RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC. Notes to Financial Statements June 30, 2001

1. Organization and Business Purpose

Renaissance Capital Growth & Income Fund III, Inc. (the "Fund"), a Texas corporation formed in 1994, is a non-diversified closed-end investment company and has elected to be treated as a business development company ("BDC") under the Investment Company Act of 1940, as amended ("1940 Act"). The Fund seeks to achieve current income and capital appreciation by investing primarily in unregistered convertible securities of emerging growth size companies.

2. Significant Accounting Policies

A. Federal Income Taxes - The Fund has elected the special income tax treatment available to a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code in order to be relieved of federal income tax on that part of its net investment income and realized capital gains that it pays out to its shareholders. If a RIC meets certain diversification and distribution requirements under the Code, it qualifies for pass-through tax treatment. The Fund would cease to qualify for pass-through tax treatment if it were unable to comply with these requirements. Failure to qualify as a RIC would subject the Fund to federal income tax as if the Fund were an ordinary corporation, which could result in a substantial reduction in both the Fund's net assets and the amount of income available for distribution to shareholders.

B. Distributions to Shareholders - Dividends paid to shareholders are recorded on the ex-dividend date. The Fund announced a dividend of \$0.54 per share on July 16, 2001. The ex-dividend date was July 20, 2001, and the dividend will be payable August 16, 2001, to shareholders of record July 24, 2001. With this dividend, the Fund has paid shareholders a total of \$7.56 per share in cash distributions since inception.

C. Management Estimates - The financial statements have been prepared in conformity with generally accepted accounting principles. The preparation of the accompanying financial statements requires estimates and assumptions

made by the Investment Adviser as to the valuation of investments that effect the amounts and disclosures in the financial statements. Actual results could differ significantly from those estimates.

D. Financial Instruments - In accordance with the reporting requirements of Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financials Instruments," the Company calculates the fair value of its financial instruments and includes this additional information in the notes to the financial statements when the fair value is different from the carrying value of those financial instruments. When the fair value reasonably approximates the carrying value, no additional disclosure is made.

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.
Notes to Financial Statements
June 30, 2001

3. Investment Advisory Agreement

The Investment Adviser for the Fund, Renaissance Capital Group, Inc. ("RCG"), is registered as an investment adviser under the Investment Advisers Act of 1940, as amended. Pursuant to an Investment Advisory Agreement, the Investment Adviser performs certain services, including certain management, investment advisory, and administrative services necessary for the operation of the Fund. The Investment Adviser receives a fee equal to .4375% (1.75% annually) of the net assets each quarter. The Fund accrued a liability of \$239,559 for such operational management fees performed during the quarter ended June 30, 2001.

In addition to the management fee, the Investment Advisory Agreement entitles the Investment Adviser to an incentive fee equal to 20% of any net realized capital gains after allowance for any unrealized capital depreciation of the Fund. This management incentive fee is calculated on a quarterly basis. For the three-month period ended June 30, 2001, the Investment Adviser earned incentive fees of \$911,857.

Finally, the Investment Adviser is reimbursed for administrative expenses paid by the Investment Adviser on behalf of the Fund. The Fund accrued a liability of \$60,656 for these reimbursable administrative expenses in the quarter ended June 30, 2001, which accrual is included in general and administrative expenses in the accompanying statement of operations.

4. Capital Share Transactions

As of June 30, 2001, there were 20,000,000 shares of \$1 par value capital stock authorized, 4,561,617 shares issued, 4,361,617 shares outstanding, and additional paid-in capital aggregating \$41,696,306.

Year-to-date transactions in capital stock are as follows:

	Shares	Amount
Balance December 31, 2000	4,361,617	\$41,696,306
Shares repurchased	-	-
	-----	-----
Balance June 30, 2001	4,361,617	\$41,696,306
	=====	=====

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-Q/A

5. Temporary Investments

At June 30, 2001, temporary investments were held in a money market fund made up of U.S. Treasury obligations and a U.S. Treasury bill. These investments qualify for investment as permitted in Section 55(a)(1) of the 1940 Act.

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.
Notes to Financial Statements
June 30, 2001

6. Functions and Activities of Business Development Companies

Pursuant to Section 55(a) of the 1940 Act, a BDC is required to have at least 70% of the value of its total assets invested in eligible portfolio companies, as defined in Section 2(a)(46) of the 1940 Act, or in securities that otherwise qualify for investment as permitted in Section 55(a)(1) through (6) of the 1940 Act. In the event a BDC has less than 70% of its assets in eligible or other qualified portfolio investments, then it will be prohibited from making non-eligible investments until such time as the percentage of eligible or other qualified investments again exceeds the 70% threshold. At June 30, 2001, the Fund had more than 70% of its assets in eligible and other qualified portfolio investments.

