STEREO VISION ENTERTAINMENT, INC. (A Development Stage Company) NOTES TO FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of accounting policies for Stereo Vision Entertainment, Inc. is presented to assist in understanding the Company's financial statements. The accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

The unaudited financial statements as of March 31, 2009 and for the three and nine months then ended reflect, in the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to fairly state the financial position and results of operations for the three and nine months. Operating results for interim periods are not necessarily indicative of the results which can be expected for full years.

Nature of Operations and Going Concern

The accompanying financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assumes that the Company will continue in operation for at least one year and will be able to realize its assets and discharge its liabilities in the normal course of operations.

Several conditions and events cast doubt about the Company's ability to continue as a "going concern". The Company has incurred net losses of approximately \$16,858,823 for the period from May 5, 1999 (inception) to March 31, 2009, has a liquidity problem, and requires additional financing in order to finance its business activities on an ongoing basis. The Company is actively pursuing alternative financing and has had discussions with various third parties, although no firm commitments have been obtained. In the interim, shareholders of the Company have continued to meeting its minimal operating expenses as they have done in the past.

The Company's future capital requirements will depend on numerous factors including, but not limited to, continued progress developing its products and market penetration and profitable operations.

These financial statements do not reflect adjustments that would be necessary if the Company were unable to continue as a "going concern". While management believes that the actions already taken or planned, will mitigate the adverse conditions and events which raise doubt about the validity of the "going concern" assumption used in preparing these financial statements, there can be no assurance that these actions will be successful.

If the Company were unable to continue as a "going concern", then substantial adjustments would be necessary to the carrying values of assets, the reported amounts of its liabilities, the reported expenses, and the balance sheet classifications used.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Organization and Basis of Presentation

The Company was incorporated under the laws of the State of Nevada on May 5, 1999. As of March 31, 2009, the Company is in the development stage, and has not commenced planned principal operations.

Nature of Business

The Company intends to position itself to evolve into a vertically integrated, diversified media entertainment company. The Company anticipates generating revenues from several sources, including production of new feature films in both 3-D and 2-D format for theatrical and direct to DVD release, as well as expanding into other areas of the entertainment industry including the licensing of its film rights to the video gaming industry.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

Pervasiveness of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments, including accounts payable and accrued liabilities at March 31, 2009 and June 30, 2008 approximates their fair values due to the short-term nature of these financial instruments.

STEREO VISION ENTERTAINMENT, INC. (A Development Stage Company) NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property and Equipment

Property and equipment are stated at cost. Depreciation is provided for in amounts sufficient to relate the cost of depreciable assets to operations over their estimated service lives, principally on a straight-line basis from 3 to 5 years.

Upon sale or other disposition of property and equipment, the cost and related accumulated depreciation or amortization are removed from the accounts and any gain or loss is included in the determination of income or loss.

Expenditures for maintenance and repairs are charged to expense as incurred. Major overhauls and betterments are capitalized and depreciated over their useful lives.

The Company identifies and records impairment losses on long-lived assets such as property and equipment when events and circumstances indicate that such assets might be impaired. The Company considers factors such as significant changes in the regulatory or business climate and projected future cash flows from the respective asset. Impairment losses are measured as the amount by which the carrying amount of intangible asset exceeds its fair value.

Advertising Costs

Advertising costs are expensed as incurred. For the nine months ended March 31, 2009 and 2008, advertising expense was \$0 and \$0, respectively.

Concentration of Credit Risk

The Company has no significant off-balance-sheet concentrations of credit risk such as foreign exchange contracts, options contracts or other foreign hedging arrangements. The Company maintains the majority of its cash balances with one financial institution, in the form of demand deposits.

STEREO VISION ENTERTAINMENT, INC. (A Development Stage Company) NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loss per Share

Basic loss per share has been computed by dividing the loss for the year applicable to the common stockholders by the weighted average number of common shares outstanding during the year. The effect of outstanding common stock equivalents would be anti-dilutive for March 31, 2009 and 2008 and are thus not considered. At March 31, 2009 and 2008, there were no outstanding common stock equivalents.

