THE ST. JOE COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, unless otherwise stated)
(Unaudited)

1. Description of Business and Basis of Presentation***Description of Business***

The St. Joe Company (the Company) is a real estate development company primarily engaged in residential, commercial and industrial development and rural land sales. The Company also has significant interests in timber. Most of its real estate operations, as well as its timber operations, are within the State of Florida.

Basis of Presentation

The accompanying unaudited interim financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) for reporting on Form 10-Q. Accordingly, certain information and footnotes required by generally accepted accounting principles in the United States for complete financial statements are not included herein. The consolidated interim financial statements include the accounts of the Company and all of its majority-owned and controlled subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. The December 31, 2009 balance sheet amounts have been derived from the Company's December 31, 2009 audited financial statements.

The statements reflect all normal recurring adjustments that, in the opinion of management, are necessary for fair presentation of the information contained herein. The consolidated interim statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. The Company adheres to the same accounting policies in preparation of its interim financial statements. As permitted under generally accepted accounting principles, interim accounting for certain expenses, including income taxes, are based on full year assumptions. For interim financial reporting purposes, income taxes are recorded based upon estimated annual effective income tax rates.

Certain prior period amounts have been reclassified to conform to the current period's presentation.

Correction of Prior Period Error

In the first quarter of 2010, the Company determined that approximately \$2.6 million (\$1.6 million net of tax) of stock compensation expense related to the acceleration of the service period for retirement eligible employees should have been recognized in periods prior to 2010. Accordingly, the consolidated balance sheet for December 31, 2009 has been adjusted to reduce deferred income taxes, net, by \$1.0 million and increase common stock by \$2.6 million to reflect the correction of this error, with a corresponding \$1.6 million reduction recorded to retained earnings. This correction is similarly reflected as an adjustment to common stock and retained earnings as of December 31, 2009 in the consolidated statement of changes in equity. The correction of this error also affected the consolidated statements of operations for the three months and nine months ended September 30, 2009 and consolidated statement of cash flows for the nine months ended September 30, 2009. These corrections were not considered material to prior period financial statements.

New Accounting Standards

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2010-06, *Fair Value Measurements and Disclosures* (Topic 820): Improving Disclosures about Fair Value Measurements (ASU 2010-06). ASU 2010-06 requires some new disclosures and clarifies some existing disclosure requirements about fair value measurement as set forth in Codification Subtopic 820-10. ASU 2010-06 amends Codification Subtopic 820-10 to now require (1) a reporting entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers; (2) in the reconciliation for fair value measurements using significant unobservable inputs, a reporting entity should present separately information about purchases, sales, issuances, and settlements, and (3) a reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years

Table of Contents

beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of ASU No. 2010-06 did not have a material impact on the Company's financial position or results of operations.

In December 2009, the FASB issued ASU 2009-16, *Transfers and Servicing* (Topic 860) Accounting for Transfers of Financial Assets (ASU 2009-16) and ASU 2009-17, *Consolidations* (Topic 810) Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities (ASU 2009-17). ASU 2009-16 formally codifies Statement of Financial Accounting Standards (SFAS) No. 166, *Accounting for Transfers of Financial Assets*, while ASU 2009-17 codifies SFAS 167, *Amendments to FASB Interpretation No. 46(R)*. ASU 2009-16 represents a revision to the provisions of former SFAS 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, and will require more information about transfers of financial assets, including securitization transactions, and where entities have continuing exposure to the risks related to transferred financial assets. It eliminates the concept of a qualifying special-purpose entity (QSPE), changes the requirements for derecognizing financial assets and requires additional disclosures. ASU 2009-17 represents a revision to former Financial Interpretation No. 46 (Revised December 2003), *Consolidation of Variable Interest Entities*, and changes how a reporting entity determines when an entity that is insufficiently capitalized or is not controlled through voting (or similar rights) should be consolidated. The determination of whether a reporting entity is required to consolidate another entity is based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance.

The updates require a number of new disclosures. ASU 2009-16 enhances information reported to users of financial statements by providing greater transparency about transfers of financial assets and an entity's continuing involvement in transferred financial assets. ASU 2009-17 requires a reporting entity to provide additional disclosures about its involvement with variable interest entities and any significant changes in risk exposure due to that involvement. A reporting entity will be required to disclose how its involvement with a variable interest entity affects the reporting entity's financial statements. The updates to the Codification are effective at the start of a reporting entity's first fiscal year beginning after November 15, 2009, or January 1, 2010, for a calendar year-end entity. ASU 2009-16 and ASU 2009-17 were adopted by the Company as required on January 1, 2010. The adoption of ASU 2009-16 and ASU 2009-17 did not have a material impact on the Company's financial position or results of operations. Although the Company holds a retained interest in bankruptcy remote entities that were previously considered QSPEs, the financial position and results of such QSPEs are not consolidated in the Company's financial statements. The Company evaluated the accounting requirements of ASU 2009-17 and determined that it would not be required to consolidate the financial position and results of the QSPEs as the Company is not the primary decision maker with respect to activities that could significantly impact the economic performance of the QSPEs, nor does the Company perform any service activity related to the QSPEs.

2. Stock-Based Compensation and Earnings Per Share***Stock-Based Compensation***

Stock-based compensation cost is measured at the grant date based on the fair value of the award and is typically recognized as expense on a straight-line basis over the requisite service period, which is the vesting period. Stock-based compensation cost may be recognized over a shorter requisite service period if an employee meets retirement eligibility requirements. Additionally, the 15% discount at which employees may purchase the Company's common stock through payroll deductions is being recognized as compensation expense. Upon exercise of stock options or vesting of restricted stock, the Company will issue new common stock.

Service-Based Grants

A summary of service-based non-vested restricted share activity as of September 30, 2010 and changes during the nine month period are presented below:

	Number of Shares	Weighted Average Grant Date Fair Value
Service-Based Non-Vested Restricted Shares		

Edgar Filing: ST JOE CO - Form 10-Q

Balance at December 31, 2009	299,815	\$ 36.66
Granted	160,923	27.58
Vested	(121,616)	40.12
Forfeited	(28,070)	30.76
Balance at September 30, 2010	311,052	\$ 31.15

Table of Contents

As of September 30, 2010, there was \$2.2 million of unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested restricted stock and stock option compensation arrangements which will be recognized over a weighted average period of four years.

Market Condition Grants

The Company grants to select executives and other key employees non-vested restricted stock whose vesting is based upon the achievement of certain market conditions which are defined as the Company's total shareholder return as compared to the total shareholder return of certain peer groups during a three year performance period.

The Company currently uses a Monte Carlo simulation pricing model to determine the fair value of its market condition awards. The determination of the fair value of market condition-based awards is affected by the stock price as well as assumptions regarding a number of other variables. These variables include expected stock price volatility over the requisite performance term of the awards, the relative performance of the Company's stock price and shareholder returns to those companies in its peer groups and a risk-free interest rate assumption. Compensation cost is recognized regardless of the achievement of the market condition, provided the requisite service period is met.

A summary of the activity during the nine months ended September 30, 2010 is presented below:

	Number of Shares	Weighted Average Grant Date Fair Value
Market Condition Non-Vested Restricted Shares		
Balance at December 31, 2009	503,247	\$ 23.95
Granted	177,044	21.23
Vested		
Forfeited	(98,010)	23.56
Balance at September 30, 2010	582,281	\$ 23.19

As of September 30, 2010, there was \$4.0 million of unrecognized compensation cost, adjusted for estimated forfeitures, related to market condition non-vested restricted shares which will be recognized over a weighted average period of three years. At September 30, 2010, the Company has accrued \$0.8 million related to cash liability awards that may be payable to terminated employees who had been granted market condition restricted shares.

Total stock-based compensation recognized in the consolidated statements of operations is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Stock-based compensation expense	\$1,911	\$872	\$4,730	\$7,455

Earnings (Loss) Per Share

Basic earnings (loss) per share is calculated by dividing net income (loss) by the average number of common shares outstanding for the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period, including all potentially dilutive shares issuable under outstanding stock options and service-based non-vested restricted stock. Stock options and non-vested restricted stock are not considered in any diluted earnings per share calculations when the Company has a loss from continuing operations. Non-vested restricted shares subject to vesting based on the achievement of market conditions are treated as contingently issuable shares and are considered outstanding only upon the satisfaction of the market conditions.

The following table presents a reconciliation of average shares outstanding:

	Three Months Ended	Nine Months Ended
--	---------------------------	--------------------------

	September 30,		September 30,	
	2010	2009	2010	2009
Basic average shares outstanding	91,773,482	91,496,677	91,635,193	91,357,912
Net effect of stock options assumed to be exercised				
Net effect of non-vested restricted stock assumed to be vested				
Diluted average shares outstanding	91,773,482	91,496,677	91,635,193	91,357,912

Table of Contents

Approximately 0.1 million and 0.2 million shares were excluded from the computation of diluted earnings (loss) per share during the three months ended September 30, 2010 and 2009, respectively, and 0.1 million and 0.2 million during the nine months ended September 30, 2010 and 2009, respectively, as the effect would have been anti-dilutive.

3. Fair value measurements

The Company follows the provisions of ASC 820 for its financial and non-financial assets and liabilities. ASC 820 among other things, defines fair value, establishes a consistent framework for measuring fair value and expands disclosure for each major asset and liability category measured at fair value on either a recurring or nonrecurring basis. ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1. Observable inputs such as quoted prices in active markets;

Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets and liabilities measured at fair value on a recurring basis are as follows:

Fair value as of September 30, 2010

	Fair Value September 30, 2010	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Recurring:				
Investments in money market	\$ 188,308	\$ 188,308	\$	\$
Retained interest in QSPEs	10,179			10,179
Standby guarantee liability	(791)			(791)
Total, net	\$ 197,696	\$ 188,308	\$	\$ 9,388

Fair value as of December 31, 2009

Total, net	\$ 153,075	\$ 143,985	\$	\$ 9,090

During 2008 and 2007, the Company sold 79,031 acres and 53,024 acres, respectively, of timberland in exchange for 15-year installment notes receivable in the aggregate amount of \$108.4 million and \$74.9 million, respectively. The installment notes are fully backed by irrevocable letters of credit issued by Wells Fargo Bank, N.A. The Company contributed the installment notes to bankruptcy remote QSPEs.

