PART I

ITEM 1 Business

General

The Great Atlantic & Pacific Tea Company, Inc. (A&P , we , our , us or our Company) is engaged in the retail business. We operated 447 stores averaging approximately 42,000 square feet per store as of February 23, 2008.

Operating under the trade names A&P[®], Super Fresh[®], Waldbaum[®], Super Foodmart, Food Basics[®], The Food Emporium[®], Best Cellars[®] and Pathmark[®], we sell groceries, meats, fresh produce and other items commonly offered in supermarkets. In addition, many stores have bakery, delicatessen, pharmacy, floral, fresh fish and cheese departments and on-site banking. National, regional and local brands are sold as well as private label merchandise. In support of our retail operations, we sell other private label products in our stores under other brand names of our Company which include without limitation, America's Choice[®], Master Choice[®], and Health Pride[®].

Building upon a broad base of A&P supermarkets, our Company has historically expanded and diversified within the retail food business through the acquisition of other supermarket chains and the development of several alternative store types. We now operate our stores with merchandise, pricing and identities tailored to appeal to different segments of the market, including buyers seeking gourmet and ethnic foods, a wide variety of premium quality private label goods and health and beauty aids along with the array of traditional grocery products.

On December 3, 2007, the Company completed our acquisition of Pathmark Stores, Inc., (Pathmark) for \$1.4 billion in cash, stock, assumed debt, warrants and options.

On November 27, 2007, our Company announced that the Federal Trade Commission (FTC) accepted a proposed consent agreement relating to our acquisition of Pathmark. The terms of the consent agreement, as discussed in the Annual Report, Note 2 Acquisition of Pathmark Stores, Inc. required the divestiture of six stores located in the state of New York which were subsequently sold for a gain of \$19.4 million in fiscal 2007.

Under the merger agreement, each share of Pathmark common stock outstanding was converted into 0.12963 shares of A&P common stock (together with cash in lieu of fractional shares) and \$9.00 in cash. In determining the purchase price, the common stock outstanding was valued using a Black-Scholes valuation model using the price of A&P common stock of \$32.08 per common share, the average quoted market price of A&P common stock for two trading days before and two trading days after the merger was announced. We issued 6,781,067 shares of A&P common stock and paid \$470.8 million to Pathmark common stockholders based on the number of shares of Pathmark common stock outstanding, less shares of restricted stock and shares held in treasury on November 30, 2007, of 52,310,959.

We issued 1,107,156 roll-over stock options in exchange for Pathmark options granted prior to June 9, 2005 (i.) where consents are not obtained or (ii.) that have exercise prices greater than or equal to \$12.90, the quoted market price of Pathmark common stock on November 30, 2007, the last trading day before the closing date of the merger on December 3, 2007. The underlying stock price at the closing date of the merger was calculated using a ratio of the quoted closing market price for the

Pathmark common stock on the merger closing date. In determining the purchase price, the options are valued using a Black-Scholes valuation model and a market price of \$12.92, the average quoted closing market price of Pathmark common stock for the two trading days prior to the closing date and the closing date.

We also assumed 5,294,118 of outstanding Pathmark 2000 warrants. Upon exercise at the price of \$22.31, each warrant will entitle the holder to receive 0.12963 shares of A&P common stock and \$9.00 in cash. In determining the purchase price, the 2000 warrants are valued using a Black-Scholes valuation model using the price of A&P common stock of \$32.08 per common share, the average quoted market price of A&P common stock for two trading days before and two trading days after the merger was announced. A&P's stock price would need to exceed \$102.70 before the Pathmark 2000 warrants would be considered in-the-money. As part of the acquisition of Pathmark on December 3, 2007, we issued 4,657,378 and 6,956,858 roll-over stock warrants in exchange for Pathmark's 2005 Series A and Series B warrants, respectively. The number of warrants issued was computed based on the conversion factor of 0.46296. The Series A warrants are exercisable at \$18.36 and the Series B warrants are exercisable at \$32.40. These warrants were valued using the price of A&P common stock of \$30.05 per common share, the quoted market price of A&P common stock on November 30, 2007, the last trading day before the transaction closing date. The Tengelmänn stockholders have the right to approve any issuance of common stock under these warrants upon exercise (assuming Tengelmänn's outstanding interest is at least 25% and subject to liquidity impairments defined within the Tengelmänn Stockholder Agreement). In addition, Tengelmänn has the ability to exercise a Put Right whereby it has the ability to require A&P to purchase A&P stock held by Tengelmänn to settle these warrants. Based on the rights provided to Tengelmänn, A&P does not have sole discretion to determine whether the payment upon exercise of these warrants will be settled in cash or through issuance of an equivalent portion of A&P shares. Therefore, these warrants are recorded as liabilities and marked-to-market each reporting period based on A&P's current stock price. During fiscal 2007, we recorded a gain on the market value adjustment to these liabilities of \$11.5 million and \$14.8 million for Series A and Series B warrants, respectively which is included in Non Operating Income on our Consolidated Statements of Operations. The value of the Series A and Series B warrants were \$44.5 million and \$106.1 million, respectively as of February 23, 2008 and is included in Current portion of other financial liabilities and Other financial liabilities, respectively, on our Consolidated Balance Sheets.

