(unaudited)

Dear Shareholder:

China continues to be an important area of focus for us, as it has become an important part of the world economy and as it currently offers interesting investment opportunities as well.

Together with continued liberalization within the country, the government has also moved to provide access to local markets to those outside the country. In November, the Shanghai-Hong Kong Stock Connect program was launched, which began providing access to over 550 A-share stocks not previously available to investors outside the mainland.

The Chinese government appears also to recognize that small, non-government-backed firms, so important when it comes to fostering innovation, often struggle to access capital because large banks generally do not offer them financing.¹ As such, the Small and Medium Enterprise (SME) and ChiNext Boards were established (the former under the Shenzhen Stock Exchange (SZSE) and the latter as a wholly owned but independent arm of the SZSE), to help promote private innovation in the public markets.² As of December 31, 2014, a total of 732 companies were listed on the SME Board with a combined market value of \$823.52 billion, while 406 companies traded on the ChiNext Board with a combined market value of \$352.43 billion.³

According to the World Trade Organization, at the start of 2014, SMEs in China were contributing 60% of the country's GDP and 75% of its urban employment opportunities⁴ In addition, we are seeing the information technology, consumer discretionary and staples, and health care sectors becoming the drivers of what has been called China's "New Economy".

Contributions of SMEs in China:

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

On July 23 this year, we were excited to announce the launch of the Market Vectors ChinaAMC SME-ChiNext ETF (NYSE Arca: CNXT), a new fund which seeks to provide not only exposure primarily to China's market for innovative, non-government owned companies, but also to the very sectors that are increasingly recognized as underpinning the growth of China's New Economy. CNXT gives investors a liquid, transparent way to gain access to some of these growing companies.

Market Vectors continues to be an industry leader in offering single-country and region-specific equity ETFs. When performance varies so widely between countries and regions, it is all the more important to be able to select your focus. The suite of Market Vectors country and regional ETFs give you the flexibility to do just that, and we at Van Eck Global also continue to look for ways to enhance your access to the markets you choose and to seek out and evaluate the most attractive opportunities for you as a shareholder in the international space.

Please stay in touch with us through our website (<http://www.marketvectorsetfs.com>) on which we offer videos, email subscriptions and educational literature, all of which are designed to keep you up to date with your investments in Market Vectors ETFs.

Management Discussion (unaudited)

The performance of funds in the suite of Market Vectors International ETFs was predominantly positive during the 12 month period. Eight funds, from a total of 13 that traded for the entire period under review, posted positive total returns. The top two performing funds, each returning more than 40% over the 12 month period, were Market Vectors ChinaAMC A-Share ETF (NYSE Arca: PEK) (+49.11%) and Market Vectors India Small-Cap Index ETF (NYSE Arca: SCIF) (+43.65%). Five funds reported negative performance over the period: Market Vectors Africa Index ETF (NYSE Arca: AFK) (-12.86%), Market Vectors Brazil Small-Cap ETF (NYSE Arca: BRF) (-25.19%), Market Vectors Poland ETF (NYSE Arca: PLND) (-16.90%), Market Vectors Russia ETF (NYSE Arca: RSX) (-44.95%), and Market Vectors Russia Small-Cap ETF (NYSE Arca: RSXJ) (-52.67%).

January 1 through December 31, 2014

Market Vectors International ETFs Total Return

Note: Market Vectors ChinaAMC SME-ChiNext ETF (NYSE Arca: CNXT) is not included above as it was launched on July 23, 2014.

Source: Van Eck Global. Returns based on each Fund's net asset value (NAV). The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

Country/Regional Overviews

Africa

The energy sector was the greatest detractor from performance for the 12 month period. The consumer discretionary, health care, financial, and telecommunication services sectors all provided small positive contributions to overall

performance. Large- and mid-cap companies were the greatest detractors from performance, with mid-caps detracting significantly more than the large-cap grouping of companies. Geographically, South Africa and Egypt were the two most significant contributors to return, and Nigeria detracted the most from performance.

Brazil

Though the first half of 2014 was a challenging one for Brazil, the Fund recorded modest positive performance for the six month period. The second half of the year, however, proved to be even more challenging, with the Fund recording a significant negative return for the entire 12 month period. Uncertainties surrounding the outcome of the elections were finally dispelled when President Dilma Rousseff, following a second round run-off, was reelected¹ on

MARKET VECTORS INTERNATIONAL ETFs

(unaudited)

October 26 with a narrow victory over Aécio Neves. Prospects of any much-needed economic reforms and budget cuts before the end of the year never materialized. No sector except healthcare, and then only minimally, contributed positively to return over the 12 month period. The consumer discretionary, financial, and industrial sectors were the three greatest detractors from performance.

China

2014 saw the government pass numerous reforms to provide necessary adjustments to the economy and attempt to spur growth through various measures, including a surprising interest rate reduction in November which represented the first such cut in over two years. More broadly, the government continued to undertake measures to move the economy away from one driven primarily by investment to one powered by domestic consumption. Quarterly GDP growth consistently fell below the government's 7.5% target, and by the end of the year, it was generally accepted that 7.0% growth in 2015 will have to serve as the "new normal". The A-share equity market, while extremely sluggish during the first half of 2014, finally began to pick up during the second half of year, driven by anticipation of the Shanghai-Hong Kong Stock Connect program, which began providing access to over 550 A-share stocks not previously available to investors outside the mainland in November, as well as by the aforementioned interest rate cut.

Performance of the Market Vectors ChinaAMC A-Share ETF during the first week in January 2014 was primarily derived from swap contracts on the CSI 300 Index[†](CSI 300). The Fund began direct investment in the A-share constituents of the CSI 300 on January 8, 2014 and eliminated the majority of its exposure previously achieved through swap contracts. Contracts outstanding as of December 31, 2014 are presented in the Fund's Schedule of Investments. All sectors contributed positively to performance during the period under review. The vast majority of returns came from companies in the financial sector, followed by industrial companies. However, while still positive, the telecommunications services and health care sectors only contributed minimally.

The Market Vectors ChinaAMC SME-ChiNext ETF traded for a little more than five months. During this period, the industrial, financial, and information technology were the largest contributors to performance. The energy sector, however, posted a small negative return for this period.

Egypt

With his landslide victory at the end of May, newly elected President Abdel Fattah al-Sisi, the country's former army chief, won a firm enough mandate to tackle the country's economic woes. As early as June 24, in a speech in Cairo, he

was seeking to forewarn Egyptians of austerity measures² to come. At the end of November, an IMF official was reported as saying that the country's economy had started to recover after four years of slow activity³ Each sector in the domestic market, except the consumer staples and energy sectors, contributed to a positive return for the year. The financial sector was by far the greatest contributor to performance. In addition to having the highest average weighting, small-cap companies also made the most significant contribution to return. Regardless of the significant average weighting of mid-cap companies, their contribution to return lagged far behind those of both their larger and smaller peers.

Gulf States

Anchored on solid growth of 3.7% in 2013 and budget surpluses,⁴ the GCC economies enjoyed a healthy first half to 2014. The second half of the year, however, was somewhat more challenging for the Gulf States, caught as they were between the Scylla of falling oil prices and the Charybdis of regional conflict.⁵ However, the Fund still ended the year posting a positive return for the 12 month period. With tensions high in the Middle East and in an attempt to shore up unity among GCC members, in mid-November Saudi's 90-year old King Abdullah engineered reconciliation between council members and Qatar, which it had accused, among other things, of supporting Islamist militants both in Syria and elsewhere.⁶ Geographically, the United Arab Emirates, with the greatest average country weighting, contributed most significantly to performance, followed by Qatar and Oman—in that order. In terms of sector, financial stocks were the greatest contributors, with industrial and telecommunication services stocks providing the only other significant contributions. Large-cap stocks contributed to performance, while mid- and small-cap stocks detracted from performance.

India

Following a somewhat lackluster first quarter and Narendra Modi's election as India's new prime minister, the performance of smaller companies strengthened firmly toward the end of the first half of the year. At 5.5% for the half of the year, economic growth was higher than the 4.9% figure for the same period last year.⁷ The third quarter of the year, though, brought with it a slowdown in growth, with the Indian economy only expanding 5.3%, in contrast with 5.7% during the previous quarter.⁸ However, since his election in May, Mr. Modi has demonstrated his pro-business stance in a number of different ways, not least by permitting more foreign investment in various of the country's industrial sectors, including defense.⁹ After the Market Vectors ChinaAMC A-Share ETF, the Fund posted the highest total return of any in the Market Vectors suite of international funds. All sectors, except three, contributed positively to return. The consumer discretionary, industrial, and financial sectors were the greatest contributors to performance. While posting negative returns, the detraction from performance of each of the consumer staples, energy, and telecommunication services sectors was minimal.

