CORPORATE GOVERNANCE AND BOARD ADMINISTRATION

Our Board is Committed to the Highest Standards of Corporate Governance and Ethical Business Conduct
Corporate governance guidelines, policies and practices are the foundation for the effective and ethical governance of all public companies. Our Board is committed to the highest standards of corporate governance and ethical business conduct, providing accurate information with transparency and complying fully with the laws and regulations applicable to our business. Executive management supports the Board's efforts to be transparent through shareholder outreach efforts. We offer to our shareholders an opportunity to engage in dialogue with us about aspects of our corporate governance and discuss any areas of concern. This commitment to transparency and high standards of governance and business conduct supports our reputation for success with integrity and efforts to increase shareholder value. Our corporate governance practices are governed by our Articles of Incorporation, Bylaws, Corporate Governance Guidelines, Board Committee Charters, Lead Director and Shareholder Communication Procedures, Code of Business Conduct and Ethics, and Insider Trading Policy. You can access these documents at www.darden.com under "Investor Relations - Corporate Governance" to learn more about the framework for our corporate governance practices. Copies are also available in print, free of charge, to any shareholder upon written request addressed to our Corporate Secretary.

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines that specifically address key governance practices and policies. The Nominating and Governance Committee of the Board oversees governance issues and recommends changes to the Company's governance guidelines, policies and practices as appropriate. Our Corporate Governance Guidelines cover many important topics, including:

- Director responsibilities;
- Director qualification standards;
- Director independence;
- Director access to senior management and independent advisors;
- Director compensation;
- Approval of Chief Executive Officer and senior management succession plans; and
- An annual performance evaluation of the Board and each of the Board committees, and an even more in-depth performance evaluation of the Board no less often than every three years.

The Corporate Governance Guidelines also include policies on certain specific subjects, including those that:

- Require meetings at least four times annually of the non-employee directors in executive session without our Chief Executive Officer or other members of management present;
- Require a letter of resignation from directors upon a significant change in their personal circumstances, including a change in or termination of their principal job responsibilities;
- Limit the number of other boards that directors may serve on;
- Provide that no member of the Audit Committee may serve on the audit committee of more than three public companies; and
- Provide a mandatory retirement age for directors.

Table of Contents

Director Independence

Our Corporate Governance Guidelines require that at least two-thirds of the Board be independent directors, as defined under the rules of the New York Stock Exchange (“NYSE”). Our Corporate Governance Guidelines include categorical standards of independence to assist the Board in making determinations regarding the independence of our directors. The current Board consists of 14 directors, two of whom are currently employed by the Company (Messrs. Otis and Madsen). The Board conducted an annual review of director independence and affirmatively determined that all of the 12 non-employee directors (Mss. Harker and Sastre and Messrs. Barnes, Berry, Donald, Fraleigh, Hughes, Ledsinger, Lewis, Mack, Rose and Simon) have no direct or indirect material relationship with us other than their service as directors and are independent. In making this determination, the Board considers that in the ordinary course of business, transactions may occur between the Company, including its subsidiaries, and entities with which some of our directors are or have been affiliated. In making its affirmative determination that Ms. Sastre is independent, the Board considered the fact that the Company has a 10 year sublease agreement with Signature Flight Support Corporation, Ms. Sastre's employer. This sublease agreement for an aircraft hangar, fuel and related expenses was negotiated on an arms-length basis, and Ms. Sastre was not involved in any aspect of the negotiations or the agreement. Aggregate payments made by the Company in fiscal 2012 to Signature Flight were approximately \$1 million. In making the affirmative determination that Mr. Simon is independent, the Board considered the fact that we have routine commercial relationships with Mr. Simon's employer, Wal-Mart Stores, Inc., and its subsidiaries and affiliates, including Sam's Club. These relationships include the sale of restaurant gift cards and certain consumer packaged goods such as Olive Garden salad dressing, which were facilitated through third party service providers. During fiscal 2012, the aggregate face dollar value of our gift cards sold by Wal-Mart and Sam's Club through the third party service provider was approximately \$96 million, and the royalties we earned on the sale of consumer packaged goods was less than \$1 million. The Board determined that the relationships with Signature Flight, and Wal-Mart Stores, Inc. and Sam's Club, were immaterial and that our categorical standards of independence were met.

Related Party Transactions

The Company has adopted Related Party Transaction Policies and Procedures that require the Nominating and Governance Committee to approve or ratify each Interested Transaction with directors, executive officers, five-percent shareholders or any of their respective immediate family members. In making its determination, the Nominating and Governance Committee considers whether the Interested Transaction is consistent with the best interests of the Company and its shareholders and whether the Interested Transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances, as well as the extent of the related party's interest in the transaction.

An “Interested Transaction” as defined in the policy is any transaction, arrangement or relationship in which (i) the amount involved exceeds \$120,000 in any calendar year, (ii) the Company is a participant and (iii) any director, executive officer or five-percent shareholder or any of their respective immediate family members has or will have a direct or indirect interest (other than solely as a result of being a director or a less than 10 percent beneficial owner of another entity). Salary or compensation paid to a director or an executive officer that is required to be reported in this Proxy Statement is not considered an Interested Transaction.

There are no Interested Transactions or other related party transactions or relationships required to be reported in this Proxy Statement under Item 404 of the Securities and Exchange Commission's (“SEC”) Regulation S-K.

Director Election Governance Practices

We do not have a “classified board,” or other system where directors' terms are staggered; instead our full Board is elected annually. If a nominee for director in an uncontested election does not receive at least the majority of the votes cast, the director will promptly tender his or her resignation to the Board. The Nominating and Governance Committee will recommend to the Board whether to accept or reject the tendered resignation or whether other action should be taken. The Board is required to act on the tendered resignation and publicly disclose its decision and the rationale within 90 days from the date of certification of the election results. If a director's resignation is not accepted

by the Board, the director will continue to serve until the next annual meeting and until his or her successor is duly elected, or his or her earlier resignation or removal. If a director's resignation is accepted by the Board, then the Board may fill the vacancy or decrease the size of the Board. To be eligible to be a nominee for election or reelection as a director of the Company, a person must deliver to our Corporate Secretary a written agreement that he or she will abide by these requirements.

Under our bylaws, the Board shall consist of not less than three nor more than fifteen members as determined from time to time by resolution of the Board. On June 19, 2012, the Board increased the number of directors of the Company from 12 to 14, and elected each of Messrs. Barnes and Simon to serve as a director. Each of Messrs. Barnes and Simon is a nominee for election to the Board at the Annual Meeting, and with the decision of Mr. Donald not to stand for re-election, the Board reduced the size of the Board to thirteen effective at the time of the Annual Meeting.

Table of Contents

Board Leadership Structure

The Company's Corporate Governance Guidelines provide "that the positions of Chairman of the Board and Chief Executive Officer be held by the same person, except in unusual circumstances or during transition periods to selecting a new Chairman or CEO. This combination has served the Company well throughout its history. The function of the Board in monitoring the performance of the senior management of the Company is fulfilled by the presence of outside directors of stature who have a substantive knowledge of the Company's business." The Board believes it is in the best interest of the Company and its shareholders for Mr. Otis to continue to serve as both Chairman and Chief Executive Officer. His in-depth knowledge of the industry and the issues, opportunities and challenges facing the Company enable decisive leadership with clear accountability, and enhance the Board's ability to focus on the most strategic and critical issues.

The Company's non-employee directors are led by Lead Director Odie Donald. In accordance with our Corporate Governance Guidelines, the Lead Director chairs executive sessions of the non-employee directors and advises the Chairman and Board committee chairs with respect to agendas and information needs relating to Board and committee meetings. Mr. Donald, along with the other independent non-employee directors, brings experience, oversight and expertise from outside the Company and industry, while the Chief Executive Officer brings company and industry-specific experience and expertise. Mr. Donald has informed the Board that he will not stand for re-election at the 2012 Annual Meeting, and the non-employee directors intend to name a new Lead Director at that time.

Succession Planning

The Board is actively engaged and involved in talent management. The Board reviews the Company's people strategy in support of its business strategy at least annually. This includes a detailed discussion of the Company's leadership bench and succession plans with a focus on key positions at the senior officer level. Annually, the Chairman and Chief Executive Officer provides the Board with an assessment of senior executives and their potential to succeed him, and an assessment of persons considered successors to senior executives. Strong potential leaders are given exposure and visibility to Board members through formal presentations and informal events. More broadly, the Board is regularly updated on key talent indicators for the overall workforce, including diversity, recruiting and development programs.

Director Education

To foster our value of always learning, always teaching, the Corporate Governance Guidelines encourage director education. The Board also receives regular updates regarding new developments in corporate governance.

Board Role in Oversight of Risk Management

The ultimate responsibility for risk oversight rests with the Board. The Board assesses major risks facing the Company and reviews options for their mitigation. Each Committee of the Board reviews the policies and practices developed and implemented by management to assess and manage risks relevant to the Committee's responsibilities, and reports to the Board about its deliberations. The Compensation Committee reviews our annual and long-term compensation plans, and any risks embedded in those plans are discussed and evaluated for appropriateness. The Nominating and Governance Committee oversees risks related to the Company's governance structure and arising from related party transactions. The Finance Committee reviews financial risk management strategies, including hedging and the use of derivatives, and the insurance coverage on the Company's assets. The charter for the Audit Committee requires, among other responsibilities, that it review the integrity of the Company's financial reporting processes and internal controls, including the process for assessing risk of fraudulent financial reporting and significant financial risk exposures, and the steps management has taken to monitor and report those exposures. Accordingly, in addition to its other duties, the Audit Committee periodically reviews risk assessment and management, including legal compliance, internal auditing and financial controls, litigation, and environmental, health and safety matters. The Audit Committee annually reviews the Company's enterprise risk assessment (ERA) process and the comprehensive assessment of key financial, operational and regulatory risks identified by management. The Audit Committee then discusses the ERA results with the full Board, which is ultimately responsible for oversight of this process.

Assessment of Risk of Compensation Programs

We believe that our compensation programs for executives and other employees are designed with the appropriate balance of risk and reward in relation to the Company's overall business strategy and do not incent executives or other

employees to take unnecessary or excessive risks. Specifically, we believe that the following features of our compensation programs (discussed in more detail in the Compensation Discussion and Analysis section below) help manage or mitigate risk:

The Company has allocated compensation among base salary and short- and long-term compensation target opportunities for executives in such a way as to not encourage excessive risk taking. Incentive compensation is not overly weighted

3

Table of Contents

toward short-term incentives. In addition, both short-term and long-term incentives are subject to maximum payment amounts;

The mix of equity award instruments used under our long-term incentive program (a) includes full value awards; and (b) rewards different performance measures (currently, total shareholder return for stock options, and sales and diluted net EPS growth for performance stock units ("PSUs"));

Our annual and long-term compensation plans are reviewed by the Compensation Committee and any risks embedded in those plans are discussed and evaluated for appropriateness. Our incentive opportunities are designed to drive strong, sustainable growth and shareholder return;

The multi-year vesting of our equity awards aligns incentive compensation with shareholders' interests by rewarding long-term stock appreciation rather than short-term performance, and accounts for the time horizon of risk;

Our Stock Ownership Guidelines encourage a focus on long-term growth in shareholder value; and

Our policies regarding recoupment and forfeiture of compensation discourage excessive or inappropriate risk taking. Compliance & Ethics Office and Code of Business Conduct and Ethics

Our Compliance & Ethics Office ("Compliance Office"), with the support of our management and Board of Directors, aims to ensure that all of our employees, business partners, and suppliers adhere to high ethical business standards, and is under the direction of our Chief Compliance & Ethics Officer. At the core of the Compliance Office is our Code of Business Conduct and Ethics that applies to all Company employees ("Employee Code of Conduct"). It addresses many topics, and highlights specific responsibilities of our Chief Executive Officer and senior financial officers. We also have a Code of Business Conduct and Ethics for our directors. A major objective of the Compliance Office is to educate and raise awareness of our Employee Code of Conduct, applicable regulations, and related policies. Our Employee Code of Conduct is posted on our website at www.darden.com under Investors - Corporate Governance. We require all of our officers, director level employees, and certain other employees to complete an annual questionnaire and certification regarding compliance with the Employee Code of Conduct and other Company policies.

We promote ethical behavior by all employees and encourage our employees to talk to supervisors or other personnel when in doubt about the best course of action in a particular situation. To encourage employees to report violations of laws or our Employee Code of Conduct, we will not allow retaliation for reports made in good faith. We also are committed to ethical behavior in the communities we serve and our industry generally. The Darden Restaurants Foundation Diversity and Business Ethics Endowment, the first comprehensive diversity and business ethics endowment in the hospitality industry, was created with financial support from the Darden Restaurants, Inc. Foundation by the University of Florida's Warrington College of Business.

Summary of Corporate Governance Practices

The Board and its Committees regularly review our corporate governance and compensation practices and propose modifications as warranted for adoption by the Board. The following summarizes some of our key principles and practices, which are described in more detail elsewhere in this Proxy Statement and in our key corporate governance documents, which are available online at www.darden.com under "Investor Relations - Corporate Governance."

- In an uncontested election, if a nominee for director does not receive at least a majority of the votes cast, the director will promptly tender his or her resignation to the Board (see page 2);

 - Our change of control Management Continuity Agreements include a “double trigger” and do not provide for tax gross-ups (see page 36);
 - The Board has adopted stock ownership requirements for executives intended to align their interests with those of our stockholders and to protect against inappropriate risk taking (see page 36);
 - The Board also has adopted stock ownership guidelines for non-employee directors (see page 14);
- We have allocated compensation among base salary and short- and long-term compensation target opportunities for executives in such a way as to not encourage excessive risk taking, and incentive compensation is not overly weighted toward short-term incentives (see page 3); and
- The multi-year vesting of equity awards aligns incentive compensation with shareholders' interests by rewarding long-term stock appreciation rather than short-term performance, and accounts for the time horizon of risk (see page 4).

PROPOSALS TO BE VOTED ON

PROPOSAL 1—ELECTION OF THIRTEEN DIRECTORS FROM THE NAMED DIRECTOR NOMINEES

Our Board currently has 14 members, and each director stands for election every year, except that Odie C. Donald is not standing for re-election. The Board has reduced the size of the Board to 13 effective at the time of the annual meeting. Proxies for this annual meeting cannot be voted for more than 13 directors. In the future, the Board may increase or decrease the size of the Board and appoint or nominate for election new directors.

The following directors are standing for election this year to hold office until the 2013 Annual Meeting of Shareholders and until their successors are elected and qualified. All were nominated by our Nominating and Governance Committee and have previously served on the Board. Each of the director nominees has consented to being named in this Proxy Statement and to serve as a director if elected. If a director nominee is not able to serve, proxies may be voted for a substitute nominated by the Board. However, we do not expect this to occur.

The Board of Directors recommends that you vote FOR each of the nominees to the Board.

Board Nominees

The following information is as of the date of this Proxy Statement. Included is information provided by each director, such as his or her age, all positions currently held, principal occupation and business experience for the past five years, and the names of other publicly-held companies of which he or she currently serves as a director or has served as a director during the past five years. In addition to the specific information presented below regarding the experience, qualifications, attributes and skills that led our Board to the conclusion that the nominee should serve as a director, we also believe that each of our director nominees has a reputation for integrity, honesty and adherence to high ethical standards. Darden's core purpose is to nourish and delight everyone we serve, as supported by our core values of integrity and fairness, respect and caring, diversity, always learning—always teaching, being “of service”, teamwork and excellence. As noted in our Corporate Governance Guidelines, our directors should reflect these core values, possess the highest personal and professional ethics, and be committed to representing the long-term interests of our shareholders. They must also have an inquisitive and objective perspective, practical wisdom and mature judgment.

