RECENT DEVELOPMENTS

On April 18, 2002, Baxter issued a press release reporting first quarter 2002 sales and earnings. Sales increased 11 percent to \$1.95 billion, up from the \$1.76 billion reported for the same period of 2001. Without the impact of foreign exchange, Baxter's sales grew 14 percent compared to the same period of 2001. Baxter's net income in the quarter rose 18 percent to \$253 million, from the \$214 million reported in the same period of 2001 (before the cumulative effect of a 2001 change in accounting principle). Earnings per diluted share grew 17 percent to \$0.41, an increase from the \$0.35 per share reported in the same period of 2001.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of the notes primarily to repay existing indebtedness, and in particular, to reduce a portion of our currently outstanding commercial paper. The commercial paper we will pay off with the proceeds from the sale of these notes has been outstanding less than 60 days, matures within a few days of April 23, 2002, and bears a weighted average interest rate of approximately 1.82% per annum.

RATIO OF EARNINGS TO FIXED CHARGES

The computations supporting our unaudited ratio of earnings to fixed charges are disclosed in detail in our most recent Form 10-K, filed with the SEC on March 13, 2002. Those ratios, for the full years ended December 31, 2001, 2000, 1999, 1998 and 1997, were 6.67, 6.54, 7.80, 3.75 and 3.94, respectively. Our unaudited ratio of earnings to fixed charges for the three months ended March 31, 2002 was 11.90.

DESCRIPTION OF NOTES

The following summary of the terms of the notes supplements the general description of debt securities contained in the accompanying prospectus. To the extent the following terms are inconsistent with the general description contained in the accompanying prospectus, the following terms replace such inconsistent terms. You should read both the accompanying prospectus and this prospectus supplement.

S-3

General

The notes will be limited to \$500,000,000 aggregate principal amount and will mature on May 1, 2007. The notes will bear interest at the rate per annum of 5.25% from April 26, 2002 or from the most recent interest payment date to which interest has been paid or provided. We will pay accrued interest semi-annually on May 1 and November 1 of each year to the person in whose name

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

the note is registered at the close of business on April 15 and October 15, as the case may be, that precedes such interest payment date. The first such payment will be made on November 1, 2002. The notes will not be entitled to the benefit of any mandatory redemption or sinking fund.

The notes will be issued under the indenture dated as of April 26, 2002, between us and Bank One Trust Company, N.A., as trustee.

Optional Redemption

Meaning of Terms

We may redeem the notes at our option as described below. See "Optional Redemption--Our Redemption Rights." The following terms are relevant to the determination of the redemption price:

"Treasury Rate" means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

"Comparable Treasury Issue" means the United States Treasury security selected by the Reference Treasury Dealer as having a maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

"Comparable Treasury Price" means, with respect to any redemption date, (A) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if the trustee obtains fewer than three such Reference Treasury Dealer Quotations, the average of all such quotations, or (C) if only one Reference Treasury Dealer Quotation is received, such quotation.

"Reference Treasury Dealer" means (A) Deutsche Bank Securities Inc. or Salomon Smith Barney Inc. (or their respective affiliates which are Primary Treasury Dealers), and their respective successors; provided, however, that if any of the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a "Primary Treasury Dealer"), we will substitute therefor another Primary Treasury Dealer, and (B) any other Primary Treasury Dealer(s) selected by us.

"Reference Treasury Dealer Quotation" means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the trustee, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the trustee by such Reference Treasury Dealer by 5:00 p.m. (New York City time) on the third business day preceding such redemption date.

Our Redemption Rights

We may redeem the notes at our option and at any time or from time to time, either as a whole or in part. If we elect to redeem the notes, we will pay a redemption price equal to the greater of

- . 100% of the principal amount of the notes to be redeemed, and

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

- . the sum of the present values of the remaining scheduled payments of principal and interest on the notes being redeemed on that redemption date (not including the amount, if any, of accrued and unpaid interest to the redemption date) discounted to the redemption date on a semiannual basis at the Treasury Rate, as determined by the Reference Treasury Dealer, plus 15 basis points

plus, in each case, accrued and unpaid interest on the notes to the redemption date.

