NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited Consolidated Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. Dollar amounts in tables are in thousands, except per share amounts. Certain balances for 2005 have been reclassified to conform to the 2006 presentation. Hereafter in this document, American Realty Investors, Inc. is referred to as ARI.

Operating results for the three month period ended March 31, 2006, are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. For further information on the basis of consolidation and accounting policies, refer to the Consolidated Financial Statements and Notes thereto included in ARI's Annual Report on Form 10-K for the year ended December 31, 2005 (the "2005 Form 10-K").

At December 31, 2005 and March 31, 2006, ARI subsidiaries owned 82.2% of the outstanding shares of Transcontinental Realty Investors, Inc. ("TCI"). At March 31, 2006, ARI and TCI have the same advisor (Prime Income Asset Management, LLC or "Prime") and Board of Directors.

At December 31, 2005 and March 31, 2006, ARI subsidiaries owned 20.4% of Income Opportunity Realty Investors, Inc. ("IORI") through TCI's ownership of 24.9% of IORI shares. Two directors of ARI also serve as directors of IORI.

Stock-based employee compensation. Effective January 1, 2006 (the "Effective Date"), the Company adopted SFAS No. 123-R using the modified prospective method. SFAS No. 123-R must be applied not only to newly awarded stock-options but also to previously awarded stock-options that were not fully vested on the Effective Date. All of ARI's stock-option grants were fully vested as of the Effective Date. Furthermore, ARI had no outstanding stock-option grants that were modified or settled after the Effective Date; therefore, subsequent to the Effective Date, ARI will recognize no additional compensation costs for previously awarded stock-option grants. In December 2005, the Company's Board of Directors terminated all stock-option plans and has no intent at the present to reinstate any stock-option programs.

In February 2005, ARI sold a 13.6 acre tract of its Katrina land parcel for \$3.7 million, receiving \$591,000 after payment of closing costs and providing purchase money financing of \$2.8 million. The loan bore interest at 8.0%, required quarterly payments of interest, and matured in February 2008. In March 2005, ARI sold the loan for \$2.8 million, receiving \$2.8 million in cash after payment of closing costs.

In February 2005, ARI sold a 6.5 acre tract of its Katrina land parcel for \$1.7 million, receiving \$340,000 after payment of closing costs and providing purchase money financing of \$1.3 million. The loan bore interest at 8.0%, required quarterly payments of interest, and matured in February 2007. In March 2005, ARI sold the loan for \$1.3 million, receiving \$1.3 million in cash after payment of closing costs.

In February 2005, ARI sold a 7.4 acre tract of its Katrina land parcel for \$2.0 million, receiving \$455,000 after payment of closing costs and providing purchase money financing of \$1.5 million. The loan bore interest at 8.0%, required quarterly payments of interest, and matured in February 2007. In March 2005, ARI sold the loan for \$1.5 million, receiving \$1.5 million in cash after payment of closing costs.

In February 2005, ARI sold an 81.2 acre tract of its Katrina land parcel for \$19.9 million, paying \$814,000 after payment of debt and closing costs and providing purchase money financing of \$14.9 million. The loan bore interest at 8.0%, required quarterly payments of interest, and matured in February 2007. In March 2005, ARI sold the loan for \$14.9 million, receiving \$14.9 million in cash after payment of closing costs.

In March 2005, ARI sold a 24.8 acre tract of its Katrina land parcel for \$6.4 million, receiving \$1.0 million after payment of closing costs and providing purchase money financing of \$4.8 million. The loan bore interest at 8.0%, required quarterly payments of interest, and matured in March 2007. In March 2005, ARI sold the loan for \$4.8 million, receiving \$4.8 million in cash after payment of closing costs.

In March 2004, ARI sold an 8.0 acre tract of its Mason Goodrich land parcel for \$1.0 million, receiving \$251,000 after payment of closing costs and providing purchase money financing of \$523,000. The secured loan bears interest at 10.0% per annum, requires monthly payments of accrued interest and matured in March 2006. All principal and accrued but unpaid interest is due at maturity. Through March 2006, \$117,000 in principal has been collected. In March 2006, the purchaser extended the note to March 2007 by paying a 1% extension fee and making a 10% principal reduction.

In October 2004, ARI sold the In The Pines apartments to a third party and provided \$1.0 million of the purchase price as seller financing in the form of two notes. The first note bore interest at 7.0% per annum, required monthly interest only payments, and matured in January 2005. The Purchaser extended this note to March 2005 by paying 1.0% of the outstanding principal balance as an extension fee and then extended the note an additional 30 days to April 2005 by paying an extension fee of 0.5% of the outstanding principal balance. In the event of a default, the note is also secured by membership rights in the purchaser's entity. The second note was unsecured, bore interest at 8.5% per annum, required monthly interest only payments, and matured in January 2005. The Purchaser extended this note to March 2005 by paying 1.0% of the outstanding principal balance as an extension fee and then extended the note an additional 30 days to April 2005 by paying an extension fee of 0.5% of the outstanding principal balance. Both loans were extended to October 2005 with the payment to ARI of a 2.0% extension fee. Both loans were paid in full, including unpaid interest, in October 2005.

