### ITEM 2. PLAN OF OPERATION.

The following discussion of our plan of operation for the next twelve months should be read together with, and is qualified in its entirety by the more detailed information, including the financial statements, appearing elsewhere in this document.

We were incorporated August 11, 1999 in the state of Delaware with the objective to license toy designs to toy manufacturers and to act as a toy inventor's agent in licensing toy designs developed by others. We expected to market such toy designs by both direct meetings with toy manufacturers' representatives and through a web site that could give manufacturers the opportunity to review pictures and descriptions of new inventions at a single source to decide whether a face-to-face meeting would be useful. We believe that the foregoing business model is still valid; however, given the effect of an overcrowded .com business environment, no operations in this area have commenced to date. Accordingly we have looked at other ventures of merit for corporate participation as a means of enhancing shareholder value. This strategy resulted in our April 23, 2002 Acquisition Agreement with Assure Oil & Gas Corp. ("Assure O&G").

Assure O&G is actively engaged in the exploration, development, acquisition and production of petroleum and natural gas (P&NG) properties primarily located in Western Canada. In October 2000 Assure O&G commenced its oil and gas operations as part of an initiative to create cash flow by participating in a Farmout Agreement to drill a prospective Elkton zone natural gas well. To date, Assure O&G has acquired varying interests, through farmout participations, asset purchases and crown land sales in approximately 6,500 gross acres (3,500 net acres) of both producing and prospective P&NG properties in the Western Sedimentary Basin of Western Canada.

Assure O&G plans to continue to explore, develop or acquire P&NG properties over the next twelve months to increase cash flow, and to build P&NG reserves. Assure O&G anticipates an exploration program that could include infill drilling of current proved and producing properties, seismic interpretation of prospective properties and exploratory drilling. Acquisitions could include lands, licenses and leases, producing well bores or corporate acquisitions. Assure O&G also may from time to time acquire, or enter into strategic alliances with, complementary businesses to achieve these objectives.

On March 29th, 2002 Assure O&G signed a Letter of Intent to acquire all of the issued and outstanding shares of Westerra 2000 Inc., an Alberta Canada privately held company engaged in oil and gas exploration and production, which as of this date has not resulted in the execution of a definitive acquisition agreement.

We plan to fund Assure O&G's current exploration program from oil and gas cash flow and from working capital.

As at the date hereof, we have yet to issue the Units to the Assure Shareholders for administrative reasons relating to the printing of new stock certificates, but expect to do so shortly. We have agreed to register 50% of the Unit Shares and all of the Class A Warrant Shares on a registration statement on Form SB-2, or such other form as shall be available, (the "Initial Registration Statement"), as soon as practicable, and to register the remaining 50% of the Unit Shares and all of the Class B Warrant Shares within 18 months of the effective date of the Initial
