(1) Securities in a privately owned company.

(2) "Affiliated," in general, refers to persons owning 5% or more of the issuer or the Fund. Directors and persons owning more than 25% are Affiliated persons listed in the Controlled table.

(3) Non-Income Producing.

- (4) Plures Technologies, Inc. are securities exempt from registration under Rule 144A of the Securities Act of 1933 and may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2013, the aggregate value of the restricted common securities was \$118,448 representing 0.96% of net assets. The restricted common securities were purchased in numerous transactions between April 10, 2009, and March 31, 2011. At September 30, 2013, the value of the restricted preferred securities was \$278,942 representing 2.27% of net assets. The Fund owns 385 shares of Plures Technologies, Inc. which are not restricted but these shares would have to be sold under Rule 144. At September 30, 2013, the aggregate value of the unrestricted securities was \$335 representing less than 0.01% of net assets.
- (5) Percentage is calculated as a percentage of net assets.
- (6) These warrants represent the ability to purchase 112,501 shares of common stock of Plures Technologies at \$0.01 per share. These warrants expire on October 15, 2016 to May 8, 2017.
- (7) These options represent the Fund's ability to purchase 15,023 common shares of AnchorFree Inc. at \$0.3971 per share. These options were issued as compensation for Russell Cleveland's advisory services to the board of directors. These options expire three months after Russell Cleveland ceases to be a service provider.
- (8) "Controlled" refers to Affiliates who have the power to exercise a controlling influence over the management or policies of a company. A person who owns, directly or indirectly through another controlled company, more than 25 % of the voting securities of a company shall be presumed to control such company. A director is deemed to have control.
- (9) See Fair Value Measurements. See Page 4.
- (10) The Dynamic Green Energy ("DGE") note is in default. Due to the deteriorated situation at the company, we adjusted the value of the DGE note to zero.

Fair Value Measurements

Investments are carried in the statements of assets and liabilities at fair value, as determined in good faith by RENN Group, subject to the approval of the Fund's Board of Directors. The fair values reported are subject to various risks including changes in the equity markets, general economic conditions, and the financial performance of the companies. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is possible that the amounts reported in the accompanying financial statements could change materially in the near term.

The Fund generally invests in common securities, preferred securities, convertible and nonconvertible debt securities and warrants. These securities may be unregistered and thinly-to-moderately traded. Generally, the Fund negotiates registration rights at the time of purchase and the portfolio companies are required to register the shares within a designated period, and the cost of registration is borne by the portfolio company.

On a weekly basis, RENN Group prepares a valuation to determine fair value of the investments of the Fund. The Board of Directors approves the valuation on a quarterly basis. Interim board involvement may occur if material issues arise before quarter end. The valuation principles are described below.

Unrestricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price on the date of valuation. Thinly traded unrestricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price on the date of valuation, less a marketability discount as determined appropriate by the Fund Managers and approved by the Board of Directors.

Restricted common stock of companies listed on an exchange, NASDAQ or in the over-the-counter market is valued based on the quoted price for an otherwise identical unrestricted security of the same issuer that trades in a public market, adjusted to reflect the effect of any significant restrictions.

The unlisted preferred stock of companies with common stock listed on an exchange, NASDAQ or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation.

Debt securities are valued at fair value. The Fund considers, among other things, whether a debt issuer is in default or bankruptcy. It also considers the underlying collateral. Fair value is generally determined to be the greater of the face value of the debt or the market value of the underlying common stock into which the instrument may be converted. U.S. Treasuries are marked to market.

The unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, NASDAQ or in the over-the-counter market are valued at fair value (the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option). An out-of-the money warrant or option has no value; thus the Fund assigns no value to it.

Investments in privately held entities are valued at fair value. If there is no independent and objective pricing authority (i.e., a public market) for such investments, fair value is based on the latest sale of equity securities to independent third parties. If a private entity does not have an independent value established over an extended period of time, then the Investment Adviser will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

The Fund follows the provisions of Accounting Standards Codification ASC 820, Fair Value Measurements, under which the Fund has established a fair value hierarchy that prioritizes the sources (“inputs”) used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (Level 1 inputs); observable inputs based on corroboration with available market data (Level 2 inputs); and unobservable inputs based on uncorroborated market data or a reporting entity’s own assumptions (Level 3 inputs).

RENN Global Entrepreneurs Fund, Inc.
Third Quarter Report
September 30, 2013 (Unaudited)

The following table shows a summary of investments measured at fair value on a recurring basis classified under the appropriate level of fair value hierarchy as of September 30, 2013:

	Level 1	Level 2	Level 3	Total
Convertible Bonds	\$ -	\$100,000	\$ -	\$ 100,000
Convertible Debt	-	-	97,875	97,875
Convertible Preferred Equities	-	1,446,421	278,942	1,725,363
Common stock	8,527,721	-	118,783	8,646,504
Miscellaneous Securities	-	92,971	96,751	189,722
Total Investments	\$ 8,527,721	\$ 1,639,392	\$ 592,351	\$ 10,759,464

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

Level 3	
Beginning balance – June 30, 2013	\$ 746,524
Transferred from Level 2 to Level 3	0
Changes in unrealized gain or loss	(154,173)
Ending Balance - September 30, 2013	\$ 592,351

The Fund has adopted a policy of recording any transfers of investment securities between the different levels in the fair value hierarchy as of the end of the year unless circumstances dictate otherwise. There were no transfers between levels during the quarter ending September 30, 2013.

Two portfolio companies are being classified as Level 3. These portfolio companies are being valued at fixed prices because the market data pertaining to these portfolio companies is non-existent or unreliable.

Dynamic Green Energy is a private company with significantly declining revenues. Earnings and shareholders' equity are negative as of June 30, 2013, the last financial report furnished to the Fund, and key members of management

have resigned. Accordingly, the asset has been assigned a value of zero as of December 31, 2012. It is unlikely, that the Fund will receive funds in a disposition of assets. The valuation technique used was the cost approach.

Plures Technologies, Inc. (MANY) trades infrequently. For example, for the 64 trading days ended September 30, 2013, Plures stock traded only 14 of those days. This has resulted in an unpredictable and unreliable market price. As of September 30, 2013, the stock price was \$0.15. Meanwhile, Plures recently issued private debt, convertible between \$1.00 and \$1.60, with warrants struck at \$0.01. As of September 30, 2013, the Fund carried Plures at \$0.87 per share. The valuation techniques used were the income and market approaches.
