In June 2005, the subsidiary LPG International Inc. that had acquired all eurobonds issued by Companhia Ultragas S.A. sold them to the subsidiary Oxiteno Overseas Co., that financed their acquisition through a syndicated loan in the amount of US\$60 million maturing in June 2008, with annual interest rate of 5.05% . The eurobonds and syndicated loan are guaranteed by the Company and its subsidiaries Ultragas Participações Ltda. and Oxiteno S.A. Indústria e Comércio, which are subject to covenants that limit, among other things, their ability to incur indebtedness, make dividend and other payments, and engage in mergers and acquisitions. None of these covenants have restricted our ability to conduct our business until the present moment.

c) Debentures

The Extraordinary Stockholders' Meeting held on February 2, 2005 approved the issuance by the Company and the public distribution in a single block of 30,000 non-convertible debentures with nominal unit value of R\$10,000.00 (ten thousand reais), totaling R\$300,000.

Nominal value payment: Lump sum at final maturity.

Yield: 102.5% of CDI.

They also included the obligation to maintain a consolidated net debt to EBITDA ratio less or equal to 3.5. None of these commitments have restricted the Company and its subsidiaries' ability to conduct business until the present moment.

17. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and determination of limits, as follows:

23

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of June 30, 2005, the subsidiaries Oxiteno S.A. - Indústria e Comércio and Oxiteno Nordeste S.A. - Indústria e Comércio maintained R\$1,818 (R\$2,014 as of March 31, 2005) and the subsidiaries of Ultragas Participações Ltda. maintained R\$24,503 (R\$25,044 as of March 31, 2005) of allowance for doubtful accounts.
- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Cash investments of the Company and its subsidiaries are comprised substantially of transactions linked to the CDI, as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as shown below. Borrowings originate mainly from BNDES, debentures and foreign currency financing, as mentioned in Note 13.
- Exchange rate - The Company's subsidiaries use hedge (mainly US\$ to CDI) instruments available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts, periods and indexes equivalent to the assets and liabilities in foreign currency, to which they are linked. a) Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in collective labor agreements, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of June 30, 2005.

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, state of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for material damages and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragaz's on-site LPG storage facilities did not contribute to the explosion. It has obtained a favorable judgment in all lawsuits which have been judged to date. The subsidiary has insurance for this contingency; the uninsured amount is R\$36,720. The Company did not record any provision for this amount, since it believes the probability of loss is remote.

The Company and its subsidiaries obtained injunctions to pay PIS and Cofins (tax on revenues) without the changes introduced by Law No. 9,718/98 in its original version. The ongoing questioning refers to the levy of

these taxes on sources other than revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$35,396 (R\$34,572 as of March 31, 2005).

The main tax discussions of the Company and its subsidiaries refer to the taxation of PIS and Cofins (as detailed in the preceding paragraph) and the taxation of income earned abroad (as stated in Note 9.a). The potential losses on these discussions are accrued in long-term liabilities as other taxes and deferred income and social contribution taxes, respectively.

The subsidiary Oxiteno S.A. - Indústria e Comércio recorded an accrual of R\$7,757 (R\$7,543 as of March 31, 2005) for an ICMS tax assessment under judgment at the administrative level. The subsidiary currently awaits a decision on its appeal filed in July 2004.

The subsidiary Utingás Armazenadora S.A. has been challenging in court ISS tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the lower court decisions was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The updated amount of the unaccrued contingency as of June 30, 2005 is R\$27,940 (R\$27,495 as of March 31, 2005).

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks of these proceedings as possible or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

The subsidiary Terminal Químico de Aratu S.A. - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with their port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment. As of June 30, 2005, such rates were R\$3.67 and R\$3.44 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since the inception of the contracts.

The subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2012, which establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the years ended June 30, 2005 and 2004, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the current ethylene price for the quantity not purchased.

c) Insurance coverage for subsidiaries

The Company has appropriate insurance policies to cover several risks, including loss and damage from fire, lightning, explosion of any nature, windstorm, plane crash and electrical damage, among others, protecting the units and other branches of all subsidiaries. The estimated amount of insured assets is US\$226 million.

