PART I

ITEM 1. BUSINESS

General

Lenox Group Inc. (the Company) is a leading designer, distributor, wholesaler and retailer of fine quality tableware, collectible and other giftware products marketed under the *Lenox*®, *Department 56*®, *Dansk*® and *Gorham*® brand names. These products are sold through gift and specialty retailers, department stores, and general merchandise chains, as well as through the Company's own retail stores and consumer-direct channels of distribution, including Internet, catalog and mail order.

The Company was incorporated in Delaware under the name Department 56, Inc. in 1992. On November 14, 2005, the legal name of the Company was changed to Lenox Group Inc. The Company's principal executive offices are located at One Village Place, 6436 City West Parkway, Eden Prairie, MN, 55344. The Company's telephone number is (952) 944-5600.

The Company makes its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the Exchange Act), available free of charge through a direct link to the Securities and Exchange Commission (the SEC) on the Company's corporate website www.lenoxgroupinc.com, as soon as is reasonably practicable after such material is electronically filed with or furnished to the SEC.

This Annual Report on Form 10-K includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Exchange Act. See Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Forward-Looking Statements and Factors Affecting Future Earnings herein.

Major Acquisition

On September 1, 2005, the Company completed the acquisition of all of the capital stock of Lenox, Incorporated (Lenox) from Brown-Forman Corporation (the Acquisition), for \$204 million, which included transaction costs of \$7.6 million. The Acquisition of Lenox added strong, market-leading brands and complementary product lines and distribution channels to the Company's portfolio. The Company funded the payment of the purchase price and related transaction costs of the Acquisition through a \$275 million senior secured credit facility consisting of a \$175 million revolving credit facility and a \$100 million term loan.

Recent Developments

On January 14, 2008, the Company announced the comprehensive review of strategic, financial and operational alternatives to enhance stockholder value, including a potential merger, sale of all or part of the Company or recapitalization of the Company. The Company also adopted a stockholder rights plan. The Board of Directors retained Berenson & Company LLC as its financial advisor to assist with this process.

Refinancing of Term Loan and Revolving Credit Facility

On February 9, 2007, the Company entered into waivers and amendments to the revolving credit facility and the term loan credit facility in connection with the Company's noncompliance with the financial covenants under the credit agreements for the period ended December 30, 2006. Pursuant to the waivers and amendments, the lenders granted the Company a limited waiver of noncompliance through and including April 30, 2007, and temporarily amended the agreements to adjust the leverage ratio and interest coverage ratio levels for the first quarter of 2007. In addition, the amendment to the term loan facility increased the applicable margin for loans by 0.25% per annum. As consideration for the amendments, the Company paid amendment fees of \$0.2 million.

Table of Contents

On April 20, 2007, the Company completed the refinancing of its credit facilities by entering into amended and restated revolving and term loan facilities. The amended and restated revolving credit facility, which expires on April 20, 2012, provides for borrowings up to \$175 million, which may be in the form of letters of credit and revolving credit loans to be used for working capital and general corporate purposes. The amended and restated term loan facility, which expires on April 20, 2013, provides for term loans in the aggregate principal amount of up to \$100 million. The Company used the proceeds of the amended and restated term loan facility to refinance the \$47.4 million of term debt outstanding and \$42.2 million of the revolver debt outstanding at April 20, 2007, to pay \$1.2 million of accrued interest and fees payable under the existing credit facilities and to pay \$9.2 million of fees and expenses in connection with the refinancing.

Sale of Sterling Silver Business

Edgar Filing: LENOX GROUP INC - Form 10-K

On July 19, 2007, the Company entered into an Asset Purchase Agreement (the "Sale Agreement") with Lifetime Brands, Inc. ("Lifetime") for the sale of certain assets of the Company's sterling silver flatware and sterling silver giftware business conducted primarily under the *Gorham* and *Kirk Stieff* brand names. Simultaneously with the execution of the Sale Agreement by the parties, the Company closed on this transaction.

The purchase price paid by Lifetime was \$8.8 million, subject to a post closing adjustment based on the price and quantity of silver transferred at closing. At closing, the Company received an initial payment of \$8.5 million and \$0.3 million was transferred to an escrow account for a six-month period ended January 2008. On August 2, 2007, the parties agreed to a price adjustment reduction of \$0.3 million based on the quantity of silver actually transferred at closing and the price of silver. Accordingly, the net purchase price was \$8.5 million. The Company transferred title to sterling silver finished goods inventory, work in process, raw materials, samples, selective pieces of machinery and equipment, books and records and pattern trademarks and copyrights associated with sterling silver products.

In addition, the Company granted a long-term exclusive license to Lifetime to utilize the *Gorham*, *Kirk Stieff*, *Whiting* and *Durgin* brands on and in connection with sterling silver products. The Company has retained all rights to utilize these brands on non-sterling silver products.

Products

The Company is a market leader in quality tabletop, giftware and collectibles. It markets its products primarily under the, *Lenox*, *Gorham*, *Department 56*, and *Dansk* brands. Together, these brands represent over 450 years of tabletop and giftware experience.

The tabletop business consists of a portfolio of consumer brands that have a rich heritage in the domestic market. The Company sells dinnerware, crystal stemware, stainless steel flatware, and giftware under the *Lenox* and *Gorham* brands. *Dansk* is the Company's contemporary tabletop and giftware brand. The Company also sells collectibles under the *Lenox* brand. The Company believes that it is the largest domestic marketer of fine tabletop products.

The *Department 56* brand is best known for its use in connection with the *Village Series* of collectible, handcrafted, lighted ceramic and porcelain houses, buildings and related accessories that depict nostalgic scenes. The Company introduces new pieces, limited edition pieces, figurines and other accessories each year to complement and provide continuity to the collections.

The Company offers a wide range of other decorative giftware and home accessory items under (i) the *Department 56* brand, including the Company's *Snowbabies* line of figurines and holiday and seasonal decorative items; and (ii) the Willitts brand, including Thomas Blackshear's *Ebony Visions* and *Possible Dreams*, which adds a broad range of diversity and contemporary expression to the Company's collectible portfolio.

Giftware product lines are developed around either a seasonal or unique design theme. The Company continues to build its general giftware business by developing new product lines and signing license agreements with nationally recognized artists.

2

Table of Contents

Operating Segments

In connection with the Company's acquisition of Lenox, the Company redefined its operating segments to include three reportable segments Wholesale, Retail and Direct. Although the product produced and sold for each segment is similar, the type of customer for the product and the method used to distribute the product are different. The segmentation of these operations also reflects how the Company currently reviews the results of these operations. Financial data for the last three fiscal years by segment is set forth in detail in Management's Discussion and Analysis of Financial Condition and Results of Operations included in this Annual Report on Form 10-K and in Note 16 to the Consolidated Financial Statements.

The Wholesale Segment

The Company sells its products through a wide range of wholesale channels including department stores, large specialty retailers, mass merchants, national chains and clubs, small independent specialty accounts and other wholesale accounts.

As of December 29, 2007, the Company's Wholesale segment had order backlog of approximately \$13.7 million compared to \$18.4 million as of December 30, 2006. Of the \$13.7 million in order backlog as of December 29, 2007, the Company expects to ship approximately \$12.8 million in fiscal 2008.

Approximately 26% of the Wholesale segment's sales in fiscal 2007 (17% of consolidated sales) were to one customer: Macy's, Inc.

The Retail Segment

As of February 1, 2008, the Company's Retail segment operated 32 retail stores, including eight stores operated under the *Department 56* trade name and 24 stores operated under the *Lenox* trade name. In 2007, the Company converted its three *All the Hoopla* concept stores to *Department 56* stores.

This segment experiences no significant unfilled orders and is not dependent on a single customer or group of customers.

The Direct Segment

The Company markets and sells its products directly to consumers through the following methods of direct marketing: (i) traditional direct-to-consumer methods (media advertising, direct mail and telemarketing); (ii) catalogs and (iii) the Company's various Internet sites, including those located at www.department56.com, www.lenox.com and www.dansk.com.

As of December 29, 2007, the Company's Direct segment had order backlog of approximately \$1.7 million compared to \$1.5 million as of December 30, 2006. Of the \$1.7 million in order backlog as of December 29, 2007, the Company expects substantially all to ship in fiscal 2008.

This segment is not dependent on a single customer or group of customers.

Cessation of Time to Celebrate Business

In October 2005, the Company committed to a plan to cease operations of its *Time to Celebrate* direct selling business. This business marketed giftware and home decor products to consumers through a network of independent sales consultants who sold these products through the home show sales method.

In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the Company recorded *Time to Celebrate's* results in continuing operations until the run-off of operations was completed in the fourth quarter of 2005. The *Time to Celebrate* results have been reclassified into discontinued operations for all periods presented.

Manufacturing & Sourcing

The Company owns and operates one manufacturing facility in the United States. The Company manufactures its *Lenox* branded, bone china dinnerware at its plant located in Kinston, NC.

Table of Contents

On July 19, 2007, the Company entered into an Asset Purchase Agreement with Lifetime Brands, Inc. for the sale of certain assets of the Company's sterling silver flatware and sterling silver giftware business conducted primarily under the *Gorham* and *Kirk Stieff* brand names. Accordingly, in 2007 the Company discontinued manufacturing sterling silver flatware in its facility in Pomona, New Jersey.

Clay, feldspar and bone ash are the principal raw materials used to manufacture china products. Gold and platinum are significant raw materials used to decorate china products. Sand, potash and lead are used in the manufacture of crystal products. Steel is the principal raw material used to manufacture stainless steel flatware. The Company anticipates, but cannot guarantee that these raw materials will be in adequate supply. However, the acquisition price of gold, platinum and steel is influenced significantly by worldwide economic events and commodity trading.

The Company also sources product from external manufacturers. Of the total value of product sourced in 2007, 96% was imported from abroad, primarily from manufacturing sources located in the Pacific Rim area, including the People's Republic of China (China), Indonesia, Thailand and the Philippines. The Company also imports a portion of its products from sources in India and Europe.

Distribution

The imported products sold by the Company to its wholesale customers, direct response customers and through its Company-owned retail stores are generally shipped by ocean freight from abroad and then by rail or truck to the Company's distribution centers located in Hagerstown, MD and Langhorne, PA. Certain overseas shipments to some wholesale customers are sent directly to those customers. The products manufactured in the Company's Kinston, NC factory are sent via commercial trucking lines to the Hagerstown, MD warehouse or directly to its wholesale customers. Shipments from the Company to its wholesale and direct response customers are handled primarily by parcel post or commercial

trucking lines.

On February 26, 2007, the Company announced its intention to close its distribution center located in Rogers, MN in October 2007, and later extended that date to February 29, 2008, at which time it discontinued operations at that facility. The Company transferred the distribution activities at the Rogers facility to its distribution center located in Hagerstown, MD.

The Company's systems maintain order processing from the time a product enters the Company's system through shipping and ultimate payment collection from its various customers. The Company uses handheld optical scanners and bar coded labels in accepting orders at its wholesale showrooms. In addition, systems for the Company-operated retail stores monitor and transmit to the Company on a daily basis the POS (point of sales) data for those retail stores.

Seasonality

The Company's business is highly seasonal. The Company records its highest Wholesale segment sales during the third and fourth quarters of each year as wholesale customer's stock merchandise in anticipation of the holiday season. In addition, the Company records its highest Retail and Direct segment sales in the fourth quarter during the peak holiday shopping season. However, the Company can experience fluctuations in quarterly sales and related net income compared with the prior year due to the timing of receipt of product from suppliers and subsequent shipment of product from the Company to customers, as well as the timing of orders placed by customers. Due to the seasonality of segment sales as indicated above, the Company has historically operated at a loss during the first nine months of the fiscal year. The Company is not managed to maximize quarter-to-quarter results, but rather to achieve annual objectives designed to achieve long-term growth consistent with the Company's business strategy.

Competition

The Company competes generally for the discretionary income of consumers with other producers of tabletop, collectibles, giftware and home decorative accessory products. These areas are affected by, among other things, changing consumer tastes and interests, changing consumer shopping habits, consolidation of channels of distribution and the shift in supply to Asian sources of manufacture.

The tabletop/giftware industry is highly competitive, with a large number of both large and small participants. The Company's competitors distribute their products through their company-owned retail stores, independent gift retailers, department stores, mass market and specialty chain stores, televised home shopping networks, Internet commerce and mail order houses, and through the home show sales method or other direct response marketing methods.

4

Table of Contents

The Company believes that the principal elements of competition in the tabletop/specialty giftware industry are design, product assortment, brand loyalty, quality, display and price. The Company believes that its competitive position is enhanced by a variety of factors, including the design, uniqueness, quality and enduring themes of the Company's products, its in-house design expertise, its reputation among retailers and consumers, its sourcing and marketing capabilities, and the pricing of its products.

Financial Information Relating to Geographical Areas

Approximately 2% of the Company's total revenue is derived from customers outside the United States. In addition, approximately 2% of all long-lived assets are located outside the United States.

Trademarks and other Proprietary Rights

The Company owns 205 U.S. trademark registrations and has pending four U.S. trademark applications for registration. These registrations cover the Company's brand names, logos and important product names. In addition, the Company owns trademark registrations in select foreign countries where the Company's products are manufactured, marketed and/or sold.

The Company regards its trademarks and other proprietary rights as valuable assets. The registrations for the Company's trademarks are currently scheduled to be cancelled at various times over the next ten years, but can be maintained and renewed provided that the trademarks are still in use for the goods and services covered by such registrations. The Company has historically renewed its registered trademarks and expects to continue to do so, as business needs dictate.

Edgar Filing: LENOX GROUP INC - Form 10-K

Employees

As of January 1, 2008, the Company had 1,344 full-time employees and 797 part-time and seasonal employees in the United States, four employees in Canada and 12 in China.

Local Union No. 638 of the Teamsters Union represents 29 of the Company's employees who work at its warehouse facility located in Rogers, MN. The agreement with this union expired on December 31, 2007; and will not be renewed due to the fact that Rogers, MN warehouse facility closed on February 29, 2008.

The Company believes that its labor relations are good. It has not experienced a work stoppage.

Environmental Matters

The Company is subject to various federal, state and local laws and regulations governing the use, discharge and disposal of hazardous materials.

The Company is responsible for the cleanup and/or monitoring of two environmental sites located in New Jersey pursuant to an Administrative Consent Order dated September 29, 1994 and a Memorandum of Agreement dated October 11, 1995, with the New Jersey Department of Environmental Protection (NJDEP). The Company is also responsible for monitoring solid waste management units at its Pomona, NJ manufacturing facility pursuant to a Hazardous & Solid Waste Amendment (HSWA) permit with the U.S. Environmental Protection Agency. The Company accrues for losses associated with environmental cleanup obligations when such losses are probable and can be reasonably estimated.

At one of the NJDEP sites there are other potentially responsible parties who bear part of the cost of the cleanup, in which case the Company's accrual is based on the Company's estimated share of the total costs. A portion of the cleanup costs with respect to the two NJDEP sites is paid by insurance. The estimated recovery of cleanup costs is recorded as an asset when receipt is deemed probable.

