BIOLASE TECHNOLOGY, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

NOTE 1 BASIS OF PRESENTATION

The Company

BIOLASE Technology, Inc. or the Company or Biolase, incorporated in Delaware in 1987, is a medical technology company operating in one business segment that designs, manufactures and markets advanced dental, cosmetic and surgical lasers and related products.

Basis of Presentation

The unaudited consolidated financial statements include the accounts of BIOLASE Technology, Inc. and its consolidated subsidiaries and have been prepared on a basis consistent with the December 31, 2009 audited consolidated financial statements and include all material adjustments, consisting of normal recurring adjustments and the elimination of all material intercompany transactions and balances, necessary to fairly present the information set forth therein. These unaudited, interim, consolidated financial statements do not include all the footnotes, presentations and disclosures normally required by accounting principles generally accepted in the United States of America, or GAAP, for complete consolidated financial statements. Certain amounts have been reclassified to conform to current period presentation.

Use of Estimates

The preparation of these consolidated financial statements in conformity with GAAP requires us to make estimates and assumptions that affect amounts reported in the consolidated financial statements and the accompanying notes. Significant estimates in these consolidated financial statements include allowances on accounts receivable, inventory and deferred taxes, as well as estimates for accrued warranty expenses, the realizability of goodwill and indefinite-lived intangible assets, effects of stock-based compensation and the provision or benefit for income taxes. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may differ materially from those estimates.

Fair Value of Financial Instruments

Our financial instruments, consisting of cash, accounts receivable, accounts payable and other accrued expenses, approximate fair value because of the short maturity of these items. Financial instruments consisting of long and short term debt approximate fair value since the interest rate approximates the market rate for debt securities with similar terms and risk characteristics.

Revenue Recognition

Effective September 1, 2006, nearly all of our domestic sales are to Henry Schein, Inc., or HSIC; prior to this date, we sold our products directly to customers through our direct sales force. Sales to HSIC are recorded upon shipment from our facility and payment of our invoices is generally due within 60 days or less. Internationally, we sell products through independent distributors including HSIC. We recognize revenue based on four basic criteria that must be met before revenue can be recognized: (i) persuasive evidence of an arrangement exists; (ii) delivery has occurred and title and the risks and rewards of ownership have been transferred to our customer, or services have been rendered; (iii) the price is fixed or determinable; and (iv) collectibility is reasonably assured.

Sales of our laser systems include separate deliverables consisting of the product, disposables used with the laser systems, installation and training. For these sales, we apply the residual value method, which requires us to allocate to the delivered elements the total arrangement consideration less the fair value of the undelivered elements. Revenue attributable to the undelivered elements, primarily training, is included in deferred revenue when the product is shipped and is recognized when the related service is performed or upon expiration of time offered under the agreement.

The key judgment related to our revenue recognition relates to the collectibility of payment from the customer. We evaluate the customer's credit worthiness prior to the shipment of the product. Based on our assessment of the credit information available to us, we may determine the credit risk is higher than normally acceptable, and we will either decline the purchase or defer the revenue until payment is reasonably assured.

Table of Contents

Although all sales are final, we accept returns of products in certain, limited circumstances and record a provision for sales returns based on historical experience concurrent with the recognition of revenue. The sales returns allowance is recorded as a reduction of accounts receivable and revenue.

We recognize revenue for royalties under licensing agreements for our patented technology when the product using our technology is sold. We estimate and recognize the amount earned based on historical performance and current knowledge about the business operations of our licensees. Our estimates have been consistent with amounts historically reported by the licensees. Licensing revenue related to exclusive licensing arrangements is recognized concurrent with the related exclusivity period.

We may offer sales incentives and promotions on our products. We recognize the cost of sales incentives at the date at which the related revenue is recognized, or later, in the case of incentives offered after the initial sale has occurred.

Liquidity and Management s Plans

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of obligations in the normal course of business. We have incurred significant net losses and net revenue has declined during the past three years. As of June 30, 2010, we had \$2.9 million in cash and cash equivalents to finance operations and to satisfy our obligations. We are substantially dependent on our primary distributor and the continued performance of this distributor to make committed purchases of our products and associated consumables under our distribution agreement, and the receipt of cash in connection with those purchases, is essential to our liquidity. On February 16, 2010, HSIC agreed to provide us with advance payments of \$5.8 million in fulfillment of the February 27, 2009 letter agreement. (See Note 7) On March 9, 2010, we entered into a new agreement, effective April 1, 2010 (See Note 7), and while it provides for lower monthly guaranteed payments, it also provides more upside opportunity to expand beyond those minimums, based largely upon targeted marketing efforts and incremental sales performance with dental offices that we have not been working closely with. The letter agreement has an initial term of one year, after which the letter agreement may be extended for a period of six months by mutual agreement. Either party may terminate the letter agreement upon sixty days advance written notice to the other party. There can be no assurance that the distributor will not terminate this agreement prior to the end of the one year term. As of June 30, 2010, HSIC has fulfilled its guaranteed minimum purchase obligations and related prepayments of \$4.5 million to date under this agreement. In respect of the February 16, 2010 and March 9, 2010 letter agreements with HSIC, we have collectively received advance payments of \$10.3 million of which \$6.3 million remained in customer deposits at June 30, 2010.

On May 27, 2010 we entered into a Loan and Security Agreement (See Note 8) in respect of a \$5 million term loan, \$3 million was funded on such date. In addition, we implemented cost cutting measures at the end of the second quarter of 2010 which included a reduction in headcount of approximately 20 full time employees. Our ability to meet our obligations in the ordinary course of business is dependent upon our ability to raise additional financing through public or private equity or debt financing, to establish profitable operations, or to secure other sources of financing to fund operations. Management intends to seek to increase sales, or raise working capital through additional debt or an equity financing in 2010. However, there can be no assurance we will be able to increase sales or that such financing can be successfully completed on terms acceptable to the Company or at all.

NOTE 2 RECENT ACCOUNTING PRONOUNCEMENTS

Newly Adopted Accounting Standards

In May 2009, the FASB established general standards for accounting and disclosure of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. The pronouncement required the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date, whether that date represents the date the financial statements were issued or were available to be issued. On February 24, 2010, the FASB amended this standard whereby SEC filers, like the Company, are required by GAAP to evaluate subsequent events through the date its financial statements are issued, but are no longer required to disclose in the financial statements that the Company has done so or disclose the date through which subsequent events have been evaluated.

Table of Contents

In August 2009, the FASB provided clarification when measuring liabilities at fair value of a circumstance in which a quoted price in an active market for an identical liability is not available. A reporting entity is required to measure fair value using one or more of the following methods: 1) a valuation technique that uses a) the quoted price of the identical liability when traded as an asset or b) quoted prices for similar liabilities (or similar liabilities when traded as assets) and/or 2) a valuation technique that is consistent with the preexisting fair value guidance. It also clarifies that when estimating the fair value of a liability, a reporting entity is not required to adjust to include inputs relating to the existence of transfer restrictions on that liability. The adoption did not have a material impact on our consolidated financial statements.

Accounting Standards Not Yet Adopted

In October 2009, the Financial Accounting Standard Board issued an update to existing guidance on accounting for arrangements with multiple deliverables. This update will allow companies to allocate consideration received for qualified separate deliverables using estimated selling price for both delivered and undelivered items when vendor-specific objective evidence or third-party evidence is unavailable. Additional disclosures discussing the nature of multiple element arrangements, the types of deliverables under the arrangements, the general timing of their delivery, and significant factors and estimates used to determine estimated selling prices will be required. This guidance is effective prospectively for annual periods beginning after June 15, 2010. We have not yet determined the impact on our consolidated financial statements.

NOTE 3 STOCK-BASED COMPENSATION AND PER SHARE INFORMATION**Stock-Based Compensation**

We have three stock-based compensation plans the 1990 Stock Option Plan, the 1993 Stock Option Plan and the 2002 Stock Incentive Plan. The 1990 and 1993 Stock Option Plans have been terminated with respect to granting additional stock options. Under these plans, stock options are awarded to certain officers, directors and employees of the Company at the discretion of the Company's management and/or Board of Directors. Options to employees generally vest on a quarterly basis over three years.

Compensation cost related to stock options recognized in operating results during the three months ended June 30, 2010 and 2009 was \$180,000 and \$317,000, respectively. The net impact to earnings for those periods was \$(0.01) and \$(0.01) per basic and diluted share, respectively. Compensation cost related to stock options recognized in operating results during the six months ended June 30, 2010 and 2009, was \$386,000 and \$785,000, respectively. The net impact to earnings for those periods was \$(0.02) and \$(0.04) per basic and diluted share, respectively. At June 30, 2010, we had \$724,000 of total unrecognized compensation cost, net of estimated forfeitures, related to unvested share-based compensation arrangements granted under our existing plans. We expect that cost to be recognized over a weighted average period of .9 years.

The following table summarizes the income statement classification of compensation expense associated with share-based payments (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Cost of revenue	\$ 8	\$ 34	\$ 19	\$ 77
Sales and marketing	48	104	106	228
General and administrative	100	138	212	396
Engineering and development	24	41	49	84
	\$ 180	\$ 317	\$ 386	\$ 785

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions, including the expected stock price volatility. Our options have characteristics significantly different from those of traded options, and changes in the subjective input assumptions can materially affect the fair value estimate. This option pricing model requires us to make several assumptions regarding the key variables used in

the model to calculate the fair value of its stock options. The risk-free interest rate used by us is based on the U.S. Treasury yield curve in effect for the expected lives of the options at their dates of grant. Beginning July 1, 2005, we have used a dividend yield of zero as we do not intend to pay dividends on our common stock in the foreseeable future. The most critical assumption used in calculating the fair value of stock options is the expected volatility of our common stock. We believe that the historic volatility of our common stock is a reliable indicator of future volatility, and accordingly, have used a stock volatility factor based on the historical volatility of our common stock over a period of time approximating the estimated lives of our stock options. The expected term is estimated by analyzing our historical share option exercise experience over a five year period. Compensation expense is recognized using the straight-line method for all stock-based awards. Compensation expense is recognized only for those options expected to vest, with forfeitures estimated at the date of grant based on our historical experience and future expectations. Forfeitures are estimated at the time of the grant and revised as necessary in subsequent periods if actual forfeitures differ from those estimates.

Table of Contents

The stock option fair values were estimated using the Black-Scholes option-pricing model with the following assumptions:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Expected term (years)	4.80	5.00	4.83	4.95
Volatility	83%	84%	83%	84%
Annual dividend per share	\$ 0.00	\$ 0.00	\$ 0.00	\$ 0.00
Risk-free interest rate	2.43%	2.05%	2.43%	1.83%

A summary of option activity under our stock option plans for the six months ended June 30, 2010 is as follows:

	Shares	Weighted average exercise price	Weighted average remaining contractual term (years)	Aggregate intrinsic value(1)
Options outstanding at December 31, 2009	3,650,000	\$ 4.50		
Plus: Options granted	196,000	\$ 1.92		
Less: Options exercised	(43,000)	\$ 0.97		
Options canceled or expired	(285,000)	\$ 5.60		
Options outstanding at June 30, 2010	3,518,000	\$ 4.31	6.63	\$ 462,000
Options exercisable at June 30, 2010	2,581,000	\$ 5.21	5.82	\$ 311,000
Options expired during the six months ended June 30, 2010	262,000	\$ 5.80		

(1) The intrinsic value calculation does not include negative values. This can occur when the fair market value on the reporting date is less than the exercise price of the grant.

