BRAVO! FOODS INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2005
(UNAUDITED)

Note 1 -Interim Periods

The accompanying unaudited consolidated financial statements include the accounts of Bravo! Foods International Corp. and its wholly owned subsidiary Bravo! Brands (UK) Ltd. (collectively the "Company"). The Company is engaged in the sale of flavored milk products and flavor ingredients in the United States, the United Kingdom and various countries in the Middle East and is establishing infrastructures to conduct business in Canada.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10QSB and Article 10 of Regulation S-X. Accordingly, the accompanying financial statements do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. All significant inter-company accounts and transactions have been eliminated in consolidation. The consolidated financial statements are

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

presented in U.S. dollars. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the period ended September 30, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report for the year ended December 31, 2004.

As shown in the accompanying consolidated financial statements, the Company has suffered operating losses and negative cash flow from operations since inception and has an accumulated deficit of \$41,485,671, negative working capital of \$4,105,854 and is delinquent on certain of its debts at September 30, 2005. Further, the Company's auditors stated in their report on the Company's Consolidated Financial Statements for the year ended December 31, 2004, that these conditions raise substantial doubt about the Company's ability to continue as a going concern. Management plans to increase gross profit margins in its U.S. business, grow its international business, obtain additional financing and launch one new product line in the fourth quarter of 2005. While there is no assurance that funding will be available or that the Company will be able to improve its profit margins, the Company is continuing to actively seek equity and/or debt financing and, in January 2005, obtained financing of \$2,350,000, with \$1,950,000 invested in the six months ending June 30, 2005 and the balance invested in August 2005.

On July 13, 2005, Coca-Cola Enterprises Inc. (CCE) acquired options to purchase shares of common stock, convertible securities and warrants, entitling Coca-Cola Enterprises to purchase approximately 69,000,000 shares of common stock from 9 non-affiliated shareholders of the Company (the "Options"), representing approximately 23% of the authorized shares of the Company's common stock. Coca-Cola Enterprises and the Company contemporaneously commenced negotiations regarding a stock purchase agreement for the direct sale of approximately 81 million shares of the Company's common stock to Coca-Cola Enterprises. The consummation of the direct sale and the exercise of the Options by Coca-Cola Enterprises would have resulted in

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Coca-Cola Enterprises holding slightly in excess of 50% of the Company's equity on a fully diluted basis. These transactions were contingent upon the execution of a Master Distribution Agreement between the Company and Coca-Cola Enterprises. On July 29, 2005, the Company and Coca-Cola Enterprises entered into a Letter of Intent memorializing and confirming their intention to enter into the stock purchase agreement.

Subsequent to the execution of the Letter of Intent, in lieu of the exercise of the Options and the stock purchase agreement, the parties agreed to enter into the Master Distribution Agreement with the attendant grant of three year warrants by the Company to Coca-Cola Enterprises for the right to purchase 30 million shares of the Company's common stock at an exercise price of \$0.36 per share. On August 31, 2005, the Company issued the warrants to Coca-Cola Enterprises, and the parties executed a ten year exclusive Master Distribution Agreement that will significantly expand the distribution and sales of the Company's products. The Company presently is

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

seeking from \$10 - \$15 million in new financing to promote the expanded sales anticipated with the implementation of the Master Distribution Agreement and for general working capital.

The Company recorded a \$3,000,000 one time, non-recurring finder's fee payable to a third party in connection with the execution of the Master Distribution Agreement with Coca-Cola Enterprises, Inc. in the quarter ending September 30, 2005. In addition, the Company recorded \$99,168, pro-rata, of an \$11,900,000 net charge in deferred distribution costs for the issuance of a three year warrant to Coca-Cola Enterprises to purchase of 30,000,000 shares of our common stock in connection with the execution of the Master Distribution Agreement. The Company will recognize that cost as a selling expense over the 10-year term of the Master Distribution Agreement.

No assurances can be given that the Company will be successful in carrying out its plans. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Revenue Recognition

The Company recognizes revenue in the United States at the gross amount of its invoices for the sale of finished product to wholesale buyers. Commencing with the first quarter 2004, the Company no longer uses the sale of "kits" as a revenue event in the United States. Rather, the Company takes title to its branded flavored milks when they are shipped by the Company's third party processors and recognize as revenue the gross wholesale price charged to the Company's wholesale customers. Expenses for slotting fees and certain promotions are treated as a reduction of reported revenue. The Company determines gross margin by deducting from the reported wholesale price the cost charged by the Company's third party processors to produce the branded milk products. The sale of "kits" will remain as the revenue model for the Company's international business, with the exception of the United Kingdom and Canada, where the domestic business model will be implemented.

The Company recognizes revenue for its international business at the gross amount of its invoices for the sale of flavor ingredients and production rights (collectively referred to as "kits") at the time of shipment of flavor ingredients to processor dairies with whom the Company has production contracts for extended shelf life and aseptic long life milk. The Company recognizes revenue based upon its role as the principal in these transactions, its discretion in establishing kit prices (including the price of flavor ingredients and production rights fees), its development and refinement of flavors and flavor modifications, its discretion in supplier selection and its credit risk to pay for ingredients if processors do not pay ingredient suppliers. The revenue generated by the production contracts under this model is allocated for the processors' purchase of flavor

(UNAUDITED)

ingredients and fees charged by the Company to the processors for production rights. The Company formulates the price of production rights to cover its royalties under intellectual property licenses, which varies

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

by licensor as a percentage of the total cost of a kit sold to the processor dairy under the production agreement. The Company recognizes revenue on the gross amount of "kit" invoices to the dairy processors and simultaneously records as cost of goods sold the cost of flavor ingredients paid by the processor dairies to ingredients suppliers. The recognition of revenue generated from the sale of production rights associated with the flavor ingredients is complete upon shipment of the ingredients to the processor, given the short utilization cycle of the ingredients shipped. The criteria to meet this guideline are: 1) persuasive evidence that an arrangement exists, 2) delivery has occurred or services have been rendered, 3) the price to the buyer is fixed or determinable and 4) collectibility is reasonably assured.