Reclassification

Certain reclassifications have been made in the 2008 financial statements to conform with the 2009 presentation.

Intangible Assets

Intangible assets consist of movie and music licensing rights and production costs and are valued at cost. As of March 31, 2009 and June 30, 2008, the Company had \$430,078 and \$406,750 in film costs that are in the development stage or pre-production stage.

The Company identifies and records impairment losses on intangible assets when events and circumstances indicate that such assets might be impaired or when the property is not set for production within three years of acquisition. The Company considers factors such as significant changes in the regulatory or business climate and projected future cash flows from the respective asset. Impairment losses are measured as the amount by which the carrying amount of intangible asset exceeds its fair value.

NOTE 2 - INCOME TAXES

As of June 30, 2008, the Company had a net operating loss carry forward for income tax reporting purposes of approximately \$16,555,000 that may be offset against future taxable income through 2028. Current tax laws limit the amount of loss available to be offset against future taxable income when a substantial change in ownership occurs. Therefore, the amount available to offset future taxable income may be limited. No tax benefit has been reported in the financial statements, because the Company believes there is a 50% or greater chance the carry-forwards will expire unused. Accordingly, the potential tax benefits of the loss carry-forwards are offset by a valuation allowance of the same amount.

Valuation Allowance	(2,4	483,250) ((2,283,150)

The provision for income taxes differs from the amount computed using the federal US statutory income tax rate as follows:

STEREO VISION ENTERTAINMENT, INC. (A Development Stage Company) NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 2 - INCOME TAXES (continued)

The Company evaluates its valuation allowance requirements based on projected future operations. When circumstances change and causes a change in management's judgment about the recoverability of deferred tax assets, the impact of the change on the valuation is reflected in current income.

NOTE 3 - DEVELOPMENT STAGE COMPANY/ GOING CONCERN

The Company has not begun principal operations and as is common with a development stage company, the Company has had recurring losses during its development stage. Continuation of the Company as a going concern is dependent upon obtaining the additional working capital necessary to be successful in its planned activity. The management of the Company has developed a strategy, which it believes will accomplish this objective through additional equity funding and long term financing, which will enable the Company to operate for the coming year.

NOTE 4 - RENT EXPENSE

The Company's principal executive offices are located at 15452 Cabrito Road, Suite 204, Van Nuys, CA 91406 and consist of approximately 2,500 square feet of furnished executive suite offices and reception and conference room arrangements. The lease expired in June 2005. Since the lease expired, the Company is on a month to month lease. The monthly rent for the property is \$2,500. For the nine months ended March 31, 2009 and 2008, rent expense was \$22,500 and \$22,500, respectively.

In March, 2008, the Board approved a new benefits package for its CEO, Mr. Jack Honour which includes payment for housing at the rate of \$4,500 per month plus utilities as well as the use of a car. The annual cost of these benefits is estimated to be \$85,000 p.a.

At March 31, 2009, the company owed \$769,667 on this loan. NOTE 9 - STOCK OPTIONS

Pursuant to a year 2000 Stock Option and Compensation Plan, grants of shares can be made to employees, officers, directors, consultants and independent contractors of non-qualified stock options as well as for the grant of stock options to employees that qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986 or as non-qualified stock options. The Plan is administered by the Board of Directors ("Board"), which has, subject to specified limitations, the full authority to grant options and establish the terms and conditions for vesting and exercise thereof.

In order to exercise an option granted under the Plan, the optionee must pay the full exercise price of the shares being purchased. Payment may be made either: (i) in cash; or (ii) at the discretion of the Board, by delivering shares of common stock already owned by the optionee that have a fair market value equal to the applicable exercise price; or (iii) with the approval of the Board, with monies borrowed from the Company.