Cash proceeds along with fair value disclosures related to grants, exercises and vesting options are provided in the following table (in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Proceeds from stock options exercised	\$ 34	\$	\$ 42	\$

Edgar Filing: BIOLASE TECHNOLOGY INC - Form 10-Q

Tax benefit related to stock options exercised (1)		N/A		N/A		N/A		N/A
Intrinsic value of stock options exercised (2)	\$	20	\$		\$	30	\$	
Weighted-average fair value of options granted during period	\$	1.26	\$.83	\$	1.27	\$.58
Total fair value of shares vested during the period	\$	150	\$	445	\$	359	\$	941

(1) Excess tax benefits received related to stock option exercises are presented as financing cash inflows. We currently do not receive a tax benefit related to the exercise of stock options due to our net operating losses.

(2) The intrinsic value of stock options exercised is the amount by which the market price of the stock on the date of exercise exceeded the market price of the stock on the date of grant.

Table of Contents**Warrants**

In connection with the Loan and Security Agreement entered into on May 27, 2010, warrants were granted to MidCap Financial and Silicon Valley Bank to purchase up to an aggregate of 101,694 shares of our common stock at a price per share of \$1.77. (See Note 8)

Net Income (Loss) Per Share Basic and Diluted

Basic net income (loss) per share is computed by dividing income (loss) available to common stockholders by the weighted-average number of common shares outstanding for the period. In computing diluted net income (loss) per share, the weighted average number of shares outstanding is adjusted to reflect the effect of potentially dilutive securities.

Outstanding stock options and warrants to purchase 3,620,000 shares were not included in the computation of diluted loss per share for the three months ended June 30, 2010 as a result of their anti-dilutive effect. Outstanding stock options to purchase 77,000 shares were included in the computation of diluted earnings per share for the three months ended June 30, 2009. For the same 2009 period, anti-dilutive outstanding stock options and warrants to purchase 3,485,000 shares were not included in the computation of diluted earnings per share.

Outstanding stock options and warrants to purchase 3,620,000 shares were not included in the computation of diluted loss per share for the six months ended June 30, 2010 as a result of their anti-dilutive effect. In January 2010, a five year warrant exercisable into 81,037 shares of common stock had expired. Outstanding stock options and warrants to purchase 4,299,000 shares were not included in the computation of diluted loss per share for the six months ended June 30, 2009 as a result of their anti-dilutive effect.

NOTE 4 INVENTORY

Inventory is valued at the lower of cost or market (determined by the first-in, first-out method) and is comprised of the following (in thousands):

	June 30, 2010	December 31, 2009
Raw materials	\$ 4,004	\$ 3,400
Work-in-process	1,684	1,497
Finished goods	3,596	2,964
Inventory, net	\$ 9,284	\$ 7,861

Inventory is net of the provision for excess and obsolete inventory of \$1.9 million at June 30, 2010 and December 31, 2009.

NOTE 5 PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, net is comprised of the following (in thousands):

	June 30, 2010	December 31, 2009
Land	\$	\$ 273
Building		418

Property, plant and equipment, net	\$ 1,185	\$ 2,180

Table of Contents

Depreciation and amortization of property, plant and equipment was \$240,000 and \$506,000 for the three and six months ended June 30, 2010, respectively, and \$327,000 and \$699,000 for the three and six months ended June 30, 2009, respectively.

Leasehold improvements include \$536,000 of tenant improvements paid by the landlord in connection with our primary facility lease.

As a result of transitioning our direct sales in certain countries to Henry Schein, Inc. in early 2009, we began the process of shutting down our foreign operations in those countries. In December 2008, we wrote down the value of our land and building in Germany by \$355,000 to reflect the market value of the asset. In June 2010, we agreed to an offer to sell the land and building in Germany for 435,000 or \$531,000, and as a result, wrote down the net book value of the assets to net realizable value by 28,000 or \$35,000. Fully depreciated assets in the amount of 231,000 or \$282,000, which were no longer usable, have also been written off.

Assets held for sale is comprised of the following (in thousands):

	June 30, 2010
Land	\$ 232
Building	299
Assets held for sale	\$ 531

NOTE 6 INTANGIBLE ASSETS AND GOODWILL

We conducted our annual impairment analysis of our goodwill and trade names as of June 30, 2010 and concluded there had not been any impairment. Due to current volatility in our stock price caused by adverse equity market conditions and the general economic environment, we closely monitor our stock price and market capitalization and perform such analysis on a quarterly basis. We believe that no triggering events have occurred since June 30, 2010 that would have a material effect on the value of the remaining assets.

We believe no event has occurred that would trigger an impairment of our intangible assets with finite lives that are subject to amortization in 2010. We recorded amortization expense of \$32,000 and \$65,000 for the three and six months ended June 30, 2010, respectively, and \$33,000 and \$76,000, respectively, for the same periods in 2009. Other intangible assets consist of an acquired customer list and a non-compete agreement.

The following table presents details of the Company's intangible assets, related accumulated amortization and goodwill (in thousands):

	As of June 30, 2010				As of December 31, 2009			
	Gross	Accumulated Amortization	Impairment	Net	Gross	Accumulated Amortization	Impairment	Net

Total deferred revenue, current portion	\$ 1,976	\$ 1,123

On August 8, 2006, we entered into a License and Distribution Agreement with Henry Schein, Inc., or HSIC, a large distributor of healthcare products to office-based practitioners, pursuant to which we granted HSIC the exclusive right to distribute our complete line of dental laser systems, accessories and services in the United States and Canada.

Concurrent with the execution of the Agreement, HSIC paid an upfront license fee of \$5.0 million. The Agreement had an initial term of three years, following which HSIC has the option to extend the Agreement for an additional three-year period under certain circumstances, including its satisfaction of the minimum purchase requirements during the full three-year period, and for an additional license fee of \$5.0 million. We amortized the initial \$5.0 million payment to *License Fees and Royalty Revenue* on a straight-line basis over the three-year term of the Agreement. Under the Agreement, HSIC was obligated to meet certain minimum purchase requirements and was entitled to receive incentive payments if certain purchase targets were achieved. If HSIC had not met the minimum purchase requirements at the midpoint of each of the first two three-year periods, we would have had the option, upon repayment of a portion of the license fee, to (i) shorten the remaining term of the agreement to one year, (ii) grant distribution rights held by HSIC to other persons (or distribute products itself), (iii) reduce certain discounts on products given to HSIC under the agreement, and (iv) cease paying future incentive payments. We maintain the right to grant certain intellectual property rights to third parties, but by doing so may incur the obligation to refund a portion of the upfront license fee to HSIC.

Table of Contents

On May 9, 2007, we entered into an addendum with HSIC, effective as of April 1, 2007, which modified the License and Distribution Agreement to add the terms and conditions under which HSIC has the exclusive right to distribute our *eZlase* diode dental laser system in the United States and Canada. In the Addendum, separate minimum purchase requirements were established for the *eZlase* system. If HSIC had not met the minimum purchase requirement for any 12-month period ending on March 31, we would have had the option, upon 30 days written notice, to (i) convert *eZlase* distribution rights to a non-exclusive basis for a minimum period of one year, after which period we would have had the option to withdraw *eZlase* distribution rights, and (ii) reduce the distributor discount on *eZlase* products. On March 3, 2008, we entered into a second addendum with HSIC that modified the License and Distribution Agreement, as amended by the first addendum. Pursuant to the second addendum, HSIC was obligated to meet certain minimum purchase requirements and was entitled to receive incentive payments if certain purchase targets were achieved. If HSIC did not meet minimum purchase requirements, we would have had the option to (i) shorten the remaining term of the Agreement to one year, (ii) grant distribution rights held by HSIC to other persons (or distribute products ourselves), (iii) reduce certain discounts on products given to HSIC under the Agreement, and (iv) cease paying future incentive payments. Additionally, under certain circumstances, if HSIC did not meet the minimum purchase requirements, we would have had the right to purchase back the exclusive distributor rights granted to HSIC under the agreement. We also agreed to actively promote Henry Schein Financial Services as our exclusive leasing and financing partner.

On December 23, 2008, we entered into a brief letter agreement with HSIC which amended the initial term of the License and Distribution Agreement to December 31, 2010.

On February 27, 2009, we entered into a letter agreement with HSIC which amended the License and Distribution Agreement, as amended by the first and second addendums and the brief letter agreement. This letter agreement included certain minimum purchase requirements during the initial fourteen-month term of the agreement. In connection with the initial purchase by HSIC made under the letter agreement, on March 13, 2009, we entered into a security agreement, or March 2009 Security Agreement, with HSIC, granting to HSIC a security interest in our inventory, equipment, and other assets. Pursuant to the March 2009 Security Agreement, the security interest granted was released upon products delivered by us to HSIC in respect of such initial purchase. HSIC also had the option to extend the term of the letter agreement for two additional one-year terms based on certain minimum purchase requirements. In addition, HSIC became our distributor in certain international countries including Germany, Spain, Australia and New Zealand and had first right of refusal in new international markets that we were interested in entering.

On September 10, 2009, we entered into an amendment to the License and Distribution Agreement with HSIC, wherein we agreed to provide to HSIC certain customer warranties in respect of the Company's products.

On January 31, 2010, we entered into a letter agreement amending the License and Distribution Agreement, dated as of August 8, 2006, as amended. Pursuant to the letter agreement, we agreed to an extension of the time for HSIC to provide notice of its intention to renew the License and Distribution Agreement for an additional one year term, from February 1, 2010 to February 25, 2010, in accordance with the terms and conditions thereof.

On February 16, 2010, we entered into a letter agreement amending the License and Distribution Agreement, dated as of August 8, 2006, as amended. Pursuant to the letter agreement, we agreed to HSIC's request to make certain changes to the applicable product categories required to be purchased by HSIC through March 31, 2010, as set forth in the February 27, 2009 letter agreement. The changes include advance payments in respect of, among other things, purchases of the iLase and the provision of upgrades by us to existing products, should such upgrades be made available in the future. In connection with advance payments of \$5.8 million, of which \$4.0 million remained in customer deposits at March 31, 2010 after netting outstanding accounts receivable, we entered into a security agreement, or February 2010 Security Agreement, with HSIC, granting to HSIC a security interest in our inventory, equipment, and other assets. Pursuant to the February 2010 Security Agreement, the security interest granted shall be released upon products delivered by us to HSIC in respect of such advance payments.