The purchase price paid for the acquisition of Pathmark is as follows:

Equity issued to Pathmark common stock holders	\$ 217.5
Issuance to Pathmark option holders	8.9
Issuance to Pathmark 2005 warrant holders	177.0
Issuance to Pathmark 2000 warrant holders	1.1
Total equity consideration	\$ 404.5
Cash paid to redeem Pathmark debt	474.2
Cash paid to Pathmark common stockholders at \$9 per share	470.8
Cash paid to Pathmark option, restricted stock and restricted stock unit holders	22.0
Cash paid for transaction fees, excluding financing fees	41.0
Total cash consideration	\$ 1,008.0
Total consideration	\$ 1,412.5

The acquisition of Pathmark was funded by restricted cash on hand, temporary bridge financing arrangements and the issuance of equity securities.

On April 24, 2007, based upon unsatisfactory operating trends and the need to devote resources to our expanding Northeast core business, our Company announced negotiations for the sale of our non-core stores within our Midwest operations, including inventory related to these stores. Our Company ceased sales operations in all stores as of July 7, 2007. Planned sale transactions for these stores have been completed resulting in a loss on disposal of \$34.3 million. In connection with the shutdown of these operations, we recorded net occupancy costs of \$62.7 million during the fiscal year ended February 23, 2008, for closed stores and warehouses not sold. As we continue to negotiate lease terminations as well as sublease some of these locations, these estimates may require adjustment in future periods.

On May 30, 2007, our Company announced advanced negotiations for the sale of our non-core stores located within the Greater New Orleans area, including inventory related to these stores. Our Company ceased sales operations in all stores as of November 1, 2007. Planned sale transactions for these stores have been completed resulting in a loss on disposal of \$16.5 million. In connection with the shutdown of these operations, we recorded net occupancy costs of \$3.8 million during the fiscal year ended February 23, 2008. As we continue to negotiate lease terminations as well as sublease some of these locations, these estimates may require adjustment in future periods.

The Company's Securities and Exchange Commission (SEC) filings are promptly posted to its website at www.aptea.com after they are filed with the SEC and can be accessed free of charge through a link on the Investors page.

Modernization of Facilities

During fiscal 2007, we expended approximately \$123 million for capital projects, which included 2 new supermarkets, 2 new liquor stores, 9 major remodels or enlargements and 2 minor remodels. Our planned capital expenditures for fiscal 2008 are approximately \$200 million, which

relate primarily to enlarging or remodeling supermarkets, and converting supermarkets to more optimal formats.

Sources of Supply

Our Company currently acquires a majority of our saleable inventory from one supplier, C&S Wholesale Grocers, Inc. Although there are a limited number of distributors that can supply our stores, we believe that other suppliers could provide similar product on comparable terms.

Licenses and Trademarks

Our stores require a variety of licenses and permits that are renewed on an annual basis. Payment of a fee is generally the only condition to maintaining such licenses and permits. We maintain registered trademarks for nearly all of our store banner trade names and private label brand names. Trademarks are generally renewable on a 10 year cycle. We consider trademarks an important way to establish and protect our Company brands in a competitive environment.

Employees

As of February 23, 2008, we had approximately 51,000 employees, of which 69% were employed on a part-time basis. Approximately 91% of our employees are covered by union contracts. Our Company considers its present relations with employees to be satisfactory.