Subject to the foregoing, the Board has broad discretion to decide the terms and conditions applicable to options granted under the Plan. NOTE 10 - LEGAL PROCEEDINGS

In September of 2001 the company entered into a promissory note with Duncan MacPhearson to be payable within the year. A dispute arose and the note was not timely paid, which led to a court action styled R. Duncan MacPhearson vs. Stereo Vision Entertainment, et. al., Case No. LC 0611749, in Los Angeles, California. Subsequently, the parties, on January 26, 2004, entered into a Settlement Agreement, including default provisions if scheduled payments did not occur as agreed. 25,000 shares of restricted stock, valued at \$25,000, were delivered and \$42,500 of payments was made, but the final \$10,000 was not paid. According to the stipulated judgment agreement, this resulted in the plaintiff's entry of a judgment, according to notice received by the company, of \$37,411, which was then appealed by the Company as incorrect. The appellate court disagreed and allowed the entry of judgment as filed, stating that the 25,000 shares had "no value" and allowing \$37,411 to be imposed against the Company. Therefore, the company has paid \$42,500 in cash, \$25,000 in restricted stock, and owed \$37,411, which had been accrued as a liability in the financial statements, for a total lawsuit resolution of \$104,911. At March 31, 2009 and June 30, 2008, the total amount due was \$32,411.

The Company has been served with a judgment in the amount of \$6,600 by an individual in Pennsylvania. As of March 31, 2009 and June 30, 2008, this amount has been recorded as a liability in the accompanying financial statements.

The Company has received notice that it is in breach of its former contract with the Investor Relations Group which claims it is owed \$17,676.25 as well as 40,000 shares of restricted stock. As of March 31, 2009 and June 30, 2008, this amount has been recorded as a liability in the accompanying financial statements. The issuance of the common stock has also been recorded and valued at \$10,100. As of March 31, 2009, the stock has not been issued.

The Company has brought a defamation action against Ed Meyer and Adirondack Pictures. A cross complaint has been filed by Adirondack against the Company alleging claims for breach of contract, intentional misrepresentation and declaratory relief. The Company has answered the cross-complaint, denying all of the material allegations and intends to vigorously defend the claims made. During the quarter ended March 31, 2009, the Company reached an agreement with Mr. Meyer and Adirondack Pictures whereby upon execution of the agreement by all parties, the plaintiffs and defendants fully and mutually release and forever discharge each other from any and all claims.

The Company has the right but not the obligation to finance future JamOakie projects. The price paid was 20,000 unregistered common shares of the Company which were worth \$6,000 at the time, and \$5,893 in cash.

NOTE 12 - FILM AND MUSIC COSTS

The Company has intangible assets which consist of movie licensing rights and development costs which are valued at cost. As of March 31, 2009 and June 30, 2008, the Company had \$430,078 and \$406,750 invested in film projects that are in the development or pre-production stage.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Plan of Operations - The following discussion should be read in conjunction with the Company's reviewed financial statements.

SVEI intends to pursue opportunities in three product segments of the entertainment industry:

Feature length 3D and 2D films for theatrical release Direct to DVD 2D and 3D films Licensing of video game rights

StereoVision intends to be the only company in Hollywood focused on developing a library of films using 3D technology. The company intends to develop four to five new scripts for theatrical release in 3D and 2D and direct to DVD movies (initially in 2D only) each year and will concentrate on the most popular genres including horror, action/adventure, sci-fi CGI effect movies, comedies and family films. The Company currently has five film projects in various stages of development including one with a completed script and both a director and a producer attached.

As a development stage company, SVEI has minimal historical operations, no revenues and negative cash flows. In order to satisfy cash requirements for SVEI's production and revenue goals, management must obtain working capital through either debt or equity financing.

The entertainment industry is an intensely competitive one, where price, service, location, and quality are critical factors. The Company has many established competitors, ranging from similar local single unit operations to large multi-national operations. The entertainment industry may be affected by changes in customer tastes, economic, and demographic trends. Factors such as inflation, increased supply costs and the availability of suitable employees may adversely affect the entertainment industry in general and the Company in particular. In view of the Company's limited financial resources and management availability, the Company will continue to be at a significant competitive disadvantage vis-a-vis the Company's competitors.