In March 2005, ARI entered into an agreement to advance a third party \$3.2 million for development costs relating to single-family residential lots in Austin, Texas. These advances are secured by membership interests in the borrower and a second lien on 1,092 acres of undeveloped land. The secured note bears interest at 10%, requires semi-annual interest payments, and matures in March 2008. In September 2005 the total amount authorized under this advance was increased to \$5.0 million. As of March 31, 2006, ARI had advanced \$3.2 million to the borrower. ARI also guaranteed, with full recourse to ARI, an \$18 million bank loan for the borrower which is secured by a first lien on the 1,092 acres of undeveloped land. In June 2005, ARI purchased the subsidiary of a related party for \$4.1 million that holds two notes receivable from this third party totaling \$3.0 and \$1.0 million, respectively. These notes are secured by approximately 142 acres of undeveloped land and membership interests in the borrowers. The secured notes bear interest at 12.0%, have an interest reserve for payments that is added to the principal balance on a monthly basis, and matured in June 2005. Both loans were extended to September 2005 and upon maturity, both loan balances were paid under the advance referred to at the beginning of this paragraph. In March 2006, ARI acquired all of the interests in the borrower, including ownership of the Austin, Texas land. The land is secured by the \$18 million first mortgage and a \$3 million subordinated loan. In March 2006, ARI secured a development loan of \$31.277 million (secured by the Austin, Texas land), of which \$18 million was used to pay the existing first mortgage. The development loan matures in March 2008 and bears interest at Prime + 1%. The Company intends to develop the land for sale to single-family residential builders.

In December 2005, ARI sold 27.192 acres and 3.73 acres to a third party for \$10.1 million and \$1.4 million, and provided \$7.6 million and \$1.0 million of seller financing, respectively. Both notes bear interest at 8.0% per annum, require monthly interest only payments, and mature in December 2008. In January 2006, ARI sold both notes to a financial institution for full face value less closing costs, plus accrued interest. The financial institution has a Put Option that would require ARI to purchase both notes back under the following conditions: (1) failure to construct agreed upon roads on the property by December 2006; (2) there occurs any event of default by the buyer; (3) certain escrow deposits for the road completion are not sufficient to cover the cost of the road construction; (4) any amendment, modification or assignment of certain development and escrow agreements between ARI and the buyer; and (5) failure of ARI to deliver certain documents to the financial institution within a timely manner. ARI and other related parties have also guaranteed the full payment of the note balances, including any outstanding interest and costs incurred by the financial institution.

In December 2004, ARI sold the Centura Tower office building to a partnership and retained a 1% non-controlling general partner interest and a 4% limited partner interest. ARI has certain obligations to fund the partnership for rent abatements, tenant improvements, leasing commissions and other cash shortfalls. Through March 31, 2006, ARI has funded \$1.7 million of these obligations, and has recorded a note receivable from the partnership. This note has no maturity date, requires no payments, and bears interest at a fixed rate of 7.0% per annum. The note will be paid out of excess cash flow or from sales proceeds, but only after certain partner preferred returns are paid.

In March 2002, ARI sold the 174,513 Sq. Ft. Hartford Office Building in Dallas, Texas, for \$4.0 million, providing \$4.0 million in seller financing as well as an additional \$1.4 million line of credit for leasehold improvements all in the form of a first lien mortgage note. The note bears interest at a variable interest rate, currently 7.5% per annum, requires monthly interest only payments and matures in March 2007. As of March 2006, ARI has funded \$896,000 of the \$1.4 million line of credit. ARI determined during the third quarter of 2005 that it would classify this note as non-performing due to the lack of debt payments received and the probability that no debt payments would be received in the future. Effective for the quarter ended September 30, 2005, ARI no longer accrues interest on this note. The loan is not considered impaired due to management's opinion that the fair value of the collateral is sufficient to cover the current loan balance and accrued interest at March 2006.

In July 2002, ARI entered into an agreement to fund up to \$300,000 under a revolving line of credit secured by 100% interest in a partnership of the borrower. The line of credit bears interest at 12.0% per annum, requires monthly interest only payments, and matured in June 2005. This loan was extended to June 2006 in the second quarter of 2005 and was subsequently modified in the fourth quarter of 2005. This second modification extends the loan maturity to October 2007 and limits any advances under the line of credit to \$25,000 per month. As of March 2006, the borrower had \$211,000 of available credit under the credit limit.

In September 1999, in conjunction with the sale of two apartments in Austin, Texas, \$2.1 million in purchase money financing was provided, secured by limited partnership interests in two limited partnerships owned by the buyer. In March 2000, the borrower made a \$1.1 million payment. The borrower executed a replacement promissory note for the remaining note balance of \$1.0 million, which was unsecured, non-interest bearing and matured in April 2003. In 2004, ARI initiated legal action to collect the note. In August 2005, a settlement agreement was reached. The note was replaced with a new promissory note, also non-interest bearing, which is secured by a \$1.5 million Agreed Judgment. The note calls for 36 monthly payments beginning in January 2006, with a balloon payment of \$460,000 due in January 2009. ARI will continue to classify this note as non-performing even though payments have been received in 2006.

In February 2003, ARI sold an 89.3 acre tract of its Katrina land parcel for \$8.5 million, paying \$410,000 after payment of closing costs and debt pay down and providing purchase money financing of \$5.6 million. The note bears interest at 8.0% per annum and matures three years after the recording of the Deed of Trust. Interest was to begin accruing after improvements to the site were completed by ARI. The costs to ARI to complete the improvements, estimated to be \$2.5 million, were accrued in 2002. By 2005 a portion of the improvements had been completed and the remaining accrual at March 31, 2006 is \$1.2 million. At March 2006, negotiations with the buyer to settle the obligations were underway. The remaining improvements were not expected to be completed before the settlement. In April 2006 a proposal was made to a bank to sell the note at a discount, but still in excess of the note receivable balance less accrued development costs. The proposed bank note will be guaranteed by ARI and other related parties. The note is classified as non-performing at March 31, 2006.

