**NOTICE OF ANNUAL MEETING OF
STOCKHOLDERS AND PROXY STATEMENT**

The Board of Directors of ViaSat, Inc. is soliciting the enclosed proxy for use at the annual meeting of stockholders to be held on September 3, 2002, at 8:30 a.m., at the corporate offices of ViaSat at 6155 El Camino Real, Carlsbad, California 92009.

GENERAL INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Why did you send me this proxy statement?

We sent you this proxy statement and the enclosed proxy card because ViaSat's Board of Directors is soliciting your proxy to vote at the 2002 annual meeting of stockholders. This proxy statement summarizes the information you need to know to vote at the annual meeting. All stockholders who find it convenient to do so are cordially invited to attend the annual meeting in person. However, you do not need to attend the meeting to vote your shares. Instead, you may simply complete, sign and return the enclosed proxy card.

On or about July 31, 2002, we began sending this proxy statement, the attached notice of annual meeting and the enclosed proxy card to all stockholders entitled to vote. Only stockholders who owned ViaSat common stock at the close of business on July 19, 2002 are entitled to vote at the annual meeting. On this record date, there were 26,008,006 shares of ViaSat common stock outstanding. Common stock is our only class of stock entitled to vote. We are also sending along with this proxy statement our 2002 Annual Report, which includes our financial statements.

What am I voting on?

The election of one director to serve a three-year term. The present Board of Directors of ViaSat has nominated and recommends for election as director the following person:

Mark D. Dankberg

How many votes do I have?

Each share of ViaSat common stock that you own entitles you to one vote.

How do I vote by proxy?

Whether you plan to attend the annual meeting or not, we urge you to complete, sign and date the enclosed proxy card and to return it promptly in the envelope provided. Returning the proxy card will not affect your right to attend or vote at the meeting.

If you properly complete your proxy card and send it to us in time to vote, your proxy (i.e., one of the individuals named on your proxy card) will vote your shares as you have directed. If you sign the proxy card but do not make specific choices, your proxy will vote your shares FOR the election of the one nominee for director as recommended by the Board of Directors.

Edgar Filing: VIASAT INC - Form DEF 14A

If any other matter is presented at the annual meeting, your proxy will vote in accordance with his best judgment. As of the date of this proxy statement, we knew of no matters that needed to be acted on at the meeting, other than those discussed in this proxy statement.

Table of Contents

May I revoke my proxy?

If you give us your proxy, you may revoke it at any time before it is exercised. You may revoke your proxy in any one of the three following ways:

You may send in another signed proxy with a later date,

You may notify ViaSat's Secretary, Gregory D. Monahan, in writing before the annual meeting that you have revoked your proxy, or

You may notify ViaSat's Secretary in writing before the annual meeting and vote in person at the meeting.

How do I vote in person?

If you plan to attend the annual meeting and vote in person, we will give you a ballot when you arrive. However, if your shares are held in the name of your broker, bank or other nominee, you must bring an account statement or letter from the nominee indicating that you were the beneficial owner of the shares on July 19, 2002, the record date for voting.

What constitutes a quorum?

The presence at the annual meeting, in person or by proxy, of a majority of our outstanding common stock, or approximately 13,004,004 shares, constitutes a quorum at the meeting, permitting us to conduct our business. Proxies that are returned to us that reflect abstentions or include broker non-votes will be treated as present and entitled to vote for purposes of determining the presence of a quorum.

What vote is required to elect the director?

The nominee for director who receives the most votes will be elected. Voting results will be tabulated and certified by our transfer agent, Computershare Investor Services LLC.

What is the effect of abstentions and broker non-votes?

Shares represented by proxies that reflect abstentions or include broker non-votes will be treated as present and entitled to vote for purposes of determining the presence of a quorum. Because directors are elected by a plurality of the votes cast, abstentions and broker non-votes will have no effect on the outcome of the election.

What are the costs of soliciting these proxies?