On February 24, 2010, we entered into a letter agreement amending the License and Distribution Agreement, dated as of August 8, 2006, as amended. Pursuant to the letter agreement, we agreed to an extension of the time for HSIC to provide notice of its intention to renew the License and Distribution Agreement for an additional one year term, from

February 25, 2010 to March 3, 2010, in accordance with the terms and conditions thereof.

Table of Contents

On March 9, 2010, we entered into a letter agreement with HSIC, effective April 1, 2010. The letter agreement calls for guaranteed minimum purchases by HSIC of \$18 million, payable in semi-monthly payments of \$750,000, solely in respect of laser equipment in certain territories, plus additional laser equipment purchases on an uncapped basis in certain other territories, plus incremental purchases of consumable products and services in certain applicable territories. Pursuant to this letter agreement, all dental sales will continue to be provided exclusively through HSIC in the United Kingdom, Australia, New Zealand, Belgium, Luxembourg, Netherlands, Spain, Germany, Italy, Austria, and North America. This letter agreement provides incentives for HSIC to focus on its core customer base, and allows us to generate incremental sales to additional dental offices outside of HSIC's core customer base. This letter agreement has an initial term of one year, after which this letter agreement may be extended for a period of six months by mutual agreement. Either party may terminate this letter agreement upon sixty days' advance written notice to the other party.

Subsequent to the period covered by this Quarterly Report, on August 13, 2010, we entered into a letter agreement with HSIC. This letter agreement, effective August 17, 2010, reduces the advance notice required to terminate the March 9, 2010 letter agreement from sixty to forty-five days.

In respect of the February 16, 2010 and March 9, 2010 letter agreements with HSIC, we have collectively received advance payments of \$10.3 million, of which \$6.3 million remained in customer deposits at June 30, 2010.

On June 29, 2006, we received a one-time payment from The Procter & Gamble Company, or P&G, of \$3.0 million for a license to certain of our patents pursuant to a binding letter agreement, subsequently replaced by a definitive agreement effective January 24, 2007, or P&G Agreement, which was recorded as deferred revenue when received. In the event of a material uncured breach of the definitive agreement by us, we could be required to refund certain payments made to us under the P&G Agreement, including the \$3.0 million payment. The license fee from P&G was amortized over a two-year period covering January 2007 through December 2008. Additionally, P&G is required to make quarterly payments to us in the amount of \$250,000, beginning with a payment for the third quarter of 2006 and continuing until the first product under the agreement is shipped by P&G for large-scale commercial distribution in the United States. Seventy-five percent of each \$250,000 payment is treated as prepaid royalties and will be credited against royalty payments owed to us, and the remainder is credited to revenue and represents services provided by BIOLASE to P&G.

Pursuant to the terms of the P&G Agreement, after two years from the effective date of the P&G Agreement, P&G had the right, upon formal notice to us, to elect to convert its exclusive license of our patents into a non-exclusive license (and effectively allow us to license the patents to other parties), and cease making the \$250,000 quarterly payments as described above. Pursuant to the P&G Agreement, P&G had forty-five (45) days following the end of each quarter to make the quarterly payment, after which a finance charge is to be assessed, equal to the prime rate of interest then in effect plus 100 basis points. We did not receive quarterly payments in 2009 or 2010 and we did not assess finance charges.

On May 20, 2010, we entered into a License Agreement, the Second Agreement, with P&G with an effective date of January 1, 2009, and which supersedes that certain prior License Agreement, dated January 24, 2007. The Second Agreement amends and modifies the First Agreement so as to enable the Company to launch and market for sale certain light-based oral care devices to dental professionals within the professional market.

Pursuant to the Second Agreement, (i) certain of the prepaid royalties noted above will be released in accordance with the terms and conditions of the Second Agreement, (ii) P&G licensed to the Company certain of P&G's intellectual property, including patents, for the Company's use in the professional dental market, (iii) the Company will pay certain royalties to P&G, expressed as a percentage of net product sales, for the Company's sales of certain light-based oral care devices to dental professionals within the professional market, and (iv) P&G retains certain rights that it had under the First Agreement with regard to certain of the Company's intellectual property for use in the consumer market, as well as related royalties, expressed as a percentage of net product sales, to be paid by P&G to the Company. As a result of the Second Agreement, the prepaid royalty payments previously paid by P&G have been applied to the exclusive license period which is effective as of January 1, 2009 and continues through June 30, 2011. Previously recorded deferred revenue of \$1.9 million which has been applied to the exclusive license arrangement is being recognized concurrent with the related exclusivity period. During the quarter ended June 30, 2010, \$1.1 million

of licensing revenue was recognized. The remaining deferred exclusive license fees will be recognized at \$187,500 per quarter through June 30, 2011.

The Second Agreement will terminate on the date of expiration of the last Company or P&G patent that is licensed to the other party, and the exclusivity of the Company's license to P&G has certain limits and conditions. Additionally, either party may terminate the Second Agreement if there is an uncured material breach of any provision of the Second Agreement by the other party or by mutual consent.

Table of Contents**NOTE 8 BANK LINE OF CREDIT AND DEBT**

On September 28, 2006, we entered into a Loan and Security Agreement, or the Loan Agreement with Comerica Bank. Under the Loan Agreement, the Lender agreed to extend a revolving loan, the Revolving Line, to us in the maximum principal amount of \$10.0 million.

On January 30, 2009, we delivered a compliance certificate to the Lender which set forth the details of our non-compliance with certain covenants under the Loan Agreement as of December 31, 2008. The Loan Agreement was terminated on February 5, 2009 and all outstanding balances were repaid in full with cash available on hand, and under the terms of the Loan Agreement and related note, we and certain of our subsidiaries satisfied all of our obligations under the Loan Agreement.

On May 27, 2010, we entered into a Loan and Security Agreement (the Loan Agreement) with MidCap Financial, LLC, a Delaware limited liability company, and Silicon Valley Bank, a California corporation (collectively, the Lenders) for term loan funding of up to \$5 million. In connection with the Loan Agreement, we issued two Secured Promissory Notes in favor of the Lenders and two Warrant Agreements in favor of the Lenders for aggregate initial gross proceeds of \$3 million. The two Warrant Agreements allow the Lenders to purchase up to an aggregate of 101,694 shares of our common stock at a per share price of \$1.77 (the Warrants).

Pursuant to the Loan Agreement, the Lenders initially loaned us \$3 million. The Loan Agreement includes an option, which expires on August 31, 2010, for us to receive an additional \$2 million in funding upon the satisfaction of certain conditions, including generating cash from other financing sources.

The outstanding principal balance of the loan bears interest at an annual percentage rate equal to the greater of the thirty (30) day LIBOR rate or three percent, plus nine and one quarter percent. In the event we do not satisfy certain post-closing items, the loan will bear interest at an annual percentage rate equal to the greater of the thirty (30) day LIBOR rate or three percent, plus eleven and one quarter percent. The interest rate will be adjusted each month and interest will be paid monthly. The Loan Agreement requires interest only payments for the first six months and beginning in December 2010, the outstanding principal will be repaid in 30 equal monthly installments. The final payment of all unpaid principal and accrued interest is due on May 2, 2013 (the Maturity Date). Our obligations are secured by substantially all of our assets now owned or hereinafter acquired, including our intellectual property, as well as those of our two wholly-owned subsidiaries, BL Acquisition Corp. and BL Acquisition II, Inc., each of whom have provided a security agreement and certain guarantees to the Lenders. Certain of the assets secured by the security agreement are subordinate to the 2010 Security Agreement in favor of HSIC. As of June 30, 2010, interest on the note is being accrued at a rate of 14.25%. Interest expense, related loan origination fees, prepayment fees and warrant discount costs provide for an effective interest rate on the term loan of 34%.

The Loan Agreement permits us to prepay the outstanding principal amount and all accrued but unpaid interest and fees, subject to a prepayment fee. The amount of the prepayment fee depends on when the prepayment is made. If prepayment is made on or prior to the first anniversary of the date of the term loan, the prepayment fee is equal to six percent of the outstanding principal at the time of prepayment. If prepayment is made after the first anniversary of the term loan and on or prior to the second anniversary of the term loan, the prepayment fee is equal to four percent of the outstanding principal at the time of prepayment. If prepayment is made after the second anniversary of the term loan and prior to the Maturity Date, the prepayment fee is equal to two percent of the outstanding principal at the time of prepayment.

The Loan Agreement requires certain post-closing covenants and compliance with customary financial and performance covenants and provides for customary events of default. If a default occurs, the Lenders may declare the amounts outstanding under the Loan Agreement immediately due and payable. We did not meet a defined minimum EBITDA test for the period ended June 30, 2010. On August 16, 2010, the Lenders agreed to an interim forbearance period of 15 days as we continue our discussions with the Lenders regarding the performance covenant requirements. Pursuant to the Loan Agreement, we paid a commitment fee of one-half of one percent of the aggregate \$5 million term loan amount, or \$25,000. This commitment fee and the legal costs associated with acquiring the loan were capitalized and are being amortized as interest expense, using the effective interest method over the term of the loan. In addition, upon our repayment of the loan, we must pay a final payment fee equal to three percent of the total amount funded under the Loan Agreement which is being accrued and charged to interest expense using the effective

interest method over the term of the loan.

In connection with the Loan Agreement, we issued to the Lenders the Warrants. The Warrants are immediately exercisable and may be exercised on a cashless basis. In lieu of exercising these warrants, the holders may convert the warrants into a number of shares, in whole or in part. These warrants will expire if unused on May 26, 2015. The \$103,000 estimated fair value of the Warrants was recorded as equity, resulting in a discount to the Term Loan at issuance. The discount is being amortized to interest expense using the effective interest method over the term of the loan.

Table of Contents

The warrant fair values were estimated using the Black-Scholes option-pricing model with the following assumptions:

	Three months ended June 30, 2010
Expected term (years)	5.00
Volatility	82%
Annual dividend per share	\$ 0.00
Risk-free interest rate	2.18%

The components of the term loan payable were as follows:

	June 30, 2010
Term loan payable	\$ 3,000
Net discount	(98)
Net term loan payable	2,902
Term loan payable, current portion, net of discount	(644)
Term loan payable, long-term, net of discount	\$ 2,258

In December 2009, we financed approximately \$573,000 of insurance premiums payable in ten equal monthly installments of approximately \$58,000 each, including a finance charge of 3.24%. As of June 30, 2010, we had approximately \$174,000 outstanding under this arrangement.

NOTE 9 COMMITMENTS AND CONTINGENCIES**Litigation**

On April 6, 2010, Discus Dental LLC (Discus) and Zap Lasers LLC (Zap) filed a lawsuit against us in the United States District Court for the Central District of California, related to our iLase(TM) diode laser. The lawsuit alleges claims for patent infringement, federal unfair competition, common law trademark infringement and unfair competition, and violation of the California Unfair Trade Practices Act.