PROPOSAL 2—ADVISORY APPROVAL OF THE COMPANY'S EXECUTIVE COMPENSATION

In accordance with SEC rules, the Board asks shareholders for advisory approval of the Company's executive compensation. Pursuant to an advisory vote at our 2011 annual meeting, our shareholders elected to hold such votes on an annual basis, and the Company intends to include an advisory shareholder vote on executive compensation in its proxy materials every year until the next shareholder vote on the frequency of the advisory vote to approve executive compensation. Accordingly, we are asking our shareholders to provide an advisory, nonbinding vote to approve the compensation awarded to our Named Executive Officers, as we have described it in the "Executive Compensation" section of this Proxy Statement, beginning on page 38.

As described in detail in the Compensation Discussion and Analysis section beginning on page 20, the Compensation Committee oversees the program and compensation awarded, adopting changes to the program and awarding compensation as appropriate to reflect Darden's circumstances and to promote the main objectives of the program. These objectives include: to help us attract, motivate, reward and retain superior leaders who are capable of creating sustained value for our shareholders, and to promote a performance-based culture that is intended to align the interests of our executives with those of our shareholders.

We are asking our shareholders to indicate their support for our Named Executive Officer compensation. We believe that the information we have provided in this Proxy Statement demonstrates that our executive compensation program was designed appropriately and is working to ensure that management's interests are aligned with our shareholders' interests to support long-term value creation.

You may vote for or against the following resolution, or you may abstain. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and the philosophy, policies and procedures described in this Proxy Statement.

Resolved, that the compensation awarded to Darden's Named Executive Officers for fiscal 2012, as disclosed in this Proxy Statement pursuant to SEC rules, including the Compensation Discussion and Analysis, compensation tables and related narrative discussion, is hereby APPROVED.

While this vote is advisory and not binding on our Company, the Board and the Compensation Committee expect to consider the outcome of the vote, along with other relevant factors, when considering future executive compensation decisions.

The Board of Directors recommends that shareholders vote FOR the approval of the foregoing resolution.

PROPOSAL 3—RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board has appointed KPMG LLP as our independent registered public accounting firm for the fiscal year ending May 26, 2013. KPMG LLP has served as our independent registered public accounting firm since 1995. Shareholder approval of this appointment is not required, but the Board is submitting the selection of KPMG LLP for ratification in order to obtain the views of our shareholders. If the appointment is not ratified, the Audit Committee will reconsider its selection. Even if the appointment is ratified, the Audit Committee, which is solely responsible for appointing and terminating our independent registered public accounting firm, may in its discretion, direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of our Company and our shareholders.

Representatives of KPMG LLP are expected to be present at the Annual Meeting and will be given an opportunity to make a statement and to respond to appropriate questions by shareholders.

The Board of Directors recommends a vote FOR the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the fiscal year ending May 26, 2013.

MEETINGS OF THE BOARD OF DIRECTORS AND ITS COMMITTEES

Board of Directors

Meetings. During the fiscal year ended May 27, 2012 (“fiscal 2012”), the Board met six times. For the period of his or her Board service in fiscal 2012, each incumbent director attended at least 75 percent of the aggregate of the total number of meetings of the Board and the standing committees on which the director served.

Communications with Board. We believe that communication between the Board, shareholders and other interested parties is an important part of our corporate governance process. To this end, the Board has adopted Lead Director and Shareholder Communication Procedures that are available at www.darden.com. In general, shareholders and other interested parties may send communications to the attention of the Board, any individual director or the non-employee directors as a group, through the Lead Director. Communications may be sent in writing or via email to: Lead Director, Darden Restaurants, Inc., c/o Teresa M. Sebastian, Senior Vice President, General Counsel and Secretary, 1000 Darden Center Drive, Orlando, Florida 32837. Email: leaddirector@darden.com. Mr. Donald has informed the Board that he will not stand for re-election at the 2012 Annual Meeting, and the non-employee directors intend to name a new Lead Director at that time, but communications may continue to be addressed to the Lead Director c/o Ms. Sebastian.

The Corporate Secretary will act as agent for the Lead Director in facilitating direct communications to the Board. The Corporate Secretary will review, sort and summarize the communications. The Corporate Secretary will not, however, “filter out” any direct communications from being presented to the Lead Director without instruction from the Lead Director, and in such event, any communication that has been filtered out will be made available to any non-employee director who asks to review it. The Corporate Secretary will not make independent decisions with regard to what communications are forwarded to the Lead Director. The Lead Director will forward communications as appropriate to the Board, individual directors or the non-employee directors as a group, and will respond to communications or direct others to respond, as appropriate.

Identifying and Evaluating Director Nominees. Our Nominating and Governance Committee has adopted a Director Nomination Protocol that describes in detail the process we use to fill vacancies and add new members to the Board. The Protocol is available at www.darden.com as Appendix A to the Nominating and Governance Committee charter. Under the Director Nomination Protocol, in general, while there are no specific minimum qualifications for nominees, any candidate for service on the Board should possess the highest personal and professional ethics and be committed to representing the long-term interests of our shareholders. Director candidates should be committed to our core values (integrity and fairness, respect and caring, diversity, always learning—always teaching, being “of service,” teamwork and excellence) and possess a wide range of experience in the business world. We also will consider the candidate’s independence under applicable NYSE listing standards and our Corporate Governance Guidelines. In identifying and evaluating nominees for the Board, the Board assesses the background of each candidate in a number of different ways including a wide variety of qualifications, attributes and other factors recognizing that diverse viewpoints and experiences enhance the Board’s effectiveness. When reviewing and recommending new candidates, the Nominating and Governance Committee considers how each prospective member’s unique background, expertise and experience will contribute to the Board’s overall perspective and ability to govern. In identifying or selecting nominees for the Board, the Company’s Corporate Governance Guidelines and related Director Nomination Protocol attached to the charter of our Nominating and Governance Committee provide that the Company seeks board members who will bring to the board a deep and wide range of experience in the business world, and have diverse problem-solving talents. We seek people who have demonstrated high achievement in business or another field, so as to enable them to provide strategic support and guidance for the Company. The guidelines further provide that the Company strives to maintain a board that reflects the gender, ethnic, racial and other diversity of our work force and restaurant guests, and also fosters diversity of thought. The guidelines further note that recruiting, hiring and nurturing the careers of women and minorities and increasing the diversity of our suppliers are top priorities, and that the Company also intends to maintain the diversity of its Board.

The Nominating and Governance Committee will identify potential candidates for nomination, and a search firm may be engaged to identify additional candidates and assist with initial screening. The Chair of the Nominating and

Governance Committee and the Chief Executive Officer perform the initial screening, obtain and review additional information, and identify candidates that they feel are best qualified to serve. The Chair of the Nominating and Governance Committee, the Chief Executive Officer and one or more representatives of the Board appointed by the Chairman of the Board will meet with the leading candidates to further assess their qualifications and fitness. The Board representatives and Chief Executive Officer will make a recommendation concerning the candidate to the Nominating and Governance Committee, which will consider whether to recommend the candidate to the full Board for nomination. In the case of Messrs. Barnes and Simon, who were elected as directors by the Board on June 19, 2012, and are nominees for election by shareholders at the Annual Meeting, their candidacy was initially recommended by a third-party search firm, although initial screening by the Chair of the Nominating and Governance Committee and the Chief Executive Officer, and the other procedures described above, were also followed.

Table of Contents

Director Candidates Recommended by Shareholders. The Nominating and Governance Committee will consider candidates recommended by shareholders. The procedures that shareholders should use to nominate directors are provided under the question “How do I submit a shareholder proposal, nominate directors or recommend director nominees, or submit other business for next year’s annual meeting?” that appears in the “Questions and Answers About the Meeting and Voting” section of this Proxy Statement. There are no differences in the manner of evaluation if the nominee is recommended by a shareholder.

Director Attendance at Annual Meeting of Shareholders. Our Corporate Governance Guidelines provide that directors are expected to attend all scheduled Board and committee meetings and the annual meeting of shareholders. All of our incumbent directors attended last year’s annual meeting of shareholders with the exception of Messrs. Barnes and Simon who were not on the Board at that time.

Board Committees and Their Functions

General. Our Board has five standing committees that operate under charters adopted by the Board. Each charter is available at www.darden.com. Copies are available in print free of charge to any shareholder upon written request addressed to our Corporate Secretary. Each member of every committee, except the Executive Committee, is an independent director as defined in our Corporate Governance Guidelines and the NYSE listing standards. All Board committees have the authority to retain outside advisors. Unless otherwise required by applicable laws, regulations or listing standards, all major decisions are considered by the Board as a whole.

Executive Committee. The Executive Committee consists of five directors: Messrs. Otis (Chair), Donald, Hughes, Lewis, and Rose. The Executive Committee did not meet in fiscal 2012. Under our bylaws, the Executive Committee has the authority to take all actions that could be taken by the full Board. The Executive Committee may meet between regularly scheduled Board meetings to take such action as it determines is necessary for our efficient operation.

Audit Committee. The Audit Committee was established in accordance with Section 3(a)(58)(A) of the Exchange Act. The Audit Committee consists of five independent directors as defined in our Corporate Governance Guidelines, the NYSE listing standards and SEC rules: Messrs. Hughes (Chair), Fraleigh, and Mack, and Meses. Harker and Sastre. The Board has determined that Messrs. Hughes and Fraleigh and Ms. Harker are each an “audit committee financial expert” as such term is defined by SEC rules, and therefore possesses financial management expertise as required of at least one Audit Committee member by the NYSE listing standards. In addition, the Board has determined that all members of the Audit Committee are financially literate under the NYSE listing standards. The Audit Committee met ten times during fiscal 2012 and has sole responsibility for appointing and terminating our independent registered public accounting firm. The Audit Committee’s primary purpose is to assist the Board in its oversight responsibilities to shareholders, specifically with respect to:

• The integrity of our financial statements;

• Our compliance with legal and regulatory requirements;

• The qualifications and independence of our independent registered public accounting firm and internal auditing function;

• The performance of our internal audit function and independent registered public accounting firm; and

• The risks associated with the foregoing.

Another purpose of our Audit Committee is to furnish the report required by the SEC’s proxy rules that appears below in this Proxy Statement under the heading “Audit Committee Report.”

Compensation Committee. Our Compensation Committee consists of four independent directors: Messrs. Ledsinger (Chair), Berry, Donald and Rose. The Compensation Committee met four times during fiscal 2012. The primary responsibilities of our Compensation Committee include the following:

Review and approve corporate goals and objectives relevant to the Chairman and Chief Executive Officer's compensation, evaluate the Chairman and Chief Executive Officer's performance in light of those goals and objectives, and make recommendations to the other independent directors who shall, together with the Compensation Committee, determine and approve the Chairman and Chief Executive Officer's compensation based on this evaluation;

Produce the annual Compensation Committee Report for inclusion in our Proxy Statement; and

Provide oversight of the risks associated with the foregoing.

The Compensation Committee may delegate its power under our 2002 Plan to one or more directors, including a director who is also a senior executive officer of Darden, except that the Compensation Committee may not delegate its powers under the 2002 Plan with regard to our executive officers or directors who are subject to Section 16 of the Exchange Act, or in such a manner as would cause the Plan to not comply with the requirements of Section 162(m) of the Code. Under its charter, the Compensation Committee may delegate any of its administrative responsibilities under our compensation and benefit plans, subject to the applicable rules of the SEC, NYSE and the Internal Revenue Code, to any other person or persons, to the extent permitted by law.

See “Compensation Discussion and Analysis—Our Decision Making Process” for information with regard to the role of consultants and management in the Compensation Committee’s decision making process.

Finance Committee. Our Finance Committee consists of five independent directors: Messrs. Lewis (Chair), Fraleigh, Ledsinger and Senator Mack, and Ms. Harker. The Finance Committee met twice during fiscal 2012. The primary responsibilities of our Finance Committee are to:

- Making recommendations to the other independent directors who shall, together with the Committee, determine and approve the compensation for the non-employee independent directors.

Table of Contents

The Nominating and Governance Committee has adopted a Director Nomination Protocol that describes the process by which we intend to fill vacancies and add new members to the Board. The Protocol is described in more detail above under the heading “Board of Directors—Identifying and Evaluating Director Nominees.” The Nominating and Governance Committee also considers questions of possible conflicts of interest involving our directors and our senior executive officers, recommends to the Board those directors determined to satisfy the requirements for “independence” as set forth in our Corporate Governance Guidelines and the NYSE listing standards, and considers for approval or ratification transactions with related parties pursuant to the Related Party Transaction Policies and Procedures attached as Appendix B to the Nominating and Governance Committee’s charter.

DIRECTOR COMPENSATION

Compensation of Non-Employee Directors

The terms of the Director Compensation Program apply to all directors who are elected to the Board and are not employees of the Company or any of its subsidiaries. Directors who also are our employees do not receive additional compensation for serving on the Board. Shares for equity awards pursuant to the Director Compensation Program are drawn from our shareholder-approved equity compensation plan in effect at the time and pursuant to which we are authorized to grant shares of our common stock and share-based awards to directors. Currently, grants of common stock and share-based awards to directors are made from the 2002 Plan. Each of our non-employee directors is required to own Darden common shares with a value of at least three times the annual retainer (currently this value is \$255,000). All of our non-employee directors have been determined by our Board to be independent under applicable NYSE listings standards and our Corporate Governance Guidelines.

Effective June 2012, our Nominating and Governance Committee periodically reviews our Director Compensation Program, a task that previously was handled by our Compensation Committee. The Compensation Committee previously acted, and the Nominating and Governance Committee now acts, with the assistance of a consultant retained by the committee to provide market data on director compensation programs at comparable companies, including companies in the peer group described in the “Compensation Discussion and Analysis.” In 2010, the consultant engaged by the Compensation Committee, Towers Watson, conducted a review of our Director Compensation Program. Based on that review, the Board approved the compensation program for non-employee directors, which has been in effect since September 1, 2010:

• An annual retainer of \$85,000, and \$2,000 for each committee meeting and special Board meeting (“cash compensation”);

• An annual retainer for the Lead Director of \$15,000;

• An annual retainer for the Chairs of the Audit, Compensation, and Nominating and Governance Committees of \$15,000, and for Chairs of the other Board committees of \$7,500; and

• An annual award of common stock with a fair market value of \$100,000 on the date of grant upon election or re-election to the Board.

With the exception of the annual equity grant, the non-employee directors' remuneration is due and paid quarterly, unless the director elects to defer the payment. Non-employee directors may elect to have their cash compensation paid in any combination of current or deferred cash, common stock or salary replacement options. Deferred cash compensation may be invested on a tax-deferred basis in the same manner as deferrals under our FlexComp Plan, a non-qualified deferred compensation plan that currently allows for different investment fund options, including a Darden common stock fund. In addition, each director may choose to receive, in lieu of their cash compensation, stock options determined to be of equal value to the foregone cash fees, which options are exercisable six months after grant. All of these stock options have an exercise price equal to the closing price of our common shares on the date of grant and have a term of ten years.

For the annual common stock grant valued at \$100,000, the number of common shares received equals \$100,000 divided by the fair market value of our common stock on the date of grant. The shares vest immediately, but are restricted from transfer for one year. The annual common stock grant is pro-rated for the portion of Board service in the event a director joins the Board mid-year. A director may elect to defer receipt of these shares until completion of Board service or beyond, in which case the director receives phantom stock units that settle in shares of our common

stock and are entitled to dividend equivalents.

We also pay the premiums on directors' and officers' liability and business travel accident insurance policies covering the directors. We reimburse directors for travel to Board meetings and related expenses, and for costs incurred in connection with attending the Board retreat and continuing education programs. In addition, we provide a dining benefit to our directors because we believe it is important for our directors to experience dining in our restaurants and those of our competitors in order to better perform their duties to our Company. This benefit does not appear in the Director Compensation Table because the value did not meet the minimum disclosure requirements established by the SEC.

Includes all fees earned, including annual retainer fees, chairperson retainer and Board and committee meeting fees. The annual retainers and Board and committee meeting fees were payable at the end of each fiscal quarter and the amounts shown may have been delivered as cash, common stock, deferred cash or salary replacement options.