5

Table of Contents

As of December 29, 2007, the Company estimated, based on engineering studies, total remediation and ongoing monitoring costs to be \$3.3 million, including the effects of inflation. Accordingly, the Company recorded a liability of approximately \$2.3 million in other noncurrent liabilities, which represents the net present value of the estimated future costs discounted at 5.25%. In accordance with Statements of Position (SOP) 96-1, Environmental Remediation Liabilities, the Company measures this liability on a discounted basis as it believes the amount and timing of cash payments for the liability are reliably determinable. The estimated insurance recovery assets as of December 29, 2007 were \$1.2 million and are included in other assets.

Executive Officers of the Registrant

Marc L. Pfefferle, 51, has been Interim Chief Executive Officer of the Company since January 5, 2007. He has been a partner in the firm of Carl Marks Advisory Group LLC (CMAG) since November 1997. Mr. Pfefferle has 25 years of management consulting, interim executive and restructuring officer experience and is a certified Turnaround Professional and Certified Fellow in Production and Inventory Management.

Bret Rattray, 57, has been Interim Chief Marketing Officer of the Company since April 2, 2007. He is also Managing Director in the firm of CMAG, a position he has held since 2002.

Fred Spivak, 54, has been Chief Financial and Operating Officer since November 9, 2007. From 2004 to 2007, Mr. Spivak served as Managing Director of FMS Consulting, a company that provides financial, operational and business administration services to companies in the giftware, apparel and consumer goods industries. From 2004 to 2006, Mr. Spivak served on the Board of Directors of Oneida Ltd., a leading flatware and tabletop company. From 2000 to 2004, Mr. Spivak was Chief Financial Officer of Colorado Prime Foods (now DineWise, Inc.), a direct marketer of chef-prepared, home-delivered meals, and from 1997 to 2000 he was Chief Operating Officer of Morgan-Walke Associates, a New York investor relations firm. From 1984 to 1997, Mr. Spivak served as Chief Financial Officer and Vice President, Finance and Administration for Lifetime Brands and previously held various finance positions for Vida Shoes and Olivetti Corporation. Mr. Spivak is a Certified Public Accountant.

Louis A. Fantin, 57, has been Senior Vice President, General Counsel and Secretary for the Company since September 2005. He was Senior Vice President, Secretary and Lenox Counsel for Lenox, Incorporated from May 1, 1995 to September 2005. Prior to that, Mr. Fantin held a succession of positions at Lenox, including Vice President, Secretary and Lenox Counsel from October 1, 1994 until April 30, 1995, Vice President, First Assistant General Counsel and Assistant Secretary from May 1, 1990 to September 30, 1994; First Assistant General Counsel

Edgar Filing: LENOX GROUP INC - Form 10-K

and Assistant Secretary from May 1, 1989 to April 30, 1990 and Assistant General Counsel from August 31, 1981 to April 30, 1989.

Branka Hannon, 50, has been Senior Vice President - Human Resources for the Company since September 2005. Ms. Hannon held the same position at Lenox, Incorporated from February 1, 2004 until September 2005. From June 1, 2002 to January 31, 2004, she was Vice President - Organizational Development at Lenox, and from November 2, 2000 until May 31, 2002, Ms. Hannon was Director - Human Resources for the Lenox Collections Division of Lenox.

David B. O'Connell, 40, has been Vice President, Global Sourcing for the Company since September 11, 2006. From 2002 to 2006, Mr. O'Connell was Vice President Product Development and Global Sourcing for Mikasa/ARC International.

6

Table of Contents

ITEM 1A. RISK FACTORS

Our business faces many risks. Any of the risks discussed below, or elsewhere in this Annual Report on Form 10-K or in our other SEC filings, could have a material impact on our business, financial condition or results of operations. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial might also impair our business operations.

Our sales could be negatively impacted by product trends, continued industry consolidation and contraction, as well as a decision by our major customers to substantially reduce orders for our products.

Over the past several years, department stores have consolidated, the gift and specialty store channel has contracted, and the collectible and fine china markets have contracted as well. A continuation of these trends could have a negative impact on the sales of the Company. With the exception of Macy's, Inc., our customer base is relatively dispersed. Our sales to this customer accounted for approximately 17% of our net sales for fiscal year 2007. If Macy's, Inc. were to cease or significantly reduce their business with us, our business and results of operations would be negatively impacted.

Our reliance on foreign manufacturing is subject to inherent risk, which may affect our ability to procure goods and/or procure them in a timely fashion.

Foreign manufacturing and procurement of imports is subject to the following inherent risks: labor availability and increases in labor costs, increases in the cost of raw materials, economic and political instability; cost and capacity fluctuations and delays in transportation, dockage and material handling; restrictive actions by governments; nationalizations; the laws and policies of the United States affecting importation of goods (including duties, quota and taxes); international political, military and terrorist developments; fluctuations in currency exchange rates; and foreign trade and tax laws. Moreover, we cannot predict what relevant political, legal or regulatory changes may occur, or the type or amount of any financial impact on us that such changes may have in the future.

Our products are subject to customs duties and regulations pertaining to the importation of goods. In the ordinary course of business, we may be involved in disputes with the U.S. Bureau of Customs and Border Protection (U.S. Customs) regarding the amount of duty to be paid, the value of merchandise to be reported or other Customs regulations, which may result in the payment of additional duties and/or penalties, or in the refund of duties to us. Since the terrorist attacks of September 11, 2001, U.S. Customs has enacted various security protocols affecting the importation of goods. Such protocols could adversely affect the speed or cost involved in our receipt of inventory from our overseas vendors.

The inability to make timely shipments of merchandise to our trade customers due to delays caused by foreign sourcing could significantly lower sales and damage our relationship with trade customers resulting in harm to our business and our financial results.

Our reliance on manufacturing from sources within China, in particular, is subject to inherent risk, which may affect our ability to procure goods and/or procure them in a timely fashion.

In fiscal year 2007, approximately 66% of our inventory purchases were manufactured in China.

China has joined the World Trade Organization and been accorded permanent Normal Trade Relations status by the U.S. government. However, various commercial and legal practices in China, including the handling of intellectual property and certain labor practices, are under review by the U.S. government. China has been designated a Country of Particular Concern pursuant to the International Religious Freedom Act of 1998 (IRFA). The IRFA enumerates several specific retaliatory actions that may be taken by the U.S. government, none of which we believe would have a material impact on our business. The IRFA, however, also accords the President broad discretion in fashioning other or additional actions and, due to the breadth of the Presidential powers under the IRFA, we are unable to predict what, if any, action the President could take in the

future.

Table of Contents

Accordingly, in addition to general foreign manufacturing risks cited above, the ability to continue to conduct business with vendors located in China is subject to political uncertainties, the financial impact of which we are unable to estimate. To the extent China may have its exports or transaction of business with U.S. persons subject to political retaliation, the cost of Chinese imports could increase significantly and/or the ability to import goods from China may be materially impaired. In such an event, there could be a materially adverse effect on us until alternative arrangements for the manufacture of our products were obtained on economic, production and operational terms at least as favorable as those currently in effect.

We are subject to risks associated with changes in foreign currency exchange rates.

Fluctuations in currency exchange rates present risks inherent in our method of inventory procurement. Our costs could be adversely affected if the currencies of other countries in which we source product appreciate significantly relative to the U.S. dollar. This could result, for example, from a decision by China to revalue the Renminbi (RNB) relative to the U.S. dollar or to allow the RNB to float instead of being pegged to the U.S. dollar at a fixed rate.

If interest rates on our variable rate debt were to increase, our financial results would be negatively affected.

A principal market risk affecting us is the exposure to changes in the interest rates on our variable rate debt. As our credit facilities bear interest at variable rates, our results of operations and cash flows will be exposed to changes in interest rates. In 2007, the Company entered into an interest rate collar agreement with a notional amount of \$50 million to mitigate some of this variable interest rate risk. Under the terms of the agreement, the Company would receive a positive net settlement from the counterparty if the LIBOR rate (as defined) is greater than 6.5% on the settlement dates (as defined). If the LIBOR rate (as defined) is less than 4.32% on the settlement dates (as defined), the Company would be required to make a payment to the counterparty. Based on debt outstanding as of December 29, 2007 and the interest rate collar agreement in effect as of December 29, 2007, a one percentage point increase in current market interest rates would increase the Company's borrowing costs by approximately \$1.1 million on an annual basis. A one percentage point decrease in current market interest rates would reduce the Company's borrowing costs by approximately \$0.8 million on an annual basis.

We may encounter litigation that has a material impact on our business.

We are involved on an ongoing basis in litigation arising in the ordinary course of business. Trends in litigation may include claims brought by consumers, stockholders, vendors, accounts and/or injured persons in cases relating to antitrust, employment and labor, environmental, negligence and regulatory matters. Litigation trends and the outcome of litigation cannot be predicted with certainty and adverse litigation trends and outcomes could adversely affect our financial results.

Our inability to adapt successfully to changing consumer preferences may damage our business.

Our success is dependent upon consumer demand for our products. Our ability to anticipate consumer preferences and create tabletop, gift and collectible products which appeal to consumers who shop in our market channels is critical to achieving financial results. As a related factor, our ability to identify, hire and retain quality designers and sculptors and other artistic talent is critical to our product development efforts and our ability to innovate successfully. Our failure to successfully anticipate, identify and react to consumers' current preferences in our market channels, and to identify, hire and retain artistic talent, could significantly lower sales of our products and harm our financial results.

If we are unable to complete our operational improvements, including improving our inventory management and forecasting systems to make our supply chain more efficient, improving the effectiveness and efficiency of our US manufacturing operations, and integrating our legacy Department 56 and Lenox information, operating and distribution systems, our business results may be adversely impacted.

In response to market changes, including department store consolidation and a decrease in the sales of collectibles and fine tableware over the past few years, we are restructuring our operations to achieve revenue and cost synergies, including a consolidation of our distribution facilities and a reduction-in-force and cost reduction initiative at our North Carolina bone china factory. If we are not successful in doing so, however, the reduced sales resulting from these external market trends may have an adverse impact on our financial results.

Table of Contents

In addition, we have implemented plans to improve our inventory management and provide more accurate forecasting to enhance the efficiency of our supply chain. The highly seasonal nature of our business, with a majority of our sales occurring in the third and fourth quarters in anticipation of the holiday season, requires us accurately to forecast demand for products in order to avoid losing potential sales of popular products or producing excess inventory of products that are less popular with consumers. Excess inventory poses particular risks to our brand when sold through liquidation channels. If we do not successfully implement and operate our new inventory management and forecasting systems, we may adversely affect our financial results.

Following our acquisition of Lenox, we have been working to integrate and update the information systems, operating systems, fulfillment processes and distribution resources of Department 56 and Lenox. If we are unable successfully to integrate and update the systems and functional resources, we will not be able operate in the most effective and cost efficient manner which may have an adverse impact on our financial results.

If we are unable to manage employee turnover through our integration of Department 56 and Lenox and the completion of our operational improvement process, our business could be adversely impacted.

We value and are dependent on key employees throughout the Company for our business success. In addition, an important element of our strategy is to utilize the expertise of key employees to integrate successfully the legacy Department 56 and Lenox operations and complete our operational improvement process. As a result of the Company's past performance and current restructuring efforts, employee turnover has occurred and is expected to continue. If employee turnover is not managed effectively, the implementation of business improvements, employee morale and results of our operations could be adversely impacted.

The Company's performance is impacted, in part, on economic and other factors affecting consumer spending that are out of the Company's control.

The Company's business depends on consumer demand for its products and, consequently, is sensitive to a number of factors that influence consumer spending, including general economic conditions, disposable consumer income, recession and inflation, consumer debt, unemployment rates, interest rates and consumer confidence in future economic conditions. Adverse changes in one or more of the foregoing factors could result in a reduction in consumer demand for the Company's products, reductions in prices leading to lower average gross margins, a slower inventory turnover, greater markdowns on inventory, thus reducing the Company's sales and adversely impacting its operating results.

Our strategic alternative plan announced by the Company in January 2008 may lead to uncertainty or may not be successful.

On January 14, 2008, the Company issued a press release announcing a comprehensive review of strategic, financial and operational alternatives to enhance stockholder value, including a potential merger, sale of all or part of the Company or recapitalization of the Company. There can be no assurance that the exploration of strategic alternatives will result in any transaction. During the process, there may be risks that certain customers, employees, suppliers, and business partners may react negatively to the uncertainty of the process. These same constituencies may react negatively in the event the process does not result in any transaction. In the event a transaction is completed, the integration of businesses and personnel may involve significant expenses and management time and attention, and may otherwise disrupt our business. In addition, acquisitions and/or mergers may expose the Company to unknown liabilities.

Table of Contents

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Significant properties owned or leased by the Company are as follows:

Owned Facilities

Office Facilities

Edgar Filing: LENOX GROUP INC - Form 10-K

An office facility (66,400-sq. ft.) including a creative center and a corporate showroom located in Eden Prairie, MN.

Manufacturing Facilities

A china dinnerware manufacturing facility (218,000-sq. ft.) servicing the Wholesale, Retail and Direct segments including a retail store, located in Kinston, NC (the Kinston Facility).

Leased Facilities

Office Facilities

An office facility (126,000-sq. ft.) servicing the Wholesale, Retail and Direct segments and corporate function located in Bristol, PA (the Bristol Facility).

An office facility (6,500-sq. ft.) servicing the Wholesale, Retail and Direct segments located in Petaluma, CA (the Petaluma Facility).

Mixed Use Facilities

An office/retail facility (45,500-sq. ft.) servicing the Wholesale and Retail segments located in Pomona, NJ (the Pomona Facility).

A retail/warehousing facility (125,370-sq. ft.) servicing the Wholesale and Retail segments located in South Brunswick, NJ (the Cranbury Facility).

Warehouse and/or Distribution Facilities

A warehousing and distribution facility (500,000-sq. ft.) servicing the Wholesale and Retail segments located in Hagerstown, MD.

A warehousing/distribution/retail/office facility (229,893-sq. ft.) servicing the Direct and Retail segments located in Langhorne, PA (the Langhorne Facility).

A warehousing facility (48,000-sq. ft.) servicing the Direct segment located in Bristol Township, PA.

Retail Stores

As of February 1, 2008, the Company's Retail segment operated 32 retail stores located in 17 states, including eight stores operated under the *Department 56* trade name and 24 stores operated under the *Lenox* trade name (including locations in the manufacturing and mixed use facilities above). The retail stores range from 3,100 to 15,000 sq. ft., excluding the retail space in the Cranbury, Langhorne and Pomona Facilities, which are approximately 48,000 sq. ft, 30,600 sq. ft., and 31,500 sq. ft., respectively.