On May 19, 2010, Discus and Zap filed a First Amended Complaint related to their lawsuit against us. The Amended Complaint dropped the allegation of fraud, as well as certain allegations related to the claims for trademark infringement and unfair competition. In addition to dropping the fraud allegation, the plaintiffs took other steps to narrow their claims against us.

We intend to vigorously defend the Company against this lawsuit. While, based on the facts presently known, we believe we have meritorious defenses to the claims asserted by Discus and Zap, there is no guarantee that we will prevail in this suit or receive any relief if we do prevail. As of June 30, 2010, no amounts have been recorded in the consolidated financial statements for these matters since management believes that it is not probable we have incurred a loss contingency.

From time to time, we become involved in various claims and lawsuits of a character normally incidental to our business. In our opinion, there are no legal proceedings pending against us or any of our subsidiaries that are reasonably expected to have a material adverse effect on our financial condition or on our results of operations.

Supplier Purchase Commitment

We have a long term commitment to a supplier in the amount of \$4.7 million for purchases through 2012. The purchase commitment that remains for the 2010 year is \$1.1 million.

Table of Contents**NOTE 10 SEGMENT INFORMATION**

We currently operate in a single business segment. For the three and six months ended June 30, 2010, sales in the United States accounted for approximately 60% and 56% respectively, of net revenue, and international sales accounted for approximately 40% and 44%, respectively, of net revenue. For the three and six months ended June 30, 2009, sales in the United States accounted for approximately 78% and 76% respectively, of net revenue, and international sales accounted for approximately 22% and 24%, respectively, of net revenue.

Net revenue by geographic location based on the location of customers was as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
United States	\$ 3,529	\$ 11,184	\$ 5,755	\$ 15,824
International	2,363	3,133	4,532	5,087
	\$ 5,892	\$ 14,317	\$ 10,287	\$ 20,911

Long-lived assets located outside of the United States at our foreign subsidiaries were \$546,000 and \$702,000 million as of June 30, 2010 and December 31, 2009, respectively.

NOTE 11 CONCENTRATIONS

Revenue from our Waterlase systems, our principal product, comprised 19% and 26% of total net revenue for the three and six months ended June 30, 2010, respectively, and 57% and 53% of total net revenue, respectively, for the same periods in 2009. Revenue from our Diode systems comprised 26% and 21% of total net revenue for the three and six months ended June 30, 2010, respectively, and 22% and 20%, for the same periods of 2009.

Approximately 65% and 64% of our laser system and consumable products net revenue in the three and six months ended June 30, 2010 was generated through sales to HSIC worldwide. Approximately 93% and 91% of our laser system and consumable products net revenue in the three and six months ended June 30, 2009 was generated through sales to HSIC worldwide. There were no sales concentrations greater than 10% within any individual country outside the United States for the three and six month periods ended June 30, 2010 and 2009.

We maintain our cash and cash equivalents accounts with established commercial banks. Through June 30, 2010, such cash deposits periodically exceeded the Federal Deposit Insurance Corporation insured limit.

Accounts receivable concentrations from HSIC and one international distributor totaled \$442,000 and \$235,000 or 26% and 14%, respectively, at June 30, 2010. Accounts receivable concentrations from HSIC worldwide totaled \$2.5 million or 58% at December 31, 2009.

We currently buy certain key components of our products from single suppliers. Although there are a limited number of manufacturers of these key components, management believes that other suppliers could provide similar key components on comparable terms. A change in suppliers, however, could cause a delay in manufacturing and a possible loss of sales, which would adversely affect consolidated operating results.

NOTE 12 COMPREHENSIVE INCOME (LOSS)

Components of comprehensive income (loss) were as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Net (loss) income	\$ (4,164)	\$ 2,330	\$ (9,469)	\$ (2,346)
Other comprehensive (loss) income items:				
Foreign currency translation adjustments	(181)	227	(294)	(91)
Comprehensive (loss) income	\$ (4,345)	\$ 2,557	\$ (9,763)	\$ (2,437)

Table of Contents

NOTE 13 INCOME TAXES

Accounting for Uncertainty in Income Taxes prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. We have elected to classify interest and penalties as a component of our income tax provision. As a result, we recognized a \$156,000 liability for unrecognized tax benefits, which was accounted for as an increase in the January 1, 2007 accumulated deficit balance. For the six months ended June 30, 2010, we recorded an increase of \$3,000 in the liability for unrecognized tax benefits, including related estimates of penalties and interest. The liability for unrecognized tax benefits at June 30, 2010 and December 31, 2009 was \$156,000 and \$153,000, respectively. Such amount is included in other liabilities, long-term in the accompanying consolidated balance sheets.

Table of Contents

CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS

This Quarterly Report contains forward-looking statements that involve a number of risks and uncertainties. Forward-looking statements include, but are not limited to, statements pertaining to financial items, plans, strategies or objectives of management for future operations, our financial condition or prospects, and any other statement that is not historical fact, including any statement using terminology such as may, might, will, intend, should, could, would, expect, believe, estimate, predict, potential, plan, or the negativities of these terms or other comparative terminology. For all of the foregoing forward-looking statements, we claim the protection of the Private Securities Litigation Reform Act of 1995. These statements are only predictions and actual events or results may differ materially from our expectations for a number of reasons including those set forth under Risk Factors in Item 1A of this quarterly report and our Annual Report on Form 10-K for the year ended December 31, 2009. These forward-looking statements represent our judgment as of the date hereof. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion of our results of operations and financial condition should be read together with the unaudited consolidated financial statements and the notes to those statements included elsewhere in this report and our audited consolidated financial statements and the notes to those statements for the year ended December 31, 2009. This discussion may contain forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from the results anticipated in any forward-looking statements as a result of a variety of factors, including those discussed in Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2009.

Overview

We are a medical technology company that develops, manufactures and markets lasers and related products focused on technologies for improved applications and procedures in dentistry and medicine. In particular, our principal products provide dental laser systems that allow dentists, periodontists, endodontists, oral surgeons and other specialists to perform a broad range of dental procedures, including cosmetic and complex surgical applications. Our systems are designed to provide clinically superior performance for many types of dental procedures, with less pain and faster recovery times than are generally achieved with drills, scalpels and other dental instruments. We have clearance from the U.S. Food and Drug Administration, or FDA, to market our laser systems in the United States and also have the necessary approvals to sell our laser systems in Canada, the European Union and certain other international markets.

We offer two categories of laser system products: (i) Waterlase systems and (ii) Diode systems. Our flagship product category, the Waterlase system, uses a patented combination of water and laser to perform most procedures currently performed using dental drills, scalpels and other traditional dental instruments for cutting soft and hard tissue. We also offer our diode laser systems to perform soft tissue and cosmetic procedures, including tooth whitening.

On August 8, 2006, we entered into a License and Distribution Agreement, or the Agreement, with Henry Schein, Inc., or HSIC, a large distributor of healthcare products to office-based practitioners, pursuant to which we granted HSIC the exclusive right to distribute our complete line of dental laser systems, accessories and services in the United States and Canada. The Agreement had an initial term of three years, following which it will automatically renew for an additional period of three years, provided that HSIC has achieved its minimum purchase requirements. Under the Agreement, HSIC was obligated to meet certain minimum purchase requirements and was entitled to receive incentive payments if certain purchase targets were achieved. If HSIC had not met the minimum purchase requirements at the midpoint of each of the first two three-year periods, we would have had the option, upon repayment of a portion of the license fee, to (i) shorten the remaining term of the agreement to one year, (ii) grant distribution rights held by HSIC to other persons (or distribute products ourselves), (iii) reduce certain discounts on products given to HSIC under the agreement, and (iv) cease paying future incentive payments. We maintain the right to grant certain intellectual property rights to third parties, but by doing so may incur the obligation to refund a portion of the upfront license fee to HSIC.

On May 9, 2007, we entered into an addendum with HSIC, effective as of April 1, 2007, which modified the License and Distribution Agreement to add the terms and conditions under which HSIC has the exclusive right to distribute our *ezlase* diode dental laser system in the United States and Canada. In the addendum, separate minimum purchase requirements were established for the *ezlase* system. If HSIC had not met the minimum purchase requirement for any 12-month period ending on March 31, we would have had the option, upon 30 days written notice, to (i) convert *ezlase* distribution rights to a non-exclusive basis for a minimum period of one year, after which period we would have had the option to withdraw *ezlase* distribution rights, and (ii) reduce the distributor discount on *ezlase* products.

Table of Contents

On March 3, 2008, we entered into a second addendum with HSIC that modified the License and Distribution Agreement, as amended by the first addendum. Pursuant to the second addendum, HSIC was obligated to meet certain minimum purchase requirements and was entitled to receive incentive payments if certain purchase targets were achieved. If HSIC did not meet minimum purchase requirements, we would have had the option to (i) shorten the remaining term of the Agreement to one year, (ii) grant distribution rights held by HSIC to other persons (or distribute products ourselves), (iii) reduce certain discounts on products given to HSIC under the Agreement, and (iv) cease paying future incentive payments. Additionally, under certain circumstances, if HSIC did not meet the minimum purchase requirements, we would have had the right to purchase back the exclusive distributor rights granted to HSIC under the Agreement. We also agreed to actively promote Henry Schein Financial Services as our exclusive leasing and financing partner.

On December 23, 2008, we entered into a brief letter agreement with HSIC which amended the initial term of the License and Distribution Agreement to December 31, 2010.

On February 27, 2009, we entered into a letter agreement with HSIC which amended the License and Distribution Agreement, as amended by the first and second addendums and the brief letter agreement. This letter agreement included certain minimum purchase requirements during the initial fourteen-month term of the agreement. In connection with the initial purchase by HSIC made under the letter agreement, on March 13, 2009 we entered into a security agreement, or March 2009 Security Agreement, with HSIC, granting to HSIC a security interest in our inventory, equipment, and other assets. Pursuant to the March 2009 Security Agreement, the security interest granted was released upon products delivered by us to HSIC in respect of such initial purchase. HSIC also had the option to extend the term of the letter agreement for two additional one-year terms based on certain minimum purchase requirements. In addition, HSIC became our distributor in certain international countries including Germany, Spain, Australia and New Zealand and had first right of refusal in new international markets that we were interested in entering.

On September 10, 2009, we entered into an amendment to the License and Distribution Agreement with HSIC, wherein we agreed to provide to HSIC certain customer warranties in respect of the Company's products.

On January 31, 2010, we entered into a letter agreement amending the License and Distribution Agreement, dated as of August 8, 2006, as amended. Pursuant to the letter agreement, we agreed to an extension of the time for HSIC to provide notice of its intention to renew the License and Distribution Agreement for an additional one year term, from February 1, 2010 to February 25, 2010, in accordance with the terms and conditions thereof.