During 2008 and 2007, the QSPEs monetized \$108.4 million and \$74.9 million, respectively, of installment notes by issuing debt securities to third party investors equal to approximately 90% of the value of the installment notes. Approximately \$96.1 million and \$66.9 million in net proceeds were distributed to the Company during 2008 and 2007, respectively. The debt securities are payable solely out of the assets of the QSPEs and proceeds from the letters of credit. The investors in the QSPEs have no recourse against the Company for payment of the debt securities or related interest expense.

Table of Contents

The QSPE's financial position and results are not consolidated in the Company's financial statements as the Company is not the primary decision maker with respect to the activities that could significantly impact the economic performance of the QSPEs, nor does the Company perform any service activity related to the QSPEs.

The Company has recorded a retained interest with respect to the monetization of certain installment notes through the use of QSPEs, which is recorded in other assets. The retained interest is an estimate based on the present value of cash flows to be received over the life of the installment notes. The Company's continuing involvement with the QSPEs is in the form of receipts of net interest payments, which are recorded as interest income and approximated \$0.3 million for each of the nine months ended September 30, 2010 and 2009, respectively. In addition, the Company will receive the payment of the remaining principal on the installment notes during 2022 and 2023.

In accordance with ASC 325, *Investments - Other, Subtopic 40 - Beneficial Interests in Securitized Financial Assets*, the Company recognizes interest income over the life of the retained interest using the effective yield method with discount rates ranging from 2%-7%. This income adjustment is being recorded as an offset to loss on monetization of notes over the life of the installment notes. In addition, fair value may be adjusted at each reporting date when, based on management's assessment of current information and events, there is a favorable or adverse change in estimated cash flows from cash flows previously projected. The Company did not record any impairment adjustments as a result of changes in previously projected cash flows during the first nine months of 2010 or 2009.

The following is a reconciliation of the Company's retained interest in QSPEs:

	2010
Balance January 1	\$ 9,881
Additions	
Accretion of interest income	298
Balance September 30	\$ 10,179

In the event of a failure and liquidation of the financial institution involved in our installment sales, the Company could be required to write-off the remaining retained interest recorded on its balance sheet in connection with the installment sale monetization transactions, which would have an adverse effect on the Company's results of operations and balance sheet.

On October 21, 2009, the Company entered into a strategic alliance agreement with Southwest Airlines to facilitate the commencement of low-fare air service to the new Northwest Florida Beaches International Airport. The Company has agreed to reimburse Southwest Airlines if it incurs losses on its service at the new airport during the first three years of service by making specified break-even payments. There was no reimbursement required during the third quarter of 2010 and a carryover profit will be applied to the reimbursement calculation for the fourth quarter of 2010. The agreement also provides that Southwest Airlines' profits from the air service during the term of the agreement will be shared with the Company up to the maximum amount of our break-even payments.

The term of the agreement extends for a period of three years ending May 23, 2013. Although the agreement does not provide for maximum payments, the agreement may be terminated by the Company if the break-even payments to Southwest Airlines exceed \$14.0 million in the first year of air service or \$12.0 million in the second year. Southwest Airlines may terminate the agreement if its actual annual revenues attributable to the air service at the new airport are less than certain minimum annual amounts established in the agreement.

The Company measured the associated standby guarantee liability at fair value based upon a discounted cash flow analysis based on management's best estimates of future cash flows to be paid by the Company pursuant to the strategic alliance agreement. These cash flows are based on numerous estimates including future fuel costs, passenger load factors, air fares, and seasonality. The fair value of the liability could fluctuate up or down significantly as a result of changes in assumptions related to these estimates and could have a material impact on the Company's operating results.

The Company carried a standby guarantee liability of \$0.8 million at September 30, 2010 and December 31, 2009 related to this strategic alliance agreement. The Company reevaluates this estimate quarterly.

The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Homes and homesites substantially completed and ready for sale are measured at lower of carrying value or fair value less costs to sell. The fair value of homes and homesites is determined based upon final sales prices of inventory sold during the period (level 2 inputs). For inventory held for sale, estimates of selling prices based on current market data are utilized (level 3 inputs). For projects under development, an estimate of future cash flows on an undiscounted basis is performed using estimated future expenditures necessary to maintain and complete the

Table of Contents

existing project and using management's best estimates about future sales prices, sales volume, sales velocity and holding periods (level 3 inputs). In addition, the estimated length of expected development periods, related economic cycles and inherent uncertainty with respect to these projects, such as the impact of change in development plans and the Company's intent and ability to hold the projects through the development period, could result in changes to these estimates. The Company's assets measured at fair value on a nonrecurring basis are those assets for which the Company has recorded valuation adjustments and write-offs during the current period. The assets measured at fair value on a nonrecurring basis during the nine months ended September 30, 2009 were as follows:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value September 30, 2009	Total Losses
Non-financial assets:					
Investment in real estate		\$ 25,613	\$ 6,952	\$ 32,565	\$ 13,250

Long-lived assets sold or held for sale with a carrying amount of \$45.8 million were written down to their fair value of \$32.6 million, resulting in a loss of \$13.3 million, which was included in impairment losses for the nine months ending September 30, 2009.

For the nine months ended September 30, 2010, impairment charges related to the investment in real estate were \$0.1 million.

4. Derivative Financial Instruments

The Company accounts for derivative financial instruments in accordance with ASC 815 - *Derivatives and Hedging* (ASC 815). ASC 815 requires that an entity recognize all derivatives, as defined, as either assets or liabilities at fair value. The Company uses derivative instruments to manage its exposure to cash flow risks inherent in its standby guarantee agreement with Southwest Airlines and does not hold or issue derivative instruments for speculative or trading purposes.

As discussed in Note 3, the Company's agreement with Southwest Airlines includes variable cost components which could have a significant impact on the Company's cash flows. Airline operators are inherently dependent upon fuel to operate, and therefore, are effected by changes in jet fuel prices. During the second quarter of 2010, the Company entered into a short-term financial derivative instrument to mitigate any potential adverse impact which may result from an increase in jet fuel costs. Specifically, the Company entered into a collar transaction in which the Company purchased a call option and sold a put option against the underlying cost of jet fuel for a portion of Southwest Airlines' estimated fuel volumes. This derivative instrument is not designated as a hedge and changes in the fair value of this derivative instrument are recognized in other, net on a monthly basis. There was no initial net cost of the derivative contracts, and there was no gain or (loss) recognized during the three months ended September 30, 2010.

5. Discontinued Operations

In December 2009, the Company sold Victoria Hills Golf Club as part of the bulk sale of Victoria Park and sold the St. Johns Golf and Country Club. The Company has classified the operating results associated with these golf courses as discontinued operations as these operations had identifiable cash flows and operating results, and the Company has no continuing involvement in their operations.

On February 27, 2009, the Company sold its remaining inventory and equipment assets related to its Sunshine State Cypress mill and mulch plant.

Table of Contents

Discontinued operations presented on the consolidated statements of operations for the three and nine months ended September 30, 2009 included the following:

	Three Months Ended September 30, 2009	Nine Months Ended September 30, 2009
Victoria Hills Golf Club Residential Segment		
Aggregate revenues	\$ 557	\$ 1,982
Pre-tax loss	(274)	(510)
Income taxes (benefit)	(107)	(199)
Loss from discontinued operations, net	\$ (167)	\$ (311)

(Loss) income from discontinued operations, net	\$ (20)	\$ 57
Sunshine State Cypress Forestry Segment		
Aggregate revenues		\$ 1,707
Pre-tax loss		(377)
Pre-tax gain on sale		124
Income taxes (benefit)		(99)
Loss from discontinued operations		\$ (154)
Total loss from discontinued operations, net	\$ (187)	\$ (408)

Table of Contents**6. Investment in Real Estate**

Real estate by segment includes the following:

	September 30, 2010	December 31, 2009
Operating property:		
Residential real estate	\$ 178,338	\$ 173,190
Rural land sales	139	139
Forestry	60,569	61,890
Other	510	510
Total operating property	239,556	235,729
Development property:		
Residential real estate	466,712	470,364
Commercial real estate	62,173	59,385
Rural land sales	7,522	7,699
Other	305	305
Total development property	536,712	537,753
Investment property:		
Commercial real estate	1,753	1,753
Rural land sales		5
Forestry	952	522
Other	5,901	5,902
Total investment property	8,606	8,182
Investment in unconsolidated affiliates:		
Residential real estate	1,958	2,836
Total real estate investments	786,832	784,500
Less: Accumulated depreciation	(40,041)	(35,000)
Investment in real estate	\$ 746,791	\$ 749,500

Included in operating property are Company-owned amenities related to residential real estate, the Company's timberlands, and land and buildings developed by the Company and used for commercial rental purposes. Development property consists of residential real estate land and inventory currently under development to be sold. Investment property primarily includes the Company's land held for future use.

7. Notes Receivable

Notes receivable consisted of the following:

	September 30, 2010	December 31, 2009
Various builders	\$ 1,727	\$ 1,795
Pier Park Community Development District	2,761	2,641
Perry Pines mortgage note	6,263	6,263

Various mortgages and other		614		804
Total notes receivable	\$	11,365	\$	11,503

The Company evaluates the need for an allowance for doubtful notes receivable at each reporting date. Notes receivable balances are adjusted to net realizable value based upon a review of entity specific facts or when terms are modified. During the second quarter of 2010, the Company recorded a \$0.5 million write-down resulting from a renegotiated builder note receivable. During the second quarter of 2009, the Company determined the Advantis note receivable was uncollectible and

Table of Contents

accordingly recorded a charge of \$7.4 million related to the write-off of the outstanding balance. In addition, the Company received a deed in lieu of foreclosure related to a \$4.0 million builder note receivable during the second quarter of 2009 and renegotiated terms related to certain other builder notes receivable during the third quarter of 2009. These events resulted in impairment charges of \$0.1 million and \$1.7 million during the three and nine month periods ended September 30, 2009, respectively.

