Item 1. Annual Report to Shareholders

ANNUAL REPORT TO SHAREHOLDERS
OF
RENN GLOBAL ENTREPRENEURS FUND, INC.

December 31, 2013

Dear Shareholders,

Both the economy and the stock market were positive in 2013. Our net asset value varied between \$2.36 per share to \$2.89 with a close at \$2.36. A relatively small move in several of our positions can create a change of more than 10% in net asset value.

Of these, Bovie Medical (NYSE-Amex:BVX) is a prime example. The stock traded as high as \$4.79 earlier in the year and closed at \$2.15 per share. Our Fund currently holds 550,000 shares. In January 2014 a new Chief Executive Officer joined Bovie to focus on rolling out the revolutionary new surgical system, J-Plasma. Robert Gershon, the new CEO, has had a long successful career in the medical field including running US Surgical, a billion dollar company. I am very optimistic about the potential here. I have always thought Bovie should sell at a minimum of \$10 - \$20 per share. At \$20 Bovie would be worth as much as the entire current portfolio.

AnchorFree, Inc., a privately held company, had a good year with new subscribers going from 100 million to 200 million. The company provides privacy, security and access worldwide. The media attention on government invading privacy is aiding growth. We are carrying the value at the last sale which occurred in 2012. AnchorFree could be acquired or go public at sometime. The long-term vision of AnchorFree is to serve over one billion customers.

Flamel Technologies (NASDAQ:FLML), a specialty pharmaceutical company, had a drug approved by the FDA in 2013. The stock more than doubled going from \$3.25 on January 2, 2013 to \$10.17 on February 21, 2014. New FDA approvals are on the way. We can see this stock moving higher in 2014.

iSatori, Inc. (OTC:IFIT), a consumer products company that provides nutritional, weight loss, energy and nutritional products, got off to a slow start but ended with a record fourth quarter. The company in 2013 entered into mass market distribution with Wal-Mart and Walgreens selling their energy products. 2014 is looking encouraging for iSatori. Our Fund owns more than 1.2 million shares.

Points International (NASDAQ:PCOM) had an outstanding year, rising from \$11.25 on January 2, 2013 to \$30.87 on February 21, 2014. The company is a leader in the loyalty industry with airline mileage being the biggest aspect of the business. The company is looking for revenues to exceed \$300 million in 2014. Our investment of \$280,000 is worth approximately \$1.6 million as of February 21, 2014.

On the negative side, Plures Technologies (OTC:MANY) has not performed and the future is in doubt. The position has been written down to only \$169,000 so it is no longer a significant holding. On the recovery side, PetroHunter Energy (OTCP:PHUN) sold an Australian subsidiary and received \$3 million in cash and approximately 100 million shares of Falcon Oil & Gas, Ltd (OTC:FOLGF). This could create value for the Fund.

In conclusion, I believe our Fund could be in for some good years. In the past, we have distributed substantial gains and hope to do this again in the future.

Sincerely,

Russell Cleveland
President and CEO

Note 1 Organization and Business Purpose

RENN Global Entrepreneurs Fund, Inc. (the “Fund”), is a registered, non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Fund, a Texas corporation, was organized and commenced operations in 1994 and is registered under and pursuant to the provisions of Section 8(a) of the 1940 Act.

The investment objective of the Fund is to provide its stockholders primarily with long-term capital appreciation by investing substantially in privately-placed convertible and equity securities of emerging growth companies traded on U.S. securities exchanges.

RENN Capital Group, Inc. (“RENN Group”), a Texas corporation, serves as the Investment Adviser to the Fund. In this capacity, RENN Group is primarily responsible for the selection, evaluation, structure, valuation, and administration of the Fund’s investment portfolio, subject to the supervision of the Board of Directors. RENN Group is a registered investment adviser under the Investment Advisers Act of 1940, as amended.

Note 2 Summary of Significant Accounting Policies

Valuation of Investments

All investments are stated at their estimated fair value, as described in Note 5.

