Caution Concerning Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify those so-called "forward-looking statements" by words such as "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential," or "continue," or the negative of those words and other comparable words. Comcast Corporation ("Comcast") wishes to take advantage of the "safe harbor" provided for by the Private Securities Litigation Reform Act of 1995 and you are cautioned that actual events or results may differ materially from the expectations expressed in such forward-looking statements as a result of various factors, including risks and uncertainties, many of which are beyond the control of Comcast. Factors that could cause actual results to differ materially include, but are not limited to (1) the effects of legislative and regulatory changes; (2) the potential for increased competition; (3) technological changes; (4) the need to generate substantial growth in the subscriber base by successfully launching, marketing and providing services in identified markets; (5) pricing pressures which could affect demand for Comcast's services; (6) Comcast's ability to expand its distribution; (7) changes in labor, programming, equipment and capital costs; (8) Comcast's continued ability to create or acquire programming and products that customers will find attractive; (9) future acquisitions, strategic partnerships and divestitures; (10) general business and economic conditions; (11) other risks described from time to time in Comcast's periodic reports filed with the Securities and Exchange Commission; and (12) with respect to statements relating to the proposed combination of Comcast and AT&T Broadband, factors that could cause actual results of the combined businesses of Comcast and AT&T Broadband to

Edgar Filing: AT&T CORP - Form 425

differ materially from expected results for such businesses, including failure to integrate the businesses successfully or to achieve the expected combination benefits.