Indonesia

Indonesia was another country with an election cycle in 2014. The presidential race was won by the governor of Jakarta, Joko Widodo, who beat Prabowo Subianto, a former army general. Faced with a moribund economy and a potentially widening current account deficit,¹⁰ action sooner rather than later was required of the president. As a first step, fuel prices (heavily subsidized) were raised 30% on November 18, while, on the same day, Bank Indonesia increased its benchmark interest rate by 25 bps to 7.75%. At the same time, the bank reconfirmed its intention, in the near term, to focus on economic stability over growth.¹¹ For medium- and large-cap names, there were positive contributions to return across all sectors except for energy, with financial stocks providing by far the most significant contribution to performance. Among small-cap stocks, three sectors contributed positively to return. The telecommunication services and financial sectors were the two greatest contributors to performance. Consumer discretionary stocks provided a lesser, but still positive, contribution to performance. Negative returns from small-cap energy companies in particular detracted most from performance.

Israel

After a promising first half year—two quarters of economic growth—and an annual growth rate of 3.0%, third quarter figures reflected the high toll Israel's 50-day war in Gaza³ took on its economic health: the economy contracted, for the first time in five years, by approximately 0.4%.¹⁴ Current Prime Minister Benjamin Netanyahu's decision to hold early elections in March 2015 is being seen by many as more of a hindrance than a help in efforts to revive the country's slowing economy!¹⁵ Over the 12 month period, health care and information technology stocks, constituting the two sectors with the highest individual average weightings, were the Fund's most significant contributors to performance. The energy and financial sectors were the greatest detractors from performance. While large-cap stocks

contributed positively to performance, small-cap stocks detracted significantly.

Poland

Poland continues to be the EU's largest emerging economy!⁶ In the context of economic stagnation in the Eurozone, the country's performance in the latter half of 2014 was robust. In the third quarter, its economy grew, in annual terms, by 3.3%—better than expected—and continued to benefit from relatively low private and public debt. Despite this strength, however, with the fluid situation in Ukraine and slow economic growth in other EU countries, the outlook for Poland remains uncertain. Polish stocks slid over the last quarter of the year, in particular, in December. No sector performed positively over the 12 month period, with the financial, materials, and consumer staples sectors detracting most from performance. However, the negative returns from information technology and consumer discretionary sectors detracted only minimally from performance.

Russia

The consequences of Russia's involvement in Ukraine, in the form of European and U.S. sanctions, together with the drop in oil prices during the year, took a heavy toll on the country's economy in 2014. From earlier expectations of 1.2% growth in 2015 (0.5% in 2014), by early December 2014, the Russian Economy Ministry saw the country's GDP contracting by 0.8% in 2015.¹⁸ After a rough period in March and April, both the small- and large-cap funds saw a considerable improvement in performance through May and June. From early July,

MARKET VECTORS INTERNATIONAL ETFs

(unaudited)

however, it was downhill through to the end of the year. No sector contributed a positive return to the large-cap fund, with energy and telecommunication services serving as the two worst performing sectors. In the small-cap fund, companies in the utilities sector, closely followed by those in the financial sector, detracted most from performance. As with the large-cap fund, no sector performed positively.

Vietnam

With stability restored once again on May 18, 2014, following a number of deaths during violent riots against both foreign- and, particularly, Chinese-owned factories in the provinces, Vietnamese companies posted gains through the beginning of September. Thereafter, however, their stocks declined, albeit haltingly, until late December. This was despite moves by the government at the end of November to open up the property market to foreigners.¹⁹ A forecast of economic growth in 2014 from the World Bank in early December revised growth upward from 5.4% to 5.6%.²⁰ This did not, however, prevent the Fund posting a positive return for the 12 month period. With an average weighting of approximately 49%, small-cap companies made by far the greatest contribution to return. The energy, consumer discretionary, and financial sectors were the three most significant contributors to return. However, the consumer staples and materials sectors both detracted from performance.

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the fund. An index's performance is not illustrative of the fund's performance. Indices are not securities in which investments can be made. Results reflect past performance and do not guarantee future results.

CSI 300 Index (CSI0300) is a modified free-float market capitalization-weighted index compiled and managed by China Securities Index Co. Ltd. Considered to be the leading index for the Chinese equity market, the CSI 300 is a diversified index consisting of 300 companies listed on the Shenzhen Stock Exchange and/or the Shanghai Stock Exchange.

MARKET VECTORS AFRICA INDEX ETF

PERFORMANCE COMPARISON

December 31, 2014 (unaudited)

**Hypothetical Growth of
\$10,000 (Since
Inception)**

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Total Return	Share Price¹	NAV	MVAFKTR²
One Year	(13.68)%	(12.86)%	(11.10)%
Five Years	0.92 %	1.31 %	2.44 %
Life* (annualized)	(4.33)%	(4.18)%	(2.77)%
Life* (cumulative)	(24.92)%	(24.16)%	(16.64)%

* since 7/10/08

Index data prior to June 21, 2013 reflects that of the Dow Jones Africa Titans 50 IndexSM. From June 21, 2013, forward, the index data reflects that of the Market Vectors[®] GDP Africa Index (MVAFKTR). All Index history reflects a blend of the performance of the aforementioned Indexes.

Commencement date for the Market Vectors Africa Index ETF was 7/10/08.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (7/10/08) to the first day of secondary market trading in shares of the Fund (7/14/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888. MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.80% / Net Expense Ratio 0.80%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.78% of the Fund's average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units

MARKET VECTORS AFRICA INDEX ETF

PERFORMANCE COMPARISON

December 31, 2014 (unaudited)

are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

²Market Vectors® GDP Africa Index (MVAFKTR) tracks the performance of the largest and most liquid companies in Africa. The weighting of a country in the index is determined by the size of its gross domestic product.

Market Vectors GDP Africa Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Africa Index ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

MARKET VECTORS BRAZIL SMALL-CAP ETF

PERFORMANCE COMPARISON

December 31, 2014 (unaudited)

**Hypothetical Growth of
\$10,000 (Since
Inception)**

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Total Return	Share Price ¹	NAV	MVBRFTR ²
One Year	(25.75)%	(25.19)%	(24.73)%
Five Years	(11.03)%	(10.52)%	(9.79)%
Life* (annualized)	2.09 %	2.23 %	2.90 %
Life* (cumulative)	12.38 %	13.24 %	17.49 %

* since 5/12/09

Commencement date for the Market Vectors Brazil Small-Cap ETF was 5/12/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement,¹ for the period from commencement (5/12/09) to the first day of secondary market trading in shares of the Fund (5/14/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.66% / Net Expense Ratio 0.60%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.59% of the Fund’s average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

MARKET VECTORS BRAZIL SMALL-CAP ETF

PERFORMANCE COMPARISON

December 31, 2014 (unaudited)

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® Brazil Small-Cap Index (MVBRFTR) is a rules-based, modified market capitalization-weighted, float-adjusted index comprised of publicly traded small-capitalization companies that are domiciled and primarily listed on an exchange in Brazil, or that generate at least 50% of their revenues in Brazil.

Market Vectors Brazil Small-Cap Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Brazil Small-Cap ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index data prior to June 21, 2013 reflects that of the Dow Jones GCC Titans 40 IndexSM. From June 21, 2013, forward, the index data reflects that of the Market Vectors[®] GDP GCC Index (MVMESTR). All Index history reflects a blend of the performance of the aforementioned Indexes.

Commencement date for the Market Vectors Gulf States Index ETF was 7/22/08.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (7/22/08) to the first day of secondary market trading in shares of the Fund (7/24/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 2.07% / Net Expense Ratio 0.99%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.98% of the Fund’s average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the

BlueStar Israel Global Index™ (BLSNTR) is a rules-based index intended to track the overall performance of publicly traded companies that are generally considered by the Indexer to be Israeli and Israeli linked companies. It primarily includes the largest and the most liquid companies, as well as mid-cap and small-cap companies that display sufficient liquidity.

The BlueStar Israel Global Index™ (the “Index”) is the exclusive property and a trademark of BlueStar Global Investors LLC and has been licensed for use for certain purposes by Van Eck Associates Corporation for Market Vectors Israel ETF (the “Fund”) based on the Index. The Fund is not sponsored, endorsed, sold or promoted by BlueStar Global Investors LLC, and BlueStar Global Investors LLC makes no representation regarding the advisability of trading in the Fund.

MARKET VECTORS POLAND ETF

PERFORMANCE COMPARISON

December 31, 2014 (unaudited)

**Hypothetical Growth of
\$10,000 (Since
Inception)**

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Total Return	Share Price¹	NAV	MVPLNDTR²
One Year	(17.46)%	(16.90)%	(16.32)%
Five Years	(2.57)%	(2.54)%	(2.12)%
Life* (annualized)	(2.91)%	(2.98)%	(2.51)%
Life* (cumulative)	(13.96)%	(14.32)%	(12.15)%

* since 11/24/09

Commencement date for the Market Vectors Poland ETF was 11/24/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (11/24/09) to the first day of secondary market trading in shares of the Fund (11/25/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.99% / Net Expense Ratio 0.60%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.60% of the Fund’s average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

MARKET VECTORS POLAND ETF

PERFORMANCE COMPARISON

December 31, 2014 (unaudited)

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® Poland Index (MVPLNDTR) is a rules-based, modified market capitalization-weighted, float-adjusted index comprised of publicly traded companies that are domiciled and primarily listed in Poland, or that generate at least 50% of their revenues in Poland.

