NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION FOR THE THREE MONTHS ENDED 31 MARCH 2011

1. GENERAL INFORMATION

China Unicom (Hong Kong) Limited (the Company) was incorporated as a limited liability company in the Hong Kong Special Administrative Region (Hong Kong), the People's Republic of China (the PRC) on 8 February 2000. The principal activities of the Company are investment holding and the Company's subsidiaries are principally engaged in the provision of cellular and fixed-line voice and related value-added services, broadband and other Internet-related services, information communications technology services, and business and data communications services in the PRC. The Company and its subsidiaries are hereinafter referred to as the Group.

2. BASIS OF PREPARATION

The basis of preparation and the significant accounting policies and estimates adopted in the preparation of the unaudited condensed consolidated financial information for the three months ended 31 March 2011 are consistent with those used in preparing the annual financial statements for the year ended 31 December 2010, except that:

(a) Early Adoption of IFRS/HKFRS 9

The Group early adopted IFRS/HKFRS 9 Financial instruments, as well as the related consequential amendments to other IFRSs/HKFRSs retrospectively from 1 January 2010. Upon the adoption of the standard, the Company made an irrevocable election to recognise change in fair value of available-for sale financial assets only through other comprehensive income/loss. There was no subsequent recycling of fair value gains and losses to the statement of income. The adoption of IFRS/HKFRS 9 did not have any significant impact on the Group's unaudited condensed consolidated financial information for the three months ended 31 March 2011.

(b) Revenue Recognition on Sale of Goods and Provision of Services

The Group offers promotional packages to the customers which include the bundled sale of mobile handset and provision of service. Prior to the fourth quarter of 2010, the Group determined the amount of revenue allocated to the handset using the residual value method. Under such method, the Group determined the revenue from the sale of the mobile handset by deducting the fair value of the service element from the total contract consideration. The Group recognised revenue related to the sale of the handset when the title is passed to the customer whereas service revenue was recognised based upon the actual usage of mobile services. The cost of the mobile handset was expensed immediately to the statement of income.

During 2010, the Group has offered preferential promotional packages with more attractive terms to new subscribers, and more new subscribers were developed under such preferential packages during the year. In order to provide reliable and more relevant information to users of the financial statements, starting from the fourth quarter of 2010, the Group determined to adopt the accounting policy of relative fair value method retrospectively from 1 January 2010 to account for such preferential promotional packages, considering that each deliverable in the promotional packages has standalone value to the customer and there is objective and reliable evidence of the fair value regarding each deliverable in the services packages. Under the relative fair value method, the total contract consideration of such preferential packages is allocated to service revenue and sales of handsets based on their relative fair values. The Group recognises revenue relating to the sale of the handset when the title is passed to the customer whereas service revenue is recognised based upon the actual usage of mobile services. The cost of the mobile handset is expensed immediately to the statement of income upon revenue recognition. For details, please refer to Note 2.24(a) set out in the financial statements included in the Company's 2010 Annual Report.

This change in accounting policy resulted in an increase in the Group's revenue, profit before income tax, profit for the period and earnings per share of RMB107 million, RMB107 million, RMB80 million and RMB0.003, respectively, for the three months ended 31 March 2010; and a decrease in advance from customers of RMB111 million as at 31 March 2010. The comparative figures have been restated accordingly.

(c) Going Concern Assumption

As at 31 March 2011, current liabilities of the Group exceeded current assets by approximately RMB148.7 billion (31 December 2010: approximately RMB156.0 billion). Given the current global economic conditions and the Group's expected capital expenditures in the foreseeable future, management has comprehensively considered the Group's available sources of funds as follows:

The Group's continuous net cash inflow from operating activities;

Revolving banking facilities of approximately RMB105.8 billion, of which approximately RMB79.0 billion was unutilised as at 31 March 2011; and

Other available sources of financing from domestic banks and other financial institutions given the Group's credit history.

