Item 2.02. Results of Operations and Financial Condition

On November 28, 2007, Plantronics, Inc. (the “Company”) issued a press release addressing the consolidation of its manufacturing operations that includes an estimate of the impact to certain items of its previously provided earnings guidance for the third quarter of fiscal 2008. A copy of the press release, dated as of November 28, 2007, is furnished as Exhibit 99.1 to this Current Report and is incorporated in this Item 2.02 by reference. The press release is furnished and shall not be deemed “filed” for purposes of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities thereof nor shall it be deemed to be incorporated by reference in any filing under the Exchange Act or under the Securities Act of 1933, as amended, except to the extent specifically provided in any such filing.

Item 2.05. Costs associated with Exit or Disposal Activities

On November 27, 2007, the Board of Directors and executive management of the Company approved a plan to close and/or consolidate a number of facilities that perform functions for its Audio Entertainment Group (“AEG”) as part of a strategic initiative to lower costs. Specifically, the Company plans to close AEG’s manufacturing facility in Dongguan, China; shut down a related Hong Kong research and development, sales and procurement office; and consolidate procurement, research and development activities for AEG in a new Shenzhen, China site. The selling, general and administrative functions of AEG will also be consolidated with those of the Company’s Audio Communication Group through-out the Asia-Pacific region. These steps are part of a strategic initiative designed to reduce fixed costs by outsourcing AEG manufacturing to the network of qualified contract manufacturers it already has in place. Further information on a number of these actions including the costs and benefits related to the consolidation is set forth in the press release dated November 28, 2007, which is incorporated in this Item 2.05 by reference.