In December 2002, ARI sold a 238.0 acre tract of its Desert Wells land parcel for \$23.8 million, receiving \$321,000 after payment of closing costs and debt paydown and providing purchase money financing of \$21.4 million. The first lien financing of \$17.8 million bore interest at 8.0% per annum, matured in December 2004, and required payments beginning in March 2003. In March 2003, the note was sold to an unrelated party for \$17.1 million plus accrued and unpaid interest. The buyer of the note has limited recourse against a 53 acre parcel of ARI's Katrina land, in event of default by the borrower. ARI recognized a previously deferred gain of \$15.0 million upon completion of the sale of the note. The second lien financing of \$3.6 million bore interest at 8.0% per annum and matured on March 31, 2003. All principal and interest were due at maturity. In February 2005, the note was exchanged for 23.0 acres of land in Palm Desert, California. See NOTE 2. "REAL ESTATE."

Related Parties. In March 2004, ARI sold a K-Mart in Cary, North Carolina to Basic Capital Management ("BCM") for \$3.2 million, including the assumption of debt. ARI also provided \$1.5 million of the purchase price as seller financing. The unsecured note bears interest at 2.0% over the prime rate, currently 9.0% and matures in April 2008.

In March 2004, ARI sold the Texstar Warehouse in Arlington, Texas to BCM for \$2.4 million, including the assumption of debt. ARI also provided \$1.3 million of the purchase price as seller financing. The unsecured note bears interest at 2.0% over the prime rate, currently 9.0% and matures in April 2008.

NOTE 4. INVESTMENTS IN UNCONSOLIDATED REAL ESTATE ENTITIES

ARI's investment in real estate entities at March 31, 2006, was as follows:

NOTES TO FINANCIAL STATEMENTS - CONTINUED

Set forth below are summarized results of operations of IORI and Garden Centura for the three months ended March 31, 2006:

	2006
Revenues	\$ 5,775
Equity in loss of partnership	—
Property operating expenses	(2,205)
Depreciation	(873)
Interest	(1,506)
Income before gain on sale of real estate	1,191
Gain on sale of real estate	—
Net income	1,191

ARI's share of equity investees' income before gains on the sale of discontinued operations was \$175,000 for the three months ended March 31, 2006. ARI did not recognize any gain on equity investees' sale of real estate for the three months ended March 31, 2006.

ARI's cash flow from IORI is dependent on IORI making distributions. In the fourth quarter of 2000, IORI suspended distributions.

NOTE 5. MARKETABLE EQUITY SECURITIES

ARI owns equity securities of Realty Korea CR-REIT Co., Ltd. No. 1 representing approximately a 9.2% ownership interest. This investment is considered an available-for-sale security. ARI recognized an unrealized gain of \$490,000 for the three month period ending March 31, 2006 due to an increase in market price.

NOTE 6. NOTES PAYABLE

In March 2006, ARI, through one of its subsidiary companies, borrowed \$11.75 million secured by approximately 235 acres of land in Austin, Texas. The loan is guaranteed by ARI, Prime and certain other affiliated companies. The loan bears interest at an annual rate of 12.5 percent and matured in April 2006. The loan is currently being extended.

In July 2005, ARI secured a line of credit for \$10.0 million for the acquisition and financing of land tracts. The line of credit bears interest at the prime rate plus 1.0%, which is currently 8.0%, requires interest only payments, and matures in three years. Each land tract funding has a \$2.0 million limit on the loan amount, requires interest only payments at the line of credit's variable rate, and has a maturity date of 18 months. The current amount available for use under the line of credit is \$2.5 million.

In February 2005, ARI received a loan in the amount of \$5.0 million. The note bears interest at 8.0% per annum, requires semi-annual interest payments, and matures in July 2006. The loan is collateralized by certain partnership interests that hold apartments owned by ARI. Anytime before maturity, the lender has the option to convert the outstanding loan balance into general and limited partnership units in each of the partnerships, subject to HUD approval.

In 2006, ARI financed/refinanced or obtained second mortgage financing on the following:

Property	Location	Sq. Ft./Rooms/ Units/Acres	Debt Incurred	Debt Discharged	Net Cash Received	Interest Rate	Maturity Date
First Quarter

NOTE 7. STOCK-SECURED NOTES PAYABLE

ARI has margin arrangements with various financial institutions and brokerage firms, which provide for borrowings of up to 50.0% of the market value of marketable equity securities. ARI also has other notes payable secured by stock. The borrowings under such margin arrangements and notes are secured by the equity securities of IORI and TCI, and ARI's trading portfolio securities and bear interest rates ranging from 9.5% to 24.0% per annum. Stock-secured notes payable and margin borrowings totaled \$22.5 million at March 31, 2006 and \$22.5 million at December 31, 2005.