Results of Operations - There were no revenues from sales for the nine months ended March 31, 2009 and 2008. SVEI has sustained a net loss of approximately \$136,000 and \$304,000 for the three and nine months ended March 31, 2009, respectively. From May 5, 1999 the Company was a development stage company and had not begun principal operations. Accordingly, comparisons with prior periods are not meaningful.

LIQUIDITY AND CAPITAL RESOURCES

The Company has developed a detailed plan of operations to exploit the opportunities it sees in the entertainment industry and to take advantage of the skills and experience of its management team. On a preliminary basis, the Company estimates that it will require approximately \$1,500,000 over a period of 12 months to fund initial development of existing projects as well as operate the company. In order to fund the actual production of a feature film, the Company estimates it will require approximately an additional \$6-\$25 million which it will obtain from a variety of sources including partner distributors, tax rebates for on site production in certain jurisdictions as well as debt and equity sources. The Company may attempt to arrange joint ventures with studios to facilitate the development of new movies.

The aforementioned estimates of capital required are still preliminary in nature and are subject to substantial and continuing revisions. Although the Company has not yet commenced any formal capital raising efforts, the Company expects that any capital that it raises will be in the form of one or more debt or equity financings. However, there can be no assurances that the Company will be successful in raising any required capital on a timely basis and/or under acceptable terms and conditions. To the extent that the Company does not raise sufficient capital to implement its plan

of operations on a timely basis, it will have to curtail, revise and/or delay its business plans. The Company has financed its operations to date from the sale of stock and loans from related parties. During the three months ended March 31, 2009, the Company raised \$36,000 from loan from shareholders and sales of stocks. There can be no assurances that loans or share sales can be effected in the future.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

In September of 2001 the company entered into a promissory note with Duncan MacPhearson to be payable within the year. A dispute arose and the note was not timely paid, which led to a court action styled R. Duncan MacPhearson vs. Stereo Vision Entertainment, et. al., Case No. LC 0611749, in Los Angeles, California. Subsequently, the parties, on January 26, 2004, entered into a Settlement Agreement, including default provisions if scheduled payments did not occur as agreed. 25,000 shares of restricted stock, valued at \$25,000, were delivered and \$42,500 of payments was made, but the final \$10,000 was not paid. According to the stipulated judgment agreement, this resulted in the plaintiff's entry of a judgment, according to notice received by the company, of \$37,411, which was then appealed by the Company as incorrect. The appellate court disagreed and allowed the entry of judgment as filed, stating that the 25,000 shares had "no value" and allowing \$37,411 to be imposed against the Company. Therefore, the company has paid \$42,500 in cash, \$25,000 in restricted stock, and owed \$37,411, which had been accrued as a liability in the financial statements, for a total lawsuit resolution of \$104,911. At March 31, 2009 and June 30, 2008, the total amount due was \$32,411.

The Company has been served with a judgment in the amount of \$6,600 by an individual in Pennsylvania. As of March 31, 2009 and June 30, 2008, this amount has been recorded as a liability in the accompanying financial statements.

The Company has received notice that it is in breach of its former contract with the Investor Relations Group which claims it is owed \$17,676.25 as well as 40,000 shares of restricted stock. As of December 31, 2008 and June 30, 2008, this amount has been recorded as a liability in the accompanying financial statements. The issuance of the common stock has also been recorded and valued at \$10,100. As of March 31, 2009, the stock has not been issued.

The Company has brought a defamation action against Ed Meyer and Adirondack Pictures. A cross complaint has been filed by Adirondack against the Company alleging claims for breach of contract, intentional misrepresentation and declaratory relief. The Company has answered the cross-complaint, denying all of the material allegations and intends to vigorously defend the claims made. During the quarter ended March 31, 2009, the Company reached an agreement with Mr. Meyer and Adirondack Pictures whereby upon execution of the agreement by all parties, the plaintiffs and defendants fully and mutually release and forever discharge each other from any and all claims.