7. Investments

The Fund's investments are carried in the statements of assets and liabilities as of June 30, 2001, at fair value as determined by the Investment Advisor. The convertible debt securities held by the Fund generally have maturities between five and seven years and are convertible into the common stock of the issuer at the discretion of the Fund at a set conversion price. The common stock underlying these securities is generally unregistered and thinly to moderately traded. In certain instances, the Fund has registration rights. In addition, the Fund may sell restricted securities pursuant to Rule 144 of the Securities Act of 1933.

Interest on convertible debentures is generally payable monthly. The convertible debt securities generally contain embedded call options giving the issuer the right to call the underlying issue. In these instances, the Fund has the right of redemption or conversion. The embedded call option will generally not vest until certain conditions are achieved by the issuer. Such conditions may require that minimum thresholds be met relating to underlying market prices, liquidity, and other factors.

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.

Notes to Financial Statements

June 30, 2001

Pursuant to procedures established by the Investment Adviser, the fair value of each investment is based upon its cost to the Fund. Costs are the primary factor used to determine fair value until significant developments affecting the investee company provide a basis for use in an appraisal valuation. The fair value of debt securities and preferred securities convertible into common stock is the sum of (a) the value of such securities without regard to the conversion feature, and (b) the value, if any, of the conversion feature. The fair value of debt securities without regard to conversion features is determined on the basis of the terms of the debt security, the interest yield, and the financial condition of the issuer. The fair value of preferred securities without regard to conversion features is determined on the basis of the terms of the preferred security, its dividend, and its liquidation and redemption rights, and absent special circumstances will typically be equal to the lower of cost or 120% of the value of the underlying common stock. The fair value of the conversion features of a security, if any, are based on fair values as of the relevant date less an allowance, as appropriate, for costs of registration, if any would be required to liquidate the position, and selling expenses. Publicly traded securities, or securities that are convertible into publicly traded securities, are valued at the last sale price, or in the event an over-the-counter security has no closing price, then the security is valued at the average closing bid and asked price, as of the valuation date. While these valuations are believed to represent fair value, these values do not necessarily reflect amounts which may

be ultimately realized upon disposition of such securities.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS.

Material Changes in Portfolio Investments

The following portfolio transactions are noted for the quarter ended June 30, 2001 (portfolio companies are herein referred to as the "Company"):

Dexterity Surgical, Inc. (DEXT) In the quarter ended June 30, 2001, the Company made principal repayments on the Fund's convertible debentures of \$28,674, reducing the outstanding principal balance on the debentures to \$1,412,220.

Renaissance US Growth & Income Trust PLC ("RUSGIT") also received \$28,674 in principal repayments on its debentures in the second quarter, reducing the outstanding balance on the RUSGIT debentures to \$1,412,220.

eOriginal, Inc. (Private) In the second quarter of 2001, the Fund advanced \$500,000 to the Company in exchange for Senior Secured Promissory Notes bearing interest at 12%, payable at maturity on June 30, 2002, and are secured by all intellectual property and software owned by the company.

RUSGIT declined to participate in the follow-on investment into eOriginal. BFS US Special Opportunities Trust PLC ("BFS"), a fund that RCG sub-advises, also invested \$500,000 to purchase the Senior Secured Promissory Notes of the Company. The investment by BFS was made under the same terms and conditions as the Fund's investment.

Integrated Security Systems, Inc. (IZZI) In April 2001, the Fund advanced the Company \$150,000 pursuant to an 8% convertible promissory note, convertible into the Company's common shares at a rate of \$0.20 per share. On May 10, 2001, the Company held its annual meeting of shareholders who approved a recapitalization of the Company. Pursuant to the recapitalization, the Fund exchanged all of its debt instruments together with accrued and unpaid interest owed on that debt for two different classes of preferred stock of the Company. The Fund exchanged principal and interest in the amount of \$3,441,951 for 137,678 shares of Series G Cumulative Convertible Preferred Stock having a liquidation preference of

\$25 per share and convertible into shares of the Company's common stock at a rate of \$0.20 per share. Additionally, the Fund exchanged principal and interest equaling \$517,989 for 20,720 shares of Series Cumulative Convertible Preferred Stock having a liquidation preference of \$25 per share and convertible into shares of the Company's common stock at a rate of \$0.20 per share. Both the Series F and the Series G Preferred Stock accrue cumulative dividends payable annually in cash at the rate of \$1.25 per share per year, with the first payment coming due on March 31, 2003. Both series of Preferred stock are also entitled to voting rights as a single class on all matters on which stockholders are entitled to vote, and additionally are entitled to elect two directors to the Company's Board of Directors. The Series F Preferred is not redeemable, but the Series G Preferred is required to be redeemed upon the earlier of the sale of the Company's wholly-owned subsidiary, B&B Eltromatic, Inc. (to the extent of the net proceeds to the Company from such sale) or two years after

issuance. In the event B&B is not sold prior to the two-year period, then the redemption will occur in installments, with a redemption schedule of \$1 million in the third year, \$2 million in the fourth year, and the balance in quarterly installments beginning in the fifth year. The redemption price for the Series G Preferred is \$25 per share plus accrued and unpaid dividends.