Notwithstanding the foregoing, installments of interest on notes that are due and payable on interest payment dates falling on or prior to a redemption date will be payable on the interest payment date to the registered holders as of the close of business on the relevant record date according to the notes and the indenture. The redemption price will be calculated on the basis of a 360-day year consisting of twelve 30-day months.

We will mail notice of any redemption at least 30 days but no more than 60 days before the redemption date to each registered holder of the notes to be redeemed. Once notice of redemption is mailed, the notes called for redemption will become due and payable on the redemption date at the applicable redemption price, plus accrued and unpaid interest to the redemption date.

On and after the redemption date, interest will cease to accrue on the notes or any portion of the notes called for redemption (unless we default in the payment of the redemption price and accrued interest). On or before the redemption date, we will deposit with the paying agent (or the trustee) money sufficient to pay the redemption price of and accrued interest on the notes to be redeemed on that date. If fewer than all of the notes are to be redeemed, the notes to be redeemed shall be selected by lot by the depository, in the case of notes represented by a global security, or by the trustee by a method the trustee deems fair and appropriate, in the case of notes that are not represented by a global security.

Book-Entry Notes

The notes will be issued in the form of one or more fully registered global notes which will be deposited with, or on behalf of, the Depository Trust Company (the "depository"). You should review the information appearing under the caption "Description of Debt Securities--Book-entry debt securities" in the accompanying prospectus for information regarding the depository arrangements with respect to the notes.

Neither we nor the trustee, nor any registrar, paying agent or conversion agent under the indenture, will have any responsibility for the performance by the depository or direct or indirect depository participants of their obligations under the rules and procedures governing their operations. The depository has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more direct depository participants to whose account with the depository interests in the notes are credited and only for the principal amount of the notes for which directions have been given.

Same-Day Settlement and Payment

Settlement by the purchasers of the notes will be made in immediately available funds. All payments by us to the depository of principal and interest will be made in immediately available funds.

The notes will trade in the depository's settlement system until maturity,

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

and therefore the depositary will require secondary trading activity in the notes to be settled in immediately available funds.

Defeasance and Covenant Defeasance

The provisions of the of the indenture relating to defeasance as described under "Description of Debt Securities--Discharge, defeasance and covenant defeasance" in the accompanying prospectus will apply to the notes.

UNDERWRITING

Deutsche Bank Securities Inc. and Salomon Smith Barney Inc. are acting as representatives of the underwriters named below.

Subject to the terms and conditions set forth in the underwriting agreement dated April 23, 2002, each underwriter named below has severally agreed to purchase, and we have agreed to sell to each underwriter, the principal amount of notes set forth opposite its name below:

Underwriter -----	Principal Amount of Notes -----
Deutsche Bank Securities Inc..	\$175,000,000
Salomon Smith Barney Inc.....	175,000,000
Banc of America Securities LLC	33,500,000
Banc One Capital Markets, Inc.	33,500,000
UBS Warburg LLC.....	33,500,000
ABN AMRO Incorporated.....	16,500,000
TD Securities (USA) Inc.....	16,500,000
First Union Securities, Inc...	16,500,000

Total.....	\$500,000,000
	=====

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all of the notes if they purchase any of the notes.

The underwriters propose to offer some of the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and some of the notes to dealers at the public offering price less a concession not to exceed 0.35% of the principal amount of the notes. The underwriters may allow, and dealers may reallow, a concession not to exceed 0.25% of the principal amount of the notes on sales to other dealers. After the initial offering of the notes to the public, the representatives may change the public offering price and concessions.

The following table shows the underwriting discount and commission we will pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes):

Per Note 0.600%

In connection with the offering, Deutsche Bank Securities Inc. and Salomon Smith Barney Inc., on behalf of the underwriters, may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of notes to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when Deutsche Bank Securities Inc. or Salomon Smith Barney Inc., in covering syndicate short positions or making stabilizing purchases, repurchases notes originally sold by that syndicate member.

S-6

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

The notes are a new issue of securities with no established trading market. We have been advised by the underwriters that they intend to make a market in the notes but are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

We estimate that our total expenses of the offering, excluding the underwriting discount, will be \$30,000.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

The underwriters and their affiliates have, directly and indirectly, provided various investment and commercial banking services to us and our affiliates for which they have received customary fees and commissions, including participating as lenders in our existing syndicated revolving credit facilities. The underwriters and their affiliates may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business.