Market Vectors Poland Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Poland ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, July 1, 2014 to December 31, 2014.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on your Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expenses are equal to the Fund's annualized expense ratio (for the six months ended December 31, 2014)

* multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

** Assumes annual return of 5% before expenses

Expenses are equal to the Fund's annualized expense ratio (for the period from July 23, 2014 (commencement of operations) to December 31, 2014) multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

During the year ended December 31, 2014, transfers of securities from Level 1 to Level 2 were \$15,712,004 and transfers from Level 2 to Level 1 were \$6,831,399. These transfers resulted primarily from changes in certain foreign

securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the year ended December 31, 2014:

	Real Estate Investment Trusts Nigeria
Balance as of December 31, 2013	\$ 519
Realized gain (loss)	—
Net change in unrealized appreciation (depreciation)	117
Purchases	—
Sales	—
Transfers in and/or out of level 3	—
Balance as of December 31, 2014	\$ 636

During the year ended December 31, 2014, transfers of securities from Level 1 to Level 2 were \$2,301,647. These transfers resulted primarily from changes in securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

During the year ended December 31, 2014, transfers of securities from Level 2 to Level 1 were \$1,928,200. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by the pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

Total	\$22,096,292	\$32,239,799	\$ —	\$54,336,091

During the year ended December 31, 2014, transfers of securities from Level 1 to Level 2 were \$8,598,829 and transfers from Level 2 to Level 1 were \$1,958,357. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

December 31, 2014

Note 1—Fund Organization—Market Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of December 31, 2014, offers fifty-five investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Africa Index ETF, Brazil Small-Cap ETF, ChinaAMC A-Share ETF, ChinaAMC SME-ChiNext ETF, Egypt Index ETF, Gulf States Index ETF, India Small-Cap Index ETF, Indonesia Index ETF, Indonesia Small-Cap ETF, Israel ETF, Poland ETF, Russia ETF, Russia Small-Cap ETF and Vietnam ETF (each a “Fund” and, together, the “Funds”). China Asset Management (Hong Kong) Limited (the “Sub-Adviser”) is the sub-adviser to ChinaAMC A-Share ETF (effective January 7, 2014) and ChinaAMC SME-ChiNext ETF. ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF seek to achieve their investment objective by primarily investing directly in A-shares via the A-share quota granted to the Sub-Adviser. India Small-Cap Index ETF makes its investments through the India Small-Cap Mauritius Fund (the “Subsidiary”), a wholly owned subsidiary organized in the Republic of Mauritius. Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index published by the China Securities Index Co. Ltd., BlueStar Global Investors LLC or Market Vectors Index Solutions GmbH, a wholly-owned subsidiary of Van Eck Associates Corporation (the “Adviser”).

The Funds’ commencement of operations dates and their respective indices are presented below:

Fund	Commencement of Operations	Index
Africa Index ETF	July 10, 2008	Market Vectors® GDP Africa Index*
Brazil Small-Cap ETF	May 12, 2009	Market Vectors® Brazil Small-Cap Index*
ChinaAMC A-Share ETF **	October 13, 2010	CSI 300 Index
ChinaAMC SME-ChiNext ETF	July 23, 2014	SME-ChiNext 100 Index
Egypt Index ETF	February 16, 2010	Market Vectors® Egypt Index*
Gulf States Index ETF	July 22, 2008	Market Vectors® GDP GCC Index*
India Small-Cap Index ETF	August 24, 2010	Market Vectors® India Small-Cap Index*
Indonesia Index ETF	January 15, 2009	Market Vectors® Indonesia Index*
Indonesia Small-Cap ETF	March 20, 2012	Market Vectors® Indonesia Small-Cap Index*
Israel ETF	June 25, 2013	BlueStar Israel Global Index™
Poland ETF	November 24, 2009	Market Vectors® Poland Index*
Russia ETF	April 24, 2007	Market Vectors® Russia Index*
Russia Small-Cap ETF	April 13, 2011	Market Vectors® Russia Small-Cap Index*
Vietnam ETF	August 11, 2009	Market Vectors® Vietnam Index*

* Published by Market Vectors Index Solutions GmbH.

** Effective January 7, 2014, the Fund changed its name from China ETF to ChinaAMC A-Share ETF.

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification (“ASC”) 946 Financial Services — Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded

97

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign market is closed but the Fund is open. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

B. Basis for Consolidation—The Subsidiary, an Indian exempted company, was incorporated on February 25, 2010 and acts as an investment vehicle for the India Small-Cap Index ETF (the “SCIF”) in order to effect certain investments on behalf of the SCIF. The SCIF is the sole shareholder of the Subsidiary, and it is intended that the SCIF will remain the sole shareholder and will continue to control the Subsidiary. The consolidated financial statements of the SCIF include the financial results of its wholly-owned subsidiary. All material interfund account balances and transactions have been eliminated in consolidation.

C. Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

D. Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid annually by each Fund. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.

E. Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

F. Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

G. Repurchase Agreements—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of December 31, 2014 are reflected in the Schedules of Investments.

H. Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (“OTC”) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the Adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. Details of this disclosure are found below:

Swap Agreements—The Funds may enter into swap transactions to gain investment exposure for total return or for hedging purposes. Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net payment to be received by the Funds and/or the termination value at the end of the contract. Therefore, the Funds consider the creditworthiness of each counterparty to a contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying reference asset or index. Entering into these agreements involves, to varying degrees, market risk, liquidity risk and elements of credit, legal and documentation risk in excess of amounts recognized in the Statements of Assets

99

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

and Liabilities. The Funds may pay or receive cash as collateral on these contracts which may be recorded as an asset and/or liability. The Funds must set aside liquid assets, or engage in other appropriate measures, to cover their obligations under these contracts. Swap contracts are marked to market daily and the change in value, if any, is recorded as unrealized appreciation or depreciation. Upfront payments, if any, made and/or received by the Funds are recorded as an asset and/or liability and realized gains or losses are recognized over the contract's term/event. Periodic payments received or made on swap contracts are recorded as realized gains or losses. Gains or losses are realized upon termination of a swap contract and are recorded in the Statements of Operations. The Funds, other than ChinaAMC A-Share ETF, held no swap contracts during the year ended December 31, 2014. ChinaAMC A-Share ETF invests in the following type of swap:

A total return swap is an agreement that gives a Fund the right to receive the appreciation in the value of a specified security index or other instrument in return for a fee paid to the counterparty, which will typically be an agreed upon interest rate. If the underlying asset declines in value over the term of the swap, the Fund may also be required to pay the dollar value of that decline to the counterparty. During the year ended December 31, 2014, the average monthly notional amount of the total return swap contracts in ChinaAMC A-Share ETF was \$1,584,549. Outstanding total return swap contracts for the ChinaAMC A-Share ETF held at December 31, 2014 are reflected in the Schedule of Investments.

At December 31, 2014, ChinaAMC A-Share ETF held the following derivatives:

	Asset derivatives
	Equity risk
Swap contracts, at value ¹	\$722,776

¹ Statements of Assets and Liabilities location: Swap contracts, at value

For ChinaAMC A-Share ETF, the impact of transactions in derivative instruments, during the year ended December 31, 2014, were as follows:

	Equity risk
Realized gain(loss):	
Swap contracts ²	\$(2,551,644)
Net change in unrealized appreciation (depreciation):	
Swap contracts ³	2,441,097

² Statements of Operations location: Net realized gain (loss) on swap contracts

³ Statements of Operations location: Net change in unrealized appreciation (depreciation) on swap contracts

Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds present securities lending and repurchase agreement assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Collateral held at December 31, 2014 is presented in the Schedules of Investments. Refer to related disclosures in Note 2G (Repurchase Agreements) and Note 9 (Securities Lending).

The table below presents both gross and net information about the derivative instruments eligible for offset in the Statements of Assets and Liabilities, subject to master netting or other similar agreements, as well as financial collateral received or pledged (including cash collateral and margin) as of December 31, 2014. Refer to the Schedules of Investments and Statements of Assets and Liabilities for collateral received or pledged as of December 31, 2014.

100

Fund	Description	Gross Amount of Recognized Assets	Gross Amount Offset in the Statements of Assets and Liabilities	Net Amount of Assets Presented in the Statements of Assets and Liabilities	Financial Instruments and Cash Collateral Received*	Net Amount
ChinaAMC A-Share ETF	Swap contracts, at value	\$722,776	\$—	\$722,776	\$—	\$722,776

*Gross amounts not offset in the Statements of Assets and Liabilities

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date/rate. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.50% of each Fund's average daily net assets. The Adviser has agreed, at least until May 1, 2015 (May 1, 2016 for ChinaAMC SME-ChiNext ETF), to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense limitation (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) listed in the table below.