Salary replacement options (“SROs”) are non-qualified stock options that are immediately vested but restricted from (1) exercise for a period of six months. The number of stock options delivered is based on the amount of compensation foregone divided by 30 percent of the exercise price (determined by the closing price for our common stock on the NYSE on the grant date). The stock options expire ten years from the grant date. Amounts foregone for SROs and the number of SROs issued were as follows: Mr. Ledsinger, \$54,250 and 3,767 SROs; Mr. Rose, \$114,500 and 7,996 SROs; and Ms. Sastre, \$21,938 and 1,510 SROs.

Cash amounts that are deferred are credited with the same rates of return and investment alternatives as amounts in the FlexComp Plan, our non-qualified deferred compensation plan. Cash amounts deferred for fiscal 2012 were as follows: Mr. Ledsinger, \$54,250; and Mr. Lewis, \$106,500.

Amounts received as shares of common stock were as follows: Mr. Fraleigh, 2,229 shares with a market value of \$106,840; and Ms. Sastre, 1,541 shares with a market value of \$73,021. The number of shares delivered is based on the amount of compensation earned divided by the closing price for our common stock on the NYSE on the grant date.

(2) Amounts in this column represent the grant date fair value of awards computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation—Stock Compensation (“ASC Topic 718”) for fiscal 2012. The assumptions used in calculating these amounts in accordance with ASC

Topic 718 are included in Note 1 (under the heading Stock-Based Compensation) to the Company's audited financial statements included in the Company's 2012 Annual Report to Shareholders. The stock award is immediately vested but not transferable for one year. Each director received a stock award of 2,244 shares on September 22, 2011, the date of re-election to the Board, with a fair market value of \$99,993 based on the average of the high and low prices of our common stock (\$44.56) on the NYSE on September 22, 2011.

Messrs. Ledsinger and Lewis elected to defer their awards.

(3) The aggregate number of shares subject to stock-based awards outstanding as of May 27, 2012 for each director is provided in the table below:

Except as indicated below, amounts in this column reflect dividend equivalents paid and reinvested into Darden phantom stock units for each director's Darden deferred phantom stock unit account. Except for dividend equivalents paid to Mr. Donald of \$87,511; Mr. Hughes of \$17,278; Mr. Ledsinger of \$36,408; Mr. Lewis of \$36,408; Mr. Rose of \$95,242; and Ms. Sastre of \$21,904; no other director had dividend equivalents paid with a value exceeding \$10,000. The Company provides its directors with a dining benefit as we believe it is important for (4) directors to experience our restaurants and those of our competitors in order to better perform their duties for the Company. The Company also provided certain nominal perquisites such as theater tickets to its directors in connection with one Board meeting held in New York City. No amounts for these dining and other nominal perquisites such as theater tickets appeared in the Director Compensation Table for any director except Ms. Sastre because the aggregate value for each director did not meet the minimum \$10,000 disclosure requirement. For Ms. Sastre, the amount included in the table for these dining and other nominal perquisites was \$10,454.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Committee of the Board of Directors (the "Committee") determines the compensation of our executive officers other than our CEO and other employee directors, and reviews, approves and oversees the administration of all of our executive total reward plans and programs. The CEO's and COO's compensation and certain plans and grants to the employee directors are approved by the Committee acting together with the other independent directors. The Committee consists of four independent non-employee directors and is supported by our human resources group as well as independent compensation consultants who are chosen, retained and directed by the Committee. The Committee's charter and key responsibilities are available on our website at www.darden.com under Investors - Corporate Governance. Please note that the use of the terms "we", "us", or "our" throughout this Compensation Discussion and Analysis refer to the Company or its management.

Executive Summary

Our goal is to be a company that matters, which for us means being a financial leader, which we define as a sustained growth company that delivers a competitively superior long-term total shareholder return ("TSR"); a social leader, with particular emphasis on health and well-being, sustainability and helping ensure broad awareness of and access to post-secondary education opportunities; and a special place, which involves providing employees an opportunity to achieve their professional and personal aspirations. During fiscal 2012, we continued to make progress towards fulfilling our mission by delivering solid sales and earnings growth; increasing our commitments to sustainability, providing healthy choices and helping young people understand their post-secondary education options; and maintaining high employee engagement levels.

We are the world's largest owner operator of full-service restaurants with \$8.0 billion in annual sales and approximately 180,000 employees. We are recognized for having a winning culture that emphasizes caring for and responding to people, and for maintaining compelling brands that offer good value and provide special experiences. In 2012, we acquired Eddie V's Prime Seafood and Wildfish Seafood Grille, adding attractive brands that operate in the luxury seafood segment. Our restaurant brands—Red Lobster®, Olive Garden®, LongHorn Steakhouse®, The Capital Grille®, Bahama Breeze®, Seasons52®, Eddie V's Prime Seafood® and Wildfish Seafood Grille® — reflect the rich diversity of those who dine with us and are built on deep insights into what guests want.

Through our 180,000 employees and the thousands more who work for our suppliers, we provide more than one million guest experiences each day. Of our 180,000 employees, approximately 52 percent are women and 43 percent are minorities. Additionally, three of our four most senior operations leaders are minorities, as are 22 percent of our restaurant general managers and managing partners and 29 percent of our other restaurant managers. Our diversity and inclusiveness were important reasons why this year, for the second consecutive year, we were named to FORTUNE magazine's list of the "100 Best Companies to Work For". We are the first restaurant company to receive this recognition. This year, we are also proud we were recognized for diversity and inclusiveness by being named to Black Enterprise magazine's list of "40 Best Companies for Diversity" and DiversityInc's list of "Top 50 Companies for Diversity."

This year we elevated our focus on sustainability, which we view comprehensively. Our program, which we call "People, Planet & Plate", encompasses food safety, seafood stewardship, animal welfare, the nutritional content of the meals we serve and better understanding and managing our environmental "footprint." Among other things, in 2012 we announced our commitment to meaningfully reducing our calorie and sodium footprint; reinforced our commitment to sustainability with the installation of solar panel arrays at our corporate headquarters, a building that had already earned a Leadership in Energy and Environmental Design (LEED) gold certification; and were named by Newsweek Magazine as one of its "Top 500 Greenest Companies" and by Corporate Responsibility Magazine as one of the "100 Best Corporate Citizens of 2012." We also work to help strengthen the fabric of our communities through our

volunteer and philanthropic support of efforts in other areas, including assisting colleagues in need. Through Darden Dimes, our employees contributed \$1.7 million to provide more than 3,400 emergency assistance grants to Darden employees in emergency and catastrophic situations.

This type of culture provides a powerful platform for attracting and retaining talent. We leverage it by designing our executive reward plans and programs to help us attract, motivate, reward and retain superior leaders who are capable of creating sustained value for our shareholders. We provide a Total Rewards Program that promotes a winning performance-based culture and aligns the interests of our executives with those of our shareholders. We believe our executive Total Rewards Program design and strategy, as guided by the principles described here, are critical factors in motivating and retaining the executive talent to build long-term value for our shareholders. We encourage you to review the details of our performance and our Total Rewards Program and the factors the Committee considers when establishing performance objectives and compensation targets and in making determinations regarding actual rewards in connection with our short-term and long-term performance-based incentive plans.

Table of Contents

In summary, our executive Total Rewards Program is based on the following principles and best practices:

The Committee is comprised solely of independent non-employee directors who are committed to strong corporate governance and ethical practices.

The Committee considers multiple reports and analyses including market data, compensation tally sheets, proxy data of our peer companies, publicly-available performance data of our peer companies, shareholder feedback and reports from external proxy advisory agencies when making decisions to establish target compensation opportunities and to deliver actual awards to our executive officers, including our Named Executive Officers, or NEOs.

Our Board of Directors is committed to seeking and responding to the feedback of our shareholders on governance topics and executive compensation.

In 2011, we provided our shareholders with an advisory vote on executive compensation (Say-on-Pay vote). Our executive compensation program was approved by over 97.7% of the votes. These results demonstrate strong shareholder support for our program. In addition, we engage in shareholder outreach to offer our principal institutional shareholders an opportunity to engage in dialogue with us about aspects of our executive Total Rewards Program. Based on that shareholder feedback and our evaluation, we have not made any significant changes to our executive Total Rewards Program for 2012.

Our Total Rewards Program links directly to Company performance.

Our Total Rewards Program is designed to reward consistent, competitively superior performance that delivers value to shareholders over the long-term. Between 70 percent and 84 percent of our Named Executive Officers' compensation is performance-based. Awards under our plans are negatively impacted when our performance does not meet threshold levels. This was demonstrated in fiscal year 2009 when executive officers forfeited performance stock units (PSUs) scheduled to vest that year because the Company did not achieve the threshold level of adjusted sales growth. In keeping with our pay for performance culture, our plans are designed to deliver awards at or above target when we meet or exceed aggressive performance goals and to deliver awards below target when those goals are not met, which was the case this year when we achieved 79 percent of our overall target.

Our Total Rewards Program emphasizes a balance between annual and long-term performance.

Our Total Rewards Program emphasizes a balanced approach that delivers rewards in cash and equity based on both annual financial performance and sustained shareholder value creation over time. Our annual incentives drive short-term performance and are balanced with PSUs that measure performance over a three-year period and stock options that have ten-year terms. The use of equity awards fosters retention and aligns our executives' interests with those of our shareholders. Our financial performance has resulted in a total return for Darden's shareholders (TSR) over the long-term that is well above the median TSR for the Standard & Poor's 500 Index ("S&P 500").

Our high employee engagement levels lead to superior guest experiences which drive our business results.

In addition to helping us meet our goal of winning financially, our Total Rewards Program is designed to facilitate achieving results the right way—which means doing so while practicing leadership behaviors that contribute to making the Company a special place. We focus on creating a special place and ensuring high levels of employee engagement because these attributes are key to delivering superior dining experiences for our guests. It is such experiences that ultimately drive our growth and enable us to produce competitively superior business results for shareholders. One reason we were once again named to FORTUNE magazine's list of "100 Best Companies to Work For" is our consistently high level of employee engagement, which exceeds industry norms for each employee segment. This

year, in our "One Voice" employee engagement survey, 81 percent of employees said Darden is a great place to work and 79 percent said they would strongly recommend the Company to family and friends.

We have stock ownership requirements, clawbacks (recovery of incentive compensation), caps on awards and no tax gross-ups.

Our ownership requirements range from shares with market value equal to six times base salary for our Chairman and CEO to four and a half times base salary for our other NEOs. Executives must satisfy this requirement until they are no longer employed by the Company. Our incentive plans are capped at individual and aggregate levels to eliminate the potential for unintended windfalls. We have clawback (incentive repayment) provisions that allow us to recover compensation in the case of employee fraud resulting in a material restatement of financial results. Also, we do not have employment contracts with our NEOs, with the exception of Eugene Lee, President of the Specialty Restaurant Group, who has an agreement in connection with the acquisition of RARE Hospitality International, Inc. ("RARE") on October 1, 2007 that contains non-solicitation and non-compete

Table of Contents

clauses that benefit the Company. We do not provide tax gross-up payments to our NEOs.

Fiscal 2012 Performance

While fiscal 2012 was a year of significant strategic transition and progress, it was also a year in which sales and earnings growth were below target:

We delivered total sales from continuing operations of \$8.0 billion, a 6.6 percent increase from fiscal 2011 that was below our aggressive target for the year. Our growth included a combined same-restaurant sales increase of 1.8 percent for Olive Garden, Red Lobster and LongHorn Steakhouse, exceeding the result for our competitive set as measured by the Knapp-Track™ benchmark of U.S. same-restaurant sales, excluding the Company. Total sales growth also included our net addition of 89 new restaurants in fiscal 2012 and the acquisition of 11 Eddie V's and Wildfish Seafood Grille restaurants.

Diluted net earnings per share from continuing operations increased 5.0 percent to \$3.58 from \$3.41 the prior year, a growth rate that was also below an aggressive target.

We continued to reinvest in our existing restaurants and in key elements of restaurant support to ensure we remain capable of delivering competitively superior overall experiences and good value to our guests. We also continued to expand our existing brands, opening 89 net new restaurants. At the same time, we continued with implementation of our transformational cost savings agenda, resulting in significant ongoing cost reductions.

We completed the purchase of certain assets of Eddie V's Restaurants, Inc., adding compelling fine dining brands to our portfolio without adversely affecting diluted net earnings per share from continuing operations for the fiscal year.

We returned a meaningful amount of capital to shareholders through the repurchase of more than 8.2 million shares of our common stock and by paying almost \$224 million in cash dividends. This reflected a significant increase in our dividend from the prior year, building on consistent dividend increases over the past ten years.

Fiscal 2012 Performance Measures.

The annual Corporate Performance Rating, as reviewed and approved by the Committee, is used to determine both annual incentive and long-term incentive awards for the NEOs. At the beginning of each new fiscal year, a Corporate Performance Rating grid is established using measures chosen due to their correlation over the long-term with TSR. For long-term incentives, the performance measures for PSUs are Darden sales growth (weighted 50 percent) and Darden diluted net earnings per share growth (weighted 50 percent). For the annual incentive awards, these measures are Darden sales growth (weighted 30 percent) and Darden diluted net earnings per share growth (weighted 70 percent).

Performance against this grid drives 100 percent of the Corporate Performance Rating for the CEO, COO and CFO and 20 percent of the Corporate Performance Rating for the President of Red Lobster and the President of the Specialty Restaurant Group. To drive appropriate accountability within our large casual dining brands and for our Specialty Restaurant Group, the remaining 80 percent of the Corporate Performance Rating for the President of Red Lobster and the President of the Specialty Restaurant Group is tied to the results on similar business unit measures, as shown in the chart below.

Rewards Elements	Performance Measures	NEO Rewards
Management and Professional Incentive Plan (annual performance period)	30%: Sales Growth for Darden 70%: Diluted Net EPS Growth for Darden	100% for CEO, COO and CFO 20% for President, Red Lobster, and President, Specialty Restaurant Group
Performance Stock Units (3-year performance period)	30%: Sales Growth for the Business Unit 70%: Operating Profit for the Business Unit	80% for President, Red Lobster, and President, Specialty Restaurant Group
Stock Options (10-year term)	50%: Sales Growth for Darden 50%: Diluted Net EPS Growth for Darden	100% for all NEOs
	100% Darden's common stock price performance	100% for all NEOs

Darden's performance-based compensation plans are designed with a range of performance possibilities that correspond to a range of compensation payouts. The target performance goals and compensation payouts for each year are established based on a projected TSR for the S&P 500 that reflects the Committee's review of one-year, three-year and ten-year historical TSR for the S&P 500.

Our Corporate Performance Rating on each metric can vary from 0.0 to 2.0. The ranges for each metric are set with the following goals in mind:

Darden performance at the projected S&P 500 median	1.0 rating
Darden performance at the projected S&P 500 75 th percentile (target)	1.4 rating
Darden performance above the projected S&P 75 th percentile	1.5 to 2.0 rating
Darden performance below the projected S&P 500 median	0.0 to 0.9 rating

Fiscal 2012 Performance Results.

The Company's annual Corporate Performance Ratings can vary significantly based on the Company's performance in the fiscal year. One way to assess how difficult or likely it would be for the Company to achieve incentive goals is to look at historical results. From the Company's first year as a public company (fiscal year 1995) through 2012, Corporate Performance Ratings have ranged from 0.60 (43 percent achievement of target) to 2.00 (143 percent achievement of target). Over this 17-year period, the annual Corporate Performance Ratings has averaged 1.41 (101 percent achievement of target).