Revenue Recognition

The Fund recognizes realized gain/loss in the period of the sale based upon the identified cost basis. Change in unrealized gain/loss is reflected during the period of the change. Dividend income is recorded on the record date. Interest income is recorded as earned on an accrual basis. For debentures that are late in making payments as scheduled in the note agreements, the Fund determines whether to continue accruing interest on the note based upon the current circumstances facing the companies. The Fund reserves any dividends or interest income which is deemed to be potentially uncollectible based upon an analysis of several factors used in assessing the financial condition of each company.

Cash and Cash Equivalents

As of December 31, 2013, cash and cash equivalents are at risk to the extent that they exceed Federal Deposit Insurance Corporation insured amounts. The Fund has not experienced any losses as a result of this risk. The Fund considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents. As of December 31, 2013, cash equivalents were held in the Federated Prime Obligations Fund which is not covered by depository insurance.

RENN Global Entrepreneurs Fund, Inc.
Notes to Financial Statements
December 31, 2013

Note 2 Summary of Significant Accounting Policies, continued

Income Tax

The Fund has elected the special income tax treatment available to “regulated investment company” (“RIC”) under Subchapter M of the Internal Revenue Code (“IRC”) which allows the Fund to be relieved of federal income tax on that part of its net investment income and realized capital gain that it pays out to its stockholders. The requirements to qualify for RIC status include, but are not limited to certain qualifying income tests, asset diversification tests and distribution of substantially all of the Fund’s taxable investment income to its stockholders. It is the intent of management to comply with all IRC requirements as they pertain to a RIC and to distribute all of the Fund’s taxable investment income and realized long-term capital gain within the defined period under the IRC to qualify as a RIC. Failure to qualify as a RIC would subject the Fund to federal income tax as if the Fund were an ordinary corporation, which could result in a substantial reduction in the Fund’s net assets as well as the amount of cash available for distribution to stockholders. Continued qualification as a RIC requires management to satisfy certain investment diversification requirements in future years. There can be no assurance that the Fund will qualify as a RIC in future years.

Federal income taxes payable on behalf of stockholders on realized capital gain that the Fund elects to retain are accrued and reflected as tax expense paid on behalf of stockholders on the last day of the tax year in which such gain is realized.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures in the financial statements. Actual results could differ from these estimates.

Note 3 Due to/from Broker

The Fund conducts business with various brokers for its investment activities. The clearing and depository operations for the investment activities are performed pursuant to agreements with these brokers. “Due from broker” represents unsettled sales transactions. “Due to broker” represents a margin loan payable to these brokers, which is secured by cash maintained with the lending broker as collateral for the margin loan. The Fund is subject to credit risk to the extent the brokers are unable to deliver cash balances or securities, or clear security transactions on the Fund’s behalf. RENN Capital Group, Inc., the investment adviser, actively monitors the Fund’s exposure to these brokers and believes the likelihood of loss under those circumstances is remote. At December 31, 2013, there were no amounts “due from broker” or “due to broker.”

RENN Global Entrepreneurs Fund, Inc.
Notes to Financial Statements
December 31, 2013

Note 3 Due to/from Broker, continued

The terms on a margin loan are governed by federal regulation and by the rules of Financial Industry Regulatory Authority (“FINRA”) and the securities exchanges. In general under Federal Reserve Board Regulation T, firms can lend a customer up to 50% of the price of a security and 90% of a United States Treasury Bill. The rules of FINRA and the exchanges supplement the requirements of Regulation T by placing “maintenance” margin requirements on customer accounts. Under the rules of the broker, equity in the account must not fall below 30% of the current market value of the securities in the account that have a market value above \$6.625 or \$2.00 per share for securities that have a market value between \$2.125 and \$6.625. The failure to do so may cause the firm to force the sale of or liquidate the securities in the account in order to bring the account’s equity back to the required level. The loan is not made for any specific term or duration but is due and payable at the brokerage firm’s discretion. Federal regulations under the 1940 Act require that the Fund maintain 300% asset coverage in relation to any borrowed amount.

During the year ended December 31, 2013, the Fund paid \$17,146 in interest expense on margin loans.