The current expense limitation and the amounts waived/assumed by the Adviser for the year ended December 31, 2014, are as follows:

Fund	Expense Limitation	Waiver of Management Fees	Expenses Assumed by the Adviser
Africa Index ETF	0.78 %	\$ 3,254	\$ —
Brazil Small-Cap ETF	0.59	88,222	—
ChinaAMC A-Share ETF*	0.72	168,190	158,834
ChinaAMC SME-ChiNext ETF*	0.78	24,879	10,605

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

During the year ended December 31, 2014, the following Funds utilized accumulated capital loss carryforwards: Egypt Index ETF utilized \$380,206; Gulf States Index ETF utilized \$203,788; India Small-Cap Index ETF utilized \$7,433,537; and Vietnam ETF utilized \$15,963,086.

During the year ended December 31, 2014, as a result of permanent book to tax differences, primarily due to investments in Passive Foreign Investment Companies, foreign currency gains and losses, net operating losses, and tax treatment of in-kind redemptions, the Funds' incurred differences that affected undistributed (accumulated) net investment income (loss), accumulated net realized gain (loss) on investments and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase/Decrease in Accumulated Net Investment Income/Loss	Increase/Decrease in Accumulated Net Realized Gain/Loss	Increase/Decrease in Aggregate Paid in Capital
Africa Index ETF	\$ (76,065)	\$(1,144,012)	\$ 1,220,077
Brazil Small-Cap ETF	79,091	4,084,945	(4,164,036)
ChinaAMC A-Share ETF	(2,578,915)	2,693,455	(114,540)
ChinaAMC SME-ChiNext ETF	32,116	(1,844)	(30,272)
Egypt Index ETF	565,345	(1,419,214)	853,869
Gulf States Index ETF	(24,484)	22,609	1,875
India Small-Cap Index EF	(671,084)	(201,115)	872,199
Indonesia Index ETF	(37,613)	1,412,960	(1,375,347)
Indonesia Small-Cap ETF	(809)	809	—
Israel ETF	4,602	(830,559)	825,957
Poland ETF	(17,501)	(567,768)	585,269
Russia ETF	324,869	9,415,346	(9,740,215)
Russia Small-Cap ETF	(17,369)	17,369	—
Vietnam ETF	214,683	(3,617,806)	3,403,123

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended December 31, 2011-2013), or expected to be taken in the Funds' current tax year. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds' financial statements. However, the Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

Uncertainties in the Chinese tax rules governing taxation of income and gains from investments in A-Shares could result in unexpected tax liabilities for the ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF. China generally imposes withholding tax at a rate of 10% on dividends and interest derived by Qualified Foreign Institutional Investors (“QFII”) from issuers resident in China. China also imposes withholding tax at a rate of 10% on capital gains derived by nonresident enterprises from investments in an issuer resident in China. The withholding taxes on dividends, interest and capital gains may in principle be subject to a reduced rate under an applicable tax treaty, but the application of such treaties in the case of an RQFII acting for foreign investors such as the Funds is also uncertain. It is also unclear how China’s business tax may apply to activities of an RQFII and how such application may be affected by tax treaty provisions. The imposition of such taxes could have a material adverse effect on the Funds’ returns.

The People’s Republic of China (“PRC”) rules for taxation of RQFIIs (and QFIIs) are evolving and certain of the tax regulations to be issued by the PRC State Administration of Taxation and/or PRC Ministry of Finance to clarify the subject matter may apply retrospectively, even if such rules are adverse to the Funds and their shareholders.

Effective November 17, 2014, Qualified Foreign institutional investors (QFIIs) and Renminbi Foreign institutional investors (RQFIIs) are exempted temporarily from capital gains tax for a period of three years. However, QFII and RQFII are still required to pay capital gains tax for gains realized on trades executed before November 17, 2014. At this juncture, the State Administrative of Taxation (SAT) has yet to announce any rule regarding capital gain tax for those trades executed prior to November 17, 2014. The Funds have recorded capital gains tax prior to November 17, 2014 which are net of realized gain (loss) on investments as reflected in the Statements of Operations. The Funds

are liable to the Sub-Adviser for any Chinese tax that is imposed on the Sub-Adviser with respect to the Funds' investments in excess of such provision.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended December 31, 2014, the Funds did not incur any interest or penalties.

The Indian Finance Minister announced the introduction of a general anti-avoidance rule ("GAAR") in the Indian tax law in the 2012/2013 budget. GAAR would be applicable where the main purpose of an arrangement is tax avoidance and would empower Indian tax authorities to declare such arrangement as an impermissible avoidance arrangement. Presently, GAAR is expected to become effective April 1, 2015. A special committee was constituted by the Indian Revenue authorities to provide clarity and guidance on the application and implementation of GAAR and have submitted proposed recommendations. As the rules and guidelines have not yet been approved by the Indian Parliament, the Adviser cannot assess whether the India Small-Cap Index ETF, investing through its Mauritius Subsidiary, will fall within the scope of the GAAR provision.

Note 6—Capital Share Transactions—As of December 31, 2014, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the year ended December 31, 2014, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
Africa Index ETF	\$11,970,618	\$8,152,538
Brazil Small-Cap ETF	1,156,483	3,741,227
ChinaAMC A-Share ETF	—	—
ChinaAMC SME-ChiNext ETF	3,142	—
Egypt Index ETF	13,218,689	12,436,044
Gulf States Index ETF	363,201	304,484
India Small-Cap Index ETF	6,361,793	3,933,670
Indonesia Index ETF	88,807,719	114,324,466
Indonesia Small-Cap ETF	1,430,473	—
Israel ETF	20,144,340	4,575,928
Poland ETF	3,211,988	10,001,702
Russia ETF	1,697,329,256	472,759,505
Russia Small-Cap ETF	49,879,655	—
Vietnam ETF	38,077,298	20,699,818

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect gross shareholder transactions including any cash component of the transactions.

Note 7—Concentration of Risk—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a “passive” or index approach to achieve each Fund’s investment objective by investing in a portfolio of securities that generally replicates the Funds’ index. Each of the Funds is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

As a result of recent events involving Ukraine and the Russian Federation, the United States and the European Union have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact the

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers' held by Russia ETF and Russia Small-Cap ETF.

Should the Chinese government impose restrictions on the ability of ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF to repatriate funds associated with direct investment in A-Shares, the Funds may be unable to satisfy distribution requirements applicable to regulated investment companies ("RICs") under the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), and the Fund may therefore be subject to Fund-level U.S. federal taxes.

At December 31, 2014, the Adviser owned approximately 5% and 13% of ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF, respectively.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in "Trustees' fees and expenses" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds' custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities and shares the interest earned on the collateral and borrowing fees received with the securities lending agent. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in

repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at December 31, 2014 are presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

Note 10—Share Split—On January 19, 2011, the Adviser announced the Board of Trustees approved a 3 for 1 share split of the Indonesia Index ETF. This split took place for shareholders of record as of the close of business on January 28, 2011 and was payable on January 31, 2011. Fund shares began trading on the split adjusted NAV on February 1, 2011. The Financial Highlights prior to February 1, 2011 for the Fund have been adjusted to reflect the 3 for 1 share split.

On July 1, 2013, the Board of Trustees of the Trust approved a 1 for 3 reverse share splits for Russia Small-Cap ETF, and 1 for 4 reverse share splits for Egypt Index ETF and India Small-Cap Index ETF. Fund shares began trading on the split adjusted NAV on July 1, 2013. The Statements of Changes in Net Assets and Financial Highlights prior to July 1, 2013 for the Funds have been adjusted to reflect the 1 for 3 reverse share split.

Note 11—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended December 31, 2014, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of December 31, 2014
Africa Index ETF	133	\$4,104,231	1.50 %	\$—

Note 12—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the year ended December 31, 2014, there were no offsets to custodian fees.

Note 13—Subsequent Event Review—The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

MARKET VECTORS ETF TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of Market Vectors ETF Trust

We have audited the accompanying statements of assets and liabilities (consolidated as it relates to India Small-Cap Index ETF), including the schedules of investments (consolidated as it relates to India Small-Cap Index ETF), of Africa Index ETF, Brazil Small-Cap ETF, ChinaAMC A-Share ETF (formerly China ETF), ChinaAMC SME-ChiNext ETF, Egypt Index ETF, Gulf States Index ETF, India Small-Cap Index ETF, Indonesia Index ETF, Indonesia Small-Cap ETF, Israel ETF, Poland ETF, Russia ETF, Russia Small-Cap ETF and Vietnam ETF (fourteen of the series constituting Market Vectors ETF Trust) (the "Funds") as of December 31, 2014, and the related statements of operations (consolidated as it relates to India Small-Cap Index ETF), the statements of changes in net assets (consolidated as it relates to India Small-Cap Index ETF) and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2014, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position (consolidated as it relates to India Small-Cap Index ETF), of Africa Index ETF, Brazil Small-Cap ETF, ChinaAMC A-Share ETF (formerly China ETF), ChinaAMC SME-ChiNext ETF, Egypt Index ETF, Gulf States Index ETF, India Small-Cap Index ETF, Indonesia Index ETF, Indonesia Small-Cap ETF, Israel ETF, Poland ETF, Russia ETF, Russia Small-Cap ETF and Vietnam ETF (fourteen of the series constituting Market Vectors ETF Trust) at December 31, 2014, the results of their operations (consolidated as it relates to India Small-Cap Index ETF), the changes in their net assets (consolidated as it relates to India Small-Cap Index ETF) and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

MARKET VECTORS HARD ASSETS ETFs

(unaudited)

Dear Shareholder:

This last year was not kind to hard assets and, in particular, energy stocks. If the first eight months may have been challenging, as the fall in energy prices accelerated, the last four were particularly brutal for most sectors. While West Texas Intermediate (WTI) crude prices fell nearly 46% over the 12 month period to end the year at \$53.27 per barrel, North American (Henry Hub) natural gas also fell significantly, ending the year down around 32%.