Sunset Management LLC. At March 31, 2006 and December 31, 2005, ARI's stock-secured notes payable include \$5.0 million payable to Sunset Management LLC. On May 16, 2005, the United States District Court for the Northern District of Texas, Dallas Division, entered its Memorandum Opinion and Order and Judgment dismissing a purported stockholders' derivative action filed October 5, 2004, by Sunset Management LLC against a number of entities, including the Company, as Case No. 3:04-CV-02162-B styled Sunset Management LLC, derivatively on behalf of Transcontinental Realty Investors, Inc. v. American Realty Investors, Inc., et al. The Court's Judgment granted a Motion to Dismiss filed by the Defendants, including the Company, and ordered that Plaintiff Sunset Management LLC take nothing by its suit. No appeal was timely filed, and the dismissal of the action is now final. The Sunset Complaint in this case contained many of the same allegations raised by Sunset Management LLC in four other cases which, as rulings have occurred, have resulted in a denial of Sunset Management LLC's requested relief. The dismissed action was the fifth in a continuing series of actions involving Sunset Management LLC, certain subsidiaries of the Company and TCI resulting from a loan in September 2001 to BCM and three subsidiaries of the Company in the original amount of \$30 million (\$19.5 million of which bore interest at 24% per annum, while the remaining \$10.5 million of which bore interest at 20%). In September 2002, \$15 million in principal was repaid leaving a \$15 million aggregate balance, which Sunset Management LLC orally agreed to extend the maturity date and accept substitute collateral, an arrangement which Sunset Management LLC did not honor, resulting in the original litigation filed in Texas State Court during October 2002 as Cause No. 02-09433-I in the 162nd Judicial District Court of Dallas County, Texas, originally styled American Realty Trust, Inc., ART Williamsburg, Inc., Basic Capital Management, Inc. and EQK Holdings, Inc. v. Sunset Management LLC (the "Texas Litigation"). The Texas Litigation alleged breach of contract, misrepresentation, breach of duty of good faith and fair dealing and slander of title by Sunset Management LLC and sought certain declaratory relief against Sunset Management LLC, as well as temporary and permanent anti-suit injunctions against Sunset Management LLC. The Texas Litigation has been

removed to the United States Bankruptcy Court for the Eastern District of Texas, Sherman Division, as Adversary Proceeding No. 03-04256 styled American Realty Trust, Inc., et al. v. Sunset Management LLC, et al. This Adversary Proceeding is associated with the case styled In Re: ART Williamsburg, Inc., Debtor, pending in the United States Bankruptcy Court for the Eastern District of Texas, Sherman Division, Case No. 4:03-43909-BTR-11, filed August 22, 2003.

The Company is also a defendant in related litigation with Sunset Management LLC in the case styled Sunset Management LLC, et al. v. American Realty Investors, Inc., et al., now pending in the United States District Court for the Eastern District of Texas, Tyler Division, as Case No. 4:06-CV-18. In this case, Sunset Management LLC originally sought to require a conveyance by ARI and/or its subsidiaries of certain pledged shares back to the pledgors, BCM and certain subsidiaries of ARI. Sunset Management LLC has filed a Motion for Summary Judgment claiming that transfer of the ownership of the shares among the Company and its affiliates violates the pledge agreements. ARI has responded to the Motion, which it believes is without merit because the transfer of the shares harmed no one, did not affect the validity of the pledge agreements, and in fact, benefited not only ARI but also probably Sunset Management LLC because it substantially reduced the taxes payable on a consolidated basis for ARI and TCI, thereby potentially increasing the value of the collateral pledged. The Company expects this case to eventually be consolidated with the primary discussed in the preceding paragraph when that case is transferred to the district court.

Other Stock-secured notes payable. In September 2003, ARI obtained a security loan in the amount of \$13.5 million from a financial institution. The loan bears interest at 12.0% over the 30-day LIBOR rate, currently 16.8% requires monthly payments of interest only and matured in September 2004. The loan is secured by 1,656,537 shares of TCI common stock and 250,000 shares of IORI common stock held by TCI. In September 2004, the maturity date was extended to December 2004. In December 2004, the maturity date was extended to March 2005. In March 2005, the maturity date was extended to March 2006. In March 2006, the maturity date was extended to March 2007.

NOTE 8. RELATED PARTY TRANSACTIONS

In March 2006, ARI, through one of its subsidiary companies, borrowed \$11.75 million secured by approximately 235 acres of land in Austin, Texas. The loan is guaranteed by ARI, Prime and certain other affiliated companies. The loan bears interest at an annual rate of 12.5 percent and matured in April 2006. The loan is currently being extended.

In January 2005, an affiliate made a \$700,000 note payment on ARI's behalf, reducing ARI's affiliate receivable.

During 2002, ARI's Board of Directors authorized ARI's Chief Financial Officer to advance funds either to or from ARI, through the advisor, in an amount up to \$10.0 million and, subsequent to that, authorized ARI's Chief Financial Officer to make additional advances, on the condition that such advances shall be repaid in cash or transfers of assets within 90 days. These advances are unsecured, generally have not had specific repayment terms, and have been reflected in ARI's financial statements as other assets and other liabilities. Effective July 1, 2005, ARI and the advisor agreed to charge interest on the outstanding balance of funds advanced to or from ARI. The interest rate, set at the beginning of each quarter, is the prime rate plus 1% on the average daily cash balances advanced. Interest earned on the advances totaled \$953,000 in 2006.

The following table reconciles the beginning and ending balances of accounts receivable from and (accounts payable to) affiliates as of March 31, 2006.

	PRIME
Balance, December 31, 2005	\$ 29,702
Cash transfers to affiliates	30,672
Cash transfers from affiliates	(36,680)
Advances through receipt of financing proceeds	10,250
Construction fees payable to affiliate	(527)
Balance, March 31, 2006	\$ 33,416

At March 31, 2006, ARI's other assets include \$1.2 million due from affiliates for rent and interest. Also at March 31, 2006, ARI owed \$711,000 million to Regis Property Management for management fees and sales commissions.

