Mexico City, D.F., July 23, 2007—Grupo Televisa, S.A.B. (NYSE:TV; BMV: TLEVISA CPO; “Televisa” or “the Company”) today announced results for second quarter 2007. The results have been prepared in accordance with Mexican Financial Reporting Standards and are adjusted in millions of Mexican pesos in purchasing power as of June 30, 2007.

The following table sets forth a condensed consolidated statement of income for the three months ended June 30, 2007 and 2006, in millions of Mexican pesos, as well as the percentage of net sales that each line represents, and the percentage change when comparing second quarter 2007 with second quarter 2006:

	<i>2Q 2007</i>	<i>Margin</i>	<i>2Q 2006</i>	<i>Margin</i>	<i>Change</i>
		%		%	%
Net sales	9,808.6	100.0	10,189.3	100	
					(3.7)
Operating income	3,476.5	35.4	3,943.9	38.7	
					(11.9)
Consolidated net income	2,247.3	22.9	2,375.6	23.3	
					(5.4)
Majority interest net income	2,030.5	20.7	2,399.3	23.5	
					(15.4)

Consolidated net sales decreased 3.7% to Ps.9,808.6 million in second quarter 2007 compared with Ps.10,189.3 million in second quarter 2006. This decrease reflected lower sales in our Television Broadcasting segment that were partially offset by higher sales in our Other Businesses, Sky Mexico, Pay Television Networks, Cable Television, Programming Exports, Publishing, and Publishing Distribution segments.

Consolidated operating income decreased 11.9% to Ps.3,476.5 million in second quarter 2007 compared with Ps.3,943.9 million in second quarter 2006. This decrease was attributable to lower sales and higher operating expenses that were partially offset by a marginal decrease in cost of sales.

Majority interest net income decreased 15.4% to Ps.2,030.5 million in second quarter 2007 compared with Ps.2,399.3 million in second quarter 2006. The net decrease of Ps.368.8 million reflected i) a Ps.467.4 million decrease in operating income, ii) a Ps.338.5 million increase in integral financing expense, and iii) a Ps.240.5 million increase in

minority interest net income. These unfavorable changes were partially offset by i) a Ps.481.9 million decrease in other expense, net; ii) a Ps.76 million decrease in equity in losses of affiliates; and iii) a Ps.119.7 million decrease in income taxes.

Television Broadcasting **Second-quarter sales** decreased 15.5% to Ps.4,936 million compared with Ps.5,839.1 million in second quarter 2006. This decrease was driven by i) the unfavorable comparison resulting from last years' political campaigns and Soccer World Cup advertising and ii) an unexpected slowdown in consumer spending in Mexico, which led to a decline in advertising revenues during the quarter.

Second-quarter operating segment income decreased 21% to Ps.2,476.8 million compared with Ps.3,137.1 million in second quarter 2006, and the margin decreased to 50.2%. These results reflect lower sales that were partially offset by lower cost of sales and operating expenses.

Pay Television Networks **Second-quarter sales** increased 28% to Ps.436.9 million compared with Ps.341.4 million in second quarter 2006. This increase reflects i) higher revenues from channels sold in Mexico and Latin America; ii) higher sales in TuTV, our pay-television joint venture with Univision; and iii) higher advertising sales.

Second-quarter operating segment income increased 55.3% to Ps.262.8 million compared with Ps.169.2 million in second quarter 2006, and the margin increased to 60.2%. These results were driven by higher sales that were partially offset by an increase in operating expenses.

**Programming
Exports**

Second-quarter sales increased 8.7% to Ps.580.6 million compared with Ps.534.2 million in second quarter 2006. This increase reflects i) a 23% increase in royalties from Univision, which amounted to US\$37.5 million in second quarter 2007 compared with US\$30.5 million in second quarter 2006; and ii) higher programming sales to Europe and Asia. These increases were partially offset by i) a negative translation effect of foreign-currency-denominated sales amounting to Ps.41.4 million, and ii) lower export sales to Latin America.

Second-quarter operating segment income increased 28.2% to Ps.282.6 million compared with Ps.220.5 million in second quarter 2006, and the margin increased to 48.7%. These results were driven by higher sales and lower cost of sales and operating expenses.