Table of Contents

Showrooms

The Company also operates nine showrooms; two located in New York, NY; and one each located in Atlanta, GA, Billerica, MA, Chicago, IL, Columbus, OH, Dallas, TX, Los Angeles, CA and Frankfurt, Germany.

The terms of the above-referenced leases expire at various dates. The Company believes that the facilities are in good condition and are adequate for the business.

ITEM 3. LEGAL PROCEEDINGS

(A.) In Re Tableware Antitrust Litigation - In August 2004, plaintiffs purporting to represent a class of consumers who purchased tableware sold in the United States filed suit against Federated Department Stores, the May Department Stores Company, Waterford Wedgwood U.S.A. and Lenox, Incorporated (Lenox) in United States District Court for the Northern District of California. In November 2004, plaintiffs filed a consolidated amended complaint alleging that, for the period beginning at least as early as May 1, 2001, through the filing of the amended

Edgar Filing: LENOX GROUP INC - Form 10-K

complaint on November 12, 2004, defendants violated Section 1 of the Sherman Act by conspiring to fix prices and to boycott sales to Bed, Bath & Beyond (hereinafter the Action). Plaintiffs sought to recover an undisclosed amount of damages, trebled in accordance with antitrust laws, as well as costs, attorney s fees and injunctive relief.

On February 22, 2007, without admitting any violation of any statute or law or any liability or wrongdoing whatsoever, Lenox entered into a settlement agreement with the plaintiff class representatives. Pursuant to the terms of the settlement agreement, Lenox paid \$0.5 million, in return for which Lenox and its affiliates will be completely released from any and all claims, demands and actions concerning the Action and any claims that could have been alleged in the Action. The court approved the settlement agreement by opinion and order dated November 25, 2007 by which the Action was dismissed with prejudice.

(B.) Curiale v Lenox Group Inc. - On April 12, 2007, Amanda Curiale filed a complaint in the United States District Court for the Eastern District of Pennsylvania, which is a purported class action alleging that the Company willfully violated the federal Fair and Accurate Credit Transactions Act (FACTA) by continuing to print after December 1, 2006 the expiration dates on receipts provided to debit card and credit cardholders transacting business with the Company (hereinafter the FACTA Litigation). The Company understands that similar complaints have been filed against a large number of retailers. The plaintiff seeks, on behalf of herself and the class, statutory damages of not less than one hundred dollars and not more than one thousand dollars for each violation, as well as unspecified punitive damages, costs and attorneys fees and a permanent injunction from further engaging in violations of FACTA.

On September 20, 2007, the parties held an all-day mediation session and reached a tentative settlement which is subject to the parties signing a definitive settlement agreement and court approval. Under the terms of the settlement, Lenox denies all claims as to liability, damages, penalties, interest, fees, restitution and all other forms of relief sought in the FACTA Litigation. Pursuant to the terms of the proposed settlement, the Company will pay a non-material sum for attorney s fees, a charitable contribution and a plaintiff s incentive fee, and will provide participating claimants with a coupon towards a future purchase or a free product through Company-operated retail stores. In return, the Company and its affiliates will be completely released from any and all claims, demands and actions concerning the FACTA Litigation and any claims that could have been alleged in the FACTA litigation.

(C.) Period Design, Inc. v D56, Inc. (D56) - On February 17, 2008, a trial commenced in the Period Design case. D56 is a subsidiary of the Company. Plaintiff alleges a breach of contract claim and seeks compensatory damages based upon D56 s alleged failure to pay royalties alleged to be due Period Design, Inc. on various products marketed and sold by D56, together with pre-judgment interest thereon, the aggregate claims for which, if accepted by the court, would be material to the Company s financial condition and results of operations. The matter was tried before the Minnesota State District Court (Hennepin County) from February 17 through February 28, 2008. The parties are in the process of filing post-trial submissions, and anticipate a decision by the Court in late March/early April 2008. The Company intends to continue to vigorously defend against this alleged breach of contract claim.

In addition to the above actions, the Company is involved in various legal proceedings, claims and governmental audits in the ordinary course of its business. The Company believes it has meritorious defenses to all proceedings, claims and audits. Management believes the impact, if any, of these legal proceedings would not be material to the results of operations, financial position or cash flows of the Company.

Table of Contents

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the Company s security holders during the last quarter of the year ended December 29, 2007.

Table of Contents**PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

The Company's common stock trades on the New York Stock Exchange (NYSE) under the symbol LNX. The table below sets forth the high and low sales prices for each quarter during the last two fiscal years, as reported by the NYSE.

	High	Low
Fiscal 2007		
First quarter	\$ 6.77	\$ 3.17
Second quarter	8.31	6.81
Third quarter	7.36	4.50
Fourth quarter	4.86	2.65
Fiscal 2006		
First quarter	\$ 13.80	\$ 12.38
Second quarter	14.37	7.04
Third quarter	7.37	5.38
Fourth quarter	7.79	5.44

The Company has not declared or paid dividends on its common stock. As a holding company, the ability of the Company to pay cash dividends will depend upon the receipt of dividends or other payments from its subsidiaries. See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources below with respect to restrictions under the Company's credit facilities pertaining to its ability to pay dividends.

As of March 4, 2008, the number of holders of record of the Company's common stock was 714.

STOCK PERFORMANCE GRAPH

The following graph compares the cumulative total return on \$100 invested on December 28, 2002, in each of our Common Stock, Standard & Poor's Small Cap 600 Index and a peer group index.

The peer group index is composed of the following issuers: Blyth Inc., Enesco Group, Inc., Lenox Group Inc., Lifetime Brands, Inc., Libbey, Inc. and Russ Berrie & Co. These companies were selected based on their respective product offerings (i.e., tabletop, giftware and/or collectible products), the channels of distribution in which their respective products are sold and financial criteria.

The stock of Lifetime Brands, Inc. is traded on the NASDAQ exchange. The stock of Enesco Group Inc. was traded on the New York Stock Exchange through June 9, 2006. Thereafter, its stock became listed on the other OTC exchange. The stocks of the other companies comprising the peer group are traded on the NYSE.

In calculating the peer group index, each of the issuers is weighted to recognize its stock market capitalization. The returns of the Standard & Poor SmallCap 600 Index and the peer group index are calculated assuming reinvestment of dividends. The Company has not paid any dividends. The graph specifies data values for the preceding trading day nearest to each of the Company's fiscal year-ends during such period.

The stock price performance shown on the graph below is not necessarily indicative of future price performance. Data points below were provided by Research Data Group, Inc., a licensee of Standard & Poor's.

¹ The year ended January 3, 2004 is a 53-week fiscal year whereas all other fiscal years presented are 52-week periods.

² Effective September 1, 2005, the Company completed the acquisition of Lenox from Brown-Forman.

³ Restructuring charges include \$6.9 million in severance related costs and \$2.6 million of costs associated with closing and consolidating operations and facilities.

⁴ In the fourth quarter of 2006, the Company announced the freezing of its defined benefit pension plans. As a result of this decision, the Company recognized a pension curtailment of \$13.2 million. Also, in the fourth quarter of 2006, the Company recorded a plan settlement gain of \$1.6 million as a result of significant lump-sum cash payments made to employees from one of its defined benefit pension plans.

⁵ In the second quarter of 2006, the Company recognized a goodwill impairment charge of \$37.1 million in its Department 56 wholesale reporting unit related to the continuing decline of product shipments into the gift and specialty channel. This goodwill impairment principally related to the goodwill originally recorded in 1992 as the result of the acquisition of Department 56 by Forstmann Little & Co. In the fourth quarter of 2006, the Company recognized a goodwill impairment charge of \$18.2 million as a result of lower projected sales and profits from the Company's Lenox wholesale reporting unit as compared to that which was originally projected at the date of the Acquisition. This goodwill impairment related to the goodwill originally recorded in 2005 as part of the acquisition of Lenox.

⁶ During 2006, the Company recognized a trademark impairment charge of \$3.7 million related to lower than projected sales of *Dansk* and *Gorham* product from that estimated at the time of the original purchase price allocation. These trademark costs were originally recorded in 2005 as part of the acquisition of Lenox.

⁷ The Company incurred a \$5.9 million loss on the refinancing of its term and revolver loans in the second quarter of 2007. This loss consisted of \$2.7 million of costs incurred in the quarter related to the re-financing as well as the write-off of \$3.2 million of previously capitalized loan costs.

⁸ During 2004, the Company received net proceeds (before income taxes) of \$6.9 million in settlement of the Company's litigation against a third party related to the implementation of its information systems. This recovery was recorded in other income.

⁹ In December 2005, the Company ceased operations of its Time to Celebrate business. Additionally, during the first quarter of 2004, the Company ceased operations of its Geppedo seasonal kiosk business. In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the Company reclassified the results of these ceased operations into discontinued operations for all periods presented.

¹⁰ The Company has not declared or paid dividends on its common stock. As a holding company, the ability of the Company to pay cash dividends will depend upon the receipt of dividends or other payments from its subsidiaries.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
EXECUTIVE OVERVIEW

In 2007 sales declined by almost 10% and the Company reported a net loss of \$15.8 million. In particular, the Company was impacted by the weak consumer retail environment in the fourth quarter of 2007. However, the Company has pursued several initiatives over the past year that it believes will create a foundation for growth going forward. These initiatives included:

Retaining Carl Marks Advisory Group, LLC (CMAG), and naming Marc L. Pfefferle, a CMAG partner, as interim Chief Executive Officer.

Initiating a company wide restructuring that consolidated many functions which resulted in improved, simplified and more cost effective operations.

Completing the refinancing of its credit facilities.

Hiring a new Chief Operating Officer/Chief Financial Officer and hiring new executives to lead its *Dansk* brand, Retail and Direct segments.

Selling certain assets pertaining to its sterling silver flatware and giftware business conducted primarily under the *Gorham* and *Kirk Stieff* brand names.

Closing of its Rogers, MN distribution facility and consolidating into the Company's existing Hagerstown, MD facility. This consolidation started in the fourth quarter of 2007 and was completed at the end of February 2008.

Improving and accelerating the product development processes. In addition, product delivery performance improved, while inventory levels were reduced by \$17.5 million from \$101.9 million as of December 30, 2006 to \$84.4 million at December 29, 2007.

Implementing cost savings initiatives that helped to reduce factory spending by \$8.1 million in 2007 compared to 2006 in the Kinston manufacturing facility.

Addressing the changing demographics of the customer base by introducing improved casual china dinnerware and our unique Simply Fine line of fine china and an updated *Dansk* product line. These offerings target our younger, lifestyle driven customer.

The management team is well aware of and concerned about the general state of the economy and its impact on retail, consumer buying habits and ultimately sales. While its financial and operational performance has been improving, the Company continues to face challenging business and economic conditions. Additional financial resources would be a significant benefit to the Company, providing an opportunity to increase its business scale and strength. With this in mind, on January 14, 2008 the Company announced that it will explore strategic alternatives aimed at enhancing stockholder value. The Company's Board concluded that it is in the best interests of all Lenox stockholders to conduct an orderly and comprehensive review and evaluation of strategic, operational and financial alternatives available to us including, but not limited to, a potential sale or merger of the Company, a potential sale of part of the Company, or raising additional equity capital to enhance the growth prospects of the business. The Board has also adopted a stockholder rights plan (the Rights Plan). The Rights Plan is designed to reduce the likelihood that a potential acquirer would gain control of the Company by open market accumulation or other coercive takeover tactics without paying an appropriate value for the Company's shares.

[Table of Contents](#)

SUMMARY OF 2007 RESULTS OF OPERATIONS

The loss from continuing operations was \$15.8 million in 2007 compared to the loss from continuing operations of \$49.3 million in 2006. The Company incurred significant one-time special items during 2007 and 2006. Management believes that showing EBITDA (earnings before interest, taxes, depreciation and amortization) and EBITDA adjusted for these special items provides useful information to investors regarding the Company's results. These measures should not be considered an alternative to the results from operations which are determined in accordance with GAAP. The schedule below reconciles the GAAP financial measure to the non-GAAP financial measures.

Edgar Filing: LENOX GROUP INC - Form 10-K

The GAAP presentation of net income for 2007, reflects restructuring charges of \$9.5 million for the full year. In the schedule below, \$6.9 million is included under the heading *Severance, retention bonuses and related employee costs* , and \$2.6 million is included under the heading *Expenses incurred in connection with facility consolidations, closings and relocations* .

Reconciliation of Non-GAAP Financial Measure (In millions)

	Year Ended December 29, 2007	Year Ended December 30, 2006
Net income (loss) (GAAP measure)	\$ (15.8)	\$ (49.3)
Interest expense	15.9	16.7
Loss on extinguishment of debt	5.9	
Income tax benefit	(13.3)	(1.8)
Franchise taxes	0.3	0.5
Depreciation expense	11.7	12.6
Amortization expense	2.2	3.1
 EBITDA	 6.9	 (18.2)
Special items:		
Goodwill impairment		55.3
Pension curtailment gain		(14.8)
Tradenname impairment		3.7
Gain on sale of Pomona facility		(1.1)
Purchase accounting adjustments		(3.0)
Severance, retention bonuses and related employee benefits and costs	6.9	
Expenses incurred in connection with facility consolidations, closings and relocations	4.5	
Professional fees paid related to the refinancing and restructuring.	5.6	0.1
Fines, settlements, judgments and legal fees associated with proceedings outside of the ordinary course of business.	1.0	
All other - net	2.2	
 EBITDA adjusted for special items (non-GAAP measure)	 \$ 27.1	 \$ 22.0

Special items in 2007 included:

The \$6.9 million of severance, retention bonuses and related employee benefits and costs related primarily to the departure of the Company's former Chief Executive Officer and other members of senior management, as well as company-wide reductions in workforce, retail store employees and plant and distribution facility employees.

The \$4.5 million of expenses incurred in connection with facility consolidations, closings and relocations consisted of:

- o \$2.6 million of lease termination and closure costs related to the shutdown of the Company's distribution facility located in Rogers, MN, the shutdown of the Company's china manufacturing operations located in Pomona, NJ, closure costs incurred to shutdown the Company's sterling manufacturing operations in Pomona, NJ and lease termination costs related to an *All the Hoopla* store lease.

Edgar Filing: LENOX GROUP INC - Form 10-K

- o \$1.9 million in special items that included excessive manufacturing variances generated in our sterling manufacturing facility as a result of lower manufacturing volume in the first half of 2007 and accelerated depreciation costs resulting from our decision to close our distribution facility and five retail stores.

The \$5.6 million in professional fees paid related to the refinancing and restructuring included executive management fees and other advisory services as part of the restructuring process.

Fines, settlements, judgments and legal fees associated with proceedings outside of the ordinary course of business pertained to a provision of \$1.0 million covering two separate ongoing legal cases (See Part I, Item 3 titled "Legal Proceedings").

All other net totaled \$2.2 million and were inventory related charges, executive and professional recruiting fees and other integration related costs.