The Company follows the final consensus reached by the Emerging Issues Task Force (EITF) 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent". In certain circumstances in its U.S. business, the Company is required to pay slotting fees, give promotional discounts or make marketing allowances in order to secure wholesale customers. These payments, discounts and allowances reduce the Company's reported revenue in accordance with the guidelines set forth in EITF 01-9 and SEC Staff Accounting Bulletin No. 104. Pursuant to EITF 99-19, international sales of kits made directly to customers by the Company are reflected in the statements of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue.

Stock-based Compensation

The Company has adopted the intrinsic value method of accounting for employee stock options as permitted by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-based Compensation" (SFAS No. 123) and discloses the pro forma effect on net loss and loss per share as if the fair value based method had been applied. For equity instruments, including stock options issued to non-employees, the fair value of the equity instruments or the fair value of the consideration received, whichever is more readily determinable, is used to determine the value of services or goods received and the corresponding charge to operations.

On April 6, 2005, the Company's Board of Directors voted to adopt a Stock Incentive Plan for the issuance of incentive options for up to 10,397,745 shares of the Company's common stock to management, employees and certain key third party service providers. On May 12, 2005, the Board received and reviewed a Report of the Compensation Committee recommending an allocation schedule for the allotted incentive option shares and voted to implement the Stock Incentive Plan for distribution of such options to the Corporation's present management, employees, directors and service providers as set forth in the Compensation Committee Report. The Company has not as yet issued the Incentive Stock Option Grant contracts.

Note 2 - Transactions in Capital Surplus/Deficit

Quarter Ending March 31, 2005

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

New Financing: January 2005 Convertible Notes. On January 31, 2005, we closed a funding transaction with Longview Fund, LP, Longview Equity Fund, LP, Longview International Equity Fund, LP, Alpha Capital Aktiengesellschaft and Whalehaven Funds Limited, five institutional accredited investors, for the issuance and sale to the Subscribers of up to \$2,300,000 of principal amount of promissory notes convertible into shares of our common stock, and Warrants to purchase shares of common stock at 100% coverage of the common stock issuable in accordance with the principal amount of the notes. One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of the purchase price was paid on the initial closing date, and One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of the purchase price will be payable within five (5) business days after the actual effectiveness of an SB-2 Registration Statement as defined in the Subscription Agreement. The initial closing notes were at prime plus 4% interest in the aggregate amount of \$1,150,000, plus five-year Warrants for the purchase of, in the aggregate, 9,200,000 shares of common stock, at the lesser of (i) \$0.16, or (ii) 101% of the closing bid price of the Common Stock as reported by Bloomberg L.P. for the OTC Bulletin Board for the trading day preceding the Closing Date. The notes are convertible into shares of our common stock at \$0.125 per common share. Conversions are limited to a maximum ownership of 9.99% of the underlying common stock at any one time. The notes have a maturity date two years from closing and are payable in twelve equal monthly installments, commencing June 1, 2005. The installment payments consist of principal equal to 1/20th of the initial principal amount which, subject to certain conditions concerning trading volume and price, can be paid in cash at 103% of the monthly installment, or common stock or a combination of both. The notes have an acceleration provision upon the change in a majority of the present Board of Directors except as the result of the death of one or more directors, or a change in the present CEO. In connection with this transaction, we issued restricted common stock in the aggregate amount of 460,000 shares plus the aggregate cash amount of \$57,500 for due diligence fees to the investors in this transaction. We issued the Convertible Promissory Note and the underlying common stock upon conversion to an accredited investor, pursuant to a Regulation D offering. The underlying common stock is now registered pursuant to a Form SB-2 registration statement declared effective August 2, 2005.

November 2003 Convertible Notes. We converted \$25,000 of our November 2003 Convertible Promissory Notes into 549,340 shares of common stock pursuant to a notice of conversion from Gamma Opportunity Capital Partners LP, at a fixed conversion price of \$0.05. The conversion included \$2,467 of accrued and unpaid interest on the converted amount. We issued the underlying common stock upon conversion pursuant to a Form SB-2 registration statement, declared effective on August 3, 2004.

April 2004 Convertible Notes. We converted \$99,999 of our April 2004 Convertible Promissory Notes into 1,141,387 shares of common stock pursuant to notices of conversion from Longview Fund LP, at a fixed conversion price of \$0.10. The conversions included \$14,138 of

on August 3, 2004.

June 2004 Convertible Notes. We converted \$41,666 of our June 2004 Convertible Promissory Notes into 430,327 shares of restricted common stock pursuant to a notice of conversion from Longview Fund LP, at a fixed conversion price of \$0.15. The conversion included \$22,822 of accrued and unpaid interest. We issued the Convertible Promissory Note and the underlying common stock upon conversion to an accredited investor, pursuant to a Regulation D offering. The underlying common stock is now registered pursuant to a Form SB-2 registration statement declared effective April 18, 2005.

Quarter Ending June 30, 2005

New Financing: April 2005 Convertible Note. On April 21, 2005, we closed a funding transaction with Alpha Capital Aktiengesellschaft for the issuance of a convertible 10% note in the aggregate amount of \$300,000. The promissory note is convertible into shares of common stock of the Company at \$0.20 per common share. Conversions are limited to a maximum ownership of 9.99% of the Company's common stock at any one time. The note has an October 31, 2005 maturity and is payable in five equal monthly installments, commencing June 1, 2005. The installment payments consist of principal (equal to 1/5th of the initial principal amount) plus accrued interest. Installments can be paid in cash or common stock valued at the average closing price of the Company's common stock during the five trading days immediately preceding the relevant installment due date. The Company has repriced Class B Warrants issued on June 30, 2004 from \$2.00 per share to \$0.125 per share and issued restricted common stock in the aggregate amount of 93,750 shares for finder's fees to a third-party to facilitate this transaction. The Company has the right to prepay the promissory note by paying to the holder cash equal to 120% of the principal to be prepaid plus accrued interest. The notes have an acceleration provision upon the change in a majority of the present Board of Directors except as the result of the death of one or more directors or a change in the present CEO of the Company. The common stock underlying the note and the finder's fee common stock have "piggy back" registration rights. We issued the convertible note and finder's fee common stock to accredited investors, pursuant to a Regulation D offering.