Note 4 Management Fees and Reimbursement

Pursuant to an Investment Advisory Agreement (the “Agreement”) effective May 15, 2009, RENN Group performs certain services, including certain management, investment advisory and administrative services necessary for the operation of the Fund. In addition, under the Agreement, the Investment Adviser is reimbursed by the Fund for certain directly allocable administrative expenses. A summary of fees and reimbursements paid by the Fund under either the Agreement or the prospectus is as follows:

RENN Group receives a management fee equal to a quarterly rate of 0.4375% of the Fund’s net assets, as determined at the end of each quarter, each payment to be due as of the last day of the calendar quarter. The Fund incurred \$212,134, during the year ended December 31, 2013, for such management fees.

The Investment Adviser was reimbursed by the Fund for directly allocable administrative expenses paid by the Investment Adviser on behalf of the Fund. Such reimbursements were \$36,824 during the year ended December 31, 2013.

Note 5 Valuation of Investments

Investments are carried in the statements of assets and liabilities at fair value, as determined in good faith by RENN Group, subject to the approval of the Fund’s Board of Directors. The fair values reported are subject to various risk including changes in the equity markets, general economic conditions, and the financial performance of the companies. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is possible that the amounts reported in the accompanying financial statements could change materially in the near term.

The Fund generally invests in common securities, preferred securities, convertible and nonconvertible debt securities, and warrants. These securities may be unregistered and thinly-to-moderately traded. Generally, the Fund negotiates registration rights at the time of purchase and the portfolio companies are required to register the shares within a

designated period, and the cost of registration is borne by the portfolio company.

RENN Global Entrepreneurs Fund, Inc.
Notes to Financial Statements
December 31, 2013

Note 5 Valuation of Investments (continued)

On a weekly basis, RENN Group prepares a valuation to determine fair value of the investments of the Fund. The Board of Directors approves the valuation on a quarterly basis. Interim board involvement may occur if material issues arise before quarter end. The valuation principles are described below.

Unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation. Thinly traded unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation, less a marketability discount as determined appropriate by the Fund Managers and approved by the Board of Directors.

Restricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued based on the quoted price for an otherwise identical unrestricted security of the same issuer that trades in a public market, adjusted to reflect the effect of any significant restrictions.

The unlisted preferred stock of companies with common stock listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation.

Debt securities are valued at fair value. The Fund considers, among other things, whether a debt issuer is in default or bankruptcy. It also considers the underlying collateral. Fair value is generally determined to be the greater of the face value of the debt or the market value of the underlying common stock into which the instrument may be converted.

The unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, NASDAQ or in the over-the-counter market are valued at fair value (the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option). An out-of-the money warrant or option has no value; thus the Fund assigns no value to it.

Investments in privately held entities are valued at fair value. If there is no independent and objective pricing authority (i.e., a public market) for such investments, fair value is based on the latest sale of equity securities to independent third parties. If a private entity does not have an independent value established over an extended period of time, then the Investment Adviser will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

The Fund follows the provisions of Accounting Standards Codification ASC 820, Fair Value Measurements, under which the Fund has established a fair value hierarchy that prioritizes the sources (“inputs”) used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (Level 1 inputs); observable inputs based on corroboration with available market data (Level 2 inputs); and unobservable inputs based on uncorroborated market data or a reporting entity’s own assumptions (Level 3 inputs).

Note 5 Valuation of Investments, continued

The following table shows a summary of investments measured at fair value on a recurring basis classified under the appropriate level of fair value hierarchy as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Convertible Bonds	\$ 0	\$ 138,125	\$0	\$ 138,125
Convertible				
Preferred Equities	0	1,525,621	0	1,525,621
Common stock	7,266,955	34,133	0	7,301,088
Miscellaneous				
Securities	0	119,971	0	119,971
Total Investments	\$7,266,955	\$1,817,850	\$0	\$9,084,805

See page 2, Schedule of Investments for a breakdown of the valuation by industry type.