Special items in 2006 included:

The Company recognized a goodwill impairment charge of \$37.1 million in its Department 56 wholesale reporting unit related to the continuing decline of product shipments into the gift and specialty channel. This goodwill principally related to the 1992 acquisition of Department 56 by Forstmann Little & Co. The Company also recognized a goodwill impairment charge of \$18.2 million as a result of lower projected sales and profits from the Company's Lenox wholesale reporting unit as compared to that which was originally projected at the date of the Acquisition. This goodwill impairment related to the Acquisition on September 1, 2005.

The Company also announced the freezing of its defined benefit pension plans. No future benefits will accrue under the pension plans, but pension benefits earned through December 31, 2006, will be available to legacy Lenox employees when they retire under the terms of the plan. As a result of this decision, the Company recognized a pension curtailment gain of \$13.2 million. In addition, the Company recorded a plan settlement gain of \$1.6 million as a result of significant lump-sum cash payments made to employees from one of its defined benefit pension plans.

The Company recognized a trademark impairment charge of \$3.7 million related to lower than projected sales of *Dansk* and *Gorham* product from that estimated at the time of the original purchase price allocation. These trademark costs were also originally recorded as part of the Acquisition.

The Company sold its Pomona, NJ facility for net proceeds of \$6.6 million and recognized a gain of \$1.1 million.

The Company recognized a \$3.0 million net benefit resulting from a purchase accounting fair market value adjustment related to the purchase accounting requirement to value inventory at its estimated selling price less cost of disposal on the opening balance sheet date. This adjustment related to inventory acquired in the Lenox Acquisition in September 2005.

Excluding the impact of these special items on both the 2007 and 2006, EBITDA, adjusted for special charges, increased \$5.1 million, from \$22.0 million in 2006 to \$27.1 million in 2007. This increase was due primarily to lower fixed and variable costs which more than offset the impact of lower sales volume.

Table of Contents

COMPARISON OF RESULTS OF CONTINUING OPERATIONS FOR 2007, 2006 AND 2005

(Amounts in millions, except per share amounts)

In connection with the Company's acquisition of Lenox from Brown-Forman, the Company redefined its operating segments in accordance with SFAS No. 131 *Disclosures about Segments of an Enterprise and Related Information*, to include three reportable segments: Wholesale, Retail and Direct. Net sales, gross profit, and specifically identified selling costs are measured for each segment. Expenses not allocated to specific operating segments are reflected in the Corporate category and represent general and administrative costs. Other components of the statement of operations which are classified below income (loss) from operations (i.e. interest expense, provision for income taxes, etc.) are not allocated by segment and are discussed separately. In addition, the Company does not account for or report assets, capital expenditures, or certain

Edgar Filing: LENOX GROUP INC - Form 10-K

depreciation and amortization by segment. Certain previous year amounts have been reclassified to conform to current year presentations. These reclassifications had no impact on consolidated net income or retained earnings as previously reported.

Edgar Filing: LENOX GROUP INC - Form 10-K

Wholesale

Net sales decreased \$29.4 million, or 9%, in 2007 compared with the same period in 2006 due to the ongoing contraction of the gift and specialty channel, the consolidation of the department store customers and a weak consumer retail environment in the fourth quarter of 2007. The divestiture of the Company's sterling silver product line early in the third quarter of 2007 and the product void in the *Dansk* brand caused by transitioning *Dansk* from the housewares market to the upstairs tabletop market further contributed to the decrease.

Gross profit as a percentage of net sales was 43% and 41% in 2007 and 2006, respectively. This increase in gross profit as a percentage of net sales was primarily due to a favorable sales mix in the second half of 2007 and lower excess inventory expense. Lower freight expense, primarily due to the decrease in sales and more efficient Kinston manufacturing operations also contributed to the increase.

Selling expenses were 13% of net sales in 2007 as well as in 2006. This rate was sustained on a lower sales volume primarily due to lower fixed compensation and variable selling costs resulting from the sales force integration efforts, as well as lower bad debt expense.

In 2006, the Company recognized goodwill impairment charges of \$55.3 million. A goodwill impairment charge of \$37.1 million was recognized in the second quarter of 2006, principally related to the goodwill recorded in 1992 as a result of the acquisition of Department 56 by Forstmann Little & Co. An additional goodwill impairment charge of \$18.2 million recognized in the fourth quarter of 2006 related to the goodwill originally recorded as part of the acquisition of Lenox in 2005. There was no similar charge in 2007.

Operating income increased \$52.0 million in 2007 as compared to 2006 as a result of the items described above.

Retail

Net sales decreased \$14.1 million, or 18%, in 2007 compared with 2006 primarily due to store closures, four stores that closed in February of 2007 and 28 stores that were closed in January of 2006. Further contributing to the decrease was a 10% reduction in same-store sales due to lower store traffic as a result of a more difficult consumer retail environment particularly in the fourth quarter of 2007.

Gross profit as a percentage of net sales was 43% and 54% in 2007 and 2006, respectively. A positive \$4.5 million purchase accounting adjustment in 2006 to value Lenox inventory at its estimated selling price less cost of disposal under the purchase method of accounting on the opening balance sheet date accounted for a seven percentage point increase in 2006. The remaining four percentage point decrease in gross profit percentage in 2007, resulted from a focus on liquidating second quality and excess inventory at significantly reduced prices during the first half of 2007.

Selling expenses were 49% of net sales in 2007 compared to 44% of net sales in 2006. The higher expense rate reflects higher fixed operating costs on a declining sales base. Selling expenses in 2007 were reduced by store closures and lower administrative costs as a result of restructuring efforts in the first half of 2007.

Restructuring charges of \$1.2 million in 2007 were primarily lease termination costs related to an *All the Hoopla* store located in Buffalo, NY.

There was an operating loss of \$4.6 million in 2007 as compared to an operating profit of \$8.0 million in 2006 as a result of the items described above.

Direct

Net sales decreased \$7.5 million or 8% in 2007 as compared to the same period in 2006, as lower consumer response to our direct mail advertising campaigns in 2007 was partially offset by higher internet sales.

Gross profit as a percentage of sales was 69% in both 2007 and 2006.

Table of Contents

Selling expenses were 55% of net sales in 2007 compared to 49% of net sales in 2006, an increase of \$1.6 million. The higher expense rate as a percentage of net sales in 2007, compared to 2006, reflects a planned significant increase in advertising costs to acquire more customers to grow the business. These efforts were not successful due to lower customer response to our direct mail campaigns. Selling expenses in 2007 were also increased by higher bad debt expense related to a change in sales and customer mix.

Edgar Filing: LENOX GROUP INC - Form 10-K

Operating income was \$7.9 million less in 2007 as compared to 2006 as a result of the items described above.

Corporate

Net sales of \$2.3 million in 2007 represents revenue from the licensing of the Company's brands and was \$0.5 million higher as compared to 2006.

General and administrative expenses decreased by \$13.5 million or 12% in 2007 as compared to the same period in 2006. The largest components of this decrease included a \$9.3 million reduction in postretirement expenses relating to freezing the Company's defined benefit pension plans and discontinuing post retirement health benefits to former and current employees, as well as workforce reductions of \$7.4 million and a \$1.6 million reduction in equity compensation. Partially offsetting these decreases was \$5.1 million of executive management consulting fees incurred in 2007, including fees paid to CMAG for the services of Marc Pfefferle, as interim CEO and certain other interim officers.

Interest Expense

Interest expense decreased \$0.8 million in 2007 as compared to 2006, due to lower average monthly revolver debt outstanding combined with a lower average interest rate.

Loss on the extinguishment of debt

The Company incurred a \$5.9 million loss on the refinancing of its term and revolver loans in the second quarter of 2007. This loss consisted of \$2.7 million of costs related to the re-financing as well as the write-off of \$3.2 million of previously capitalized loan costs.

Provision for income taxes

The effective income tax rate was a 46% benefit in 2007 compared to a 4% benefit in 2006. The low rate in 2006 was principally due to a \$55.3 million goodwill impairment charge that was principally non-tax deductible. The rate increase in 2007 resulted from the reversal of \$2.0 million, net of adjustments to deferred tax assets, of previously unrecognized tax benefits due to the expiration in the statute of limitations on certain tax positions.

COMPARISON OF RESULTS OF CONTINUING OPERATIONS 2006 TO 2005

Wholesale

Net sales were up 52% to \$330.4 million from \$217.0 million in 2005 reflecting the timing impact of the Acquisition. In 2006, the Company had 12 months of Lenox activity compared to only four months of activity in 2005 (i.e. due to the Acquisition being consummated on September 1, 2005). Partially offsetting the increase in Lenox product sales was the decrease in legacy Department 56 product sales. Net sales of Department 56 product decreased 8% or \$9.8 million principally due to the continued contraction experienced in the gift and specialty channel since 1999. Excluding the incremental sales recorded as a result of the Willitts acquisition, net sales of Department 56 product decreased 14%, or \$18.1 million.

The gross profit percentage was 41% compared to 42% in 2005. The gross profit percentage in 2005 for the Lenox wholesale business was negatively impacted by an \$8.7 million purchase accounting fair market value adjustment related to the write-up of inventory to its estimated selling price less cost of disposal under the purchase method of accounting on the opening balance sheet date. Excluding this purchase accounting adjustment, the gross profit percentage was 41% compared to 46% in 2005. The decrease in gross profit percentage was principally due to the Acquisition as the Lenox wholesale business typically generates lower gross profit percentages because it primarily sells to national customers who command higher discounts. In addition, the Lenox wholesale business generated lower gross profit percentages in 2006 compared to 2005 due to an increase in the amount of excess inventory and the liquidation of such excess inventory.

Table of Contents

Selling expenses increased \$15.8 million, or 60%, from \$26.5 million in 2005 to \$42.3 million in 2006. The increase in selling expenses was principally due to the timing of the Acquisition and the additional selling expenses recorded as a result of the Willitts acquisition. Selling expenses as a percentage of net sales were 13% in 2006 compared to 12% in 2005.

Edgar Filing: LENOX GROUP INC - Form 10-K

During 2006, the Company recognized \$55.3 million in goodwill impairment charges. In the second quarter of 2006, the Company recognized a goodwill impairment charge of \$37.1 million in its Department 56 wholesale reporting unit principally related to the continuing decline of product shipments into the gift and specialty channel. This goodwill principally related to the goodwill originally recorded in 1992 as the result of the acquisition of Department 56 by Forstmann Little & Co. In the fourth quarter of 2006, the Company recognized a goodwill impairment charge of \$18.2 million as a result of lower projected sales and profits from the Company's Lenox wholesale reporting unit as compared to that which was originally projected at the date of the Acquisition. This goodwill impairment related to the goodwill originally recorded as part of the Acquisition on September 1, 2005.

Income from operations decreased \$26.0 million, or 40%, from \$64.3 million in 2005 to \$38.3 million in 2006. The decrease was principally due to the \$55.3 million in goodwill impairment charges, partially offset by the increase in net sales and income from operations due to the timing of the Acquisition as explained above.

Retail

Net sales were \$76.2 million in 2006 compared to \$74.7 million in the prior year. Net sales from go forward stores increased from 2005 to 2006 as a result of reflecting 12 months of sales in 2006 compared to four months of sales in 2005 (i.e. due to the timing of the Acquisition). This increase in net sales was partially offset by a reduction in net sales in 2006 related to the closing of 28 retail stores in January of 2006 (i.e. these non-go forward stores had four months of net sales in 2005 compared to only one month of net sales in 2006). Same-store sales decreased 4.0% from 2005 to 2006. Same-store sales represent a comparison of the sales (during the corresponding weeks of the two fiscal years compared) of the stores included in our same-store sales base. A store first enters our same-store sales base after completing 12 fiscal months of operations. In 2006, there were 33 stores included in our same-store sales base and one of these stores was included for less than a year.

The gross profit percentage was 54% in 2006 compared to 57% in 2005. Subsequent to the Acquisition date of September 1, 2005, the Lenox retail business was liquidating excess product acquired as part of the Acquisition. The impact of liquidating this excess product normally would have resulted in lower gross margins for the Lenox retail business. However, this impact was offset by the requirement to value Lenox inventory at its estimated selling price less cost of disposal under purchase accounting on the opening balance sheet date. The impact of this purchase accounting adjustment was \$4.5 million in 2006 and \$5.8 million in 2005. Excluding the impact of this adjustment, the gross margin percentage was 48% in 2006 compared to 49% in 2005.

Selling expenses were \$33.5 million, or 44% of net sales, in 2006 compared to \$22.6 million, or 30% of net sales, in 2005. The increase in selling expenses, both in absolute dollars and as a percentage of net sales, was principally due to the timing of the Acquisition. The four months of 2005 that were included in 2005 results typically have the lowest selling expense as a percentage of sales due to the seasonally high volume of sales during that time period. In addition, the Company recognized a gain in 2005 related to the buyout of a lease at one of its stores that was being relocated which reduced selling expense as a percentage of sales.

Income from operations decreased \$11.7 million from \$19.7 million in 2005 to \$8.0 million in 2006. The decrease was principally due to higher selling expenses as a result of the timing of the Acquisition as explained above.

Direct

Net sales increased by \$55.0 million, or 140%, from \$39.2 million in 2005 to \$94.2 million in 2006. The increase in net sales was due to the timing of the Acquisition.

The gross profit percentage was 69% in 2006 compared to 64% in 2005. The gross profit percentage for the Lenox direct business was negatively impacted by a purchase accounting fair market value adjustment related to the write-up of inventory to its estimated selling price less cost of disposal under the purchase method of accounting on the opening balance sheet date. The impact of this purchase accounting adjustment was \$1.2 million in 2006 and \$2.8 million in 2005. Excluding the impact of this adjustment, the gross margin percentage was 71% in 2006 and 2005.

Table of Contents

Selling expenses were \$46.1 million, or 49% of net sales, in 2006 compared to \$16.8 million, or 43% of net sales, in 2005. The increase in selling expenses, both in absolute dollars and as a percentage of net sales, was principally due to the timing of the Acquisition. The four months of 2005 that were included in 2005 results typically have the lowest selling expense as a percentage of sales due to the seasonally high volume of sales during that time period.

Edgar Filing: LENOX GROUP INC - Form 10-K

Income from operations increased from \$8.2 million in 2005 to \$19.3 million in 2006. The increase was principally due to the timing of the Acquisition as explained above.

Corporate

Net sales in the corporate segment represent licensing income from the licensing of Lenox brands. Net sales increased from \$0.8 million in 2005 to \$1.7 million in 2006. The increase in net sales was due to the timing of the Acquisition.

General and administrative expenses increased by \$52.2 million from \$60.5 million in 2005 to \$112.7 million in 2006. The increase in general and administrative expenses was due to the timing of the Acquisition. The increase was partially offset by a gain of \$1.1 million recognized in the fourth quarter of 2006 related to the sale of the Company's Pomona, NJ facility.