8. Restructuring

The Company announced on March 17, 2010 that it is relocating its corporate headquarters from Jacksonville, Florida to its VentureCrossings Enterprise Centre to be developed adjacent to the new Northwest Florida Beaches International Airport in Bay County, Florida. The Company will also be consolidating existing offices from Tallahassee, Port St. Joe and South Walton County into the new location. The relocation is expected to be completed during 2011.

The Company has incurred and expects to incur additional charges to earnings in connection with the relocation related primarily to termination and relocation benefits for employees, as well as certain ancillary facility-related costs. Such charges have been and are expected to be cash expenditures. Based on employee responses to the announced relocation, the Company estimates that total relocation costs should be approximately \$5.5 million (pre-tax) of which \$2.0 million was recorded in first nine months of 2010. The relocation costs include relocation bonuses, temporary lodging expenses, resettlement expenses, tax payments, shipping and storage of household goods, and closing costs for housing transactions. These estimates are based on significant assumptions, such as home values and actual results could differ materially from these estimates. In addition the Company estimates total cash termination benefits of approximately \$2.2 million (pre-tax) of which \$1.8 million was recorded in the first nine months of 2010. Also, during the third quarter of 2010, the Company purchased the home of an executive for \$1.9 million.

The charges associated with the Company's 2010 restructuring and reorganization program by segment are as follows:

	Residential Real Estate	Commercial Real Estate	Rural Land Sales	Forestry	Other	Total
Three months ended September 30, 2010: One-time termination and relocation benefits to employees	\$ 211	\$ 29	\$ 70	\$ 187	\$ 1,137	\$ 1,634
Cumulative restructuring charges, January 1, 2010 through September 30, 2010	\$ 905	\$ 38	\$ 763	\$ 187	\$ 1,898	\$ 3,791
Remaining estimated one-time termination and relocation benefits to employees	\$ 290	\$ 8	\$ 221	\$ 395	\$ 2,927	\$ 3,841

The company also incurred an additional \$0.5 million related to prior restructurings during the first nine months of 2010. At September 30, 2010, the remaining accrued liability associated with restructurings and reorganization programs consisted of the following:

Balance at**Balance at**

	December 31, 2009	Costs Accrued	Payments	September 30, 2010	Due within 12 months
One-time termination and relocation benefits to employees 2010 relocation	\$	\$ 3,791	\$ (2,734)	\$ 1,057	\$ 1,057
One-time termination benefits to employees 2009 and prior	\$ 4,460	\$ 538	\$ (4,890)	\$ 108	\$ 108
Total	\$ 4,460	\$ 4,329	\$ (7,624)	\$ 1,165	\$ 1,165

9. Debt

Debt consists of the following:

	September 30, 2010	December 31, 2009
Non-recourse defeased debt	25,757	27,105
Community Development District debt	12,566	12,403
Total debt	\$ 38,323	\$ 39,508

Table of Contents

The aggregate scheduled maturities of debt subsequent to September 30, 2010 are as follows (a):

2010	\$ 476
2011	1,982
2012	2,018
2013	1,586
2014	1,507
Thereafter	30,754
Total	\$ 38,323

- (a) Includes debt defeased in connection with the sale of the Company's office portfolio in the amount of \$25.8 million.

The Company has a \$125 million revolving Credit Agreement (the "Credit Agreement") with Branch Banking and Trust Company and Deutsche Bank. The Credit Agreement expires on September 19, 2012. The Credit Agreement contains covenants relating to leverage, unencumbered asset value, net worth, liquidity and additional debt. The Credit Agreement does not contain a fixed charge coverage covenant. The Credit Agreement also contains various restrictive covenants pertaining to acquisitions, investments, capital expenditures, dividends, share repurchases, asset dispositions and liens. The following includes a summary of the Company's more significant financial covenants:

	Covenant	September 30, 2010
Minimum consolidated tangible net worth	\$ 800,000	\$ 872,009
Ratio of total indebtedness to total asset value	50.0%	2.8%
Unencumbered leverage ratio	2.0x	98.5x
Minimum liquidity	\$ 20,000	\$ 320,002

The Company was in compliance with its debt covenants at September 30, 2010.

The Credit Agreement contains customary events of default. If any event of default occurs, lenders holding two-thirds of the commitments may terminate the Company's right to borrow and accelerate amounts due under the Credit Agreement. In the event of bankruptcy, all amounts outstanding would automatically become due and payable and the commitments would automatically terminate.

10. Employee Benefit Plans

The Company sponsors a cash balance defined benefit pension plan that covers substantially all of its salaried employees. A summary of the net periodic benefit expense follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2010	2009	2010	2009
Service cost	\$ 511	\$ 362	\$ 1,322	\$ 1,079
Interest cost	337	447	1,148	4,393
Expected return on assets	(248)	(1,263)	(3,191)	(8,078)

Edgar Filing: ST JOE CO - Form 10-Q

Prior service costs	160	177	535	532
Settlement loss	894	617	2,486	45,294
Curtailement charges			1,347	
Actuarial loss		57		1,015
Net periodic benefit expense	\$ 1,654	\$ 397	\$ 3,647	\$ 44,235

On June 18, 2009, the Company, as plan sponsor of The St. Joe Company Pension Plan (the Pension Plan), signed a commitment for the Pension Plan to purchase a group annuity contract from Massachusetts Mutual Life Insurance Company for the benefit of the retired participants and certain other former employee participants in the Pension Plan. Current employees and former employees with cash balances in the Pension Plan are not affected by the transaction. The purchase price of the group annuity contract was approximately \$101.0 million, which was funded from the assets of the Pension Plan on June 25, 2009 and included a premium to assume these obligations. The transaction resulted in the transfer and settlement of pension benefit obligations of approximately \$93.0 million, which represented the obligation prior to the annuity purchase

Table of Contents

for the affected retirees and vested terminated employees. In addition, the Company recorded a non-cash settlement pre-tax charge to earnings during the third quarter of 2009 of \$44.7 million. The Company also recorded a pre-tax credit in the amount of \$44.7 million in Accumulated Other Comprehensive Income on its Consolidated Balance Sheet offsetting the non-cash charge to earnings.

The Company remeasures its plan assets and benefit obligation at each December 31. As a result of settlements and curtailments which occurred during the nine months ended September 30, 2010, the Company was required to remeasure its plan assets and benefit obligation as of September 30, 2010.

11. Income Taxes

The Company had approximately \$1.4 million of total unrecognized tax benefits as of September 30, 2010 and December 31, 2009, none of which, if recognized, would materially affect its effective income tax rate. The Company recognizes interest and/or penalties related to income tax matters in income tax expense. The Company had accrued interest of \$0.2 million and \$0.3 million (net of tax benefit) at September 30, 2010 and December 31, 2009, respectively, related to uncertain tax positions. There were no significant changes to unrecognized tax benefits including interest and penalties during the third quarter of 2010, and the Company does not expect any significant changes to its unrecognized tax benefits during the next twelve months.

On March 23, 2010, the Patient Protection and Affordable Care Act (the PPACA) was signed into law, and, on March 30, 2010, the Health Care and Education Reconciliation Act of 2010 (the HCERA and, together with PPACA, the Acts), which makes various amendments to certain aspects of the PPACA, was signed into law. The Acts effectively change the tax treatment of federal subsidies paid to sponsors of retiree health benefit plans that provide prescription drug benefits that are at least actuarially equivalent to the corresponding benefits provided under Medicare Part D.

The Company recognized a noncash charge of approximately \$0.6 million during the quarter ended March 31, 2010 to reduce deferred tax assets to reflect the change in the tax treatment of the federal subsidy.

The change in the tax treatment of the federal subsidy only affects the application of tax law to the Company's prescription drug plans that are actuarially equivalent to Medicare Part D and is not expected to result in an increase in the pre-tax cost of providing such plans to its retirees and employees.

12. Segment Information

The Company conducts primarily all of its business in four reportable operating segments: residential real estate, commercial real estate, rural land sales and forestry. The residential real estate segment develops and sells homesites and now, to a lesser extent, homes, following the Company's exit from homebuilding. The commercial real estate segment sells developed and undeveloped land as well as leases land. The rural land sales segment primarily sells parcels of land included in the Company's timberland holdings. The forestry segment produces and sells pine pulpwood, sawtimber and other forest products.

The Company uses loss from continuing operations before equity in income (loss) of unconsolidated affiliates, income taxes and noncontrolling interest for purposes of making decisions about allocating resources to each segment and assessing each segment's performance, which the Company believes represents current performance measures.

The accounting policies of the segments are the same as those described above in the summary of significant accounting policies and in our Form 10-K. Total revenues represent sales to unaffiliated customers, as reported in the Company's consolidated statements of operations. All intercompany transactions have been eliminated. The caption entitled Other consists of corporate general and administrative expenses, net of investment income.

Table of Contents

Information by business segment is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009

Forestry		61,694	62,082	
Other		281,403	316,956	
Total Assets		\$ 1,058,904	\$ 1,099,438	

13. Contingencies

The Company has retained certain self-insurance risks with respect to losses for third party liability and property damage.

At September 30, 2010 and December 31, 2009, the Company was party to surety bonds of \$15.7 million and \$28.1 million, respectively, and standby letters of credit in the amount of \$1.4 million which may potentially result in liability to the Company if certain obligations of the Company are not met.

The Company and its affiliates are involved in litigation on a number of matters and are subject to various claims which arise in the normal course of business, including claims resulting from construction defects and contract disputes. When appropriate, the Company establishes estimated accruals for litigation matters which meet the requirements of ASC 450 *Contingencies*. The Company has recorded an \$8.8 million reserve in connection with a contract dispute involving the 1997 purchase of land for its former Victoria Park community. The Company has

appealed an adverse trial court decision in this matter to a Florida court of appeals.

The Company is also subject to claims arising out of environmental laws and regulations. These claims may include the obligation to remove or limit the effects on the environment of the disposal or release of certain wastes or substances at various sites, including sites which have been previously sold. Pending claims include the Company's former paper mill site in Gulf County, certain adjacent properties and other properties. These claims may be subject to various Consent Agreements and Brownfield Site Rehabilitation Agreements with the Florida Department of Environmental Protection. The Company is in the process of assessing and rehabilitating certain of its properties.