The following is a reconciliation of assets in Level 3:

Level 3	
Beginning balance – December 31, 2012	\$ 1,562,060
Moved from Level 3 to Level 2	(169,414)
Realized loss	(199,150)
Changes in unrealized gain or loss	(1,193,496)
Ending Balance – December 31, 2013	\$ 0

The Fund has adopted a policy of recording any transfers of investment securities between the different levels in the fair value hierarchy as of the end of the year unless circumstances dictate otherwise. The transfers out of Level 3 identified above were due to sales and changes in the observability of the inputs used by the Fund to estimate the fair value of certain securities.

iSatori Technologies, Inc. (“iSatori”) (IFIT) shares were restricted through April 2013. Prior to April 2013, a discount for lack of marketability was applied. As such, prior to April 2013, iSatori was categorized as a Level 2 holding. After April 2013, iSatori shares were no longer restricted; and the discount was eliminated. Now that the shares are being marked to market with no discount, iSatori is being categorized as a Level 1 holding.

At December 31, 2012, Plures Technologies, Inc. (“Plures”) (MANY) was valued at a fixed price of \$2.64 based on a recent private investment in public equity (PIPE) transaction, which was executed at an above-market rate and was classified as a Level 3 security. During the course of 2013, Plures raised additional funds at progressively lower prices (but still at above-market rates) via additional PIPEs. In December 2013, Plures financial difficulties necessitated a change from a fixed price convention based on above-market PIPE transactions to the lower market

price, which at year end was \$0.25. Because the stock trades infrequently (only eleven trades from September 1, 2013, through December 31, 2013) Plures has been classified as Level 2 security.

Note 5 Valuation of Investments, continued

One portfolio company is being classified as Level 3.

Dynamic Green Energy is a private company with significantly declining revenues. Earnings and shareholders' equity are negative as of June 30, 2013, and key members of management have resigned. Accordingly, the asset was assigned a value of zero as of December 31, 2013. It is possible, but unlikely, that the Fund would receive some nominal amount in a disposition of assets. The valuation technique used was the cost approach.

Quantitative Information about Level 3 Fair Value Measurements

Portfolio Company Investment	Value at 12/31/13	Valuation Technique	Unobservable Input	Range	Weighted Average
Convertible Bond	\$0	Cost Approach	Equity Deficit	\$0-\$33,400,000	\$0
Total Level 3	\$0				

Note 6 Income Taxes

During 2013 management has followed a policy of distributing all of the Fund's taxable investment income and realized capital gain within the defined period under the IRC to ensure that any federal income tax on such income, if any, is paid by the Fund's stockholders. During the year ended December 31, 2013, there was no taxable investment income or net realized long-term capital gain, and therefore no declaration of any distributions. As of December 31, 2013, the Fund had a tax loss carryforward of \$9,002,307 for the year ended December 31, 2013, which is available to offset future realized gains for a period of up to four years, and a tax loss carry forward of \$97,082, which is available to offset future realized capital gains for a period of up to five years. In addition the Fund has a tax loss carryforward of \$8,513,880 as of December 31, 2013, which is available to offset future realized capital gains, with no expiration on the tax benefits under the Regulated Investment Company Modernization Act of 2010. The Fund had no undistributed net income as of December 31, 2013. Tax returns filed within the prior three years are subject to examination by federal and state tax authorities.

These options will expire three months after Russell Cleveland ceases to be on the Board of Directors. In April 2011, the Fund purchased 277,778 shares of AnchorFree from Global Special Opportunities Trust, a fund for which RENN Capital Group acted as investment advisor. The Fund received \$11,444 in cash and an agreement that the fund will receive 15,023 shares at no cost when the options are exercised. Board Member Attributes. The following is a summary of some of the experience, skills and attributes that led to the conclusion that each member should serve as a director for the Fund:

Russell Cleveland, the Chairman, brings more than 50 years of experience in the investment business, 40 years of which were spent as a portfolio manager specializing in multiple classes of securities of small private and publicly traded companies. He is a graduate of the Wharton School of Business and has appeared on CNBC numerous times as a small cap analyst. He has been a Director of the Fund since its inception.