Competition

The supermarket business is highly competitive throughout the marketing areas served by our Company and is generally characterized by low profit margins on sales with earnings primarily dependent upon rapid inventory turnover, effective cost controls and the ability to achieve high sales volume. We compete for sales and store locations with a number of national and regional chains, as well as with many independent and cooperative stores and markets.

Segment Information

The segment information required is contained under the caption Note 15 Operating Segments in the Fiscal 2007 Annual Report to Stockholders (Annual Report) and is herein incorporated by reference.

ITEM 1A Risk Factors

Set forth below is a summary of the material risks to an investment in our securities.

Various risk factors could cause us to fail to achieve these goals. These include, among others, the following:
Our retail food business and the grocery retailing industry continues to experience fierce competition from mass merchandisers, warehouse clubs, drug stores, convenience stores, discount merchandisers, dollar stores, restaurants, other retail chains, nontraditional competitors and emerging alternative formats in the markets where we have retail operations. Competition with these outlets is based on

price, store location, advertising and promotion, product mix, quality and service. Some of these competitors may have greater financial resources, lower merchandise acquisition costs and lower operating expenses than we do, and we may be unable to compete successfully in the future. Price-based competition has also, from time to time, adversely affected our operating margins. Competitors' greater financial strengths enable them to participate in aggressive pricing strategies selling inventory below costs to drive overall increased sales. Our continued success is dependent upon our ability to effectively compete in this industry and to reduce operating expenses, including managing health care and pension costs contained in our collective bargaining agreements. The competitive practices and pricing in the food industry generally and particularly in our principal markets may cause us to reduce our prices in order to gain or maintain our market share of sales, thus reducing margins.

Our in-store pharmacy business is also subject to intense competition. In particular, an adverse trend for drug retailing has been significant growth in mail-order and internet-based prescription processors. Pharmacies are exposed to risks inherent in the packaging and distribution of pharmaceuticals and other healthcare products. In addition, the conversion of various prescription drugs to over-the-counter medications, the withdrawal of certain drugs from the market and changes in third party reimbursement levels for prescription drugs, including changes in Medicare Part D or state Medicaid programs, may have a material adverse effect on our business. Failure to properly adhere to Federal, State and local government rules and regulations, applicable Medicare and Medicaid regulations could result in the imposition of civil as well as criminal penalties.

The retail food and food distribution industries, and the operation of our businesses, specifically in the New York New Jersey and Philadelphia regions, are sensitive to a number of economic conditions and other factors such as (i.) food price deflation or inflation, (ii.) softness in local and national economies, (iii.) increases in commodity prices, (iv.) the availability of favorable credit and trade terms, (v.) changes in business plans, operations, results and prospects, (vi.) potential delays in the development, construction or start-up of planned projects, and (vii.) other economic conditions that may affect consumer buying habits. Any one or more of these economic conditions can affect our retail sales, the demand for products we distribute to our retail customers, our operating costs and other aspects of our business.

Acts of war, threats of terror, acts of terror or other criminal activity directed at the grocery or drug store industry, the transportation industry, or computer or communications systems, could increase security costs, adversely affect our operations, or impact consumer behavior and spending as well as customer orders. Other events that give rise to actual or potential food contamination, drug contamination, or food-borne illness could have an adverse effect on our operating results.

We could be adversely affected if consumers lose confidence in the safety and quality of the food supply chain. Adverse publicity about these types of concerns, whether or not valid, could discourage consumers from buying products in our stores. The real or perceived sale of contaminated food products by us could result in a loss of consumer confidence and product liability claims, which could have a material adverse effect on our sales and operations.

Our operations subject us to various laws and regulations relating to the protection of the environment, including those governing the management and disposal of hazardous materials and the cleanup of contaminated sites. Under some environmental laws, such as the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, also known as CERCLA or the

Superfund law, and similar state statutes, responsibility for the entire cost of cleanup of a contaminated site can be imposed upon any current or former site owners or operators, or upon any party who sent waste to the site, regardless of the lawfulness of the original activities that led to the contamination. From time to time we have been named as one of many potentially responsible parties at Superfund sites, although our share of liability has typically been de minimis. Although we believe that we are currently in substantial compliance with applicable environmental requirements, future developments such as more aggressive enforcement policies, new laws or discoveries of unknown conditions may require expenditures that may have a material adverse effect on our business and financial condition.