For fiscal 2012, total sales growth achievement (weighted 30 percent) was 84 percent of the sales growth target in our annual Management and Professional Incentive Plan (“MIP”) and earnings growth achievement (weighted 70 percent) was 77

23

Table of Contents

percent of the diluted net earnings per share growth target in our MIP. During fiscal 2012, we delivered sales growth of 6.6%, including sales from Eddie V's and Wildfish Seafood Grille. Excluding sales from the acquisition, sales growth was 6.2 percent, which is the level used in our MIP bonus calculation. Fiscal 2012 results on the corporate performance measures translated into a 1.11 Corporate Performance Rating, which reflects 79 percent achievement of the target bonus.

Corporate Performance Measures	Fiscal 2012 Performance Results	Fiscal 2012 Performance Ratings	Performance Rating as a Percentage of Target
Net sales growth (weighted 30%)	6.2%	1.18	84%
Diluted net earnings per share growth (weighted 70%)	5%	1.08	77%

As described below, the Committee structures our Total Rewards Program so that the compensation earned by our NEOs varies with Company performance, changes in our stock price and individual performance. The Total Rewards Program helps focus the NEOs on continuous renewal and successful execution of our business strategy (see “Our Talent Management Philosophy and Framework”).

Conclusion.

The Committee believes our executive compensation program design and implementation supports the program objectives and demonstrates a commitment to a culture of pay for performance. This Compensation Discussion and Analysis describes important principles and the process used by the Committee to determine each element of our NEOs’ total rewards and should be read in conjunction with the compensation tables and accompanying narratives included below. Our Talent Management and Total Rewards Philosophy

Our talent management philosophy is based on our goal of being a company that matters, which we define as being:

• A Financial Leader – Delivering competitively superior financial performance that reflects industry-leading sales and earnings growth

• A Social Leader – Creating meaningful social value, with an emphasis on Health and Well-Being, Sustainability and Equal Access to Post-Secondary Education Opportunities

• A Special Place to Be – Creating an organization where employees have opportunities to develop professionally and personally with a company that reflects the diversity of our communities.

Our talent management strategy includes evaluating performance and assessing leadership potential by aligning individual performance objectives to our business strategy. And, in addressing not only business results, but also leadership behaviors, we recognize that achieving strategic success requires building an appropriate culture.

Our total rewards philosophy reflects and supports our talent management philosophy. We seek to design and deliver a Total Rewards Program that enables us to attract well-qualified executives, and to motivate and reward them for business results and leadership behaviors that drive our business strategy.

Incentive Compensation is Aligned with Performance: Total direct compensation (salary, annual incentives, and long-term incentives) for our leaders is structured so that at least three-quarters of its total value at target is attributable to Company and individual performance.

Incentive Opportunities Drive Business Strategy of Creating a Competitively Strong Company: Our Total Rewards Program in general—and our incentive opportunities in particular—are designed to meet our goals of winning financially and creating a strong culture. More specifically, our incentive opportunities are designed to drive sustained strong profitable sales growth and top quartile S&P 500 TSR. They are also designed to facilitate achieving results the right way—which means doing so while practicing leadership behaviors that contribute to making the Company a special place.

External Competitiveness Balanced with Internal Equity to Attract, Develop and Retain Superior Talent: Our passion for attracting, developing and retaining competitively superior leaders has driven our business success. Our Total Rewards Program supports this commitment by reinforcing that our culture is both highly competitive and internally equitable.

Reward Decisions Guided by Responsibility to Our Shareholders: We are committed to high standards of ethical behavior and corporate governance that are consistent with fair treatment of our shareholders. As a result, we seek to

align our total rewards with shareholder interests.

Our Decision Making Process

The Committee is comprised solely of independent members of the Board. The Committee regularly reviews each element of compensation and annually reviews the details of each executive officer's compensation. The Committee also determines total rewards packages for new executive officers when they are hired. All rewards are measured in the context of our Total Rewards philosophy. The Committee considers input from its independent consultant, Towers Watson, throughout this process.

With input from its independent consultant, the Committee regularly reviews market reward levels to determine if the rewards

Table of Contents

for our officers remain at the targeted levels and makes adjustments when appropriate. This assessment includes evaluation of our Total Rewards Program against a peer group of companies. The Committee assesses the data by reviewing positions with comparable complexity and scope of responsibility to the positions at our Company. In fiscal 2012, the Committee evaluated base salary levels, target annual incentive levels and target long-term incentive levels for our NEOs based on market data and benchmarking information provided by Towers Watson that reflected the Company's peer group.

No changes were made to the compensation structures for our NEOs based on a determination that the salary ranges, annual incentive targets and long-term incentive targets were aligned with market compensation levels for these positions at companies in our peer group.

We believe executives should have a high percentage of variable total compensation to help ensure that their interests are aligned with those of our shareholders. Annual and long-term incentives are designed to reward executives primarily for the achievement of financial objectives. However, individual payout and grant levels are also influenced by the factors listed below, for which no specific goals or weightings are assigned:

- Potential impact the individual may make on our Company now and in the future;
- Internal pay relativity;
- Level of experience and skill;
- Individual performance compared with individual performance and leadership goals set annually;
- Market competitive compensation rates for similar positions; and
- Need to attract and retain executive talent.

The Committee is responsible for reviewing all rewards paid to our executive officers and for approving the awards to our executive officers, except our CEO and COO, whose awards are approved by the independent directors of the Board based on recommendations by the Committee. Our CEO was evaluated by the Committee, with written evaluations from each non-employee member of the Board, for his performance against his annual individual goals, which were approved by the Committee early in fiscal 2012. As part of the process, our CEO provides a self-assessment of his performance. The Committee discusses the CEO's self-assessment as well as the Committee members' and all other independent Board members' assessments of his performance in an executive session at which the CEO is not present. Working with the Committee's consultant, the Committee determines and recommends to the other independent directors for approval, the CEO's base salary, annual incentive plan target and payment under the MIP (consistent with the terms of such plan) and long-term incentive program targets and awards.

The CEO provides the Committee with his assessment of the performance of the other executive officers including the COO, and his compensation recommendations. The Committee, with the CEO present, discusses each executive officer's performance, including how the CEO's compensation recommendations compare to the market pay levels of the compensation peer group and to the compensation levels of the other executive officers at the Company. The Committee then approves or modifies the CEO's recommendations, with the exception of the recommendations for the COO, which are approved or modified by the independent directors of the Board based on recommendations by the Committee.

Currently, the Committee engages Towers Watson as its independent consultant. By the terms of its charter, only the Committee may retain or dismiss its advisors and consultants and approve their compensation. These advisors and

consultants report directly to the Committee. The Company is responsible for the cost of the Committee's consultants and supports their work. Towers Watson may communicate with our employees as necessary, but Towers Watson may not perform any work for the Company other than for the Committee. The key responsibilities of the Committee's consultant are to:

- Inform the Committee of regulatory developments and current market trends.
- Provide external benchmarking data and survey information on executive total reward levels and programs.
- Advise the Committee on the appropriateness of executive rewards or actions under consideration.
- Attend meetings of the Committee and participate in executive sessions, if requested by the Committee.

Companies in Our Compensation Peer Group

To assure that our Total Rewards Program is appropriately competitive in the labor marketplace, the Committee, with the assistance of management and Towers Watson, compares our total reward levels to the total reward levels of peer companies. The

Committee reviews the list of companies included in our compensation peer group from time to time. Elements of Our Total Rewards Program

Our Total Rewards Program for officers is comprised of base salary, annual incentive, long-term incentive, perquisites, and retirement, savings and non-qualified deferred compensation plans. Our NEOs also are eligible to participate in the health, insurance and retirement benefits available to our U.S. salaried employees. The table below describes each element in the Total Rewards Program for our officers, why we provide each element, how we determine the amount, and what each element is intended to reward:

Each element of our Total Rewards Program is described in more detail as follows:

Base Salary.

The Committee periodically reviews base salaries for our executive officers. In setting base salary levels, the Committee takes into account the external market (what our peer companies pay for similar positions), individual performance, and internal pay equity.

In fiscal 2013, the Committee approved an increase of 2.0 percent to the salary range midpoints established in fiscal 2012 and a merit budget of 3.0 percent, consistent with market levels and with the merit budget and salary range movement for other employees in the restaurant support center. The merit budget of 3.0 percent for all salaried positions equates to a 3.25 percent increase for this year only in order to keep our employees whole as we move our merit effective date so that it is one month later. The Committee reviewed base salary levels based on market data provided by its outside consultant, Towers Watson, which reflected the Company’s peer group approved by the Committee and did not make any other changes based on a determination that the salary ranges for our NEOs were within the range of market median for these positions at companies in our peer group.

The Committee also reviewed actual salary levels for executive officers and determined fiscal 2013 base salary increases. In determining these salary adjustments, the Committee considered the market analysis provided by the Committee’s consultant, the position of each NEO’s salary within the respective base salary target range, and the individual performance rating. For the CFO and Presidents of Red Lobster and the Specialty Restaurant Group, the individual performance ratings were based on recommendations from the CEO. The independent directors determined the performance rating for the COO based on the CEO’s recommendation, and the performance rating of the CEO based on the Committee’s recommendation. The Committee increased the CEO’s salary by 3.25 percent to \$1,176,000 in light of our CEO’s contribution to our Company’s success, his leadership and a review of the market data. The salary increases approved for the NEOs will be reflected in the Summary Compensation Table next year; there are 3.25 percent increases for Messrs. Otis, Madsen, Richmond, and Lee and a 1.6 percent increase for Mr. Pickens.

Annual Incentives.

How the annual incentive plan works:

Our management employees in restaurant support functions, including our NEOs, have an opportunity to earn an annual cash incentive award under the MIP. Each annual incentive award is determined by multiplying the NEO’s base salary by the NEO’s “Annual Incentive Rate” (60 percent to 100 percent), by the “Corporate Performance Rating” and by the “Individual Performance Rating”, as illustrated below:

MIP Award (Annual Incentive)

Base Salary	X	Annual Incentive Rate	X	Corporate Performance Rating	X	Individual Performance Rating	=	MIP Award
		% of base salary		Based on diluted net EPS (Operating Profit for Presidents) and Sales Growth		Measures business performance and strategic objectives		Awards can range from 0% to 300%
		Bonus percentages are market driven		Rating can range from 0.00 to 2.00 as described in this section		Rating can range from 0.00 to 1.50 as described in this section		Cap at 300% (of annual incentive rate)

Each NEO's Annual Incentive Rate (which is a percentage of base salary) is determined by the Committee based on the NEO's level of responsibility and external market data provided by Towers Watson, and is the foundation for establishing MIP award targets. Annual MIP Awards can vary greatly from year to year based on the Corporate Performance Rating, which can range from 0.00 to 2.00, and the Individual Performance Rating, which can range from 0.00 to 1.50. As discussed below, the MIP establishes a maximum award, which is adjusted downward based on these ratings.

The fiscal 2012 MIP Award targets, aligned with our objective of performing at the 75th percentile of the S&P 500, as well as minimum and maximum opportunities for each NEO (expressed as a percentage of annual base salary earned in fiscal 2012), are shown in the table below.

Table of Contents

In fiscal 2012, the Committee evaluated our NEO's Annual Incentive Rates based on market data provided by its outside consultant, Towers Watson, and did not make any changes based on a determination that the Annual Incentive Rates for our NEOs were within the market range for these positions at companies in our peer group.

Named Executive Officer	Target	Minimum	Maximum
Annual Incentive Rates as % of Base Salary	Delivering S&P 500 top quartile performance	Not delivering performance threshold	Capping at 3 times of the annual incentive rate
Clarence Otis, Jr.	182%	—%	300%
Andrew H. Madsen	136%	—%	225%
C. Bradford Richmond	109%	—%	180%
David T. Pickens	109%	—%	180%
Eugene I. Lee, Jr.	109%	—%	180%

The Individual Performance Ratings for our NEOs are approved by the Committee, and in the case of the CEO and COO, by the independent members of the Board (see "Pay for Performance—Individual Performance").

The Corporate Performance Ratings are determined by achievement against performance goals established by the Committee at the beginning of the fiscal year. The goals for our restaurant brands for fiscal 2012 were based on operating profit and sales growth, and the goals for the Company overall were based on diluted net earnings per share and sales growth.

Fiscal Year 2012 MIP Awards

As described above, fiscal 2012 corporate and restaurant brand weightings for the performance measures applicable to the NEOs were as follows:

Performance Metric	Weighting	
Corporate		
Diluted Net Earnings Per Share Growth	70	%
Sales Growth	30	%
Business Unit—Red Lobster and Specialty Restaurant Group		
Operating Profit Growth	70	%
Sales Growth	30	%

The MIP, our annual incentive plan, as applied to our brand and group Presidents is based on both their restaurant brand or group results and on overall Company results. As a result, 80 percent of each participating restaurant brand/group President's annual incentive is based on the performance of his or her brand or group and 20 percent is based on the Company's overall performance. Accordingly, Mr. Pickens received an annual incentive award opportunity for fiscal 2012 largely based on the performance of Red Lobster. Similarly, Mr. Lee received annual incentive award opportunity for fiscal 2012 largely based on the performance of the Specialty Restaurant Group.

The MIP requires that the Company have consolidated earnings for the fiscal year in order for awards to be made for that year. Assuming that condition is satisfied the Committee has the discretion to establish the elements used to determine annual incentive awards and payments, if any, to be made, subject to certain limitations. The maximum awards payable for any plan year to any individual MIP participant may not exceed two tenths of one percent (0.2 percent) of the Company's annual sales for the year. The Committee determines awards after considering such matters

as it deems relevant. In general, the Committee has evaluated the Company's performance on the basis of continuing operations, excluding, when applicable, certain acquisition, divestiture and integration costs and purchase accounting adjustments.

Fiscal 2012 MIP Award Assessment

The Committee established MIP goals for fiscal 2012 based on that year's operating plan and budget, which were reviewed by the Board. Accordingly, if performance at the conclusion of fiscal 2012 had matched the performance expected at the beginning of that year, the NEOs would have received target level bonuses.

Table of Contents

For fiscal 2012, our target goals for the Company overall were sales growth of 7.7 percent and diluted net earnings per share growth from continuing operations of 13.2 percent. In each case, the target goals for the Company and for business units established by the Committee for fiscal 2012 assumed business and individual performance at levels that were considered challenging and aligned with our top quartile S&P 500 performance orientation.

During its June 2012 meeting, as required by our MIP, the Committee evaluated Company performance for fiscal 2012 and approved the Corporate Performance Ratings. The Corporate Performance Rating for fiscal 2012 was calculated, based on Company sales growth of 6.2 percent (excluding the sales contribution from the acquisition of Eddie V's and Wildfish Seafood Grille), and diluted net earnings per share growth from continuing operations of 5.0 percent. The Company's performance in fiscal 2012 fell short of the challenging target goals, resulting in an overall Corporate Performance Rating for the year of 1.11, which compares to a target level of 1.40. Results for Red Lobster and the Specialty Restaurant Group exceeded expectations and therefore the Corporate Performance Ratings for Red Lobster and the Specialty Restaurant Group were above their target levels. In each case, the amount above or below target was determined by interpolating the applicable performance metrics indicated above. The Committee believes these outcomes and past experience suggest it is establishing high performance targets with an appropriate level of difficulty and not targets that are merely modest where achievement is relatively assured.

Our NEOs earned annual incentive awards in the MIP that ranged from 76 percent to 126 percent of their base salaries as a result of performance relative to their individual and business objectives. The amounts earned by our NEOs under the MIP for fiscal 2012 are included in the Summary Compensation Table in the "Non-Equity Incentive Plan Compensation" column.

Long-term Incentives.

In keeping with our objective of winning financially—which involves delivering competitively superior performance annually and building value for shareholders over the long term—a significant portion of each NEO's total rewards opportunity is provided through long-term incentive ("LTI") grants made pursuant to the MIP, and, in the case of equity grants, our 2002 Stock Incentive Plan (the "2002 Plan").

