OpenText/GXS Restructuring Plan

In the third quarter of Fiscal 2014 and in the context of the acquisition of GXS, we began to implement restructuring activities to streamline our operations (OpenText/GXS Restructuring Plan). These charges relate to workforce reductions and facility consolidations. These charges require management to make certain judgments and estimates regarding the amount and timing of restructuring charges or recoveries. Our estimated liability could change subsequent to its recognition, requiring adjustments to the expense and the liability recorded. On a quarterly basis, we conduct an evaluation of the related liabilities and expenses and revise our assumptions and estimates as appropriate. Since the inception of the plan \$24.0 million has been recorded within Special charges. We do not expect to incur any further significant charges related to this plan.

A reconciliation of the beginning and ending liability for the nine months ended March 31, 2015 is shown below.

OpenText/GXS Restructuring Plan	Workforce reduction	Facility costs	Total
Balance as of June 30, 2014	\$5,051	\$6,028	\$11,079

Acquisition-related costs

Included within Special charges for the three and nine months ended March 31, 2015 are costs incurred directly in relation to acquisitions in the amount of \$1.4 million and \$3.9 million, respectively (three and nine months ended March 31, 2014—\$3.1 million and \$8.1 million, respectively). Additionally, we incurred costs relating to financial advisory, legal, valuation and audit services and other miscellaneous costs necessary to integrate acquired companies into our organization for the three and nine months ended March 31, 2015 in the amount of \$0.1 million and \$0.4 million, respectively (three and nine months ended March 31, 2014—\$0.4 million and \$1.1 million, respectively).

Other charges (recoveries)

For the three months ended March 31, 2015, "Other charges" primarily includes (i) \$2.9 million relating to the write-off of unamortized debt issuance costs associated with the repayment of Term Loan A (see note 10) and (ii) \$2.1 million relating to post-business combination compensation obligations, associated with the acquisition of Actuate. These charges were offset by a recovery of \$2.8 million relating to certain pre-acquisition tax liabilities being released upon settlement.

For the nine months ended March 31, 2015, "Other recoveries" primarily includes (i) a recovery of \$8.8 million relating to certain pre-acquisition tax liabilities being released based upon settlement, (ii) a recovery of \$2.4 million relating to certain pre-acquisition tax liabilities becoming statute barred and (iii) a recovery of \$1.3 million relating to interest released on certain pre-acquisition liabilities. These recoveries were offset by charges of \$2.9 million relating to the write-off of unamortized debt issuance costs associated with the repayment of Term Loan A and \$2.1 million relating to post-business combination compensation obligations associated with the acquisition of Actuate.

Included within "Other charges" for the three and nine months ended March 31, 2014 is a net recovery of \$0.5 million and \$4.3 million, respectively, relating to a reduction of certain pre-acquisition tax liabilities, including related interest. In addition to the recovery, included for the nine months ended March 31, 2014 is a charge of \$1.4 million relating to a settlement agreement reached in connection with the acquisition of IXOS Software AG in February 2004.

NOTE 18—ACQUISITIONS**Acquisition of Actuate Corporation**

On January 16, 2015, we acquired Actuate Corporation (Actuate), based in San Francisco, California, United States. Actuate was a leader in personalized analytics and insights and we believe the acquisition complements our OpenText Content Suite. In accordance with Topic 805 "Business Combinations" (Topic 805), this acquisition was accounted for as a business combination.

The results of operations of Actuate have been consolidated with those of OpenText beginning January 16, 2015.

The following tables summarize the preliminary consideration paid for Actuate and the amount of the assets acquired and liabilities assumed, as well as the goodwill recorded as of the acquisition date:

Cash consideration*	\$322,417
Actuate shares already owned by OpenText through open market purchases (at fair value)	9,539
Preliminary purchase consideration	\$331,956
Acquisition-related costs (included in Special charges in the Condensed Consolidated Statements of Income) for the three months ended March 31, 2015	\$1,164
Acquisition-related costs (included in Special charges in the Condensed Consolidated Statements of Income) for the nine months ended March 31, 2015	\$3,252

*Inclusive of \$8.2 million accrued for but unpaid as of March 31, 2015.

Preliminary Purchase Price Allocation

The recognized amounts of identifiable assets acquired and liabilities assumed, based upon their fair values as of January 16, 2015, are set forth below:

Current assets (inclusive of cash acquired of \$22,463)	\$78,307
Non-current tangible assets	18,273
Intangible customer assets	62,600
Intangible technology assets	60,000
Liabilities assumed	(77,868)
Total identifiable net assets	141,312
Goodwill	190,644
Net assets acquired	\$331,956

The finalization of the above purchase price allocation is pending the determination of the finalization of the fair value for taxation-related balances and for potential unrecorded liabilities. We expect to finalize this determination on or before December 31, 2015.

No portion of the goodwill recorded upon the acquisition of Actuate is expected to be deductible for tax purposes.

The fair value of current assets acquired includes accounts receivable with a fair value of \$23.4 million. The gross amount receivable was \$23.6 million of which \$0.2 million of this receivable was expected to be uncollectible.

We recognized a gain of \$3.1 million as a result of remeasuring to fair value our investment in Actuate held before the date of acquisition. The gain is included in "Other income" in our Condensed Consolidated Financial Statements.

The amount of Actuate's revenues and net income included in our Condensed Consolidated Statements of Income for the three months ended March 31, 2015 is set forth below:

	January 16, 2015— March 31, 2015
Revenues	\$ 14,534
Net loss *	\$(7,555)

* Net loss includes one-time fees of approximately \$4.0 million on account of special charges, and \$5.8 million of amortization charges relating to intangible assets.

The unaudited pro forma revenues and net income of the combined entity for the three and nine months ended March 31, 2015 and 2014, respectively, had the acquisition been consummated as of July 1, 2013, are set forth below:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2015	2014	2015	2014
Supplemental Unaudited Pro forma Information				
Total revenues	\$450,432	\$466,840	\$1,424,824	\$1,219,504
Net income (1) (2)	\$14,862	\$37,946	\$141,285	\$115,528

(1) Included in pro forma net income for the three months ended March 31, 2015 are approximately \$10.6 million of one-time expenses incurred by Actuate on account of the acquisition. These one-time expenses include i) approximately \$3.4 million in employee change in control payments, ii) approximately \$3.9 million of post-business combination compensation obligations associated with the acquisition, and iii) approximately \$3.3 million of transaction fees triggered by the closing of the acquisition. In addition to the one-time expenses discussed above, included in pro forma net income for the nine months ended March 31, 2015 is another \$2.2 million of transaction fees triggered by the closing of the acquisition.

(2) Included in pro forma net income for the three and nine months ended March 31, 2015 are estimated amortization charges relating to the allocated values of intangible assets.

The unaudited pro forma financial information in the table above is presented for information purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of the periods presented or the results that may be realized in the future.

Informative Graphics Corporation

On January 2, 2015, we acquired Informative Graphics Corporation (IGC), based in Scottsdale, Arizona, United States. IGC was a leading developer of viewing, annotation, redaction and publishing commercial software. Total consideration for IGC was \$40.4 million (\$39.1 million - net of cash acquired), of which \$36.5 million was paid in cash, and \$3.9 million is currently held back and unpaid in accordance with the purchase agreement. In accordance

with Topic 805, this acquisition was

27

accounted for as a business combination. We believe this acquisition will enable OpenText to engineer solutions that further increase a user's experience within our OpenText content suite.

The finalization of the purchase price allocation is pending the determination of the finalization of the fair value for taxation-related balances and for potential unrecorded liabilities. We expect to finalize this determination on or before December 31, 2015.

Acquisition related costs for IGC included in Special charges in the Condensed Consolidated Statements of Income for the three and nine months ended March 31, 2015 were \$0.3 million, respectively.

The results of operations of IGC have been consolidated with those of OpenText beginning January 2, 2015.

The acquisition had no significant impact on revenues and net earnings for the three and nine months ended March 31, 2015. There was also no significant impact on the Company's revenues and net income on a pro forma basis for all periods presented.

*We entered into Term Loan B on January 16, 2014 (see note 10). For the three and nine months ended March 31, 2015, this amount includes \$6.4 million and \$19.6 million, respectively, of interest related to this new credit facility. Interest owing on the Senior Notes is payable semi-annually starting on July 15, 2015 (see note 10).

NOTE 20—EARNINGS PER SHARE

Basic earnings per share are computed by dividing net income, attributable to OpenText, by the weighted average number of Common Shares outstanding during the period. Diluted earnings per share are computed by dividing net income, attributable to OpenText, by the shares used in the calculation of basic earnings per share plus the dilutive effect of Common Share equivalents, such as stock options, using the treasury stock method. Common Share equivalents are excluded from the computation of diluted earnings per share if their effect is anti-dilutive.