Our capital expenditures could differ from our estimate if development and remodel costs vary from those budgeted, or if performance varies significantly from expectations or if we are unsuccessful in acquiring suitable sites for new stores.

Our ability to achieve our profit goals will be affected by (i.) our success in executing category management and purchasing programs that we have underway, which are designed to improve our gross margins and reduce product costs while making our product selection more attractive to consumers, (ii.) our ability to achieve productivity improvements and reduce shrink in our stores, (iii.) our success in generating efficiencies in our supporting activities, and (iv.) our ability to eliminate or maintain a minimum level of supply and/or quality control problems with our vendors.

The majority of our employees are members of labor unions. While we believe that our relationships with union leaderships and our employees are satisfactory, we operate under collective bargaining agreements which periodically must be renegotiated. In the coming year, we have several contracts expiring and under negotiation. In each of these negotiations, rising health care and pension costs will be an important issue, as will the nature and structure of work rules. We are hopeful, but cannot be certain, that we can reach satisfactory agreements without work stoppages in these markets. However, the actual terms of the renegotiated collective bargaining agreements, our future relationships with our employees and/or a prolonged work stoppage affecting a substantial number of stores could have a material effect on our results.

The amount of contributions made to our pension and multi-employer plans will be affected by the performance of investments made by the plans and the extent to which trustees of the plans reduce the costs of future service benefits.

Our Company is currently required to acquire a majority of our saleable inventory from one supplier, C&S Wholesale Grocers, Inc. Although there are a limited number of distributors that can supply our stores, we believe that other suppliers could provide similar product on reasonable terms. However, a change in suppliers could cause a delay in distribution and a possible loss of sales, which would affect operating results adversely.

We have estimated our exposure to claims, administrative proceedings and litigation and believe we have made adequate provisions for them, where appropriate. Unexpected outcomes in both the costs and effects of these matters could result in an adverse effect on our earnings.

The success of the merger with Pathmark will depend, in part, on the combined company's ability to realize the anticipated benefits from combining the businesses of A&P and Pathmark, including, anticipated annual integration synergies within two years, through cost reductions in overhead, greater efficiencies, increased utilization of support facilities and the adoption of mutual best

practices between the two companies. These integration matters could have a material adverse effect on our business.

Following the closing of the acquisition of Pathmark, Tengemann, A&P's former majority stockholder, owned beneficially and of record a substantial percentage of our common stock on a fully diluted basis. As a result of this equity ownership and our stockholder agreement with Tengemann, Tengemann has the power to significantly influence the results of stockholder votes and the election of our board of directors, as well as transactions involving a potential change of control of our Company. Tengemann may support strategies and directions for our Company which are in its best interests but which are opposed to other stockholder interests.

Our substantial indebtedness could impair our financial condition and our ability to fulfill our debt obligations. Our indebtedness could make it more difficult for us to satisfy our obligations, which could in turn result in an event of default on our obligations, require us to dedicate a substantial portion of our cash flow from operations to debt service payments, thereby reducing the availability of cash for working capital, capital expenditures, acquisitions, general corporate purposes or other purposes, impair our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, general corporate purposes or other purposes, diminish our ability to withstand a downturn in our business, the industry in which we operate or the economy generally, limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate, and place us at a competitive disadvantage compared to certain competitors that have proportionately less debt. Our New Credit Agreement (Credit Agreement) contains restrictive covenants customary for facilities of that type which limit our ability to incur additional debt, pay dividends, grant additional liens, make investments and take other actions. These restrictions may limit our flexibility to undertake future financings and take other actions. If we are unable to meet our debt service obligations, we could be forced to restructure or refinance our indebtedness, seek additional equity capital or sell assets. We may be unable to obtain financing or sell assets on satisfactory terms, or at all. In addition, our Credit Agreement bears interest at a variable rate. If market interest rates increase, such variable-rate debt will have higher debt service requirements, which could adversely affect our cash flow. While we may enter into agreements limiting our exposure to higher interest rates, any such agreements may not offer complete protection from this risk.