New Financing: May 2005 Convertible Notes. On May 23, 2005, we closed a funding transaction (the "May '05 Transaction") with Longview Fund, LP, Whalehaven Funds Limited, Ellis International Ltd., and Osher Capital Corp., four institutional accredited investors, for the issuance and sale to the Subscribers of Five Hundred Thousand Dollars (\$500,000) of principal amount of promissory notes convertible into shares of our common stock and Warrants to purchase shares of common stock at 100% coverage of the common stock issuable in accordance with the principal amount of the notes. This May '05 Transaction was a part of a January 23, 2005 funding transaction for an aggregate of Two Million Three Hundred Thousand Dollars (\$2,300,000), One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of which was paid on the initial closing date, and One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of which (the "Second Tranche") was to be payable within five (5) business days after the actual

effectiveness of an SB-2 Registration Statement covering the aggregate transaction, as defined in the Subscription Agreement. The May '05 Transaction for Five Hundred Thousand Dollars (\$500,000) is a partial interim closing of the Second Tranche, which occurred prior to the anticipated effectiveness of the SB-2 Registration Statement covering the aggregate transaction. Contemporaneous with the May '05 Transaction, we agreed to a modification of the January 23, 2005 aggregate transaction for the substitution of Ellis International Ltd. and Osher Capital Corp. in the place of Alpha Capital Aktiengesellschaft, one of the original investors. The May '05 Transaction convertible notes are at prime plus 4% interest in the aggregate amount of \$500,000, plus five-year Warrants for the purchase of, in the aggregate, 4,000,000 shares of common stock, at an exercise price of \$0.129. The notes are convertible into shares of our common stock at \$0.125 per common share. Conversions are limited to a maximum ownership of 9.99% of the underlying common stock at any one time. The notes have a maturity date two years from closing and are payable in twelve equal monthly installments, commencing June 1, 2005. The installment payments consist of principal equal to 1/20th of the initial principal amount which, subject to certain conditions concerning trading volume and price, can be paid in cash at 103% of the monthly installment or common stock or a combination of both. The notes have an acceleration provision upon the change in a majority of the present Board of Directors except as the result of the death of one or more directors, or a change in the present CEO. In connection with this transaction, we issued restricted common stock in the aggregate amount of 200,000 shares plus the aggregate cash amount of \$25,000 for due diligence fees to Longview Fund, LP, Gem Funding LLC, Ellis International Ltd., and Osher Capital Corp. in this transaction. The Second Tranche of the January 23, 2005 aggregate transaction, now in the amount of \$650,000, remains outstanding and will be triggered by the effectiveness of the pending SB-2 registration statement.

Section 4(6) of the Securities Act of 1933, which provides an exemption from the registration requirements of the Act for transactions not involving a public offering. The Company will record and \$11,900,000 net charge in deferred distribution costs for the issuance of a three year warrant to Coca-Cola Enterprises to purchase of 30,000,000 shares of our common stock in connection with the Master Distribution Agreement. The Company will recognize that cost as a selling expense over the 10-year term of the agreement.

Note 3 - Business Segment and Geographic Information

The Company operates principally in the single serve flavored milk industry segment, under two distinct business models. In the United States, the Company is responsible for the sale of finished Slammers(R) flavored milk (referred to as "unit sales") to retail outlets. For these unit sales, the Company recognizes as revenue the invoiced wholesale prices that the Company charges to the retail outlets that purchase the Slammers(R) flavored milks. In countries other than the United States, the Company's revenue generally is generated by the sale of kits to dairy processors. Each kit consists of flavor ingredients for the Company's Slammers(R) flavored milks and production rights to manufacture and sell the milks. In line with the Company's revenue recognition policies, the Company recognizes the full invoiced kit price as revenue. In earlier periods, the Company reported the sale of kits to SADAFCO, a third party dairy processor located in Saudi Arabia, for distribution to nine Middle Eastern countries, and Neolac, a third party dairy processor located in Mexico. The Company did not have sales to these third party processors in the quarter ending September 30, 2005.

Note 4 - Subsequent Events

Conversions: January 2005 Convertible Notes. We converted \$116,624 of our January 2005 Convertible Promissory Notes into 945,348 shares of restricted common stock pursuant to notices of conversion, to Longview Equity Fund LP and Longview International Equity Fund LP at a fixed conversion price of \$0.125 per share. ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - NINE MONTHS ENDED SEPTEMBER 30, 2005

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

FORWARD-LOOKING STATEMENTS

Statements that are not historical facts, including statements about the Company's prospects and strategies and the Company's expectations about growth contained in this report are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements represent the present expectations or beliefs concerning future events. The Company cautions that such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among other things, the uncertainty as to the Company's future profitability; the uncertainty as to whether the Company's new business model can be implemented successfully; the accuracy of the Company's performance projections; and the Company's ability to obtain financing on acceptable terms to finance the Company's operations until profitability.

OVERVIEW

The Company's business model includes the development and marketing of a Company owned Slammers(R) trademarked brand, the obtaining of license rights from third party holders of intellectual property rights to other trademarked brands, logos and characters and the granting of production and marketing rights to processor dairies to produce branded flavored milk. The Company generates revenue in its international (non-US) business through the sale of "kits" to these dairies. The price of the "kits" consists of an invoiced price for a fixed amount of flavor ingredients per kit used to produce the flavored milk and a fee charged to the dairy processors for the production, promotion and sales rights for the branded flavored milk. In the United States, the Company generates revenue from the unit sales of finished branded flavored milks to retail consumer outlets.

The Company's new product introduction and growth expansion continues to be expensive, and the Company reported a net loss of \$7,386,564 for the nine-month period ended September 30, 2005. As shown in the accompanying financial statements, the Company has suffered operating losses and negative cash flows from operations since inception and at September 30, 2005 has an accumulated deficit of \$41,386,594, and negative working capital of \$4,105,854. These conditions give rise to substantial doubt about the Company's ability to continue as a going concern. As discussed herein, the Company has executed a ten year exclusive Master Distribution Agreement with Coca-Cola Enterprises Inc., the implementation of which commenced November 1, 2005, is working toward profitability in the Company's U.S. and international business and will obtain additional financing. While there is no assurance that funding will be available or that the Company will be able to improve the Company's operating results, the Company is continuing to seek equity and/or debt financing.

18

No assurances can be given, however, that management will be successful in carrying out the Company's plans.