* Represents options to purchase Common Shares excluded from the calculation of diluted earnings per share because the exercise price of the stock options was greater than or equal to the average price of the Common Shares during the period.

NOTE 21—RELATED PARTY TRANSACTIONS

Our procedure regarding the approval of any related party transaction requires that the material facts of such transaction be reviewed by the independent members of our Board and the transaction be approved by a majority of the independent members of the Board. The Board reviews all transactions in which we are, or will be, a participant and any related party has or will have a direct or indirect interest. In determining whether to approve a related party transaction, the Board generally takes into account, among other facts it deems appropriate, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances; the extent and nature of the related person's interest in the transaction; the benefits to the Company of the proposed transaction; if applicable, the effects on a director's independence; and if applicable, the availability of other sources of comparable services or products.

During the nine months ended March 31, 2015, Mr. Stephen Sadler, a director, earned \$0.5 million (nine months ended March 31, 2014—\$0.6 million) in consulting fees from OpenText primarily for services rendered relating to the acquisitions of Actuate and IGC. Mr. Sadler abstained from voting on all transactions from which he would potentially derive consulting fees.

NOTE 22—SUBSEQUENT EVENTS

Cash Dividends

As part of our quarterly, non-cumulative cash dividend program, we declared, on April 27, 2015, a dividend of \$0.20 per Common Share. The record date for this dividend is May 29, 2015 and the payment date is June 19, 2015. Future declarations of dividends and the establishment of future record and payment dates are subject to the final determination and discretion of our Board of Directors.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q, including this Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A), contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 21E of the U.S. Securities Exchange Act of 1934, as amended (the Exchange Act), and Section 27A of the U.S. Securities Act of 1933, as amended (the Securities Act), and is subject to the safe harbours created by those sections. All statements other than statements of historical facts are statements that could be deemed forward-looking statements.

When used in this report, the words "anticipates", "expects", "intends", "plans", "believes", "seeks", "estimates", "may", "could" and other similar language, as they relate to Open Text Corporation ("OpenText" or the "Company"), are intended to identify forward-looking statements under applicable securities laws. Specific forward-looking statements in this report include, but are not limited to: (i) statements about our focus in the fiscal year beginning July 1, 2014 and ending June 30, 2015 (Fiscal 2015) on growth in earnings and cash flows; (ii) creating value through investments in broader Enterprise Information Management (EIM) capabilities; (iii) our future business plans and business planning process; (iv) statements relating to business trends; (v) statements relating to distribution; (vi) the Company's presence in the cloud and in growth markets; (vii) product and solution developments, enhancements and releases and the timing thereof; (viii) the Company's financial conditions, results of operations and earnings; (ix) the basis for any future growth and for our financial performance; (x) declaration of quarterly dividends; (xi) the changing regulatory environment and its impact on our business; (xii) potential loss of recurring revenues; (xiii) research and development and related expenditures; (xiv) our building, development and consolidation of our network infrastructure; (xv) competition and changes in the competitive landscape; (xvi) our management and protection of intellectual property and other proprietary rights; (xvii) foreign sales and exchange rate fluctuations; (xviii) cyclical or seasonal aspects of our business; (xix) capital expenditures; (xx) potential legal and/or regulatory proceedings; and (xxi) other matters. In addition, any statements or information that refer to expectations, beliefs, plans, projections, objectives, performance or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking, and based on our current expectations, forecasts and projections about the operating environment, economies and markets in which we operate. Forward-looking statements reflect our current estimates, beliefs and assumptions, which are based on management's perception of historic trends, current conditions and expected future developments, as well as other factors it believes are appropriate in the circumstances. The forward-looking statements contained in this report are based on certain assumptions including the following: (i) countries continuing to implement and enforce existing and additional customs and security regulations relating to the provision of electronic information for imports and exports; (ii) our continued operation of a secure and reliable business network; (iii) the stability of general economic and market conditions, currency exchange rates, and interest rates; (iv) equity and debt markets continuing to provide us with access to capital; (v) our continued ability to identify and source attractive and executable business combination opportunities; and (vi) our continued compliance with third party intellectual property rights. Management's estimates, beliefs and assumptions are inherently subject to significant business, economic, competitive and other uncertainties and contingencies regarding future events and, as such, are subject to change. We can give no assurance that such estimates, beliefs and assumptions will prove to be correct. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to differ materially from the anticipated results, performance or achievements expressed or implied by such forward-looking statements. The risks and uncertainties that may affect forward-looking statements include, but are not limited to: (i) integration of acquisitions and related restructuring efforts, including the quantum of restructuring charges and the timing thereof; (ii) the possibility that the Company may be unable to meet its future reporting requirements under the Exchange Act, and the rules promulgated thereunder; (iii) the risks associated with bringing new products and services to market; (iv) fluctuations in currency exchange rates; (v) delays in the purchasing decisions of the Company's customers; (vi) the competition the Company faces in its industry and/or marketplace; (vii) the final determination of litigation, tax audits and other legal proceedings; (viii) potential exposure to greater than anticipated tax liabilities or expenses; (ix) the possibility of technical, logistical or planning issues in connection with the deployment of the Company's products or services; (x) the continuous commitment of the Company's customers; (xi) demand for the Company's products and services; (xii)

increase in exposure to international business risks as we continue to increase our international operations; (xiii) inability to raise capital at all or on not unfavorable terms in the future; and (xiv) downward pressure on our share price and dilutive effect of future sales or issuances of equity securities. Other factors that may affect forward-looking statements include, but are not limited to: (i) the future performance, financial and otherwise, of the Company; (ii) the ability of the Company to bring new products and services to market and to increase sales; (iii) the strength of the Company's product development pipeline; (iv) failure to secure and protect patents, trademarks and other proprietary rights; (v) infringement of third-party proprietary rights triggering indemnification obligations and resulting in significant expenses or restrictions on our ability to provide our products or services; (vi) failure to comply with privacy laws and regulations that are extensive, open to various interpretations and complex to implement; (vii) the Company's growth and profitability prospects; (viii) the estimated size and growth prospects of the EIM market; (ix) the Company's competitive position in the EIM market and its ability to take advantage of future opportunities in this market; (x) the benefits of the Company's products and services to be realized by customers; (xi) the demand for the Company's products and services and

the extent of deployment of the Company's products and services in the EIM marketplace; (xii) the Company's financial condition and capital requirements; (xiii) system or network failures or information security breaches in connection with our services and products; and (xiv) failure to attract and retain key personnel to develop and effectively manage our business.

For additional information with respect to risks and other factors which could occur, see the Company's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q including Part I, Item 1A "Risk Factors" therein and in this Quarterly Report on Form 10-Q and other securities filings with the Securities and Exchange Commission (SEC) and other securities regulators. Readers are cautioned not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. Unless otherwise required by applicable securities laws, the Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The following MD&A is intended to help readers understand our results of operations and financial condition, and is provided as a supplement to, and should be read in conjunction with, our Condensed Consolidated Financial Statements and the accompanying Notes to our Condensed Consolidated Financial Statements under Part I, Item 1 of this Quarterly Report on Form 10-Q.

All dollar and percentage comparisons made herein generally refer to the three and nine months ended March 31, 2015 compared with the three and nine months ended March 31, 2014, unless otherwise noted.

Where we say "we", "us", "our", "OpenText" or "the Company", we mean Open Text Corporation or Open Text Corporation and its subsidiaries, as applicable.

EXECUTIVE OVERVIEW

We are an independent company providing a comprehensive suite of software products and services that assist organizations in finding, utilizing, and sharing business information from any device in ways which are intuitive, efficient and productive. Our technologies and business solutions address one of the biggest problems encountered by enterprises today: the explosive growth of information volume and formats. Our software and services allow organizations to manage the information that flows into, out of, and throughout the enterprise as part of daily operations. Our solutions help to increase customer satisfaction, improve collaboration with partners, address the legal and business requirements associated with information governance, and aim to ensure that information remains secure and private, as demanded in today's highly regulated climate.

Our products and services provide the benefits of organizing and managing business content, while leveraging it to operate more efficiently and effectively. Our solutions incorporate social and mobile technologies and are delivered for on-premises deployment as well as through cloud and managed hosted services models to provide the flexibility and cost efficiencies demanded by the market. In addition, we provide solutions that facilitate the exchange of transactions that occur between supply chain participants, such as manufacturers, retailers, distributors and financial institutions, and are central to a company's ability to effectively collaborate with its partners.

Our initial public offering was on the NASDAQ in 1996 and we were subsequently listed on the Toronto Stock Exchange in 1998. We are a multinational company and as of March 31, 2015, employed approximately 8,700 people worldwide.

