RADVISION Reports Second Quarter 2003 Results in Line with Guidance
Tuesday July 15, 7:07 am ET

Accomplishes Turnaround in U.S. Networking Unit

GLEN ROCK, N.J.--(BUSINESS WIRE)--July 15, 2003--RADVISION (NASDAQ: RVSN - News) today announced that revenues for the second quarter of 2003 were \$11.6 million and net income was \$142,000 or \$0.01 per basic and diluted share, in line with its previous guidance. This compares to revenues of \$11.7 million and net income of \$292,000, or \$0.02 per basic and diluted share reported in the 2002 second quarter.

As expected, the Company narrowed its operating loss for the 2003 second quarter to \$418,000 from \$551,000 in the first quarter of 2003. These losses were offset by financial income of \$560,000 and \$566,000, respectively, enabling the Company to report positive net income for both periods. In the second quarter of 2002, the operating loss was \$394,000 and financial income was \$686,000 due to higher interest rates during 2002.

Total second quarter 2003 revenues of \$11.6 million consisted of \$8.5 million in Networking Business Unit (NBU) revenues and \$3.1 million in Technology Business Unit (TBU) revenues.

Edgar Filing: RADVISION LTD - Form 8-K

For the six months ended June 30, 2003, revenues were \$22.7 million and net income was \$157,000 or \$0.01 per basic and diluted share, compared with revenues of \$23.3 million and net income of \$564,000 or \$0.03 per basic and diluted share in the prior year period.

The Company ended the quarter with approximately \$92.8 million in cash and liquid investments, an increase of \$2.4 million over the prior quarter, and equivalent to \$5.03 per basic share. The increase reflects operating cash flow of \$2.1 million and the addition of \$644,000 due to the exercise of options, offset by \$336,000 of capital expenditures.

Gadi Tamari, Chief Executive Officer of RADVISION, commented: "Our actions last quarter to address the execution issue in our U.S. networking business are taking effect and enabled us to achieve a substantial recovery in its sales in the second quarter. To further our progress company-wide, we are continuing to strengthen our leadership team and have added a highly experience general manager in London to head our networking sales effort in Europe and Africa. We also remain focused on our technology leadership and introduced breakthrough infrastructure and developer products in the second quarter offering solutions for the rapidly emerging market based on SIP protocol.

"We also are seeing tangible benefits from our revised channel strategy as our relationship with our reseller partners continues to deepen and we are finding a new level of engagement as we develop our markets together."

Mr. Tamari concluded: "Videoconferencing today remains mainly in the conference room and we are entering the second half of the year fully engaged in that market. Yet, it is increasingly clear that the future is personal visual communication and we are dedicated to making that opportunity happen."