Bank One, N.A., an affiliate of the trustee and of Banc One Capital Markets, Inc., in addition to being an agent bank and lender under our syndicated credit facilities, maintains various commercial banking arrangements with us. First Union Securities, Inc. is an indirect, wholly-owned subsidiary of Wachovia

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

Corporation. Wachovia Corporation conducts its investment banking, institutional, and capital markets businesses through its various bank, broker-dealer and nonbank subsidiaries (including First Union Securities, Inc.) under the trade name of Wachovia Securities. Any references to Wachovia Securities in this prospectus supplement, however, do not include Wachovia Securities, Inc., member NASD/SIPC and a separate broker-dealer subsidiary of Wachovia Corporation and sister affiliate of the First Union Securities, Inc., which may or may not be participating as a selling dealer in the distribution of the notes.

VALIDITY OF NOTES

The validity of the notes offered hereby is being passed upon for us by our Senior Vice President and General Counsel, Thomas J. Sabatino, Jr. Mr. Sabatino owns shares of, and options on, our common stock, both directly and as a participant in various stock and employee benefit plans. The validity of the notes offered hereby is being passed upon for the underwriters by Sidley Austin Brown & Wood LLP. Sidley Austin Brown & Wood LLP and its affiliated partnerships also act as special counsel to Baxter and its affiliates from time to time.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

Statements throughout this prospectus that are not historical facts, (including material incorporated herein by reference) are forward-looking statements. These statements are based on our current expectations and involve numerous risks and uncertainties. Some of these risks and uncertainties are factors that affect all international businesses, while some are specific to us and the health care areas in which we operate.

The factors below in some cases have affected and could affect our actual results, causing results to differ, and possibly differ materially, from those expressed in any such forward looking statements. These factors include technological advances in the medical field, economic conditions, demand and market acceptance risks for new and existing products, technologies and health care services, the impact of competitive products and pricing, manufacturing capacity, new plant start-ups, global regulatory, trade and tax policies, ongoing product testing, regulatory, legal or other developments relating to our series A, AF and AX dialyzers, continued price competition, product development risks, including technological difficulties, ability to enforce patents and unforeseen commercialization and regulatory factors. Additionally, as discussed in Item 3.--"Legal Proceedings," in our Form 10-K for the year ended December 31, 2001 which is incorporated herein by reference, upon the resolution of certain legal matters, we may incur charges in excess of presently established reserves. Any such charge could have a material adverse effect on our results of operations or cash flows in the period in which it is recorded.

International operations are subject to certain additional risks inherent in conducting business outside the United States, such as changes in currency exchange rates, price and currency exchange controls, import restrictions, nationalization, expropriation and other governmental action.

Currency fluctuations are also a significant variable for global companies, especially fluctuations in local currencies where hedging opportunities are unreasonably expensive or unavailable. If the United States dollar strengthens significantly against most foreign currencies, our ability to realize projected growth rates in our sales and net earnings outside the United States could be negatively impacted.

We believe that our expectations with respect to forward-looking statements are based upon reasonable assumptions within the bounds of our knowledge of our business and operations, but there can be no assurance that our actual results or performance will conform to any future results or performance expressed or implied by such forward-looking statements.

When we offer to sell a series of debt securities, we will describe the specific terms of the series in the applicable prospectus supplement. - . if the amount of payments on the series of debt securities may be determined with reference to an index, formula or other method or methods ("indexed securities") and the manner used to determine those amounts; and
- . any other terms of debt securities of the series.

As used in this prospectus and any prospectus supplement relating to the offering of debt securities, references to the principal of and premium, if any, and interest, if any, on the series of debt securities include the payment of additional amounts, if any, required by the series of debt securities in that context.

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

Debt securities may be issued as original issue discount securities to be sold at a substantial discount below their principal amount. In the event of an acceleration of the maturity of any original issue discount security, the amount payable to the holder upon acceleration will be determined in the manner described in the applicable prospectus supplement. Material federal income tax and other considerations applicable to original issue discount securities will be described in the applicable prospectus supplement.