We operate in a market known as Enterprise Information Management (EIM). This is a comprehensive market category that includes a rich set of capabilities that allow organizations to manage content by optimizing the value of business information while reducing the costs associated with capturing, storing, and managing information. At its core, EIM is about helping organizations get the most out of information. Our EIM offerings include Enterprise Content Management (ECM), Business Process Management (BPM), Customer Experience Management (CEM), Information Exchange (IX), and Discovery.

See "Use of Non-GAAP Financial Measures" below for a reconciliation of non-GAAP-based measures to GAAP-based measures.

See "Acquisitions" below for the impact of acquisitions on the period-to-period comparability of results.

Acquisitions

Our competitive position in the marketplace requires us to maintain a complex and evolving array of technologies, products, services and capabilities. In light of the continually evolving marketplace in which we operate, we regularly evaluate various acquisition opportunities within the EIM market.

Acquisition of Actuate Corporation

On January 16, 2015, we acquired Actuate Corporation (Actuate), based in San Francisco, California, United States, for \$332.0 million, comprised of approximately \$322.4 million in cash and shares we purchased of Actuate in the open market with a fair value of approximately \$9.5 million as of the date of acquisition. Actuate is a leader in personalized analytics and insights and we believe the acquisition will complement our OpenText Content Suite. The results of operations of Actuate have been consolidated with OpenText during the third quarter of Fiscal 2015, beginning on January 16, 2015.

Acquisition of Informative Graphics Corporation

On January 2, 2015, we acquired Informative Graphics Corporation (IGC), based in Scottsdale, Arizona, United States, for approximately \$40.4 million. IGC is a leading developer of viewing, annotation, redaction and publishing commercial software. We believe this acquisition will enable OpenText to engineer solutions that further increase a user's experience within our OpenText Content Suite. The financial results of operations of IGC have been consolidated with Open Text's financial results during the third quarter of Fiscal 2015, beginning on January 2, 2015. We believe our acquisitions support our long-term strategic direction, strengthen our competitive position, expand our customer base, provide greater scale to accelerate innovation, grow our earnings and increase shareholder value. We expect to continue to strategically acquire companies, products, services and technologies to augment our existing business. Our acquisitions, particularly significant ones such as GXS Group, Inc. (GXS), acquired in January 2014, affect the period-to-period comparability of our results. See note 18 "Acquisitions" to our Condensed Consolidated Financial Statements for more details.

Outlook for Fiscal 2015

We believe we have a strong position in the EIM market. Our goal is to strengthen our position in EIM by building on our leadership in ECM, BPM, CEM, and IX and expanding our position in Discovery. Customer support revenues are generally a recurring source of income for us and make up a significant portion of our revenue mix. Our management reviews our Customer support renewal rates on a quarterly basis and we use these rates as a method of monitoring our customer service performance. For the three months ended March 31, 2015 our Customer support renewal rate was 90%. With the acquisition of GXS, our cloud services revenue has grown and we expect cloud services revenue to continue to be a recurring and growing stream of revenue in the future. Our focus in Fiscal 2015 has increasingly been on "recurring revenue", which we define as revenue from cloud services, customer support and professional service and other.

We also believe our diversified geographic profile helps strengthen our position and helps to reduce the impact of a downturn in the economy that may occur in any one specific region.

In Fiscal 2015, we recently unveiled a strategy to actively deploy our software through a subscription model, whereby we combine the benefits of a cloud solution with the security and control of an on-premises deployment enabling organizations to manage, exchange, and socialize enterprise information in an easy and scalable cloud. This would include our existing managed cloud services in the form of subscriptions and B2B managed services and also our "public cloud" services.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates, judgments and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements. These estimates, judgments and assumptions are evaluated on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe are reasonable at that time, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from those estimates. The accounting policies that reflect our more significant estimates, judgments and assumptions and which we believe are the most critical to aid in fully understanding and evaluating our reported financial results include the following:

- (i) Revenue recognition,
- (ii) Capitalized software,
- (iii) Goodwill,
- (iv) Acquired intangibles,
- (v) Restructuring charges,
- (vi) Business combinations,
- (vii) Foreign currency, and
- (viii) Income taxes.

During the first nine months of Fiscal 2015, there were no significant changes to our critical accounting policies and estimates. For a detailed discussion of our critical accounting policies and estimates, please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations contained in Part II, Item 7 of our Annual Report on Form 10-K for our fiscal year ended June 30, 2014.

RESULTS OF OPERATIONS

The following tables provide a detailed analysis of our results of operations and financial condition. For each of the periods indicated below, we present our revenues by product, revenues by major geography, cost of revenues by product, total gross margin, total operating margin, gross margin by product, and their corresponding percentage of total revenue. In addition, we provide Non-GAAP measures for the periods discussed in order to provide additional information to investors that we believe will be useful as this presentation is in line with how our management assesses our Company's performance. See "Use of Non-GAAP Financial Measures" below for a reconciliation of Non-GAAP-based measures to GAAP-based measures.

Revenues, Cost of Revenues and Gross Margin by Product Type

1) License Revenues:

License revenues consist of fees earned from the licensing of software products to customers. Our license revenues are impacted by the strength of general economic and industry conditions, the competitive strength of our software products, and our acquisitions. Cost of license revenues consists primarily of royalties payable to third parties.

License revenues decreased by \$9.1 million during the three months ended March 31, 2015 as compared to the same period in the prior fiscal year, of which approximately \$6.3 million was due to the negative impact of foreign exchange. Geographically, the overall decrease was attributable to a decrease in EMEA of \$8.1 million, and a decrease in Asia Pacific of \$3.2 million, offset by an increase in Americas of \$2.1 million. The number of license deals greater than \$1.0 million that closed during the third quarter of Fiscal 2015 was 3 deals, compared to 6 deals in the same period in Fiscal 2014.

License revenues decreased by \$11.2 million during the nine months ended March 31, 2015 as compared to the same period in the prior fiscal year, of which approximately \$9.1 million was due to the negative impact of foreign exchange. Geographically, the overall decrease was attributable to a decrease in Americas of \$6.1 million, a decrease in EMEA of \$3.9 million, and a decrease in Asia Pacific of \$1.1 million. The number of license deals greater than \$1.0 million that closed during the first nine months of Fiscal 2015 as compared to the same period in the prior fiscal year was 15 deals in Fiscal 2015, inclusive of a settlement of patent infringement claims against Alfresco Software, Ltd., compared to 17 deals in Fiscal 2014.

Cost of license revenues were relatively stable during the three and nine months ended March 31, 2015, with gross margin percentage remaining at approximately 95%.

2) Cloud Services:

Cloud services revenues consist of service arrangements that allow our customers to make use of OpenText software, services and content over Internet enabled networks supported by OpenText data centers. These web applications allow customers to transmit a variety of content between various mediums and to securely manage enterprise information without the commitment of investing in related hardware infrastructure. Revenues are generated on several transactional usage-based models, are typically billed monthly in arrears, and can therefore fluctuate from period to period. Certain service fees are occasionally charged to customize hosted software for some customers and are either amortized over the estimated customer life, in the case of setup fees, or recognized in the period they are provided.

In addition, we offer business-to-business (B2B) integration solutions, such as messaging services, and managed services. Messaging services allow for the automated and reliable exchange of electronic transaction information, such as purchase orders, invoices, shipment notices and other business documents, among businesses worldwide. Managed services provide an end-to-end fully outsourced B2B integration solution to our customers, including program implementation, operational management, and customer support. These services enable customers to effectively manage the flow of electronic transaction information with their trading partners and reduce the complexity of disparate standards and communication protocols. Revenues are primarily generated through transaction processing. Transaction processing fees are recurring in nature and are recognized on a per transaction basis in the period in which the related transactions are processed. Revenues from contracts with monthly, quarterly or annual minimum transaction levels are recognized based on the greater of the actual transactions or the specified contract minimum amounts during the relevant period. Customers who are not committed to multi-year contracts generally are under contracts for transaction processing solutions that automatically renew every month or year, depending on the terms of the specific contracts.

Cost of cloud services revenues is comprised primarily of third party network usage fees, maintenance of in-house data hardware centers, technical support personnel-related costs, amortization of customer set up and implementation costs, and some third party royalty costs.

Cloud services revenues increased by \$15.4 million during the three months ended March 31, 2015 as compared to the same period in the prior fiscal year, which is inclusive of the negative impact of foreign exchange of approximately \$6.1 million. Geographically, the overall increase was attributable to an increase in Americas of \$10.1 million, and an increase in EMEA of \$5.3 million. The number of Cloud services deals greater than \$1.0 million that closed during the third quarter of Fiscal 2015 was 7 deals.