CORPORATE GOVERNANCE

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

The Board of Directors

The Company's board has positions for seven directors that are elected as Class A or Class B directors at alternate annual meetings of the Company's shareholders. Six of the seven current directors of the Company's board are independent. The Company's Chairman and Chief Executive Officer are separate. The board meets regularly, at least four times a year, and all directors have access to the information necessary to enable them to discharge their duties. The board, as a whole, and the audit committee in particular, reviews the Company's financial condition and performance on an estimated vs. actual basis and financial projections as a regular agenda item at scheduled periodic board meetings, based upon separate reports submitted by the Company's Chief Executive Officer and Chief Accounting Officer. Directors are elected by the Company's shareholders after nomination by the board or are appointed by the board when a vacancy arises prior to an election. The Company has adopted a nomination procedure based upon a rotating nomination committee made up of those members of the director class not up for election. The board presently is examining whether this procedure, as well as the make up of the audit and compensation committees, should be the subject of an amendment to the by-laws.

Audit Committee

The Company's audit committee is composed of three independent directors and functions to assist the board in overseeing the Company's accounting and reporting practices. The Company's financial information is booked in house by the office of the Company's Chief Accounting Officer, from which the Company prepares financial reports. These financial reports are audited or reviewed by Lazar Levine & Felix LLP, independent registered certified accountants and auditors. The Company's CAO reviews the preliminary financial and non-financial information prepared in house with the Company's General Counsel and the auditors. The committee reviews the preparation of the Company's audited and unaudited periodic financial reporting and internal control reports prepared by the Company's CAO. The committee reviews significant changes in accounting policies and addresses issues and recommendations presented by the Company's auditors. Currently, there is one vacancy on the audit committee.

Compensation Committee

The Company's compensation committee is composed of three independent directors who review the compensation structure and policies concerning executive compensation. The committee develops proposals and recommendations for executive compensation and presents those recommendations to the full board for consideration. The committee periodically reviews the performance of the Company's other members of management and the recommendations of the Chief Executive Officer with respect to the compensation of those individuals. Given the size of the Company, all such employment contracts are periodically reviewed by the board. The board must approve all compensation packages that involve the issuance of the Company's stock or stock options.

19

Nominating Committee

The nominating committee was established in the second quarter 2002 and consists of those members of the director Class not up for election. The committee is charged with determining those individuals who will be

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

presented to the shareholders for election at the next scheduled annual meeting. The full board fills any mid term vacancies by appointment.

CRITICAL ACCOUNTING POLICIES

Estimates

This discussion and analysis of the Company's consolidated financial condition and results of operations are based on the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company to make estimates and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, the Company evaluates the Company's estimates, including those related to reserves for bad debts and valuation allowance for deferred tax assets. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the result of which forms the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates under different assumptions or conditions. The Company's use of estimates, however, is quite limited as the Company has adequate time to process and record actual results from operations.

Revenue recognition

United States

The Company recognizes revenue in the United States at the gross amount of its invoices for the sale of finished product to wholesale buyers ("unit sales"). The Company takes title to its branded flavored milks when they are shipped by the Company's third party processors and recognize as revenue the gross wholesale price charged to the Company's wholesale customers. The Company's gross margin is determined by the reported wholesale price less the cost charged by Jasper Products, the Company's third party processor, to produce the branded milk products.

In certain circumstances in its U.S. business, the Company is required to pay slotting fees, give promotional discounts or make marketing allowances in order to secure wholesale customers. These payments, discounts and allowances reduce the Company's reported revenue in accordance with the guidelines set forth in EITF 01-9 and SEC Staff Accounting Bulletin No. 104.

20

International Sales

The Company generally recognizes revenue in its international business at the gross amount of its invoices for the sale of kits ("kit sales") at the time of shipment of flavor ingredients to processor dairies with which the Company has production contracts for extended shelf life and aseptic long life milk. A "kit" consists of flavor ingredients and the grant of production rights for the Company's branded products. The Company bases this recognition on its role as the principal in these transactions, its discretion in establishing kit sale prices (including the price of

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

flavor ingredients and production right fees), its development and refinement of flavors and flavor modifications, its discretion in supplier selection and its credit risk to pay for ingredients if processors do not pay ingredient suppliers. The revenue generated by the production contracts under this model consists of the cost of the processors' purchase of flavor ingredients and fees charged by the Company to the processors for production rights. The Company formulates the price of production rights to cover the Company's intellectual property licenses, which varies by licensor as a percentage of the total cost of a kit sold to the processor dairy under the production agreement. The Company recognizes revenue on the gross amount of "kit" invoices to the dairy processors and simultaneously records as cost of goods sold the cost of flavor ingredients paid by the processor dairies to ingredients supplier. The recognition of revenue generated from the sale of production rights associated with the flavor ingredients is complete upon shipment of the ingredients to the processor, given the short utilization cycle of the ingredients shipped.

Pursuant to EITF 99-19, international sales of kits made directly to customers by the Company are reflected in the statements of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue.

In certain circumstances, such as in the United Kingdom and as anticipated in Canada, the Company recognizes revenue under the unit sales model.

RESULTS OF OPERATIONS

Financial Condition at September 30, 2005

As of September 30, 2005, we had an accumulated deficit of \$41,485,761, cash on hand of \$553,857 and reported total capital surplus of \$7,544,377.

For this same period of time, we had revenue of \$6,591,693 and general and administrative expense of \$2,345,041.

After interest expenses of \$293,415, cost of goods sold of \$4,719,011, product development costs of \$194,955 and selling expenses of \$3,525,002 incurred in the operations of the Company, we had a net loss of \$7,485,371. Of this net loss amount, \$3,000,000 has been recorded in the quarter ending September 30, 2005 as a one time, non-recurring finder's fee payable to a third-party in connection with the execution of the Master Distribution Agreement with Coca-Cola Enterprises, Inc.

September 30, 2004

Consolidated Revenue

We had revenues for the nine months ended September 30, 2005 of \$6,591,693, with cost of sales of \$4,719,011, resulting in a gross margin of \$1,872,682. This revenue and resultant gross margin are net of slotting fees, promotional discounts and marketing allowances for this period in the

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

amount of \$330,699. Of the reported revenue, U.S. sales accounted for \$6,269,747, with \$288,596 from UK unit sales and an additional \$33,350 from international kit sales in the Middle East. We did not have revenue in this period in Canada or Mexico. Our reported revenue for the nine months ended September 30, 2005 increased by \$3,886,701, a 143.69% increase compared to revenue of \$2,704,992 for the same period in 2004. This increase is the result of the Company's development of new branded product lines in the United States, including the 2005 launch of our Slammers(R) line of Mars' Starburst, MilkyWay and 3 Musketeers flavored milk drinks. Our launch of Mars Slammers(R) line in the first quarter 2005 achieved market penetration in over 30,000 grocery and convenience stores for this line by September 30, 2005.

