CLOVER LEAF FINANCIAL CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note A--Principles of Accounting

The consolidated financial statements of Clover Leaf Financial Corp. ("Clover Leaf Financial") or ("the Company") have been prepared in accordance

## Edgar Filing: CLOVER LEAF FINANCIAL CORP - Form 10QSB

with accounting principles generally accepted in the United States of America and in the banking industry and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for annual reporting. Reference is hereby made to the notes to consolidated financial statements contained in Clover Leaf Financial's annual report on Form 10-KSB. The foregoing consolidated financial statements are unaudited. However, in the opinion of management, all adjustments necessary for a fair presentation of the consolidated financial statements have been made. All such adjustments are of a normal recurring nature. The results of operations for the interim periods presented herein are not necessarily indicative of the results to be expected for the full year.

The consolidated financial statements include the accounts of the Company's subsidiary. Clover Leaf Financial is a bank holding company that engages in its business through its sole subsidiary, Clover Leaf Bank (the "Bank"), an Illinois chartered savings bank. All material intercompany transactions and balances are eliminated. Clover Leaf Financial was organized at the direction of the Board of Directors of the Bank for the purpose of owning all of the outstanding capital stock of the Bank following the completion of the Bank's mutual to stock conversion. Clover Leaf Financial offered for sale 661,250 shares of its outstanding common stock in a public offering to eligible depositors and members of the general public and this offering was completed on December 27, 2001. Prior to that date, Clover Leaf Financial had no assets or liabilities. Accordingly, the accompanying unaudited consolidated financial statements for the three months ended March 31, 2001 represent only the accounts of the Bank and its wholly owned subsidiary, Clover Leaf Financial Services, Inc.

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated balance sheet and revenues and expenses for the period. Actual results could differ significantly from those estimates.

### Note B--Business Segments

Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information," requires business segments to be reported based on the way management organizes segments within an organization for making operating decisions and assessing performance. Management has not included disclosures regarding segments since management makes operating decisions and assesses performance based on Clover Leaf Financial as a whole.

7

### Note C--Net Income Per Share

Basic earnings per share are determined by dividing net income by the weighted average number of common shares. Shares acquired by the ESOP are held in trust but were not considered in the weighted average shares outstanding until the shares are committed for allocation or vested to an employee's individual account.

The Company has not issued any stock options or other potentially dilutive shares, therefore, diluted earnings are the same as basic earnings per share.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion describes Clover Leaf Financial's results of operations during the three-month periods ended March 31, 2002 and 2001, and its financial condition, asset quality, and capital resources as of March 31, 2002. This discussion should be read in conjunction with Clover Leaf Financial's unaudited consolidated financial statements and notes thereto. The results of operations for the interim periods presented herein are not necessarily indicative of the results to be expected for the full year.

FORWARD-LOOKING STATEMENTS

This filing and future filings made by Clover Leaf Financial with the Securities and Exchange Commission, as well as other filings, reports and press releases made or issued by Clover Leaf Financial, and oral statements made by executive officers or directors of Clover Leaf Financial may include forward-looking statements, which are based on assumptions and describe future plans, strategies, projections and expectations of Clover Leaf Financial. These forward-looking statements are generally identified by use of terms "believe", "expect", "anticipate", "should", "planned", "estimated" and "potential". Examples of forward-looking statements include, but are not limited to, estimates with respect to Clover Leaf Financial's financial condition, results of operations and business that are subject to various factors which could cause actual results to differ materially from these estimates and most other statements that are not historical in nature. These factors include, but are not

## Edgar Filing: CLOVER LEAF FINANCIAL CORP - Form 10QSB

limited to, general and local economic conditions, changes in interest rates, deposit flows, demand for mortgage and other loans, real estate values, and competition; changes in accounting principles, policies, or guidelines; changes in legislation or regulation; and other economic, competitive, governmental, regulatory, and technological factors affecting Clover Leaf Financial's operations, pricing, products and services.