Cost of cloud services revenues increased by \$10.5 million during the three months ended March 31, 2015 as compared to the same period in the prior fiscal year, primarily due to higher revenue attainment, increased bad debt expense, the timing of certain other expenses, and the stub period from our acquisition of GXS, partially offset by a reduction in sales tax liabilities. As a result, the gross margin percentage on cloud services revenue decreased to approximately 58% from approximately 61%.

Cloud services revenues increased by \$232.9 million during the nine months ended March 31, 2015 as compared to the same period in the prior fiscal year. This was primarily due to the acquisition of GXS, offset by the negative impact of foreign exchange of approximately \$8.4 million. Geographically, the overall increase was attributable to an increase in Americas of

\$147.9 million, an increase in EMEA of \$64.1 million, and an increase in Asia Pacific of \$20.9 million. The number of Cloud services deals greater than \$1.0 million that closed during the nine months ended March 31, 2015 was 20. Cost of cloud services revenues increased by \$95.3 million during the nine months ended March 31, 2015, primarily due to higher revenue attainment, increased bad debt expense, and the stub period from our acquisition of GXS. As a result, the gross margin percentage on cloud services revenue decreased slightly to approximately 61% from approximately 62%.

3) Customer Support Revenues:

Customer support revenues consist of revenues from our customer support and maintenance agreements. These agreements allow our customers to receive technical support, enhancements and upgrades to new versions of our software products when and if available. Customer support revenues are generated from support and maintenance relating to current year sales of software products and from the renewal of existing maintenance agreements for software licenses sold in prior periods. Therefore, changes in customer support revenues do not always correlate directly to the changes in license revenues from period to period. The terms of support and maintenance agreements are typically twelve months, with customer renewal options. Cost of customer support revenues is comprised primarily of technical support personnel and related costs, as well as third party royalty costs.

Geographically, the overall increase was attributable to an increase in Americas of \$8.8 million, and an increase in Asia Pacific of \$0.3 million, offset by a decrease in EMEA of \$5.0 million.

Customer support revenues increased by \$24.6 million during the nine months ended March 31, 2015, as compared to the same period in the prior fiscal year, which is inclusive of the negative impact of foreign exchange of approximately \$18.2 million. Geographically, the overall increase was attributable to an increase in Americas of \$21.1 million, and an increase in Asia Pacific of \$3.8 million, offset by a decrease in EMEA of \$0.3 million.

Cost of customer support revenues were relatively stable during the three and nine months ended March 31, 2015, with gross margin percentage on customer support revenues remaining at approximately 87%.

4) Professional Service and Other Revenues:

Professional service and other revenues consist of revenues from consulting contracts and contracts to provide implementation, training and integration services (professional services). "Other" revenues consist of hardware revenues. These revenues are grouped within the "Professional service and other" category because they are relatively immaterial to our service revenues. Professional services are typically performed after the purchase of new software

licenses. Cost of professional service and other revenues consists primarily of the costs of providing integration, configuration and training with respect to our various software products. The most significant components of these costs are personnel-related expenses, travel costs and third party subcontracting.

Professional service and other revenues decreased by \$5.5 million during the three months ended March 31, 2015, as compared to the same period in the prior fiscal year, of which approximately \$4.6 million was due to the negative impact of foreign exchange. Geographically, the overall decrease was attributable to a decrease in Americas of \$2.6 million, a decrease in EMEA of \$2.2 million, and a decrease in Asia Pacific of \$0.7 million.

Cost of professional service and other revenues decreased by \$4.9 million during the three months ended March 31, 2015. This was primarily due to lower labour related expenses associated with lower revenue attainment and a reduction in the use of subcontractors. As a result the gross margin percentage on professional service and other revenues has increased slightly to approximately 20% from approximately 19%.

Professional service and other revenues decreased by \$7.8 million during the nine months ended March 31, 2015, as compared to the same period in the prior fiscal year, of which approximately \$6.4 million was due to the negative impact of foreign exchange. During the three months ended March 31, 2015, amortization of acquired technology-based intangible assets increased by \$5.0 million as compared to the same period in the prior fiscal year. This is due to additions of new acquired technology-based intangible assets from our acquisitions of Actuate, IGC, and GXS.

During the nine months ended March 31, 2015, amortization of acquired technology-based intangible assets increased by \$6.8 million, as compared to the same period in the prior fiscal year. This is due to the addition of new acquired technology-based intangible assets from our acquisitions of Actuate, IGC, and GXS, which was partially offset by the intangible assets pertaining to our acquisitions of Vignette Corporation (Vignette), Hummingbird Corporation (Hummingbird), IXOS Software AG (IXOS), and Captaris Inc. becoming fully amortized.

Payroll and payroll-related benefits increased by \$5.5 million and the use of facility and related resources increased by \$0.9 million, primarily as a result of the acquisition of Actuate. These increases were partially offset by a decrease in contract labour and consulting expenses of \$0.4 million, resulting from continued efforts to reduce the usage of external services and replace them with internal resources. Overall, our research and development expenses, as a percentage of total revenues, have increased to approximately 12% from approximately 11% during the same period in the prior fiscal year.

Research and development expenses increased by \$14.8 million during the nine months ended March 31, 2015 as compared to the same period in the prior fiscal year. Payroll and payroll-related benefits increased by \$15.0 million and the use of facility and related resources increased by \$3.4 million, primarily as a result of the acquisitions of GXS in the third quarter of Fiscal 2014 and the acquisition of Actuate in the third quarter of Fiscal 2015. These increases were partially offset by a decrease in contract labour and consulting expenses of \$2.2 million, resulting from continued efforts to reduce the usage of external services and replace them with internal resources, and a \$1.3 million

decrease in travel and communication expense. Overall,

our research and development expenses, as a percentage of total revenues, have remained relatively stable at approximately 11%.

Our research and development labour resources increased by 305 employees, from 1,854 employees at March 31, 2014 to 2,159 employees at March 31, 2015.

Sales and marketing expenses consist primarily of personnel expenses and costs associated with advertising, marketing and trade shows.

Sales and marketing expenses increased by \$2.1 million during the three months ended March 31, 2015, as compared to the same period in the prior fiscal year. This was primarily due to a \$1.9 million increase in payroll and payroll-related benefits, primarily attributed to our acquisition of Actuate. Overall, our sales and marketing expenses, as a percentage of total revenues, have remained stable at approximately 21%.

Sales and marketing expenses increased by \$21.5 million during the nine months ended March 31, 2014, as compared to the same period in the prior fiscal year. This was due to a \$11.7 million increase in payroll and payroll-related benefits, primarily attributed to our acquisitions of GXS and Actuate, and a \$6.4 million increase in commission benefits resulting from the increase in total revenues. In addition, marketing expenses increased by \$1.7 million, primarily on account promotional activity for our global "sales kick off" event held during the first quarter of Fiscal 2015 and our annual user conference held during the second quarter of Fiscal 2015. These increases were partially offset by a \$1.5 million decrease in travel and communication expenses. Amortization of acquired customer-based intangible assets:

Amortization of acquired customer-based intangible assets	\$28,250	\$3,571	\$24,679	\$79,498	\$25,110	\$54,388

Acquired customer-based intangible assets amortization expense increased during the three and nine months ended March 31, 2015 by \$3.6 million and \$25.1 million, respectively. This is primarily due to the acquisitions of Actuate and IGC during the third quarter of Fiscal 2015 and GXS during the third quarter of Fiscal 2014, offset by the intangible assets pertaining to our acquisitions of Hummingbird, IXOS, and Vignette becoming fully amortized.

Special charges (recoveries):

Special charges typically relate to amounts that we expect to pay in connection with restructuring plans relating to employee workforce reduction and abandonment of excess facilities, acquisition-related costs and other similar charges. Generally, we implement such plans in the context of integrating existing OpenText operations with that of acquired entities. Actions related to such restructuring plans are typically completed within a period of one year. In certain limited situations, if the planned activity does not need to be implemented, or an expense lower than anticipated is paid out, we record a recovery of the originally recorded expense to Special charges.

Special charges (recoveries)	\$5,622	\$(10,280)	\$15,902	\$4,032	\$(21,869)	\$25,901

Special charges decreased during the three months ended March 31, 2015 by \$10.3 million, as compared to the same period in the prior fiscal year. This was primarily due to a \$11.7 million decrease in restructuring activities, and a \$2.0 million decrease in acquisition related costs. These decreases were offset by a \$3.4 million increase in other miscellaneous charges, which is primarily related to the write off of unamortized debt issuance costs, the reversal of certain pre-acquisition tax liabilities, including related interest, based on our revised estimate of the liability and

offset, in certain cases, due to tax years becoming statute barred.