On October 31, 2006, the Company announced the freeze of the Company's defined benefit pension plans as of December 31, 2006. As a result of the freeze, employees will not accrue additional benefits under the defined benefit pension plans after December 31, 2006. In addition, the Company's pension obligation is significantly reduced because benefits payable to employees will not incorporate future compensation increases. As a result of this change, the Company recorded a pension curtailment gain of \$13.2 million. In the fourth quarter of 2006, the Company recorded a plan settlement as a result of significant lump-sum cash payments made to employees from one of its defined benefit pension plans. As a result of this settlement, the Company recorded a settlement gain of \$1.6 million.

In the fourth quarter of 2006, the Company recognized a trademark impairment charge of \$3.7 million related to lower than projected sales of *Dansk* and *Gorham* product than what was estimated at the time of the original purchase price allocation. These trademark costs were originally recorded as part of the Acquisition.

Loss from operations increased by \$40.2 million from (\$59.7) million in 2005 to (\$99.9) million in 2006. The increase was principally due to increased general and administrative expenses resulting from the timing of the Acquisition, partially offset by the pension curtailment and settlement gains and the gain on the sale of the Pomona, NJ facility recognized in 2006 as explained above.

Interest expense

Interest expense increased by \$11.1 million from \$5.7 million in 2005 to \$16.8 million in 2006. The increase was principally due to the timing of the Acquisition. The Company incurred 12 months of interest expense related to the financing of the Acquisition in 2006 compared to only four months in 2005.

Provision for income taxes

The income tax provision rate was a 4% benefit in 2006 compared to a 37% provision in 2005. The change in the rate in 2006 was principally due to the goodwill impairment charges which were primarily non-tax deductible, the reversal of a \$1.5 million deferred tax asset valuation allowance that the Company believed was no longer needed because the capital gains generated from the assets sold in 2006 will be used to offset previously recorded capital losses, the reversal of \$1.0 million in tax accruals that were no longer needed as a result of the expiration of the applicable statute of limitations and the completion of tax audits, and a \$0.6 million tax charge related to the revaluation of the Company's net deferred tax assets as a result of a lower effective tax rate due to a legal entity restructuring that was needed to integrate the Lenox business and the Department 56 business.

Table of Contents

SEASONALITY

The Company's business is highly seasonal. It has historically recorded its highest Wholesale segment sales during the third and fourth quarters of each year as wholesale customers stock merchandise in anticipation of the holiday season. In addition, the Company records its highest Retail and Direct segment sales in the fourth quarter during the peak holiday shopping season. However, the Company can experience fluctuations in quarterly sales and related net income compared with the prior year due to the timing of receipt of product from suppliers and subsequent shipment of product from the Company to customers, as well as the timing of orders placed by customers. The Company is not managed to maximize quarter-to-quarter results, but rather to achieve annual objectives designed to achieve long-term growth consistent with the Company's business strategy.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary sources of cash are the funds generated from operations and its revolving credit facility, which is available for working capital and investment needs.

Consistent with customary practice in the giftware industry, the Company offers extended payment terms to some of its wholesale customers. This practice has created significant working capital requirements as the Company uses cash to source inventory, but does not receive cash from its customers until the fourth quarter and early first quarter of the subsequent year when the extended payment terms come due. Similarly, the Company's Retail and Direct segments create working capital requirements during the first nine months of the year with revenue and cash collections peaking during the holiday season in the fourth quarter and early first quarter of the subsequent year. The Company finances these working capital requirements with seasonal borrowings under its revolving credit facility. Cash collected in the fourth quarter and first quarter of the subsequent year is used to repay the seasonal borrowings.

The timing of cash payments to suppliers of inventory, the ability to ship inventory to its customers, and the timing of cash receipts from its customers will impact the Company's borrowing base capacity. The Company monitors accounts receivable, inventory levels and shipment of product on a routine basis to ensure adequate borrowing base capacity exists to fund its current working capital needs.

Based on current forecasted levels of operations, the Company believes its current cash and liquidity available under its revolving credit facility will be sufficient to finance working capital needs, capital expenditures and contractual obligations in 2008 and beyond.

Cash Flows from Operations

Net cash used in operating activities was \$0.5 million in 2007 compared to \$15.3 million in 2006. The \$14.8 million change in cash flow from operating activities was principally due to the reduction in working capital (principally accounts receivable and inventory) in 2007 compared to 2006, as the Company focused on improved working capital management, especially related to improved inventory forecasting accuracy and the liquidation of excess inventory.

Net cash used in operating activities was \$15.3 million in 2006 compared to \$60.4 million of cash provided by operating activities in 2005. The \$75.7 million change in cash flow from operating activities was principally due to the timing of the Acquisition, the closing of Lenox retail stores during 2005, which generated significant cash flow in the last four months of 2005 that was not repeated in 2006, the payments of severance and restructuring charges in 2006, and a decrease in cash provided from operating activities from the legacy Department 56 business in 2006.

Table of Contents

Historically, due to the seasonality of the business, the acquired Lenox business has generated negative cash flow from operations during the first eight months of its fiscal year and has generated significant positive cash flow from operations during the last four months of its fiscal year. The 2005 cash flow from operating activities only included the last four months of the acquired Lenox business (as Lenox, Incorporated was

Edgar Filing: LENOX GROUP INC - Form 10-K

acquired on September 1, 2005), resulting in a significant contribution of cash flow from operating activities. The 2006 cash flow from operating activities included the full 12 months of the acquired Lenox business, which contained the first eight months of the Company's fiscal year, during which significant cash was used in operating activities. In addition, the Company generated positive cash flow from operations during the last four months of 2005 due to the closing of 31 Lenox retail stores, the closing of which was contemplated at the time of the Acquisition.

The decrease in cash flow from operating activities from 2005 to 2006 was also due to higher payments of severance and restructuring charges in 2006 than in 2005. On September 1, 2005, the Company accrued \$13.8 million in acquisition reserves related to plant closings, retail store closings, and general restructurings that were planned as part of the Acquisition. Of that reserve, \$1.8 million was paid in 2005 and \$11.4 million was paid in 2006.

Finally, the change in cash flow from operating activities from 2005 to 2006 was also due to the continued contraction of the Department 56 business. Cash flow from the operating activities of the Department 56 business decreased by \$9.7 million from 2005 to 2006.

Cash Flows from Investing Activities

Capital expenditures in 2007 were \$6.6 million compared to \$12.4 million in 2006 and \$1.9 million in 2005. Capital expenditures in 2006 were higher than in 2007 due to the consolidation of the Lenox Wholesale and Direct businesses into a newly renovated office facility in Bristol, PA and costs associated with the opening of the Company's new *All the Hoopla* stores in 2006. Capital expenditures were lower in 2005 because 2005 only included the last four months of the acquired Lenox business.

During 2007, the Company received \$8.5 million from the sale of certain assets of the Company's sterling silver flatware and sterling silver giftware business. During 2006, the Company received net proceeds of \$9.9 million from the sale of its Langhorne, PA facility, \$6.6 million from the sale of its Pomona, NJ facility, and \$26.3 million from the sale of its Hagerstown, MD facility (all such proceeds were used to repay a portion of the indebtedness with respect to the term loan facility as described below).

During 2005, the Company completed the acquisition of Lenox for \$204.0 million, which included transaction costs of \$7.6 million. During 2006, the Company completed the acquisition of Willitts for \$2.8 million. During 2007, the Company paid or accrued an additional \$1.4 million in earnout payments to Willitts for achieving certain performance thresholds. See Note 3 to the Consolidated Financial Statements in this Form 10-K.

During 2005, the Company obtained cash of \$11.2 million from the sale of available-for-sale securities, which the Company used for working capital purposes and to partially fund the Acquisition.

Cash Flows from Financing Activities

To finance the Acquisition in 2005, the Company entered into a revolving credit facility and a term loan facility. The credit facilities were used to finance the Acquisition and to payoff existing indebtedness under the Company's old revolving credit facility and the revolving credit facility was being used to finance working capital needs. In connection with the new credit facilities, the Company recorded \$10.1 million in deferred financing fees in 2005, which is being amortized over the lives of the credit agreements.

During 2006, the Company entered into amendments to its credit facilities that required the payment of an amendment fee of \$0.4 million, which was added to the unamortized balance of deferred financing fees at the time of amendment. In accordance with Accounting Research Bulletin No. 43, the Company classified the entire principal amount of its term debt as of December 30, 2006, as a current liability on the Consolidated Balance Sheets as its noncompliance with the financial covenants allowed the debt to be called by the term lenders.

Table of Contents

On February 9, 2007, the Company entered into waivers and amendments to its revolving credit facility and term loan credit facility in connection with the Company's noncompliance with certain financial covenants under these credit facilities for the period ended December 30, 2006. Pursuant to the waivers and amendments, the lenders granted the Company a limited waiver of noncompliance through and including April 30, 2007, and temporarily amended the agreements to adjust the leverage ratio and interest coverage ratio levels for the first quarter of 2007. In addition, the amendment to the term loan facility increased the applicable margin for loans by 0.25% per annum. As consideration for the amendments, the Company paid amendment fees of \$0.2 million, which were added to the unamortized balance of deferred financing fees at the time of the amendment.

On April 20, 2007, the Company completed the refinancing of its credit facilities by entering into amended and restated revolving and term loan facilities. The amended and restated revolving credit facility, which expires on April 20, 2012, provides for borrowings up to \$175 million,

Edgar Filing: LENOX GROUP INC - Form 10-K

which may be in the form of letters of credit and revolving credit loans to be used for working capital and general corporate purposes. The amended and restated term loan facility, which expires on April 20, 2013, provides for term loans in the aggregate principal amount of up to \$100 million. The Company used the proceeds of the amended and restated term loan facility to refinance the \$47.4 million of term debt outstanding and \$42.2 million of the revolver debt outstanding at April 20, 2007, to pay \$1.2 million of accrued interest and fees payable under the existing credit facilities and to pay \$9.2 million of fees and expenses in connection with the refinancing.

Total fees and expenses incurred by the Company in connection with the refinancing were \$9.7 million (inclusive of the \$9.2 million paid out of the proceeds of the amended and restated term loan facility), of which \$7.0 million was added to deferred financing fees and is being amortized over the life of the amended credit facilities and \$2.7 million was included as loss on refinancing of debt during the second quarter of 2007 in accordance with EITF 98-14, *Debtor's Accounting for Changes in Line-of-Credit or Revolving-Debt Arrangements*, and EITF 96-19, *Debtor's Accounting for a Modification or Exchange of Debt Instruments*. Based on these same criteria, the Company recognized an additional \$3.2 million loss on refinancing of debt during the second quarter of 2007 to write-off portions of the previously capitalized deferred financing fees.

Borrowings under the amended and restated revolving credit facility are subject to certain borrowing base limitations, and the Company's borrowing capacity fluctuates during the year based upon accounts receivable and inventory levels. As of December 29, 2007, the Company's borrowing capacity under the amended and restated revolving credit facility was \$82.5 million. There were \$8.9 million in borrowings outstanding under the revolver and \$6.7 million in outstanding letters of credit at December 29, 2007, leaving \$66.9 million available for additional borrowings or letters of credit.

The amended and restated credit facilities are secured by a first-priority lien on substantially all of the real and personal property of the Company. In addition, the Company has pledged the common stock of its subsidiaries, direct and indirect, as collateral under the amended and restated credit facilities, and the Company and its material subsidiaries, direct and indirect, have guaranteed repayment of amounts borrowed under the amended and restated credit facilities.

The amended and restated revolving credit facility allows the Company to choose between two interest rate options in connection with its revolving credit loans. The interest rate options are the Alternate Base Rate (as defined) or the Adjusted LIBOR Rate (as defined) plus an applicable margin. The applicable margin ranges from 0% to 0.5% for Alternate Base Rate loans and from 1.75% to 2.25% for Adjusted LIBOR Rate loans. The amended and restated revolving credit facility also provides for commitment fees of 0.375% per annum on the daily average of the unused commitment.

The amended and restated term loan facility allows the Company to choose between two interest rate options in connection with its loans under the facility. The interest rate options are the Alternate Base Rate (as defined) or the Adjusted LIBOR Rate (as defined) plus an applicable margin. The applicable margin is 3.5% for Alternate Base Rate loans and 4.5% for Adjusted LIBOR Rate loans.

Under the amended and restated term loan facility, the Company is also obligated to make mandatory prepayments if certain events occur in the future such as certain asset sales, additional debt issuances, common and preferred stock issuances, and excess cash flow generation. Such prepayments will be applied to the term loan until it is paid in full, except for prepayments occurring upon the sale of designated revolving loan collateral, which will be applied to the revolving loan.

The amended and restated credit facilities contain customary financial conditions and covenants, including restrictions on additional indebtedness, liens, investments, capital expenditures, issuances of capital stock and dividends. The amended and restated credit facilities also require maintenance of minimum levels of fixed charge coverage and maximum levels of leverage, in each case at the end of each fiscal quarter.

Table of Contents

The minimum fixed charge coverage ratio (as defined within the amended and restated credit facility agreements) requires the Company to maintain a minimum ratio of Consolidated EBITDA (as defined within the amended and restated credit facility agreements) to Consolidated Fixed Charges (as defined within the amended and restated credit facility agreements) over a 12-month period ending on each fiscal quarter. The minimum ratio to be maintained at each quarter-end over the terms of the facilities is defined within the amended and restated credit facility agreements and ranges from 0.9:1.0 to 1.3:1.0.

The maximum leverage ratio (as defined within the amended and restated term credit facility agreement) requires the Company to maintain a maximum ratio of debt (as measured at the end of each fiscal quarter) to Consolidated EBITDA over a 12-month period ending on each fiscal quarter. The maximum leverage ratio to be maintained at each quarter-end over the terms of the facilities is defined within the amended and restated credit facility agreements and ranges from 2.75:1.0 to 6.75:1.0. As of December 29, 2007, the Company's fixed charge coverage ratio was 1.24:1.0 (compared to the minimum allowed for the period of 0.9:1.0), and the leverage ratio was 4.3:1.0 (compared to the maximum allowed for the period of 5.5:1.0).

Edgar Filing: LENOX GROUP INC - Form 10-K

The contractual maturity of the Company's \$99.5 million term loan facility on December 29, 2007 is as follows:

Year	Contractual Maturities
2008	\$ 1.3 million
2009	1.0
2010	1.0
2011	1.0
2012	.8
2013	94.5

OFF-BALANCE SHEET ARRANGEMENTS

In July 2007, the Company entered into an interest rate collar agreement with a notional amount of \$50 million to mitigate some of the Company's variable interest rate risk. Under the terms of the agreement, the Company receives a positive net settlement from the counterparty if the LIBOR rate (as defined) is greater than 6.5% on the settlement dates (as defined). If the LIBOR rate (as defined) is less than 4.32% on the settlement dates (as defined), the Company would be required to make a payment to the counterparty. The interest rate collar agreement expires on July 26, 2010. As of December 29, 2007, neither the Company nor the counterparty to the agreement had an obligation (contingent or otherwise) to pay or receive any settlement amount because the Company's LIBOR borrowing rate was greater than 4.32% but less than 6.5%.