If the purchase price of any debt securities is payable in a foreign currency or currency unit or if the principal of, or premium, if any, or interest, if any, on any of the debt securities is payable in a foreign currency or currency unit, the specific terms of those debt securities and the applicable foreign currency or currency unit will be specified in the prospectus supplement relating to those debt securities.

The terms of the debt securities of any series may differ from the terms of the debt securities of any other series, and the terms of particular debt securities within any series may differ from each other. If expressly provided in the applicable prospectus supplement, we may, without the consent of the holders of the debt securities of any series, reopen an existing series of debt securities and issue additional debt securities of that series or establish additional or different terms of that series.

Registration, transfer, payment and paying agent

Unless otherwise indicated in the applicable prospectus supplement, each series of debt securities will be issued in registered form only, without coupons. The indenture, however, provides that we may also issue debt securities in bearer form only, or in both registered and bearer form. Bearer securities may not be offered, sold, resold or delivered in connection with their original issuance in the United States or to any United States person, as defined below, other than offices located outside the United States of specified United States financial institutions. "United States person" means any citizen or resident of the United States, any corporation, partnership or other entity created or organized in or under the laws of the United States, any estate the income of which is subject to United States federal income taxation regardless of its source, or any trust whose administration is subject to the primary supervision of a United States court and which has one or more United States fiduciaries who have the authority to control all substantial decisions of the trust. "United States" means the United States of America, including the states thereof and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction. Purchasers of bearer securities will be subject to certification procedures and may be affected by limitations under United States tax laws. The applicable procedures and limitations will be described in the prospectus supplement relating to the offering of the bearer securities.

Unless otherwise indicated in the applicable prospectus supplement, the debt securities will be payable and may be surrendered for registration of transfer or exchange and, if applicable, for conversion into or exchange for other types of securities, at an office or agency maintained by the trustee in the Borough of Manhattan, The City of New York. However, we, at our option, may make payments of interest on any registered security by check mailed to the address of the person entitled to receive that payment or by wire transfer to an account maintained by the payee with a bank located in the United States. No service charge will be made for any registration of transfer or exchange, redemption or repayment of debt securities, or for any conversion or exchange of debt

securities for other types of securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with that transaction.

Unless otherwise indicated in the applicable prospectus supplement, payment of principal, premium, if any, and interest, if any, on bearer securities will be made, subject to any applicable laws and regulations, at an office or agency outside the United States. Unless otherwise indicated in the applicable prospectus supplement, payment of interest due on bearer securities on any interest payment date will be made only against surrender of the coupon relating to that interest payment date. Unless otherwise indicated in the applicable prospectus supplement, no payment of principal, premium, if any, or interest, if any, with respect to any bearer security will be made at any office or agency in the United States or by check mailed to any address in the United States or by wire transfer to an account maintained with a bank located in the United States. However, if any bearer securities are payable in United States dollars, payments on those bearer securities may be made at the corporate trust office of the trustee or at any office or agency designated by us in the Borough of Manhattan, The City of New York, if, but only if, payment of the full amount due on the bearer securities for principal, premium, if any, or interest, if any, at all offices outside of the United States maintained for that purpose by us is illegal or effectively precluded by exchange controls or similar restrictions.

Unless otherwise indicated in the applicable prospectus supplement, we will not be required to:

- . issue, register the transfer of or exchange debt securities of any series during a period beginning at the opening of business 15 days before any selection of debt securities of that series having the same terms to be redeemed and ending at the close of business on the day of that selection;
- . register the transfer of or exchange any registered security, or portion of any registered security, selected for redemption, except the unredeemed portion of any registered security being redeemed in part;
- . exchange any bearer security selected for redemption, except to exchange a bearer security for a registered security of that series having the same terms that is simultaneously surrendered for redemption; or
- . issue, register the transfer of or exchange a debt security which has been surrendered for repayment at the option of the holder, except the portion, if any, of the debt security not to be repaid.

Book-entry debt securities

The debt securities of a series may be issued in whole or in part in the form of one or more global debt securities. Global debt securities will be deposited with, or on behalf of, a depository identified in the applicable prospectus supplement relating to the series. Global debt securities may be issued in either registered or bearer form and in either temporary or permanent form. Unless and until it is exchanged in whole or in part for individual certificates evidencing debt securities, a global debt security may not be transferred except as a whole by the depository to its nominee or by the nominee to the depository, or by the depository or its nominee to a successor depository or to a nominee of the successor depository.