Returns on Metra Properties. In April 2002, ARI, TCI, and IORI sold 28 apartment properties to partnerships controlled by Metra Capital, LLC ("Metra"). Innovo Group, Inc. ("Innovo") is a limited partner in the partnerships that purchased the properties. Joseph Mizrachi, then a director of ARI, controlled approximately 11.67% of the outstanding common stock of Innovo. Management determined to treat the sales as financing transactions, and ARI and TCI continued to report the assets and the new debt incurred by Metra on their financial statements. The partnership agreements for each of these partnerships stated that the Metra Partners, as defined, receive cash flow distributions at least quarterly in an amount sufficient to provide them with a 15% cumulative compounded annual rate of return on their invested capital, as well as a cumulative compounded annual amount of 0.50% of the average outstanding balance of the mortgage indebtedness secured by any of these properties. These distributions to the Metra

Partners had priority over distributions to any other partners. In August 2004, ARI, TCI, and IORI instituted an action in Texas State District Court regarding the transaction. During April 2005, resolution of the litigation occurred, settling all liabilities remaining from the original partnership arrangements which included a return of investor equity, a cessation of any preferential return, prospective asset management fees and miscellaneous fees and transactions costs from the Plaintiffs as a prepayment of a preferred return, along with a delegation of management and corresponding payment of management fees to Prime, and a motion to dismiss the action as a part of the resolution. Of the prepayment, ARI recognized expense of \$525,000 and a reduction in liabilities of \$3.2 million during the second quarter of 2005.

NOTE 9. OPERATING SEGMENTS

Significant differences among the accounting policies of the operating segments as compared to the Consolidated Financial Statements principally involve the calculation and allocation of administrative and other expenses. Management evaluates the performance of each of the operating segments and allocates resources to them based on their net operating income and cash flow. Excluded from operating segment assets are assets of \$134.7 million in 2006 and \$137.7 million in 2005, which are not identifiable with an operating segment. There are no intersegment revenues and expenses, and ARI conducted all of its business within the United States, with the exception of Hotel Akademia (Poland), which began operations in 2002.

Presented below are ARI's reportable segments' operating income for the three months ended March 31, 2006 and 2005, and segment assets at March 31, 2006 and 2005.

NOTE 11. COMMITMENTS AND CONTINGENCIES

Liquidity. ARI's principal liquidity needs are funding normal recurring expenses, meeting debt service requirements, funding capital expenditures, funding development costs not otherwise covered by construction loans and funding new property acquisitions not otherwise covered by acquisition financing. In 2006, ARI will rely on aggressive land sales, selected income producing property sales and, to the extent necessary, additional borrowings to meet its cash requirement.

Partnership Obligations. ARI is the limited partner in 11 partnerships that are currently constructing residential properties. As permitted in the respective partnership agreements, ARI presently intends to purchase the interests of the general and any other limited partners in these partnerships subsequent to the final completion of these construction projects. The amounts paid to buyout the non-affiliated partners are limited to development fees earned by the non-affiliated partners, and are set forth in the respective partnership agreements. The total amount of the expected buyouts as of March 31, 2006 is approximately \$2.3 million. ARI is a non-controlling general and limited partner in a real estate partnership and is obligated to fund approximately \$1.9 million through September 30, 2006, for certain partnership obligations.

Commitments. During 2002, Milano, then a wholly-owned subsidiary of ARI, sold two restaurants to a corporation owned in part by an officer of Milano. In conjunction with the sale of these restaurants, Milano guaranteed the bank debt incurred by the related party. The guaranty applies to all current debt and to all future debt of the related party until such time as the guaranty is terminated by Milano. The amount of the debt outstanding that is subject to the guaranty is \$788,000 at March 31, 2006. In July 2003, ARI sold its interest in Milano to Gruppa for \$18.5 million, receiving \$7.4 million in cash after debt assumption and providing purchase money financing of \$2.3 million. ARI owns 20.0% of Gruppa, thereby retaining a 20.0% interest in Milano. ARI remained the guarantor of \$8.7 million of assumed debt and was one of the guarantors of \$7.5 million in new debt obtained by Gruppa. The total remaining debt guaranteed as of March 31, 2006 is \$13.0 million. Due to the debt guarantees and ARI's continuing ownership interest in Milano, management has determined that this should be accounted for as a financing transaction.

Litigation. ARI is involved in various lawsuits arising in the ordinary course of business. In the opinion of management, the outcome of these lawsuits will not have a material impact on ARI's financial condition, results of operations, or liquidity.

Events occurring after the date of these financial statements are included within each note, as appropriate.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

WARNING CONCERNING FORWARD LOOKING STATEMENTS

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report.

This Report on Form 10-Q may contain forward-looking statements within the meaning of the federal securities laws, principally, but not only, under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations." We caution investors that any forward-looking statements in this report, or which management may make orally or in writing from time to time, are based on management's beliefs and on assumptions made by, and information currently available to, management. When used, the words "anticipate," "believe," "expect," "intend," "may," "might," "plan," "estimate," "project," "should," "will," "result" and similar expressions not relate solely to historical matters are intended to identify forward-looking statements. These statements are subject to risks, uncertainties, and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties, and factors, that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, or projected. We caution you that, while forward-looking statements reflect our good faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. We expressly disclaim any responsibility to update our forward-looking statements, whether as a result of new information, future events or otherwise. Accordingly, investors should use caution in relying on past forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance, or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the factors listed and described at Item 1A "Risk Factors" in the Company's Annual Report on Form 10-K, which investors should review. There have been no changes from the risk factors previously described in the Company's Form 10-K for the fiscal year ended December 31, 2005 (the "Form 10-K").

Other sections of this report may also include suggested factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time-to-time and it is not possible for management to predict all such matters; nor can we assess the impact of all such matters on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Investors should also refer to our quarterly reports on Form 10-Q for future periods and current reports on Form 8-K as we file them with the SEC, and to other materials we may furnish to the public from time to time through Forms 8-K or otherwise.

Overview

ARI was organized in 1999. In August 2000, ARI acquired American Realty Trust, Inc. ("ART") and National Realty, L.P. ("NRLP"), the predecessor trust which became ART was organized in 1961 to provide investors with a professionally managed, diversified portfolio of real estate and mortgage loan investments selected to provide opportunities for capital appreciation as well as current income. ART owns a portfolio of real estate and mortgage loan investments. NRLP was organized in 1987, and subsequently acquired all of the assets and assumed all of the liabilities of 35 public and private limited partnerships. NRLP also owned a portfolio of real estate and mortgage loan investments.