The Company did not have any other off balance sheet arrangements as of December 29, 2007.

CONTRACTUAL OBLIGATIONS

As of December 29, 2007, the Company is obligated to make cash payments in connection with its debt obligations, operating leases, purchase obligations, capital leases, environmental remediation costs and royalty guarantees in the amounts listed below. The Company has no off-balance sheet debt or other unrecorded obligations other than the items noted in the following table:

	Payments Due (in thousands)						
	2008	2009	2010	2011	2012	Thereafter	Total
Revolving Credit Facility ¹	\$ 8,938						\$ 8,938
Long-term Debt ^{2,3}	1,250	\$ 1,000	\$ 1,000	\$ 1,000	\$ 750	\$ 94,750	99,750
Operating Leases	14,541	13,357	11,875	10,254	8,726	44,252	103,005
Purchase Commitments ⁴	38,696						38,696
Capital leases	10						10
Environmental costs ⁵	420	237	244	251	374	1,753	3,279
Royalty Guarantees ⁶	289	253	173	25			740
Total	\$ 64,144	\$ 14,847	\$ 13,292	\$ 11,530	\$ 9,850	\$ 140,755	\$ 254,418

Table of Contents

¹ The Company's borrowings under the revolving credit facility are classified as current liabilities on the Consolidated Balance Sheets in accordance with Emerging Issues Task Force Issue No. 95-22, *Balance Sheet Classification of Borrowings Outstanding under Revolving Credit Agreements That Include both a Subjective Acceleration Clause and a Lock-Box Arrangement*.

² In addition to the principal payments on debt included in the summary of significant contractual obligations, the Company will incur interest expense on outstanding variable rate debt. All amounts outstanding under the revolving and term loan credit facilities are variable interest rate debt with weighted average interest rates as of December 29, 2007 of 7.5% and 9.56%, respectively. See Note 8 to the Consolidated Financial Statements.

³

Edgar Filing: LENOX GROUP INC - Form 10-K

Long term debt also includes the \$150 in principal amount of the conditional notes payable to the Maryland Department of Business and Economic Development and the \$100 in principal amount of the conditional notes payable to the County Commissioners of Washington County, Maryland. In addition to these principal amounts, the Company will incur interest expense at rates of 3% and 0%, respectively.

⁴ The Company is committed to pay suppliers of product under the terms of open purchase orders issued in the normal course of business.

⁵ The Company is responsible for the cleanup and/or monitoring of two environmental sites located in New Jersey.

⁶ The Company is committed to pay licensors under the terms of license agreements entered into in the normal course of business.

Total contractual obligations do not include the following:

Payments made to the Company's deferred compensation plan Under this plan, employees may elect to defer a portion of their eligible compensation into the plan. The Company, at its discretion, may also contribute amounts into the plan on behalf of the employees. The Company cannot predict when contributions to and withdrawals from the plan will occur. See Note 12 to the Consolidated Financial Statements.

Pension and postretirement obligations As of December 29, 2007, the Company had accrued pension and postretirement benefit obligations of \$18.4 million. Because the specific periods in which those obligations will be funded are not known at this time, no amounts related to these obligations are reflected in the above table. The Company expects to contribute approximately \$5.3 million to its pension plans and approximately \$0.4 million to its postretirement plans in 2008. See Note 10 to the Consolidated Financial Statements.

The Company's FIN 48 liabilities of \$1.4 million, as the Company cannot make a reasonable estimate of the timing of the related cash payment.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We have adopted various accounting policies to prepare the consolidated financial statements in accordance with accounting principles generally accepted in the United States. Our significant accounting policies are more fully described in Note 1 of the Notes to Consolidated Financial Statements in this Form 10-K. In connection with the preparation of the financial statements, we are required to make assumptions, make estimates and apply judgment that affect the reported amounts of assets, liabilities, revenue, expenses and related disclosures. The Company bases its assumptions, estimates and judgments on historical experience, current trends and other factors that management believes to be relevant at the time the consolidated financial statements are prepared. On a regular basis, management reviews the accounting policies, assumptions, estimates and judgments to ensure that our financial statements are presented fairly and in accordance with generally accepted accounting principles. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material.

Management believes the following critical accounting policies require the most difficult, subjective or complex judgments about matters that are inherently uncertain and are therefore particularly important to an understanding of the Company's results of operations and financial position:

Sales Returns and Credits An allowance is established for credits related to possible returned or damaged product, markdowns and pricing and shipping discrepancies. The amount of the allowance is based on historical ratios of credits to sales, the historical average length of time between the sale and the credit, and other factors. Changes in customers' behavior versus historical experience, changes in product damage or defect rates, or changes in the Company's return policies are among the factors that would result in materially different amounts for this item. Based on 2007 sales returns and credits, a 10% increase or decrease in sales returns and credits would have had an impact of approximately \$2.2 million.

Inventory Valuation Inventory is valued at the lower of cost or net realizable value. The amount is determined by analyzing historical and projected sales information, plans for discontinued products and other factors. The Company procures product based on forecasted sales volume. If actual sales were significantly lower than forecasted sales due to unexpected economic or competitive conditions, it could result in materially higher surplus and discontinued inventories. Based on 2007 inventory write-downs, a 10% increase or decrease in inventory write-downs would have had an impact of less than \$0.8 million.

Table of Contents

Allowance for Doubtful Accounts The Company records an allowance for estimated uncollectible accounts receivable based on an evaluation of its accounts receivable balance. This evaluation includes a number of factors including the age of the receivable, the financial condition of the customer, the current business environment and the historical collection experience for customers and consumers of similar background and nature. Additionally, since many of the Company's wholesale sales have terms which come due in November and December, the Company does not have visibility into overdue balances for many of its wholesale customers until the fourth quarter of its fiscal year. Due to the seasonality of the Company's business, the extended terms provided to wholesale customers and the relative size of accounts receivable balances at year-end, it

Edgar Filing: LENOX GROUP INC - Form 10-K

is not uncommon for the Company to experience fluctuations in the provision for bad debt expense from quarter to quarter as the Company refines its estimate. Unexpected changes in the aforementioned factors would result in materially different amounts for this item. In addition, results could be materially different if economic conditions worsened for the Company's customers. Based on 2007 bad debt write-offs, a 10% increase or decrease in bad debt write-offs would have had an impact of approximately \$0.6 million.

Valuation of Long-Lived Assets Long-lived assets on the Company's consolidated balance sheet consist primarily of property and equipment. The Company periodically reviews the carrying value of these assets based, in part, upon projections of anticipated undiscounted cash flows. Management undertakes this review when facts and circumstances suggest that cash flows emanating from those assets may be diminished. Any impairment charge recorded reduces earnings. While the Company believes future estimates are reasonable, different assumptions regarding items such as future cash flows and the volatility inherent in markets within which the Company operates could affect evaluations and result in impairment charges against the carrying value of those assets.

Valuation of Goodwill, Trademarks and Other Intangible Assets The Company evaluates goodwill, trademarks and other intangible assets on a periodic basis. This evaluation relies on assumptions regarding estimated future cash flows and other factors to determine the fair value of the respective assets. If these estimates or related assumptions change, the Company may be required to recognize impairment charges.

Pension and Postretirement Benefits The Company sponsors various defined benefit pension plans as well as postretirement plans providing retiree health care and retiree life insurance benefits. Benefits are based on such factors as years of service and compensation level during employment. The benefits expected to be paid are expensed over the employee's expected service. To determine the expected benefits to be paid, the Company has to make assumptions regarding interest rates, return on plan assets and expected health care trend rates. Actual experience different from these assumptions could result in materially different benefit payments. In December 2006, the Company adopted SFAS No. 158, *Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans* (an amendment of FASB Statements No. 87, 88, 106, and 132 (R)) (SFAS 158). SFAS 158 requires that the Company recognize the overfunded or underfunded status of its defined benefit pension and postretirement plans as an asset or liability in the Company's year-end balance sheet, with changes in the funded status recognized through comprehensive income in the year in which they occur.

Tax Contingencies The Company is periodically contacted or audited by federal and state tax authorities. These contacts or audits include questions regarding the timing and amount of deductions and the allocation of income among various tax jurisdictions. In evaluating the exposure associated with various filing positions, the Company records a reserve for estimated probable exposures. The estimate of this reserve contains uncertainty because management must use judgment to estimate the exposure associated with its various filing positions. To the extent the Company does not have to pay taxes for which reserves have been established or is required to pay amounts in excess of its reserves, the Company's tax rate in a given financial period could be materially impacted.

Stock-Based Compensation In accordance with SFAS 123R the estimated grant date fair value of each stock-based award is recognized in income on an accelerated basis (for existing options) and a straight-line basis (for new grants) over the requisite service period. The estimated fair value of each option is calculated using the Black-Scholes - Merton option-pricing model. The Company makes certain assumptions using the Black-Scholes option-pricing model which includes the risk-free interest rate, expected dividend yield, expected stock price volatility, expected life and expected forfeitures. Nonvested restricted stock is recorded as compensation cost over the requisite service periods based on the market value on the date of grant. Prior to January 1, 2006, the Company applied the recognition and measurement principles of APB Opinion No. 25 to stock options and other stock-based incentive plans as permitted pursuant to SFAS 123. In accordance with APB Opinion No. 25, cost for stock-based compensation was recognized in income based on the excess, if any, of the quoted market price of the stock at the grant date of the award or other measurement date over the amount an employee must pay to acquire the stock. The exercise price for stock options granted to employees equaled the fair market value of the Company's common stock at the date of grant, thereby resulting in no recognition of compensation expense. Nonvested restricted stock was recorded as compensation cost over the requisite service periods based on the market value on the date of grant.

Table of Contents

SUBSEQUENT EVENTS

On January 14, 2008, the Company announced the comprehensive review of strategic, financial and operational alternatives to enhance stockholder value, including a potential merger, sale of all or part of the Company or recapitalization of the Company. The Company also adopted a stockholder rights plan. The Board of Directors retained Berenson & Company LLC as its financial advisor to assist with this process

RECENT ACCOUNTING PRONOUNCEMENTS

Edgar Filing: LENOX GROUP INC - Form 10-K

See Note 1 to the Consolidated Financial Statements, under the subheading, Recently Adopted and Issued Accounting Standards, at page F-12, regarding the effect of certain new accounting standards on the Company.

EFFECT OF INFLATION

The Company continually attempts to minimize any effect of inflation on earnings by controlling its operating costs and selling prices. During the past few years, the rate of inflation has been low and has not had a material impact on the Company's results of operations.

FORWARD-LOOKING STATEMENTS AND FACTORS AFFECTING FUTURE EARNINGS

Certain statements made in this Annual Report on Form 10-K and the documents incorporated by reference in this Annual Report on Form 10-K include forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. All statements regarding the Company's expected future financial position, results of operations, cash flows, financing plans, business strategy, budgets, tax rates, capital expenditures, competitive positions, growth opportunities, plans and objectives of management, as well as statements containing words such as anticipate, approximate, believe, plan, estimate, expect, project, could, should, will, intend, expressions, are forward-looking statements. Forward-looking statements do not relate strictly to historical or current facts.

Such forward-looking statements are inherently uncertain. Actual results may differ materially from forward-looking statements as a result of a variety of factors, including, without limitation, those discussed below and under Item 1A of this Annual Report on Form 10-K. Such forward-looking statements are based on management's current expectations and include known and unknown risks, uncertainties and other factors, many of which the Company is unable to predict or control, that may cause the Company's actual results or performance to differ materially from any future results or performance expressed or implied by such forward-looking statements. These statements involve risks, uncertainties and other factors discussed below and under Item 1A of this Annual Report on Form 10-K or described from time to time in the Company's filings with the SEC.

Actual results may vary materially from forward-looking statements and the assumptions on which they are based. The Company undertakes no obligation to update or publish in the future any forward-looking statements.

Table of Contents

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following discussion of the Company's exposure to market risk contains forward-looking statements that involve risks and uncertainties. The information presented has been prepared utilizing certain assumptions considered reasonable in light of information currently available to management. Given the unpredictability of interest rates as well as other factors, actual results could differ materially from those projected in such forward-looking information.

A principal market risk affecting us is the exposure to changes in the interest rates on our variable rate debt. As our credit facilities bear interest at variable rates, our results of operations and cash flows will be exposed to changes in interest rates. In 2007, the Company entered into an interest rate collar agreement with a notional amount of \$50 million to mitigate some of this variable interest rate risk. Under the terms of the agreement, the Company would receive a positive net settlement from the counterparty if the LIBOR rate (as defined) is greater than 6.5% on the settlement dates (as defined). If the LIBOR rate (as defined) is less than 4.32% on the settlement dates (as defined), the Company would be required to make a payment to the counterparty. Based on debt outstanding as of December 29, 2007 and the interest rate collar agreement in effect as of December 29, 2007, a one percentage point increase in current market interest rates would increase the Company's borrowing costs by approximately \$1.1 million on an annual basis. A one percentage point decrease in current market interest rates would decrease the Company's borrowing costs by approximately \$0.8 million on an annual basis.

Less than 2% of the Company's wholesale sales and approximately 7% of the Company's product purchases in fiscal year 2007 were denominated in a foreign currency. Based on these sales and product purchases, a 10% increase or decrease in the foreign currency exchange rates would have an impact of less than \$1.5 million. At this time, the Company does not use derivative instruments to manage the exchange rate risk.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

See Consolidated Financial Statements beginning on page F-4 and quarterly data provided under the caption Seasonality within Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES
Disclosure Controls and Procedures

Lenox Group Inc.'s management is responsible for establishing and maintaining effective disclosure controls and procedures, as defined under Rule 13a-15(e) of the Securities Exchange Act of 1934. As of the end of the period covered by this report, the Company performed an evaluation, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures. Based upon, and as of the date of that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits to the Securities and Exchange Commission under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Controls Over Financial Reporting

No changes were made to the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Board of Directors

JAMES E. BLOOM, 65, has been a director since November 2001. Mr. Bloom is a private investor and was a business consultant with Bloom Consulting, Inc. from July 2001 to December 2005. From January 1995 to June 2001, he was Vice President - Sales & Marketing with Charter Systems LLC, a software developer of business communications solutions for the telecommunications industry. He has held a number of sales, marketing and managerial positions in the business technology area with various companies, starting his career with IBM Corporation in 1967.

GLENDA B. GLOVER, 55, has been our director since May 2006. Dr. Glover is the Dean of the College of Business of Jackson State University, a position she has held since 1994. From 1990 to 1994, Dr. Glover was the Chairperson of the Department of Accounting and an Assistant Professor at Howard University. Prior to joining Howard University, from 1985 to 1990, she was the Chief Financial Officer and a Senior Vice President of Metters Industries, Inc. From 1979 to 1985, Dr. Glover was Project Manager of Tax Administration and Manager of Investor Relations at Potomac Electric Power Co. in Washington, DC. Since 1998, Dr. Glover has been a member of the Board of Directors of the Student Loan Corporation, a publicly traded subsidiary of Citibank. She is Chairman of the Board of Economic Analysis, Inc., a position she has held since 1998. She also serves on the Advisory Board for Regions Bank of Mississippi and has served as a Board Examiner for the American Institute of Certified Public Accountants. Dr. Glover earned her Ph.D. in business from George Washington University and her J.D. from Georgetown University Law Center.