### OVERVIEW

Net income for the first quarter of 2002 was \$115,000 or \$.18 per diluted common share compared to net income of \$41,000 for the first quarter of 2001. Prior to the formation and incorporation of Clover Leaf Financial in December 2001, the existing entity consisted of Clover Leaf Bank, a state-chartered mutual savings association. Return on average assets for the first quarter of 2002 was .53% compared to .20% for the first quarter of 2001. Return on average equity for the first quarter of 2002 was 3.74% compared to 2.69% for the first quarter of 2001.

The increase in net income, for the quarters compared, resulted from increases in net interest income and noninterest income, partially offset by increases in the provision for loan losses and noninterest expense.

Total assets at March 31, 2002 decreased to \$89,312,000 from \$96,101,000 at December 31, 2001. Interest bearing due from bank balances decreased \$6,347,000 during the first quarter of 2002 and net loans outstanding decreased \$1,102,000 for the same period. Investment securities increased \$1,746,000 from \$17,371,000 at December 31, 2001 to \$19,117,000 at March 31, 2002. Loans decreased due to sales of a portion of the 1-4 family residential portfolio, the proceeds were invested in investment securities. Total deposits decreased \$5,959,000 during the first quarter of 2002 to \$74,974,000 from \$80,933,000 at year-end 2001. The overall decrease in deposits and interest bearing deposits with banks was attributable to subscription funds of \$6,411,000 held by the Bank as part of the stock offering that were subsequently returned to subscribers.

### RESULTS OF OPERATIONS

Table 1 summarizes Clover Leaf Financial's statement of income and the change in each category for the periods presented.

NM-Not Meaningful

Net Interest Income

Tax-equivalent net interest income increased \$199,000 or 41.6% for the first quarter of 2002 compared to the first quarter of 2001. The increase was attributable to a decrease in interest expense partially offset by a decrease in tax-equivalent interest income.

Total tax-equivalent interest income decreased \$148,000 or 9.9% for the first quarter of 2002 compared to the first quarter of 2001. This decrease was primarily the result of reduced yields on interest earning assets and lower volume of interest-bearing, due-from-bank balances during the first quarter of 2002. Due to a decline in market interest rates, the yield on average interest earning assets decreased from 7.29% for the three months ended March 31, 2001 to 6.38% for the three months ended March 31, 2002.

Total interest expense decreased \$347,000 or 34.0% for the first quarter of 2002 compared to the first quarter of 2001. The decrease in interest expense was primarily attributable to reduced interest rates on interest bearing deposit accounts, particularly certificates of deposit. While the average rate on time deposits decreased from 6.10% to 4.79% the average rate on other deposit accounts decreased from 3.99% to 2.23% for the comparable periods.

The net interest margin was 3.09% for the first quarter of 2002 compared to 2.26% for the first quarter of 2001. During the first quarter of 2002 compared to the first quarter of 2001, the Company's yield on earning assets declined. During the same period, a reduction in the cost of funds rates more than offset the effect of the lower yield on earning assets. Other significant factors in the improved net interest margin for the first quarter of 2002 compared to the first quarter of 2001 were a shift in the volume of deposits from higher costing time deposits to other interest bearing deposits and a higher level of capital, which allowed for an increase in the average

## Edgar Filing: CLOVER LEAF FINANCIAL CORP - Form 10QSB

balance of interest earning assets.

10

### Provision For Loan Losses

The Company recorded a provision for loan losses of \$21,000 during the first quarter of 2002 compared to \$4,000 recorded during the first quarter of 2001. The Company increased the provision for loan losses because of an increase in the Company's portfolio of both commercial business and commercial real estate loans, which entail greater risk than one- to four-family residential mortgage loans. The provision for loan losses is established with the intent to bring the allowance for loan losses to a level which management believes is appropriate to absorb the best estimate of probable loan losses in the loan portfolio incurred as of the balance sheet date. Activity in the allowance for loan losses and nonperforming loan data is presented under "ASSET QUALITY."