Today, ARI is an externally advised real estate investment company that owns a diverse portfolio of residential apartment communities, office buildings, hotels and other commercial properties. ARI has a preeminent track record as a developer, completing the construction of 19 apartment properties comprising 4,362 units over the last three years. In addition, ARI owns a high-quality portfolio of land held for future development and continues to invest in well-located land tracts in high-growth markets primarily in Texas. The Company is an active buyer and seller and during 2005 acquired over \$190 million and sold over \$225 million of land and income-producing properties. As December 31, 2005, the Company owned approximately 13,524 units in 69 residential apartment communities, 29 commercial properties comprising almost five million rentable square feet and 11 hotels containing a total of 1,531 rooms. In addition, at December 31, 2005, ARI owned 6,300 acres of land held for development and had almost 1,100 apartment units in five projects under construction. The Company currently owns income-producing properties and land in 21 states as well as in Poland and the U.S. Virgin Islands. Prime Income Asset Management, LLC (“Prime”) is the Company’s external advisor. Regis Property Management, LLC, an affiliate of Prime, manages the Company’s commercial properties. Regis Hotel I, LLC, another Prime affiliate, manages the Company’s hotel investments. ARI engages various third-party companies to lease and manage its apartment properties.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, or GAAP, requires management to use judgment in the application of accounting policies, including making estimates and assumptions. We base our estimates on historical experience and on various other assumptions believed to be reasonable under the circumstances. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied resulting in a different presentation of our financial statements. From time-to-time, we evaluate our estimates and assumptions. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current information. Below is a discussion of accounting policies that we consider critical in that they may require complex judgment in their application or require estimates about matters that are inherently uncertain.

Real Estate Held for Investment

Real estate held for investment is carried at cost. Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS No. 144"), requires that a property be considered impaired if the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the property. If impairment exists, an impairment loss is recognized, by a charge against earnings, equal to the amount by which the carrying amount of the property exceeds the fair value less cost to sell the property. If impairment of a property is recognized, the carrying amount of the property is reduced by the amount of the impairment, and a new cost for the property is established. Such new cost is depreciated over the property's remaining useful life. Depreciation is provided by the straight-line method over estimated useful lives, which range from five to 40 years.

Real Estate Held-for-Sale

Foreclosed real estate is initially recorded at new cost, defined as the lower of original cost or fair value minus estimated costs of sale. SFAS No. 144 also requires that properties held-for-sale be reported at the lower of carrying amount or fair value less costs of sale. If a reduction in a held-for-sale property's carrying amount to fair value less costs of sale is required, a provision for loss is recognized by a charge against earnings. Subsequent revisions, either upward or downward, to a held for sale property's estimated fair value less costs of sale are recorded as an adjustment to the property's carrying amount, but not in excess of the property's carrying amount when originally classified as held-for-sale. A corresponding charge against or credit to earnings is recognized. Properties held-for-sale are not depreciated.

Investments in Equity Investees

ARI may be considered to have the ability to exercise significant influence over the operating and investment policies of certain of its investees. Those investees are accounted for using the equity method. Under the equity method, an initial investment, recorded at cost, is increased by a proportionate share of the investee's operating income and any additional investment and decreased by a proportionate share of the investee's operating losses and distributions received.

Recognition of Rental Income

Rental income for commercial and residential property leases is recognized on a straight-line basis. For hotel properties, revenues for room sales and guest services are recognized as rooms are occupied and services are rendered.

Revenue Recognition on the Sale of Real Estate

Sales of real estate are recognized when and to the extent permitted by Statement of Financial Accounting Standards No. 66, "Accounting for Sales of Real Estate" ("SFAS No. 66"), as amended by SFAS No. 144. Until the requirements of SFAS No. 66 for full profit recognition have been met, transactions are accounted for using the deposit, installment, cost recovery or financing method, whichever is appropriate. When ARI provides seller financing, gain is not recognized at the time of sale unless the buyer's initial investment and continuing investment are deemed to be adequate as determined by SFAS 66 guidelines.

Non-performing Notes Receivable

ARI considers a note receivable to be non-performing when the maturity date has passed without principal repayment and the borrower is not making interest payments. Any new note receivable that results from a modification or extension of a note considered non-performing will also be considered non-performing, without regard to the borrower's adherence to payment terms.

Interest Recognition on Notes Receivable

Interest income is not recognized on notes receivable that have been delinquent for 60 days or more. In addition, accrued but unpaid interest income is only recognized to the extent that the net realizable value of the underlying collateral exceeds the carrying value of the receivable.

Allowance for Estimated Losses

A valuation allowance is provided for estimated losses on notes receivable considered to be impaired. Impairment is considered to exist when it is probable that all amounts due under the terms of the note will not be collected. Valuation allowances are provided for estimated losses on notes receivable to the extent that the investment in the note exceeds management's estimate of fair value of the collateral securing such note.

Fair Value of Financial Instruments

The following assumptions were used in estimating the fair value of its notes receivable, marketable equity securities, and notes payable. For performing notes receivable, the fair value was estimated by discounting future cash flows using current interest rates for similar loans. For non-performing notes receivable, the estimated fair value of ARI's interest in the collateral property was used. For marketable equity securities, fair value was based on the year-end closing market price of each security. For notes payable, the fair value was estimated using current rates for mortgages with similar terms and maturities.