Charles C. Pierce, Jr. is a retired Vice Chairman of Dain Rauscher, Inc., former President of the Texas Stock and Bond Dealers Association, and former Chairman of the South Central District of the Securities Industry Association covering Texas, Oklahoma, New Mexico, Kansas, and Colorado, and has been a Director of the Fund since 2002.

J. Philip McCormick has been an independent investor and corporate adviser since 1999. He is Senior Adviser to Stonehenge Growth Capital Company. Prior to 1999 he practiced public accounting for 26 years (1965-1991) and was a senior financial officer in three public companies (1991-1998). He has been a Director of the Fund since 2006.

Ernest C. Hill was an Assistant Professor of Finance with Southern Methodist University and an Associate Director of the Southwestern Graduate School of Banking, and was instrumental in the formation of an Entrepreneurial Seminar for the Southern Methodist School of Business. He was awarded a Ford Fellowship to the Stanford School of Business, where he received an MBA with honors in Investment and Finance. Consideration of Diversity in Board Membership. In selecting and re-electing board members, consideration is given to the presence on the Board of a broad spectrum of business acumen and personal perspectives. The Fund has members who bring experience in banking and finance, executive management of corporations, directorship, and success with entrepreneurial challenges, among others. The Fund intends to keep a diversity of skills and attitudes in its board makeup and assesses those qualities in any present director or one who is being considered for nomination to the Board.

Board Oversight of Risk. The Board endeavors to forestall risk by its development of fundamental investment policies for approval by the shareholders and other policies which are more flexible for the Adviser's activities on the Fund's behalf. The Board is also involved in the assessment and monitoring of risk by virtue of its review of the Fund's investment activities, noting whether the portfolio has industry or geographic susceptibilities, the appointment of the Adviser's portfolio managers to directorships on portfolio boards when indicated, and by review of the financial particulars of the Fund, including any occasions of debt. It also considers the strength of the Adviser's staff to provide uninterrupted investment and administrative services to the Fund.

Board Leadership Structure. The Board has determined that Mr. Cleveland's dual role as the Fund's Chief Executive Officer and Chairman of the Board is appropriate for this Fund. Mr. Cleveland is an "interested person" in the Fund, giving him an additional incentive for its good performance and protection. He has foregone compensation from the Fund for both roles except for his indirect benefit from the Adviser's management fee based on growth of the Fund's asset values and the growth in the market value of the Fund's stock that he owns indirectly. The appointment of a separate person serving as chairman would likely require the Fund to incur additional fee expense for the position, which the Board feels is unwarranted. The Board feels that its considerable oversight of risk fuses well with the Board's leadership structure.

Quarterly Reports

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. A copy of each such Form N-Q is available on the SEC's website at www.sec.gov. Such forms may also be reviewed and copied at the SEC Public Reference Room in Washington, D.C., and you may call the Public Reference Room at 1-800-SEC-0330 for information on its hours, etc.

Item 2. Code of Ethics.

The Fund has adopted a Code of Ethics applicable to the Fund's principal executive officer, principal accounting officer, and persons designated by the Chief Executive Officer as performing similar functions, as required by Regulation S-K Item 406. The Fund posts such Code of Ethics on the Fund's website located at www.rencapital.com and intends to disclose material amendments or waivers of the Code of Ethics by posting promptly to the Fund's website. During the period covered by this report, there has been no amendment or waiver regarding such Code of Ethics.

Item 3. Audit Committee Financial Expert.

The Registrant's Board of Directors has determined that J. Philip McCormick is qualified to serve as financial expert on its audit committee and that he is "independent," as defined by the U.S. Securities and Exchange Commission.

Item 4. Principal Accountant Fees and Services.

The following table presents fees paid by the Fund for professional services rendered by BKD, LLP and Malin, Bergquist & Company, LLP for the years ended December 31, 2013 and 2012, respectively.

Fee Category	2013 Fees	2012 Fees
Audit Fee	\$ 73,150	\$ 72,000
Audit-Related Fees	\$ -	\$ -
Tax Fees	\$ -	\$ -
All Other Fees	\$ -	\$ -
Total Fees	\$ 73,150	\$ 72,000

Audit Fees were for professional services rendered for the audit of the Fund's annual financial statements. No non-audit fees were paid to the independent audit firm of BKD, LLP for 2013 or to Malin, Bergquist & Company, LLP for 2012.