At the end of the year, the secular (U.S. shale oil production), cyclical (global demand worries), and seasonal (second half 2015 demand exceeds that of the first half) drivers to the crude market were uniquely synchronized to support a negative outlook for near-term oil prices. However, while we believe this will continue to make for a soft market in the first half of 2015, we do see an inflection in all of these drivers in the second half, which should lead prices to trend back to our longer-term price view.

Specifically, in the U.S., while the unconventional shale oil and gas boom, in particular, is now expected to moderate, the stimulus that cheap energy prices provides for both the consumer and the industrial sector is expected to be significant and broad-spread throughout the country. Eventually, we expect this to translate into slightly higher growth in worldwide crude oil demand as we anticipate both current cheap fuel prices and surging global auto sales to spur consumption.

We continue to believe that the shale story remains a compelling one, not only in the U.S., but also in other areas globally. A potential that, so far, remains largely untapped.

Top 10 Countries with Technically Recoverable Shale Oil Resources

Source: EIA, June 10, 2013

We offer unique global exposure to the unconventional energy theme in two forms. Market Vectors Unconventional Oil & Gas ETF (NYSE Arca: FRAK) seeks to track an index covering those companies that are primarily involved in this growing segment. Market Vectors Oil Services ETF (NYSE Arca: OIH), tracking, as it does, the overall

performance of 25 of the largest U.S. listed, publicly traded oil services companies, provides access to some of the main companies servicing this sector both in North America and, particularly, globally.

MANAGEMENT DISCUSSION (unaudited)*Hard Assets Market Overview*

The *Rogers*TM-Van Eck Natural Resources Index[†](RVEIT), which includes equities of the world's largest and most prominent hard assets producers, remains the most comprehensive index in the hard assets producer space. For the 12 month period ending December 31, 2014, the Index returned -7.26%.

The table below shows average sector weightings within this index and the total return of each sector for the 12 month period ending December 31, 2014.

RVEIT Sector	Average Sector Weighting	12 Month Total Return for Period Ending December 31, 2014
Energy	40.64 %	-11.36 %
Agriculture	31.31 %	4.96 %
Base/Industrial Metals	13.08 %	-17.39 %
Precious Metals	6.89 %	-15.80 %
Paper & Forest Products	4.07 %	3.08 %
Alternatives	4.01 %	1.94 %

Source: Van Eck Global; FactSet; S-Network Global Indexes, LLC. Past performance is no guarantee of future results; current performance may be lower or higher than the performance data quoted. Index performance is not illustrative of fund performance. Investors cannot invest directly in an Index.

Three sectors — agriculture, alternatives and paper & forest products-had positive returns over the 12 months ended December 31, 2014, while the remaining three sectors-base/industrial metals, energy and precious metals-all had negative returns over the same period. The largest sector by average weight, energy, which accounted for over 40% the index, performed particularly poorly during the year. While, of the three larger sectors, only agriculture had a positive return over the 12 months, two of the three smaller sectors, by average weight, alternatives, and paper &

forest products, also both had positive returns over the period. However, the sectors with positive performances were unable to prevent the index as a whole from posting a negative total return over the 12 month period.

Eleven of the suite of 12 Market Vectors Hard Assets ETFs posted negative total returns during the 12 month period. After Market Vectors Uranium+Nuclear Energy ETF (NYSE Arca: NLR) (+9.61%), which was the sole fund to post a positive total return for the period under review, Market Vectors Agribusiness ETF (NYSE Arca: MOO) (-0.13%) was the next best performer. The Market Vectors Rare Earth/Strategic Metals ETF (NYSE Arca: REMX) (-28.07%) and Market Vectors Steel ETF (NYSE Arca: SLX) (-26.44%) posted the worst total returns of the eleven.

MARKET VECTORS HARD ASSETS ETFs

(unaudited)

January 1 through December 31, 2014
Market Vectors Hard Assets ETFs Total Return

Source: Van Eck Global. Returns based on each Fund's net asset value (NAV). The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

Agribusiness

Animal health care and consumer staples companies led performance in the sector. Companies manufacturing and distributing agricultural and farm machinery, a Russian company producing potash (used in fertilizers), and a biotechnology company detracted most from performance. Geographically, the greatest positive returns came from companies in the U.S. and Canada, while the greatest negative returns came from those in Switzerland and Russia.

Coal

While the first six months of 2014 may have been difficult for the coal industry, the second six months were even more challenging, with coal mining stocks hit particularly hard by the sell-off from the beginning of September to mid-October. On the other hand, the consumption of coal in the U.S. in 2014 was forecast to exceed that for 2013,¹ and one of the most important coal-consuming countries, India, announced in November that it intended to double coal production to a billion tonnes over the next five years.² Only two countries contributed positive total returns: the Philippines and Russia. The U.S., with an average weight of over 40%, detracted most from the sector's performance.

Global Alternative Energy

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

Along with solar energy stocks, global alternative energy stocks delivered a negative performance for the 12 months ending December 31, 2014. As with solar energy stocks, global alternative energy stocks were adversely affected by the fall in oil prices in 2014, particularly during the last four months of the year. While significant contributions to overall performance came from companies involved in wind energy and automobile manufacturing, the greatest detractors from performance were companies involved in lighting and semiconductor products, and the manufacture of advanced materials and crystal growth equipment. The strongest contribution to total return came from companies in the Denmark. Companies in the U.S. and Brazil were the main detractors from performance.

Gold Miners/Junior Gold Miners

If 2013 was a difficult year for gold miners, both large and small, so, too, was 2014. Having bounced back with modest gains during the first half of 2014, on the back of both a strengthening U.S. dollar and economy, stocks started to decline at the beginning of September and continued down for the rest of the year. While Canadian gold mining companies, both large and junior, were by far the most significant detractors from performance, juniors in Australia were also particularly hard hit. However, the majority of their established peers in Australia, China and South Africa posted positive performances for the 12 month period.

Natural Resources

The agricultural, alternatives, and paper and forest products sectors of the natural resources industry all posted positive returns. However, with their heavier aggregate average weighting over the 12 month period, the energy, base/industrial metals, and precious metals sectors, with their strongly negative performances, overwhelmed these positive returns.

Oil Services

Having hit a high on June 30, on the back of falling oil prices oil services stocks started to decline thereafter nearly continuously through to the end of the year, and particularly precipitously in the last week in November through to mid-December. Energy stocks, including oil services stocks, crashed at the end of November after OPEC announced that there would be no cuts in production, a move that sent the price of oil to its lowest since May 2010³ and was expected to hit oil services companies badly.⁴ While U.S. oil services companies detracted by far the most from performance, foreign-domiciled companies also lagged.

Rare Earth and Strategic Metals

Rare earth prices remained depressed throughout 2014, impacting companies of all sizes involved in extracting and refining the metals. During the year, efforts by the Chinese government both to consolidate the country's rare earth mining industry⁵ and to stamp out smuggling⁶ met with limited success. Such efforts failed to provide much support to prices.⁷ While most companies in China posted positive returns, companies in Australia involved in zircon and the mining and refining of rare earths, and in the U.S. a company involved specifically in the mining and refining of rare earths, were the largest detractors from performance. Smaller companies performed worse than their mid-cap peers

during the period under review.

Solar Energy

Having performed strongly in the first half of 2014, from early July solar energy stocks declined, in fits and starts, during the second half of the year. Among other factors, the decline in the price of crude oil⁸ during the year, and over the last four months of the year in particular, was especially challenging for the solar sector. Within the sector, the only, but also strong, positive contribution came from companies in China. This positive performance was, however, no match for companies' negative performances in such countries as Taiwan, Switzerland and the U.S. In addition to having the highest average weighting in the sector, mid-cap companies also made the only positive contribution to overall performance. Both smaller and larger companies detracted from performance, in particular smaller companies.

Steel

If the first half of 2014 was a challenging one for the steel industry, the second half was brutal. In addition to oversupply, imports of steel into the U.S. increased substantially in 2014.⁹ With the two largest average weightings in the sector during the 12 month period, Brazil and the U.S. were also the two largest detractors from performance.