### Noninterest Income

Total noninterest income increased from \$44,000 in the first quarter of 2001 to \$60,000 in the first quarter of 2002. The most significant factor in this increase related to gains on the sale of loans which increased \$18,000 for the quarters compared. Service charges on deposit accounts and other service charges and fees remained relatively unchanged for the periods compared. Net gains on the sale of investment securities amounted to \$4,000 for the first quarter of 2002 and \$6,000 for the first quarter of 2001.

### Noninterest Expense

Total noninterest expense was \$545,000 for the first quarter of 2002 compared to \$454,000 for the first quarter of 2001. A portion of the increase in noninterest expense was attributable to an increase in employee compensation and benefits, the largest single component of noninterest expense. Employee compensation and other benefit expenses increased \$25,000 for the first quarter of 2002 compared to the first quarter of 2001. The increase in this category of expense for the quarters compared was primarily due to normal merit increases and staff additions. Net occupancy and equipment expenses decreased \$4,000 to \$66,000 for the first quarter of 2002 compared to the first quarter of 2001. Expenses related to data processing increased \$3,000 to \$57,000 for the first quarter of 2002 compared to the first quarter of 2001. Other noninterest expenses increased \$67,000 for the first quarter of 2002 compared to the first quarter of 2001. Included in this category are expenses related to advertising, audit and accounting fees, FDIC insurance premiums, legal and professional fees, loan collection costs, and other operating expenses of the Company. Audit, accounting, and professional fees for the first quarter of 2002 compared to the first quarter of 2001 increased \$13,000 primarily as a result of the filing and accounting regulations related to being a stock owned company as compared to a mutual held bank. Advertising expense increased \$14,000 during the first quarter of 2002 compared to the first quarter of 2001 as the Company engaged an advertising firm to conduct an ongoing advertising campaign. Loan expense increased \$7,000 during the first quarter of 2002 compared to the first quarter of 2001 due to the shift in the portfolio to more commercial loans, which have higher loan origination expenses that were not all reimbursed by the customer, rather than consumer and mortgage loans.

### Income Tax Expense

Clover Leaf Financial recorded income tax expense of \$50,000 for the first quarter of 2002 compared to income tax expense of \$18,000 for the first

## Edgar Filing: CLOVER LEAF FINANCIAL CORP - Form 10QSB

quarter of 2001 as a result of the higher level of taxable income in the first quarter of 2002. Clover Leaf Financial's effective income tax rate remained relatively stable at 30.3% for the first quarter of 2002 compared to 30.5% for the first quarter of 2001.

11

### FINANCIAL CONDITION

#### General

Certain components of Clover Leaf Financial's consolidated balance sheet at March 31, 2002 compared to December 31, 2001 are presented in summary form in Table 2. Total assets decreased \$6,789,000 to \$89,312,000 at March 31, 2002 compared to \$96,101,000 at December 31, 2001. This decrease resulted from a decrease of \$1,092,000 in gross loans outstanding and a reduction in interest bearing due from bank balances in the amount of \$6,347,000, partially offset by an increase in investment securities of \$1,746,000. Total deposits decreased \$5,959,000 from December 31, 2001 to March 31, 2002.

TABLE 2 - Selected Comparative Balance Sheet Items

#### Loans

Loans decreased 1.7%, or \$1,092,000, from December 31, 2001 to March 31, 2002. Commercial loans decreased \$1,707,000 during the first quarter of 2002. Commercial real estate loans increased \$1,675,000 during the first quarter of 2002. Total consumer loans decreased \$849,000, comprised of an increase in consumer real estate loans amounting to \$1,292,000 and a decrease in other consumer loan categories amounting to \$2,141,000.

Table 3 presents the composition of the loan portfolio by type of borrower and major loan category and the percentage of each to the total portfolio for the periods presented.

	=====	=====	=====	=====

Investments

Total investments increased to \$19,117,000 at March 31, 2002 compared to \$17,371,000 at year-end 2001 as discussed in "Management's discussion and analysis of financial condition and results of operations-overview".