On February 16, 2010, we entered into a letter agreement amending the License and Distribution Agreement, dated as of August 8, 2006, as amended. Pursuant to the letter agreement, we agreed to HSIC's request to make certain changes to the applicable product categories required to be purchased by HSIC through March 31, 2010, as set forth in the February 27, 2009 letter agreement. The changes include advance payments in respect of, among other things, purchases of the iLase and the provision of upgrades by us to existing products, should such upgrades be made available in the future. In connection with advance payments of \$5.8 million, of which \$4.0 million remained in customer deposits at March 31, 2010 after netting outstanding accounts receivable, we entered into a security agreement, or February 2010 Security Agreement, with HSIC, granting to HSIC a security interest in our inventory, equipment, and other assets. Pursuant to the February 2010 Security Agreement, the security interest granted shall be released upon products delivered by us to HSIC in respect of such advance payments.

On February 24, 2010, we entered into a letter agreement amending the License and Distribution Agreement, dated as of August 8, 2006, as amended. Pursuant to the letter agreement, we agreed to an extension of the time for HSIC to provide notice of its intention to renew the License and Distribution Agreement for an additional one year term, from February 25, 2010 to March 3, 2010, in accordance with the terms and conditions thereof.

On March 9, 2010, we entered into a letter agreement with HSIC, effective April 1, 2010. The letter agreement calls for guaranteed minimum purchases by HSIC of \$18 million, payable in semi-monthly payments of \$750,000, solely in respect of laser equipment in certain territories, plus additional laser equipment purchases on an uncapped basis in certain other territories, plus incremental purchases of consumable products and services in certain applicable territories. Pursuant to this letter agreement, all dental sales will continue to be provided exclusively through HSIC in the United Kingdom, Australia, New Zealand, Belgium, Luxembourg, Netherlands, Spain, Germany, Italy, Austria,

and North America. This letter agreement provides incentives for HSIC to focus on its core customer base, and allows us to generate incremental sales to additional dental offices outside of HSIC's core customer base. This letter agreement has an initial term of one year, after which this letter agreement may be extended for a period of six months by mutual agreement. Either party may terminate this letter agreement upon sixty days' advance written notice to the other party.

Subsequent to the period covered by this Quarterly Report, on August 13, 2010, we entered into a letter agreement with HSIC. This letter agreement, effective August 17, 2010, reduces the advance notice required to terminate the March 9, 2010 letter agreement from sixty to forty-five days.

Table of Contents

In respect of the February 16, 2010 and March 9, 2010 letter agreements with HSIC, we have collectively received advance payments of \$10.3 million, of which \$6.3 million remained in customer deposits at June 30, 2010.

Critical Accounting Estimates

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires us to make judgments, assumptions and estimates that affect the amounts reported. The following is a summary of those accounting policies that we believe are necessary to understand and evaluate our reported consolidated financial results.

Revenue Recognition. Effective September 1, 2006, nearly all of our domestic sales are to HSIC; prior to this date, we sold our products directly to customers through our direct sales force. Sales to HSIC are recorded upon shipment from our facility and payment of our invoices is generally due within 60 days or less. Internationally, we sell products through independent distributors including HSIC. We recognize revenue based on four basic criteria that must be met before revenue can be recognized: (i) persuasive evidence of an arrangement exists; (ii) delivery has occurred and title and the risks and rewards of ownership have been transferred to our customer, or services have been rendered; (iii) the price is fixed or determinable; and (iv) collectibility is reasonably assured.

Sales of our laser systems include separate deliverables consisting of the product, disposables used with the laser systems, installation and training. For these sales, we apply the residual value method, which requires us to allocate to the delivered elements the total arrangement consideration less the fair value of the undelivered elements. Revenue attributable to the undelivered elements, primarily training, is included in deferred revenue when the product is shipped and is recognized when the related service is performed or upon expiration of time offered under the agreement.

The key judgment related to our revenue recognition relates to the collectibility of payment from the customer. We evaluate the customer's credit worthiness prior to the shipment of the product. Based on our assessment of the credit information available to us, we may determine the credit risk is higher than normally acceptable, and we will either decline the purchase or defer the revenue until payment is reasonably assured.

Although all sales are final, we accept returns of products in certain, limited circumstances and record a provision for sales returns based on historical experience concurrent with the recognition of revenue. The sales returns allowance is recorded as a reduction of accounts receivable and revenue.

We recognize revenue for royalties under licensing agreements for our patented technology when the product using our technology is sold. We estimate and recognize the amount earned based on historical performance and current knowledge about the business operations of our licensees. Our estimates have been consistent with amounts historically reported by the licensees. Licensing revenue related to exclusive licensing arrangements is recognized concurrent with the related exclusivity period.

We may offer sales incentives and promotions on our products. We recognize the cost of sales incentives at the date at which the related revenue is recognized, or later, in the case of incentives offered after the initial sale has occurred.

Accounting for Stock-Based Payments. We generally recognize compensation cost related to all stock-based payments based on the grant-date fair value.

Valuation of Accounts Receivable. We maintain an allowance for uncollectible accounts receivable to estimate the risk of extending credit to customers. We evaluate our allowance for doubtful accounts based upon our knowledge of customers and their compliance with credit terms. The evaluation process includes a review of customers' accounts on a regular basis which incorporates input from sales, service and finance personnel. The review process evaluates all account balances with amounts outstanding 90 days and other specific amounts for which information obtained indicates that the balance may be uncollectible. The allowance for doubtful accounts is adjusted based on such evaluation, with a corresponding provision included in general and administrative expenses. Account balances are charged off against the allowance when we feel it is probable the receivable will not be recovered. We do not have any off-balance-sheet credit exposure related to our customers.

Table of Contents

Valuation of Inventory. Inventory is valued at the lower of cost, determined using the first-in, first-out method, or market. We periodically evaluate the carrying value of inventory and maintain an allowance for excess and obsolete inventory to adjust the carrying value as necessary to the lower of cost or market. We evaluate quantities on hand, physical condition and technical functionality, as these characteristics may be impacted by anticipated customer demand for current products and new product introductions. Unfavorable changes in estimates of excess and obsolete inventory would result in an increase in cost of revenue and a decrease in gross profit.

Valuation of Long-Lived Assets. Property, plant and equipment, and certain intangibles with finite lives are amortized over their useful lives. Useful lives are based on our estimate of the period that the assets will generate revenue or otherwise productively support our business goals. We monitor events and changes in circumstances which could indicate that the carrying balances of long-lived assets may exceed the undiscounted expected future cash flows from those assets. If such a condition were to exist, we would recognize an impairment loss based on the excess of the carrying amount over the fair value of the assets.

Valuation of Goodwill and Other Intangible Assets. Goodwill and other intangible assets with indefinite lives are not amortized but are tested for impairment annually or whenever events or changes in circumstances indicate that the asset might be impaired. We conducted our annual impairment analysis of our goodwill as of June 30, 2010 and concluded there had been no impairment in goodwill. We closely monitor our stock price and market capitalization and perform such analysis on a quarterly basis. If our stock price and market capitalization declines, we may need to impair our goodwill and other intangible assets.

Warranty Cost. Waterlase systems sold domestically are covered by a warranty against defects in material and workmanship for a period of one year while our diode systems warranty period is up to two years from date of sale by the distributor to the end-user. Estimated warranty expenses are recorded as an accrued liability, with a corresponding provision to cost of revenue. Warranty expenses expected to be incurred after one year from the time of sale to the distributor are classified as a long term warranty accrual. This estimate is recognized concurrent with the recognition of revenue on the sale to the distributor. Effective October 1, 2009, Waterlase systems sold internationally are generally covered by a warranty against defects in material and workmanship for a period of sixteen months while our *ezlase* and *iLase* systems warranty period is up to twenty eight months from date of sale to the distributor. Our overall accrual is based on our historical experience and our expectation of future conditions. An increase in warranty claims or in the costs associated with servicing those claims would result in an increase in the accrual and a decrease in gross profit.

Litigation and Other Contingencies. We regularly evaluate our exposure to threatened or pending litigation and other business contingencies. Because of the uncertainties related to the amount of loss from litigation and other business contingencies, the recording of losses relating to such exposures requires significant judgment about the potential range of outcomes. As additional information about current or future litigation or other contingencies becomes available, we will assess whether such information warrants the recording of expense relating to contingencies. To be recorded as expense, a loss contingency must be both probable and reasonably estimable. If a loss contingency is material but is not both probable and estimable, we will disclose the matter in the notes to the consolidated financial statements.

Income Taxes. Based upon our operating losses during 2010 and 2009 and the available evidence, management determined that it is more likely than not that the deferred tax assets as of June 30, 2010 will not be realized, excluding a portion of the foreign deferred tax assets in the amount of \$25,000. Consequently, we established a valuation allowance against our net deferred tax asset, excluding a portion of the foreign operations, in the amount of \$34.0 and \$30.2 million as of June 30, 2010 and December 31, 2009, respectively. In this determination, we considered factors such as our earnings history, future projected earnings and tax planning strategies. If sufficient evidence of our ability to generate sufficient future taxable income tax benefits becomes apparent, we may reduce our valuation allowance, resulting in tax benefits in our statement of operations and in additional paid-in-capital. Management evaluates the potential realization of our deferred tax assets and assesses the need for reducing the valuation allowance periodically.

Off-Balance Sheet Arrangements. We have no off-balance sheet financing or contractual arrangements.

Table of Contents**Results of Operations**

The following table presents certain data from our consolidated statements of operations expressed as percentages of revenue:

Consolidated Statements of Operations Data:	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Net revenue	100.0%	100.0%	100.0%	100.0%
Cost of revenue	67.2	43.4	78.6	52.8
Gross profit	32.8	56.6	21.4	47.2
Operating expenses:				
Sales and marketing	52.3	19.4	55.6	27.8
General and administrative	33.5	12.1	36.0	20.6
Engineering and development	17.0	7.8	21.5	10.5
Total operating expenses	102.8	39.3	113.1	58.9
(Loss) income from operations	(70.0)	17.3	(91.7)	(11.7)
Non-operating (loss) income, net	(0.5)	(0.8)	(0.1)	0.8
(Loss) income before income tax provision	(70.5)	16.5	(91.8)	(10.9)
Income tax provision	0.2	0.2	0.2	0.3
Net (loss) income	(70.7)%	16.3%	(92.0)%	(11.2)%

The following table summarizes our net revenue by category (dollars in thousands):

	Three Months Ended June 30,				Six Months Ended June 30,			
	2010		2009		2010		2009	
Waterlase systems	\$ 1,134	19%	\$ 8,193	57%	\$ 2,690	26%	\$ 10,948	53%
Diode systems	1,555	26%	3,163	22%	2,213	21%	4,202	20%
Consumables and Service	2,055	35%	2,531	18%	4,180	41%	4,856	23%
Products and services	4,744	80%	13,887	97%	9,083	88%	20,006	96%
License fee and royalty	1,148	20%	430	3%	1,204	12%	905	4%
Net revenue	\$ 5,892	100%	\$ 14,317	100%	\$ 10,287	100%	\$ 20,911	100%

Three months ended June 30, 2010 and 2009

Net Revenue. Net revenue for the three months ended June 30, 2010 was \$5.9 million, a decrease of \$8.4 million or 59% as compared with net revenue of \$14.3 million for the three months ended June 30, 2009.

