EBITDA means net income before: provision for taxes, deferred taxes, profit sharing, non-ordinary items, participation in the results of associates, comprehensive financing cost and depreciation and amortization. EBITDA should not be considered as an alternative to net income, as an indicator of our operating performance or as an alternative to cash flow as an indicator of liquidity. Our management believes that EBITDA provides a useful measure that is widely used by investors and analysts to evaluate our performance and compare it with other companies. EBITDA is not defined under U.S. GAAP or IFRS and may be calculated differently by different companies.

#### Consolidated Results for 1Q15

**Total revenues** for 1Q15 increased year-over-year by 29.89% to Ps.1,796.60 million. This was mainly due to increases of:

- 17.02% in revenues from aeronautical services, mainly as a result of the 12.35% increase in passenger traffic;

- 18.83% in revenues from non-aeronautical services, principally reflecting the 19.08% increase in commercial revenues detailed below.

- 815.70% in revenues from construction services that resulted from higher capital expenditures and other investments in concessioned assets during the period.

ASUR classifies commercial revenues as those derived from the following activities: duty-free stores, car rentals, retail operations, banking and currency exchange services, advertising, teleservices, non-permanent ground transportation, food and beverage, and parking lot fees.

**Commercial revenues** increased by 19.08% year-over-year during 1Q15, mainly driven by the 12.35% increase in total passenger traffic. There were increases in revenues from the following activities:

- . 22.05% in retail operations;
- . 8.77% in duty free;
- . 24.85% in food and beverage;

Note: For purposes of this table, approximately 48,900 and 57,500 transit and general aviation passengers are included in 1Q14 and 1Q15, respectively.

(1) Revenues from direct commercial operations represent ASUR's operation of convenience stores in airports and the direct sale of advertising space.

ASUR 1Q15, Page 5 of 15

**Construction revenues and expenses.** ASUR is required by IFRIC 12 to include in its income statement an income line reflecting the income from construction or improvements to concessioned assets made during the relevant period. During 1Q15, ASUR recognized Ps.193.33 million in revenues from “Construction Services,” a 815.70% year-on-year increase reflecting higher capital expenditures in concessioned assets. The same amount is recognized under the expense line “Construction Costs” because ASUR hires third parties to provide construction services.

Because equal amounts of Construction Revenues and Construction Expenses have been included in ASUR's income statement as a result of the application of IFRIC 12, this does not have an impact on EBITDA, but it does have an impact on EBITDA margin, as the increase in revenues that results from an increase in construction services revenues is matched with a corresponding increase in construction costs.

**Total operating costs and expenses** for 1Q15 rose 41.08% year-over-year, primarily due to the following increases:

815.70% in construction costs, reflecting higher levels of capital improvements made to concessioned assets during the period;

31.58% in administrative expenses, principally reflecting social security contributions, as well as lower professional fees in 1Q14 resulting from the reversal of the expense provision in connection with the Master Development Plan.

18.80% in concession fees paid to the Mexican government, mainly due to an increase in regulated revenues (a factor in the calculation of the fee); and

20.18% in the technical assistance fee paid to ITA, reflecting the increase in EBITDA for the quarter (a factor in the calculation of the fee);

5.77% in cost of services, mainly due to higher maintenance expenses as well as the increase in cost of sales derived from the opening of another convenience store in Cancun airport directly operated by ASUR.

2.38% in depreciation and amortization, resulting mainly from capitalized investments.

**Table V: Operating Costs and Expenses for 1Q15**

	<b>1Q14</b>	<b>1Q15</b>	<b>% Change</b>
Cost of Services	260,137	275,150	5.77
Construction Costs	21,113	193,332	815.70

Concession Fees	61,739	73,344	18.80
Depreciation and Amortization	113,035	115,725	2.38
<b>TOTAL</b>	<b>545,142</b>	<b>769,105</b>	<b>41.08</b>

**Operating margin** for the quarter declined to 57.19% from 60.59% in 1Q14, as the 29.82% rise in revenues was more than offset by the 41.08% increase in expenses during the period.

