Independent Auditors Report
**The Compensation Committee of the
Board of Directors of
Linens n Things, Inc.:**

We have audited the accompanying statements of financial condition of the Linens n Things, Inc. Deferred Compensation Plan (the Plan) as of December 31, 2001 and 2000, and the related statements of income and changes in plan equity, with Fund Information for each of the years in the three-year period ended December 31, 2001. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of the Plan as of December 31, 2001 and 2000 and the income and changes in plan equity of the Plan for each of the years in the three-year period ended December 31, 2001 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The Fund Information in the statements of income and changes in plan equity is presented for purposes of additional analysis rather than to present the income and changes in Plan equity for each fund. The Fund Information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**LINENS N THINGS, INC.
DEFERRED COMPENSATION PLAN**

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Linens n Things, Inc. Deferred Compensation Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan documents for more complete information.

General

The Plan is sponsored by Linens n Things, Inc., (the Company). The Plan was established to enable key employees of the Company to defer compensation, including stock and stock denominated awards, for personal income tax purposes. The participant directed, non-qualified Plan was adopted on December 30, 1996 and is treated as a plan maintained for a select group of management or highly compensated individuals under the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is not taxable as a separate entity under the Internal Revenue Code as the Plan is intended to be a grantor trust, of which the Company is the grantor, within the meaning of subpart E, part 1, subchapter J, Chapter 2, subtitle A of the Internal Revenue Code of 1986, as amended.

Eligibility and Vesting

The Plan covers key employees, as designated by the Company. Participation is voluntary and participants can elect to make contributions to the Plan. Participants can defer up to 100% of their annual base pay over the social security limit of \$80,400 and \$76,200 for the years ended 2001 and 2000, respectively, all or part of their bonus or part of any vested restricted stock. Participants are 100% vested in their own deferrals to the Plan at all times.

Participant Accounts

An account is maintained for each participant in the Plan, which shows the participant s separate interest in each investment fund of the Plan. Each participant shall elect the allocation of contributions to specific funds within the Plan. The participant s account is credited, as of the end of each month, with the amount of deferred compensation contributed and the appropriate investment income or loss of each fund.

Edgar Filing: LINENS N THINGS INC - Form 11-K

Participants are eligible for distribution of their benefits in cash or Company common stock (if the participant has invested in Company common stock) upon retirement, death, termination of service, in the event of a designated change of control of the Company, and in the event of immediate unexpected financial needs of the participant subject to approval of the Compensation Committee, as the Plan is not subject to the hardship rules of Section 401 of the Internal Revenue Code. In the event of a change in control, payments in settlement of a participant's account shall be made within fifteen business days following such change in control.

Grantor Trust

The Plan is intended to constitute an unfunded plan for deferred compensation purposes. Participants rely solely on the unsecured promise of the Company for plan payments. However, the Company established a Grantor (Rabbi) Trust (the Trust) to hold assets, which may be used to satisfy its obligations under the Plan. The Trust shall be governed by and subject to the terms of a trust agreement entered into between the Company, as grantor, and the trustee, Prudential Trust Company.

Investments

A description of the Plan's investments for the years ended December 31, 2001, 2000 and 1999 are as follows:

Alliance Premier Growth A Fund This fund seeks long-term growth of capital. The fund normally invests at least 85% of assets in domestic equities including stocks, convertibles, and warrants. The portfolio typically holds 40 stocks, 25 of which usually constitute approximately 70% of assets.

2. Summary of Significant Accounting Policies

a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

b) Investment valuation

The Plan's investments consist of mutual funds, money market funds and a Company common stock fund. The Plan's investments are presented at their fair market values based on quoted market prices of the funds or their underlying securities. Purchases and sales of investments are recorded on a trade-date basis. Realized gains and losses from security transactions are based on the first-in, first out method. Dividends are recorded on the ex-dividend date. Interest is recorded when earned.

3. Plan Termination

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. In the event the Plan is terminated, all sums credited to individual accounts would be distributed to participants.

4. Recent Accounting Pronouncements

The Plan is required to adopt Statement of Financial Standards (SFAS) No. 133 Accounting for Derivative Instruments and Hedging Activities (SFAS No. 133). This statement was effective for the first quarter of fiscal years beginning after June 15, 2000. For the Plan, implementation was required for the first quarter of fiscal 2001. The Plan has determined that the implementation of SFAS No. 133 did not have a significant effect on the Plan.

5. Use of Estimates

In preparing the Plan s financial statements, management has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to present these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

6. Risks and Uncertainties

The assets of the Plan are primarily financial instruments, which are monetary in nature. As a result, interest rates and equity markets have a more significant impact on the Plan s performance than the effects of general levels of inflation. Interest rates and equity markets do not necessarily move in the same direction or in the same magnitude as the prices of goods and services as measured by the consumer price index. Investments are subject to risk conditions of the individual fund objectives, the stock market, interest rates, economic conditions and world affairs. The Plan s exposure to a concentration of credit risk is limited by the diversification of investments across participant-directed fund election. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments with the exception of Linens n Things Inc. Common Stock Fund which principally invests in a single security.

7. Administrative Expenses

All administrative costs of the Plan are borne by the Company.