Laser system net revenue decreased by approximately \$8.6 million or 76% in the quarter ended June 30, 2010 compared to the same quarter of 2009. Sales of our Waterlase systems decreased \$7.0 million or 86% in the quarter ended June 30, 2010 compared to the same period in 2009 due primarily to an overall reduction in domestic sales to

our primary distributor largely due to their efforts to reduce their inventory. Our Diode family of products decreased \$1.6 million or 51% in the second quarter of 2010 compared to the same quarter of 2009. The decrease resulted primarily from decreased sales volume of the ezlase both domestically and internationally due to our primary distributors efforts to reduce their inventory. This was offset slightly by the launch of the iLase with sales of \$660,000 worldwide during the second quarter of 2010.

Consumables and service net revenue, which includes consumable products, advanced training programs and extended service contracts, and shipping revenue decreased by approximately \$476,000 or 19% for the three months ended June 30, 2010 as compared to the same period of 2009. Consumable products revenue decreased \$150,000 or 12% primarily as a result of the decreased sales of the Turbo Upgrade in the quarter ended June 30, 2010 as compared to the same period in 2009. Services revenues decreased \$326,000 or 25% as compared to the same period of 2009. License fees and royalty revenue increased \$718,000 or 167% in the quarter ended June 30, 2010 compared to the same quarter of 2009. The increase resulted from \$1.1 million of recognized deferred royalties from P&G in accordance with the May 20, 2010 agreement partially offset by the amortization of the HSIC license fee in the same period of 2009.

Table of Contents

Domestic revenues were \$3.5 million, or 60% of net revenue, for the three months ended June 30, 2010 versus \$11.2 million, or 78% of net revenue, for the three months ended June 30, 2009. International revenues for the quarter ended June 30, 2010 were \$2.4 million, or 40% of net revenue, as compared with \$3.1 million, or 22% of net revenue, for the quarter ended June 30, 2009.

Gross Profit. Gross profit for the three months ended June 30, 2010 decreased by \$6.2 million from \$8.1 million to \$1.9 million, and decreased to 33% of net revenue as compared with 57% of net revenue for the three months ended June 30, 2009. The overall decrease in gross profit quarter over quarter was primarily a result of decreased sales revenue in comparison to fixed and unabsorbed manufacturing costs in costs of goods sold. This was partially offset by net increased revenue recognized on deferred royalties from P&G.

Operating Expenses. Operating expenses for the three months ended June 30, 2010 increased by \$429,000, or 8%, to \$6.1 million as compared to \$5.6 million for the three months ended June 30, 2009, and increased as a percentage of net revenue to 103% from 39%. The increase is primarily due to the build out of the sales and marketing team. We will continue to implement cost reductions where it makes sense to help offset the negative impact of current economic conditions.

Sales and Marketing Expense. Sales and marketing expenses for the three months ended June 30, 2010 increased by \$312,000, or approximately 11%, to \$3.1 million, or 52% of net revenue, as compared with \$2.8 million, or 19% of net revenue, for the three months ended June 30, 2009. Advertising and product literature expenses increased \$428,000 related primarily to the launch of iLase and were partially offset by reduced commission expense of \$118,000 in the quarter ended June 30, 2010 compared with the same quarter of 2009.

General and Administrative Expense. General and administrative expenses for the three months ended June 30, 2010 increased by \$241,000, or 14%, to \$2.0 million, or 34% of net revenue, as compared with \$1.7 million, or 12% of net revenue, for the three months ended June 30, 2009. The increase in general and administrative expenses resulted primarily from increased legal fees of \$198,000 and increases in bad debt expense were partially offset by other cost reductions.

Engineering and Development Expense. Engineering and development expenses for the three months ended June 30, 2010 decreased by \$124,000, or 11%, to \$1.0 million, or 17% of net revenue, as compared with \$1.1 million, or 8% of net revenue, for the three months ended June 30, 2009. The decrease is primarily related to decreased payroll and consulting related expenses of \$100,000 and decreased supplies expense of \$62,000 partially offset by an increase in depreciation expense in the quarter ended June 30, 2010 compared with the same quarter of 2009.

Non-Operating Income (Loss)

Gain on Foreign Currency Transactions. We recognized a \$26,000 gain on foreign currency transactions for the three months ended June 30, 2010, compared to a \$109,000 loss on foreign currency transactions for the three months ended June 30, 2009 due to the changes in exchange rates between the U.S. dollar and the Euro, the Australian dollar and the New Zealand dollar. As we have now transitioned the majority of our sales from through our foreign subsidiaries to sales through third-party distributors, the amount of inter-company transactions and related balances should continue to be reduced in the future.

Interest Income. Interest income resulted from interest earned on our cash and cash equivalents balances. Interest income for the three months ended June 30, 2010 was \$0 as compared with \$2,000 for the three months ended June 30, 2009. The decrease is the result of lower average cash balances during the 2010 period compared to the same period in 2009.

Interest Expense. Interest expense consists primarily of interest on the financing of our business insurance premiums and interest on our term loan which was funded on May 27, 2010. Interest expense for the quarter ended June 30, 2010 was \$55,000 as compared to \$12,000 for the quarter ended June 30, 2009 which resulted in an increase of \$43,000 which was primarily related to interest on our term loan payable.

Table of Contents

Income Taxes. An income tax provision of \$13,000 was recognized for the three months ended June 30, 2010 as compared with an income tax provision of \$25,000 for the three months ended June 30, 2009. On January 1, 2007, we adopted the interpretations issued by the FASB regarding uncertain tax positions. As a result, we recognized a \$156,000 liability for unrecognized tax benefits, including related estimates of penalties and interest, which was accounted for as an increase in the January 1, 2007 accumulated deficit balance. For each of the three months ended June 30, 2010 and 2009, we recorded an increase of \$1,000, in the liability for unrecognized tax benefits, including related estimates of penalties and interest. As of June 30, 2010, we have a valuation allowance against our net deferred tax assets, excluding foreign operations, in the amount of \$34.0 million. Based upon our operating losses and the weight of the available evidence, management believes it is more likely than not that we will not realize all of these deferred tax assets.

Six months ended June 30, 2010 and 2009

Net Revenue. Net revenue for the six months ended June 30, 2010 was \$10.3 million, a decrease of \$10.6 million or 51% as compared with net revenue of \$20.9 million for the six months ended June 30, 2009.

Laser system net revenue decreased by approximately \$10.2 million or 68% in the six months ended June 30, 2010 compared to the same period of 2009. Sales of our Waterlase systems decreased \$8.2 million or 75% in the six months ended June 30, 2010 compared to the same period in 2009 due primarily to an overall reduction in domestic sales to our primary distributor largely due to their efforts to reduce their inventory. Our Diode family of products decreased \$2.0 million or 47% in the six months ended June 30, 2010 compared to the same period of 2009. The decrease resulted primarily from decreased volume sales of the ezlase both domestically and internationally due to our primary distributors efforts to reduce their inventory. This was offset slightly by the launch of the iLase with sales of \$660,000 worldwide during 2010. We feel the continued adverse worldwide economic environment has been a significant cause for the decreased sales as well as the change in the purchasing pattern from our primary distributor.

Consumables and service net revenue decreased by approximately \$676,000 or 14% for the six months ended June 30, 2010 as compared to the same period of 2009. Consumable products revenue decreased \$473,000 or 19% and services revenues decreased \$203,000 or 9% as compared to the same period of 2009.

License fees and royalty revenue increased approximately \$300,000 to \$1.2 million in the six months ended June 30, 2010 compared to \$905,000 in the same period of 2009. The 2010 period included \$1.1 million of recognized deferred royalties from P&G in accordance with the May 20, 2010 agreement offset by the amortization of the HSIC license fee in the same period of 2009.

Domestic revenues were \$5.8 million, or 56% of net revenue, for the six months ended June 30, 2010 versus \$15.8 million, or 76% of net revenue, for the six months ended June 30, 2009. International revenues for the six months ended June 30, 2010 were \$4.5 million, or 44% of net revenue, as compared with \$5.1 million, or 24% of net revenue, for the six months ended June 30, 2009.

Gross Profit. Gross profit for the six months ended June 30, 2010 decreased by \$7.7 million to \$2.2 million, or 21% of net revenue, as compared with gross profit of \$9.9 million, or 47% of net revenue, for the six months ended June 30, 2009. The overall decrease was primarily due to lower sales volumes in comparison to fixed and unabsorbed manufacturing costs in cost of goods sold. This was partially offset by net increase in revenue recognized on deferred royalties from P&G.

Operating Expenses. Operating expenses for the six months ended June 30, 2010 decreased by \$690,000 or 6%, to \$11.6 million as compared to \$12.3 million for the six months ended June 30, 2009 but increased as a percentage of net revenue to 113% from 59% on lower net revenue from period to period. We continue to implement cost reductions to help offset the negative impact of current economic conditions.

Sales and Marketing Expense. Sales and marketing expenses for the six months ended June 30, 2010 decreased by \$100,000, or approximately 2%, to \$5.7 million, or 56% of net revenue, as compared with \$5.8 million, or 28% of net revenue, for the six months ended June 30, 2009. Major factors contributing to the reduction were a decrease in convention, seminars and regional meeting related expenses of \$215,000, decreased payroll and consulting related expenses of \$295,000, and a commission expense decrease of \$234,000 offset by increased travel and entertainment of \$121,000 and an increase in advertising and product literature related expenses of \$485,000 related primarily to the launch of the iLase in the six months ended June 30, 2010 compared with the same period of 2009.

Table of Contents

General and Administrative Expense. General and administrative expenses for the six months ended June 30, 2010 decreased by \$603,000, or 14%, to \$3.7 million, as compared with \$4.3 million for the six months ended June 30, 2009, but increased as a percentage of net revenue to 36% from 21% on lower net revenue from period to period. The decrease in general and administrative expenses resulted primarily from decreased payroll and consulting related expenses of \$819,000, decreased depreciation expenses of \$136,000 and decreased audit fees of \$151,000. These decreases were partially offset by an increase in provision for bad debt of \$132,000 due to previously determined uncollectible accounts in 2009 becoming collectible, increased legal and patent related fees of \$174,000 and an increase in investor relations and board fees of \$141,000 partially due to the board waving their Q1 Board Fees in 2009.

Engineering and Development Expense. Engineering and development expenses for the six months ended June 30, 2010 remained flat at \$2.2 million, which was 22% of net revenue, as compared with 11% of net revenue, for the six months ended June 30, 2009. The increase in supplies expense of \$82,000 pertained to new product development and depreciation expense of \$45,000 related to purchases of molds and tooling for the iLase was offset by a decrease in payroll and consulting related expenses of \$120,000.