In addition, the Group will continue to optimise its fund raising strategy from the short, medium and long-term perspectives and maintain reasonable financing costs through appropriate financing portfolio.

Based on the above considerations, the Board of Directors is of the opinion that the Group has sufficient funds to meet its working capital requirements and debt obligations. As a result, the unaudited condensed consolidated financial information of the Group for the three months ended 31 March 2011 has been prepared under the going concern basis.

(d) Renewal of Continuing Connected Transactions in October 2010

The Group renewed the continuing connected transactions on 29 October 2010 which became effective on 1 January 2011. For details, please refer to Note 39.1(d) set out in the financial statements included in the Company's 2010 Annual Report.

Table of Contents**3. AGREEMENT ON ADDITIONAL INVESTMENTS BETWEEN THE COMPANY AND TELEFÓNICA**

On 23 January 2011, the Company entered into a strategic alliance agreement with Telefónica that: (a) Telefónica would purchase ordinary shares of the Company for a consideration of USD500 million through acquisition from third parties; and (b) the Company would acquire from Telefónica 21,827,499 ordinary shares of Telefónica held in treasury (Telefónica Treasury Shares) for an aggregate purchase price of Euro374,559,882.84. On 25 January 2011, the Company completed the purchase of Telefónica Treasury Shares in accordance with the strategic alliance agreement. Please refer to the section headed **AGREEMENT TO ENHANCE THE STRATEGIC ALLIANCE WITH TELEFÓNICA** for details.

4. EARNINGS PER SHARE

Basic earnings per share for the three months ended 31 March 2011 and 2010 were computed by dividing the profit attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the periods. Diluted earnings per share for the three months ended 31 March 2011 and 2010 were computed by dividing the profit attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the periods, after adjusting for the effects of dilutive potential ordinary shares. All potential ordinary shares for the three months ended 31 March 2011 arose from (i) share options granted under the amended Share Option Scheme; (ii) share options granted under the amended Special Purpose Share Option Scheme and (iii) convertible bonds, while all potential ordinary shares for the three months ended 31 March 2010 arose from (i) share options granted under the amended Pre-Global Offering Share Option Scheme, (ii) share options granted under the amended Share Option Scheme; and (iii) share options granted under the amended Special Purpose Share Option Scheme.

The potential ordinary shares which are not dilutive for the three months ended 31 March 2011 arose from (i) share options with exercise price of HKD15.42 granted under the amended Share Option Scheme and (ii) convertible bonds with initial conversion price of HKD15.85, while the potential ordinary shares which are not dilutive for the three months ended 31 March 2010 arose from (i) share options with exercise price of HKD15.42 granted under the amended Pre-Global Offering Share Option Scheme and (ii) share options with exercise price of HKD15.42 granted under the amended Share Option Scheme, which were excluded from the weighted average number of ordinary shares for the purpose of computation of diluted earnings per share.

The following table sets forth the computation of basic and diluted earnings per share:

FINANCIAL OUTLINE

For the first quarter of 2011, with more robust growth in revenue from mobile business and continuous rapid growth in revenue from broadband and internet businesses, as well as the continuous optimisation of subscribers structure, consumption structure and revenue structure, the overall business development of the Company demonstrated a trend of rapid growth.

Revenue

For the first quarter of 2011, total revenue reached RMB49.03 billion, of which, telecommunications service revenue was RMB43.22 billion. Excluding the effect of deferred fixed-line upfront connection fees (the adjustment to exclude the above item is referred herein below as the Adjustment or Adjusted) (Note 1), total revenue and telecommunications service revenue would increase by 21.2% and 11.9%, respectively, as compared to the same period of last year.

Revenue from the mobile business (Note 2) was RMB28.42 billion, up by 42.0% from the same period of last year. Telecommunications service revenue from the mobile business was RMB23.29 billion, up by 25.0% from the same period of last year. Monthly average minutes of usage (MOU) per subscriber was 283.0 minutes, and monthly average revenue per user (ARPU) was RMB45.5. Of which, telecommunications service revenue from 3G business was RMB5.68 billion and as a percentage of telecommunications service revenue from the mobile business, there was an increase from 8.5% for the first quarter of 2010 to 24.4% for the first quarter of 2011. MOU per subscriber was 630.8 minutes and ARPU was RMB117.2.