We anticipate that global debt securities will be deposited with, or on behalf of, The Depository Trust Company ("DTC"), New York, New York, and that global debt securities will be registered in the name of DTC's nominee, Cede &

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

Co. We also anticipate that the following provisions will apply to the depository arrangements with respect to global debt securities. Additional or differing terms of the depository arrangements will be described in the applicable prospectus supplement.

DTC has advised us that it is:

- . a limited-purpose trust company organized under the New York Banking Law;
- . a "banking organization" within the meaning of the New York Banking Law;
- . a member of the Federal Reserve System;

6

- . a "clearing corporation" within the meaning of the New York Uniform Commercial Code; and
- . a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act.

DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among its participants of securities transactions, including transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, which eliminates the need for physical movement of securities certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of its direct participants and by the New York Stock Exchange, Inc., the American Stock Exchange, LLC. and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others, sometimes referred to in this prospectus as indirect participants, that clear transactions through or maintain a custodial relationship with a direct participant either directly or indirectly. Indirect participants include securities brokers and dealers, banks and trust companies. The rules applicable to DTC and its participants are on file with the SEC.

Purchases of debt securities within the DTC system must be made by or through direct participants, which will receive a credit for the debt securities on DTC's records. The ownership interest of the actual purchaser or beneficial owner of a debt security is, in turn, recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchases, but beneficial owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the direct or indirect participants through which they purchased the debt securities. Transfers of ownership interests in debt securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the debt securities, except under the limited circumstances described below.

To facilitate subsequent transfers, all debt securities deposited by direct participants with DTC will be registered in the name of DTC's nominee, Cede & Co. The deposit of debt securities with DTC and their registration in the name of Cede & Co. will not change the beneficial ownership of the debt securities. DTC has no knowledge of the actual beneficial owners of the debt securities. DTC's records reflect only the identity of the direct participants to whose accounts the debt securities are credited. Those participants may or may not be the beneficial owners. The direct and indirect participants are responsible for keeping account of their holdings on behalf of their customers.

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any legal requirements in effect from time to time.

Redemption notices will be sent to DTC or its nominee. If less than all of the debt securities of a series are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in the debt securities to be redeemed.

In any case where a vote may be required with respect to the debt securities of any series, neither DTC nor Cede & Co. will give consents for or vote the global debt securities. Under its usual procedures, DTC will mail an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns the consenting or voting rights of Cede & Co. to those direct participants to whose accounts the debt securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal and premium, if any, and interest, if any, on the global debt securities will be paid to Cede & Co., as nominee of DTC. DTC's practice is to credit direct participants' accounts on the relevant payment date unless DTC has reason to believe that it will not receive payments on the payment date. Payments by direct and indirect participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the account of customers in bearer form or registered in "street name." Those payments

7

will be the responsibility of participants and not of DTC or us, subject to any legal requirements in effect from time to time. Payment of principal, premium, if any, and interest, if any, to Cede & Co. is our responsibility, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

Except under the limited circumstances described in this prospectus, beneficial owners of interests in a global debt security will not be entitled to have debt securities registered in their names and will not receive physical delivery of debt securities. Accordingly, each beneficial owner must rely on the procedures of DTC to exercise any rights under the debt securities and the indenture.

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of securities in definitive form. These laws may impair the ability to transfer or pledge beneficial interests in global debt securities.

DTC is under no obligation to provide its services as depository for the debt securities of any series and may discontinue providing its services at any time by giving reasonable notice to us or the trustee. Neither we nor the trustee will have any responsibility for the performance by DTC or its participants or indirect participants under the rules and procedures governing DTC. As noted above, beneficial owners of debt securities generally will not receive certificates representing their ownership interests in the debt securities. However, if

- . DTC notifies us that it is unwilling or unable to continue as a depository for the global debt securities of any series or if DTC ceases to be a

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

clearing agency registered under the Securities Exchange Act and a successor depositary for the debt securities of the series is not appointed within 90 days of the notification or of our becoming aware of DTC's ceasing to be so registered, as the case may be,

