Report of Independent Accountants

To the Participants and Administrator of
The Medtronic Puerto Rico Employees' Savings and Investment Plan:

In our opinion, the accompanying statements of assets available for plan benefits and the related statement of changes in assets available for plan benefits present fairly, in all material respects, the assets available for plan benefits of The Medtronic Puerto Rico Employees' Savings and Investment Plan at April 30, 2002 and 2001, and the changes in assets available for plan benefits for the year ended April 30, 2002 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets and of nonexempt transactions at April 30, 2002 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. These supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**THE MEDTRONIC PUERTO RICO EMPLOYEES'
SAVINGS AND INVESTMENT PLAN
Notes to Financial Statements**

1. Description of the Plan

The following description of The Medtronic Puerto Rico Employees' Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, created and administered by Medtronic, Inc., is a defined contributory contribution plan. The Plan covers substantially all the employees of the Puerto Rico operations of Medtronic, Inc. including Medtronic Puerto Rico Operations Company Puerto Rico Branch, Medtronic Puerto Rico, Inc., and Med Rel, Inc. (collectively the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended, ("ERISA").

Contributions

The Plan provides for a regular savings program for the employees of the Company, whereby participants may contribute up to 10% of their qualified compensation, as defined. Depending upon whether certain performance goals are achieved by the Company, the employer match ranges from 50% to 75% of the participant's contribution, which contribution is limited to 6% of the participant's eligible compensation.

Participant contributions are recorded in the period during which the Company makes payroll deductions from the Plan Participants' earnings. Matching employer contributions are recorded in the same period.

Participant Accounts

Each participant account is credited with the participant's contribution and the Company's contribution, as well as earnings and losses thereon. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants have a fully vested interest in their contributions and earnings and losses thereon at all times. A participant begins to vest in employer contributions upon completing three years of service, at which time the participant is 25% vested. Additional vesting accrues at the rate of 25% per year thereafter.

Participants become fully vested on Normal Retirement Date, death, total disability, termination of the Plan, or complete discontinuance of employer contributions.

Distributions

An active participant may withdraw his or her after-tax contributions, rollover and Medtronic contributions, but not the earnings on those amounts, at any time.

An active participant may withdraw his or her pre-tax contributions, but not the earnings on those amounts, due to certain hardships based on the Plan provisions.

Upon termination of employment, the Participant must take a complete distribution if the value of the Participant's account is \$5,000 or less. If the value of the Participant's account is greater than \$5,000, the participant's benefit will be paid in an annuity, unless the participant elects to receive an optional form of payment. The optional forms are a lump sum payment or installment payments over a period of years.

Administrative Expenses

Administrative expenses are paid by the Plan for the administration of the Plan and maintenance of accounts. Such expenses consist of recordkeeping fees, trustee fees and account maintenance fees. Participants pay for fees associated with transactions in the Medtronic Common Stock Fund from their respective Plan accounts. In addition, participants with loans pay an origination and annual loan fee for loan administration and maintenance from their respective Plan accounts.

Eligibility

Participants with at least three months of service are eligible to participate in the Plan.

Forfeited Accounts

Forefeitures of employer matching contributions are used in the following order: (1) to reduce employer contributions, (ii) to defray any reasonable administrative expenses of the Plan, (iii) to make an additional matching contribution to active participant's accounts.

There were no balance of forfeited nonvested accounts for the year ended April 30, 2002. For the year ended April 30, 2001 forfeited nonvested accounts totaled \$5,225.

Participants Loans Receivable

Participants may borrow up to 50% of their vested fund account up a maximum \$50,000. The minimum loan amount is \$1,000. Loans are repaid in monthly payments of principal and interest through payroll deductions. Loan transactions are treated as a transfer to (from) the investment fund from (to) participant loans receivable. Loan terms range from one to ten years, as defined. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. The average interest rate for fiscal years ended April 30, 2002 and 2001 was 9.5%

Plan Termination

The Plan provides that the Board of Directors of Medtronic Puerto Rico, Inc. can terminate the Plan.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Related Investment Income

The Plan's investments are stated at fair value, except for investment contracts, which are valued at contract value (Note 3). Shares of registered investment companies are valued at quoted market prices which represent the asset value of shares held by the Plan at year-end. The Medtronic

Common Stock Fund is valued at the year-end using quoted market price of Medtronic, Inc. common stock.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. The Plan presents in the Statement of Changes in Assets the net appreciation (depreciation) in the fair value of its investments which consists of realized gains and losses and the unrealized appreciation (depreciation) on those investments.

Contributions

Employee and Company matching contributions are recorded in the plan year in which the Company makes the payroll deductions from participant's earnings.

Payment of Benefits

Benefit payments are recorded upon distribution.

Risks and Uncertainties

The Plan provides for various investment options representing varied combinations of stocks, including Company common stock, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks could materially affect participants' account balances and the amounts reported in the Statement of Assets Available for Plan Benefits and the Statement of Changes in Assets Available for Plan Benefits.

Guaranteed insurance contracts are stated at contract value as reported to the Plan by Banco Popular de Puerto Rico (the "Trustee"). There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Trustee maintains the contributions in a pooled account, which is credited with earnings on the underlying investments and charged for Plan withdrawals.

3. Investments

During 2002, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$174,390, as follows:

Vanguard 500 Index Value Fund	\$ 139,338
Vanguard Wellington Fund	23,300
Medtronic Common Stock Fund	11,380
Vanguard Total Bond Market Index Fund	372
	<hr/>
	\$ 174,390
	<hr/>

The investments in the Medtronic Interest Income Fund consist of investment contracts issued by financial institutions and of contracts backed by investment-grade, fixed-income and bond mutual funds. These investment contracts are valued at their contract values, which approximate fair value, because these investments have fully benefit-responsive features. There are no reserves against contract values for credit risk of contract issuers of otherwise.

The average yield of the Medtronic Interest Income Fund was 6.15 and 6.38% for 2002 and 2001, respectively. The crediting interest rate of the Medtronic Interest Income Fund was 6.03% and 6.45% for 2002 and 2001, respectively. The crediting interest rate is based on a formula agreed

upon with the issuer, which cannot be less than zero. Such interest rates are reviewed on a quarterly basis for resetting.

4. Income Tax Status

The Plan received a favorable determination letter from Puerto Rico Treasury Department on May 23, 2001. The Puerto Rico Treasury Department has determined that the Plan and the related trust are designed in accordance with Section 1165 (a) of the Puerto Rico Internal Revenue Code of 1994 and are, therefore, exempt from Puerto Rico income taxes. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5. Related Party Transactions

The Plan's investments consist of guaranteed insurance contracts in a Deposit Administration Fund and shares of mutual funds managed by Banco Popular de Puerto Rico. Banco Popular de Puerto Rico acts as trustee for only these investments as defined by the Plan. Transactions in such investments qualify as party in interest transactions which are exempt from the prohibited transactions rule.

During the years ended April 30, 2002 and 2001, the Plan had transactions with Vanguard Group, the Plan's Recordkeeper, which are allowed by the Plan and are acceptable under the Internal Revenue Code. These transactions qualify as party-in-interest transactions, which are exempt for the prohibited transaction rules.

Total purchases and proceeds from sales with Vanguard Group for the years ended April 30, 2002 and 2001 were \$2,198,836 and \$1,161,948 and \$9,965,126 and \$2,653,278, respectively.