It is the Company's policy to accrue and charge against earnings environmental cleanup costs when it is probable that a liability has been incurred and an amount can be reasonably estimated. As assessments and cleanups proceed, these accruals are reviewed and adjusted, if necessary, as additional information becomes available. Aggregate environmental-related accruals were \$1.6 million at September 30, 2010 and \$1.7 million at December 31, 2009 respectively.

Although in the opinion of management none of our litigation matters or governmental proceedings is expected to have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity, it is possible that actual amounts of liabilities resulting from such matters could be material.

Table of Contents

On October 21, 2009, the Company entered into a strategic alliance agreement with Southwest Airlines to facilitate the commencement of low-fare air service to the new Northwest Florida Beaches International Airport. The Company has agreed to reimburse Southwest Airlines if it incurs losses on its service at the new airport during the first three years of service. See Note 3 for further discussion of this standby guarantee.

14. Concentration of Risks and Uncertainties

Financial instruments that potentially subject the Company to a concentration of credit risk consist of cash, cash equivalents, notes receivable and retained interests. The Company deposits and invests excess cash with major financial institutions in the United States. Balances may exceed the amount of insurance provided on such deposits.

Some of the Company's notes receivable are from homebuilders and other entities associated with the real estate industry. As with many entities in the real estate industry, revenues have contracted for a number of these companies, and they may be increasingly dependent on their lenders' continued willingness to provide funding to maintain ongoing liquidity. The Company evaluates the need for an allowance for doubtful notes receivable at each reporting date.

There are not any other entity specific facts which currently cause the Company to believe that the remaining notes receivable will be realized at amounts below their carrying values; however, due to the slump in real estate markets and tightened credit conditions, the collectability of these receivables represents a significant risk to the Company and changes in the likelihood of collectability could adversely impact the accompanying financial statements.

The Company's real estate investments are concentrated in the State of Florida. A prolonged slump in the Florida real estate market and the economy could have an adverse impact on the Company's real estate values.

The Company believes the large oil spill in the Gulf of Mexico from the Deepwater Horizon incident had and will continue to have a negative impact on our properties, results of operations and stock price and has created uncertainty about the future of the Gulf Coast region. The Company has filed several lawsuits against the parties responsible for the oil spill seeking the recovery of damages. The Company cannot be certain, however, of the amount of any recovery or the ultimate success of its claims.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Forward-Looking Statements

We make forward-looking statements in this Report, particularly in this Management's Discussion and Analysis, pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Any statements in this Report that are not historical facts are forward-looking statements. You can find many of these forward-looking statements by looking for words such as intend, anticipate, believe, estimate, expect, plan, should, forecast, and other expressions. In particular, forward-looking statements include, among others, statements about the following:

- future operating performance, revenues, earnings and cash flows;
- future residential and commercial demand, opportunities and entitlements;
- development approvals and the ability to obtain such approvals, including possible legal challenges;
- the number of units or commercial square footage that can be supported upon full build out of a development;
- the number, price and timing of anticipated land sales or acquisitions;
- estimated land holdings for a particular use within a specific time frame;
- the levels of resale inventory in our developments and the regions in which they are located;
- the development of relationships with strategic partners, including commercial developers and homebuilders;
- future amounts of capital expenditures;
- the amount and timing of future tax refunds;
- timeframes for future construction and development activity; and
- the projected economic impact of the new Northwest Florida Beaches International Airport.

Forward-looking statements are not guarantees of future performance. You are cautioned not to place undue reliance on any of these forward-looking statements. These statements are made as of the date hereof based on current expectations, and we undertake no obligation to update the information contained in this Report. New information, future events or risks may cause the forward-looking events we discuss in this Report not to occur.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties. Factors that could cause actual results to differ materially from those contemplated by a forward-looking statement include the risk factors described in our annual report on Form 10-K for the year ended December 31, 2009 and our quarterly reports on Form 10-Q, as well as, among others, the following:

- a delay in the recovery of real estate markets in Florida and across the nation, or any further downturn in such markets;
- any renewed crisis in the national financial markets and the financial services and banking industries;
- a delay in the recovery of national economic conditions, or any further economic downturn;
- economic conditions in Northwest Florida, Florida as a whole and key areas of the southeastern United States that serve as feeder markets to our Northwest Florida operations;
- the adverse impact to Northwest Florida, the Gulf of Mexico and other coastal states resulting from the Deepwater Horizon oil spill in the Gulf of Mexico;
- the possible negative effects from any future oil spill incidents in the Gulf of Mexico or perceived risk regarding the possibility of future oil spill incidents;
- possible negative effects from oil or natural gas drilling if permitted off the coast of Northwest Florida;
- availability of mortgage financing, increases in foreclosures and increases in interest rates;
- changes in the demographics affecting projected population growth in Florida, including the migration of Baby Boomers;
- the inability to raise sufficient cash to enhance and maintain our operations and to develop our real estate holdings;
- an event of default under our credit facility, or the restructuring of such debt on terms less favorable to us;
- possible future write-downs of the book value of our real estate assets and notes receivable;
- the termination of sales contracts or letters of intent due to, among other factors, the failure of one or more closing conditions or market changes;
- the failure to attract homebuilding customers for our developments, or their failure to satisfy their purchase commitments;

the failure to attract desirable strategic partners, complete agreements with strategic partners and/or manage relationships with strategic partners going forward;
natural disasters, including hurricanes and other severe weather conditions, and their impact on current and future demand for our products in Florida;
the expense and management distraction associated with possible securities class action litigation;

Table of Contents

whether our developments receive all land-use entitlements or other permits necessary for development and/or full build-out or are subject to legal challenge;
local conditions such as the supply of homes and homesites and residential or resort properties or a decrease in the demand for real estate in our area;
timing and costs associated with property developments;
the pace of commercial and economic development in Northwest Florida;
competition from other real estate developers;
decreases in pricing of our products and the related profit margins;
increases in operating costs, including real estate taxes and the cost of construction materials;
changes in the amount or timing of federal and state income tax liabilities resulting from either a change in our application of tax laws, an adverse determination by a taxing authority or court, or legislative changes to existing laws;
the failure to realize significant improvements in job creation and public infrastructure in Northwest Florida, including the expected economic impact of the new Northwest Florida Beaches International Airport;
a reduction or termination of air service at Northwest Florida Beaches International Airport, especially any reduction or termination of Southwest Airlines service;
potential liability under environmental laws or other laws or regulations;
changes in laws, regulations or the regulatory environment affecting the development of real estate or forestry activities;
potential liability relating to construction defects;
fluctuations in the size and number of transactions from period to period;
the prices and availability of labor and building materials;
increases in homeowner insurance rates and deductibles for property in Florida, particularly in coastal areas, and decreases in the availability of property insurance in Florida;
high property tax rates in Florida, future increases in such rates and changes in property tax classifications;
significant tax payments arising from any acceleration of deferred taxes;
increases in gasoline prices; and
acts of war, terrorism or other geopolitical events.

Overview

We own a large inventory of land suitable for development in Florida. The majority of our land is located in Northwest Florida and has a very low cost basis. In order to optimize the value of these core real estate assets, we seek to reposition portions of our substantial timberland holdings for higher and better uses. We seek to create value in our land by securing entitlements for higher and better land-uses, facilitating infrastructure improvements, developing community amenities, undertaking strategic and expert land planning and development, parceling our land holdings in creative ways, performing land restoration and enhancement and promoting economic development.

We have four operating segments: residential real estate, commercial real estate, rural land sales and forestry.

Our residential real estate segment generates revenues from:

the sale of developed homesites to retail customers and builders;

Table of Contents

the sale of parcels of entitled, undeveloped land;
 the sale of housing units built by us;
 resort and club operations;
 rental income; and
 brokerage fees on certain transactions.

Our commercial real estate segment generates revenues from the sale or lease of developed and undeveloped land for retail, multi-family, office, hotel, industrial uses and rental income. Our rural land sales segment generates revenues from the sale of parcels of undeveloped land and rural land with limited development, easements, and mitigation bank credits. Our forestry segment generates revenues from the sale of pulpwood, sawtimber and forest products and conservation land management services.

Our business, financial condition and results of operations continued to be adversely effected during the third quarter of 2010 by the real estate downturn and economic recession in the United States. This challenging environment has exerted negative pressure on the demand for all of our real estate products and contributed to our net loss for the first nine months of 2010.

We believe the large oil spill in the Gulf of Mexico from the Deepwater Horizon incident had and will continue to have a negative impact on our properties, results of operations and stock price and has created uncertainty about the future of the Gulf Coast region. The Company has filed several lawsuits against parties responsible for the oil spill seeking the recovery of damages. The Company cannot be certain, however, of the amount of any recovery or the ultimate success of its claims.

Critical Accounting Estimates

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. We base these estimates on historical experience, available current market information and on various other assumptions that management believes are reasonable under the circumstances. Additionally we evaluate the results of these estimates on an on-going basis. Management's estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The critical accounting policies that we believe reflect our more significant judgments and estimates used in the preparation of our consolidated financial statements are set forth in Item 7 of our annual report on Form 10-K for the year ended December 31, 2009. There have been no significant changes in these policies during the first nine months of 2010.

Investment in Real Estate and Cost of Real Estate Sales. Costs associated with a specific real estate project are capitalized during the development period. We capitalize costs directly associated with development and construction of identified real estate projects. Indirect costs that clearly relate to a specific project under development, such as internal costs of a regional project field office, are also capitalized. We capitalize interest (up to total interest expense) based on the amount of underlying expenditures and real estate taxes on real estate projects under development. If we determine not to complete a project, any previously capitalized costs are expensed in the period such determination is made.

Real estate inventory costs include land and common development costs (such as roads, sewers and amenities), multi-family construction costs, capitalized property taxes, capitalized interest and certain indirect costs. Construction costs for single-family homes are determined based upon actual costs incurred. A portion of real estate inventory costs and estimates for costs to complete are allocated to each unit based on the relative sales value of each unit as compared to the estimated sales value of the total project. These estimates are reevaluated at least annually, and more frequently if warranted by market conditions or other factors, with any adjustments being allocated prospectively to the remaining units available for sale. The accounting estimate related to inventory valuation is susceptible to change due to the use of assumptions about future sales proceeds and related real estate expenditures. Management's assumptions about future housing and homesite sales prices, sales volume and sales velocity require significant

judgment because the real estate market is cyclical and highly sensitive to changes in economic conditions. In addition, actual results could differ from management's estimates due to changes in anticipated development, construction and overhead costs.