- . we determine, in our sole discretion, not to have the debt securities of any series represented by one or more global debt securities, or
- . an event of default under the indenture has occurred and is continuing with respect to the debt securities of any series,

we will prepare and deliver to the trustee certificates for the debt securities of that series, which will deliver the certificates in exchange for beneficial interests in the global debt securities. Any beneficial interest in a global debt security that is exchangeable under the circumstances described in the preceding sentence will be exchangeable for debt securities in definitive certificated form registered in the names that DTC will direct. It is expected that these directions will be based upon directions received by DTC from its participants with respect to ownership of beneficial interests in the global debt securities.

We obtained the information in this section and elsewhere in this prospectus concerning DTC and DTC's book-entry system from sources that we believe to be reliable, but we take no responsibility for the accuracy of this information.

Outstanding debt securities

In determining whether the holders of the requisite principal amount of outstanding debt securities have given any request, demand, authorization, direction, notice, consent or waiver under the indenture:

- . the principal amount of an original issue discount security that will be deemed to be outstanding for these purposes will be that portion of the principal amount of the original issue discount security that could be declared to be due and payable upon a declaration of acceleration of the original issue discount security as of the date of the determination;
- . the principal amount of any indexed security that will be deemed to be outstanding for these purposes will be the principal face amount of the indexed security determined on the date of its original issuance;

8

- . the principal amount of a debt security denominated in a foreign currency that will be deemed to be outstanding for these purposes will be the United States dollar equivalent, determined on the date of original issue of the debt security, of the principal amount of the debt security; and
- . a debt security owned by us or any obligor on the debt security or any affiliate of ours or the other obligor will not be deemed to be outstanding.

Redemption and repurchase

The debt securities of any series may be redeemable at our option or may be subject to mandatory redemption by us as required by a sinking fund or otherwise. In addition, the debt securities of any series may be subject to repurchase by us at the option of the holders. The applicable prospectus supplement will describe the terms, the times and the prices regarding any optional or mandatory redemption or option to repurchase any series of debt

securities.

Restrictive Covenants

Restrictions on the creation of secured debt. The indenture provides that we will not, and will not cause or permit a restricted subsidiary to, create, incur, assume or guarantee any indebtedness borrowed by us or our restricted subsidiaries that is secured by a security interest in any of our principal facilities or shares of stock owned directly or indirectly by us or a restricted subsidiary or by indebtedness borrowed by one of our restricted subsidiaries from us or another of our restricted subsidiaries ("secured debt") unless the debt securities will be secured equally and ratably with or prior to the secured debt, with exceptions as listed in the indenture. These restrictions do not apply to indebtedness secured by:

- . security interests on any property, which is a parcel of real property at a manufacturing plant, a warehouse or an office building and which is acquired, constructed, developed or improved by us or a restricted subsidiary, which secures or provides for the payment of all or any part of the acquisition cost of the property or the cost of the construction, development or improvement of the property and which is created prior to, at the same time or within 120 days after the completion of the acquisition of the property or the later to occur of the completion, development or improvement or the commencement or operation, use or commercial production of the property;
- . security interests on property at the time of its acquisition by us or a restricted subsidiary which secure obligations assumed by us or a restricted subsidiary;
- . security interests arising from conditional sales agreements or title retention agreements with respect to property acquired by us or any of our restricted subsidiaries;
- . security interests existing on the property or on the outstanding shares or indebtedness of a corporation or firm at the time the corporation or firm becomes a restricted subsidiary or is merged or consolidated with us or a restricted subsidiary or sells, leases or otherwise disposes of substantially all of its property to us or one of our restricted subsidiaries;
- . security interests securing indebtedness of a restricted subsidiary owed to us or to another restricted subsidiary;
- . mechanics' and other statutory liens in respect of obligations not due or being contested;
- . security interests for taxes, assessments or governmental charges or levies not yet delinquent or security interests for taxes, assessments or governmental charges or levies already delinquent but which are being contested;
- . security interests arising in connection with legal proceedings, including judgment liens, so long as the proceedings are being contested and, in the case of judgment liens, the execution has been stayed;
- . landlords' liens on fixtures;