Revenue from the fixed-line business (Note 2) was RMB20.36 billion, up by 0.7% from the same period of last year. Telecommunications services revenue from the fixed-line business after the Adjustment would be RMB19.92 billion, up by 0.1% from the same period of last year. Telecommunications service revenue from broadband business was RMB8.44 billion, up by 18.4% from the same period of last year. ARPU of broadband business was RMB58.0.

Costs and Expenses and Others

For the first quarter of 2011, total costs and expenses and others, including finance costs, interest income and other income-net, were RMB48.79 billion, up by 25.3% from the same period of last year. Depreciation and amortisation were RMB14.06 billion, increase by RMB0.89 billion or 6.8% as compared to the same period of last year. Networks, operations and support expenses were RMB6.84 billion, increase by RMB0.61 billion or 9.8% as compared to the same period of last year. Selling expenses were RMB6.79 billion, increase by RMB1.10 billion or 19.3% as compared to the same period of last year. Cost of telecommunications products sold was RMB7.18 billion, up by 392.1% from the same period of last year. Loss on the sale of telecommunications products was RMB2.04 billion, of which, loss on the sale of 3G handsets (3G handset subsidy cost) was RMB1.90 billion, increase by RMB1.80 billion as compared to the same period of last year.

Table of Contents

Earnings

For the first quarter of 2011, profit before income tax was RMB0.23 billion and profit for the period was RMB0.17 billion. Basic earnings per share was RMB0.007. Adjusted profit for the period would be RMB0.15 billion, down by 86.5% as compared to the same period of last year. Adjusted EBITDA (Note 3) would be RMB14.69 billion, down by 2.6% as compared to the same period of last year. EBITDA margin (adjusted EBITDA as a percentage of the total revenue after the Adjustment) would be 30.0%.

Additional Information

Although revenue from the 3G business and fixed-line broadband business of the Company have been growing fast, the Company's earnings for first half of 2011 may be substantially different from the earnings for the first half of 2010 due to the fast-increasing of depreciation and amortisation, networks, operations and support expenses, as well as selling expenses, particularly the 3G handset subsidies.

This announcement is also made pursuant to Rule 13.09 of the Listing Rules.

Note 1: In order to ensure the comparability of revenue amounts and profit for the period, the non-comparable factor below which is reflected in the figures of current period and last period are excluded for purpose of additional analysis:

- (1) deferred fixed-line upfront connection fees of RMB13 million for the first quarter of 2011 and RMB75 million for the first quarter of 2010.

Note 2: Revenue from external customers excluding intersegment revenue.

Note 3: EBITDA represents profit for the period before interest income, finance costs, other income-net, income tax, depreciation and amortisation. As the telecommunications business is a capital intensive industry, capital expenditures and finance costs may have a significant impact on the net profit of the companies with similar operating results. Therefore, we believe that EBITDA may be helpful in analyzing the operating results of a telecommunications service operator like our Group.

Adjusted EBITDA represents EBITDA excluding non-comparable factor of deferred fixed-line upfront connection fees. From the perspective of cash flow and continuing operation, the above non-comparable factor is not considered as the Company's operating performance, the Company therefore believes that Adjusted EBITDA excluding the above non-comparable factor not only could provide more meaningful supplement information to management and investors, but also facilitate them to evaluate the Company's performance and liquidity.

Although EBITDA and Adjusted EBITDA have been widely applied in the global telecommunications industry as indicators to reflect operating performance, financial capability and liquidity, they should be considered in addition to, and are not substitute for or superior to, the measure of financial performance prepared under generally accepted accounting principles (GAAP) as they do not have any standardised meaning under GAAP. In addition, they may not be comparable to similar indicators provided by other companies.
