Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(e) On January 26, 2011, the independent Directors of the Chevron Board of Directors approved the grant of 340,000 stock options and 53,000 performance shares to J.S. Watson, Chairman and Chief Executive Officer, and ratified the following grants by the Management Compensation Committee under the Long Term Incentive Plan of Chevron Corporation (LTIP): P.E. Yarrington, Vice President and Chief Financial Officer, 132,000 stock options and 21,000 performance shares; and G.L. Kirkland, Vice Chairman and Executive Vice President, 190,000 stock options and 30,000 performance shares. Chevron does not have employment agreements with any of the foregoing executive officers.

The stock options have a ten year term, and one-third of the grant vests at each anniversary of the date of grant, except as described below in the last paragraph. The exercise price for the stock options is \$94.64 per share, which is based on the closing price of Chevron's common stock on January 26, 2011, the date of grant.

The performance shares may result in a payout at the end of the three-year performance period (January 1, 2011 through December 31, 2013) depending upon Chevron's Total Stockholder Return (TSR) for the performance period as compared to the TSR of each company in Chevron's peer group (BP p.l.c., Exxon Mobil Corporation, Royal Dutch Shell p.l.c. and ConocoPhillips). The cash payout, if any, will occur in an amount equal to the number of performance shares multiplied by the 20-day trailing average price of Chevron common stock at the end of the performance period multiplied by a performance modifier. The performance modifier is based on Chevron's TSR ranking for the three-year period compared to the TSR of each company in Chevron's peer group as follows (from best TSR to lowest TSR): 200 percent, 150 percent, 100 percent, 50 percent or zero percent. If the difference between Chevron's TSR and the TSR of any higher or lower member of the peer group is less than one percentage point (rounded to one decimal point), the modifier will be the average of the sum of all the modifiers for Chevron and for such other members of the peer group that fall less than one percentage point (rounded to one decimal point) higher or lower than Chevron. The Management Compensation Committee may, in its discretion, adjust the cash payout of performance shares downward if it determines that business or economic considerations warrant such an adjustment.

Since Mr. Kirkland has more than 90 points (the sum of years of age and years of service) under the LTIP, all unvested outstanding stock options and performance shares held for at least one year from the January 26, 2011 date of grant will vest upon the separation from service for any reason other than for cause as defined under the LTIP rules. Since Ms. Yarrington and Mr. Watson each have more than 75 points under the LTIP, all unvested outstanding options and performance shares held for at least one year from the January 26, 2011 date of grant will vest on a pro rata basis (the number of outstanding shares underlying the award multiplied by the number of whole months from the grant date to the separation from service date, divided by 36) upon the separation from service for any reason other than for cause as defined under the LTIP rules.