Consolidated Cost of Sales

We incurred cost of goods sold of \$4,719,011 for the nine months ended September 30, 2005, \$4,506,616 of which was incurred in our U.S. business, \$209,782 in connection with our UK operation and \$2,613 in connection with our international sales in the Middle East. Cost of goods sold in this period increased by \$2,825,177 a 149.18% increase compared to \$1,893,834 for the same period in 2004. The increase in cost of goods sold reflects an increase in sales, the concomitant increase in reported cost of goods sold associated with that increase and the economic inefficiencies of low production volume associated with the initial launch of the Slammers(R) line in the UK.

In countries except the United States and the United Kingdom, our revenue is generated by the sale of kits to dairy processors. Each kit consists of flavor ingredients for flavored milks and production rights to manufacture and sell the milks. In line with our revenue recognition policies, we recognize the full invoiced kit price as revenue, less the cost of production charged by the processor, which we record as cost of goods sold.

In the United States and the United Kingdom, we are responsible for the sale of finished Slammers(R) flavored milk (referred to as "unit sales") to retail outlets. For these unit sales, we recognize as revenue the invoiced wholesale prices that we charge to the retail outlets that purchase the Slammers(R) flavored milks. We report as cost of goods sold the price charged to the Company by third party processors that produce the finished Slammers(R) products.

Segmented Revenues and Costs of Sales

The following table presents revenue by source and type against costs of goods sold, as well as combined gross revenues and gross margins. In countries other than the United States

22

and the United Kingdom, revenues for the period ended September 30 2005 were generated by kit sales to third party processors. The Company's revenue from the sale of finished product to retail outlets is recorded as "unit sales" on the following table.

United States

Revenues for the period ended September 30, 2005 from unit sales in the United States increased from \$2,236,383 for the same period in 2004 to \$6,269,747 in 2005, a 180.4% increase. The increase is the result of the introduction of the Company's new product lines during this period.

In the period ended September 30, 2005, our gross margin for U.S. sales of \$1,763,131, increased by \$1,281,719, or by 266.24%, from \$481,412 for the same period in 2004. The increase in gross margin was the result of the increased sales and greater efficiencies in the production of our products.

Foreign Sales

Revenues for the period ended September 30, 2005 from kit sales in foreign countries decreased from \$403,148 for the same period in 2004 to \$321,946, a 20.14 % decrease. The decrease is the result of the lack of sales in Mexico and a reduction of sales in the Middle East during this period offset by the commencement of sales in the United Kingdom.

We recorded \$212,395 in costs of sales in foreign countries for the period ended September 30, 2005, an increase of \$138,993 or 189.36% from \$73,402 for the same period in

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

2004. The increase was the result of the costs associated with establishing a new business in the United Kingdom based upon the Company's unit sales model.

For the period ended September 30, 2005, our gross profit of \$109,551 for sales in foreign countries decreased by \$220,195, or 66.78%, from \$329,746 for the same period in 2004. The decrease in gross profit was consistent with the decrease in sales volume for this period.

Consolidated Operating Expenses

We incurred selling expenses of \$3,525,002 for the period ended September 30, 2005, \$3,260,493 of which was incurred in our United States operations. Our selling expense for this period increased by \$2,254,960, a 177.5% increase compared to our selling expense of \$1,270,042 for the same period in 2004. The increase in selling expenses in the current period was due to increased freight and promotional charges, including media advertising, associated with increased sales and our development of four new product lines, utilizing newly licensed and directly owned branded trademarks. In addition, the Company recorded \$99,168, pro-rata, of an \$11,900,000 net charge in deferred distribution costs for the issuance of a three warrant to Coca-Cola Enterprises to purchase of 30,000,000 shares of our common stock in connection with the execution of a Master Distribution Agreement. The Company will recognize that cost as a selling expense over the 10-year term of the Master Distribution Agreement.

We incurred general and administrative expenses of \$2,345,041 for the period ended September 30, 2005, \$2,183,598 of which we incurred in our United States business operations and \$161,443 for the enlargement of our international business into the United Kingdom and Canada. Our general and administrative expenses for this period increased by \$131,715, a 5.95% increase compared to \$2,213,326 for the same period in 2004.

As a percentage of total revenue, the Company's general and administrative expenses decreased from 81.8% in the period ended September 30, 2004, to 35.6% for the current period in 2005. We anticipate a continued effort to reduce these expenses as a percentage of sales through revenue growth, cost cutting efforts and the refinement of business operations.

Interest Expense

We incurred interest expense for the period ended September 30, 2005 of \$293,415. Our interest expense increased by \$138,598, a 89.52% increase compared to \$154,817 for the same period in 2004. The increase was due to using additional debt to finance the Company's operations during this period, including the development and launch of new product lines and expenses associated with increased promotional and marketing sponsorships.

Loss Per Share

We accrued dividends payable of \$263,001 for various series of preferred stock during the period ended September 30, 2005. The accrued dividends decreased for this period by \$28,459, or 9.76%, from \$291,460 for the same period in 2004. The net loss before accrued dividends for the current period increased \$4,603,600, from \$2,882,131 for the period ended September 30, 2004 to \$7,485,731 for the current period. The increase in the net loss resulted in an increase in the Company's current period loss per share from \$0.08 for the same period in 2004, to a loss per share of \$0.09 for the current period. Of the \$7,485,370 net loss, \$3,000,000 has been recorded in the quarter ending September 30, 2005 as a one time, non-recurring finder's fee payable to a third party in connection with the

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

execution of the Master Distribution

24

Agreement with Coca-Cola Enterprises, Inc. Absent the \$3,000,000 non-recurring finder's fee charge, the Company's increased net loss per share was offset by an increase in the weighted average of common shares outstanding from 38,254,305 shares for the nine months ended September 2004 to 82,091,556 shares for the current nine month period, resulting in a current period loss per share of \$0.06.