For the Oxiteno and Canamex units, there is also a loss of income insurance against losses from potential accidents related to their assets, in the amount of US\$118 million.

The civil liability insurance program covers all the Group companies, with a coverage of US\$150 million, for losses and damages from accidents caused by third parties, related to the commercial/industrial operations and/or distribution and sale of products and services.

Group life insurance, personal accident insurance, health insurance, and domestic and international transportation insurance are also contracted.

The Extraordinary Stockholders' Meeting held on November 26, 2003 approved a compensation plan for the management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by the subsidiaries in which the beneficiaries are employed; and (ii) the transfer of the beneficial ownership of the shares after ten years of the initial grant provided that the professional relationship between the beneficiary and the Company and its subsidiaries is not interrupted. The total amount granted to the executives as of June 30, 2005, including taxes, was R\$7,654 (R\$4,960 as of June 30, 2004). Such amount is being amortized over a period of ten years, and the amortization related to the second quarter of 2005, in the amount of R\$383 (R\$250 to the second quarter of 2004), was recorded as an operating expense for the period.

21. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. This plan is managed by Ultraprev - Associação de Previdência Complementar. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name at Ultraprev; or (ii) a fixed monthly amount which will deplete the fund accumulated in the participant's name over a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the amounts and periods of receipt of the retirement benefit. As of June 30 2005, the Company and its subsidiaries contributed R\$2,388 (R\$1,924 as of June 30, 2004) to Ultraprev, which was charged to income for the year. The total number of participating employees as of June 30, 2005 was 5,739 (5,287 as of June 30, 2004), with no participants retired to date. Additionally, Ultraprev has 1 active participant and 32 former employees receiving defined benefits according to the policies of a previous plan.

22. SUBSEQUENT EVENTS

The Extraordinary Stockholders' Meeting held on July 20, 2005 approved the grouping of the Company's shares, attributing 1 (one) share in substitution to each 1,000 (one thousand) existing shares. In the same way, each American Depositary Share - ADS, today representative of a lot of 1,000 (one thousand) preferred shares, will represent 1 (one) preferred share. The grouping will be effective on August 23, 2005.

As a result of the approved grouping, the Company's capital will be represented by 81,325,409 shares without nominal value, being 49,429,897 common and 31,895,512 preferred shares.

(2) Performance Analysis:

Net Sales: Ultrapar's consolidated net sales and services in 2Q05 totaled R\$1.202.0 million, an 1% growth compared to the same quarter of 2004, and 6% compared to 1Q05. In the first half of 2005 Ultrapar's net sales and services reached R\$2.339.0 million, a 4% growth compared to the first half of 2004.

Ultragaz: The Brazilian LPG market volumes eased 1% in 2Q05, compared to 2Q04, mainly because of above-average temperatures and the economic slowdown. In 2Q05, the total sales volume of Ultragaz showed a 2% retraction compared to 2Q04, reflecting the market decrease and the effects of the restructuring on its distribution network in the South-Center Region of Brazil, which impacted sales of the bottled segment in the comparison between the years. The bottled segment of Ultragaz recorded a retraction of 2%, or 6 thousand tons between second quarters, lower than the retraction of 15 thousand tons between the first quarters. Conversely, compared to the first quarter of this year, the total sales volume of Ultragaz presented a 9.3% growth - above the 8.7% growth in the LPG market -with bottled segment growing 10.2%, or 25 thousand tons. The bulk segment, which serves the commercial and industrial sectors, recorded a 2% retraction or 2 thousand tons, compared to the same period of 2004, and a 7% growth, or 9 thousand tons, compared to 1Q05. Net sales and services at

29

Ultragas totaled R\$733.7 million, a 4% decrease compared to 2Q04, due to the lower sales volume and a more competitive market. Compared to the first quarter of 2005, net sales and services at Ultragas presented a 9% growth, in line with volume increase.