41

Special charges decreased during the nine months ended March 31, 2015 by \$21.9 million, as compared to the same period in the prior fiscal year. This was due to a \$14.4 million decrease in restructuring activities, a \$4.9 million decrease in acquisition related costs, and a \$2.5 million decrease in other miscellaneous charges.

For more details on Special charges (recoveries), see note 17 "Special Charges (Recoveries)" to our Condensed Consolidated Financial Statements.

Net Other Income (Expense)

Net other income (expense) relates to certain non-operational charges consisting primarily of transactional foreign exchange gains (losses). This income (expense) is dependent upon the change in foreign currency exchange rates vis-à-vis the functional currency of the legal entity.

(In thousands)	Three Months Ended March 31,			Nine Months Ended March 31,

Other income (expense), net	\$ (9,550)	\$ (11,202)	\$ 1,652	\$ (28,737)	\$ (31,575)	\$ 2,838

During the three and nine months ended March 31, 2015, Other income included a gain of \$3.1 million, respectively, as a result of remeasuring to fair value our investment in Actuate shares held before the date of acquisition. For more details see note 18 "Acquisitions" to our Condensed Consolidated Financial Statements.

Net Interest and Other Related Expense

Net interest and other related expense is primarily comprised of cash interest paid and accrued on our debt facilities, offset by interest income earned on our cash and cash equivalents.

	2015	Change increase (decrease)	2014	2015	Change increase (decrease)	2014
Interest and other related expense, net	\$ 16,872	\$ 7,138	\$ 9,734	\$ 36,426	\$ 19,267	\$ 17,159

Net interest and other related expense increased during the three and nine months ended March 31, 2015 by \$7.1 million and \$19.3 million, respectively. This was primarily the result of additional interest expense incurred relating to the Senior Notes and our Term Loan B, offset by a reduction in interest expense resulting from the repayment of our Term Loan A (each as defined below). Additionally, we received investment income of \$0.4 million and \$2.1 million, respectively, during the three and nine months ended March 31, 2015 as part of income distributions made from one of our cost basis investments.

For more details see note 10 "Long-Term Debt" to our Condensed Consolidated Financial Statements.

Provision for Income Taxes

We initiated an internal reorganization of our international subsidiaries in our fiscal year which began on July 1, 2009 and ended June 30, 2010 and we continue to integrate acquisitions into this new organizational structure, where appropriate, for the following reasons: 1) to consolidate our intellectual property within certain jurisdictions, 2) to effect an operational reduction of our global subsidiaries with a view to, eventually, having a single operating legal entity in each jurisdiction, 3) to better safeguard our intellectual property in jurisdictions with well established legal regimes and protections and 4) to simplify the management of our intellectual property ownership.

We operate in several tax jurisdictions and are exposed to various foreign tax rates. We also note that we are subject to tax rate discrepancies between our domestic tax rate and foreign tax rates that are significant and these discrepancies are primarily related to earnings in Luxembourg.

Provision for income taxes	\$ (309)	\$ (13,280)	\$ 12,971	\$ 35,401	\$ (13,175)	\$ 48,576

The effective GAAP tax rate (which is the provision for taxes expressed as a percentage of income before taxes) decreased to a recovery, representing 1.2% of income for the three months ended March 31, 2015, compared to a charge of 22.1% for the three months ended March 31, 2014, resulting in a reduction of tax expense in the amount of \$13.3 million. This decrease is primarily the result of (i) lower net income, having an impact of \$10.8 million, (ii) a decrease in the impact of adjustments on filing of tax returns in the amount of \$1.5 million, and (iii) a decrease in the impact of permanent differences in the amount of \$1.3 million. These impacts were offset by an increase in the net change in valuation allowance in the amount of \$1.5 million. The remainder of the differences are due to normal course movements and non-material items.

The effective GAAP tax rate (which is the provision for taxes expressed as a percentage of income before taxes) decreased to 17.6% for the nine months ended March 31, 2015, from 27.2% for the nine months ended March 31, 2014, resulting in a reduction of tax expense in the amount of \$13.2 million. This decrease is primarily due to a decrease in the impact of non-deductible amortization expense in the amount of \$4.8 million, a decrease in the net change in valuation allowance in the amount of \$1.3 million, a decrease in the net expense of unrecognized tax benefits with related interest and penalties in the amount of \$2.4 million, and a decrease in the impact of adjustments on filing of tax returns in the amount of \$3.8 million. The remainder of the differences are due to normal course movements and non-material items.

For information with regards to certain potential tax contingencies, see note 13 "Guarantees and Contingencies" to our Condensed Consolidated Financial Statements.

Use of Non-GAAP Financial Measures

In addition to reporting financial results in accordance with U.S. GAAP, the Company provides certain financial measures that are not in accordance with U.S. GAAP (Non-GAAP). These Non-GAAP financial measures have certain limitations in that they do not have a standardized meaning and thus the Company's definition may be different from similar Non-GAAP financial measures used by other companies and/or analysts and may differ from period to period. Thus it may be more difficult to compare the Company's financial performance to that of other companies. However, the Company's management compensates for these limitations by providing the relevant disclosure of the items excluded in the calculation of these Non-GAAP financial measures both in its reconciliation to the U.S. GAAP financial measures and its Condensed Consolidated Financial Statements, all of which should be considered when evaluating the Company's results.

The Company uses these Non-GAAP financial measures to supplement the information provided in its Condensed Consolidated Financial Statements, which are presented in accordance with U.S. GAAP. The presentation of Non-GAAP financial measures are not meant to be a substitute for financial measures presented in accordance with U.S. GAAP, but rather should be evaluated in conjunction with and as a supplement to such U.S. GAAP measures. OpenText strongly encourages investors to review its financial information in its entirety and not to rely on a single financial measure. The Company therefore believes that despite these limitations, it is appropriate to supplement the disclosure of the U.S. GAAP measures with certain Non-GAAP measures defined below.

Non-GAAP-based net income and Non-GAAP-based EPS are calculated as net income or earnings per share on a diluted basis, excluding the amortization of acquired intangible assets, other income (expense), share-based compensation, and special charges, all net of tax. Non-GAAP-based gross profit is the arithmetical sum of GAAP-based gross profit and the amortization of acquired technology-based intangible assets. Non-GAAP-based gross margin is calculated as Non-GAAP-based gross profit expressed as a percentage of revenue. Non-GAAP-based income from operations is calculated as income from operations, excluding the amortization of acquired intangible assets, special charges (recoveries), and share-based compensation expense. Non-GAAP-based operating margin is calculated as Non-GAAP-based income from operations expressed as a percentage of revenue.

The Company's management believes that the presentation of the above defined Non-GAAP financial measures provides useful information to investors because they portray the financial results of the Company before the impact of certain non-operational charges. The use of the term "non-operational charge" is defined for this purpose as an expense that does not impact the ongoing operating decisions taken by the Company's management and is based upon the way the Company's management evaluates the performance of the Company's business for use in the Company's internal reports. In the course of such evaluation and for the purpose of making operating decisions, the Company's management excludes certain items from its analysis, including amortization of acquired intangible assets, special charges (recoveries), share-based compensation, other income (expense), and the taxation impact of these items. These items are excluded based upon the manner in which management evaluates the business of the Company and are not excluded in the sense that they may be used under U.S. GAAP.

The Company believes the provision of supplemental Non-GAAP measures allow investors to evaluate the operational and financial performance of the Company's core business using the same evaluation measures that management uses, and is therefore a useful indication of OpenText's performance or expected performance of future operations and facilitates period-to-period comparison of operating performance (although prior performance is not necessarily indicative of future performance). As a result, the Company considers it appropriate and reasonable to provide, in addition to U.S. GAAP measures, supplementary Non-GAAP financial measures that exclude certain items from the presentation of its financial results.

The following charts provide unaudited reconciliations of U.S. GAAP-based financial measures to Non-GAAP-based financial measures for the following periods presented:

(5) GAAP-based and Non-GAAP-based income from operations stated in dollars and operating margin stated as a percentage of revenue.

(6)

Adjustment relates to the exclusion of Other income (expense) from our Non-GAAP-based operating expenses as Other income (expense) relates primarily to the transactional impact of foreign exchange and is generally not indicative or related to continuing operations and is therefore excluded from our internal analysis of operating results.

- Adjustment relates to differences between the GAAP-based tax recovery rate of approximately 1% and a non-GAAP-based tax rate of 18%; these rate differences are due to the income tax effects of expenses that are excluded for the purpose of calculating non-GAAP-based adjusted net income. Such excluded expenses include amortization, share-based compensation, special charges and other income (expense), net. Also excluded are tax expense items unrelated to current period income such as movements in FIN48 and valuation allowance reserves, tax arising on internal reorganizations, and “book to return” adjustments for tax return filings and tax assessments (in total “adjusted expenses”). In arriving at our non-GAAP-based tax rate of 18%, we analyzed the individual adjusted expenses and took into consideration the impact of statutory tax rates from local jurisdictions incurring the expense.