MARKET VECTORS HARD ASSETS ETFs

(unaudited)

Unconventional Oil & Gas

While unconventional energy companies performed well during the first half of 2014, particularly those in the U.S., companies were hard hit in the second half as the price of crude plummeted. Of the 50 U.S. stocks (on average nearly 76% of the fund by weight during the period under review) just five contributed with positive performance. Although a single Australian company contributed positive returns, the country's low relative average weighting resulted in a minimal contribution to performance.

Uranium and Nuclear Energy

The sector posted positive total returns for whole the 12 month period, with performance gains occurring in the first half of the year. Uranium miners have, in particular, benefited from robustness in the price of the metal over 2014. Such news as the fact that China will need some 1,000 nuclear reactors¹⁰ to fulfill its pledge on climate control and that re-elected Japanese prime minister, Shinzu Abe, fully intends to boost reactor restarts¹¹ also helped bolster the industry. With the largest average weighting over the period under review, utilities produced the vast majority of the sector's positive return. However, industrial companies detracted from performance during the period. Geographically, companies in the U.S. contributed most to return, while Japan detracted most from performance.

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made. Results reflect past performance and do not guarantee future results.

The *Rogers*TM-Van Eck Natural Resources Index (RVEIT) is a rules based, modified capitalization weighted, float adjusted index of publicly traded companies engaged in the production and distribution of commodities and commodity-related products and services in the following sectors: 1) Agriculture; 2) Alternatives (Water & Alternative Energy); 3) Base and Industrial Metals; 4) Energy; 5) Forest Products and Metals.

MARKET VECTORS AGRIBUSINESS ETF

PERFORMANCE COMPARISON

(unaudited)

Hypothetical Growth of \$10,000 (Since Inception)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Total Return	Share Price ¹	NAV	MVMOOTR ²
One Year	(0.33)%	(0.13)%	0.24 %
Five Years	5.40 %	5.47 %	5.80 %
Life* (annualized)	4.90 %	4.92 %	5.46 %
Life* (cumulative)	42.05 %	42.21 %	47.68 %

*since 8/31/07

Index data prior to March 18, 2013 reflects that of the DAXglobal Agribusiness Index (DXAG). From March 18, 2013 forward, the index data reflects that of the Market Vectors® Global Agribusiness Index (MVMOOTR). All Index history reflects a blend of the performance of the aforementioned Indexes.

Commencement date for the Market Vectors Agribusiness ETF (MOO) was 8/31/07.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (8/31/07) to the first day of secondary market trading in shares of the Fund (9/5/07), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund

incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.57% / Net Expense Ratio 0.57%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.56% of the Fund's average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

*since 11/10/09

Commencement date for the Market Vectors Junior Gold Miners ETF (GDXJ) was 11/10/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, ¹ for the period from commencement (11/10/09) to the first day of secondary market trading in shares of the Fund (11/11/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by

visiting marketvectorsetfs.com.

Gross Expense Ratio 0.55% / Net Expense Ratio 0.55%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.56% of the Fund’s average daily net assets per year until at least May 1, 2014. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® Global Junior Gold Miners Index (MVGDXJTR) is a rules-based, modified capitalization-weighted, float-adjusted index comprised of a global universe of publicly traded small- and medium-capitalization companies that generate at least 50% of their revenues from gold and/or silver mining, hold real property that has the potential to produce at least 50% of the company’s revenue from gold or silver mining when developed, or primarily invest in gold or silver.

MARKET VECTORS NATURAL RESOURCES ETF

PERFORMANCE COMPARISON

(unaudited)

Hypothetical Growth of \$10,000 (Since Inception)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Total Return	Share Price ¹	NAV	RVEIT ²
One Year	(7.25)%	(7.71)%	(7.26)%
Five Year	2.08 %	2.06 %	2.27 %
Life* (annualized)	(0.76)%	(0.83)%	(0.57)%
Life* (cumulative)	(4.72)%	(5.14)%	(3.58)%

*since 8/29/08

Effective May 1, 2014, the name of the index that the Fund seeks to replicate changed from The RogersTM-Van Eck Hard Assets Producers Index to The RogersTM-Van Eck Natural Resources Index (the "Index"). In connection with that change, the Board of Trustees of the Trust approved changing the Fund's name to Market Vectors Natural Resources ETF and, accordingly, the Fund's investment objective changed such that the Fund will seek to replicate as closely as possible, before fees and expenses, the price and yield performance of The RogersTM-Van Eck Natural Resources Index.

Commencement date for the Market Vectors Natural Resources ETF (HAP) was 8/29/08.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement,¹ for the period from commencement (8/29/08) to the first day of secondary market trading in shares of the Fund (9/3/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.73% / Net Expense Ratio 0.50%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.49% of the Fund's average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing

MARKET VECTORS NATURAL RESOURCES ETF

PERFORMANCE COMPARISON

(unaudited)

by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

MARKET VECTORS SOLAR ENERGY ETF

PERFORMANCE COMPARISON

(unaudited)

Hypothetical Growth of \$10,000 (Since Inception)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Total Return	Share Price ¹	NAV	MVKWTTR ²
One Year	(7.16)%	(6.17)%	(5.76)%
Five Year	(20.11)%	(20.06)%	(21.15)%
Life* (annualized)	(26.72)%	(26.63)%	(27.26)%
Life* (cumulative)	(87.52)%	(87.43)%	(88.15)%

*since 4/21/08

Index data prior to March 18, 2013 reflects that of the Ardour Solar Energy Index (SOLRXT). From March 18, 2013 forward, the index data reflects that of the Market Vectors® Global Solar Energy Index (MVKWTTR). All Index history reflects a blend of the performance of the aforementioned Indexes.

Commencement date for the Market Vectors Solar Energy ETF (KWT) was 4/21/08.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (4/21/08) to the first day of secondary market trading in shares of the Fund (4/23/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes

that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 1.08% / Net Expense Ratio 0.65%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.65% of the Fund's average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

MARKET VECTORS STEEL ETF

PERFORMANCE COMPARISON

(unaudited)

Hypothetical Growth of \$10,000 (Since Inception)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Total Return	Share Price ¹	NAV	STEEL ²
One Year	(26.33)%	(26.44)%	(26.24)%
Five Year	(8.41)%	(8.44)%	(8.13)%
Life* (annualized)	0.59 %	0.58 %	0.95 %
Life* (cumulative)	4.93 %	4.85 %	8.13 %

*since 10/10/06

Commencement date for the Market Vectors Steel ETF was 10/10/06.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, ¹for the period from commencement (10/10/06) to the first day of secondary market trading in shares of the Fund (10/16/06), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data

quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.63% / Net Expense Ratio 0.55%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.55% of the Fund’s average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

MARKET VECTORS UNCONVENTIONAL OIL & GAS ETF

PERFORMANCE COMPARISON

(unaudited)

Hypothetical Growth of \$10,000 (Since Inception)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Total Return	Share Price¹	NAV	MVFRAKTR²
One Year	(21.41)%	(21.18)%	(21.08)%
Life (annualized)	(3.37)%	(3.26)%	(3.09)%
Life* (cumulative)	(9.41)%	(9.11)%	(8.65)%

*since 2/14/12

Commencement date for the Market Vectors Unconventional Oil & Gas ETF (FRAK) was 2/14/2012.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/14/12) to the first day of secondary market trading in shares of the Fund (2/15/12), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.67% / Net Expense Ratio 0.54%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.54% of the Fund’s average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

MARKET VECTORS URANIUM+NUCLEAR ENERGY ETF

PERFORMANCE COMPARISON

(unaudited)

Hypothetical Growth of \$10,000 (Since Inception)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

Total Return	Share Price¹	NAV	MVNLRTR²
One Year	9.52 %	9.61 %	9.71 %
Five Years	(0.79) %	(0.77) %	(1.02) %
Life* (annualized)	(7.07) %	(7.06) %	(6.94) %
Life* (cumulative)	(41.80) %	(41.76) %	(41.21) %

*since 8/13/07

Index data prior to March 24, 2014 reflects that of the DAXglobal[®] Nuclear Energy Index (DXNE). From March 24, 2014 forward, the index data reflects that of the Market Vectors[®] Global Uranium & Nuclear Energy Index (MVNLRTR). All index history reflects a blend of the performance of the aforementioned Indexes.

Commencement date for the Market Vectors Uranium+Nuclear Energy ETF (NLR) was 8/13/07.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (8/13/07) to the first day of secondary market trading in shares of the Fund (8/15/07), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes

that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.76% / Net Expense Ratio 0.60%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.60% of the Fund's average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, July 1, 2014 to December 31, 2014.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on your Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

During the year ended December 31, 2014, transfers of securities from Level 1 to Level 2 were \$ 9,477,665 and transfers of securities from Level 2 to Level 1 were \$ 45,346,656. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the year ended December 31, 2014:

	Common Stocks China / Hong Kong
Balance as of December 31, 2013	\$—
Realized gain (loss)	—
Change in unrealized appreciation (depreciation)	(4,202,054)
Purchases	—
Sales	—
Transfers in and/or out of level 3	5,554,209
Balance as of December 31, 2014	\$1,352,155

Transfers from Level 2 to Level 3 resulted primarily due to suspended trading.