LTI grants for our officers are currently delivered two-thirds in stock options and one-third in PSUs. The Committee chose this mix because options have value only if there is an increase in value recognized by our shareholders and PSUs focus our executives on sustained profitable sales growth. Thus, this mix of options and PSUs supports our pay-for-performance objective by tying vested awards to stock price appreciation and, in the case of PSUs, the achievement of financial metrics that are key drivers of long-term shareholder value creation. The LTI grants for fiscal 2012 (made in July 2011) for the NEOs are included in the table entitled "Grants of Plan-Based Awards for Fiscal 2012."

Grants are made annually in July after the end of our fiscal year. A market study by Towers Watson provided to the Committee indicated that the target equity award levels for our NEOs were in line with the market for similar positions; therefore, these target equity award levels were not changed for the fiscal 2012 awards (granted in July 2011).

Stock Options

Stock options have an exercise price equal to the closing price of our common stock on the grant date, typically have a term of ten years, and for executive officers vest 50 percent on the third and fourth anniversary of the grant. Our policies and practices on stock option grants, including the timing of grants and how we determine exercise prices, are described below in the section entitled "Other Information."

Performance Stock Units

Our PSU program is designed to reward our leaders for creating long-term value for our shareholders. In June 2009, the Committee made changes to the PSU program to reduce its complexity and to better align the program with the external market, our pay for performance culture, and our business strategy. The redesigned PSU program rewards growth in sales and diluted net earnings per share (each weighted 50 percent) over a three-year period, rather than the previous five-year vesting based on sales growth and return on gross investment.

Under the revised PSU program, which commenced with PSUs granted in July 2009, our officers continue to receive a PSU grant equal to one-third of their annual LTI award. At the end of the three-year period, PSUs are either earned or forfeited based on achieving sales and diluted net earnings per share growth goals over the three-year period. Accordingly, for example, for the PSUs granted in fiscal 2012, vesting will be determined after the 2014 fiscal year-end, based on our diluted net earnings per share and sales growth performance for fiscal 2012, 2013, and 2014. The value of the PSU award earned is equal to the number of PSUs earned times our stock price on the vesting date. This value is paid to the officers in cash on the vesting date.

Table of Contents

PSU awards are earned based on how the Company performs relative to sales growth and diluted net earnings per share goals, weighted equally. If the Company achieves the targeted goal levels, which the Committee establishes annually and are consistent with our annual MIP goals, 100 percent of the PSU grant will be earned. The Committee generally determines the actual number of PSUs to be awarded and paid out in cash for the three-year performance cycle by multiplying the target number of PSUs by the average level of achievement of the goals established annually during the three years of the performance period, plus an additional cash amount equal to the dollar value of the dividends that would have accrued (without compounding) on the actual award. Actual awards (excluding dividends) may range from 0 percent to 150 percent of the targeted incentive. Dividend equivalents will not be paid on unvested PSUs.

In addition, PSU awards provide for pro-rata vesting upon early retirement (after attainment of age 55 with 10 years of service); involuntary termination of employment after an individual's age and service is at least equal to 70 years; or disability; and for full vesting if, within two years following a "change of control" of the Company, an individual is terminated involuntarily without cause or voluntarily terminates with "good reason" (where such terms are defined in the PSUs in a manner that is substantially similar to the definition of those terms in our Management Continuity Agreements, as explained in more detail under the heading "Payments Made Upon a Change of Control" on page 46).

PSUs granted in July 2008 have a five-year time period for potential vesting. Twenty percent of the PSUs that were granted in 2008 have not yet been earned or forfeited. In July 2009, the Committee approved amendments to the then-outstanding award agreements with PSU holders (including our executive officers) to conform other vesting and performance terms in those agreements to those in the Company's current PSU program (described above). As amended, these PSUs retained their current vesting target of 20 percent each year, but each year, zero to 30 percent of these PSUs (zero to 150 percent of the 20 percent target) will be paid to PSU holders based on the Company's achievement of sales growth and diluted net earnings per share growth targets, weighted equally.

For fiscal 2012, our diluted net earnings per share growth and sales growth were below targets, resulting in 13.4 percent vesting of the PSUs granted in 2007 and 2008 (i.e., 67 percent of each year's 20 percent target). The PSUs granted in 2009 vested at the end of fiscal 2012 at 103 percent of target, based on an average of our performance in fiscal 2010 (121 percent of target), fiscal 2011 (120 percent of target), and fiscal 2012 (67 percent of target). PSUs granted in 2010 will vest at the end of fiscal 2013, based on performance in fiscal 2011, fiscal 2012 and fiscal 2013. PSUs granted in 2011 will vest at the end of fiscal 2014, based on performance in fiscal 2012, fiscal 2013 and fiscal 2014.

Perquisites.

We provide limited perquisites to our NEOs that we believe are appropriate to enable business continuity and minimize work distractions. We believe the benefit our Company recognizes from providing these perquisites exceeds the cost of providing them. These perquisites include an annual physical examination, and a limited allowance toward a Company car, financial counseling, and miscellaneous business expenses. In certain circumstances, our NEOs may have access to Company aircraft to attend board meetings of other companies for which they serve as directors. In those instances, income is imputed to and taxable to the NEO, and no tax gross-up is provided. In other limited situations, our NEOs and their spouses may travel on Company aircraft to attend events for a business-related purpose that is nevertheless characterized for tax purposes as personal use. In those instances, income is imputed to and taxable to the NEO. The Company does not provide any tax gross-up payments to NEOs. We do not provide executive medical, health or insurance programs. Our officers participate in the broad-based health and insurance plans available to our US employees.

Retirement, Savings and Non-Qualified Deferred Compensation Plans.

Qualified Retirement Plans. None of our NEOs are currently active participants in qualified retirement plans sponsored by us. Until May 1995, we were a wholly owned subsidiary of General Mills, Inc. and were known as General Mills Restaurants, Inc. (“GMRI”) and certain of our NEOs participated in GMRI’s qualified defined benefit retirement plan. Following our spin-off from General Mills in May 1995, the GMRI Retirement Income Plan became our Retirement Income Plan to be funded from a pension trust maintained by us. Therefore, certain of our NEOs will receive benefits under the Retirement Income Plan upon retirement, as reported in the Pension Benefits Table.

Qualified Darden Savings Plans. The Darden Savings Plan is the Company’s qualified savings plan and provides eligible employees with automatic savings through payroll deduction, Company matching contributions, deferral of income through before-tax contributions, and a choice of investment funds. Mr. Richmond and Mr. Pickens participated in the Darden Savings Plan prior to assuming their current positions and prior to implementation of the FlexComp Plan. Mr. Lee has a balance due to the merger of the RARE 401(k) plan into the Darden Plan. Although they can no longer make contributions to the Plan, Messrs. Richmond, Pickens and Lee have vested benefits in the Darden Savings Plan as of May 25, 2012 of \$227,557, \$37,016 and \$14,451, respectively.

Table of Contents

Non-Qualified Deferred Compensation Plans. Our NEOs, who are not eligible to participate in Darden's qualified plans, participate in the non-qualified FlexComp Plan. The FlexComp Plan allows participants to defer receipt of up to 25 percent of their base salaries and up to 100 percent of their annual incentive compensation. Amounts deferred under the FlexComp Plan are payable in cash on a date in the future. Distributions are normally made in the form of a single sum cash payment. Participants may also elect to receive 5-year or 10-year installment payments. We also make contributions for employees who participate in the FlexComp Plan (including our NEOs), in place of benefits under our qualified retirement and savings plans, in which our NEOs do not participate. These Company contributions are distributed upon the participant's retirement or termination of employment. The Company contributions consist of two components: a matching contribution ranging from 1.5 percent to 7.2 percent of the employee's annual cash compensation, based on Company performance, and a fixed amount. The fixed amount for our CEO, Mr. Otis, and for Mr. Lee is 4 percent of their annual cash compensation. For other employees who were hired before June 25, 2000 (which include Messrs. Madsen, Richmond and Pickens), the fixed contribution is based on age and years of service and ranges from 12 percent to 18 percent of annual cash compensation. Annual cash compensation is the employee's base salary plus annual cash incentive earned during the fiscal year. The FlexComp Plan does not have a guaranteed rate of return or guaranteed retirement benefit. The Company contributions for the NEOs in fiscal 2012 are included in the "All Other Compensation" column of the Summary Compensation Table.

Pay for Performance

Our executive Total Rewards Program supports our philosophy of aligning incentive compensation with performance and designing incentive opportunities that drive business strategy and creation of long-term value for shareholders. More specifically, our incentive opportunities are designed to drive sustained strong profitable sales growth and top quartile S&P 500 TSR. They are also designed to facilitate achieving results the right way—which means doing so while practicing leadership behaviors that contribute to making the Company a special place.

Between 73 percent and 84 percent of total direct compensation, at target performance, for our NEOs for fiscal 2012 is tied to performance, as follows:

Table of Contents

Darden has a strong pay for performance culture. With the exception of health benefits and certain perquisites, our total rewards vary annually based on Company, individual or share performance. Our base salary increases are determined in part by individual performance.

Incentive compensation is based on both Company and individual performance as described below.

Company Performance.

Our incentive programs reward different aspects of Company performance. The table below presents each of the quantitative measures of Company performance used under the performance-based elements of our incentive compensation programs, the reasons why we selected them, and the elements of rewards in which each measure is used. The Committee approves all performance-based targets based on specific business objectives.

Performance Measure	Why measure was selected and weighting of measure	MIP	Performance Stock Units (PSUs)	Stock Options	FlexComp Match*
	EPS was selected because it is a key driver of long-term shareholder value creation.				
Diluted Net Earnings Per Share (EPS) Growth	MIP awards for our CEO, COO, CFO and other management employees are determined primarily based on annual diluted net EPS growth, with a weighting of 70%. Diluted net EPS growth is weighted 50% for determining the vesting of PSUs.	X	X		X
	The Company contribution to an employee's FlexComp* account or 401(k) savings plan match is determined based on Company performance, including diluted net EPS growth. Sales growth was also selected because it is a key driver of long-term shareholder value.

Our Performance Peer Group.

We benchmark financial performance using the S&P 500. The graph below demonstrates that the Company's financial performance has resulted in returns to Darden's shareholders over the long-term that are well above the median TSR for the S&P 500 Index.

Individual Performance.

Individual performance ratings are based on both the achievement of specific annual objectives (the "what") and the leadership behaviors the individual demonstrated in achieving the objectives (the "how"). The objectives are based on unique contributions an individual is expected to make to the Company as a result of his or her position, expertise and experience. Individual objectives fall into four categories—financial, guest, employee and process excellence—and the rating on these objectives comprises sixty percent of each officer's individual performance rating.

The remaining forty percent of each officer's individual performance rating is based on how the officer accomplished the objectives, measured against a set of critical leadership behaviors and skills linked to job success, career growth, and business success. Our leadership behaviors fall into four categories—people leadership, personal leadership, business leadership and results leadership—and are evaluated by the employee's manager on a five-point scale.

In determining the fiscal 2012 individual performance rating for our CEO, the Committee reviewed the results of the CEO performance assessment performed by the Board's independent directors in executive session. The Committee also reviewed a summary prepared by our CEO of his accomplishments. In addition, the independent directors of the Board reviewed and approved the individual performance ratings of our CEO and COO.

Other Executive Compensation Policies and Guidelines

Agreements.

With the exception of management continuity agreements (“MCAs”), which are limited to a change of control of the Company, and an agreement with Mr. Lee, which contains more restrictive non-compete, non-solicitation and non-disclosure provisions, we do not have formal severance agreements or employment agreements with our NEOs. The intent of our MCAs is to encourage executives involved in managing the Company through a potential change of control transaction to remain focused on the interests of our shareholders. The agreements have a “double trigger” in which an executive receives payouts following a change of control only if the executive, within 24 months following the change of control, loses his or her job, or resigns for “good reason” such as a substantial diminution of job duties. The agreements do not contain a so-called “golden parachute” excise tax gross-up. The agreements define “change of control” to mean certain specific and objective events that the Committee determines would result in an actual transfer of control of the Company; they define the bonus component of severance payments as the average bonus paid to the executive in the three years prior to the change of control.

We entered into an agreement with Mr. Lee dated August 13, 2007 in connection with the acquisition of RARE on October 1, 2007. The terms of Mr. Lee’s agreement and the MCAs are more fully described in the section below entitled “Executive Compensation—Potential Payments Upon Termination or Change of Control.”

Stock Ownership Guidelines.

In keeping with our objective of aligning our managers’ interests with our shareholders’ interests, we require our officers to hold stock in the Company. Our officers must own equity equal in value to a designated multiple of their salaries. The following items in the officer’s equity holdings are counted for this purpose: registered shares, restricted stock, PSUs, the value of vested stock options, and Darden stock or stock equivalents held under Darden’s retirement plans.

The required ownership values vary based on the officer’s level of responsibility. Our CEO is required to hold stock equal to six times his base salary. Our other NEOs are required to hold stock equal in value to four and a half times base salary.

All executive officers, including the CEO, generally must meet these levels within seven years of attaining their position, according to the following schedule: 10 percent of the stock ownership goal attained in year one, 20 percent in year two, 30 percent in year three, 40 percent in year four, 60 percent in year five, 80 percent in year six, and 100 percent in year seven. Each year, the Committee reviews officer ownership levels. At this time, our NEOs all meet or exceed their share ownership requirement.

Policy on Granting Equity Awards.

Our equity awards policy provides that incentive equity grants to employees, including stock option grants, are made once per year and are effective on the last Wednesday in fiscal July. Stock option grants under our Bonus Option Replacement Program, where employees may elect to receive stock options in lieu of a portion of their bonus, are made on the last Wednesday in fiscal July, except in the case of our directors of operations where grants are made on the last day of each fiscal quarter on which the NYSE is open for trading. Any other interim or ad hoc equity awards such as retention awards, including stock option grants, are made effective on such date as the Committee, the Board or authorized individual approving the award may determine. The grant date for equity awards is never a date prior to approval. The exercise price of stock options is the fair market value of our common stock on the date of the grant as measured by the closing sales price of our common stock on the NYSE. All equity awards granted during fiscal 2012 were consistent with this policy.

Recoupment and Forfeiture of Compensation.

An officer is required to repay performance-based rewards to the Company if he or she knowingly participates in a fraud that requires the Company to restate its financial statements. Performance-based rewards include annual incentive awards under our MIP, PSU awards and gains on stock option exercises.

Amounts reflect the actual base salary paid and incentives earned by the NEO in fiscal 2012, fiscal 2011 and fiscal (1)2010, including any deferred amounts reported in the Non-Qualified Deferred Compensation Table. We have a 52/53 week fiscal year ending the last Sunday in May. Our 2012, 2011, and 2010 fiscal years all had 52 weeks.

The Company made variable incentive payments for fiscal 2012, fiscal 2011 and fiscal 2010 based on achieving (2)performance metrics that were established under the Company's MIP. These incentive payments are reported in the "Non-Equity Incentive Plan Compensation" column of this table.

(3) Amounts in these columns represent the grant date fair value of awards computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation—Stock Compensation ("ASC Topic 718") for each of fiscal 2012, fiscal 2011 and fiscal 2010. The assumptions used in calculating these amounts in accordance with ASC Topic 718 are included in Note 1 (under the heading Stock-Based Compensation) to the Company's audited financial statements included in the Company's 2012 Annual Report to Shareholders. The PSUs granted in fiscal 2012 will vest after the 2014 fiscal year-end, based on our diluted net earnings per share and

sales growth performance for fiscal 2012, 2013, and 2014. The grant value of PSUs is shown at target payout. Actual awards may range from 0 percent to 150 percent of the targeted incentive. For fiscal 2012, the following amounts represent the grant date fair value of PSU awards assuming achievement of maximum (150%) payout: Mr. Otis-\$2,926,357; Mr. Madsen-\$1,468,522; Mr. Richmond-\$665,099; Mr. Pickens-\$861,322; and Mr. Lee-\$707,465. For fiscal 2011, the following amounts represent the grant date fair value of PSU awards assuming achievement of maximum (150%) payout: Mr. Otis—\$2,803,510; Mr. Madsen—\$1,406,864; Mr. Richmond—\$637,167; Mr. Pickens—\$677,788; and Mr. Lee—\$677,788. For fiscal 2010, the following amounts represent the grant date fair value of PSU awards assuming achievement of maximum (150%) payout: Mr. Otis—\$2,675,546; Mr. Madsen—\$1,342,630; Mr. Richmond—\$668,911; Mr. Pickens—\$646,857; and Mr. Lee—\$646,411.