(4) Adjustment relates to the exclusion of Special charges (recoveries) from our Non-GAAP-based operating expenses as Special charges are generally incurred in the periods following the relevant acquisitions and are not indicative or related to continuing operations and are therefore excluded from our internal analysis of operating results.

(5) GAAP-based and Non-GAAP-based income from operations stated in dollars and operating margin stated as a percentage of revenue.

(6) Adjustment relates to the exclusion of Other income (expense) from our Non-GAAP-based operating expenses as Other income (expense) relates primarily to the transactional impact of foreign exchange and is generally not indicative or related to continuing operations and is therefore excluded from our internal analysis of operating results.

(7) Adjustment relates to differences between the GAAP-based tax provision rate of approximately 27% and a non-GAAP-based tax rate of 14%; these rate differences are due to the income tax effects of expenses that are excluded for the purpose of calculating non-GAAP-based adjusted net income. Such excluded expenses include amortization, share-based compensation, special charges and other income (expense), net. Also excluded are tax expense items unrelated to current period income such as movements in FIN48 and valuation allowance reserves, tax arising on internal reorganizations, and “book to return” adjustments for tax return filings and tax assessments (in total “adjusted expenses”). In arriving at our non-GAAP-based tax rate of 14%, we analyzed the individual adjusted expenses and took into consideration the impact of statutory tax rates from local jurisdictions incurring the expense.

LIQUIDITY AND CAPITAL RESOURCES

The following tables set forth changes in cash flows from operating, investing and financing activities for the periods indicated:

(In thousands)	As of March 31, 2015	Change increase (decrease)	As of June 30, 2014
Cash and cash equivalents	\$613,177	\$185,287	\$427,890
Marketable Securities*	\$30,211	\$30,211	\$—

*The long-term portion of the marketable securities are included within "Other Assets" in the Condensed Consolidated Balance Sheets

(In thousands)	Nine Months Ended March 31,		
	2015	Change	2014
Cash provided by operating activities	\$391,214	\$109,001	\$282,213
Cash used in investing activities	\$(390,169)) \$749,937	\$(1,140,106)
Cash provided by financing activities	\$211,452	\$(506,299)) \$717,751
Cash and cash equivalents			

Cash and cash equivalents primarily consist of deposits held at major banks with original maturities of 90 days or less. We anticipate that our cash and cash equivalents, as well as available credit facilities, will be sufficient to fund our anticipated cash requirements for working capital, contractual commitments, capital expenditures, dividends and operating needs for the next 12 months. However, any further material or acquisition-related activities may require additional sources of financing and would be subject to the financial covenants established under our credit facilities. For more details, see "Long-term Debt and Credit Facilities" below.

We do not have any material restrictions on repatriation of cash from foreign subsidiaries nor do we expect taxes on repatriation of cash held in foreign subsidiaries to have a material effect on our overall liquidity, financial condition or results of operations. As at March 31, 2015, we have provided \$8.9 million (June 30, 2014-\$7.6 million) in respect of both additional foreign withholding taxes or deferred income tax liabilities for temporary differences related to the undistributed earnings of certain non-United States subsidiaries, and planned periodic repatriations from certain United States and Luxembourg subsidiaries, that will be subject to withholding taxes upon distribution.

Cash flows provided by operating activities

Cash flows from operating activities increased by \$109.0 million due to an increase in net income before the impact of non-cash items of \$83.9 million and an increase in changes from working capital of \$25.1 million. The increase in operating cash flow from changes in working capital of \$25.1 million is primarily due to the net impact of the following changes: (i) \$57.4 million relating to a lower accounts receivable balance, (ii) \$14.6 million due to a lower prepaid and other current assets balance, and (iii) \$1.3 million relating to a higher other assets balance, absent the impact of a \$3.1 million non-cash pre-acquisition adjustment relating to the mark-to-market from our pre-acquisition investment in Actuate. These increases were offset by the net impact of the following changes: (i) \$14.1 million relating to the net impact of changes in income taxes payable and deferred charges and credits, (ii) \$13.3 million relating to a lower deferred revenue balance, and (iii) \$20.8 million relating to a lower accounts payable and accrued liabilities balance. The changes in working capital were largely due to the increased scale of operations resulting from our GXS acquisition.

During the third quarter of Fiscal 2015 our Days Sales Outstanding (DSO) was 51 days compared to a DSO of 52 days during the third quarter of Fiscal 2014 and the per day impact of our DSO in the third quarters of Fiscal 2015 and Fiscal 2014 on our cash flows was \$2.8 million and \$2.9 million, respectively.

Cash flows used in investing activities

Our cash flows used in investing activities is primarily on account of acquisitions and additions of property and equipment.

Cash flows used in investing activities decreased by \$749.9 million. This is primarily due to lower consideration for our acquisitions made during the first nine months of Fiscal 2015 than for our acquisitions made during the first nine months of Fiscal 2014, and proceeds of \$7.1 million from the maturity of short-term investments acquired with the acquisition of Actuate.

These were partially offset by incremental additions to property and equipment of \$32.1 million, and a \$6.4 million increase in other investing activities.

Cash flows from financing activities

Our cash flows from financing activities consist of long-term debt financing and amounts received from stock options exercised by our employees. These inflows are typically offset by scheduled and non-scheduled repayments of our long-term debt financing and, when applicable, the payment of dividends and/or the repurchases of our Common Shares.

Cash flows provided by financing activities decreased by \$506.3 million. This is primarily due to the repayment of the outstanding balance of our Term Loan A during the third quarter of Fiscal 2015, a \$9.5 million increase in dividend payments made to our shareholders, and a \$6.8 million decrease in cash collected from the issuance of Common Shares. Additionally, we incurred approximately \$2.0 million in additional debt issuance costs (see note 7 "Other Assets", and note 10 "Long-term Debt" to our Condensed Consolidated Financial Statements).

Cash Dividends

During the three and nine months ended March 31, 2015, we declared and paid cash dividends of \$0.1725 per Common Share, and \$0.5175 per Common Share, respectively, that totaled \$21.1 million and \$63.2 million, respectively. Future declarations of dividends and the establishment of future record and payment dates are subject to the final determination and discretion of our Board of Directors.

Long-term Debt and Credit Facilities

Senior Unsecured Fixed Rate Notes

On January 15, 2015, we issued \$800.0 million in aggregate principal amount of our 5.625% Senior Notes due 2023 (the Senior Notes) in a private placement to initial purchasers in connection with offerings pursuant to Rule 144A and Regulation S under the Securities Act. The Senior Notes bear interest at a rate of 5.625% per annum, payable semi-annually in arrears on January 15 and July 15, commencing on July 15, 2015. The Senior Notes will mature on January 15, 2023, unless earlier redeemed in accordance with their terms, or repurchased.

We may redeem all or a portion of the Senior Notes at any time prior to January 15, 2018 at a redemption price equal to 100% of the principal amount of the Senior Notes plus an applicable premium, plus accrued and unpaid interest, if any, to the redemption date. In addition, we may also redeem up to 40% of the aggregate principal amount of the Senior Notes, on one or more occasions, prior to January 15, 2018, using the net proceeds from certain qualified equity offerings at a redemption price of 105.625% of the principal amount, plus accrued and unpaid interest, if any, to the redemption date, subject to compliance with certain conditions. We may, on one or more occasion, redeem the Senior Notes, in whole or in part, at any time on and after January 15, 2018 at the applicable redemption prices set forth in the indenture, dated as of January 15, 2015, among the Company, the subsidiary guarantors party thereto, Citibank, N.A., as U.S. trustee, and Citi Trust Company Canada, as Canadian Trustee (the Indenture), plus accrued and unpaid interest, if any, to the redemption date.

If we experience one of the kinds of changes of control triggering events specified in the Indenture, we will be required to make an offer to repurchase the Senior Notes at a price equal to 101% of the principal amount of the Senior Notes, plus accrued and unpaid interest, if any, to the date of purchase.

The Indenture contains covenants that limit our and certain of our subsidiaries' ability to, among other things: (i) create certain liens and enter into sale and lease-back transactions; (ii) create, assume, incur or guarantee additional indebtedness of the Company or the subsidiary guarantors without such subsidiary becoming a subsidiary guarantor of the Senior Notes; and (iii) consolidate, amalgamate or merge with, or convey, transfer, lease or otherwise dispose of its property and assets substantially as an entirety to, another person. These covenants are subject to a number of important limitations and exceptions as set forth in the Indenture. The indenture also provides for events of default, which, if any of them occurs, may permit or, in certain circumstances, require the principal, premium, if any, interest and any other monetary obligations on all the then-outstanding notes to be due and payable immediately.

