ASUR 1Q05, Page 1 of 13**Passenger Traffic**

For the first quarter of 2005, total passenger traffic increased year-over-year by 11.55%; domestic passenger traffic increased by 4.42%; and international passenger traffic increased by 15.00% .

The 4.42% growth in domestic passenger traffic mainly reflects the 4.13% increase in traffic at the Cancun airport.

The 15.00% increase in international passenger traffic resulted mainly from a 13.64% and 21.19% growth in traffic at the Cancun and Cozumel airports, respectively.

Consolidated Results for 1Q05

Total revenues for 1Q05 increased year-over-year by 22.11% to Ps.590.4 million. This was mainly due to:

- An increase of 15.03% in revenues from aeronautical services, principally as a result of the above-mentioned increase in passenger traffic, and
- An increase of 47.25% in revenues from non-aeronautical services, principally as result of the 57.17% increase in commercial revenues.

ASUR classifies revenues from the following activities as **commercial revenues**: duty free, car rental, retail, banking and currency exchange, advertising, teleservices, non-permanent ground transportation, food and beverage and parking lots.

Commercial revenues improved year-over-year by 57.17%, mainly due to:

- A 30.15% increase in duty-free revenues, primarily as a result of the growth in international passenger traffic and improved product mix.
- An increase of 75.12% in food and beverage revenues, primarily resulting from higher passenger traffic and revenues from ASUR's direct operation of a restaurant and a snack bar at the Cancun airport, which were taken over from a former concession holder in May 2004. Results also reflect higher revenues from the direct commercial operation of a restaurant at the Merida airport, which was taken over from a former concession holder in February 15, 2005, as a result of the

Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

early termination of the concession by the former concession holder, ASUR was not required to disburse any.

- A 247.86% increase in retail revenues, mainly as a result of growth in international passenger traffic during the quarter, revenues from the

direct operation of three convenience stores, at the Cancun airport, previously operated by a former concessionaire and the new store openings listed below:

Airport	Name	Month Opened

Cancun	Sunglass Island	August 2004
Cancun	Cinco Soles	March 2004

Villahermosa	Airport Free Shop	March 2005

- A 10.24% rise in advertising revenues, as a result of the increase in the minimum fee paid by the Company's main advertising operator.
- A 38.02% increase in revenue in parking lots due to a tariff adjustment and an increase in the passenger traffic.

Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

During 2004, the Company initiated an arbitration process with one of the duty free concessionaires (Dufry Mexico S.A. de C.V.) that operates in the Cancun airport. The dispute relates to the amount paid in rent by this concessionaire for the units it occupies in Terminal 1 of this airport. Arbitration proceedings are at an advanced stage, and a final decision is expected during the second quarter of 2005.

Total operating costs and expenses for 1Q05 increased year-over-year by 16.12% primarily as a result of:

- A 32.16% increase in costs of services mainly as a result of the costs related to ASUR's direct commercial operation of a restaurant, a snack bar and three convenience stores previously operated by a former concessionaire, an increase in maintenance expenses as well as higher payroll resulting from the reallocation of certain functions from ASUR's corporate headquarters to the airport level, principally at Cancun.
- A 21.89% increase in the cost of technical assistance, principally due to the increase in EBITDA for the quarter (a basis for the calculation of the fee).

ASUR 1Q05, Page 4 of 13

- A 22.08% increase in concession fees mainly due to higher revenues.
- An 5.46% increase in depreciation and amortization, resulting from the capitalization of investments in fixed assets, improvements made to concession assets and ASUR's direct commercial operation of two restaurants, a snack bar and three convenience stores previously operated by former concessionaires.
- The increase in costs was partially offset by an 8.27% decline in administrative expenses reflecting the reorganization in February 2004 of certain functions from the corporate to the airport level.

Operating margin for 4Q04 improved to 47.96% from 45.27% in the first quarter of last year. This was mainly driven by the 22.11% increase in revenues, primarily the result of the 15.03% growth in aeronautical revenues, which more than offset the 16.12% increase in costs and expenses for the quarter.

Mexican companies are generally required to pay the greater of their income tax liability or their asset tax liability (determined at a rate of 1.8% of the average tax value of virtually all of the company's assets (including, in ASUR's case, its concessions), less the average tax value of certain liabilities (essentially liabilities of companies resident in Mexico, excluding those related to financial institutions and their intermediaries)). ASUR made asset tax payments of Ps.39.8 million for 1Q05. Of these payments, Ps.9.9 million was recorded as an expense in the results for the quarter, which net of the Ps.4.3 million tax credit from the adjustment of 2004 taxes resulted in a net amount of Ps.5.6 million. The difference was recorded as an asset, since the Company expects to recover Ps.29.9 million as a credit against future income tax payments.

Net income for 1Q05 was Ps.215.93 million, a year-over-year increase of 56.55% . Earnings per common share for the quarter were Ps.0.7198, or earnings per ADS (EPADS) (one ADS represents ten series B common shares) of US\$0.6439. This compares with Ps. 0.4598, or EPADS of US\$0.4113, for the same period last year.