Amounts in this column are awards earned under the MIP for fiscal 2012, fiscal 2011 and fiscal 2010 and were determined based on the NEO's actual salary earned, his annual incentive rate, which varies by position and level, (4) his individual performance rating and his Company and/or unit performance rating, which is determined by performance against goals established at the beginning of each fiscal year. In June 2010, based on a review of market data, the Board approved

Table of Contents

increases in the Annual Incentive Rates for the CEO and COO that were reported in the 2010 Proxy Statement. The grant of annual incentives under the MIP is described in greater detail in “Compensation Discussion and Analysis—Elements of Our Total Rewards Program—Annual Incentives.”

Amounts deferred into the FlexComp Plan do not receive above market or preferential earnings, but rather receive (5) rates of return that match the returns on the investment options available under the Darden Savings Plan as described under the heading “Non-Qualified Deferred Compensation.”

(6) All Other Compensation for fiscal 2012 consists of the following amounts:

Name(a)	Perks and Other Personal Benefits (\$)(a)	Company Contributions to Defined Contribution Plans (\$)(b)	Insurance Premiums (\$)(c)	Dividends or Earnings on Stock or Option Awards (\$)(d)	Other (\$)(e)	Totals (\$)
Clarence Otis, Jr.	62,314	215,446	9,886	86,289	2,467	376,402
Andrew H. Madsen	74,753	348,554	9,886	59,688	2,349	495,230
C. Bradford Richmond	19,579	162,557	6,406	18,732	2,638	209,932
David T. Pickens	24,181	251,635	9,886	28,490	4,918	319,110
Eugene I. Lee, Jr.	30,755	101,841	6,406	22,492	1,077	162,571

(a) Includes the aggregate incremental costs to the Company for personal use of a Company car and Company aircraft, an annual executive physical, a limited allowance toward a Company car, financial counseling, and a nominal cash award in lieu of any other perquisites. None of these perquisites had a value exceeding the greater of \$25,000 or 10 percent of total perquisites for an NEO except the value of aggregate incremental cost of the Company aircraft of \$27,329 for Mr. Otis and \$37,619 for Mr. Madsen. Darden’s policy is to leverage Company aircraft for business and business-related travel. The value of the aggregate supplemental incremental cost of the Company aircraft shown above relates to attendance at external board meetings, executive development conferences and executive networking forums, which benefit Darden but are considered by the tax rules to be personal use. Darden does not allow use of the Company aircraft for leisure or vacation purposes. The Company calculates the aggregate incremental cost of the personal use of Company aircraft based on an hourly charge that includes the cost of fuel, trip-related maintenance, crew travel, onboard catering, landing and license fees and contract labor. Since the Company aircraft is primarily for business travel, we do not include the fixed costs that do not change based on usage such as pilots’ salaries, the cost to purchase the aircraft and the cost of maintenance not related to trips. Family members of executives and their invited guests occasionally fly on Company aircraft as additional passengers on business flights or on business-related flights that may be characterized as personal use. In those cases, the aggregate incremental cost to the Company for the family member or guest is de minimis.

(b) Amounts in this column represent Company contributions made in August 2012 for fiscal 2012 Company performance under the FlexComp Plan, our non-qualified deferred compensation plan. Company contributions under the FlexComp Plan are deferred in accordance with participants’ elections pursuant to the terms of the FlexComp Plan. These Company contributions are included in the “All Other Compensation” column. Salary or bonus deferred by an NEO into the FlexComp Plan is reported in the “Salary” column or the “Non-Equity Incentive Plan Compensation” column.

(c) Represents the cost to the Company for providing life insurance and long-term disability insurance.

(d) Under the 2002 Plan, the NEOs received dividends or dividend equivalents for unvested awards of restricted stock, restricted stock units and PSUs. Since May 31, 2009, we have not paid current dividends on equity grants to our

NEOs, but rather accrue them for payment when the awards or shares are earned and vested.

(e) Each NEO received a non-cash award associated with the annual celebration for the Company's top-performing general managers.

(7) See “—Potential Payments Upon Termination of Change of Control—Agreement with Mr. Lee” below for information regarding the agreement between Mr. Lee and the Company in connection with the RARE acquisition.

Grants of Plan-Based Awards for Fiscal 2012

Management and Professional Incentive Plan. Annual and long-term incentive awards are granted by the Committee to executive officers under the MIP, and in the case of equity and equity-based awards, the 2002 Plan described below. Awards are a combination of cash, stock or stock-based awards, or PSUs. The criteria for awards pursuant to the MIP are described under

Table of Contents

“Compensation Discussion and Analysis—Elements of Our Total Rewards Program—Annual Incentives” and “—Long-term Incentives.”

2002 Plan. The 2002 Plan provides for the grant of stock options, stock appreciation rights (“SARs”), restricted stock, restricted stock units, performance awards and other stock and stock-based awards to employees, officers, consultants, advisors and independent directors providing services to the Company or any of our affiliates that the Committee determines is an eligible person. Up to an aggregate of 18,300,000 shares of our common stock can be issued pursuant to awards granted under the 2002 Plan, subject to adjustment pursuant to a stock split or other recapitalization in order to prevent dilution or enlargement of the benefits intended under the 2002 Plan. As of May 27, 2012, approximately 4,225,089 shares of common stock remained available for future awards under the 2002 Plan.

The following table sets forth certain information with respect to equity and non-equity plan-based awards granted during fiscal 2012 under the MIP and the 2002 Plan to each of the NEOs.

(1) The grants for Mr. Otis and Mr. Madsen were recommended by the Committee and approved by the independent members of the Board and the grants made to the other NEOs were approved by the Committee.

(2) The amounts in these columns represent the potential annual cash incentive that may be earned under the MIP by each NEO. The annual ranges are calculated with the current salary and annual incentive rate for each NEO at the time of approval. Actual payouts to the NEOs based on fiscal 2012 performance are reported under the “Non-Equity Incentive Plan Compensation” column in the Summary Compensation Table.

(3) The NEOs received grants of PSUs under the 2002 Plan. These units will vest only if certain performance thresholds relating to sales growth and diluted net earnings per share growth are achieved. The units have the ability to vest at the end of a three-year performance period. When performance exceeds targeted results, additional units vest; conversely, when performance is below targeted levels, fewer or no units vest. These PSUs are described more fully under the heading “Compensation Discussion and Analysis—Elements of Our Total Rewards Program—Long-term Incentives.”

- (4) The NEOs received grants of non-qualified stock options under the 2002 Plan. These non-qualified stock options vest 50 percent on the third and fourth anniversaries of the grant date.

All options are granted with an exercise price equal to the fair market value of our common stock on the date of grant. Fair market value under the 2002 Plan has been determined by the Committee to be the closing price of the (5) common stock on the NYSE as reported in the consolidated transaction reporting system on the grant date or, if such exchange is not open for trading on such date, on the most recent preceding date when such exchange is open for trading.

- (6) Assumptions used in the calculation of these amounts are included in Note 1 to the Company's audited financial statements included in the Company's 2012 Annual Report to Shareholders.

All option awards are non-qualified stock options that expire ten years from the date of grant. Except where noted, the vesting schedule for the non-qualified stock options granted to NEOs is 50 percent on the third and fourth anniversaries of the grant date. For Mr. Richmond, who became our CFO on December 1, 2006, the non-qualified (1) stock option grants made prior to that date vested in thirds on the second, third and fourth anniversaries of the grant date. For Mr. Lee, options granted prior to October 1, 2007 appearing in the table are the result of options for RARE common stock that were converted into options for Darden common stock in connection with the RARE acquisition.

(2) With the exception of Mr. Lee, all shares reflected in this column represent the awards of performance restricted stock granted in fiscal years 2000 through 2006. The performance restricted stock awards fully vest in ten years and have the opportunity to accelerate vesting in each of the first five anniversaries following the grant date when performance goals are achieved. The market value of the performance

restricted stock awards is based on a per share value of \$53.06, the closing market price of our common shares on the NYSE on May 25, 2012, the last trading day before the end of our fiscal year on May 27, 2012.

All units reflected in this column represent PSU awards granted in fiscal years 2008, 2009, 2010, 2011 and 2012.

The terms of the PSU awards are more fully described in footnote 3 of the Grants of Plan-Based Awards table. The (3) market value of outstanding stock awards is based on a per share (or unit) value of \$53.06, the closing market price of our common shares on the NYSE on May 25, 2012, the last trading day before the end of our fiscal year on May 27, 2012.

Option Exercises and Stock Vested for Fiscal 2012

The following table summarizes the number of option awards exercised and restricted stock and stock-settled PSUs that vested during fiscal 2012 for each of the NEOs.

Eugene I. Lee, Jr.	147,821	2,337,882	27,855	1,190,801

(1) The value realized equals the difference between the closing market price of our common stock on the NYSE on the date of exercise and the exercise price, multiplied by the number of shares acquired on exercise.

(2) The value realized equals the closing market price of our common stock on the NYSE on the vesting date multiplied by the number of shares acquired on vesting.

Pension Benefits

Under the Retirement Income Plan (“RIP”), Mr. Richmond and Mr. Pickens will receive estimated monthly aggregate benefits at normal retirement (age 62) of \$361 and \$1,434, respectively. Benefits are fixed because the NEOs no longer participate in the plans. All benefits are distributed in cash as monthly payments and are not eligible for lump sum distributions.

The table below shows the present value of accumulated benefits payable to each NEO, including the years of service credited to each NEO, under the RIP, determined using interest rate and mortality rate assumptions used in Note 17 to the Company’s audited financial statements included in the Company’s 2012 Annual Report to Shareholders. The number of credited service years shown below are fixed and do not reflect actual years of service as plan benefits are frozen. The accumulated benefit shown below is based on the highest benefit option which is “Single Life Annuity.” Other actuarially equivalent optional payouts include Joint and Survivor 50 percent, Joint and Survivor 100 percent, and Ten Year Certain. Early retirement benefits are available as early as age 55 at a reduced benefit level.

Our NEOs, along with other employees who are ineligible to participate in our qualified retirement plans, participate in the FlexComp Plan, which was designed to provide benefits in lieu of qualified retirement plans maintained by us and by General Mills, Inc., our former parent company. The FlexComp Plan is described under the heading “Non-Qualified Deferred Compensation” below.

Non-Qualified Deferred Compensation

We maintain the FlexComp Plan, a non-qualified deferred compensation plan, for our executive officers and certain employees who are not eligible to participate in the Darden Savings Plan.

The FlexComp Plan permits participating executive officers to defer receipt of up to 25 percent of their base salaries and up to 100 percent of their annual incentive compensation. Amounts deferred under the FlexComp Plan are payable in cash on the date or dates selected by the participant in accordance with the terms of the FlexComp Plan or on such other dates specified in the FlexComp Plan. Deferred amounts are credited with rates of return based on the performance of several investment alternatives

Table of Contents

(which mirror the returns credited in the Darden Savings Plan, the Company's qualified 401(k) savings plan), as selected by the participant. None of the NEOs made contributions to the FlexComp Plan in fiscal 2012.

We also make certain contributions to executive officers' accounts under the FlexComp Plan which are designed to provide benefits in lieu of qualified retirement and savings plans. Our executive officers, along with other employees who are ineligible to participate in our qualified retirement and savings plans, participate in the FlexComp Plan. One portion of our annual contribution to the FlexComp Plan ranges from 1.5 percent to 7.2 percent of the executive officer's eligible annual earnings based on Company performance as described in "Compensation Discussion and Analysis—Elements of Our Total Rewards Program—Non-Qualified Deferred Compensation Plans". For executive officers hired on or prior to June 25, 2000, which includes all of the NEOs in the Summary Compensation Table except Mr. Otis and Mr. Lee, the second portion of our annual contribution ranges from 2 percent to 20 percent of the executive officer's eligible annual earnings, based on the NEO's age and, if applicable, the years of service during which the NEO was covered by our qualified retirement plan. Executive officers hired after June 25, 2000, receive an annual contribution of 4 percent of the executive officer's eligible annual earnings in place of the age and service contributions. These contribution amounts are deferred in accordance with participants' elections and the terms of the FlexComp Plan.

Participants may elect to have the contributions credited with rates of return based on several investment alternatives, which mirror the returns credited in the Darden Savings Plan. Except for the Darden Company Stock Fund, investment selections may be changed daily. The FlexComp Plan does not have a guaranteed rate of return or guaranteed retirement benefit. The table below shows the funds available under the Darden Savings Plan and their rate of return for the twelve months ended May 27, 2012 as reported by the administrator of the Darden Savings Plan. Deferred amounts under the FlexComp Plan are generally paid following separation from employment and are normally made in the form of a single sum cash payment. Participants may also elect to be paid in the form of 5-year or 10-year annual installment payments.

Potential Payments Upon Termination or Change of Control

Apart from the MCAs and an agreement with Mr. Lee and discussed below under “Payments Made Upon a Change of Control” and “Agreement with Mr. Lee,” the Company has not entered into any employment agreements with the NEOs. The following summarizes the potential payments to be made to NEOs upon termination of their employment or a change of control of the Company.

Payments Made Upon Any Termination of Employment. Regardless of the manner in which an NEO’s employment terminates, the NEO is entitled to receive amounts earned during the NEO’s term of employment. Such amounts include:

• Accrued but unpaid base salary through the date of termination;

• Long-term incentive grants for the most recently completed cycle;

• Unreimbursed employment-related expenses and other benefits owed to the NEO under the Company’s employee benefit plans or policies;

• Accrued but unpaid vacation; and

• The NEO’s Darden Savings Plan and FlexComp Plan account balances.

These payments made upon termination do not differ from payments made upon termination to all employees. In addition, the NEO will continue to be able to exercise any vested stock options for a period of three months following termination of employment, or for a longer period if the NEO is eligible for early or normal retirement or in certain other situations described below.

Payments Made Upon Early Retirement. In the event of the early retirement of an NEO who has reached age 55 with ten or more years of service, in addition to the items identified under the heading “Payments Made Upon Any Termination of Employment”:

• The NEO will be allowed to exercise any outstanding options granted prior to June 15, 2006 for the remainder of the original term;

• The NEO will be entitled to receive a pro-rated share of each option granted from and after June 15, 2006, and be allowed to exercise such option for the lesser of five years or the remainder of the original term;

• The NEO will continue to vest in grants of restricted stock for the remainder of the original term provided required deposit shares are held for grants made prior to June 2006;

• The NEO will continue to vest in a pro-rated share of grants of PSUs granted after July 29, 2009 based on Company performance for the remainder of the original PSU performance period;

• The NEO will be eligible to continue to receive health benefits through our retiree medical program, with a portion of the premiums paid by the NEO;

• The Company will reimburse the NEO for up to one year’s allowance of financial planning services incurred in the subsequent year;

• The NEO will be entitled to receive a distribution of any balance held under the qualified savings plan (the Darden Savings Plan) if applicable; and

• The NEO will receive a monthly benefit under the qualified retirement plan (the “RIP”) if applicable.
Payments Made Upon Normal Retirement. In the event of the retirement of an NEO who has reached age 65 with five or more years of service, in addition to the items identified under the heading “Payments Made Upon Any Termination of Employment”:

• The NEO will vest in all outstanding options and be allowed to exercise such options for the remainder of the original term;

• The NEO will continue to vest in grants of restricted stock for the remainder of the original term provided required deposit shares are held for grants made prior to June 2006;

• The NEO will continue to vest in grants of PSUs based on Company performance for the remainder of the original PSU performance period;

• The NEO will be eligible to continue to receive health benefits through our retiree medical program, with a portion of

the premiums paid by the NEO;

The Company will reimburse the NEO for up to one year's allowance of financial planning services incurred in the subsequent year; and

The NEO will be entitled to receive a distribution of any balance held under the qualified savings plan (the Darden Savings Plan) if applicable, and will receive a monthly benefit under the RIP, if applicable.