The Senior Notes are initially guaranteed on a senior unsecured basis by our existing and future wholly-owned subsidiaries that borrow or guarantee the obligations under the Revolver and Term Loan B (each defined below). The Senior Notes and the guarantees rank equally in right of payment with all of our and our subsidiary guarantors' existing and future senior unsubordinated debt and will rank senior in right of payment to all of our and our subsidiary guarantors' future subordinated debt. The Senior Notes and the guarantees will be effectively subordinated to all of

ours and our guarantors' existing and future secured debt, including the obligations under the Revolver and Term Loan B, to the extent of the value of the assets securing such secured debt.

On January 15, 2015, we used a portion of the net proceeds of the offering of the Senior Notes to repay in full the outstanding Term Loan A (as defined below). We have added the remaining net proceeds of the offering to our cash balances for general corporate purposes, including potential future acquisitions.

The foregoing description of the Indenture does not purport to be complete and is qualified in its entirety by reference to the full text of the Indenture, which is filed as an exhibit to the Company's Current Report on Form 8-K filed with the SEC on January 15, 2015.

Term Loan A and Revolver

Prior to January 15, 2015, one of our credit facilities consisted of a \$600 million term loan facility (Term Loan A) and a \$300 million committed revolving credit facility (the Revolver and, together with Term Loan A, the 2011 Credit Agreement).

On January 15, 2015, concurrently with the closing of the offering of the Senior Notes, we used a portion of the net proceeds from the offering of the Senior Notes to repay in full the outstanding balance of our Term Loan A.

On January 15, 2015, concurrently with the closing of the offering of the Senior Notes and effective upon the repayment in full of Term Loan A with a portion of the net proceeds of the offering, the 2011 Credit Agreement was amended and restated as described in the second amendment to the 2011 Credit Agreement to, among other things, remove the provisions related to Term Loan A and modify certain provisions related to the incurrence of debt and liens and the making of acquisitions, investments and restricted payments, replace the covenants to maintain a "consolidated leverage" ratio of no more than 3:1 and a "consolidated interest coverage" ratio of 3:1 or more with a covenant to maintain a "consolidated net leverage" ratio of no more than 4:1, and make other changes, in each case, generally to conform with Term Loan B, as further described below. Borrowings under the Revolver are secured by a first charge over substantially all of our assets, and as of January 16, 2014, on a pari passu basis with Term Loan B (as defined below). As part of the second amendment to the 2011 Credit Agreement, the commitments available under the Revolver was increased to \$300 million from \$100 million. The Revolver will mature on December 22, 2019 with no fixed repayment date prior to the end of the term. As of March 31, 2015, we have not drawn any amounts on the Revolver.

Term Loan B

In connection with the acquisition of GXS, on January 16, 2014, we entered into a second credit facility, which provides for a \$800 million term loan facility with certain lenders named therein, Barclays Bank PLC (Barclays), as sole administrative agent and collateral agent, and with Barclays and RBC Capital Markets as lead arrangers and joint bookrunners (Term Loan B). Repayments made under Term Loan B are equal to 0.25% of the original principal amount in equal quarterly installments for the life of Term Loan B, with the remainder due at maturity.

Borrowings under Term Loan B are secured by a first charge over substantially all of our assets on a pari passu basis with Term Loan A (prior to the repayment of Term Loan A) and the Revolver. We entered into Term Loan B and borrowed the full amount of \$800 million on January 16, 2014. Term Loan B has a seven year term.

Borrowings under Term Loan B bear interest at a rate per annum equal to an applicable margin plus, at the borrower's option, either (1) the eurodollar rate for the interest period relevant to such borrowing or (2) an ABR rate determined by reference to the greatest of (i) the prime rate of Barclays, (ii) the federal funds rate plus 0.50% per annum and (iii) the one month eurodollar rate plus 1.00% per annum. The applicable margin for borrowings under Term Loan B will be 2.5% with respect to LIBOR borrowings and 1.5% with respect to ABR rate borrowings.

Currently we have chosen for our borrowings under Term Loan B to bear a floating rate of interest at a rate per annum equal to 2.5% plus the higher of LIBOR or 0.75%. As of March 31, 2015, the interest rate was 3.25%.

Term Loan B has incremental facility capacity of (i) \$250 million plus (ii) additional amounts, subject to meeting a "consolidated senior secured net leverage" ratio not exceeding 2.75:1.00, in each case subject to certain conditions. Consolidated senior secured net leverage ratio is defined for this purpose as the proportion of our total debt reduced by unrestricted cash, including guarantees and letters of credit, that is secured by our or any of our subsidiaries' assets, over our trailing twelve months net income before interest, taxes, depreciation, amortization, restructuring, share-based compensation and other miscellaneous charges.

Under Term Loan B, we must maintain a "consolidated net leverage" ratio of no more than 4:1 at the end of each financial quarter. Consolidated net leverage ratio is defined for this purpose as the proportion of our total debt reduced by unrestricted cash, including guarantees and letters of credit, over our trailing twelve months net income before

interest, taxes, depreciation, amortization, restructuring, share-based compensation and other miscellaneous charges. As of March 31, 2015, our consolidated net leverage ratio was 1.6:1.

For further details relating to our Term Loan B, please see note 10 "Long-Term Debt" to our Condensed Consolidated Financial Statements.

Mortgage

We currently have an "open" mortgage with a bank where we can pay all or a portion of the mortgage on or before August 1, 2015. The original principal amount of the mortgage was Canadian \$15.0 million and interest accrues monthly at a variable rate of Canadian prime plus 0.50%. Principal and interest are payable in monthly installments of Canadian \$0.1 million with a final lump sum principal payment due on maturity. The mortgage is secured by a lien on our headquarters in Waterloo, Ontario, Canada. We entered into this mortgage in December 2005. As of March 31, 2015, the carrying value of the mortgage was \$7.8 million. As of March 31, 2015, the carrying value of the Waterloo building that secures the mortgage was \$15.5 million.

Shelf Registration Statement

In response to the demand and piggyback registration requests we received pursuant to the registration rights agreement entered into in connection with the acquisition of GXS, we filed a universal shelf registration statement on Form S-3 (the Shelf Registration Statement) with the SEC, which became effective automatically. The Shelf Registration Statement allows for primary and secondary offering from time to time of equity, debt and other securities, including Common Shares, Preference Shares, debt securities, depositary shares, warrants, purchase contracts, units and subscription receipts. A base shelf prospectus qualifying the distribution of such securities was also filed with certain Canadian securities regulators. The type of securities and the specific terms thereof will be determined at the time of any offering and will be described in the applicable prospectus supplement to be filed separately with the SEC and such Canadian securities regulators.

Pensions

As of March 31, 2015, our total unfunded pension plan obligations were \$65.4 million, of which \$1.4 million is payable within the next 12 months. We expect to be able to make the long-term and short-term payments related to these obligations in the normal course of operations.

Our anticipated payments under our most significant plans for the fiscal years indicated below are as follows:

	Fiscal years ending June 30,		
	CDT	GXS GER	GXS PHP
2015 (three months ended June 30)	\$ 137	\$ 189	\$ 6
2016	557	780	27
2017	596	841	36
2018	641	909	47
2019	717	947	75
2020 to 2024	5,324	4,875	1,298
Total	\$7,972	\$8,541	\$1,489

For a detailed discussion on all pensions, see note 11 "Pension Plans and Other Post Retirement Benefits" to our Condensed Consolidated Financial Statements.

Commitments and Contractual Obligations

As of March 31, 2015, we have entered into the following contractual obligations with minimum payments for the indicated fiscal periods as follows:

(In thousands)	Total	Payments due between			
		April 1, 2015— June 30, 2015	July 1, 2015— June 30, 2017	July 1, 2017— June 30, 2019	July 1, 2019 and beyond
Long-term debt obligations*	\$2,104,616	\$8,707	\$165,195	\$156,417	\$1,774,297
Operating lease obligations**	212,250	13,057	83,577	57,310	58,306
Purchase obligations	18,415	3,173	14,421	821	—
	\$2,335,281	\$24,937	\$263,193	\$214,548	\$1,832,603

*Long-term debt obligations include the Senior Notes issued on January 15, 2015.

**Net of \$3.2 million of sublease income to be received from properties which we have subleased to third parties. The long-term debt obligations are comprised of interest and principal payments on the Senior Notes, credit facilities, and a mortgage on our headquarters in Waterloo, Ontario, Canada. See note 10 "Long-Term Debt" to our Condensed Consolidated Financial Statements.

Guarantees and Indemnifications

We have entered into customer agreements which may include provisions to indemnify our customers against third party claims that our software products or services infringe certain third party intellectual property rights and for liabilities related to a breach of our confidentiality obligations. We have not made any material payments in relation to such indemnification provisions and have not accrued any liabilities related to these indemnification provisions in our Condensed Consolidated Financial Statements.