CHARLES N. HAYSSSEN, 57, has been a director since March 2004. From August 2004 until August 2007, Mr. Hayssen was Chief Operating Officer of AllOver Media, Inc., an out-of-home media company. Mr. Hayssen was a private investor from April 2004 to August 2004, and Chief Financial Officer of ThinkEquity Partners LLC, an equity capital markets firm, from September 2002 to April 2004. Prior to September 2002, Mr. Hayssen was a private investor from November 2001 to September 2002, and Chief Financial Officer of Access Cash International L.L.C. from February 2000 to November 2001. Previously, Mr. Hayssen held a number of positions over a nineteen-year career with Piper Jaffray Companies Inc., including three years as Chief Information Officer, two years as Chief Operating Officer of Piper Capital Management and seven years as Chief Financial Officer.

STEWART M. KASEN, 68, has been a director since December 2000 and Chairman of the Board of the Company since January 2007. From April 2002 until May 2007 Mr. Kasen was President of S&K Famous Brands, Inc., a retailer of menswear. He was President of Schwarzschild Jewelers, a retail jewelry chain, from September 2001 to April 2002. From October 1999 until September 2001, Mr. Kasen was a consultant to the retail industry and a private investor. He was Chairman, President and Chief Executive Officer of Factory Card Outlet Corp., a specialty retailer, from May 1998 until October 1999. Mr. Kasen is a director of Markel Corp. and Retail Holdings N.V.

REATHA CLARK KING, 69, has been a director since May 2002. Dr. King was President and Executive Director of General Mills Foundation from November 1988 until May 2002, and served as Chairperson of the Foundation's Board of Trustees from May 2002 until June 2003. She performs consulting work in organizational governance and philanthropic programs. Currently, Dr. King is a Senior Advisor for the Council on Foundations in Washington, D.C. Prior to joining General Mills Foundation, Dr. King held a variety of scientific and educational positions. She currently serves as a director of the Exxon Mobil Corporation Board. She also served on the Wells Fargo & Company Board until she retired from this position in 2005.

DOLORES A. KUNDA, 52, has been our director since May 2006. Ms. Kunda is President and Chief Executive Officer of Lápiz Integrated Hispanic Marketing in Chicago, IL, a position she has held since 1999. From 1992 to 1999 she was employed at Leo Burnett USA where she held the position of Senior Vice President/Director Hispanic Marketing (from 1994 to 1999) and Vice President/Account Supervisor Hispanic (from 1992 to 1994). Ms. Kunda was an Account Director for Leo Burnett Mexico SA de CV, Mexico, DF from 1990 to 1992. Prior to that Ms. Kunda served as an account executive for Leo Burnett USA (1987 to 1990) and J. Walter Thompson (1986 to 1987). Ms. Kunda is a member of the Board of Directors of the American Advertising Federation's Mosaic Multicultural Committee and Casa Central in Chicago, IL. Ms. Kunda additionally serves on the Development Committee of the Chicago Metropolitan YWCA.

Edgar Filing: LENOX GROUP INC - Form 10-K

JOHN VINCENT (VIN) WEBER, 55, has been a director since February 1993. Mr. Weber served in the United States House of Representatives from 1981 to 1993, representing Minnesota's 2nd Congressional District. Since 1994, Mr. Weber has been a partner of Clark & Weinstock, Inc., a business government and public affairs consulting firm, which provides strategic advice on issues before the legislative and executive branches of the federal government. In 2007, he was named Chief Executive Officer of Clark & Weinstock. Mr. Weber is Chairman of the National Endowment for Democracy, a private, nonprofit organization created in 1983 to strengthen democratic institutions around the world through non-governmental efforts. He was co-director of the Domestic Policy Project of the Aspen Institute and currently serves as a full Trustee for the Institute. He also is a fellow at the Humphrey Institute at the University of Minnesota, where he is a co-director of the Policy Forum (formerly the Mondale Forum).

Executive Officers

Information regarding our executive officers is set forth under "Executive Officers of the Registrant" in Item 1 of this Annual Report on Form 10-K.

Compliance with Section 16(a) of the Exchange Act

Information required by this Item will be included in the 2008 Proxy Statement under the heading "Section 16(a) Beneficial Ownership Reporting Compliance," and such information is incorporated herein by reference.

Audit Committee Members and Audit Committee Financial Expert

Information required by this Item will be included in the 2008 Proxy Statement under the headings "Board and Committee Structure" and "Audit Committee" and such information is incorporated herein by reference.

Code of Ethics and Business Conduct

We have in place a Code of Ethics and Business Conduct that applies to our principal executive officer, principal financial officer, principal accounting officer, all officers, directors, and employees and all of our subsidiaries. The Code of Ethics and Business Conduct may be accessed free of charge by visiting our investor relations website at www.lenoxgroupinc.com by clicking on "Corporate Governance".

We intend to post on our website any amendment to, or waiver from, a provision of the Code of Ethics and Business Conduct that applies to our principal executive officer, principal financial officer, principal accounting officer, and other persons performing similar functions, in accordance with the rules of the Securities and Exchange Commission and the New York Stock Exchange.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of Lenox Group Inc. (the Company) is responsible for establishing and maintaining adequate internal control over financial reporting. The internal control system was designed to provide reasonable assurance to management and the board of directors regarding the reliability of financial reporting and preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 29, 2007. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control - Integrated Framework*.

Based on this assessment and those criteria, management believes the Company's internal control over financial reporting was effective as of December 29, 2007.

The Company's independent auditors have audited the Company's financial statements included in this report on Form 10-K and issued its attestation report on the effectiveness of the Company's internal control over financial reporting as of December 29, 2007. This report appears on the following page.

F-1

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

Lenox Group Inc.

Eden Prairie, MN

We have audited the accompanying consolidated balance sheets of Lenox Group Inc. and subsidiaries (the Company) as of December 29, 2007 and December 30, 2006, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 29, 2007. Our audits also included the financial statement schedule listed in the Index at Item 15. We also have audited the Company's internal control over financial reporting as of December 29, 2007, based on criteria established in Internal Control -- Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO Framework). The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit

Edgar Filing: LENOX GROUP INC - Form 10-K

of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

F-2

Table of Contents

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lenox Group Inc. and subsidiaries as of December 29, 2007 and December 30, 2006, and the results of their operations and their cash flows for each of the three years in the period ended December 29, 2007, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 29, 2007, based on the criteria established in Internal Control -- Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

As discussed in Note 1 to the consolidated financial statements, in 2007 the Company changed its method of accounting for income taxes to conform to FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109*.

LENOX GROUP INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except share and per share amounts, unless noted otherwise)

1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business Lenox Group Inc. and its subsidiaries (the Company) is a leading designer, distributor, wholesaler and retailer of fine quality tabletop, collectibles and other giftware products. The Company sells its product through gift, specialty retailers, department stores, and general merchandise chains, as well as through the Company's own retail stores and direct channels of distribution, including Internet, catalog and mail order. The Company markets its products principally under the *Lenox*, *Department 56*, *Dansk*, and *Gorham* brand names. The majority of the Company's products are developed and designed by the Company's in-house creative team and are manufactured for the Company by independently owned foreign manufacturers located primarily in the People's Republic of China. The

Edgar Filing: LENOX GROUP INC - Form 10-K

Company also owns and operates one domestic manufacturing facility that produces certain of its products. Approximately 2% of total revenue is derived from customers outside the United States and approximately 2% of long-lived assets are located outside the United States.

Principles of Consolidation The consolidated financial statements of the Company include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Effective September 1, 2005, the Company completed the acquisition of Lenox, Incorporated (Lenox). These financial statements and footnotes reflect the Lenox assets acquired, liabilities assumed, and results of operations of Lenox from the acquisition date of September 1, 2005. See Note 3.

Fiscal Year End The Company's policy is to end its fiscal year on the Saturday closest to December 31. The years ended December 31, 2005, December 30, 2006 and December 29, 2007 included 52 weeks.

Management Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents All highly liquid debt instruments with original maturities of three months or less are considered to be cash equivalents. These investments are carried at cost, which approximates market value.

Short-Term Investments The Company has historically held short-term investments consisting of Auction Rate Securities which represent funds available for current operations. In accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities* (SFAS No. 115), these short-term investments are classified as available-for-sale and are carried at cost, or par value, which approximates the fair market value. These securities have stated maturities beyond three months but are priced and traded as short-term instruments due to the liquidity provided through the interest rate mechanism of 28 to 49 days. The Company did not hold any Auction Rate Securities at the end of 2007 or 2006.

F-8

Table of Contents

Marketable Securities The Company classifies the marketable securities designated to fund its deferred compensation plan as trading securities under SFAS No. 115. In accordance with the provisions of this statement, the investment balance is stated at fair market value, based on quoted market prices. Realized and unrealized gains and losses are reflected in earnings. As the assets designated to fund the deferred compensation plan reflect amounts due to employees (but available for general creditors of the Company in the event the Company becomes insolvent), the Company has recorded the investment balance as a non-current asset and has established a corresponding other long-term liability entitled Deferred compensation obligation on the Consolidated Balance Sheets.

Allowance for Sales Returns and Credits The Company records an allowance for credits related to possible returned or damaged product, markdowns and pricing and shipping discrepancies. The allowance is based on historical ratios of credit to sales, the historical average length of time between the sale and the credit, and other factors.

Allowance for Doubtful Accounts The Company records an allowance for estimated uncollectible accounts receivable based on an evaluation of its accounts receivable balance. This evaluation includes a number of factors including the age of the receivable, the financial condition of the customer, the current business environment, and the historical collection experience for customers of similar background and nature.

Inventories Inventories consist of raw materials, work-in-process and finished goods and are stated at the lower of average cost, which approximates first-in, first-out cost, or net realizable value. For product sourced from independent manufacturers, the Company records inventory at the date of taking title, which typically occurs when product is delivered to a foreign port. As a result, at certain times during the year, the Company has significant in-transit quantities, as inventory is sourced primarily from the People's Republic of China and other Pacific Rim countries. Each period, the Company adjusts identified excess and slow-moving inventory to its net realizable value.

Property and Equipment Property and equipment are stated at cost. Depreciation is computed on a straight-line method over the estimated useful lives of the assets (or in the case of leasehold improvements, the shorter of the estimated useful lives or lease terms). Estimated useful lives of the Company's property and equipment are as follows:

Leasehold improvements

7-10 years

Edgar Filing: LENOX GROUP INC - Form 10-K

Furniture and fixtures	5-10 years
Computer hardware and software	2-5 years
Tooling	3-5 years
Other equipment	3-10 years
Building and improvements	20-45 years

Major improvements and replacements of property are capitalized. Maintenance, repairs, and minor improvements are expensed.

Long-Lived Assets The Company's principal long-lived assets are its property and equipment which consists of its corporate headquarter buildings, its manufacturing facility, and the computer equipment, furniture and fixtures, machinery, and leasehold improvements at its corporate headquarter buildings, distribution centers, showrooms and retail stores. The Company reviews its long-lived assets for impairment whenever facts or circumstances indicate that the carrying amount may not be recoverable.

Goodwill, Trademarks, and Other Intangible Assets Goodwill represents the excess of the cost of acquired businesses over the fair value of identifiable tangible net assets and identifiable intangible assets purchased. During 2006, the Company wrote off its remaining goodwill.

F-9

Table of Contents

The primary identifiable intangible assets of the Company include trademarks, customer relationships, favorable lease interests and non-compete agreements. Under the provisions of SFAS No. 142, *Goodwill and Other Intangible Assets*, identifiable intangibles with finite lives are amortized and those identifiable intangibles with indefinite lives are not amortized. Identifiable intangible assets that are subject to amortization are evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Identifiable intangible assets not subject to amortization are tested for impairment annually or more frequently if events warrant. The impairment test consists of a comparison of the fair value of the intangible asset with its carrying amount. During the fourth quarter of 2007, the Company completed its annual impairment test and determined that no intangible asset had been impaired.

Deferred Financing Fees The Company amortizes deferred financing fees over the life of the related debt agreement. Deferred financing fee amortization is included in interest expense in the Company's Consolidated Statements of Operations.

Revenue Recognition The Company sells its products through wholesale channels, through Company-owned retail stores and directly to consumers. Revenue from sales to wholesale customers and from sales direct to the consumer is recognized when product is shipped, while revenue from sales of merchandise to retail customers is recognized at the time of sale. The Company believes that these are the times when persuasive evidence of an arrangement exists, delivery has occurred, the Company's price is fixed and collectibility is reasonably assured. Revenue is recognized net of any applicable discounts and allowances. Customers, whether wholesale, retail or direct, do have the right to return product in certain limited situations. Such rights of return have not precluded revenue recognition because the Company has a long history with such returns on which it constructs a reserve.

Cost of Sales The Company's cost of sales principally includes the cost of product purchased from manufacturers, cost of manufactured product, inbound and outbound freight costs, duties, royalties, and provisions for excess and obsolete product.

Selling, General and Administrative Expense The Company's selling, general and administrative expenses principally consist of expenses associated with the Company's wholesale sales force and retail stores; costs to develop new product, product samples and sculpting costs, costs to purchase, receive, inspect and warehouse certain product; corporate compensation and benefit expense; facilities expense; bad debt expense; marketing and advertising expense; and other general and administrative expenses.

Advertising Expense The Company records advertising expense in accordance with *Statement of Position No. 93-7 Reporting on Advertising Costs*. Advertising expense is principally expensed when incurred. Certain direct response advertising costs are capitalized and amortized over periods not exceeding one year. Capitalized direct response advertising costs included on the Company's Consolidated Balance Sheets in other current assets for December 29, 2007 and December 30, 2006 were \$2,286 and \$2,756, respectively. Advertising expense (including amortization of direct response advertising costs and Payments to Customers described below) for 2007, 2006, and 2005 was \$44,979, \$43,840, and \$19,561, respectively. The significant increase in advertising expense for 2006 compared to 2005 was due to the acquisition of Lenox in 2005. The 2006 expense amount included twelve months of the Lenox business compared to four months in 2005. These amounts are included in selling, general and administrative expense within the Company's Consolidated Statements of Operations.

Payments to Customers The Company reimburses certain customers for cooperative advertising based on pre-negotiated amounts or up to a pre-determined percentage of the amount of product shipped to the customer. Cooperative advertising costs under these programs are

Edgar Filing: LENOX GROUP INC - Form 10-K

expensed when product is shipped to the customer. Cooperative advertising expense for 2007, 2006, and 2005 was \$8,722, \$9,939, and \$4,711, respectively.