Three Months Ended September 30, 2005 Compared to the Three Months Ended

September 30, 2004

Revenue

The Company had revenues for the three months ended September 30, 2005 of \$3,245,305, with cost of sales of \$2,360,884, resulting in a gross profit of \$884,421, or 27.3% of sales, \$2,956,709 of which were generated by the Company's U.S. operation and \$288,596 from the Company's UK business. The Company did not report any sales for Canada, Mexico or the Middle East in the three months ended September 30, 2005. Our revenue for the three months ended September 30, 2005 increased by \$2,419,875, a 293% increase compared to revenue of \$825,430 for the three months ended September 30, 2004. The increase in revenue in the United States for the three months ended September 30, 2005 is the result of the continuing rollout of the Company's new product lines during this period and the launch of the Company's business in the United Kingdom.

Cost of Goods Sold

The Company incurred cost of goods sold of \$2,360,884 for the three months ended September 30, 2005, \$2,151,102 of which was incurred in our U.S. operations in the third quarter. Our cost of goods sold for this period increased by \$1,732,137, a 275.5% increase compared to \$628,747 for the three months ended September 30, 2004. The increase in cost of goods sold in the United States for the three months ended September 30, 2005 is the result of increased sales and the corresponding increase in the costs of good sold.

Operating Expense

The Company incurred selling expenses of \$1,727,531 for the three months ended September 30, 2005, \$634,580 of which was incurred in our U.S. operation. Selling expenses increased for the three months ended September 30, 2005 by \$1,074,909, a 164.7% increase compared to the selling expense of \$652,622 for the three months ended September 30, 2004. The increase in selling expenses is the result of increased sales, including promotional expenses, the costs associated with guaranteed royalties under our third-party intellectual property license agreements and deferred distribution costs for the issuance of a warrant in connection with the execution a Master Distribution Agreement with Coca-Cola Enterprises Inc.

The Company incurred general and administrative expenses of \$905,487 for the three months ended September 30, 2005, \$844,464 of which was incurred in the U.S. operations. General and administrative expenses for the three months ended September 30, 2005 increased by \$354,188, a 64.25% increase compared to \$551,299 for the same period in 2004. The increase in

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

general and administrative expenses for the current period is the result of greater management activities in the promotion and continued rollout of the Company's new product lines in the United States and the establishment of the Company's business in the United Kingdom.

25

Interest Expense

The Company incurred interest expense for the three months ended September 30, 2005 of \$73,169. Interest expense for the three months ended September 30, 2005 decreased by \$6,653, an 8.3% decrease compared to \$79,822, for the same period in 2004. This decrease was the result of reduced debt in this period.

Net Loss

The Company had a net loss for the three months ended September 30, 2005 of \$4,906,456 compared with a net loss of \$1,120,992 for the same period in 2004. The net loss increased by \$3,785,464 or 337.7% compared to the same period in 2004. Of the \$4,906,456 net loss, \$3,000,000 represents a one time, non-recurring finder's fee payable to a third party in connection with the execution of the Master Distribution Agreement with Coca-Cola Enterprises, Inc. Absent the \$3,000,000 non-recurring finder's fee charge, the Company's increased net loss per share was offset by an increase in the weighted average of common shares outstanding from 44,374,877 shares for the three months ending September 2004 to 113,680,645 shares for the current three month period, resulting in a current three month period loss per share of \$0.016.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2005, we reported that net cash used in operating activities was \$4,956,448, net cash provided by financing activities was \$5,510,649 and net cash used in investing activities was \$90,583. We had a negative working capital of \$4,105,854 as of September 30, 2005.

Compared to \$3,372,840 of net cash used in operating activities in the period ended September 30, 2004, our current period net cash used in operating activities increased by \$1,583,608 to \$4,956,448. This increase was the result of changes in deferred product development costs, prepaid expenses, accounts payable and accrued expenses, including a \$3,000,000 finder's fee payable in connection with the execution of the Coca-Cola Enterprises Master Distribution Agreement. Included in the net loss in this current period were depreciation and amortization and stock compensation for a finder fee aggregating \$907,087, compared to \$364,995 for the same period in 2004.

Changes in accounts receivable in this current period in 2005 resulted in a cash decrease of \$149,281, compared to a cash decrease in receivables of \$8,490 for the same period in 2004, having a net result of an decrease of \$140,791. The changes in accounts payable and accrued liabilities in the period ended of September 30, 2004 contributed to a cash decrease of \$224,031, whereas the changes in accounts payable and accrued liabilities for the current period in 2005 amounted to an increase of \$4,208,414. Cash flow generated through our operating activities was inadequate to cover all of our cash disbursement needs in the period ended September 30, 2005, and we had to rely on equity and debt financing to cover expenses.

Cash used in the period ended September 30, 2005 in our investing activities for equipment was \$90,583 for software, computer equipment, telephone system, Company van, mobile communication devices and leasehold improvements in the U.S., compared to \$47,647 for the same period in 2004.

Net cash provided by our financing activities for the period ended September 30, 2005 was \$5,510,649. Net cash provided by financing activities for the same period in 2004 was \$3,419,891. The increase was due to a greater need for financing to fund the Company's operations during this period and the exercise of warrants generating \$2,958,509.

The Company used the proceeds of the current period financing for working capital purposes to support the continued launch of new product lines under a license with Masterfoods USA and for new product development.

Going forward, our primary requirements for cash consist of the following:

- * the continued development of our business model in the United States and on an international basis;
- * promotional and logistic production support for the capacity demands presented by our Master Distribution Agreement with Coca-Cola Enterprises
- * general overhead expenses for personnel to support the new business activities;
- * development, launch and marketing costs for our line of new branded flavored milk products, and
- * the payment of guaranteed license royalties.

We estimate that our need for financing to meet cash requirements for operations will continue through the fourth quarter of 2005, when we expect that cash supplied by operating activities will approach the anticipated cash requirements for operating expenses. We anticipate the need for additional financing in 2005 to reduce our liabilities, assist in marketing and to improve shareholders' equity status. No assurances can be given that we will be able to obtain additional financing, or that operating cash flows will be sufficient to fund our operations.