Total	\$1,217,789,712	\$437,990,134	\$3,039,646	\$1,658,819,492

During the year ended December 31, 2014, transfers of securities from Level 1 to Level 2 were \$46,727,996. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the year ended December 31, 2014:

	<u>Common</u>
	<u>Stocks</u>
	<u>China/Hong</u>
	<u>Kong</u>
Balance as of December 31, 2013	\$4,551,243
Realized gain (loss)	(11,857)
Change in unrealized appreciation (depreciation)	(1,485,153)
Purchases	6,807
Sales	(21,394)
Transfers in and/or out of level 3	—
Balance as of December 31, 2014	\$3,039,646

† Security fully or partially on loan. Total market value of securities on loan is \$1,275,317.

Indicates a fair valued security which has not been valued utilizing an independent quote, but has been valued pursuant to guidelines established by the Board of Trustees. The aggregate value of fair valued securities is \$30,177,243 which represents 35.1% of net assets.

§ Illiquid Security — the aggregate value of illiquid securities is \$10,727 which represents 0.0% of net assets.

Reg S Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.

144A Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$297,560, or 0.3% of net assets.

During the year ended December 31, 2014, transfers of securities from Level 1 to Level 2 were \$ 91,557 and transfers of securities from Level 2 to Level 1 were \$ 354,853. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

† Security fully or partially on loan. Total market value of securities on loan is \$166,263.

Indicates a fair valued security which has not been valued utilizing an independent quote, but has been valued pursuant to guidelines established by the Board of Trustees. The aggregate value of fair valued securities is \$20,200,767 which represents 29.8% of net assets.

Reg S Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.

(a) Commencement of operations

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a

(b) redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

(c) Not Annualized

(d) Annualized

On July 1, 2013, the Fund effected a 1 for 3 reverse share split (See Note 10). Per share data has been adjusted to reflect the share split.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

December 31, 2014

Note 1—Fund Organization—Market Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of December 31, 2014, offers fifty five investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Agribusiness ETF, Coal ETF, Global Alternative Energy ETF, Gold Miners ETF, Junior Gold Miners ETF, Natural Resources ETF, Oil Services ETF, Rare Earth/Strategic Metals ETF, Solar Energy ETF, Steel ETF, Unconventional Oil & Gas ETF and Uranium+Nuclear Energy ETF (each a “Fund” and, together, the “Funds”). Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index sponsored, licensed or managed by the NYSE Euronext, Deutsche Börse AG, Ardour Global Indexes, LLC, S-Network Global Indexes, LLC and Market Vectors Index Solutions GmbH, a wholly owned subsidiary of Van Eck Associates Corporation (the “Adviser”).

The Funds’ commencement of operations dates and their respective Indices are presented below:

Fund	Commencement of Operations	Index
Agribusiness ETF	August 31, 2007	Market Vectors® Global Agribusiness Index*
Coal ETF	January 10, 2008	Market Vectors® Global Coal Index*
Global Alternative Energy ETF	May 03, 2007	Ardour Global Index SM (Extra Liquid)
Gold Miners ETF	May 16, 2006	NYSE Arca Gold Miners Index
Junior Gold Miners ETF	November 10, 2009	Market Vectors® Global Junior Gold Miners Index*
Natural Resources ETF ^(c)	August 29, 2008	Rogers TM -Van Eck Natural Resources Index ^(a)
Oil Services ETF	December 20, 2011	Market Vectors® US Listed Oil Services 25 Index*
Rare Earth/Strategic Metals ETF	October 27, 2010	Market Vectors® Global Rare Earth/Strategic Metals Index*
Solar Energy ETF	April 21, 2008	Market Vectors® Global Solar Energy Index*
Steel ETF	October 10, 2006	NYSE Arca Steel Index
Unconventional Oil & Gas ETF	February 14, 2012	Market Vectors® Global Unconventional Oil & Gas Index*
Uranium+Nuclear Energy ETF	August 13, 2007	Market Vectors® Global Uranium & Nuclear Energy Index ^(b)

* Published by Market Vectors Index Solutions GmbH.

(a) Prior to May 1, 2014, the index for Natural Resources ETF was RogersTM-Van Eck Hard Assets Producers Index.

(b) Prior to May 1, 2014, the index for Uranium+Nuclear Energy ETF was DAXglobal® Nuclear Energy Index.

(c) Effective May 1, 2014, the RVE Hard Assets Producers ETF changed its name to Natural Resources ETF.

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification (“ASC”) 946 Financial Services - Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price.

A. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds’ pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities’ primary market, are fair valued using a pricing service and are

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign market is closed but the Fund is open. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 Quoted prices in active markets for identical securities.

Level 2 Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid annually by each fund. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when

84

accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

Repurchase Agreements—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase Agreements held as of December 31, 2014 are reflected in the Schedules of Investments.

Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (“OTC”) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the Adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments during the year ended December 31, 2014.

H. Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting agreements or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds present securities lending and repurchase agreement assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Collateral held at December 31, 2014 is presented in the Schedules of Investments. Also, refer to related disclosures in Note 2F (Repurchase Agreements) and Note 9 (Securities

Lending).

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily.

- I. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date/rate. Interest income, including amortization of premiums and discounts, is accrued as earned.

85

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.50% of each Fund's average daily net assets (except for Oil Services ETF). The management fee rate for Oil Services ETF is 0.35%. The Adviser has agreed, at least until May 1, 2015 to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense limitation (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) listed in the table below.

The current expense limitations and the amounts waived by the Adviser for the year ended December 31, 2014, are as follows:

Fund	Expense Limitations	Waiver of Management Fees
Agribusiness ETF	0.56 %	\$ 558
Coal ETF	0.59	60,104
Global Alternative Energy ETF	0.62	23,065
Gold Miners ETF	0.53	—
Junior Gold Miners ETF	0.56	—
Natural Resources ETF	0.49	234,402
Oil Services ETF	0.35	507,634
Rare Earth / Strategic Metals ETF	0.57	123,370
Solar Energy ETF	0.65	107,671
Steel ETF	0.55	78,999
Unconventional Oil & Gas ETF	0.54	90,936
Uranium+Nuclear Energy ETF	0.60	109,980

The Adviser offsets the management fees it charges the Funds by the amount it collects as a management fee from underlying funds managed by the Adviser. For the year ended December 31, 2014, the Adviser reduced management fees charged by \$93,552 due to such investments in Junior Gold Miners ETF.

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' "Distributor". Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Note 4—Investments—For the year ended December 31, 2014, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
Agribusiness ETF	\$385,784,514	\$381,514,598
Coal ETF	41,155,895	41,361,569
Global Alternative Energy ETF	31,594,262	31,628,526
Gold Miners ETF	1,356,147,054	1,269,159,048
Junior Gold Miners ETF	1,225,451,481	1,229,335,998
Natural Resources ETF	12,807,564	12,994,951
Oil Services ETF	239,011,894	189,620,443
Rare Earth / Strategic Metals ETF	31,573,851	32,104,646
Solar Energy ETF	12,493,045	12,320,887
Steel ETF	22,478,248	11,306,225
Unconventional Oil & Gas ETF	16,285,063	7,504,619
Uranium+Nuclear Energy ETF	22,484,813	57,595,850

86

Note 5—Income Taxes—As of December 31, 2014, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

Fund	Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
Agribusiness ETF	\$1,625,579,983	\$208,170,816	\$(318,876,514)	\$(110,705,698)
Coal ETF	200,818,449	2,182,789	(87,254,526)	(85,071,737)
Global Alternative Energy ETF	108,906,097	13,414,976	(18,262,558)	(4,847,582)
Gold Miners ETF	9,556,069,703	29,251,326	(3,974,494,801)	(3,945,243,475)
Junior Gold Miners ETF	2,150,183,406	27,077,130	(518,441,044)	(491,363,914)
Natural Resources ETF	99,612,552	10,018,041	(21,904,531)	(11,886,490)
Oil Services ETF	1,443,169,743	—	(424,363,950)	(424,363,950)
Rare Earth / Strategic Metals ETF	130,425,434	2,309,235	(63,840,544)	(61,531,309)
Solar Energy ETF	27,324,558	3,008,682	(4,181,233)	(1,172,551)
Steel ETF	147,137,917	77,979	(57,582,488)	(57,504,509)
Unconventional Oil & Gas ETF	87,438,049	—	(21,876,113)	(21,876,113)
Uranium+Nuclear Energy ETF	62,887,554	7,672,448	(2,541,185)	5,131,263

At December 31, 2014, the components of accumulated deficit on a tax basis, for each Fund, were as follows:

Fund	Undistributed Ordinary Income	Accumulated Capital Losses	Qualified Late Year Losses	Other Temporary Difference	Unrealized Appreciation (Depreciation)	Total
Agribusiness ETF	\$244,026	\$(854,523,800)	\$—	\$(350,281)	\$(110,809,806)	\$(965,439,861)

During the year ended December 31, 2014, Oil Services ETF utilized \$261,259 of its accumulated capital loss carryforwards.