Investments in securities are made based on certain considerations, which include the interest rate, tax considerations, yield, settlement date and maturity date of the securities, Clover Leaf Financial's liquidity position, and anticipated cash needs and sources. The effect that the proposed securities would have on Clover Leaf Financial's credit and interest rate risk and risk-based capital is also considered. Clover Leaf Financial purchases securities to provide necessary liquidity for day-to-day operations, and when investable funds exceed loan demand.

Available-for-sale investment securities are recorded at fair value. Net unrealized gains on available-for-sale investment securities totaled \$239,000 and \$269,000 at March 31, 2002, and December 31, 2001, respectively.

Table 4 presents the composition of investment securities at their carrying values for the periods presented.

### Deposits

Clover Leaf Financial's deposit base is its primary source of liquidity and consists of deposits originating within the communities served by its banking locations. Deposits are Clover Leaf Financial's primary and most reliable funding source for interest earning assets.

Total deposits decreased \$5,959,000, or 7.4% to \$74,974,000 at March 31, 2002 from \$80,933,000 at December 31, 2001. The overall decrease in deposits was attributable to subscription funds of \$6,411,000 held by the Bank as part of the stock offering that were subsequently returned to the subscribers. Those funds were on deposit at the Bank at December 31, 2001, but were returned to subscribers prior to March 31, 2002. Time deposits decreased \$3,151,000 from year-end 2001. Savings and money market deposits increased \$3,211,000 from year-end 2001.

Balances in the noninterest bearing demand and interest bearing demand deposits decreased \$5,679,000 and \$340,000, respectively, from year-end 2001. The decrease in noninterest bearing demand deposits was primarily attributable to the subscription funds held by the Bank at December 31, 2001, as discussed above.

13

Table 5 sets forth the composition of deposits and the percentage of each category to total deposits for the periods presented.

### Borrowings

Clover Leaf Bank may obtain advances from the Federal Home Loan Bank of Chicago upon the security of the common stock it owns in that bank and certain of its residential mortgage loans and mortgage-backed securities, provided

## Edgar Filing: CLOVER LEAF FINANCIAL CORP - Form 10QSB

certain standards related to creditworthiness have been met. These advances are made pursuant to several credit programs, each of which has its own interest rate and range of maturities. Federal Home Loan Bank advances are generally available to meet seasonal and other deposit withdrawals and to permit increased lending.

At March 31, 2002 and December 31, 2001, Clover Leaf Bank had \$1,500,000 outstanding in Federal Home Loan Bank advances. This borrowing consisted of two advances, one in the amount of \$1,000,000 due February 2004 at a rate of 5.49% and one in the amount of \$500,000 due February 2009 at a rate of 5.96%.

Repurchase agreements in the amount of \$5,000 and \$354,000 were outstanding as of March 31, 2002 and December 31, 2001, respectively.

### ASSET QUALITY

Clover Leaf Financial's asset quality management program, particularly with regard to loans, is designed to analyze potential risk elements and to support the growth of a high quality loan portfolio. Clover Leaf Financial's policies, consistent with regulatory guidelines, require that loans and other assets are classified as substandard, doubtful or loss if they are determined to be of lesser quality. Assets which possess some weaknesses, but do not warrant classification in the aforementioned categories are required to be designated as special mention. Management regularly reviews the asset portfolio to determine whether any assets require classification in accordance with applicable regulatory guidelines and accounting principles generally accepted in the United States of America.

At March 31, 2002, nonperforming assets totaled \$1,600,000 or 1.79% of total assets, compared to nonperforming assets at December 31, 2001 of \$1,554,000 or 1.62% of total assets. Nonperforming assets at March 31, 2002 included \$32,000 relating to foreclosed assets. There were no foreclosed assets in the nonperforming assets at December 31, 2001. Management does not anticipate any significant losses upon disposition of the foreclosed assets held at March 31, 2002.

14

Table 6 sets forth a summary of Clover Leaf Financial's loan portfolio mix and nonperforming assets.