RUSGIT also exchanged all its debt instruments together with accrued and unpaid interest owed on that debt for Series F and Series G Preferred Stock of the Company. The terms of the exchange, as well as the terms of the preferred stock held by RUSGIT, are identical to that of the Fund.

JAKKS Pacific, Inc. (JAKK) In the second quarter of 2001, the Fund sold 450,000 shares of the Company's common stock realizing proceeds of \$7,520,576 representing a gain of \$4,909,287. After the sales, the Fund still owns 87,347 shares of common stock having a basis of \$521,172.

RUSGIT also sold shares of the Company's common stock during the second quarter. In total, RUSGIT sold 100,000 shares of the Company's common stock realizing proceeds of \$1,680,648 representing a gain of \$1,297,314.

Northwestern Steel and Wire Corp. (Bankruptcy) In the second quarter of 2001, the Fund purchased unsecured bonds of the company in a market transaction. In total, the Fund obtained \$3 million in unsecured obligations of the Company for \$127,500. The bonds are not paying interest as the Company is in bankruptcy.

SiVault, Inc. In the second quarter of 2001, the Fund wrote off its entire investment in the Company as it is no longer operating. The total amount written off represented the Fund's entire \$350,000 investment in the Company.

RUSGIT also wrote off its entire investment in SiVault, Inc., in the second quarter of 2001.

Pending investment in portfolio investments, funds are invested in temporary cash accounts and in government securities. Government securities used as cash equivalents will typically consist of U. S. Treasury securities or other U. S. Government and Agency obligations having slightly higher yields and maturity dates of three months or less. These investments qualify for investment as permitted in Section 55(a)(1) through (5) of the 1940 Act.

Results of Operations for the Quarter Ended June 30, 2001

For the quarter ended June 30, 2001, the Fund had a net investment loss of \$1,319,241, compared to net investment income of \$7,235 for the three months ended June 30, 2000. The loss for the period was a result of lower investment income from interest on debt instruments and from incentive fees taken in the quarter on realized gains of the Fund's portfolio. Interest income declined from \$393,628 in the second quarter of 2000 to \$19,829 in the second quarter of 2001. Interest income has decreased due to the conversion of debt instruments into equity and from additional reserves being taken on certain instruments in the portfolio. Expenses rose 220% over the comparable quarter of 2000 due to incentive

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-Q/A

fees accrued from realized gains being taken on portfolio positions. Without the incentive fee, total expenses rose 7.3% versus the comparable period of 2000 driven primarily by increases in legal and professional fees, taxes, and other expenses, and slightly offset by a decline in management fees for the quarter based upon lower values for the assets held in the portfolio.

For the three months ended June 30, 2001, the Fund realized net gains of \$4,559,287 from the sale of a portion of its JAKKS Pacific common stock, offset by its realized loss of \$350,000 on the write off of SiVault, Inc. The Fund did not realize any gains on investments for the three months ended June 30, 2000. For the three months ended June 30, 2001, the Fund had unrealized gains on its investment portfolio in the amount of \$2,619,010 versus an unrealized loss on investments of \$18,679,683 in the second quarter of 2000, and net assets increased \$5,859,056 in the current period versus a decrease in net assets of \$18,672,488 for the comparable period a year ago.

For the six months ended June 30, 2001, total investment income declined 59 % from \$905,120 in the six months ended June 30, 2000, to \$374,557 for the six month period ended June 30, 2001. The reduction in total investment income is primarily a result of lower interest and dividend income on portfolio investments due to a combination of conversions of debt instruments into equity and as a result of impairments on certain instruments held in the portfolio.

For the six months ended June 30, 2001, the Fund realized net investment loss of \$1,309,535 versus a net investment loss of \$1,615,794 in the comparable period of 2000. The reduction in net investment loss was a result of lower incentive fees on realized gains taken by the portfolio together with lower management fees as a result of lower valuations for portfolio assets. In the first six months of 2001, the Fund had realized gains on investments of \$2,091,629, which is a result of the Fund's sale of shares of JAKKS Pacific common stock, net of realized losses taken in the first six months on investments in Voice It Worldwide, Inc., and SiVault,

Inc. This net realized gain on investments compares to an \$8,055,675 realized gain for the comparable period of 2000. In addition, for the first six months of 2001, the Fund had an unrealized gain on investments in the amount of \$5,476,742, a 14.8% decrease from the comparable period of a year ago when the Fund's unrealized gain on investments totaled \$6,424,738. The total net increase in net assets for the first six months of 2001 for the Fund is \$6,258,836, a 51% reduction in comparison to the first six months of 2000 when the increase in net assets totaled \$12,864,619.