During the year ended December 31, 2014, as a result of permanent book to tax differences, primarily due to investments in Passive Foreign Investment Companies, foreign currency gains and losses, and tax treatment of in-kind redemptions, the Funds incurred differences that affected undistributed net investment income (loss), accumulated net realized gain (loss) on investments and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase/Decrease in Undistributed Net Investment Income/ Loss	Increase/Decrease in Accumulated Net Realized Gain/ Loss	Increase /Decrease in Aggregate Paid in Capital
Agribusiness ETF	\$ (330,737)	\$(242,833,872)	\$243,164,609
Coal ETF	478,532	400,806	(879,338)
Global Alternative Energy ETF	(5,560)	(8,074,727)	8,080,287
Gold Miners ETF	(46,485)	(119,566,585)	119,613,070
Junior Gold Miners ETF	39,227,593	(15,923,932)	(23,303,661)
Natural Resources ETF	(19,549)	(4,271,837)	4,291,386
Oil Services ETF	—	(73,810,570)	73,810,570
Rare Earth/Strategic Metals ETF	(29,960)	12,731,236	(12,701,276)
Solar Energy ETF	61,407	(4,008,276)	3,946,869
Steel ETF	33,940	1,808,550	(1,842,490)
Unconventional Oil & Gas ETF	19,342	(2,855,175)	2,835,833
Uranium+Nuclear Energy ETF	24,287	(3,943,468)	3,919,181

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended December 31, 2011-2013), or expected to be taken in the Funds’ current tax year. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds’ financial statements. However, the Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended year, the Funds did not incur any interest or penalties.

Note 6—Capital Share Transactions—As of December 31, 2014, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the year ended December 31, 2014 the Trust had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
Agribusiness ETF	\$12,462,106	\$3,121,055,508
Coal ETF	54,321,841	50,725,249
Global Alternative Energy ETF	15,439,582	20,277,905
Gold Miners ETF	3,037,272,746	3,332,237,139
Junior Gold Miners ETF	1,499,166,967	364,946,300
Natural Resources ETF	19,993,437	25,497,023
Oil Services ETF	6,640,707,271	6,964,125,216
Rare Earth / Strategic Metals ETF	4,533,328	15,520,584
Solar Energy ETF	10,481,232	10,237,167
Steel ETF	44,508,485	95,461,494
Unconventional Oil & Gas ETF	50,809,065	22,030,907
Uranium+Nuclear Energy ETF	44,048,919	24,090,285

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect gross shareholder transactions including any cash component of the transactions.

Note 7—Concentration of Risk—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a “passive” or index approach to achieve each Fund's investment objective by investing in a portfolio of securities that generally replicates the Funds' index. Each of the Funds is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

As a result of recent events involving Ukraine and the Russian Federation, the United States and the European Union have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers held by the Funds.

At December 31, 2014, the Adviser owned 2,500 shares of Gold Miners ETF.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in “Trustees' fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds' custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities and shares the interest earned on the collateral and borrowing fees received with the securities lending agent. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at December 31, 2014 are presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

Note 10—Share Split—On January 27, 2012, the Board of Trustees of the Trust approved a 3 for 1 share split for the Oil Services ETF. The split took place for shareholders of record as of the close of business on February 10, 2012, and were paid on February 13, 2012. Fund shares began trading on a split-adjusted basis on February 14, 2012. The

Financial Highlights for the Oil Services ETF prior to January 27, 2012 have been adjusted to reflect the 3 for 1 share split.

On July 2, 2012, the Board of Trustees of the Trust approved a 1 for 15 reverse share split for Solar Energy ETF. Fund shares began trading on a split-adjusted basis on July 2, 2012. The Financial Highlights for Solar Energy ETF prior to July 2, 2012 have been adjusted to reflect the 1 for 15 reverse share split.

On July 1, 2013, the Board of Trustees of the Trust approved a 1 for 3 reverse share split for Global Alternative Energy ETF and Uranium+Nuclear Energy ETF, and 1 for 4 reverse share split for Junior Gold Miners ETF and Rare Earth/Strategic Metals ETF. Fund shares began trading on a split-adjusted basis on July 1, 2013. The Statements of Changes in Net Assets and Financial Highlights prior to July 1, 2013 for the respective Funds have been adjusted to reflect the reverse share splits.

Note 11—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended December 31, 2014, the following Funds borrowed under this Facility:

Fund	Days	Average Daily	Average		Outstanding Loan Balance as of December 31, 2014
	Outstanding	Loan Balance	Interest Rate		
Agribusiness ETF	326	\$ 6,776,550	1.50	%	\$—
Coal ETF	146	318,421	1.49		—
Global Alternative Energy ETF	25	131,718	1.49		—
Gold Miners ETF	259	21,866,740	1.50		6,144,044
Junior Gold Miners ETF	353	9,563,019	1.50		6,759,151
Natural Resources ETF	325	392,864	1.50		437,250
Oil Services ETF	262	2,819,062	1.49		—
Rare Earth / Strategic Metals ETF	227	504,638	1.50		—
Solar Energy ETF	51	212,000	1.51		—
Steel ETF	161	358,641	1.49		—
Unconventional Oil & Gas ETF	80	230,929	1.50		—
Uranium+Nuclear Energy ETF	317	218,406	1.50		—

Note 12—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the year ended December 31, 2014, there were no offsets to custodian fees.

Note 13—Subsequent Event Review—The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of Market Vectors ETF Trust

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Agribusiness ETF, Coal ETF, Global Alternative Energy ETF, Gold Miners ETF, Junior Gold Miners ETF, Natural Resources ETF, Oil Services ETF, Rare Earth/Strategic Metals ETF, Solar Energy ETF, Steel ETF, Unconventional Oil & Gas ETF and Uranium + Nuclear Energy ETF (twelve of the series constituting Market Vectors ETF Trust) (the "Funds") as of December 31, 2014, and the related statements of operations, the statements of changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2014, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Agribusiness ETF, Coal ETF, Global Alternative Energy ETF, Gold Miners ETF, Junior Gold Miners ETF, Natural Resources ETF, Oil Services ETF, Rare Earth/Strategic Metals ETF, Solar Energy ETF, Steel ETF, Unconventional Oil & Gas ETF and Uranium + Nuclear Energy ETF (twelve of the series constituting Market Vectors ETF Trust) at December 31, 2014, the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

Item 2. CODE OF ETHICS.

- (a) The Registrant has adopted a code of ethics (the "Code of Ethics") that applies to the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) Not applicable.
- (c) The Registrant has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Registrant has not granted a waiver or an implicit waiver from a provision of its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (e) Not applicable.
- (f) The Registrant's Code of Ethics is attached as an Exhibit hereto.

Item 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that David Chow, R. Alastair Short and Richard Stamberger, members of the Audit and Governance Committees, are "audit committee financial experts" and "independent" as such terms are defined in the instructions to Form N-CSR Item 3(a)(2).

Item 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The principal accountant fees disclosed in Item 4(a), 4(b), 4(c), 4(d) and 4(g) are for the Funds of the Registrant for which the fiscal year end is December 31.

- (a) Audit Fees. The aggregate Audit Fees of Ernst & Young for professional services billed for the audits of the financial statements, or services that are normally provided in connection with statutory and regulatory filings or engagements for the fiscal years ended December 31, 2014 and December 31, 2013, were \$681,480 and \$711,850, respectively.
- (b) Audit-Related Fees. Not applicable.
- (c) Tax Fees. The aggregate Tax Fees of Ernst & Young for professional services billed for the review of Federal, state and excise tax returns and other tax compliance consultations for the fiscal years ended December 31, 2014 and December 31, 2013, were \$830,539 and \$798,106, respectively.
- (d) All Other Fees

None.
- (e) The Audit Committee will pre-approve all audit and non-audit services, to be provided to the Funds, by the independent accountants as required by Section 10A of the Securities Exchange Act of 1934. The Audit Committee has authorized the Chairman of the Audit Committee to approve, between meeting dates, appropriate non-audit services.

The Audit Committee after considering all factors, including a review of independence issues, will recommend to the Board of Trustees the

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSR

independent auditors to be selected to audit the financial statements of the Funds.

(f) Not applicable. (g) Not applicable. (h) Not applicable. Item 5. AUDIT COMMITTEE OF LISTED REGISTRANTS. The Registrant's Board has an Audit Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)) consisting of four Independent Trustees. Messrs. Chow, Short, Sidebottom and Stamberger currently serve as members of the Audit Committee. Mr. Short is the Chairman of the Audit Committee. Item 6. SCHEDULE OF INVESTMENTS. Information included in Item 1. Item 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 8. PORTFOLIO MANAGER OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 9. PURCHASE OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS. Not applicable. Item 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS. None. Item 11. CONTROLS AND PROCEDURES. (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3 (c)) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15 (b)). (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting. Item 12. EXHIBITS. (a)(1) The code of ethics is attached as EX-99.CODE ETH (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2) is attached as Exhibit 99.CERT. (b) Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 is furnished as Exhibit 99.906CERT.