Liquidity and Capital Resources

ARI reported a net loss of \$8.1 million for the three months ended March 31, 2006, which included the following non-cash charges and credits: depreciation and amortization from real estate held for investment of \$6.7 million, amortization of deferred borrowing cost of \$1.2 million, gain on sale of real estate of \$2.7 million, equity in income of equity investees of \$175,000, and gain on foreign currency transaction of \$2,000. Net cash used in operating activities amounted to \$4.0 million for the three months ended March 31, 2006, interest receivable increased by \$427,000 primarily due to fewer payments received, other assets decreased by \$6.6 million primarily due to decreases in prepaid expenses and deposit accounts, interest payable decreased by \$70,000 due to an increase of cash payments on ARI's notes payable, and other liabilities increased by \$5.3 million primarily due to an increase in accrued expenses.

Net cash used in investing activities of \$43.4 million was primarily due to real estate improvements of \$4.7 million, acquisitions of real estate of \$49.2 million, earnest money deposits of \$660,000, funding of notes receivable of \$2.7 million, investment in real estate entities of \$1.6 million, and purchases of restaurant equipment of \$69,000. These outflows for investing activities were offset by the collection of \$8.7 million on notes receivable and \$6.7 million from the sale of real estate.

Net cash provided by financing activities of \$42.9 million was comprised of proceeds received from the funding or refinancing of notes payable of \$55.8 million offset by cash payments of \$13.4 million to paydown existing notes payable.

In the first three months of 2006, ARI purchased seven apartment developments, and six parcels of unimproved land for a total of \$43.3 million. ARI paid \$7.0 million in cash, including various closing costs, and incurred \$38.6 million in debt. ARI also expended \$2.6 million on property construction. For the remainder of 2006, ARI expects to spend an additional \$44.5 million on property construction projects, of which \$40.9 million will be funded by debt.

In the first three months of 2006, ARI sold 2 land parcels for a total of \$4.5 million, receiving \$1.7 million in cash.

In the first three months of 2006, ARI financed or refinanced four land parcels and one apartment for a total of \$39.7 million, discharging \$22.1 million in debt and receiving \$8.1 million in cash.

ARI has margin arrangements with various financial institutions and brokerage firms which provide for borrowing up to 50% of the market value of ARI's marketable equity securities. The borrowings under such margin arrangements are secured by equity securities of IORI and TCI and ARI's trading portfolio, and bear interest rates ranging from 9.0% to 24.0%. Margin borrowing totaled \$22.5 million at March 31, 2006.

Management expects that it may be necessary for ARI to sell land holdings during the remainder of 2006 to satisfy the debt on such land as it matures. If ARI is unable to sell sufficient land to satisfy the debt obligations on such land as it matures, or, if it is not able to extend such debt, ARI intends to sell other of its assets, specifically income producing properties, to pay the debt.

Management reviews the carrying values of ARI's properties and mortgage notes receivable at least annually and whenever events or a change in circumstances indicate that impairment may exist. Impairment is considered to exist if, in the case of a property, the future cash flow from the property (undiscounted and without interest) is less than the carrying amount of the property. For notes receivable, impairment is considered to exist if it is probable that all amounts due under the terms of the note will not be collected. If impairment is found to exist, a provision for loss is recorded by a charge against earnings to the extent that the investment in the note exceeds management's estimate of the fair value of the collateral property securing each note. The mortgage note receivable review includes an evaluation of the collateral property securing such note. The property review generally includes: (1) selective property inspections; (2) a review of the property's current rents compared to market rents; (3) a review of the property's expenses; (4) a review of maintenance requirements; (5) a review of the property's cash flow; (6) discussions with the manager of the property; and (7) a review of properties in the surrounding area.

Related Party Transactions

In March 2006, ARI, through one of its subsidiary companies, borrowed \$11.75 million secured by approximately 235 acres of land in Austin, Texas. The loan is guaranteed by ARI, Prime and certain other affiliated companies. The loan bears interest at an annual rate of 12.5 percent and matured in April 2006. The loan is currently being extended.

In January 2005, an affiliate made a \$700,000 note payment on ARI's behalf, reducing ARI's affiliate receivable.

Commitments and Contingencies

ARI has contractual obligations and commitments primarily with regards to payment of notes payable and mortgages.

Results of Operations

For the three months ended March 31, 2006, ARI reported a net loss of \$8.1 million compared to net income of \$20.7 million for the three months ended March 31, 2005. The primary factors contributing to ARI's net income are discussed in the following paragraphs.

Rents (dollars in thousands)

	For the Three Months Ended March 31,			
	2006		2005	
Commercial	\$	15,810	\$	12,037
Apartments		21,845		18,194

Hotels	7,792	7,313
Land	165	198
Other	9,604	8,636
	\$ 55,216	\$ 46,378

The increase in apartment rents was primarily attributable to completed construction and higher occupancy percentages. Rents are expected to increase in 2006, as a result of completed apartment construction. The increase in commercial rents was primarily attributable to the purchase of three office buildings during 2005 and higher occupancy percentages.

Property Operations Expenses (dollars in thousands)

	For the Three Months Ended March 31,	
	2006	2005
Commercial	\$ 8,800	\$ 6,904
Apartments	13,496	11,220
Hotels	6,588	6,446
Land	832	1,899
Other	6,789	6,737
	\$ 36,585	\$ 33,206

The increase in commercial operations expense was primarily attributable to the purchase of three office buildings, higher occupancy and an increase in management fees. The increase in apartment operations expense was primarily attributable to completed apartment construction. Property operations expenses are expected to increase in 2006, as a result of completed apartment construction.