We are the primary obligor for a significant amount of closed stores and warehouses under long-term leases, primarily located in the Midwest. Our ability to sublet or assign these leases depends on the economic conditions of the real estate markets in which these leases are located. We have estimated our obligation under these leases, net of expected subleases and we have reserved for them, where appropriate. Unexpected changes in the marketplace or with individual sublessors could result in an adverse effect on our earnings.

Fluctuating fuel costs may adversely affect our operating costs since we incur the cost of fuel in connection with the transportation of goods from our warehouse and distribution facilities to our stores. In addition, operations at our stores are sensitive to rising utility fuel costs due to the amount of electricity and gas required to operate our stores. We may not be able to recover these rising utility and fuel costs through increased prices charged to our customers. Our profitability is particularly sensitive to the cost of oil. Oil prices directly affect our product transportation costs and fuel costs due to the amount of electricity and gas required to operate our stores as well as our utility and petroleum-based supply costs; including plastic bags for example.

We are subject to federal, state and local laws and regulations relating to zoning, land use, environmental protection, work place safety, public health, community right-to-know, beer and wine sales, pharmaceutical sales and gasoline station operations. A number of states and local jurisdictions regulate the licensing of supermarkets, including beer and wine license grants. In addition, under certain local regulations, we are prohibited from selling beer and wine in certain of our stores. Employers are also subject to laws governing their relationship with employees, including minimum wage requirements, overtime, working conditions, disabled access and work permit requirements. Compliance with these laws could reduce the revenue and profitability of our supermarkets and could otherwise adversely affect our business, financial condition or results of operations. In addition, any changes in these law or regulations could significantly increase our compliance costs and adversely affect our results of operations, financial condition and liquidity.

We have large, complex information technology systems that are important to business operations. We could encounter difficulties developing new systems and encounter difficulties maintaining, upgrading or securing our existing systems. Such difficulties could lead to significant expenses or losses due to disruption in our business operations.

Our articles of incorporation permit our board of directors to issue preferred shares without first obtaining stockholder approval. If we issued preferred shares, these additional securities may have dividend or liquidation preferences senior to our common stock. If we issue convertible preferred shares, a subsequent conversion may dilute the current common stockholders' interest. Issuance of such preferred stock could adversely affect the price of our common stock.

Other factors and assumptions not identified above could also cause actual results to differ materially from those set forth in the forward-looking information. Accordingly, actual events and results may vary significantly from those included in or contemplated or implied by forward looking statements made by us or our representatives.

Land and building owned	6
Undeveloped land	9
Total other properties	15
Total Properties	60

None of the properties listed above are subject to material encumbrances.

At February 23, 2008, we operated 447 retail stores. These stores are geographically located as follows:

Company Stores:

New England States:	
Connecticut	25
Massachusetts	2
Total	27
Middle Atlantic States:	
District of Columbia	2
Delaware	12
Maryland	29
New Jersey	154
New York	175
Pennsylvania	47
Virginia	1
Total	420
Total Stores	447

The total area of all of our operated retail stores is 18.8 million square feet averaging approximately 42,000 square feet per store. Excluding liquor and The Food Emporium^â stores, which are generally smaller in size, the average store size is approximately 45,400 square feet. The 10 new stores opened in fiscal 2007 consisted of 2 new supermarkets

and 2 new liquor stores that range in size from 39,700 to 47,200 and 4,000 to 7,000 square feet with an average size of approximately 43,500 and 5,500 square feet, respectively. The remaining 6 stores consisted of Best Cellars liquor stores that we acquired in October and range in size from 1,000 to 2,000 square feet, with an average size of approximately 1,400 square feet. The stores built over the past several years and those planned for fiscal 2008 and thereafter, generally range in size from 40,000 to 60,000 square feet. The selling area of new stores is approximately 75% of the total square footage.

The majority of our store network is serviced by C&S Wholesale Grocers, Inc. In connection with the acquisition of Pathmark, we acquired a warehouse that is used to distribute General Merchandise.

Our Company considers our stores, warehouses, and other facilities adequate for our operations.

ITEM 5 Market for the Registrant's Equity and Related Stockholder Matters and Issuer Purchases of Equity Securities

The information required is contained under the captions Summary of Quarterly Results, Five Year Summary of Selected Financial Data, and Stockholder Information in the Fiscal 2007 Annual Report to Stockholders and is herein incorporated by reference.