Litigation

We are currently involved in various claims and legal proceedings.

Quarterly, we review the status of each significant legal matter and evaluate such matters to determine how they should be treated for accounting and disclosure purposes in accordance with the requirements of ASC Topic 450-20 "Loss Contingencies" (Topic 450-20). Specifically, this evaluation process includes the centralized tracking and itemization of the status of all our disputes and litigation items, discussing the nature of any litigation and claim, including any dispute or claim that is reasonably likely to result in litigation, with relevant internal and external counsel, and assessing the progress of each matter in light of its merits and our experience with similar proceedings under similar circumstances.

If the potential loss from any claim or legal proceeding is considered probable and the amount can be reasonably estimated, we accrue a liability for the estimated loss in accordance with Topic 450-20. As of the date of this Quarterly Report on Form 10-Q, such aggregated losses were not material to our consolidated financial position or result of operations and we do not believe as of the date of this filing that it is reasonably possible that a loss exceeding the amounts already recognized will be incurred that would be material to our consolidated financial position or results of operations.

Contingencies

EasyLink Services International Corporation (EasyLink) and its United States subsidiaries were assessed by the New York State Department of Taxation and Finance for the potential applicability of telecommunications excise and franchise taxes to its New York State revenues for certain pre-acquisition EasyLink revenue. As of March 31, 2015 a settlement was reached with the New York State Department of Taxation and Finance for \$2.8 million, which was paid during the three months ended March 31, 2015.

As part of our acquisition of GXS, we have inherited a tax dispute in Brazil between the Company's subsidiary, GXS Tecnologia da Informação (Brasil) Ltda. (GXS Brazil), and the municipality of São Paulo, in connection with GXS Brazil's judicial appeal of a tax claim in the amount of \$2.2 million as of March 31, 2015. We currently have in place a bank guarantee in the amount of \$3.0 million in recognition of this dispute. However, we believe that the position of the São Paulo tax authorities is not consistent with the relevant facts and based on information available on the case and other similar matters provided by local counsel, we believe that we can defend our position and that no tax is owed. Although we believe that the facts support our position, the ultimate outcome of this matter could result in a loss of up to the claim amount discussed above, plus future interest or penalties that may accrue.

Historically, prior to our acquisition of GXS, GXS would charge certain costs to its subsidiaries, including GXS Brazil, primarily based on historical transfer pricing studies that were intended to reflect the costs incurred by subsidiaries in relation to services provided by the parent company to the subject subsidiary. GXS recorded taxes on amounts billed, that were considered to be due based on the intercompany charges. GXS subsequently re-evaluated its intercompany charges to GXS Brazil and related taxes and, upon taking into consideration the current environment and judicial proceedings in Brazil, concluded that it was probable that certain indirect taxes would be assessable and payable based upon the accrual of such intercompany charges and has approximately \$6.2 million accrued for the probable amount of a settlement related to the indirect taxes, interest and penalties.

Our Indian subsidiary, GXS India Technology Centre Private Limited (GXS India), is subject to potential assessments by Indian tax authorities in the city of Bangalore. GXS India has received assessment orders from the Indian tax authorities alleging that the transfer price applied to intercompany transactions was not appropriate. Based on advice

from our tax advisors, we believe that the facts that the Indian tax authorities are using to support their assessment are incorrect. We have filed appeals and anticipate an eventual settlement with the Indian tax authorities. We have accrued \$1.4 million to cover our anticipated financial exposure in this matter.

The United States Internal Revenue Service (IRS) is examining certain of our tax returns for Fiscal 2010 through Fiscal 2012, and in connection with those examinations is reviewing our internal reorganization in Fiscal 2010 to consolidate certain intellectual property ownership in Luxembourg and Canada and our integration of certain acquisitions into the resulting structure. These examinations may lead to proposed adjustments to our taxes, which may be material, individually or in the aggregate. As of the date of this Quarterly Report on Form 10-Q, no adjustments have been proposed by the IRS, and we have not recorded any material accruals for any such potential adjustments in our Condensed Consolidated Financial Statements.

Please also see "Risk Factors" in our Annual Report on Form 10-K for our fiscal year ended June 30, 2014.

Off-Balance Sheet Arrangements

We do not enter into off-balance sheet financing as a matter of practice except for the use of operating leases for office space, computer equipment, and vehicles. None of the operating leases described in the previous sentence has, and we currently do not believe that they potentially may have, a material effect on our financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources. In accordance with U.S. GAAP, neither the lease liability nor the underlying asset is carried on the balance sheet, as the terms of the leases do not meet the criteria for capitalization.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are primarily exposed to market risks associated with fluctuations in interest rates on our term loans and foreign currency exchange rates.

Interest rate risk

Our exposure to interest rate fluctuations relate primarily to our Term Loan B.

As of March 31, 2015, we had an outstanding balance of \$790.0 million on Term Loan B. Term Loan B bears a floating interest rate of 2.5% plus the higher of LIBOR or 0.75%. As of March 31, 2015, an adverse change of one percent on the interest rate would have the effect of increasing our annual interest payment on Term Loan B by approximately \$7.9 million, assuming that the loan balance as of March 31, 2015 is outstanding for the entire period. At June 30, 2014, an adverse change of one percent would have had the effect of increasing our annual interest payments on Term Loan B by approximately \$8.0 million, assuming that the loan balance was outstanding for the entire period.

Foreign currency risk

Foreign currency transaction risk

We transact business in various foreign currencies. Our foreign currency exposures typically arise from intercompany fees, intercompany loans and other intercompany transactions that are expected to be cash settled in the near term. We expect that we will continue to realize gains or losses with respect to our foreign currency exposures. Our ultimate realized gain or loss with respect to foreign currency exposures will generally depend on the size and type of cross-currency transactions that we enter into, the currency exchange rates associated with these exposures and changes in those rates. Additionally, we have hedged certain of our Canadian dollar foreign currency exposures relating to our payroll expenses in Canada.

Based on the foreign exchange forward contracts outstanding as at March 31, 2015, a one cent change in the Canadian dollar to U.S. dollar exchange rate would have caused a change of approximately \$0.8 million in the mark to market on our existing foreign exchange forward contracts.

At June 30, 2014, a one cent change in the Canadian dollar to U.S. dollar exchange rate would have caused a change of approximately \$1.1 million in the mark to market on our existing foreign exchange forward contracts.

Foreign currency translation risk

Our reporting currency is the U.S. dollar. Fluctuations in foreign currencies impact the amount of total assets and liabilities that we report for our foreign subsidiaries upon the translation of these amounts into U.S. dollars. In particular, the amount of cash and cash equivalents that we report in U.S. dollars for a significant portion of the cash held by these subsidiaries is subject to translation variance caused by changes in foreign currency exchange rates as of the end of each respective reporting period (the offset to which is recorded to accumulated other comprehensive income on our Condensed Consolidated Balance Sheets).

The following table shows our cash and cash equivalents denominated in certain major foreign currencies as of March 31, 2015 (equivalent in U.S. dollar):

(In thousands)	U.S. Dollar Equivalent at March 31, 2015	U.S. Dollar Equivalent at June 30, 2014
Euro	\$ 66,979	\$ 85,729
British Pound	29,323	24,552
Canadian Dollar	10,458	6,182
Swiss Franc	8,246	11,735
Other foreign currencies	54,275	60,791
Total cash and cash equivalents denominated in foreign currencies	169,281	188,989
U.S. dollar	443,896	238,901
Total cash and cash equivalents	\$ 613,177	\$ 427,890

If overall foreign currency exchange rates in comparison to the U.S. dollar uniformly weakened by 10%, the amount of cash and cash equivalents we would report in equivalent U.S. dollars would decrease by approximately \$16.9 million (June 30, 2014—\$18.9 million).

Item 4. Controls and Procedures

(A) Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, our management, with the participation of the Chief Executive Officer and Chief Financial Officer, performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2015, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act were recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that information required to be disclosed by us in the reports we file under the Exchange Act (according to Rule 13(a)-15(e)) is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(B) Changes in Internal Control over Financial Reporting (ICFR)

Based on the evaluation completed by our management, in which our Chief Executive Officer and Chief Financial Officer participated, our management has concluded that there were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the fiscal quarter ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - Other Information

Item 1A. Risk Factors

You should carefully consider the factors discussed in Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for our fiscal year ended June 30, 2014. These are not the only risks and uncertainties facing us. Additional risks not currently known to us or that we currently believe are immaterial may also impair our operating results, financial condition and liquidity. Our business is also subject to general risks and uncertainties that affect many other companies.