We currently have monthly working capital needs of approximately \$300,000. We will continue to incur significant selling and other expenses in 2005 in order to derive more revenue in retail markets, through the introduction and ongoing support of our new products and the implementation of the Master Distribution Agreement with Coca-Cola Enterprises. Certain of these expenses, such as slotting fees and freight charges, will be reduced as a function of unit sales costs as we expand our sales markets and increase our sales within established markets. Freight charges will be reduced as we are able to ship more full truckloads of product given the reduced per unit cost associated with full truckloads versus less than full truckloads. Similarly, slotting fees, which are paid to warehouses or chain stores as initial set up or shelf space fees, are essentially one-time charges per new customer. We believe that along with the increase in our unit sales volume, the average unit selling expense and associated costs will decrease, resulting in gross margins sufficient to mitigate cash needs. In addition, we are actively seeking additional financing to support our operational needs and to develop an expanded promotional program for our products.

Material Events

In January 2005, we launched our Slammers(R) Starburst line of Fruit & Cream Smoothies utilizing a "shelf stable" re-sealable plastic bottle for milk products that does not require refrigeration. Until that launch, all single served flavored milk in plastic bottles required refrigeration for storage, distribution, and shelf placement. The tactical advantage of distributing milk products ambient enables us to side-step a major entry barrier in our immediate consumption strategy. Refrigerated milk is relegated to dairy direct-store-delivery systems that are controlled by either regional dairy processors or larger national dairy holding companies. Shelf stable re-sealable plastic bottle allows us to use a more traditional distribution network that accommodates the non-refrigerated beverages. Also, milk products packaged in shelf stable re-sealable plastic bottles have significantly longer shelf life for storage, allowing us to ship in full truckloads resulting in decreased freight costs. We currently are converting all of our products to "shelf stable" re-sealable plastic bottle.

On July 13, 2005, Coca-Cola Enterprises Inc. (CCE) acquired options to purchase shares of common stock, convertible securities and warrants, entitling Coca-Cola Enterprises to purchase approximately 69,000,000 shares of common stock from 9 non-affiliated shareholders of the Company (the "Options"), representing approximately 23% of the authorized shares of the Company's common stock. Coca-Cola Enterprises and the Company contemporaneously commenced negotiations regarding a stock purchase agreement for the direct sale of approximately 81 million shares of the Company's common stock to Coca-Cola Enterprises. The consummation of the direct sale and the exercise of the Options by Coca-Cola Enterprises would have resulted in Coca-Cola Enterprises holding slightly in excess of 50% of the Company's equity on a fully diluted basis. These transactions were contingent upon the execution of a Master Distribution Agreement between the Company and Coca-Cola Enterprises. On July 29, 2005, the Company and Coca-Cola Enterprises entered into a Letter of Intent memorializing and confirming their intention to enter into the stock purchase agreement.

Subsequent to the execution of the Letter of Intent, in lieu of the exercise of the Options and the stock purchase agreement, the parties agreed to enter into the Master Distribution Agreement with the attendant grant of three year warrants by the Company to Coca-Cola Enterprises for the right to purchase 30 million shares of the Company's common stock at an exercise price of \$0.36 per share. On August 31, 2005, the Company issued the warrants to Coca-Cola Enterprises and the parties executed a ten year exclusive Master Distribution Agreement that will significantly expand the distribution and sales of the Company's products. The Company will recognize a \$11,900,000 net charge in deferred distribution costs for the warrant issued to Coca-Cola Enterprises over the 10-year term of the Master Distribution Agreement. The Company presently is seeking from \$10 - \$15 million in new financing to promote the expanded sales anticipated with the implementation of the Master Distribution Agreement, and for general working capital.

External Sources of Liquidity

Individual Loans

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

On November 6 and 7, 2001, respectively, we received the proceeds of two loans aggregating \$100,000 from two offshore lenders. The two promissory notes, one for \$34,000 and the other for \$66,000, were payable February 1, 2002 and bear interest at the annual rate of

28

8%. These loans are secured by a general security interest in all our assets. On February 1, 2002, the parties agreed to extend the maturity dates until the completion of the anticipated Series H financing. On September 18, 2002, the respective promissory note maturity dates were extended by agreement of the parties to December 31, 2002. On September 18, 2002, we agreed to extend the expiration dates of warrants issued in connection with our Series D and F preferred until September 17, 2005 and to reduce the exercise price of certain of those warrants to \$1.00, in partial consideration for the maturity date extension. The holders of these notes have agreed to extend the maturity dates, and the notes are now payable on a demand basis.

On May 6, 2004, we issued a secured promissory note to Mid- Am Capital LLC in the principal amount of \$750,000. The note provides for 8% interest. The note's original maturity date of September 4, 2004 has been extended. We issued warrants to purchase 3,000,000 shares of our common stock to Mid-Am in connection with this promissory note. The warrants are exercisable for one year from issue at an exercise price of \$0.25 per share. We used the proceeds of this promissory note to pay the promissory note issued to Jasper Products in January 2004.

Convertible Debentures

To obtain funding for our ongoing operations, we entered into the following financing transactions in 2005.

January 2005

On January 31, 2005, we closed a funding transaction with Longview Fund, LP, Longview Equity Fund, LP, Longview International Equity Fund, LP, Alpha Capital Aktiengesellschaft and Whalehaven Funds Limited, five institutional accredited investors, for the issuance and sale to the Subscribers of up to \$2,300,000 of principal amount of promissory notes convertible into shares of our common stock, and Warrants to purchase shares of common stock at 100% coverage of the common stock issuable in accordance with the principal amount of the notes. One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of the purchase price was paid on the initial closing date, and One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of the purchase price will be payable within five (5) business days after the actual effectiveness of an SB-2 Registration Statement as defined in the Subscription Agreement.

The initial closing notes were at prime plus 4% interest in the aggregate amount of \$1,150,000, plus five-year Warrants for the purchase of, in the aggregate, 9,200,000 shares of common stock, at the lesser of (i) \$0.16, or (ii) 101% of the closing bid price of the Common Stock as reported by Bloomberg L.P. for the OTC Bulletin Board for the trading day preceding the Closing Date.