Oxitenó: Oxitenó's total sales volume was 136 thousand tons in 2Q05, an 11% growth compared to 2Q04. Sales to the domestic market totaled 86 thousand tons, a 9% growth compared to 2Q04. The best performing segments in the domestic market were polyester, cosmetics & detergents and paints & varnishes, driven mainly by the new contracts signed throughout 2004. Sales outside Brazil amounted to 50 thousand tons in 2Q05, a 14% growth compared to 2Q04, a consequence of the increase in exports to the United States and Europe and the increase of 49% in the sales of Canamex, which reached 5 thousand tons this quarter. Compared to 1Q05, Oxitenó's sales volume presented a 13% growth, driven by the 39% growth in exports and the stability in domestic sales. Net sales and services at Oxitenó totaled R\$423.7 million in 2Q05, an increase of 9% compared to 2Q04, mostly due to the increase in the sales volume. Even though prices in dollar of Oxitenó's products have increased in 2Q05, compared to 2Q04, this effect was offset by the 19% revaluation in the Brazilian real against the U.S. dollar. Compared to 1Q05, net sales and services remained stable. Due to the weak demand in the Brazilian market, Oxitenó directed a larger part of its sales volume to the foreign market, which faced in this quarter the effects of inventory destocking in China's textile chain that resulted in a 31% decrease in MEG spot prices in the Far East, a benchmark for prices in the international market. MEG spot prices had a 7% recovery in July.

Ultracargo: The increase in Ultracargo's volume of operations in the second quarter of 2005 was mainly due to the increase of operations in clients that were already part of the company's portfolio and by the new operations started in 2004, both in storage and in transportation. The higher volume of Brazilian exports also contributed to the demand increase for Ultracargo's integrated logistic services. The average storage of liquids and gases increased by 10%, while the storage of solids increased by 46%, comparing the second quarters. In the same period, the traveled kilometrage increased 8%. Net sales and services totaled R\$58.5 million, an increase of 23% compared to 2Q04, a consequence of the increase in volume of operations and contractual pricing readjustments. Compared to 1Q05, net sales and services of Ultracargo experienced an 8% growth, a consequence of the increase in operations.

29

Ultrapar Participações S.A. and Subsidiaries

Cost of Sales and Services: Ultrapar's cost of sales and services amounted to R\$951.0 million in 2Q05, a growth of 5% compared to 2Q04, and 8% compared to 1Q05. Comparing the first half in both years, the cost of sales and services increased 5%.

Ultragas: The cost of sales and services in 2Q05 presented a 3% reduction compared to 2Q04, mainly due to the decrease in sales volume for the period. Compared to 1Q05, cost of sales and services grew 8%, also in line with the progression in volumes.

Oxitenó: The cost of sales and services in 2Q05 totaled R\$297.4 million, a 24% increase compared to 2Q04, mainly due to the 11% increase in volume sold and the rise in naphtha and oil prices in the international market, which impacted the unit cost of the ethylene. Compared to 1Q05, the cost of sales and services increased 10%, due to the increase in sales volume.

Ultracargo: The cost of services rendered in 2Q05 amounted to R\$36.9 million, a 26% increase compared to 2Q04. This increase is due to the: (i) higher volume transported/stored; (ii) increase in fuels unit cost, third party's freights, and nitrogen used in the cleaning of tanks; and (iii) 51% increase in depreciation, driven by the higher capex of 2004. Compared to 1Q05, Ultracargo's cost of services rendered remained flat, despite the increase of the operational activity.

30

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Gross Profit: Ultrapar's 2Q05 gross profit was R\$251.0 million, 13% lower than the R\$287.5 million in the 2Q04 and a decrease of 3% in relation to 1Q05. The 1H05 gross profit was R\$509.8 million, 1% higher than the 1H04.

Selling, General and Administrative (SG&A) Expenses: SG&A expenses of Ultrapar were R\$131.6 million in 2Q05, a reduction of 4% compared to 2Q04 and 1Q05. In the first half of 2005, Ultrapar recorded R\$268.9 million in SG&A expenses, 2% higher than SG&A expenses recorded in the same period of 2004.

Ultragaz: SG&A expenses of Ultragaz totaled R\$70.0 million in 2Q05, a 6% reduction compared to 2Q04, basically due to a decrease in selling expenses. A portion of such reduction is also a function of efforts to reduce expenses in the areas of telecommunications, through renegotiations of contracts, third parties services, travel and marketing expenses. Administrative expenses remained flat between the two quarters. Compared to 1Q05, SG&A expenses presented a 4% reduction, mainly due to the reduction in variable compensation and in employee profit sharing.

