Explanatory Note

This Amendment No. 1 amends Exhibit 99.1 to the Current Report on Form 8-K filed by Seacoast Banking Corporation of Florida (the Company) with the Securities and Exchange Commission on July 30, 2009 in order to revise the Financial Highlights table contained therein to identify certain measures relating to tangible book value per share, tangible common equity per share and the ratio of tangible common equity to tangible assets as non-GAAP financial measures and to provide a reconciliation to the most clearly comparable GAAP measures. Subsequent to the July 30, 2009 Report on Form 8-K, the Company determined to take an impairment charge to eliminate the Company's goodwill asset. The effects of this charge are reflected in our Quarterly Report on Form 10-Q as of and for the period ended June 30, 2009.

The following are furnished and not filed under the Securities Exchange Act of 1934, as amended.

Item 2.02 Results of Operations and Financial Condition.

The table below contains financial information determined by methods other than those prescribed by accounting principles generally accepted in the United States of America (GAAP). Seacoast's management uses these non-GAAP financial measures in its analysis of the Company's performance. Seacoast's management uses these measures to assess the quality of capital and believes that investors may find it useful in their analysis of the Company. Such capital measures are not necessarily comparable to similar capital measures that may be presented by other companies. Seacoast's management believes that these non-GAAP financial measures provide a greater understanding of ongoing operations and enhance comparability.