We will pay all of the costs of soliciting these proxies. Our directors and employees may solicit proxies in person or by telephone, fax or email. We will pay these employees and directors no additional compensation for these services. We will ask banks, brokers and other institutions, nominees and fiduciaries to forward these proxy materials to their principals and to obtain authority to execute proxies. We will then reimburse them for their expenses.

How do I obtain an Annual Report on Form 10-K?

If you would like a copy of our Annual Report on Form 10-K for the fiscal year ended March 31, 2002 that we filed with the Securities and Exchange Commission, we will send you one without charge. Please write to:

(1) Consists of two plans: (a) our 1996 Equity Participation Plan and (b) our Employee Stock Purchase Plan. See below for a more detailed discussion of these plans.

(2) Consists of the U.S. Monolithics, L.L.C. 2000 Unit Incentive Plan. See below for a more detailed discussion of this plan.

1996 Equity Participation Plan. In November 1996 we adopted The 1996 Equity Participation Plan of ViaSat, Inc. to update and replace our 1993 Stock Option Plan. The Equity Participation Plan provides for the grant to our executive officers, other key employees, consultants and non-employee directors of a broad variety of stock-based compensation alternatives such as nonqualified stock options, incentive stock options, restricted stock and performance awards. The Equity Participation Plan provides for aggregate award grants of up to 6,100,000 shares. As of July 19, 2002, options to purchase an aggregate of 4,277,048 shares of common stock at prices ranging from \$4.25 to \$43.82 were outstanding under the Equity Participation Plan.

Employee Stock Purchase Plan. In November 1996 we established the ViaSat, Inc. Employee Stock Purchase Plan to assist our employees in acquiring a stock ownership interest in our company and to encourage them to remain in our employment. The Purchase Plan is intended to qualify under Section 423 of the Internal Revenue Code. The Purchase Plan permits our eligible employees to purchase our common stock at a discount through payroll deductions during specified six-month offering periods. The Purchase Plan is administered by the Compensation Committee. Currently, a maximum of 1,000,000 shares of common stock are authorized for issuance under the Purchase Plan. As of July 19, 2002, an aggregate of 566,466 shares of common stock at prices ranging from \$3.83 to \$21.20 were issued under the Purchase Plan.

U.S. Monolithics, LLC 2000 Unit Incentive Plan. In connection with our acquisition of U.S. Monolithics, LLC on January 4, 2002, options to purchase approximately 44,418 of our shares at a weighted average exercise price of \$8.94 were assumed from the U.S. Monolithics, L.L.C. 2000 Unit Incentive Plan. Our stockholders have not approved the U.S. Monolithics Plan. The purpose of the U.S. Monolithics Plan is to assist the employees of U.S. Monolithics (which is now operated as a wholly-owned subsidiary of ViaSat) in acquiring a stock ownership interest in our company and to encourage them to remain employees of U.S. Monolithics. The U.S. Monolithics Plan authorizes the grant of non-qualified stock options and restricted stock covering an aggregate of 203,000 shares of our common stock. As of July 19, 2002, options to purchase an aggregate of 44,418 shares of common stock at a price of \$8.94 were outstanding under the U.S. Monolithics Plan.

401(k) Plan. We have established a tax-qualified employee savings and retirement plan effective January 1990 covering all employees who are at least 21 years of age. Under the 401(k) Plan, our employees

Table of Contents

may elect to reduce their current compensation by not less than 1.0% nor more than 15.0% of eligible compensation and have the amount of the reduction contributed to the 401(k) Plan. The 401(k) Plan permits, but does not require, additional cash contributions to the 401(k) Plan by us. The trustee under the 401(k) Plan invests the assets of the 401(k) Plan in designated investment options. The 401(k) Plan is intended to qualify under Section 401 of the Internal Revenue Code so that contributions to the 401(k) Plan, and income earned on plan contributions, are not taxable to our employees until withdrawn from the 401(k) Plan, and so that contributions by us are deductible by us when made for income tax purposes.