Payments Made Upon Disability. The Company pays for long-term disability coverage for the NEOs and the amount paid for the insurance is included in the "All Other Compensation" column in the Summary Compensation Table. In the event of disability, the NEO will receive the items identified under the heading above "Payments Made Upon Any Termination of Employment." In addition, the NEO is entitled to the following benefits, which are also available to employees with disability coverage:

Up to two-thirds of eligible pay with a maximum annual benefit of \$180,000 payable to age 65;

Continued eligibility for group medical coverage; and

Continued life insurance and Company retirement contributions up to age 65.

Payments Made Upon Death. The Company pays for life insurance coverage for the NEOs and the amount paid for the insurance is included in the "All Other Compensation" column in the Summary Compensation Table. The life insurance benefit for the NEOs is equal to four times salary and bonus, with a maximum amount of coverage of \$1,500,000. For accidental death, the benefit is twice the amount of the regular coverage with a maximum amount of coverage of \$3,000,000. An additional \$500,000 may be paid if death occurs while traveling on business. These benefits would be paid from term life insurance policies maintained by the Company. In the event of death, the estate of the NEO will receive the items identified under the heading above entitled "Payments Made Upon Any Termination of Employment."

Stock options and restricted stock will vest pro-rata based on the number of full months completed in the vesting period and stock options will be exercisable for the remainder of the original term. Stock options, restricted stock, and PSUs granted on or after June 15, 2006 will vest in full and stock options granted on or after June 15, 2006 will be exercisable for the lesser of five years or the remainder of the original term.

Payments Made Upon Involuntary Termination Without Cause. In general, the Company may, but is not obligated to, provide separation pay and benefits to its employees in the event the employee is involuntarily terminated without cause or resignation. If provided, the separation pay and benefits available are generally contingent upon the Company receiving a general release of claims from the employee. In addition to the items identified under the heading above entitled "Payments Made Upon Any Termination of Employment," such payments to an executive officer may include such severance benefits as the Company may determine to be appropriate under the specific circumstances.

If the executive's age plus his years of service equals or exceeds 70 and the executive is involuntarily terminated without cause, accelerated vesting will be applied to a pro-rata portion of the outstanding stock options and PSUs granted on or after July 1, 2009. Stock options granted between March 21, 2001 and June 14, 2006 will be exercisable for the lesser of two years or the remainder of the original term; stock options granted on or after June 15, 2006 will be exercisable for the lesser of five years or the remainder of the original term.

Payments Made Upon a Change of Control. We have MCAs with all of our NEOs, which provide for severance payments equal to three times the amount of annual compensation (determined by the then-current base salary plus average cash bonus award during the preceding three years) and continuation of health and similar benefits for a three-year period if the executive officer is terminated without cause or voluntarily terminates employment with good reason within two years after a change of control. If the severance payments the executive officer would otherwise be entitled to receive would require the payment of excise taxes, then the amount of severance payments is reduced to the point that it eliminates by a margin of \$1,000 any liability for such excise taxes, unless the severance payments

provided under the agreement (with the executive bearing all responsibility for taxes) provides a net payment to the executive that is at least 10 percent higher than the net reduced amount. The MCAs provide for an initial two-year term, and are extended on each anniversary date for two years from the anniversary date, unless prior notice is given by us that the agreement will not be extended. Under the MCA, “Change of Control” means:

Any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act) (a “Person”) becomes the beneficial owner (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of 20 percent or more of either (i) the then-outstanding shares of common stock of the Company (the “Outstanding Company Common Stock”) or (ii) the combined voting power of the then-outstanding voting securities of the Company entitled to vote

generally in the election of directors (the “Outstanding Company Voting Securities”); provided, however, that, for purposes of this section, the following acquisitions shall not constitute a Change of Control: (A) any acquisition directly from the Company, (B) any acquisition by the Company, (C) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Company or any company controlled by, controlling or under common control with the Company (an “Affiliated Company”) or (D) any business combination pursuant to a transaction where (i) all or substantially all of the beneficial owners of Outstanding Company Common Stock immediately prior to the business combination beneficially own more than 50% of the then-outstanding shares of common stock of the entity resulting from the business combination in substantially the same proportion as immediately prior to the business combination, (ii) no person beneficially owns 20% or more of the common stock of the entity resulting from the business combination, except to the extent that such ownership existed prior to the business combination, and (iii) at least a majority of the Board members of the entity resulting from the business combination were members of the incumbent Board at the time of the execution of the initial agreement or action of the board approving the business combination;

Individuals who, as of the effective date of the revised standard form of MCA, constitute the Board (the “Incumbent Board”) cease for any reason to constitute at least a majority of the Board; provided, however, that any individual becoming a director subsequent to the date thereof whose election, or nomination for election by the Company’s shareholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board shall be considered as though such individual was a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board;

Consummation of a reorganization, merger, statutory share exchange or consolidation or similar transaction involving the Company or any of its subsidiaries, a sale or other disposition of all or substantially all of the assets of the Company, or the acquisition of assets or securities of another entity by the Company or any of its subsidiaries (each, a “Business Combination”), in each case unless, following such Business Combination, (i) all or substantially all of the individuals and entities that were the beneficial owners of the Outstanding Company Common Stock and the Outstanding Company Voting Securities immediately prior to such Business Combination beneficially own, directly or indirectly, more than 50 percent of the then-outstanding shares of common stock (or, for a non-corporate entity, equivalent securities) and the combined voting power of the then-outstanding voting securities entitled to vote generally in the election of directors (or, for a non-corporate entity, equivalent governing body), as the case may be, of the entity resulting from such Business Combination (including, without limitation, an entity that, as a result of such transaction, owns the Company or all or substantially all of the Company’s assets either directly or through one or more subsidiaries) in substantially the same proportions as their ownership immediately prior to such Business Combination of the Outstanding Company Common Stock and the Outstanding Company Voting Securities, as the case may be, (ii) no Person (excluding any entity resulting from such Business Combination or any employee benefit plan (or related trust) of the Company or such entity resulting from such Business Combination) beneficially owns, directly or indirectly, 20 percent or more of, respectively, the then-outstanding shares of common stock (or, for a non-corporate entity, equivalent securities) of the entity resulting from such Business Combination or the combined voting power of the then-outstanding voting securities of such entity, except to the extent that such ownership existed prior to the Business Combination, and (iii) at least a majority of the members of the board of directors (or, for a non-corporate entity, equivalent governing body) of the entity resulting from such Business Combination were members of the Incumbent Board at the time of the execution of the initial agreement or of the action of the Board providing for such Business Combination; or

Approval by the shareholders of the Company of a complete liquidation or dissolution of the Company.
Under the standard form of the MCAs, “Cause” means:

An act or acts of fraud or misappropriation on the executive officer's part which result in or are intended to result in the executive officer's personal enrichment at the expense of the Company and which constitute a criminal offense under state or federal laws; or

Conviction of the executive officer of a felony.

Under the standard form of the MCAs, "Good Reason" means, without the express written consent of the executive:

The assignment to the executive officer of any duties inconsistent in any substantial respect with the executive officer's position, authority or responsibilities as in effect during the 90-day period immediately preceding the effective date of the agreement;

Table of Contents

Any other substantial adverse change in such position (including titles), authority or responsibilities;

Any failure by the Company to furnish the executive officer with base salary, target annual bonus opportunity, long-term incentive opportunity or aggregate employee benefits at a level equal to or exceeding those received by the executive officer from the Company during the 90-day period preceding the effective date of the agreement, other than (i) an insubstantial and inadvertent failure remedied by the Company promptly after receipt of notice thereof given by the executive officer or (ii) with respect to aggregate employee benefits only, any failure resulting from an across-the-board reduction in employee benefits generally applicable to all similarly situated employees;

The Company's requiring the executive officer to be based or to perform services at any office or location more than 30 miles from the office or location at which the executive officer was based as of immediately prior to the effective date of the agreement, except for travel reasonably required in the performance of the executive officer's responsibilities;

Any failure by the Company to obtain the assumption and agreement to perform the agreement by a successor; or

Any failure by the Company to deposit amounts in the trust in accordance with the agreement.

We also have entered into trust agreements to provide for payments under the MCAs and our non-qualified deferred compensation plans, including the Director Compensation Plan, the MIP and the FlexComp Plan. Full funding is required upon a change of control of Darden. In addition, stock options, restricted stock, restricted stock units and PSUs issued under our stock plans are subject to accelerated vesting if we experience a change of control, as defined in those plans or related award agreements. The options will be exercisable for three months.

Agreement with Mr. Lee. We entered into an agreement with Mr. Lee dated August 13, 2007 in connection with the acquisition of RARE on October 1, 2007. The agreement extinguished most of Mr. Lee's rights under his previous employment agreement with RARE, including the change in control provisions, but continued other provisions and confirmed the terms of his employment with Darden.

In consideration of benefits described in this paragraph, Mr. Lee relinquished his rights under his employment agreement with RARE; however, the non-competition, non-solicitation, and non-hire of employees and confidentiality covenants of his RARE agreement continue to apply during his employment with Darden and for specified periods thereafter. Specifically, he is subject to a non-solicitation of employees covenant and confidentiality covenant during his employment with Darden and for 24 months thereafter; and a non-competition covenant during his employment with Darden and for 18 months thereafter, and a non-hire of employees covenant during his employment with Darden and for 24 months thereafter. The agreement with Mr. Lee provides for benefits of an annual base salary of \$500,000, an annual bonus opportunity under Darden's MIP equal to 60 percent of base salary and an equity grant which had a grant date total value of \$2,861,400 and is now vested.

The tables below reflect the amount of compensation payable to each of the NEOs under the current MCAs and the agreement with Mr. Lee in the event of termination of such executive officer's employment upon voluntary termination, involuntary not-for-cause termination, termination for cause, termination following a change of control and in the event of death of the NEO. The amounts shown assume that such termination or change of control was effective as of May 27, 2012 and are estimates of the amounts that would be paid out to the executive officer upon their termination. The actual amounts to be paid out can only be determined at the time of such executive officer's separation from the Company. Except for the fiscal 2012 MIP and FlexComp Plan award, the tables do not reflect earned amounts identified under the heading "Payments Made Upon Any Termination." Items such as pension benefits payable under the qualified retirement plans and Darden Savings Plan or FlexComp Plan account balances are identified under the Pension Benefits Table and the Non-Qualified Deferred Compensation Table, respectively.

This value equals the difference between the closing market price of \$53.06 of our common stock on the NYSE on (3) May 25, 2012, the last trading day before the end of our fiscal year on May 27, 2012, and the exercise price, multiplied by the number of option shares subject to accelerated vesting upon termination.

(4) This value is calculated based on the closing market price of \$53.06 of our common stock on the NYSE on May 25, 2012, the last trading day before the end of our fiscal year on May 27, 2012.

The maximum life insurance benefit for normal death is \$1,500,000; for accidental death, the maximum is (5) \$3,000,000; and an additional \$500,000 may be paid if death is attributable to death while traveling on business. These benefits would be paid from term life insurance policies.

(6) This amount represents the value of awards that would receive accelerated vesting because the NEOs age plus years of service would equal or exceed 70 as of May 27, 2012.

(7) Miscellaneous benefits include welfare and other continuation benefits, post-retiree medical benefits and FlexComp Plan benefits.

(8) This amount represents the value of awards that would receive accelerated vesting because the NEOs qualify for early retirement (age 55 plus ten years of service) as of May 27, 2012.

(2) Relates solely to options exercisable for common shares.

(3) Consists of the 2002 Plan, 1995 Plan and our Employee Stock Purchase Plan. The 2002 Plan has a “fungible share pool” approach to account for authorized shares. With respect to stock options and SARs, the number of shares available for awards is reduced by one share for each share covered by such award or to which the

award relates. With respect to awards granted after September 15, 2006, other than stock options and SARs, the number of shares available for awards is reduced by two shares for each share covered by such award or to which such award relates. Awards that do not entitle the holder to receive or purchase shares and awards that are settled in cash are not counted against the aggregate number of shares available for awards under the 2002 Plan.

Includes up to 4,225,089 shares of common stock that may be issued under awards under the 2002 Plan, and up to (4) 1,648,798 shares of common stock that may be issued under our Employee Stock Purchase Plan. No new awards may be made under the 1995 Plan.

(5) Consists of the RARE Plan, the 2000 Plan, the Director Stock Plan, and the Director Compensation Plan, each of which is further described below.

(6) Consists of shares available for issuance under the RARE Plan.

Table of Contents

RARE Plan. We acquired RARE on October 1, 2007. The RARE Plan has not been approved by our shareholders, but was approved by the shareholders of RARE on May 8, 2007. The RARE Plan is administered by the Compensation Committee and provides for the issuance of common stock in connection with awards of non-qualified stock options, incentive stock options, restricted stock and restricted stock units. Persons eligible to receive awards under the RARE Plan are any employee, officer, director, consultant or advisor of the Company who, as of September 30, 2007, was an employee, officer, director, consultant or advisor to RARE or its subsidiaries or affiliates. The RARE Plan is designed to meet the requirements of Section 162(m) of the Code regarding the deductibility of executive compensation. The exercise price of stock options shall be determined by the Compensation Committee, but shall not be less than the fair market value of a share of common stock as of the grant date. No new awards may be granted under the RARE Plan after May 10, 2014, but the plan shall remain in effect as long as any awards under the plan are outstanding. The RARE Plan allows the Compensation Committee to specify the conditions of the awards, including but not limited to the vesting period, option period, termination provisions and transferability provisions.

The Compensation Committee further amended the RARE Plan on June 19, 2008, to provide a “fungible share pool” approach to manage authorized shares under the RARE Plan. If an award under the RARE Plan entitles the holder to receive or purchase shares of common stock, the shares covered by such award or to which the award relates shall be counted against the aggregate number of shares available for awards under the RARE Plan as follows:

• With respect to stock options, the number of shares available for awards shall be reduced by one share for each share covered by such award or to which the award relates;

• With respect to awards that were granted on or after June 19, 2008, other than stock options, the number of shares available for awards shall be reduced by two shares for each share covered by such award or to which such award relates; and

• Awards that do not entitle the holder to receive or purchase shares and awards that are settled in cash shall not be counted against the aggregate number of shares available for awards under the RARE Plan.

If any shares covered by an award under the RARE Plan or to which an award relates are not purchased or are forfeited or are reacquired by the Company (including shares of restricted stock, whether or not dividends have been paid on such shares), or if an award otherwise terminates or is canceled without delivery of any shares, then the number of shares counted pursuant to the RARE Plan against the aggregate number of shares available under the RARE Plan with respect to such award, to the extent of any such forfeiture, reacquisition, termination or cancellation, shall again be available for granting awards under the RARE Plan. The RARE Plan does not provide, however, for “net share counting,” so that shares that are used to pay the exercise price of a stock option or are withheld upon exercise of a stock option to satisfy tax withholding requirements will not be added to the number of shares available for granting awards under the RARE Plan.

2000 Plan. The 2000 Plan provides for the issuance of up to 5,400,000 shares of common stock out of our treasury as non-qualified stock options, restricted stock or restricted stock units. No awards could be made under the 2000 Plan after January 1, 2004, but options and other awards granted prior to that time remain outstanding and will vest in accordance with their terms. Only our employees other than executive officers were eligible to receive awards under the 2000 Plan. The purpose of the 2000 Plan is to provide incentives and awards to employees who may be responsible for the management, growth and sound development of our restaurants, and to align the interests of employees with the interests of our shareholders. The 2000 Plan is administered by the Compensation Committee. The exercise price of a stock option granted under the 2000 Plan could not be less than the fair market value of the underlying stock on the date of grant, and no option could have a term of more than ten years. The options that are currently outstanding under the 2000 Plan generally vest one to four years after the date of grant and expire ten years from the date of grant. The 2000 Plan was approved by the Board.

