Fair Value Measurements

The Fund adopted the provisions of Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (SFAS 157), effective with the beginning of the Fund's fiscal year. SFAS 157 establishes a hierarchy that prioritizes the inputs to valuation techniques. Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Edgar Filing: Cushing MLP Total Return Fund - Form N-Q/A

Level 1 – quoted prices in active markets for identical investments

Level 2 – other significant observable inputs (including quoted prices for similar investments, market corroborated inputs, etc.)

Level 3 – significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

Edgar Filing: Cushing MLP Total Return Fund - Form N-Q/A

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following table provides the fair value measurements of applicable Fund assets by level within the fair value hierarchy as of August 31, 2009. These assets are measured on a recurring basis.

Derivative Financial Instruments