Compensation Committee Interlocks and Insider Participation

During fiscal year 2002, the Compensation Committee was comprised of Drs. Johnson and Nash. No interlocking relationship exists between any member of the Compensation Committee and any member of any other company's board of directors or compensation committee.

Committee Report on Executive Compensation

The Compensation Committee of the Board of Directors is responsible for administering our compensation policies and practices and approves all elements of compensation for our executive officers. The Compensation Committee reports regularly to the full Board of Directors on its activities. In general, the compensation policies adopted by the Compensation Committee are designed to provide competitive levels of compensation to:

attract and retain executives capable of leading us to meet our business objectives and

motivate our executives to enhance long-term stockholder value.

Executive Officer Compensation

Our executive compensation program is comprised of base salary, annual cash incentive bonus and long-term incentive compensation in the form of stock option grants at current market prices.

Our compensation program for executive officers is designed to provide a total compensation level (including both annual and long-term incentives) that is competitive with surveyed companies. For executive officers recently recruited by us, annual compensation rates and long-term incentive awards reflect amounts necessary to attract them to our company. The compensation program is benchmarked by using surveys of companies in the high technology industry with similar revenues and/or prospects. These companies, which are representative of the firms we compete with for executive talent and have jobs similar to those at our company in magnitude, complexity and scope of responsibility, form the basis for the survey group used by the Compensation Committee.

Components of Executive Compensation

Base salary is established by the Compensation Committee based on an executive's job responsibilities, level of experience, individual performance and contribution to our company, and information obtained from surveys. The Compensation Committee believes that the executives base salaries are at competitive levels relative to the various markets from which our company attracts its executive talent.

Annual cash incentive bonus is established by the Compensation Committee at the end of the fiscal year and is based on our company's performance, individual performance, and compensation surveys. Bonuses awarded in prior years are also taken into consideration. The bonuses are at risk and are not arithmetically derived using a bonus formula.

Long-term incentives include awards of stock options, restricted stock, and performance awards. The objective for the awards is to closely align executive interests with the longer-term interests of stockholders. These awards, which are at risk and dependent on the creation of incremental stockholder value or the attainment of cumulative financial targets over several years, represent a significant portion of the total compensation opportunity provided for the executive officers. Award sizes are based on

Table of Contents

individual performance, level of responsibility, the individual's potential to make significant contributions to our company, and award levels at other companies in the survey group. Long-term incentives granted in prior years are also taken into consideration. For fiscal year 2002, the Compensation Committee determined that the only form of long-term incentive awards would be stock options. There were no restricted stock or performance awards granted during fiscal year 2002.

Compensation for the Chairman and Chief Executive Officer

Based on the framework described above, the Compensation Committee determines the CEO's compensation by judging his individual contributions to ViaSat's business, level of responsibility, and career experience. The Compensation Committee does not believe that narrow quantitative measures or formulas are sufficient for determining Mr. Dankberg's compensation. The Compensation Committee does not give specific weights to the factors considered, but the primary factor is the CEO's individual contribution to the business. The Compensation Committee recognizes Mr. Dankberg's outstanding contributions to ViaSat's business performance during fiscal year 2002. Further, under Mr. Dankberg's direction, ViaSat has achieved sixteen consecutive years of revenue growth and fifteen consecutive years of profitability. Considering all the factors, the Compensation Committee believes the combination of Mr. Dankberg's base salary, annual cash bonus and long-term incentives is appropriately positioned relative to the CEOs of other comparable U.S. based companies.

Deductibility of Compensation in Excess of \$1 Million Per Year

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to a company's Chief Executive Officer and any of its four other most highly compensated executive officers. Qualifying performance-based compensation is not subject to the deduction limit if specific requirements are met. For 2002 and 2003, we do not anticipate that there will be nondeductible compensation for the positions in question. The Compensation Committee plans to continue to review the matter for 2003 and future years in order to determine the extent of possible modification to our compensation arrangements.