**Comprehensive Financing Gain (Loss)** for 1Q15 was a Ps.18.48 million loss, compared to a Ps.2.50 million gain in 1Q14. This was mainly the result of a Ps.35.18 million foreign exchange loss in 1Q15 due to the 3.55% depreciation of the Mexican peso against the U.S. dollar on ASUR's foreign currency net liability position as compared to an appreciation of 0.23% in 1Q14 that resulted in a Ps.0.40 million loss.

In addition, in 1Q15 ASUR recorded a Ps.58.08 million gain in stockholders' equity resulting from the translation effect of Aerostar's financial statements (which are denominated in U.S. dollars), in connection with the valuation of the stockholders' equity derived from the depreciation of the peso against the U.S. dollar.

**Table VI: Comprehensive Financing Result (Cost)**

	<b>1Q14</b>	<b>1Q15</b>	<b>Change</b>	<b>% Change</b>
Interest income	22,382	37,168	14,786	66.06

<b>Total</b>	<b>2,498</b>	<b>(18,484)</b>	<b>(20,982)</b>	<b>(839.95)</b>

**Income (Loss) from Equity Investment in Joint Venture.**

During 1Q15, our equity in the income of Aerostar, our joint venture with Highstar Capital IV and its affiliated funds, was a net gain of Ps.32.53 million. In addition, ASUR recorded a Ps.58.08 million gain in stockholders' equity resulting from the translation effect of Aerostar's financial statements (which are denominated in U.S. dollars), in connection with the valuation of the shareholders' equity derived from the depreciation of the peso against the U.S. dollar in 1Q15. In 1Q14, ASUR reported a net gain of Ps.10.55 million from our equity in the income of Aerostar and a Ps.3.26 million loss in stockholders' equity resulting from the translation effect of Aerostar's financial statements in connection with the valuation of the shareholders' equity derived from the appreciation of the peso against the U.S. dollar.

ASUR 1Q15, Page 7 of 15

During 1Q15, total passenger traffic at SJU airport increased 1.00% to 2,179,396 from 2,159,166 in 1Q14.

### **Income Taxes.**

On January 1, 2014, a comprehensive Income Tax Law reform package entered into effect, repealing the IETU tax and causing the cancellation of deferred IETU. As a result, ASUR completed a financial valuation of its subsidiaries that were subject to this tax and now must recognize a deferred income tax.

Income taxes for 1Q15 increased by Ps.80.61 million year-over-year, principally due to the following factors:

- A Ps.83.85 million increase in the provision for income taxes, reflecting a higher taxable income base at the Veracruz and Cancun airports.

- A Ps.2.19 million decline in deferred income taxes reflecting the recognition of the effects of inflation in the fiscal tax balance.

**Net income** for 1Q15 increased by 17.32% to Ps.744.26 million from Ps.634.38 million in 1Q14. Earnings per common share for the quarter were Ps.2.4809, or earnings per ADS (EPADS) of US\$1.6252 (one ADS represents ten series B common shares). This compares with earnings per share of Ps. 2.1146, or EPADS of US\$1.3853, for the same period last year. This reflects the 12.35% increase in passenger traffic as well as a gain of Ps.32.52 million in 1Q15 corresponding to ASUR's participation in Aerostar, the joint venture to operate SJU airport, compared to a gain of Ps.10.55 million reported in the same period in 2014.

### **Tariff Regulation**

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities by setting maximum rates, which represent the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for 1Q15 were Ps.1,242.93 million, resulting in an annual average tariff per workload unit of Ps.184.10. ASUR's regulated revenues accounted for approximately 69.18% of total income for the period.

The Mexican Ministry of Communications and Transportation reviews compliance with the maximum rates on an annual basis at the close of each year.
