**SELLING SECURITYHOLDERS**

The debentures were originally issued to Goldman, Sachs & Co., Morgan Stanley & Co. Incorporated and J.P. Morgan Securities Inc., as initial purchasers, in a private offering that closed on September 24, 2003. The initial purchasers have advised us that the debentures were resold in transactions exempt from the registration requirements of the Securities Act to qualified institutional buyers, as defined by Rule 144A under the Securities Act of 1933, as amended. Selling securityholders, including their transferees, pledgees, donees or successors, may from time to time offer and sell pursuant to this prospectus supplement and the prospectus to which it refers any or all of the debentures and the common stock into which the debentures are convertible.

The following table supplements the table of selling securityholders in the prospectus to which this prospectus supplement refers. The following table sets forth additional information with respect to the selling securityholders, the principal amount of the debentures and the number of shares of common stock into which the debentures are convertible beneficially owned by such selling securityholders that may be offered pursuant to this prospectus supplement and the prospectus to which it refers. Unless set forth below, none of the selling securityholders has had within the past three years any material relationship with us or any of our predecessors or affiliates.

We have prepared the following table based on information given to us by, or on behalf of, the selling securityholders on or before November 15, 2004. Because the selling securityholder may offer, pursuant to this prospectus supplement, all or some portion of the debentures or common stock listed below, no estimate can be given as to the amount of debentures or common stock that will be held by such selling securityholder upon consummation of any sales. In addition, the selling securityholder listed in the table below may have sold, transferred or otherwise disposed of, in transactions exempt from the registration requirements of the Securities Act some or all of its debentures since the date as of which the information in the table is presented.

Information about the selling securityholders may change over time. Any changed information given to us by the selling securityholders will be set forth in additional prospectus supplements or amendments to the prospectus to which this prospectus supplement refers if and when necessary.

- (1) Assumes conversion of all of the holder's debentures at a conversion rate of 54.1126 shares of common stock per \$1,000 original principal amount of the debentures. This conversion rate is subject to adjustment as described under "Description of Debentures - Conversion Rate Adjustments" in the prospectus to which this prospectus supplement refers. As a result, the number of shares of common stock issuable upon conversion of the debentures may increase in the future. Excludes shares of common stock that may be issued by us upon the repurchase of the debentures and fractional shares. Holders will receive a cash adjustment for any fractional share amount resulting from conversion of the debentures, as described under "Description of Debentures - Conversion Rights."

- (2) Calculated based on 35,829,582 shares of common stock outstanding as of October 29, 2004. In calculating this amount for each holder, we treated as outstanding the number of shares of common stock issuable upon conversion of all of such holder's debentures, but we did not assume conversion of any other holder's debentures.
- (3) Assumes that all holders of the debentures, or any future transferees, pledgees, donees or successors of or from such holders of debentures, do not beneficially own any common stock other than the common stock issuable upon conversion of the debentures at the initial conversion rate.
- (4) The figures in the table are based on information supplied to us as of November 15, 2004 by the selling securityholders named in the table. As of that date, these selling securityholders had supplied us with information indicating that, collectively, they owned more than \$75,000,000 aggregate principal amount of 5.00% debentures (which would be convertible into more than 4,058,445 shares of common stock), reflecting, we believe that one or more selling securityholders supplied us with information for inclusion in the table and then sold their 5.00% debentures in transactions exempt from the registration requirements of the Securities Act of 1933, as amended, to persons who also supplied us with information with respect to the same 5.00% debentures. However, since neither this prospectus supplement or the prospectus to which it refers would be applicable to any sale of 5.00% debentures after they have been publicly sold using this prospectus supplement or the prospectus to which it refers, no more than \$75,000,000 aggregate principal amount of 5.00% debentures could be sold using this prospectus supplement or the prospectus to which it refers and, accordingly, the \$75,000,000 total shown in the column Original Principal Amount of Debentures Beneficially Owned and Offered represents the maximum principal amount of 5.00% debentures that could be sold under this prospectus supplement or the prospectus to which it refers.