Non-Operating Income (Loss)

Gain on Foreign Currency Transactions. We recognized a \$43,000 gain on foreign currency transactions for the six months ended June 30, 2010, compared to a \$206,000 gain on foreign currency transactions for the six months ended June 30, 2009 due to the changes in exchange rates between the U.S. dollar and the Euro, the Australian dollar and the New Zealand dollar. As we have now transitioned most of our sales from our foreign subsidiaries to sales through third party distributors, the amount of inter-company transactions and related balances should be reduced in the future.

Interest Income. Interest income resulted from interest earned on our cash and cash equivalents balances. Interest income for the six months ended June 30, 2010 was \$1,000 as compared with \$3,000 for the six months ended June 30, 2009. The decrease is the result of lower average cash balances during the 2010 period compared to the same period in 2009.

Interest Expense. Interest expense consists primarily of interest on the financing of our business insurance premiums and interest on outstanding balances on our term loan payable. Interest expense for the six months ended June 30, 2010 was \$59,000 as compared to \$42,000 for the six months ended June 30, 2009. Interest expense, including amortization of loan costs and debt discounts related to our loan payable was \$50,000 in the six months ended June 30, 2010 as compared to interest expense of \$13,000 in the six months ended June 30, 2009 related to our previous line of credit that was paid in full on February 5, 2009.

Income Taxes. An income tax provision of \$24,000 was recognized for the six months ended June 30, 2010 as compared with \$58,000 for the six months ended June 30, 2009. On January 1, 2007, we adopted the interpretations issued by the FASB regarding uncertain tax positions. As a result, we recognized a \$156,000 liability for unrecognized tax benefits, including related estimates of penalties and interest, which was accounted for as an increase in the January 1, 2007 accumulated deficit balance. For each of the six months ended June 30, 2010 and 2009, we recorded an increase of \$3,000, in the liability for unrecognized tax benefits, including related estimates of penalties and interest. As of June 30, 2010, we have a valuation allowance against our net deferred tax assets, excluding foreign operations, in the amount of \$34.0 million. Based upon our operating losses and the weight of the available evidence, management believes it is more likely than not that we will not realize all of these deferred tax assets.

Liquidity and Capital Resources

We have incurred significant net losses and net revenue has declined during the past three years. As of June 30, 2010, we had \$2.9 million in cash and cash equivalents to finance operations and satisfy our obligations. We are substantially dependent on our primary distributor and the continued performance of this distributor to make committed purchases of our products and associated consumables under our distribution agreement, and the receipt of cash in connection with those purchases, is essential to our liquidity. On March 9, 2010, we restructured this agreement with our primary distributor and it provides for lower monthly guaranteed minimum payments than during the 2009 fiscal year. The letter agreement has an initial term of one year, after which the letter agreement may be extended for a period of six months by mutual agreement. Either party may terminate the letter agreement upon sixty days advance written notice to the other party. There can be no assurance that the distributor will not terminate this

agreement prior to the end of the one year term.

Table of Contents

On May 27, 2010 we entered into a Loan and Security Agreement (See Note 8) in respect of a \$5 million term loan, \$3 million was funded on such date. In addition, we implemented cost cutting measures at the end of the second quarter of 2010 which included a reduction in headcount of approximately 20 full time employees. Our ability to meet our obligations in the ordinary course of business is dependent upon our ability to raise additional financing through public or private equity or debt financing, to establish profitable operations, or to secure other sources of financing to fund operations. Management intends to seek to increase sales, or raise working capital through additional debt or an equity financing in 2010. However, there can be no assurance we will be able to increase sales or that such financing can be successfully completed on terms acceptable to the Company or at all.

The accompanying financial statements have been prepared on a going concern basis that contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The financial statements do not include adjustments relating to the recoverability of recorded asset amounts or the amounts or classification of liabilities that might be necessary should we be unable to continue as a going concern.

On February 16, 2010, we entered into a letter agreement amending the License and Distribution Agreement, dated as of August 8, 2006, as amended. Pursuant to the letter agreement, we agreed to HSIC's request to make certain changes to the applicable product categories required to be purchased by HSIC through March 31, 2010, as set forth in the February 27, 2009 letter agreement. The changes include advance payments in respect of, among other things, purchases of the iLase, and the provision of upgrades by us to existing products, should such upgrades be made available in the future. In connection with advance payments of \$5.8 million, of which \$4.0 million remained in customer deposits at March 31, 2010 after netting outstanding accounts receivable, we entered into a security agreement, or February 2010 Security Agreement, with HSIC, granting to HSIC a security interest in our inventory, equipment, and other assets. Pursuant to the February 2010 Security Agreement, the security interest granted shall be released upon products delivered by us to HSIC in respect of such advance payments.

On February 24, 2010, we entered into a letter agreement amending the License and Distribution Agreement, dated as of August 8, 2006, as amended. Pursuant to the letter agreement, we agreed to an extension of the time for HSIC to provide notice of its intention to renew the License and Distribution Agreement for an additional one year term, from February 25, 2010 to March 3, 2010, in accordance with the terms and conditions thereof.

On March 9, 2010, we entered into a letter agreement with HSIC, effective April 1, 2010. The letter agreement calls for guaranteed minimum purchases by HSIC of \$18 million, payable in semi-monthly payments of \$750,000, solely in respect of laser equipment in certain territories, plus additional laser equipment purchases on an uncapped basis in certain other territories, plus incremental purchases of consumable products and services in certain applicable territories. Pursuant to this letter agreement, all dental sales will continue to be provided exclusively through HSIC in the United Kingdom, Australia, New Zealand, Belgium, Luxembourg, Netherlands, Spain, Germany, Italy, Austria, and North America. This letter agreement provides incentives for HSIC to focus on its core customer base, and allows us to generate incremental sales to additional dental offices outside of HSIC's core customer base. This letter agreement has an initial term of one year, after which this letter agreement may be extended for a period of six months by mutual agreement. Either party may terminate this letter agreement upon sixty days' advance written notice to the other party.

Subsequent to the period covered by this Quarterly Report, on August 13, 2010, we entered into a letter agreement with HSIC. This letter agreement, effective August 17, 2010, reduces the advance notice required to terminate the March 9, 2010 letter agreement from sixty to forty-five days.

In respect of the February 16, 2010 and March 9, 2010 letter agreements with HSIC, we have collectively received advance payments of \$10.3 million, of which \$6.3 million remained in customer deposits at June 30, 2010.

As of March 31, 2010, HSIC had fulfilled its obligation for minimum payments of \$42.7 million under the February 27, 2009 letter agreement. As of June 30, 2010, HSIC has fulfilled its guaranteed minimum purchase obligations and related prepayments to date per the March 9, 2010 letter agreement. Although we believe the level of HSIC's inventory was reduced in the first half of 2010, we believe that HSIC's inventory remains above historical levels.

At June 30, 2010, we had negative net working capital of \$2.5 million, a decrease of \$7.8 million from \$5.3 million in net working capital at December 31, 2009 resulting primarily from increased customer deposits of \$6.3 million and a

term loan payable of \$644,000 which was partially offset by increased inventory balances of \$1.4 million. Our principal sources of liquidity at June 30, 2010 consisted of our cash and cash equivalents balance of \$2.9 million. On September 28, 2006, we entered into a Loan and Security Agreement, or the Loan Agreement with Comerica Bank. Under the Loan Agreement, the Lender agreed to extend a revolving loan, the Revolving Line, to us in the maximum principal amount of \$10.0 million.

On January 30, 2009, we delivered a compliance certificate to the Lender which set forth non-compliance with certain covenants under the Loan Agreement as of December 31, 2008. The loan agreement was terminated on February 5, 2009 and all outstanding balances were repaid in full with cash available on hand, and under the terms of the Loan Agreement and related note, we and certain of our subsidiaries satisfied all of our obligations under the Loan Agreement.

Table of Contents

On May 27, 2010, we entered into a Loan and Security Agreement (the **Loan Agreement**) with MidCap Financial, LLC, a Delaware limited liability company, and Silicon Valley Bank, a California corporation (collectively, the **Lenders**) for term loan funding of up to \$5 million. In connection with the Loan Agreement, we issued two Secured Promissory Notes in favor of the Lenders and two Warrant Agreements in favor of the Lenders for aggregate initial gross proceeds of \$3 million. The two Warrant Agreements allow the Lenders to purchase up to an aggregate of 101,694 shares of our common stock at a per share price of \$1.77 (the **Warrants**).

Pursuant to the Loan Agreement, the Lenders initially loaned us \$3 million upon the satisfaction of certain closing conditions. The Loan Agreement includes an option, which expires on August 31, 2010, for us to receive an additional \$2 million in funding upon the satisfaction of certain conditions, including generating cash from other financing sources.

The outstanding principal balance of the loan bears interest at an annual percentage rate equal to the greater of the thirty (30) day LIBOR rate or three percent, plus nine and one quarter percent. In the event we do not satisfy certain post-closing items, the loan will bear interest at an annual percentage rate equal to the greater of the thirty (30) day LIBOR rate or three percent, plus eleven and one quarter percent. The interest rate will be adjusted each month and interest will be paid monthly. The Loan Agreement requires interest only payments for the first six months and beginning in December 2010, the outstanding principal will be repaid in 30 equal monthly installments. The final payment of all unpaid principal and accrued interest is due on May 2, 2013 (the **Maturity Date**). Our obligations are secured by substantially all of our assets now owned or hereinafter acquired, including our intellectual property, as well as those of our two wholly-owned subsidiaries, BL Acquisition Corp. and BL Acquisition II, Inc., each of whom have provided a security agreement and certain guarantees to the Lenders. Certain of the assets secured by the security agreement are subordinate to the 2010 Security Agreement in favor of HSIC. As of June 30, 2010, interest on the note is being accrued at a rate of 14.25%. Interest expense, related loan origination fees, prepayment fees and warrant discount costs provide for an effective interest rate on the term loan of 34%.

The Loan Agreement permits us to prepay the outstanding principal amount and all accrued but unpaid interest and fees, subject to a prepayment fee. The amount of the prepayment fee depends on when the prepayment is made. If prepayment is made on or prior to the first anniversary of the date of the term loan, the prepayment fee is equal to six percent of the outstanding principal at the time of prepayment. If prepayment is made after the first anniversary of the term loan and on or prior to the second anniversary of the term loan, the prepayment fee is equal to four percent of the outstanding principal at the time of prepayment. If prepayment is made after the second anniversary of the term loan and prior to the Maturity Date, the prepayment fee is equal to two percent of the outstanding principal at the time of prepayment.

The Loan Agreement requires certain post-closing covenants and compliance with customary financial and performance covenants and provides for customary events of default. If a default occurs, the Lenders may declare the amounts outstanding under the Loan Agreement immediately due and payable. We did not meet a defined minimum **EBITDA** test for the period ended June 30, 2010. On August 16, 2010, the Lenders agreed to an interim forbearance period of 15 days as we continue our discussions with the Lenders regarding the performance covenant requirements. Pursuant to the Loan Agreement, we paid a commitment fee of one-half of one percent of the aggregate \$5 million term loan amount, or \$25,000. This commitment fee and the legal costs associated with acquiring the loan were capitalized and are being amortized as interest expense using the effective interest method over the term of the loan. In addition, upon our repayment of the loan, we must pay a final payment fee equal to three percent of the total amount funded under the Loan Agreement which is being accrued and charged to interest expense using the effective interest method over the term of the loan.