Director Stock Plan. The Director Stock Plan provides for the issuance of up to 375,000 shares of common stock out of our treasury as non-qualified stock options, restricted stock, restricted stock units or stock awards. No awards could be made under the Director Stock Plan after September 30, 2000, but options and other awards granted prior to that

time remain outstanding and will vest in accordance with their terms. Our non-employee directors were the only persons eligible to receive awards under the Director Stock Plan. The purpose of the Director Stock Plan is to provide incentives and awards to non-employee directors to align their interests with those of our shareholders. The Director Stock Plan is administered by the Compensation Committee. The exercise price of a stock option granted under the Director Stock Plan could not be less than the fair market value of the underlying stock on the date of grant, and no option could have a term of more than ten years. The options that are currently outstanding under the Director Stock Plan generally vest one to three years after the date of grant and expire ten years from the date of grant. The restrictions on restricted stock and restricted stock units granted under the Director Stock Plan generally lapse one year after the date of grant. The Director Stock Plan was approved by the Board.

Director Compensation Plan. The Director Compensation Plan provides for the issuance of up to 105,981 shares of common stock out of our treasury. No awards could be made under the Director Compensation Plan after September 30, 2005, but awards granted prior to that time remain outstanding and will vest in accordance with their terms. The Director Compensation Plan allowed

us to award cash, deferred cash or common stock. Our non-employee directors were the only persons eligible to receive awards under the Director Compensation Plan. The purpose of the Director Compensation Plan is to provide incentives and awards to non-employee directors to align their interests with those of our shareholders. The Director Compensation Plan is administered by the Compensation Committee and was approved by the Board.

We will not retain our independent registered public accounting firm for non-audit work unless:

- In the opinion of senior management, the independent registered public accounting firm possesses unique knowledge or technical expertise that is superior to that of other potential providers;

• The approvals of the Chair of the Audit Committee and the CFO are obtained prior to the retention; and

• The retention will not affect the status of the independent registered public accounting firm as “independent accountants” under applicable rules of the SEC, Independence Standards Board and NYSE.

During fiscal 2012 and fiscal 2011, all of the services provided by KPMG LLP for the services described above related to Audit-Related Fees, Tax Fees, and All Other Fees were pre-approved using the above procedures and none were provided pursuant to any waiver of the pre-approval requirement.

QUESTIONS AND ANSWERS ABOUT THE MEETING AND VOTING

Why did I receive a one-page Notice in the mail regarding the Availability of Proxy Materials this year instead of printed proxy materials?

In accordance with rules adopted by the Securities and Exchange Commission, instead of mailing a printed copy of our proxy materials to our shareholders, we have elected to furnish such materials to our shareholders by providing access to these documents over the Internet. Accordingly, on August 7, 2012, we sent a Notice of Availability of Proxy Materials to our shareholders of record and beneficial owners. You have the ability to access the proxy materials on a website referred to in such Notice or request to receive a printed set of the proxy materials free of charge.

Who is entitled to vote?

Record holders of our common shares at the close of business on Monday, July 23, 2012 are entitled to one vote for each common share they own. On July 23, 2012, approximately 128,229,282 shares of common stock were outstanding and eligible to vote. The shares held in our treasury are not considered outstanding and will not be voted or considered present at the meeting. There is no cumulative voting.

How do I vote?

Before the meeting, if you are a shareholder of record, you may vote your shares in one of the following three ways:

• By Internet, by going to the website shown on your proxy card or Notice of Availability of Proxy Materials and following the instructions for Internet voting set forth on such proxy card or Notice;

• If you reside in the United States or Canada, by telephone at the number shown on your proxy card and following the instructions on such proxy card; or

• If you received or requested printed copies of the proxy materials by mail, by completing, signing, dating and returning the proxy card.

Telephone and Internet voting facilities for shareholders of record will close at 11:59 p.m. EDST on September 17, 2012.

Please use only one of the three ways to vote. Please follow the directions on your proxy card or Notice of Availability of Proxy Materials carefully. The Florida Business Corporation Act provides that a shareholder may appoint a proxy by electronic transmission, so we believe that the Internet or telephone voting procedures available to shareholders are valid and consistent with the requirements of applicable law.

If you return your signed proxy card or use Internet or telephone voting before the annual meeting, we will vote your shares as you direct. You have two choices for each director nominee—FOR or WITHHOLD—and three choices for each other matter to be voted upon—FOR, AGAINST or ABSTAIN.

If you are a shareholder of record and do not specify on your returned proxy card or through the Internet or telephone prompts how you want to vote your shares, we will vote them FOR the election of each of the 13 director nominees set forth in this Proxy Statement, FOR advisory approval of our executive compensation, and FOR the ratification of KPMG LLP as our independent registered public accounting firm for the fiscal year ending May 26, 2013.

If your shares are held in a brokerage account in your bank or broker's name ("street name"), the proxy materials or Notice of Availability of Proxy Materials were forwarded to you by your bank or broker, who is considered the shareholder of record for purposes of voting at the annual meeting. If you received a proxy card, those shares held in street name were not included in the total number of shares listed as owned by you on the proxy card. As a beneficial owner, you have the right to direct your bank or broker on how to vote the shares held in your account. You should follow the voting instructions provided by your bank or broker. You may complete and mail a voting instruction card to your bank or broker or, if your bank or broker allows, submit voting instructions by telephone or the Internet.

A "broker non-vote" generally occurs when you fail to provide your broker with voting instructions at least ten days before the annual meeting and the broker does not have the discretionary authority to vote your shares on a particular proposal because the proposal is not a routine matter under the NYSE rules applicable to its member brokers. Broker

non-votes are not counted as votes cast on a proposal, but the shares represented at the meeting by an executed proxy to which such non-votes relate are counted as present for the limited purpose of determining a quorum at the annual meeting. The proposal to ratify the appointment of KPMG LLP as our independent registered public accounting firm is considered a routine matter under current applicable rules. The election of directors and the advisory vote on our executive compensation are not considered to be routine matters.

Table of Contents

Ballots will be distributed during the meeting to anyone who wants to vote in person. If you hold your shares in street name, you must request a legal proxy from your bank or broker to vote in person at the meeting.

How do you recommend that I vote on these items?

The Board recommends that you vote FOR each of the named director nominees to the Board, FOR advisory approval of our executive compensation, and FOR ratification of the appointment of KPMG LLP as our independent registered public accounting firm for fiscal 2013.

Will my shares held in street name be voted if I do not provide my proxy?

If your shares are held in the name of a brokerage firm, your shares might be voted even if you do not provide the brokerage firm with voting instructions. Under the rules of the NYSE, on certain “routine” matters, brokerage firms have the discretionary authority to vote shares for which their customers do not provide voting instructions. At this time, the proposal to ratify the appointment of KPMG LLP as our independent registered public accounting firm is considered a routine matter for this purpose, assuming that no shareholder contest arises as to this matter.

What if I change my mind after I vote?

You may change your vote or revoke your proxy at any time before the polls close at the meeting by:

✎ Signing another proxy card with a later date and returning it to us prior to the meeting;

✎ Voting again by Internet or telephone prior to the meeting as described on the proxy card; or

✎ Voting again in person at the meeting.

You also may revoke your proxy prior to the meeting without submitting a new vote by sending a written notice to our Corporate Secretary that you are withdrawing your vote.

What shares are included on my proxy card?

If you received a proxy card by mail, your proxy card includes shares held in your own name and shares held in any Darden plan, including the Darden Shareowner Service Plus PlanSM and the Employee Stock Purchase Plan. You may vote these shares by Internet, telephone or mail, all as described on the enclosed proxy card and Notice of Availability of Proxy Materials.

How do I vote if I participate in the Darden Savings Plan?

If you hold shares in the Darden Savings Plan, which includes shares held in the Darden Stock Fund in the 401(k) plan, the Employee Stock Ownership Plan and after-tax accounts, these shares have been added to your other holdings on your proxy card if you received a proxy card by mail. You may direct the trustee how to vote your Darden Savings Plan shares by submitting your proxy vote for those shares, along with the rest of your shares, by Internet, telephone or mail, as described on the proxy card or Notice of Availability of Proxy Materials. If you do not submit timely voting instructions to the trustee on how to vote your shares, your Darden Savings Plan shares will be voted by the trustee in the same proportion that it votes shares in other Darden Savings Plan accounts for which it did receive timely voting instructions.

What does it mean if I received more than one proxy card or Notice of Availability of Proxy Materials?

If you received more than one proxy card or Notice of Availability of Proxy Materials, it means you have multiple accounts with your brokers and/or our transfer agent. Please vote all of these shares. We recommend that you contact your broker or our transfer agent to consolidate as many accounts as possible under the same name and address. You may contact our transfer agent, Wells Fargo, National Association, toll free at (877) 602-7596.

Who may attend the annual meeting?

The annual meeting is open to all holders of our common shares. To attend the meeting, you will need to register upon arrival. We also may verify your name on our shareholders' list and ask you to produce valid identification. If your shares are held in street name by your broker or bank, you should bring your most recent brokerage account statement or other evidence of your share ownership. If we cannot verify that you own Darden shares, it is possible that you may not be admitted to the meeting.

May shareholders ask questions at the annual meeting?

Yes. In order to give a greater number of shareholders an opportunity to ask questions, we may impose certain procedural

55

Table of Contents

requirements such as limiting repetitive or follow-up questions or requiring questions to be submitted in writing.

How many shares must be present to hold the annual meeting?

A majority of our outstanding common shares as of the record date must be present in person or by proxy at the meeting. This is called a quorum. Your shares are counted as present at the meeting if you are present and vote in person at the meeting or if you have properly returned a proxy by Internet, telephone or mail. Abstentions and “broker non-votes” also will be counted for purposes of establishing a quorum, as explained above under the question “How do I vote?”.

How many votes are required to approve each proposal?

Proposal 1: Elect 13 directors from the named director nominees.

The 13 director nominees receiving the highest number of “FOR” votes will be elected as directors. This number is called a plurality. Failing to vote or voting your proxy to withhold authority for all or some of the director nominees will have no effect on the election of directors. Broker non-votes will also have no effect on this proposal. However, under our bylaws, if a director nominee in an uncontested election does not receive at least a majority of the votes cast for the election of directors at any meeting at which a quorum is present, the director must tender his or her resignation to the Board, as more particularly described under the heading “Director Election Governance Practices.”

Proposal 2: Provide advisory approval of our executive compensation.

If the votes cast “FOR” the proposal exceed the votes cast “AGAINST” the proposal at the meeting, shareholders will have approved our executive compensation on a non-binding basis. If you submit a properly executed proxy card or use the Internet or telephone to indicate “ABSTAIN” with respect to this proposal, your vote will not be counted as cast. Accordingly, abstentions will have no legal effect on whether this matter is approved.

Proposal 3: Ratify the appointment of KPMG LLP as our independent registered public accounting firm for fiscal 2013.

Shareholder approval for the appointment of our independent registered public accounting firm is not required, but the Board is submitting the selection of KPMG LLP for ratification in order to obtain the views of our shareholders.

Under Florida law, this proposal will be approved if the votes cast “FOR” the proposal exceed the votes cast “AGAINST” the proposal at the meeting, including those voted by proxy card, Internet and telephone. If you submit a properly executed proxy card or use the Internet or telephone to indicate “ABSTAIN” on this proposal, your vote will not be counted as cast. Accordingly, abstentions will have no effect on whether this matter is approved. Broker non-votes will also have no effect on this proposal. If the appointment of KPMG LLP is not ratified, the Audit Committee will reconsider its selection.

How will voting on “any other business” be conducted?

We have not received proper notice of, and are not aware of, any business to be transacted at the annual meeting other than the proposals described in this Proxy Statement. If any other business is properly presented at the annual meeting, the proxies received will be voted on such matter in accordance with the discretion of the proxy holders.

Where do I find the voting results of the meeting?

We will include the voting results in a Current Report on Form 8-K, which we will file within four business days after the date our 2012 Annual Meeting of Shareholders ends.

How do I submit a shareholder proposal, nominate directors or recommend director nominees, or submit other business for next year’s annual meeting?

If you wish to submit a proposal to be included in our Proxy Statement for our 2013 Annual Meeting of Shareholders, we must receive the proposal at our principal office on or before April 9, 2013. Please address your proposal to: Corporate Secretary, Darden Restaurants, Inc., 1000 Darden Center Drive, Orlando, Florida 32837.

Under our bylaws (which are subject to amendment at any time), if you wish to nominate a director or bring other business before the shareholders at our 2013 Annual Meeting, you must:

Notify our Corporate Secretary in writing on or before May 21, 2012; and

Include in your notice the specific information required by our bylaws.

Table of Contents

If you would like a copy of our bylaws, we will send you one without charge on request. A copy of our bylaws also is available at www.darden.com.

If you wish to recommend a nominee for director, you should comply with the procedures provided in our Director Nomination Protocol available at www.darden.com as Appendix A to our Nominating and Governance Committee charter and discussed under the heading “Director Candidates Recommended by Shareholders.”

OTHER BUSINESS

Our Board knows of no other matters to be brought before the annual meeting. If any other matters are properly brought before the annual meeting, the persons appointed in the accompanying proxy intend to vote the shares represented thereby in accordance with their best judgment.

SOLICITATION OF PROXIES

We pay the costs of proxy solicitation, including the costs for mailing the Notice of Availability of Proxy Materials and preparing this Proxy Statement. We have engaged Georgeson Shareholder Communications, Inc. to assist us in soliciting proxies from our shareholders for a fee of \$9,000, plus reimbursement of out-of-pocket expenses. In addition to Georgeson, our directors, officers and regular employees may, without additional compensation, solicit proxies personally or by telephone or other electronic communications. We will reimburse banks, brokers and other custodians, nominees and fiduciaries for their costs of sending the proxy materials to our beneficial owners.

HOUSEHOLDING OF ANNUAL SHAREHOLDERS’ MEETING MATERIAL

SEC rules allow us to deliver a single copy of proxy statements, annual reports, prospectuses and information statements or Notice of Availability of Proxy Materials to any address shared by two or more of our shareholders. This method of delivery is called “householding” and can significantly reduce our printing and mailing costs and reduce the volume of mail you receive. Accordingly, we are delivering only one Notice of Availability of Proxy Materials or (if paper copies are requested) one Proxy Statement and 2012 Annual Report to multiple shareholders sharing an address, unless we received instructions to the contrary from one of more of the shareholders.

If you would like to receive more than one copy of the Notice of Availability of Proxy Materials or Proxy Statement and our 2012 Annual Report, we will promptly send you additional copies upon written or oral request directed to Broadridge Financial Services at toll free (800) 579-1639, or at www.proxyvote.com. The same phone number and address may be used to notify us that you prefer to receive your own copy of proxy and other materials in the future or to request future delivery of a single copy of proxy or other materials.

If your shares are held in street name, you may request information about householding from your bank or broker.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers and persons who own more than 10 percent of our common shares to file with the SEC and NYSE reports of ownership and changes in ownership of our common shares. Directors, executive officers and greater than 10 percent shareholders are required by SEC regulation to furnish us with copies of all Section 16(a) reports they file. To our knowledge, based solely on a review of the copies of these reports furnished to us since the beginning of fiscal 2012 and written representations that no other reports were required, all Section 16(a) filing requirements applicable to our directors and executive officers were

timely satisfied during fiscal 2012, except that William M. Lewis, Jr. filed a Form 4 three days late on October 7, 2011 to report the purchase of shares of common stock on September 30, 2011.