Oxiteno: SG&A expenses were R\$49.2 million in the quarter, a 6% reduction compared to 2Q04. Selling expenses increased 10% due to the 11% growth in the volume sold. Administrative expenses presented a 19% decrease due to lower personnel expenses, a consequence of a reduction in provision for employee profit sharing. Compared to 1Q05, SG&A expenses reduced 6%, also as a consequence of lower personnel expenses.

Ultracargo: SG&A expenses were R\$13.7 million in 2Q05, a 9% growth compared to 2Q04, mainly due to the increase in personnel expenses, as a result of the annual collective wage agreements celebrated in 2004 and the increase in the workforce due to the expansion in operations. Compared to 1Q05, SG&A expenses remained stable.

30

Ultrapar Participações S.A. and Subsidiaries

Operating Income: Ultrapar's 2Q05 operating income was R\$118.7, a decrease of 22% compared to 2Q04. Compared with 1Q05, operating income retracted by 3%. In the first half of 2005, Ultrapar's operating income totaled R\$241.4 million, 1% lower than the first half in 2004.

Financial Results: Ultrapar reported financial expenses of R\$16.7 million in 2Q05, compared to financial expenses of R\$7.9 million in 2Q04. The main factor behind the increase in financial expenses was the impact of the appreciation of the Brazilian currency over the net worth of the company's assets abroad, which reduced the financial result in about R\$10 million.

Other Nonoperating Income (Expenses): In 2Q05 Ultrapar reported a nonoperating expense of R\$0.7 million, an improvement of R\$5.3 million compared to 2Q04, and an improvement of R\$ 1.1 million compared to 1Q05. The net nonoperating expense registered is primarily attributable to the scrapping of storage cylinders by Ultragaz.

Income and Social Contribution Taxes: Income and social contribution taxes expenses amounted to R\$31.1 million in the second quarter of 2005 and to R\$46.6 million in the same period of 2004. Besides the lower results, nontaxable revenues resulted in a R\$3.1 million benefit in this second quarter.

Benefit of Tax Holidays: Ultrapar are entitled to federal tax benefits for its activities in the Northeast Region of Brazil, due to the federal program for development of the region. In this second quarter, tax benefits amounted to R\$18.5 million, mainly composed of tax benefits of the Camaçari plant. The tax benefits were 18% lower than that in the 2Q04, in line with Oxiteno's results in this quarter.

Net Income: Consolidated net earnings in 2Q05 amounted to R\$89.5 million, a 20% reduction compared to 2Q04 and 11% compared to 1Q05. Net earnings reached R\$190.3 million in the first half of 2005, a 9% growth

31

compared to the same period of 2004.

EBITDA: Ultrapar reported consolidated EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) of R\$164.5 million in 2Q05, a reduction of 15% compared to 2Q04, and of 2% compared to 1Q05. In the first half of 2005, Ultrapar's EBITDA reached R\$332.7 million, remaining stable when compared to EBITDA recorded in the first half of 2004.

Ultragaz: Ultragaz reported EBITDA of R\$62.2 million, a 17% reduction compared to the reported in 2Q04, mainly due to the 2% decrease in the volume sold and to a more competitive market than that in 2Q04. Compared to 1Q05, the EBITDA of Ultragaz recorded a 37% growth, due to the increase in sales volume and the company's efforts towards profitability recovery and continuous improvement of results.

Oxiten: Oxiten ended 2Q05 with an EBITDA of R\$87.0 million, a reduction of 19% and 22% compared to 2Q04 and 1Q05, respectively. Such reductions are due to the: (i) 19% revaluation in the Brazilian currency against the U.S. dollar between 2Q04 and 2Q05; (ii) increased levels of oil prices, which have been impacting the costs of naphtha and ethylene; and (iii) higher volume of exports compared to 1Q05. Oxiten's sales volume is constantly increasing, and the impact in EBITDA has been a consequence of the worsening in macroeconomic fundamentals.

31

Ultrapar Participações S.A. and Subsidiaries

Ultracargo: Ultracargo reported a R\$13.8 million EBITDA in 2Q05, a 38% growth compared to 2Q04, mainly due to the increase in the volume of operations.