Although our Company declared and paid a special one-time dividend to our shareholders of record on April 17, 2006 equal to \$7.25 per share in April 2006, our Company's policy is to not pay dividends. As such, we have not made dividend payments in the previous three years and do not intend to pay dividends in the normal course of business in fiscal 2008. The terms of our Revolving Credit Agreement restrict the Company's ability to pay cash dividends on common shares.

There have been no repurchases of our Company stock in fiscal 2007.

As of May 6, 2008, there were approximately 5,765 stockholders of record of our common stock.

Stock Performance Graph

The following performance graph compares the five-year cumulative total stockholder return (assuming reinvestment of dividends) of the Company's Common Stock to the Standard & Poor's 500 Index and the Company's Peer Group which consists of the Company, Supervalu Inc., Safeway, Inc. and The Kroger Co. The Peer Group for the purposes of the Stock Performance Graph is a subset of, and should not be confused for, the peer group list of companies used to benchmark executive compensation as discussed in the Proxy Statement for the Company's 2007 Annual Meeting of Shareholders (Proxy Statement). The performance graph assumes \$100 is invested in the Company's Common Stock, the Standard & Poor's 500 Index and the Company's Peer Group on February 24, 2001, and that dividends paid during the period were reinvested to purchase additional shares.

ITEM 9 Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

There were no changes in or disagreements with accountants on accounting and financial disclosure during the fiscal year ended February 23, 2008.

ITEM 9A Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established and maintain disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) that are designed to ensure that information required to be disclosed in our Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is

accumulated and communicated to our Company's management, including our President and Chief Executive Officer and Senior Vice President, Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision and with the participation of our Company's management, including our Company's President and Chief Executive Officer along with our Company's Senior Vice President, Chief Financial Officer, of the effectiveness of the design and operation of our Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b). Based upon the foregoing, as of the end of the period covered by this report, our Company's President and Chief Executive Officer along with our Company's Senior Vice President, Chief Financial Officer, concluded that our Company's disclosure controls and procedures were effective at the reasonable assurance level.

The Company's management does not expect that its disclosure controls and procedures or its internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of some person or by collusion of two or more people. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected. Accordingly, the Company's disclosure controls and procedures are designed to provide reasonable, not absolute, assurance that the objectives of our disclosure control system are met and, as set forth above, the Company's management has concluded, based on their evaluation as of the end of the period, that our disclosure controls and procedures were sufficiently effective to provide reasonable assurance that the objectives of our disclosure control system were met.

Our evaluation did not include the internal controls over financial reporting of Pathmark Stores, Inc. which was acquired on December 3, 2007. Total assets and total sales for the Acquisition represent 27.5% and 14.4%, respectively, of the related consolidated financial statement amounts as of and for the fiscal year ended February 23, 2008.

Incorporation by reference of Management's Annual Report on Internal Control over Financial Reporting

Management of The Great Atlantic and Pacific Tea Company, Inc. has prepared an annual report on internal control over financial reporting (as such item is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). Management's report, together with the attestation report of the independent registered public accounting firm, is included in our Company's Fiscal 2007 Annual Report to Stockholders and is herein incorporated by reference in this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

Other than discussed below, there has been no change during our Company's fiscal quarter ended February 23, 2008 in our Company's internal control over financial reporting (as such item is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our Company's internal control over financial reporting.

Our evaluation did not include the internal controls over financial reporting of Pathmark Stores, Inc. which was acquired on December 3, 2007. Total assets and total sales for the Acquisition represent 27.5% and 14.4%, respectively, of the related consolidated financial statement amounts as of and for the fiscal year ended February 23, 2008.

**Report of Independent Registered Public Accounting Firm on
Financial Statement Schedule**

To the Stockholders and Board of Directors of
The Great Atlantic & Pacific Tea Company, Inc.:

Our audits of the consolidated financial statements and of the effectiveness of internal control over financial reporting referred to in our report dated May 8, 2008 appearing in the Fiscal 2007 Annual Report to Shareholders of The Great Atlantic & Pacific Tea Company, Inc. (which report and consolidated financial statements are incorporated by reference in this Annual Report on Form 10-K) also included an audit of the financial statement schedule listed in Item 15(a)(2) of this Form 10-K. In our opinion, this financial statement schedule presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements.