Fair Value Measurements We follow the fair value provisions of ASC 820 *Fair Value Measurements and Disclosures* (ASC 820) for our financial and non-financial assets and liabilities. ASC 820, among other things, defines fair value, establishes a consistent framework for measuring fair value and expands disclosure for each major asset and liability category measured at fair value on either a recurring or nonrecurring basis. ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1.* Observable inputs such as quoted prices in active markets;
- Level 2.* Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3.* Unobservable inputs in which there is little or no market data, such as internally-developed valuation models which require the reporting entity to develop its own assumptions.

Our investment in real estate utilizes Level 2 and Level 3 inputs in fair value calculations and the associated underlying assumptions as follows:

Investment in real estate Our investments in real estate are carried at cost unless circumstances indicate that the carrying value of the assets may not be recoverable. If we determine that an impairment exists due to the inability to recover an asset's carrying value, a provision for loss is recorded to the extent that the carrying value exceeds estimated fair value. If such assets were held for sale, the provision for loss would be recorded to the extent that the carrying value exceeds estimated fair value less costs to sell.

Depending on the asset, we use varying methods to determine fair value, such as (i) analyzing expected future cash flows, (ii) determining resale values by market, or (iii) applying a capitalization rate to net operating income using prevailing rates in a given market.

Homes and homesites substantially completed and ready for sale are measured at the lower of carrying value or fair value less costs to sell. The fair value of homes and homesites is determined based upon final sales prices of inventory sold during the period (level 2 inputs). For inventory held for sale, estimates of selling prices based on current market data are utilized (level 3 inputs). For projects under development, an estimate of future cash flows on an undiscounted basis is performed using estimated future expenditures necessary to maintain and complete the existing project and using management's best estimates about future sales prices, sales volume, sales velocity and holding periods (level 3 inputs). In addition, the estimated length of expected development periods, related economic cycles and inherent uncertainty with respect to these projects, such as the impact of changes in development plans and our intent and ability to hold the projects through the development period, could result in changes to these estimates.

Correction of Prior Period Error

In the first quarter of 2010, we determined that approximately \$2.6 million (\$1.6 million net of tax) of stock compensation expense related to the acceleration of the service period for retirement eligible employees should have been recognized in periods prior to 2010. Accordingly, the consolidated balance sheet for December 31, 2009 has been adjusted to reduce deferred income taxes, net, by \$1.0 million and increase common stock by \$2.6 million to reflect the correction of this error, with a corresponding \$1.6 million reduction recorded to retained earnings. The correction is similarly reflected as an adjustment to common stock and retained earnings as of December 31, 2009 in the consolidated statement of changes in equity. The correction of this error also impacted the consolidated statements of operations for the three and nine months ended September 30, 2009 and cash flows for the nine months ended September 30, 2009. These corrections were not considered material to prior period financial statements.

Table of Contents

Recently Issued Accounting Standards

See Note 1 to our unaudited consolidated financial statements included in this report for recently issued accounting standards.

Results of Operations

Net loss decreased by \$1.4 million to a loss of \$(13.1), or \$(0.14) per share, in the third quarter of 2010, compared to a net loss of \$(14.5) million, or \$(0.16) per share, for the third quarter of 2009. Included in our results for the three months ended September 30 are the following notable charges:

2010:

a non-cash charge of \$8.8 million for a reserve for an adverse trial court verdict in a lawsuit involving a contract dispute; the matter is being appealed to the Florida Court of Civil Appeals.

legal and clean-up costs resulting from the Deepwater Horizon incident of \$2.6 million.

a restructuring charge of \$1.7 million related to the consolidation of our offices.

2009:

\$11.1 million of non-cash impairment charges consisting of \$0.9 million of impairments associated with homes and homesites in our residential segment, a \$9.0 million write-down related to the settlement of our Saussy Burbank notes receivable, a \$0.1 million write-down of builder notes receivable and \$1.1 million of write-downs related to other long-term assets; and

\$1.8 million restructuring charge related to one-time termination benefits.

Net loss decreased by \$38.2 million to a loss of \$(33.2) million, or \$(0.36) per share, in the first nine months of 2010, compared to \$(71.4) million, or \$(0.78) per share, for the first nine months of 2009. Included in our results for the nine months ended September 30 are the following notable charges:

2010:

a non-cash charge of \$8.8 million for a reserve for an adverse trial court verdict in a lawsuit involving a contract dispute; the matter is being appealed to the Florida Court of Civil Appeals.

a restructuring charge of \$4.4 million related to the consolidation of our offices.

legal and clean-up costs resulting from the Deepwater Horizon incident of \$2.6 million.

2009:

\$32.6 million of impairment charges consisting of a \$6.7 million write-down related to our SevenShores condominium and marina development project, \$6.5 million of impairments associated with homes and homesites in our residential segment, a \$9.0 million write-down related to the settlement of our Saussy Burbank notes receivable, a \$7.4 million write-off of the Advantis note receivable, a \$1.9 million write-down of builder notes receivable and \$1.1 million of write-downs related to other long-term assets;

\$44.7 million non-cash pension settlement charge related to the purchase of annuities with plan assets for certain participants in our pension plan; and

\$1.8 million restructuring charge related to one-time termination benefits.

Results for the three and nine months ended September 30, 2009 reported in discontinued operations primarily include the operations of Victoria Hills Golf Club, St. Johns Golf and Country Club and Sunshine State Cypress.

Table of Contents**Consolidated Results**

Revenues and expenses. The following table sets forth a comparison of revenues and certain expenses of continuing operations for the three and nine months ended September 30, 2010 and 2009.

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2010	2009	Difference	% Change (Dollars in millions)	2010	2009	Difference	% Change
Revenues:								
Real estate sales	\$ 10.9	\$ 24.3	\$ (13.4)	(55.1)%	\$ 15.5	\$ 53.0	\$ (37.5)	(70.8)%
Resort and club revenues	8.8	9.7	(0.9)	(9.3)%	24.2	24.8	(0.6)	(2.4)%
Timber sales	6.8	7.0	(0.2)	(2.9)%	21.0	20.4	0.6	2.9%
Other revenues	0.6	0.9	(0.3)	(33.3)%	1.7	2.9	(1.2)	(41.4)%
Total	27.1	41.9	(14.8)	(35.3)%	62.4	101.1	(38.7)	(38.3)%
Expenses:								
Cost of real estate sales	3.3	22.5	(19.2)	(85.3)%	5.1	38.2	(33.1)	(86.6)%
Cost of resort and club revenues	8.8	9.6	(0.8)	(8.3)%	24.9	26.0	(1.1)	(4.2)%
Cost of timber sales	5.3	5.1	0.2	3.9%	14.8	14.8		
Cost of other revenues	0.5	0.7	(0.2)	(28.6)%	1.6	1.8	(0.2)	(11.1)%
Other operating expenses	12.3	8.8	(3.5)	(39.8)%	27.8	32.1	(4.3)	(13.4)%
Total	\$ 30.2	\$ 46.7	\$ (16.5)	(35.3)%	\$ 74.2	\$ 112.9	\$ (38.7)	(34.3)%

The decrease in real estate sales revenues and cost of real estate sales for the three months and nine months ended September 30, 2010 compared to 2009 was primarily due to decreased sales in our residential real estate segment. Residential real estate sales continue to remain weak as a result of various factors, including oversupply, depressed prices within the Florida real estate markets, poor economic conditions and the oil spill from the Deepwater Horizon incident in the Gulf of Mexico. In addition, our rural land sales decreased during the nine months of 2010 compared to 2009 as a result of our planned reduction in large tract rural land sales as well as weakened demand.

Other operating expenses increased by \$3.5 million, or 39.8% for the third quarter of 2010 compared to 2009. The increases for the quarter ended September 30, 2010 were due to a \$4.9 million reserve for litigation. For the nine months ended September 30, 2010 as compared to 2009 other operating expenses decreased by \$4.3 million or 13.4%, which was due to lower general and administrative expenses as a result of our restructuring efforts and the sale of certain properties in 2009, which reduced 2010 carrying costs. For further detailed discussion of revenues and expenses, see Segment Results below.

Corporate expense. Corporate expense, consisting of corporate general and administrative expenses, was \$9.8 million and \$6.0 million, during the three months ended September 30, 2010 and 2009, respectively, an increase of 63.3% or \$3.8 million. For the nine months ended September 30, 2010 and 2009, corporate expense was \$23.3 million and \$20.1 million respectively, an increase of 15.9% or \$3.2 million. Included in the three months ended September 30, 2010 were legal and clean-up costs resulting from the Deepwater Horizon incident of \$2.6 million. Our overall employee and administrative costs have decreased as a result of reduced headcount and cost savings initiatives. Corporate expense for the third quarter of 2010 and 2009 included pension expense of \$1.7 million and \$0.4 million, respectively. Corporate expense for the nine months ended September 30, 2010 included pension expense of \$3.6 million compared to pension income of \$0.4 million for the nine months ended September 30, 2009.

Pension settlement charge. On June 18, 2009, as plan sponsor, we signed a commitment for the pension plan to purchase a group annuity contract from Massachusetts Mutual Life Insurance Company for the benefit of the retired

participants and certain other former employee participants in our pension plan. Current employees and former employees with cash balances in the pension plan were not affected by the transaction. The purchase price of the annuity was approximately \$101.0 million, which was funded from the assets of the pension plan on June 25, 2009 and included a premium to assume these obligations. The transaction resulted in the transfer and settlement of pension benefit obligations of approximately \$93.0 million, which represented the obligation prior to the annuity purchase for the affected retirees and vested terminated employees. In addition, we recorded a non-cash settlement charge to earnings during the third quarter of 2009 of \$44.7 million. We also recorded a \$44.7 million pre-tax credit in Accumulated Other Comprehensive Income on our Consolidated Balance Sheet offsetting the non-cash charge to earnings. As a result of this transaction, we were able to significantly increase the funded status ratio of the pension plan, thereby reducing the potential for future funding requirements.