TABLE 6 - Loan Portfolio Mix and Nonperforming Assets  
(Dollars in Thousands)

	March 31, 2002		
	Loans and Foreclosed Property	Non-performing Assets	Lo For Pr
Commercial borrowers:			
Commercial, financial and agricultural.....	\$6,025	\$465	
Commercial real estate.....	15,646	-	
Real estate construction.....	982	515

Total commercial.....	22,653	980
Consumer borrowers:		
1-4 family residential		
real estate.....	35,065	316
Other consumer loans.....	4,271	272
Total consumer.....	39,336	588
Total loans.....	61,989	1,568
Foreclosed assets.....	32	32
Total.....	\$62,021	\$1,600
Nonaccrual loans.....		\$1,515
Accruing loans past due		
90 days or more.....		53
Troubled debt restructurings.....		-
Total nonperforming loans.....		1,568
Foreclosed assets.....		32
Total nonperforming assets.....		\$1,600
Nonperforming loans to total loans.....		2.35%
Nonperforming assets to total loans		
and foreclosed assets.....		2.58%
Nonperforming assets to total assets.....		1.79%

Net charge-offs for the first quarter of 2002 totaled \$11,000 compared to \$7,000 for the first quarter of 2001. Net charge-offs, as a percent of average total loans was .02% during the first quarter of 2002 compared to .01% for the first quarter of 2001.

Clover Leaf Financial's allowance for loan losses at March 31, 2002, increased to \$656,000 from \$646,000 at December 31, 2001. At March 31, 2002, the allowance for loan losses represented 41.00% of nonperforming loans compared to 41.57% and 126.42% at December 31, 2001 and March 31, 2001, respectively. The ratio of the allowance for loan losses to total loans was 1.06% at March 31, 2002 compared to 1.02% and 1.05% at December 31, 2001 and March 31, 2001, respectively. Management believes that the allowance for loan losses at March 31, 2002 was adequate to absorb potential losses inherent in the loan portfolio. However, past loan loss experience as it relates to current portfolio mix, evaluation of potential losses in the portfolio, subsequent changes in economic conditions and other factors may require changes in the levels of the allowance for loan losses.

Table 7 presents information pertaining to the activity in and an analysis of Clover Leaf Financial's allowance for loan losses for the periods presented.

CAPITAL RESOURCES

Capital Resources

Total stockholders' equity decreased \$56,000 from \$12,510,000 at December 31, 2001 to \$12,454,000 at March 31, 2002. This decrease in stockholders' equity during the first quarter of 2002 was primarily due to the additional purchase of shares by the Employee Stock Ownership Plan. Also contributing to the decline were payments made during the first quarter of 2002 relative to the stock offering completed in December 2001, and a decrease in the net unrealized gains within the available for sale securities portfolio from the level at December 31, 2001. Net income of \$115,000 for the quarter partially offset these items which reduced stockholders' equity during the first quarter of 2002..

Financial institutions are required to maintain ratios of capital to assets in accordance with guidelines promulgated by the federal banking regulators. The guidelines are commonly known as "Risk-Based Guidelines" as they define the capital level requirements of a financial institution based upon the level of credit risk associated with holding various categories of assets. The Risk-Based Guidelines require minimum ratios of Tier 1 and Total Capital to risk-weighted assets of 4% and 8%, respectively. At March 31, 2002, Clover Leaf Bank's Tier 1 and Total capital ratios were 17.48% and 18.65%, respectively. In addition to the Risk-Based Guidelines, the federal banking agencies have established a minimum leverage ratio guideline for financial institutions (the "Leverage Ratio Guideline"). The Leverage Ratio Guideline provides for a minimum ratio of Tier 1 capital to average assets of 4%. Clover Leaf Bank's leverage ratio at March 31, 2002, was 11.17%. Accordingly, Clover Leaf Bank has satisfied

## Edgar Filing: CLOVER LEAF FINANCIAL CORP - Form 10QSB

these regulatory guidelines.