Product Development Expense The Company's product development costs consist principally of salaries for internal creative talent, costs incurred in developing product samples, and royalties paid to outside artists. The Company expenses, as incurred, the salaries of creative talent and the cost to develop product samples and records these amounts in selling, general and administrative expense. The Company capitalizes into inventory the cost of royalties paid to outside artists and records it in cost of sales as the product is sold.

F-10

Table of Contents

Freight Expense Freight expenses for products shipped to customers (freight-out) are included in the cost of products sold, in accordance with Emerging Issues Task Force Issue No. 00-10, *Accounting for Shipping and Handling Fees and Costs*.

Pre-Opening Costs Non-capital expenditures associated with opening new Company-operated retail stores are expensed as incurred.

Income Taxes Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year-end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income.

Foreign Currency Exchange Rate Gains and Losses The Company imports most of its products and, while the majority of these purchases are denominated in United States dollars, some of the purchases are denominated in foreign currency. In addition, the Company's sales to Canadian customers are denominated in Canadian dollars. Foreign exchange rate gains and losses are included in selling, general and administrative expenses within the accompanying Consolidated Statements of Operations. The Company recognized a gain of \$56 in 2007, a loss of \$171 in 2006 and a gain of \$181 in 2005. These gains and losses principally resulted from the depreciation/appreciation of the Canadian dollar relative to the United States dollar. The Company may periodically enter into foreign exchange contracts or build foreign currency deposits as a partial hedge against currency fluctuations. The Company has not entered into any foreign exchange contracts during 2007, 2006 or 2005.

Pension and Postretirement Benefits The Company sponsors various defined benefit pension plans as well as postretirement plans providing retiree health care and retiree life insurance benefits. Benefits are based on such factors as years of service and compensation level during employment. The benefits expected to be paid are expensed over the employee's expected service. To determine the expected benefits to be paid, the Company has to make assumptions regarding interest rates, return on plan assets and expected health care trend rates. Actual experience different from these assumptions could result in materially different benefit payments.

Environmental Matters In accordance with Statements of Position (SOP) 96-1, *Environmental Remediation Liabilities*, the Company measures its environmental liabilities on a discounted basis as the Company believes the amount and timing of cash payments for its liabilities are reliably determinable. Accruals for environmental liabilities are included in other noncurrent liabilities in the Consolidated Balance Sheets. See Note 18.

Stock-based compensation Effective January 1, 2006, the Company adopted SFAS No. 123R (revised 2004), *Share-Based Payment* (SFAS 123R), which revised SFAS No. 123, *Accounting for Stock-Based Compensation* (SFAS 123), and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25). This standard requires compensation costs related to share-based payment transactions to be recognized in the financial statements. The Company adopted the standard using the modified prospective transition method, which requires the application of the accounting standard to all share-based awards issued on or after the date of adoption and any outstanding share-based awards that were issued but not vested as of the date of adoption. See Note 14.

Fair Value of Financial Instruments The Company's financial instruments are cash, short-term investments, marketable securities, accounts receivable, accounts payable, borrowings on revolving credit facility and long-term debt. The recorded amounts of cash, marketable securities, accounts receivable, accounts payable and borrowings on the revolving credit facility approximate their fair value based on their short term nature. The recorded value of long term-debt approximates its fair market value as the Company's interest rates are variable and approximate market rates.

F-11

Table of Contents

Derivatives In July 2007, the Company entered into an interest rate collar agreement with a notional amount of \$50 million to mitigate some of the Company's variable interest rate risk. Under the terms of the agreement, the Company receives a positive net settlement from

Edgar Filing: LENOX GROUP INC - Form 10-K

the counterparty if the LIBOR rate (as defined) is greater than 6.5% on the settlement dates (as defined). If the LIBOR rate (as defined) is less than 4.32% on the settlement dates (as defined), the Company would be required to make a payment to the counterparty. The agreement does not qualify for hedge accounting under SFAS No. 133, *Accounting for Derivative Instruments and Hedge Activities*, as amended. As a result, all changes in fair value that have not been settled are recognized in current earnings.

Net Income (Loss) per Common Share Net income (loss) per common share is calculated by dividing net income (loss) by the weighted average number of shares outstanding during the period. Net income (loss) per common share assuming dilution reflects per share amounts that would have resulted had the Company's dilutive outstanding stock options been converted to common stock. Restricted stock is considered outstanding on the date the stock becomes vested when computing net income (loss) per common share basic. Restricted stock, to the extent it is probable that the stock will become vested, is considered outstanding on the grant date when computing net income (loss) per common share assuming dilution. For the 52 weeks ended December 29, 2007 and December 30, 2006 all options and unvested restricted stock were considered anti-dilutive and excluded from the computation of common equivalent shares because the Company reported a net loss. See Note 17.

Recently Adopted and Issued Accounting Standards

Recently Adopted Accounting Standard - The Company adopted Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) at the beginning of fiscal year 2007. FIN 48 prescribes a recognition threshold that a tax position is required to meet before being recognized in the financial statements and provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition issues. As a result of the implementation of FIN 48, the Company recognized a \$1,475 increase to the liabilities for unrecognized tax benefits, an increase of \$1,448 to deferred tax assets and a decrease of \$27 to retained earnings in the first quarter of 2007.

Recently Issued Accounting Standards - In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157) to establish a consistent framework for measuring fair value and expand disclosures on fair value measurements. The provisions of SFAS 157 are effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the effect that the adoption of SFAS 157 will have on its consolidated results of operations and financial condition.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS No. 159 permits an entity, on a contract-by-contract basis, to make an irrevocable election to account for certain types of financial instruments and warranty and insurance contracts at fair value, rather than historical cost, with changes in the fair value, whether realized or unrealized, recognized in earnings. SFAS No. 159 is effective for the Company in the first quarter of fiscal 2009. The Company is currently assessing the impact that SFAS No. 159 will have on its results of operations, financial position, or cash flows.

In December 2007, the FASB issued Statement No. 141(R), *Business Combinations* (SFAS 141R). SFAS 141(R) established the principles and requirements for how the acquirer recognizes and measures in the financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. SFAS 141(R) also recognizes and measures the goodwill acquired in the business combination or the gains from bargain purchases. SFAS No. 141R is effective for the Company in the first quarter of fiscal 2010. The Company is currently assessing the impact that SFAS No. 141R will have on its results of operations, financial position, or cash flows.

2. DISCONTINUED OPERATIONS

In October 2005, the Company committed to a plan to cease operations of its Time to Celebrate business. Time to Celebrate ceased operations in December 2005, and in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS No. 144), the Company has reclassified Time to Celebrate's results into discontinued operations for all periods presented. Prior to being classified as discontinued operations, Time to Celebrate's operating results had been presented in the retail reportable segment.

As a result of the decision to cease Time to Celebrate's operations, in 2005 the Company recognized a \$594 charge within cost of sales to write-down inventory to its net realizable value.

The results from Time to Celebrate's operations were as follows:

2005

Edgar Filing: LENOX GROUP INC - Form 10-K

	Dollars	Percent of Net Sales
Net sales	\$ 2,038	100%
Gross profit	(215)	(11)
Selling, general and administrative expenses	3,054	150
Loss from operations	(3,269)	(160)
Other expense	140	7
Loss before income taxes	(3,409)	(167)
Income tax benefit	1,227	60
Net loss	\$ (2,182)	(107)%

3. ACQUISITION

Lenox Acquisition

Effective September 1, 2005, the Company completed the acquisition of all of the capital stock of Lenox, Incorporated (Lenox) from Brown-Forman Corporation (the Acquisition) for \$204,036, which included transaction costs of \$7,559. The Acquisition added strong, market-leading brands and complementary product lines and distribution channels to the Company's portfolio including products sold under the *Lenox*, *Dansk* and *Gorham* brand names.

Goodwill recorded as part of the initial purchase price allocation was \$16,695 at December 31, 2005. During the first eight months of 2006, finalization of the purchase price allocation resulted in adjustments of \$1,500, which increased this amount to \$18,195. The \$1,500 increase in goodwill was primarily due to further adjustments of preliminary valuations of the acquired tangible assets and assumed liabilities. In the fourth quarter of 2006, the Company recognized a goodwill impairment charge of \$18,195 as a result of lower than projected sales and profits from the Lenox wholesale reporting unit as compared to that which was originally projected at the date of the Acquisition.

Willitts Acquisition

Effective May 1, 2006, the Company completed its acquisition of certain assets and the assumption of certain liabilities of Willitts, a California-based designer and wholesaler of collectible and home décor products. The acquisition of the Willitts product lines, which include Thomas Blackshear's *Ebony Visions* and *Possible Dreams*, added a broad range of diversity and contemporary expression to the Company's product portfolio. The cash purchase price, which was based primarily upon the historical cost of the assets acquired less the obligations assumed as of the closing date, was \$2,849. The results of operations from the acquired net assets since the acquisition date have been included in the Company's consolidated financial statements and are not considered material.

F-13

Table of Contents

Of the \$2,849 cash purchase price, \$1,211 was allocated to indefinite-lived trademarks and the remaining \$1,638 was allocated to tangible assets purchased net of assumed liabilities. During 2007, finalization of the purchase price allocation resulted in an additional increase of \$127 to indefinite-lived trademarks and a decrease of \$127 to tangible assets. During 2007, the Company also paid or accrued an additional \$1,373 in earnout payments to Willitts for achieving certain performance thresholds. These earnout payments resulted in an increase in indefinite-lived trademarks of \$1,022 and an increase in other assets of \$351. The Company may be required to make additional earnout payments contingent on performance in 2008 and 2009.

4. INVENTORIES

Inventories from continuing operations were comprised of:

Edgar Filing: LENOX GROUP INC - Form 10-K

	December 29, 2007	December 30, 2006
Raw materials	\$ 2,655	\$ 3,925
Work-in-process	3,925	4,793
Finished goods	77,835	93,207
Total inventories	\$ 84,415	\$ 101,925

Certain of the Company's flatware and giftware manufacturing processes utilized fine silver as its principal raw material. The Company had a precious metals consignment arrangement with a major financial institution whereby the Company had the ability to obtain up to \$9,000 in consigned inventory to use in the manufacture of such products. As required by the terms of the consignment agreement, the Company did not take title to consigned inventory until product was sold. Accordingly, the Company did not include the value of consigned inventory or the corresponding liability in the financial statements. The value of consigned inventory as of December 29, 2007, December 30, 2006 and December 31, 2005 was \$0, \$5,604 and \$3,842, respectively. Additionally, the Company expensed consignment fees related to this agreement of \$580, \$309 and \$93 for the 52 weeks ended December 29, 2007, December 30, 2006 and December 31, 2005, respectively.

The Company received notice from the financial institution with which it had its precious metals consignment arrangement that such institution was terminating, and did terminate, the consignment facility, effective May 16, 2007. The Company purchased the remaining outstanding silver balance at a cost of \$4,617 on May 16, 2007. During July 2007 the Company sold its sterling silver product line and its entire related sterling silver inventory. See Note 6 to the Condensed Consolidated Financial Statements.

5. PROPERTY AND EQUIPMENT

Property and equipment at December 29, 2007 and December 30, 2006 is comprised of the following:

	2007	2006
Land	\$ 1,666	\$ 1,666
Leasehold improvements	13,352	13,123
Furniture and fixtures	9,385	9,810
Computer hardware and software	21,450	19,647
Tooling	1,852	1,391
Other equipment	21,998	23,068
Building and improvements	14,126	14,061
Construction in process	3,342	1,859
	87,171	84,625
Less accumulated depreciation	45,184	35,154
Property and equipment, net	\$ 41,987	\$ 49,471

F-14

Table of Contents

The Company had accrued property and equipment purchases at December 29, 2007 and December 30, 2006 of \$615 and \$1,203, respectively.

6. ASSETS SOLD

Edgar Filing: LENOX GROUP INC - Form 10-K

In the second quarter of 2006, the Company sold its Langhorne, PA facility for \$9,899, net of closing costs. As these assets, including land and building, were recently purchased as part of the acquisition of Lenox, no gain or loss was recognized. In the fourth quarter of 2006, the Company sold its Pomona facility for \$6,572, net of closing costs and recognized a \$1,085 gain. The Company has leased back a portion of the Langhorne, PA facility for office, warehousing, distribution and retail space. The term of the original lease was through June, 2008. On July 31, 2007, the Company extended the term of the original lease through June 30, 2013 and leased additional square footage of warehousing space. The Company has also leased back square footage at the Pomona facility to continue various operations which include a retail lease (term of the lease is through December 2011), space for the manufacturing of sterling silver products (term of the lease was through December 2007), space for its technical center (term of the lease was through June 2007) and space for customer service offices (term of the lease is through June 2008). These leasebacks are considered minor as defined by SFAS No. 28, *Accounting for Sales with Leasebacks* (SFAS No 28).

In the fourth quarter of 2006, the Company sold its Hagerstown, MD facility for net proceeds of \$26,267, net of closing costs. The Company has leased back space for its distribution center for a non-terminable primary term of 15 years. The Company will also be responsible for all operating expenses including taxes and insurance on the property and the cost of services, repairs, maintenance and replacements to the property. The Company recognized a gain of \$4,120 on the sale of the facility. \$275 of this deferred gain was recorded in other current liabilities and \$3,845 was recorded in deferred gain on sale-leaseback in noncurrent liabilities on the Consolidated Balance Sheets. In accordance with SFAS No. 13, *Accounting for Leases*, and SFAS No. 28, the Company has deferred this gain and will recognize it over the period of the leaseback.

On July 19, 2007, the Company entered into an Asset Purchase Agreement (the *Sale Agreement*) with Lifetime Brands, Inc. (*Lifetime*) for the sale of certain assets of the Company's sterling silver flatware and sterling silver giftware business conducted primarily under the *Gorham* and *Kirk Stieff* brand names. Simultaneously with the execution of the Sale Agreement by the parties, the Company closed on this transaction.

The purchase price paid by Lifetime was \$8,775, subject to a post closing adjustment based on the price and quantity of silver transferred at closing. At closing, the Company received an initial payment of \$8,525 and \$250 was transferred to an escrow account for a six-month period ended January 2008. On August 2, 2007, the parties agreed to a price adjustment reduction of \$255 based on the quantity of silver actually transferred at closing and the price of silver. Accordingly, the net purchase price was \$8,520. The Company transferred title to sterling silver finished goods inventory, work in process, raw materials, samples, selective pieces of machinery and equipment, books and records and pattern trademarks and copyrights associated with sterling silver products.

In addition, the Company granted a long-term exclusive license to Lifetime to utilize the *Gorham*, *Kirk Stieff*, *Whiting* and *Durgin* brands on and in connection with sterling silver products. The Company has retained all rights to utilize these brands on non-sterling silver products.

The Company recorded a pre-tax gain of \$437 which is included in Operating Expenses on the Condensed Consolidated Statement of Operations. The Company has ceased its sterling silver operations at its leased space in Pomona, NJ and surrendered its space to its landlord in January, 2008.