Impairment Losses. We review our long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Homes and homesites substantially completed and ready for sale are measured at the lower of carrying value or fair value less costs to sell. For projects under development, an

Table of Contents

estimate of future cash flows on an undiscounted basis is performed using estimated future expenditures necessary to maintain and complete the existing project and using management's best estimates about future sales prices, sales volume, sales velocity and holding periods. In addition, the estimated length of expected development periods, related economic cycles and inherent uncertainty with respect to these projects, such as the impact of change in development plans and our intent and ability to hold the projects through the development period, could result in changes to these estimates. During the nine months ended September 30, 2010, we recorded impairment charges on homes and homesites of \$0.1 million, in the residential real estate segment. During the first nine months of 2010 we also recorded a \$0.5 million write-down resulting from a renegotiated builder note receivable in the residential segment.

During the third quarter of 2009 we recorded impairment charges of \$11.1 million as follows: \$9.0 million write-down related to the settlement of the Saussy Burbank notes receivable, a \$0.1 million write-down of builder notes receivable and a \$1.1 million impairment charge related to other long-term assets; and 0.9 million write-down related to completed unsold homes and homesites.

During the first nine months of 2009 we recorded impairment charges of \$32.6 million as follows: \$6.5 million impairment charge related to completed unsold homes and homesites; \$6.7 million write-down of the SevenShores condominium and marina development project; \$9.0 million write-down related to the settlement of the Saussy Burbank notes receivable; a \$7.4 million write-off of the Advantis note receivable; \$1.9 million write-down of builder notes receivable; and \$1.1 million impairment charge related to other long-term assets.

A continued decline in demand and market prices for our real estate products may require us to record additional impairment charges in the future. In addition, due to the ongoing difficulties in the real estate markets and tightened credit conditions, we may be required to write-down the carrying value of our notes receivable when such notes are determined to not be collectible.

Restructuring charge. We announced on March 17, 2010 that we are relocating our corporate headquarters from Jacksonville, Florida to our VentureCrossings Enterprise Centre to be developed adjacent to the new Northwest Florida Beaches International Airport in Bay County, Florida. We will also be consolidating existing offices from Tallahassee, Port St. Joe and South Walton County into the new location. The relocation is expected to be completed during 2011.

We have incurred and expect to incur additional charges to earnings in connection with the relocation related primarily to termination and relocation benefits for employees, as well as certain ancillary facility-related costs. Such charges are expected to be cash expenditures. Based on employee responses to the announced relocation, we estimate that total relocation costs should be approximately \$5.5 million (pre-tax), of which \$2.0 million was recorded in the first nine months of 2010. The relocation costs include relocation bonuses, temporary lodging expenses, resettlement expenses, tax payments, shipping and storage of household goods, and closing costs for housing transactions. These estimates are based on significant assumptions, such as current home values however actual results could differ materially from these estimates.

In addition, we estimate total cash termination benefits to be approximately \$2.2 million (pre-tax) of which \$1.8 million was recorded in the first nine months of 2010. Most of the termination and relocation benefits described above are expected to be incurred through the third quarter of 2011. Also, during the third quarter, we purchased the home of an executive for \$1.9 million. See Note 8 to our consolidated financial statements for further information regarding our restructuring charges.

Other (expense) income. Other (expense) income consists of investment income, interest expense, gains on sales and dispositions of assets, fair value adjustment of our retained interest in monetized installment notes receivable and other income. Other (expense) income was \$(3.7) million and \$1.2 million for the three months ended September 30, 2010 and 2009, respectively, and \$(3.7) million and \$3.3 million for the nine months ended September 30, 2010 and 2009, respectively.

Investment income, net decreased by \$0.4 million and \$0.9 million during the three and nine months ending September 30, 2010 compared to 2009, respectively, primarily as a result of lower investment returns on our cash balances.

Interest expense increased by \$5.1 million and \$7.1 million during the three and nine months ended September 30, 2010 compared to 2009 primarily due to interest recorded on a reserve for litigation of \$4.1 million and interest on our

community development district debt obligations not being capitalized in 2010 due to reduced spending levels.

Equity in (loss) income of unconsolidated affiliates. We have investments in affiliates that are accounted for by the equity method of accounting. Equity in (loss) income primarily related to joint ventures within our residential real estate segment which are now substantially sold out.

Table of Contents

Income tax (benefit) expense. Income tax (benefit) expense, including income tax on discontinued operations, totaled \$(8.6) million and \$(11.9) million for the three months ended September 30, 2010 and 2009, respectively and \$(21.3) million and \$(47.8) million for the nine months ended September 30, 2010 and 2009, respectively. Our effective tax rate was 39.5% and 45.0% for the three months ended September 30, 2010 and 2009, respectively, 39.1% and 40.0% for the nine months ended September 30, 2010 and 2009, respectively.

Discontinued Operations. (Loss) from discontinued operations, net of tax, totaled \$(0.2) million and \$(0.4) million in the three months and nine months ended September 30, 2009, respectively. See our Residential Real Estate and Forestry sections below for further detail on discontinued operations.

Segment Results***Residential Real Estate***

Our residential real estate segment typically plans and develops mixed-use resort, primary and seasonal residential communities of various sizes, located primarily on our existing land. We own large tracts of land in Northwest Florida, including significant Gulf of Mexico beach frontage and waterfront properties, and land near Jacksonville and Tallahassee.

Our residential sales remain weak. The real estate downturn, economic recession and the oil spill from the Deepwater Horizon incident in the Gulf of Mexico have all exerted negative pressure on the demand for real estate products in our markets. Inventories of resale homes and homesites remain high in our markets and prices remain depressed. We also believe that the oil spill has negatively impacted our resort and club operating results. We do not expect any significant favorable changes in market conditions in the near term.

Homes and homesites substantially completed and ready for sale are measured at the lower of carrying value or fair value less costs to sell. For projects under development, an estimate of future cash flows on an undiscounted basis is performed. In 2009, the overall decrease in demand and market prices for residential real estate indicated that certain carrying amounts within our residential real estate segment were not recoverable. In the third quarter of 2009, we recorded impairment charges of \$0.9 million related to completed and unsold homes and homesites, and a \$0.1 million write-down of builder notes receivable. In addition, we recorded an impairment charge of \$9.0 million in the third quarter of 2009 related to the settlement of our Saussy Burbank notes receivable and \$0.6 million related to a residential segment intangible asset.

For the first nine months of 2009, we recorded impairment charges of \$24.7 million in the residential segment consisting of the following: \$6.7 million write-down related to the SevenShores condominium project, \$6.5 million of impairments associated with homes and homesites, a \$9.0 million write-down related to the settlement of the Saussy Burbank note receivable, a \$1.9 million write-down of builder notes receivable and a \$0.6 million write-down of a residential segment intangible asset.

For the nine months ended September 30, 2010 we recorded impairment charges of \$0.6 million.

Table of Contents

The table below sets forth the results of continuing operations of our residential real estate segment for the three and nine months ended September 30, 2010 and 2009.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
	(In millions)			
Revenues:				
Real estate sales	\$ 3.0	\$ 21.9	\$ 5.1	\$ 37.6
Resort and club revenues	8.7	9.7	24.2	24.8
Other revenues	0.6	0.8	1.5	2.6
Total revenues	12.3	32.4	30.8	65.0
Expenses:				
Cost of real estate sales	2.3	21.1	3.8	35.2
Cost of resort and club revenues	8.8	9.6	24.9	26.0
Cost of other revenues	0.5	0.7	1.6	1.8
Other operating expenses	9.6	6.4	19.7	24.8
Depreciation and amortization	2.5	2.7	7.6	8.3
Restructuring charges	0.2	0.8	0.9	0.9
Impairment losses		10.7	0.6	24.7
Total expenses	23.9	52.0	59.1	121.7
Other (expense)	(5.0)	(0.1)	(6.7)	(0.5)
Pre-tax (loss) from continuing operations	\$ (16.6)	\$ (19.7)	\$ (35.0)	\$ (57.2)

Real estate sales include sales of land, homes and homesites. Cost of real estate sales includes direct costs (e.g., development and construction costs), selling costs and other indirect costs (e.g., construction overhead, capitalized interest, warranty and project administration costs). Resort and club revenues and cost of resort and club revenues include results of operations from the WaterColor Inn, WaterColor and WaterSound Beach vacation rental programs and other resort, golf, club and marina operations. Other revenues and cost of other revenues consist primarily of brokerage fees and rental operations.

Three Months Ended September 30, 2010 and 2009

The following table sets forth the components of our real estate sales and cost of real estate sales related to homes and homesites:

	Three Months Ended September 30, 2010			Three Months Ended September 30, 2009		
	Homes	Homesites	Total	Homes	Homesites	Total
	(Dollars in millions)					
Sales	\$ 0.5	\$ 2.5	\$ 3.0	\$ 7.9	\$ 1.3	\$ 9.2

Total	22	\$ 3.0	\$ 2.3	\$ 0.7	47	\$ 9.2	\$ 8.4	\$ 0.8

Also included in real estate sales are land sales of \$12.7 million with related cost of sales of \$12.7 million for the third quarter of 2009, primarily related to the sale of SevenShores condominium and marina development project.

Our Northwest Florida resort and seasonal communities included WaterColor, WaterSound Beach, WaterSound, WaterSound West Beach, WindMark Beach, RiverCamps on Crooked Creek, SummerCamp Beach and Wild Heron, while primary communities included Hawks Landing and Southwood. Our Northeast Florida communities include RiverTown, and in 2009 our Central Florida communities included Artisan Park and Victoria Park, all of which are primary. Artisan Park and Victoria Park were sold in the last half of 2009.

Homesite closings, revenues and gross profit increased for the three months ended September 30, 2010 primarily due to sales to homebuilders some of which may generate additional revenues and gross profit in future periods upon sale to the end-user.

The Northwest Florida resort and seasonal homesites include four homesites closed during the three months ended September 30, 2010 with an additional \$1.2 million of revenues and \$0.8 million of costs deferred due to less than sufficient down payments to qualify for full revenue recognition on sales financed directly by us. In the Central Florida region, the three months ended September 30, 2009 included the auction of 22 multi-family homes.