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

- . security interests arising in connection with contracts and subcontracts with or made at the request of the United States, any state, or any department, agency or instrumentality of the United States or any state;
- . security interests that secure an obligation issued by the United States of America or any state, territory or possession of the United States or any of their political subdivisions or the District of Columbia, in connection with the financing of the cost of construction or acquisition of a principal facility or a part of a principal facility;
- . security interests by reason of deposits to qualify us or a restricted subsidiary to conduct business, to maintain self-insurance, or to comply with law;
- . the extension of any security interest existing on the date of the indenture on a principal facility to additions, extensions or improvements to the principal facility and not as a result of borrowing money or the securing of indebtedness incurred after the date of the indenture; and
- . any extension, renewal or refunding, or successive extensions, renewals or refundings, in whole or in part of by secured debt secured by any security interest listed to above, provided that the principal amount of the secured debt does not exceed the principal amount outstanding immediately prior to the extension, renewal or refunding and that the security interest securing the secured debt is limited to the property which, immediately prior to the extension, renewal or reducing, secured the secured debt and additions to the property.

For purposes of the indenture, our "principal facilities" are our manufacturing plants, warehouses, office buildings or parcels of real property owned by us or any of our restricted subsidiaries, provided each plant, warehouse, office building or parcel of real property has a gross book value, without deduction for any depreciation reserves, in excess of 2% of consolidated net tangible assets other than any facility which is determined by our board of directors to not be of material importance. For purposes of the indenture, our consolidated net tangible assets are the total amount of assets which would be included on our consolidated balance sheet under generally accepted accounting principles after deducting all short-term liabilities and liability items, except for indebtedness payable more than one year from the date of incurrence and all goodwill, trade names, trademarks, patents, unamortized debt discount, unamortized expense incurred in the issuance of debt and other like intangibles except for prepaid royalties.

In addition to the foregoing, we and our restricted subsidiaries may create, incur, assume or guarantee secured debt, without equally and ratably securing the debt securities, if and only to the extent that, the sum of

- . the amount of secured debt entered into after the date of the indenture, other than secured debt permitted as listed in the preceding paragraph, plus
- . the aggregate value of sale and leaseback transactions entered into after the date of the indenture, other than sale and leaseback transactions permitted under the second bullet point under "Restrictions on sale and leaseback transactions,"

does not exceed 5% of our consolidated net tangible assets.

For purposes of the indenture, our "restricted subsidiaries" are those corporations in which we own voting securities entitling us to elect a majority of the directors and which are either designated as restricted subsidiaries in accordance with the indenture or:

- . existed as such on the date of the indenture or is the successor to, or owns, any equity interest in, a corporation which so existed;
- . has its principal business and assets in the United States;
- . the business is other than the obtaining of financing in capital markets outside the United States or the financing of the acquisition or disposition of real or personal property or dealing in real property for residential or office building purposes; and

10

- . does not have assets substantially all of which consist of securities of one or more corporations which are not restricted subsidiaries.

Restrictions on sale and leaseback transactions. The indenture provides that we will not, and will not permit any restricted subsidiary to, enter into any sale or transfer of any principal facility which has been in operation, use or commercial production for more than 120 days prior to the sale or transfer, or which, in the case of a principal facility which is a parcel of real property other than a manufacturing plant, warehouse or office building, has been owned by us or one of our restricted subsidiaries for more than 120 days prior to the sale or transfer, if the sale or transfer is made with the intention of leasing, or as part of an arrangement involving the lease, of the principal facility to us or one of our restricted subsidiaries, except a lease for a period not exceeding 36 months or that secures or relates to obligations issued by the United States, or any state, in connection with the financing of the cost of construction or acquisition of the principal facility ("sale and leaseback transaction"), unless:

- . we or our restricted subsidiary would be entitled to incur secured debt permitted by the indenture only by reason of the provision described in the second paragraph under the sub-heading "Restrictions on the creation of secured debt" equal in amount to the value of the sale and leaseback transaction without equally and ratably securing the debt securities; or
- . we or our restricted subsidiary apply within one year, or commit to apply within one year, an amount equal to the net proceeds of the property sold pursuant to the sale and leaseback transaction to:

--the acquisition, construction or improvement of properties which are or will be a principal facility, or

--the optional redemption of debt securities or to the repayment of other superior indebtedness of us or of any restricted subsidiary.