Restaurant sales and cost of sales increased to \$9.3 million and \$6.9 million, respectively, in the three months ended March 31, 2006 from \$8.6 million and \$6.8 million, respectively, in the three months ended March 31, 2005. The increase was primarily attributable to an increase in same-store sales.

Depreciation and Amortization (dollars in thousands)

	For the Three Months Ended March 31,	
	2006	2005
Commercial	\$ 3,013	\$ 2,542
Apartments	2,520	2,016
Hotels	851	696
Restaurants	332	302
Other	10	16
	\$ 6,726	\$ 5,572

The increase in commercial depreciation expense is primarily due to the purchase of three office buildings in 2005. The increase in apartment depreciation expense is primarily attributable to completed construction.

General and administrative expenses increased to \$3.8 million in the three months ended March 31, 2006, from \$2.7 million in 2005. The changes were primarily attributable to increases in advisor costs reimbursements.

Advisory fees of \$3.1 million in the three months ended March 31, 2006, approximated the \$2.9 million in 2005.

Interest income from notes receivable of \$1.2 million in the three months ended March 31, 2006, approximated the \$1.6 million in 2005.

Gain on foreign currency transaction was \$2,000 in the three months ended March 31, 2006. ARI recognized zero gain on foreign currency transaction for the same period in 2005. Hotel Akademia's long-term debt is denominated in euros, and the impact of the translation of Euros into Zlotys prior to translation into US dollars is recorded as a gain or loss in the Consolidated Statements of Operations.

Mortgage and Loan Interest Expense (dollars in thousands)

	For the Three Months Ended March 31,	
	2006	2005
Commercial	\$ 3,825	\$ 2,918
Apartments	7,994	6,408
Hotels	1,248	1,546
Land	4,227	2,875
Restaurants	327	348
Other	1,083	1,095
	\$ 18,704	\$ 15,190

The increase in commercial interest expense was primarily attributed to increased mortgage interest rates. The increase in apartment interest expense was primarily attributable to completed apartment construction. The increase in land interest expense was primarily attributable to increased principal balances payable on land mortgages.

Net income fee to affiliate for the three months ended March 31, 2006 was zero. Net income in the three months ended March 31, 2005 was \$1.5 million. The net income fee payable to ARI's advisor is 10% of the year-to-date net income, in excess of a 10% return on shareholders' equity.

Minority interest decreased to \$(830,000) in the three months ended March 31, 2006, from \$921,000 in 2005. The changes are primarily attributable to net losses of non-wholly-owned consolidated entities.

Equity in income (loss) of investees improved to \$175,000 in the three months ended March 31, 2006, from \$60,000 in 2005. IORI recognized income of \$594,000 for the three months ended March 31, 2006, compared to income of \$239,000 in 2005.

Income from discontinued operations decreased to a loss of \$898,000 from income of \$10.4 million for the three months ended March 31, 2006 and 2005, respectively. The net income relates to 18 properties that ARI sold during 2005 and 7 properties that ARI sold or held-for-sale in 2006. The following table summarizes revenue and expense information for the properties sold and held-for-sale (dollars in thousands).

	For the Three Months Ended March 31,	
	2006	2005
Revenue:		
Rental	\$ 2,545	\$ 6,258
Property operations	1,990	4,569

Write-down of assets held-for-sale	—	—
Income from discontinued operations	\$ (898)	\$ 10,371

Tax Matters

Financial statement income varies from taxable income principally due to the accounting for income and losses of investees, gains and losses from asset sales, depreciation on owned properties, amortization of discounts on notes receivable and payable and the difference in the allowance for estimated losses. ARI had a loss for federal income tax purposes in the first three months of 2006 and a loss, after the use of net operating loss carryforwards, in the first three months of 2005; therefore, it recorded no provision for income taxes.

26

At March 31, 2006, ARI had a net deferred tax asset of \$100.0 million due to tax deductions available to it in future years. However, as management cannot determine that it is more likely than not that ARI will realize the benefit of the deferred tax assets, a 100%

Environmental Matters

Under various federal, state and local environmental laws, ordinances and regulations, ARI may be potentially liable for removal or remediation costs, as well as certain other potential costs relating to hazardous or toxic substances (including governmental fines and injuries to persons and property) where property-level managers have arranged for the removal, disposal or treatment of hazardous or toxic substances. In addition, certain environmental laws impose liability for release of asbestos-containing materials into the air, and third parties may seek recovery for personal injury associated with such materials. Management is not aware of any environmental liability relating to the above matters that would have a material adverse effect on ARI's business, assets, or results of operations.

Inflation

The effects of inflation on ARI's operations are not quantifiable. Revenues from apartment operations fluctuate proportionately with inflationary increases and decreases in housing costs. Fluctuations in the rate of inflation also affect the sales values of properties and the ultimate gains to be realized from property sales. To the extent that inflation affects interest rates, earnings from short-term investments and the cost of new borrowings as well as the cost of variable interest rate debt will be affected.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

At March 31, 2006, ARI's exposure to a change in interest rates on its debt is as follows (dollars in thousands except per share):

	Balance	Weighted Average Interest Rate	Effect of 1% Increase In Base Rates
Notes payable:			
Variable rate	\$ 219,120	8.07%	\$ 2,192
Total decrease in ARI's annual net income			\$ 2,192
Per share			\$ 0.22

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, ARI carried out an evaluation, under the supervision and with the participation of ARI's Acting Principal Executive Officer and principal accounting officer, of ARI's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, ARI's Acting Principal Executive Officer and principal accounting officer concluded that ARI's disclosure controls and procedures are effective.

There have been no changes in ARI's internal controls over financial reporting during the quarter ending March 31, 2006, that have materially affected, or are reasonably likely to materially affect, ARI's internal control over financial reporting.