Resort and club revenues included revenues from the WaterColor Inn, WaterColor and WaterSound Beach vacation rental programs and other resort, golf, club and marina operations. Resort and club revenues were \$8.7 million in the third quarter of 2010, with \$8.8 million in related costs, compared to revenues totaling \$9.7 million with \$9.6 million in related costs in the third quarter of 2009. Resort and club revenues decreased \$1.0 million related to the oil spill from the Deepwater Horizon incident in the Gulf of Mexico. Cost of resort and club revenues decreased \$0.8 million as a result of reduced staffing levels and more efficient operation of our resorts and clubs.

Other operating expenses included salaries and benefits, marketing, project administration, support personnel, other administrative expenses and litigation reserves. Other operating expenses were \$9.6 million in the third quarter of 2010 compared to \$6.4 million in the third quarter of 2009. Reductions in employee and other costs were offset by a

\$4.9 million reserve for litigation involving a contract dispute related to a 1997 purchase of land for our former Victoria Park community.

Other expense increased \$4.9 million during the third quarter of 2010 which was primarily due to interest expense of \$4.1 million related to the litigation reserve as discussed above.

Table of Contents*Nine Months Ended September 30, 2010 and 2009*

The following table sets forth the components of our real estate sales and cost of real estate sales related to homes and homesites:

	Nine Months Ended September 30, 2010			Nine Months Ended September 30, 2009		
	Homes	Homesites	Total	Homes	Homesites	Total

Total	44	\$ 5.0	\$ 3.7	\$ 1.3	100	\$ 24.9	\$ 22.5	\$ 2.4

Also included in real estate sales are land sales of \$0.1 million with related cost of sales of \$0.1 million for the nine months ended September 30, 2010 and \$12.7 million of sales and related costs of \$12.7 million for the first nine

months of 2009, primarily related to the sale of SevenShores condominium and marina development project.

Our Northwest Florida resort and seasonal communities included WaterColor, WaterSound Beach, WaterSound, WaterSound West Beach, WindMark Beach, RiverCamps on Crooked Creek, SummerCamp Beach and Wild Heron, while primary communities included Hawks Landing and Southwood. Our Northeast Florida communities included RiverTown and St. Johns Golf and Country Club, and our Central Florida communities included Artisan Park and Victoria Park, all of which are primary. St. Johns Golf and Country Club, Artisan Park and Victoria Park were all sold in the last half of 2009.

Table of Contents

Homesite closings and revenues increased for the nine months ended September 30, 2010 primarily due to sales to homebuilders some of which may generate additional revenues and gross profit in future periods upon sale to the end-user.

Resort and club revenues were \$24.2 million for the nine months ended September 30, 2010, with \$24.9 million in related costs compared to revenue totaling \$24.8 million for the nine months ended September 30, 2009, with \$26.0 million in related costs. Revenues decreased \$0.6 million as a result of the decline in resort and club revenues since the oil spill. Cost of resort and club revenues decreased \$1.1 million as a result of reduced staffing levels and more efficient operation of our resorts and clubs.

Other operating expenses included salaries and benefits, marketing, project administration, support personnel and other administrative expenses. Other operating expenses were \$19.7 million for the nine months ended September 30, 2010 compared to \$24.8 million for the nine months ended September 30, 2009. The decrease of \$5.1 million in operating expenses was primarily due to reductions in employee costs along with reductions in marketing and homeowners association funding costs, certain warranty and other project costs and real estate taxes, which savings were created by the sale of certain projects during 2009. These savings were partially offset by a \$4.9 million reserve for litigation in the third quarter ended September 30, 2010.

We recorded restructuring charges in our residential real estate segment of \$0.9 million during the first nine months of 2010 and 2009, respectively, in connection with our corporate headquarters relocation.

Other expense increased \$6.2 million during the first nine months of 2010 as compared to the first nine months of 2009 which was primarily due to interest expense of \$4.1 million related to the litigation reserve as discussed above.

Commercial Real Estate

Our commercial real estate segment plans, develops and entitles our land holdings for a broad range of retail, office, hotel, industrial and multi-family uses. We sell or lease and develop commercial land and provide development opportunities for national and regional retailers as well as strategic partners in Northwest Florida. We also offer land for commercial and light industrial uses within large and small-scale commerce parks, as well as for a wide range of multi-family rental projects. Consistent with residential real estate, the markets for commercial real estate, particularly retail, remain weak.

The table below sets forth the results of the continuing operations of our commercial real estate segment for the three and nine months ended September 30, 2010 and 2009:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
	(In millions)			
Revenues:				
Real estate sales	\$ 3.6	\$ 2.1	\$ 3.9	\$ 2.5
Other revenues		0.1	0.2	0.3
Total revenues	3.6	2.2	4.1	2.8
Expenses:				
Cost of real estate sales	0.8	1.3	0.8	1.7
Restructuring charge		0.6		0.6
Other operating expenses	1.5	1.0	4.6	2.9
Total expenses	2.3	2.9	5.4	5.2
Other income	0.2	0.2	1.1	0.6
Pre-tax income (loss) from continuing operations	\$ 1.5	\$ (0.5)	\$ (0.2)	\$ (1.8)

There were three commercial land sales in Northwest Florida during the nine months ended September 30, 2010 for a total of 16.7 acres at an average price of \$236,000 per acre including a 10 acre sale in Walton County to Wal-Mart for \$2.5 million. There were two commercial land sales during the nine months ended September 30, 2009 for a total of 5.61 acres at an average price of \$369,000. Sales and cost of sales also included previously deferred revenue and gain on sales, based on percentage-of-completion accounting.

We also entered into a build-to-suit lease with CVS Pharmacy for a 1.7 acre site that we own in Port St. Joe. Upon completion of the construction, we will own the facility and collect ground and building rent under a long-term lease.

Table of Contents

Other revenues primarily relate to lease income associated with a long-term land lease with the Port Authority of Port St. Joe.

Much of our commercial real estate activity is focused on the opportunities presented by the new Northwest Florida Beaches International Airport, which opened in May 2010. We believe these commercial opportunities will be significantly enhanced by Southwest Airlines' service to the new airport. We continue pre-development activity at our VentureCrossings Enterprise Centre, an approximately 1,000 acre project adjacent to the airport site. The land is being planned for office, retail, hotel and industrial users. We expect, over time, that the new international airport will expand our customer base as it connects Northwest Florida with the global economy and as the area is repositioned from a regional to a national destination.

Rural Land Sales

Our rural land sales segment markets and sells tracts of land of varying sizes for rural recreational, conservation and timberland uses. The land sales segment prepares land for sale for these uses through harvesting, thinning and other silviculture practices, and in some cases, limited infrastructure development. While we have reduced our offerings of rural land, like residential and commercial land, demand for rural land has also declined as a result of the current difficult market conditions.

The table below sets forth the results of operations of our rural land sales segment for the three and nine months ended September 30, 2010 and 2009:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
	(In millions)			
Revenues:				
Real estate sales	\$ 4.3	\$ 0.3	\$ 6.5	\$ 12.9
Expenses:				
Cost of real estate sales	0.3		0.4	1.3
Other operating expenses	0.6	0.9	2.0	2.8
Restructuring charge	0.1	0.1	0.8	0.1
Total expenses	1.0	1.0	3.2	4.2
Other income	0.2	0.3	0.7	0.5
Pre-tax income from continuing operations	\$ 3.5	\$ (0.4)	\$ 4.0	\$ 9.2

Rural land sales for the three and nine months ended September 30 are as follows:

	Number of Sales	Number of Acres	Average Price per Acre	Gross Sales Price (In millions)	Gross Profit (In millions)
Three Months Ended:					
September 30, 2010	2	226	\$ 3,212	\$ 0.7	\$ 0.5
September 30, 2009	1	140	\$ 2,065	\$ 0.3	\$ 0.2

Nine Months Ended:

Edgar Filing: ST JOE CO - Form 10-Q

September 30, 2010	7	340	\$ 4,409	\$ 1.5	\$ 1.2
September 30, 2009	10	6,485	\$ 1,990	\$ 12.9	\$ 11.6

During September 2010, we also conveyed 322 acres to the Florida Department of Transportation (FDOT) as part of our 4,000 acre sale to FDOT in 2006. As a result, we recognized \$3.5 million of previously deferred revenue and gain this quarter. There was an additional \$0.4 million of sales and gain recognized during the third quarter and nine months ended September 30, 2010 from other previously deferred sales, as well as \$0.4 million from an easement transaction.

During the fourth quarter 2009, we also began selling credits to developers, utility companies and other users from our wetland mitigation banks. Included in real estate sales was \$0.6 million related to the sale of nine mitigation bank credits at an average sales price of \$66,000 per credit during the first nine months of 2010.

Table of Contents

During 2009, we made a strategic decision to sell fewer acres of rural land as we generated cash from other sources. We are employing the same strategy in 2010. We may, however, rely on rural land sales as a significant source of revenues and cash in the future.

During the nine months ended September 30, 2009, we closed the following significant sales: 930 acres in Wakulla County for \$3.9 million or \$4,234 per acre and 4,492 acres in Liberty County for \$5.9 million, or \$1,305 per acre. Average sales prices per acre vary according to the characteristics of each particular piece of land being sold and its highest and best use. As a result, average prices will vary from one period to another.

Forestry

Our forestry segment focuses on the management and harvesting of our extensive timber holdings. We grow, harvest and sell sawtimber, pulpwood and forest products and provide land management services for conservation properties. On February 27, 2009, we completed the sale of the inventory and equipment assets of Sunshine State Cypress.