The Audit Committee generally requires pre-approval of engagements for all auditor services, which proposed services must be described in detail and which auditor must have been determined by the Audit Committee as independent. One factor used by the Audit Committee in its assessment of an auditor's independence is the amount of non-audit services performed for the Fund or its affiliates. Any non-audit services which were not specified at the onset but which are made known to the Audit Committee and approved by it prior to the completion of an audit will be deemed pre-approved to the extent that the amount is less than five percent of the total auditor service fees for the year. In the ordinary course of its duties the Chairman of the Audit Committee would be the member who would sign any pre-approval. However, in his absence or incapacity any one of the other members of the Audit Committee may sign if the approval is time-sensitive and a majority of the other available members of the Audit Committee agreed to which member would be the signatory.

The Fund does not ordinarily engage the auditor for non-audit services, and no non-audit services were approved or provided for the period covered by this report.

Item 5. Audit Committee of Listed Registrants.

The Registrant has an Audit Committee which was established by the Board of Directors of the Fund in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The members of the Registrant's Audit Committee are Ernest Hill (Chairman), J. Philip McCormick and Charles Pierce, Jr.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The Fund has delegated its proxy voting responsibility to its Investment Adviser, RENN Capital Group, Inc. (“RENN Group”). The Proxy Voting Policies and Procedures of RENN Group are set forth below. The guidelines are reviewed periodically by RENN Group and the Fund’s independent directors, and, accordingly, are subject to change. For purposes of these Proxy Voting Policies and Procedures described below, “we” “our” and “us” refers to RENN Group.

“Introduction

As an investment adviser registered under the Advisers Act, we have a fiduciary duty to act solely in the best interests of our clients. As part of this duty, we recognize that we must vote client securities in a timely manner free of conflicts of interest and in the best interests of our clients.

These policies and procedures for voting proxies for our investment advisory clients are intended to comply with Section 206 of, and Rule 206(4)-6 under, the Advisers Act.”

“Proxy Policy

We vote proxies relating to our portfolio securities in the best interest of our clients’ shareholders. We review on a case-by-case basis each proposal submitted to a shareholder vote to determine its impact on the portfolio securities held by our clients. Although we generally vote against proposals that may have a negative impact on our clients’ portfolio securities, we may vote for such a proposal if there exists compelling long-term reasons to do so.

Our proxy voting decisions are made by the senior officers who are responsible for monitoring each of our clients’ investments. To ensure that our vote is not the product of a conflict of interest, we require that: (i) anyone involved in the decision-making process disclose to our Chief Compliance Officer any potential conflict that he or she is aware of and any contact that he or she has had with any interested party regarding a proxy vote; and (ii) employees involved in the decision-making process or vote administration are prohibited from revealing how we intend to vote on a proposal in order to reduce any attempted influence from interested parties.”

Item 8. Portfolio Managers of Closed-End Management Investment Companies, continued

As employees of the Adviser, each of the foregoing Portfolio Managers is also responsible for the day-to-day management of the portfolios of two foreign funds, none of which is an investment company registered in the United States or a pooled investment vehicle. The total assets managed for those funds are \$102,311,062 as of December 31, 2013.

The Portfolio Managers are employed by RENN Capital Group, Inc., which is the Investment Adviser to the Fund. The Portfolio Managers are compensated by annual salaries and occasional bonuses. Bonuses are generally paid when one or more of the Adviser's managed funds pay an incentive fee. Two of the Adviser's three managed funds have incentive fee arrangements. The Fund does not have an incentive fee arrangement. Investment opportunities that are appropriate for the Fund are considered concurrently with the assessment of the opportunity for the Adviser's other clients, and the amount prorated to the Fund is determined according to SEC guidelines for permitted co-investments, which proration is reviewed by the Fund's Board of Directors.

Russell Cleveland is the only Portfolio Manager that has beneficial ownership in the Fund, and it was more than \$1,000,000 as of December 31, 2013.