Publishing

Second-quarter sales increased 2.7% to Ps.790.2 million compared with Ps.769.7 million in second quarter 2006. This increase reflects a greater number of advertising pages sold as well as higher revenues from magazine circulation abroad. These increases were partially offset by i) a decrease in the number of advertising pages sold in Mexico, and ii) a negative translation effect of foreign-currency-denominated sales amounting to Ps.42 million.

Second-quarter operating segment income increased 0.6% to Ps.154.8 million compared with Ps.153.9 million in second quarter 2006; the margin was 19.6%. These results were driven by higher sales that were partially offset by higher cost of sales and operating expenses.

**Publishing
Distribution**

Second-quarter sales increased 16.1% to Ps.127.6 million compared with Ps.109.9 million in second quarter 2006. This increase reflects higher circulation in Mexico and abroad of magazines published by the Company. This increase was partially offset by i) lower circulation in Mexico of magazines published by third parties, and ii) a negative translation effect of foreign-currency-denominated sales amounting to Ps.9.6 million.

Second-quarter operating segment income increased 117.6% to Ps.16.1 million compared with Ps.7.4 million in second quarter 2006, and the margin increased to 12.6%. These results reflect higher sales and lower operating expenses that were partially offset by an increase in cost of sales.

Sky Mexico

Second-quarter sales increased 7.5% to Ps.2,030.3 million compared with Ps.1,889.2 million in second quarter 2006. This increase was attributable mainly to a 7.2% increase in the subscriber base. As of June 30, 2007, the number of gross active subscribers increased to 1,490,300

(including 104,400 commercial subscribers), compared with 1,389,800 (including 76,800 commercial subscribers) as of June 30, 2006.

Second-quarter operating segment income increased 13.1% to Ps.991.9 million compared with Ps.876.7 million in second quarter 2006, and the margin increased to 48.9%. These results came from higher sales and lower operating expenses that were partially offset by higher cost of sales.

On July 15, 2007, Sky began operations in Central America, specifically in Costa Rica. Sky expects to launch operations in Nicaragua shortly and should begin operating in Panama and the Dominican Republic in the 4th quarter of 2007.

Cable Television **Second-quarter sales** increased 17% to Ps.585.4 million compared with Ps.500.5 million in second quarter 2006. This increase was attributable to i) a 15% increase in the subscriber base, which, as of June 30, 2007, reached 527,136, all of which are digital subscribers, compared 458,312 subscribers (including 367,435 digital subscribers) reported for the second quarter 2006; ii) a 60.1% increase in broadband subscribers to 121,465 compared with 75,863 reported for second quarter 2006; and iii) a 3% average rate increase effective March 1, 2007. These increases were partially offset by lower advertising sales.

Second-quarter operating segment income increased 4.5% to Ps.226.3 million compared with Ps.216.6 million in second quarter 2006, and the margin decreased to 38.7%. These results reflected higher sales that were partially offset by higher cost of sales and operating expenses.

On July 2, 2007, Cablevisión began to offer IP telephony services in certain areas of Mexico City and by year end plans to offer the service in every area in which its network is bidirectional.

Other Businesses **Second-quarter sales** increased 37.6% to Ps.592.7 million compared with Ps.430.7 million in second quarter 2006. This increase was attributable to the sales in our Gaming business, and higher sales in our Soccer, and feature-film distribution businesses. These increases were partially offset by lower sales in our Radio and Internet portal businesses due to lower revenues in our SMS messaging service.

Second-quarter operating segment loss increased to Ps.98.2 million compared with a loss of Ps.42 million in second quarter 2006, reflecting higher cost of sales and operating expenses that were partially offset by higher sales.

Corporate Expense

In second quarter 2007 and 2006, we recognized a share-based compensation expense of approximately Ps.33.4 million and Ps.47.4 million, respectively, as corporate expense. Share-based compensation expense is measured at fair value at the time the equity benefits are granted to our officers and employees and is recognized over the vesting period by accruing in majority stockholders' equity.

Non-operating Results

Other expense, net

Other expense, net, decreased by Ps.481.9 million, to Ps.79.2 million in second quarter 2007, compared with Ps.561.1 million in second quarter 2006. This decrease reflected primarily certain non-recurring expenses incurred in connection with the tender offer made by Sky Mexico in April 2006 for most of its Senior Notes due 2013.