The notes are convertible into shares of our common stock at \$0.125 per common share. Conversions are limited to a maximum ownership of 9.99%

change in a majority of the present Board of Directors except as the result of the death of one or more directors, or a change in the present CEO. In connection with this transaction, we issued restricted common stock in the aggregate amount of 460,000 shares plus the aggregate cash amount of \$57,500 for due diligence fees to the investors in this transaction

April 2005

On April 21, 2005, the Company closed a funding transaction with one institutional investor for the issuance and sale to the Subscriber of a promissory note of the Company in the principal amount of \$300,000. The promissory note bears 10% interest and is convertible into shares of common stock of the Company at \$0.20 per common share. Conversions are limited to a maximum ownership of 9.99% of the Company's common stock at any one time.

The note has an October 31, 2005 maturity and is payable in five equal monthly installments, commencing June 1, 2005. The installment payments consist of principal and equal to 1/5th of the initial principal amount plus accrued interest. Installments can be paid in cash or common stock valued at the average closing price of the Company's common stock during the five trading days immediately preceding the relevant installment due date. The Company has repriced Class B Warrants issued on June 30, 2004 from \$2.00 per share to \$0.125 per share, and shall issue common stock in the aggregate amount of 93,750 shares for finder's fees to a third-party to facilitate this transaction.

The Company has the right to prepay the promissory note by paying to the holder cash equal to 120% of the principal to be prepaid plus accrued interest. The notes have an acceleration provision upon the change in a majority of the present Board of Directors except as the result of the death of one or more directors, or a change in the present CEO of the Company.

May 2005

On May 23, 2005, we closed a funding transaction (the "May '05 Transaction") with Longview Fund, LP, Whalehaven Funds Limited, Ellis International Ltd., and Osher Capital Corp., four institutional accredited investors, for the issuance and sale to the Subscribers of Five Hundred Thousand Dollars (\$500,000) of principal amount of promissory notes convertible into shares of our common stock, and Warrants to purchase shares of common stock at 100% coverage of the common stock issuable in accordance with the principal amount of the notes.

This May '05 Transaction is a part of a January 23, 2005 funding transaction for an aggregate of Two Million Three Hundred Thousand Dollars (\$2,300,000), One Million One Hundred Fifty Thousand Dollars (\$1,150,000) of which was paid on the initial closing date, and One Million One Hundred

Corp. in the place of Alpha Capital Aktiengesellschaft, one of the original investors. The May '05 Transaction convertible notes are at prime plus 4% interest in the aggregate amount of \$500,000, plus five-year Warrants for the purchase of, in the aggregate, 4,000,000 shares of common stock, at an exercise price of \$0.129. The notes are convertible into shares of our common stock at \$0.125 per common share. Conversions are limited to a maximum ownership of 9.99% of the underlying common stock at any one time. The notes have a maturity date two years from closing and are payable in twelve equal monthly installments, commencing June 1, 2005. The installment payments consist of principal equal to 1/20th of the initial principal amount which, subject to certain conditions concerning trading volume and price, can be paid in cash at 103% of the monthly installment, or common stock or a combination of both. The notes have an acceleration provision upon the change in a majority of the present Board of Directors except as the result of the death of one or more directors, or a change in the present CEO.

In connection with this transaction, we issued restricted common stock in the aggregate amount of 200,000 shares plus the aggregate cash amount of \$25,000 for due diligence fees to Longview Fund, LP, Gem Funding LLC, Ellis International Ltd., and Osher Capital Corp. in this transaction. The Second Tranche of the January 23, 2005 aggregate transaction, now in the amount of \$650,000, remains outstanding and will be triggered by the effectiveness of the pending SB-2 registration statement.

August 2005

On August 18, 2005, we closed a funding transaction (the "August '05 Transaction") with Longview Fund, LP, Longview Equity Fund, LP and Longview International Equity Fund, LP, three institutional accredited investors, for the issuance and sale to the Subscribers of Six Hundred Fifty Thousand Dollars (\$650,000) of principal amount of promissory notes convertible into shares of our common stock and Warrants to purchase shares of common stock at 100% coverage of the common stock issuable in accordance with the principal amount of the notes. This August '05 Transaction was a part of a January 23, 2005 funding transaction for an aggregate of Two Million Three Hundred Thousand Dollars (\$2,300,000). The August '05 Transaction is the Second Tranche of the January '05 transaction, which occurred upon the effectiveness of the SB-2 Registration Statement covering the aggregate transaction. The August '05 Transaction convertible notes are at prime plus 4% interest in the aggregate amount of \$650,000, plus five-year Warrants for the purchase of, in the aggregate, 5,200,000 shares of common stock, at an exercise price of \$0.129. The notes are convertible into shares of our common stock at \$0.125 per common share. Conversions are limited to a maximum ownership of 9.99% of the underlying common stock at any one time. The notes have a maturity date two years from closing and are payable in

twelve equal monthly installments. The installment payments consist of principal equal to 1/20th of the initial principal amount which, subject to certain conditions concerning trading volume and price, can be paid in cash at 103% of the monthly installment, or common stock or a combination of both. The notes have an acceleration provision upon the change in a majority of the present Board of Directors except as the result of the death of one or more directors, or a change in the present CEO. In connection with this transaction, we issued restricted common stock in the aggregate amount of 260,000 shares plus the aggregate cash amount of \$32,500 for due diligence fees to Longview Fund companies.

31

On September 30, 2005, we repaid \$250,000 of the aggregate \$650,000 of the August '05 Transaction notes, as follows: \$57,692 to Longview Fund, LP, \$144,231 to Longview Equity Fund, LP and \$48,077 to Longview International Equity Fund, LP. The holders of these notes waived the prepayment premium in lieu of their retention of warrants attached to August '05 Transaction.

EFFECTS OF INFLATION

We believe that inflation has not had any material effect on our net sales and results of operations.

ITEM 3. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures. Our Chief Executive Officer and our principal accounting officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-14(c) and 15d-14(c) as of the filing date of this report on Form 10QSB (the Evaluation Date), have concluded that our disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company and our consolidated subsidiary would be made known to them by others within those entities, particularly during the period in which this report on Form 10QSB was being prepared.

b) Changes in Internal Controls. There were no changes in our internal controls or in other factors that could significantly affect our disclosure controls and procedures subsequent to the Evaluation Date, nor any significant deficiencies or material weaknesses in such disclosure controls and procedures requiring corrective actions.