The table below sets forth the results of the continuing operations of our forestry segment for the three and nine months ended September 30, 2010 and 2009.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
	(In millions)			
Revenues:				
Timber sales	\$ 6.8	\$ 7.0	\$ 21.0	\$ 20.4
Expenses:				
Cost of timber sales	5.3	5.1	14.8	14.8
Other operating expenses	0.5	0.5	1.5	1.6
Depreciation and amortization	0.5	0.6	1.6	1.8
Restructuring charge	0.2		0.2	
Total expenses	6.5	6.2	18.1	18.2
Other income	0.5	0.4	1.5	1.3
Pre-tax income from continuing operations	\$ 0.8	\$ 1.2	\$ 4.4	\$ 3.5

Three Months Ended September 30, 2010 and 2009

We have a wood fiber supply agreement with Smurfit-Stone Container Corporation (Smurfit-Stone) which expires on June 30, 2012. During the third quarter of 2010, Smurfit-Stone emerged from bankruptcy protection which was filed in 2008. Sales under this agreement were \$3.6 million (167,000 tons) in the third quarter of 2010 and \$3.8 million (181,000 tons) during the third quarter of 2009. Open market sales in the third quarter totaled \$3.2 million (106,000 tons) in 2010 as compared to \$3.2 million (157,000 tons) in 2009. Although sales were constant year-over-year, fewer tons of pulpwood were sold in the third quarter of 2010 as compared to the third quarter of 2009. Net stumpage prices for both sawtimber and pulpwood increased year-over-year, due to improvement in the end-user markets and a decrease in the availability of raw materials.

Cost of sales for the forestry segment increased \$0.2 million in 2010 compared to 2009. The increase in cost of goods sold was due to our efforts to improve timber inventory information over our large timberland holdings, partially offset by reduced harvesting and delivery expenses.

Nine Months Ended September 30, 2010 and 2009

Sales under the wood fiber supply agreement with Smurfit-Stone were \$10.8 million (509,000 tons) in 2010 and \$11.2 million (529,000 tons) in 2009. During the first nine months of 2010, we delivered fewer tons to Smurfit-Stone

under the fiber agreement. Open market sales totaled \$9.4 million (362,000 tons) in 2010 as compared to \$8.6 million (425,000 tons) in 2009. This increase in revenues was a result of improved log pricing partially offset by a reduction in log sales volume. Net stumpage prices for sawtimber and pulpwood increased year-over-year due to improved end-user markets and reduced availability of raw materials.

Table of Contents

Our 2010 and 2009 revenues included \$0.3 million and \$0.6 million, respectively, related to revenue we received for land management services. The 2010 revenue total also included \$0.6 million related to the Biomass Crop Assistance Program sponsored by the federal government during the first four months of 2010. Cost of sales year-over-year was constant at \$14.8 million.

Discontinued operations related to the sale of Sunshine State Cypress for the three and nine months ended September 30, 2009 are as follows:

	Three months Ended September 30, 2009	Nine months Ended September 30, 2009
	(In millions)	
	2009	2009
Sunshine State Cypress		
Aggregate revenues	\$	\$ 1.7
Pre-tax (loss)		(0.4)
Pre-tax gain on sale		0.1
Income tax (benefit)		(0.1)
(Loss) from discontinued operations, net	\$	\$ (0.2)

Liquidity and Capital Resources

As of September 30, 2010, we had cash and cash equivalents of \$196.4 million, compared to \$163.8 million as of December 31, 2009. We invest our excess cash primarily in government-only money market mutual funds, short term U.S. treasury investments and overnight deposits, all of which are highly liquid, with the intent to make such funds readily available for operating expenses and strategic long-term investment purposes.

We believe that our current cash position, our undrawn \$125.0 million revolving credit facility and the cash we expect to generate from operating activities will provide us with sufficient liquidity to satisfy our working capital needs and capital expenditures and provides us with the financial flexibility to withstand the current market downturn.

As more fully described in Note 9 of our consolidated financial statements, our \$125.0 million revolving credit facility contains covenants relating to leverage, unencumbered asset value, net worth, liquidity and additional debt. The credit facility does not contain a fixed charge coverage covenant. The credit facility also contains various restrictive covenants pertaining to acquisitions, investments, capital expenditures, dividends, share repurchases, asset dispositions and liens.

We have entered into a strategic alliance agreement with Southwest Airlines to facilitate low-fare air service to the new Northwest Florida Beaches International Airport. We have agreed to reimburse Southwest Airlines if it incurs losses on its service at the new airport during the first three years of service by making break-even payments. There was no reimbursement required during the third quarter of 2010 and a carryover profit will be applied to the reimbursement calculation for the fourth quarter of 2010. The agreement also provides that Southwest's profits from the air service during the term of the agreement will be shared with us up to the maximum amount of our break-even payments. These cash payments and reimbursements could have a significant effect on our cash flows and results of operations going forward, depending on the results of Southwest's operations of the air service. In order to mitigate potential losses that may arise from changes in Southwest Airlines' jet fuel costs, we have entered into a short term premium neutral collar arrangement with respect to the underlying cost of jet fuel for a portion of Southwest Airlines' estimated fuel volumes.

Cash Flows from Operating Activities

Net cash provided by operations was \$29.5 million and \$44.7 million for the nine months ended September 30, 2010 and 2009, respectively. During the nine months ended September 30, 2010 and 2009, capital expenditures relating to our residential real estate segment were \$5.5 million and \$4.8 million, respectively. Additional capital expenditures for our operating properties were \$4.1 million and \$2.7 million, respectively, which primarily related to commercial real estate development.

We received tax refunds of \$67.7 million and \$32.3 million in the third quarter of 2010 and 2009, respectively which related to certain loss carrybacks which expired in 2010.

Table of Contents

Cash Flows from Investing Activities

Net cash used in investing activities was \$0.7 million and \$1.2 million in the first nine months of 2010 and 2009, respectively. We are not considering any significant investments at this time.

Cash Flows from Financing Activities

Net cash provided by (used) in financing activities was \$3.8 million and \$(2.4) million in the first nine months of 2010 and 2009, respectively.

Off-Balance Sheet Arrangements

There were no material changes to the quantitative and qualitative disclosures about off-balance sheet arrangements presented in our Form 10-K for the year ended December 31, 2009, during the third quarter of 2010.

Contractual Obligations and Commercial Commitments

There have been no material changes in the amounts of our contractual obligations and commercial commitments presented in our Form 10-K for the year ended December 31, 2009, during the third quarter of 2010.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to the quantitative and qualitative disclosures about market risk set forth in our Form 10-K for the year ended December 31, 2009, during the third quarter of 2010.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures. Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective in bringing to their attention on a timely basis material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic filings under the Exchange Act.

(b) Changes in Internal Controls. During the quarter ended September 30, 2010, there were no changes in our internal controls that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

We have filed three lawsuits against the parties responsible for the Deepwater Horizon oil spill in the Gulf of Mexico. The oil spill has had a negative impact on our properties, results of operations and stock price. The three lawsuits are described as follows:

On August 4, 2010, we filed a lawsuit in the Superior Court of the State of Delaware in New Castle County against Halliburton Energy Services, Inc. (Halliburton). The lawsuit alleges that Halliburton, the cementing contractor for the oil well, was grossly negligent in its management of the well cementing process leading to the blowout of the well. We are seeking compensatory and punitive damages.

On August 26, 2010, we filed a lawsuit in the Superior Court of the State of Delaware in New Castle County against M-I, L.L.C. (a/k/a M-I SWACO). The lawsuit alleges that M-I SWACO, the drilling fluid contractor for the drilling rig, was grossly negligent in the way that it managed and conducted the use of drilling fluids to maintain well control leading to the blowout of the well. We are seeking compensatory and punitive damages.

On October 12, 2010, we filed a lawsuit in the Superior Court of the State of Delaware in New Castle County against Transocean Holdings, LLC, Transocean Offshore Deepwater Drilling, Inc., Transocean Deepwater, Inc. and Triton Asset Leasing GmbH (collectively, Transocean). The lawsuit alleges that Transocean, the owner of the drilling rig, was grossly negligent in the operation and maintenance of the drilling rig and its equipment and in overseeing drilling activities on the rig leading to the blowout of the well. We are seeking compensatory and punitive damages.

All three of these cases have been removed by the defendants to the U.S. District Court for the District of Delaware, and we have filed motions to remand each case back to Delaware state court.

We were also involved during the third quarter of 2010 in routine litigation on a number of matters and were subject to claims which arose in the normal course of business, none of which, in the opinion of management, is expected to have a material adverse effect on our consolidated financial position, results of operations or liquidity.

Item 1A. Risk Factors***The Deepwater Horizon oil spill has had an adverse impact on us.***

The ruptured oil well from the Deepwater Horizon incident in the Gulf of Mexico was permanently contained in September 2010. Much uncertainty remains, however, about the extent of the environmental damage from the oil and other pollutants that have been discharged into the Gulf and the duration of the negative effects from the spill. Although the full economic and environmental effects of the oil spill are uncertain at this time, we believe that it has had, and will continue to have, a negative impact on our properties, results of operations and stock price. Future oil spill incidents, or the prospect of future oil spill incidents, could also negatively affect us. We have commenced legal proceedings to recover damages from the parties responsible for the oil spill. We cannot be certain, however, of the amount of any recovery or the ultimate success of our claims.

Our stock price may decline or fluctuate significantly due to market factors outside of our control.

The market price of our common stock has been volatile and has recently experienced a significant decline. Our stock price may decline or fluctuate further in response to many external factors outside our control. Such factors may cause the market price of our common stock to decline regardless of our financial condition, results of operation, business or prospects and could result in substantial losses for our shareholders.

Possible securities class action litigation could have an adverse effect on our business and stock price.

The market price of our common stock has been volatile and has recently experienced a significant decline. In the past, securities class action litigation and/or inquiries or investigations have often been instituted against companies following a substantial decline in its stock price. In fact, several law firms have recently issued press releases soliciting plaintiffs for a possible securities class action suit against us. This type of litigation, if instituted against us, could result in substantial costs and divert our management's attention and resources.

Table of Contents**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**
Issuer Purchases of Equity Securities

Our Board of Directors has authorized a total of \$950.0 million for the repurchase of our outstanding common stock from shareholders from time to time (the Stock Repurchase Program), of which \$103.8 million remained available at September 30, 2010. There is no expiration date for the Stock Repurchase Program; however, we have no present intention to repurchase any shares under the Stock Repurchase Program. In addition, our \$125.0 million revolving credit facility requires that we not repurchase stock in amounts in excess of any cumulative net income that we have earned since January 1, 2007.