Integral result of financing

The following table sets forth our integral result of financing for the three months ended June 30, 2007 and 2006, in millions of Mexican pesos in purchasing power as of June 30, 2007, which consisted of:

	<i>2Q 2007</i>	<i>2Q 2006</i>	<i>Increase (decrease)</i>
Interest expense	454.3	506.9	(52.6)
Interest income		(304.9)	(208.2)
	(513.1)		
Foreign exchange loss (gain), net	257.5	(420.5)	678
(Gain) loss from monetary position, net		15.7	(78.7)
	(63)		
Integral cost (income) of financing, net	135.7	(202.8)	338.5

The integral result of financing changed by Ps.338.5 million to an integral cost of financing of Ps.135.7 million in second quarter 2007 from an integral income of financing of Ps.202.8 million in second quarter 2006. This decrease reflected primarily a Ps.678 million increase in net foreign exchange loss resulting primarily from a higher average of net monetary foreign currency asset position in second quarter 2007 compared with second quarter 2006, in conjunction with a 2.10% appreciation of the Mexican peso against the U.S. dollar in second quarter 2007 compared with a 4.05% depreciation of the Mexican peso against the U.S. dollar in last year's comparable period. This unfavorable variance was partially offset by i) a Ps.208.2 million increase in interest income primarily in connection with a higher average amount of temporary investments in second quarter 2007 compared with second quarter 2006; ii) a Ps.52.6 million decrease in interest expense, due primarily to a gain from a derivative transaction to hedge against interest-rate increases in connection with the issuance of our 8.49% Senior Notes due 2037; and iii) a Ps.78.7 million increase in gain from monetary position resulting primarily from a higher average of net monetary asset position in second quarter 2007 compared with the same period in 2006.

Equity in results of affiliates, net

Equity in losses of affiliates, net, decreased by Ps.76 million, or 31.4%, to Ps.166.1 million in second quarter 2007 compared with Ps.242.1 million in second quarter 2006. This decrease reflected primarily a lower equity in loss of La Sexta, which was partially offset by the absence of equity in income of Univision in second quarter 2007.

Income taxes

Income taxes decreased by Ps.119.7 million, or 12.4%, to Ps.848.2 million in second quarter 2007 compared with Ps.967.9 million in second quarter 2006. This decrease reflected primarily a lower income-tax base in second quarter 2007.

Minority interest net income

Minority interest net income increased by Ps.240.5 million to Ps.216.8 million in second quarter 2007 compared with a minority interest net loss of Ps.23.7 million in second quarter 2006. This increase reflected primarily the portion of consolidated net income attributable to interests held by minority equity owners and stockholders in our Sky Mexico

and Cable Television businesses.

The total nominal amount of the dividend was approximately Ps.4,384.7 million and was paid in cash on May 31, 2007.

Television ratings and audience share

National urban ratings and audience share reported by IBOPE confirm that, in second quarter 2007, Televisa continued to deliver strong ratings and audience shares. During weekday prime time (19:00 to 23:00, Monday to Friday), audience share amounted to 68.4%; in prime time (16:00 to 23:00, Monday to Sunday), audience share amounted to 67.8%; and in sign-on to sign-off (6:00 to 24:00, Monday to Sunday), audience share amounted to 70.0%.

Outlook for 2007

We expect Television Broadcasting sales to decrease by approximately 2% during the year and we expect our full-year operating segment income margin to exceed 50%.

¹ National urban ratings and audience share are certified by IBOPE and are based upon IBOPE's national surveys, which are calculated seven days a week, in Mexico City, Guadalajara, Monterrey, and 25 other cities with a population of more than 500,000 people. "Ratings" for a period refers to the number of television sets tuned into the Company's programs as a percentage of the total number of all television households. "Audience share" is the number of television sets tuned into the Company's programs as a percentage of the number of households watching conventional over-the-air television during that period, without regard to the number of viewers.

² "Total Televisa" includes the Company's four networks as well as all local affiliates (including affiliates of Channel 4, most of which receive only a portion of their daily programming from Channel 4). Programming on affiliates of Channel 4 is generally broadcast in 12 of the 28 cities covered by national surveys. Programming on Channel 9

affiliates is broadcast in all of the cities covered by national surveys.

³ "Televisa Prime Time" is the time during which the Company generally charges its highest rates for its networks.