In connection with the Loan Agreement, we issued to the Lenders the Warrants. The Warrants are immediately exercisable and may be exercised on a cashless basis. In lieu of exercising these warrants, the holders may convert the warrants into a number of shares, in whole or in part. These warrants will expire if unused on May 26, 2015. The \$103,000 estimated fair value of the Warrants was determined by the Black Scholes option pricing model. (See Note 8) The Warrants were recorded as equity, resulting in a discount to the Term Loan at issuance. The discount is being amortized to interest expense using the effective interest method over the term of the loan.

For the six months ended June 30, 2010, our operating activities used cash of approximately \$2.7 million compared to cash used of \$2.0 million for the six months ended June 30, 2009. Cash flows from operating activities in the quarter ended June 30, 2010 were negatively impacted by the net loss recorded in the period offset by a \$6.3 million customer deposit from HSIC. The most significant changes in operating assets and liabilities for the six months ended June 30, 2010 as reported in our consolidated statements of cash flows were decreases of \$2.5 million in accounts receivable (before the change in allowance for doubtful accounts) and a \$6.3 million customer deposit offset by an increase in accounts payable and accrued liabilities of \$730,000.

Table of Contents

In December 2009, we financed approximately \$573,000 of insurance premiums payable in ten equal monthly installments of approximately \$58,000 each, including a finance charge of 3.24%. On January 10, 2006, we entered into a five-year facility lease with initial monthly installments of \$39,000 and annual adjustments over the lease term. On September 24, 2009, we entered into a First Amendment to Lease which extended the facility lease term to April 20, 2015, adjusted basic rent and made modification provisions to the security deposit. These amounts are included in the outstanding obligations as of June 30, 2010 listed below.

The following table presents our expected cash requirements for contractual obligations outstanding as of June 30, 2010 for the years ending as indicated below (in thousands):

	Less Than 1 Year	1 to 3 Years	3 to 5 Years	More Than 5 years	Total
Operating leases	\$ 481	\$ 976	\$ 947	\$	\$ 2,404
SurgiLight agreement	25				25
Insurance premium financing	174				174
Total	\$ 680	\$ 976	\$ 947	\$	\$ 2,603

In addition and not included in the above table is a long term commitment to a supplier in the amount of \$4.7 million for purchases through 2012.

In January 2008, Jake St. Philip was appointed our Chief Executive Officer. On March 5, 2009, Mr. St. Philip resigned as our Chief Executive Officer and as a director of our Board of Directors. On March 10, 2009, we entered into a Separation and General Release Agreement, or Agreement, with Mr. St. Philip. Pursuant to the Agreement, we agreed to pay Mr. St. Philip a severance payment of \$350,000 of which half was paid on May 9, 2009 and half was paid in twelve consecutive equal monthly installments commencing on June 1, 2009. In addition, we paid COBRA premiums on his behalf for twelve months. The Agreement superseded the Employment Agreement we had with Mr. St. Philip dated January 2, 2008.

On April 30, 2008, we appointed David M. Mulder as Chief Financial Officer. Mr. Mulder has an employment agreement that obligates us to pay him severance benefits under certain conditions, including termination without cause and resignation with good reason. In the event Mr. Mulder is terminated by us without cause or he resigns with good reason, the total severance benefits payable would be approximately \$255,000 based on compensation in effect as of April 30, 2008, the date Mr. Mulder was appointed as our then Chief Financial Officer. On March 5, 2009, Mr. Mulder was appointed Chief Executive Officer and appointed to our Board of Directors. On April 3, 2009, we modified the financial terms of Mr. Mulder's employment with us, in connection with his appointment to the position of Chief Executive Officer. Under the new terms of Mr. Mulder's employment, in the event he is terminated by us without cause or he resigns with good reason, we agreed to pay Mr. Mulder his base salary then in effect (or \$250,000, his new base salary as modified on April 3, 2009) payable in twenty-four equal semi-monthly installments. In addition, we agreed to pay Mr. Mulder's COBRA premiums for twelve months. On June 10, 2010, Mr. Mulder was appointed President and Chairman of the Board.

On July 14, 2009, we appointed Brett L. Scott as Chief Financial Officer. Mr. Scott has an employment agreement that obligates us to pay him severance benefits under certain conditions, including termination without cause and resignation with good reason. In the event Mr. Scott is terminated by us without cause or he resigns with good reason, the total severance benefits payable would be approximately \$102,500 based on the employment agreement in effect as of July 14, 2009. In addition, we agreed to pay Mr. Scott's COBRA premiums for six months. On July 6, 2010, Mr. Scott resigned from his position as Chief Financial Officer. On July 6, 2010, we entered into a Separation Agreement, or Agreement, with Mr. Scott. Pursuant to the Agreement, we agreed to pay Mr. Scott a severance payment of \$17,500, payable in two consecutive installments. In addition, we agreed to pay COBRA premiums on his behalf for three months. The Agreement superseded the severance provisions contained in the Employment Agreement we had with Mr. Scott dated July 14, 2009.

On June 10, 2010, Mr. Federico Pignatelli was terminated as President of the Company. On July 1, 2010, Mr. Pignatelli was appointed Vice Chairman of the Board of Directors. In connection with such appointment, Mr. Pignatelli agreed to \$1 cash compensation and 35,000 shares of Stock Options in lieu of the cash compensation paid to our Directors. We also agreed to reimburse Mr. Pignatelli for \$50,000 of his out-of-pocket legal fees and expenses incurred in conjunction with stockholder activities.

In addition to Mr. Mulder, certain other members of management are entitled to severance benefits payable upon termination following a change in control, which would approximate \$1.5 million. Also, we have agreements with certain employees to pay bonuses based on targeted performance criteria.

Table of Contents

In addition to the amounts shown in the table above, \$109,000 of unrecognized tax benefits have been recorded as liabilities, and we are uncertain as to if or when such amounts may be settled. Related to these unrecognized tax benefits, we have also recorded a liability for potential penalties and interest of \$20,000 and \$27,000, respectively, at June 30, 2010. The liability for unrecognized tax benefits at June 30, 2010 and December 31, 2009 was \$156,000 and \$153,000, respectively.

Our capital requirements will depend on many factors, including, among other things, the effects of any acquisitions we may pursue as well as the rate at which our business grows, with corresponding demands for working capital and manufacturing capacity. We could be required or may elect to seek additional funding through public or private equity or debt financing. However, a credit facility, or additional funds through public or private equity or other debt financing, may not be available on terms acceptable to us or at all. Without additional funds and/or increased revenues, we may not have enough cash/financial resources to operate for the next twelve months.

Recent Accounting Pronouncements

See Note 2 of the Notes to Consolidated Financial Statements (Unaudited) included in this report for a discussion on recent accounting pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Substantially all of our revenue is denominated in U.S. dollars, including sales to our international distributors. Only a small portion of our revenue and expenses is denominated in foreign currencies, principally the Euro. Our Euro expenditures primarily consist of the cost of maintaining our office in Germany, including the facility and employee-related costs. To date, we have not entered into any hedging contracts. Future fluctuations in the value of the U.S. dollar may, however, affect the price competitiveness of our products outside the United States.

Through February 5, 2009, we had a line of credit which bore interest at rates based on the Prime Rate or LIBOR. The line of credit was terminated on February 5, 2009 and the balance was repaid in full.

On May 27, 2010 we entered into a Loan and Security Agreement (the "Loan Agreement") with MidCap Financial, LLC, a Delaware limited liability company, and Silicon Valley Bank, a California corporation (collectively, the "Lenders") for term loan funding of up to \$5 million, \$3 million of which was funded immediately and bore interest at an annual percentage rate equal to the greater of the thirty (30) day LIBOR rate or three percent, plus eleven and one quarter percent or 14.25%.

Our primary objective in managing our cash balances has been preservation of principal and maintenance of liquidity to meet our operating needs. Most of our excess cash balances are invested in money market accounts in which there is minimal interest rate risk.

ITEM 4. CONTROLS AND PROCEDURES.***Disclosure Controls and Procedures***

Our management, with the participation of our chief executive officer and principal financial and accounting officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of June 30, 2010. Based on this evaluation, our chief executive officer and principal financial and accounting officer concluded that our disclosure controls and procedures were effective as of June 30, 2010.

Changes in Internal Control over Financial Reporting

In our Annual Report on Form 10-K for the year ended December 31, 2009, we disclosed management's assessment that our internal control over financial reporting contained no material weaknesses. No change in internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) occurred in 2010 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION.****ITEM 1. LEGAL PROCEEDINGS.**

On April 6, 2010, Discus Dental LLC (Discus) and Zap Lasers LLC (Zap) filed a lawsuit against us in the United States District Court for the Central District of California, related to our iLase(TM) diode laser. The lawsuit alleges claims for patent infringement, federal unfair competition, common law trademark infringement and unfair competition, and violation of the California Unfair Trade Practices Act.

On May 19, 2010, Discus and Zap filed a First Amended Complaint related to their lawsuit against us. The Amended Complaint dropped the allegation of fraud, as well as certain allegations related to the claims for trademark infringement and unfair competition. In addition to dropping the fraud allegation, the plaintiffs took other steps to narrow their claims against us.

We intend to vigorously defend the Company against this lawsuit. While, based on the facts presently known, we believe we have meritorious defenses to the claims asserted by Discus and Zap, there is no guarantee that we will prevail in this suit or receive any relief if we do prevail. As of June 30, 2010, no amounts have been recorded in the consolidated financial statements for these matters since management believes that it is not probable we have incurred a loss contingency.

From time to time, we become involved in various claims and lawsuits of a character normally incidental to our business. In our opinion, there are no legal proceedings pending against us or any of our subsidiaries that are reasonably expected to have a material adverse effect on our financial condition or on our results of operations.

ITEM 1A. RISK FACTORS.

Our business, financial condition, and results of operations can be impacted by a number of risk factors, any one of which could cause our actual results to vary materially from recent results or from our anticipated future results. The discussion of our business and operations should be read together with the risk factors below and those contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009 which was filed with the SEC, and our Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2010 which was filed with the SEC, and describe the various risks and uncertainties to which we are or may be subject. Any of these risks could materially and adversely affect our business, financial condition and results of operations, which in turn could materially and adversely affect the price of our common stock or other securities.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

On May 5, 2010, we held our 2010 Annual Meeting of Stockholders to vote on two proposals. The number of shares entitled to vote was 24,244,201. The number of shares represented in person or by proxy was 18,956,775.

The following are the voting results for the proposals:

PROPOSAL 1: Election of six directors to serve until our next annual meeting of stockholders.