For purposes of the indenture, "superior indebtedness" means any of our obligations, or the obligations of any of our restricted subsidiaries, which:

- . when created, are payable at least one year later;
- . should be shown on our consolidated balance sheet in accordance with generally accepted accounting principles; and
- . are not subordinate and junior in right of payment to the prior payment of our debt securities.

Instead of applying all or any part of the proceeds of a sale and leaseback transaction to the redemption of debt securities, we may deliver to the

trustee, within one year of the transfer, debt securities for cancellation and thereby reduce the amount to be applied to the redemption of debt securities by an amount equivalent to the aggregate principal amount of the debt securities delivered. Debt securities so redeemed or delivered will not be used as credits against any mandatory sinking fund payments.

Restrictions on transfers of principal facilities. The indenture provides that we will not, nor will we permit any restricted subsidiary to, transfer any principal facility to any of our subsidiaries which is not a restricted subsidiary unless we or it apply within one year, or commit to apply within one year, an amount equal to the fair value of the principal facility at the time of the transfer:

- . to the acquisition, construction, development or improvement of a principal facility or part of a principal facility; or
- . to the optional redemption of debt securities or to the repayment of our superior indebtedness or the superior indebtedness of any of our restricted subsidiaries.

In lieu of applying all or any part of the amount to the redemption of securities, we may deliver to the trustee securities for cancellation and thereby reduce the amount to be applied to the redemption of securities by the principal amount of the securities so delivered. Securities so redeemed or delivered will not be used as credits against any mandatory sinking fund payments.

11

Restrictions on mergers, consolidations and transfers of assets. The indenture provides that we will not consolidate or merge into or transfer or lease all or substantially all of our assets to another person unless;

- . in the case of a merger, we are the surviving corporation in the merger; or
- . the person into which we are merged or which acquires all or substantially all of our assets is a corporation organized under the laws of the United States, any state or the District of Columbia, and assumes all of our obligations relating to the securities and the indenture, and immediately after the transaction no default exists.

Upon any the consolidation, merger or transfer, the successor corporation will be substituted for us under the indenture. The successor corporation may then exercise all of our powers and rights under the indenture, and we will be released from all of our liabilities and obligations in respect of the securities and the indenture. In the event we lease all or substantially all of our assets, the lessee corporation will be our successor and may exercise all of our powers and rights under the indenture but we will not be released from our obligations to pay the principal of and interest on the securities.

Events of default

Unless otherwise specified in the applicable prospectus supplement, an "event of default" with respect to the debt securities of any series is defined in the indenture as being:

- . default in payment of any interest on, or any additional amounts payable with respect to any interest on, any of the debt securities of that series or any coupon relating to the debt securities when due, and continuance of the default for a period of 30 days;

- . default in payment of any principal of or premium, if any, on, or any additional amounts payable with respect to any principal of or premium, if any, on, any of the debt securities of that series when due, whether at maturity, upon redemption, upon repayment or repurchase at the option of the holder or otherwise;
- . default in the deposit of any sinking fund payment or payment under any analogous provision when due with respect to any of the debt securities of that series;
- . default by us in the performance, or breach, of any other covenant or warranty in the indenture or in any debt security of that series, other than a covenant or warranty included in the indenture solely for the benefit of a series of debt securities other than that series, and continuance of that default or breach, without that default or breach having been cured or waived, for a period of 60 days after the trustee or the holders of not less than 25% in aggregate principal amount of the debt securities of that series then outstanding give notice to us, or in the case of notice by the holders, to us and the trustee, specifying the default or breach;
- . our failure to make any payment when due, including any applicable grace period, relating to our indebtedness which is in an amount in excess of \$50,000,000, or our default with respect to any of our indebtedness that results in acceleration of indebtedness which is in an amount in excess of \$50,000,000;
- . specified events of bankruptcy, insolvency or reorganization with respect to us or any of our restricted subsidiaries; or
- . any other event of default established for the debt securities of that series.

No event of default with respect to any particular series of debt securities necessarily constitutes an event of default with respect to any other series of debt securities. The indenture provides that, within 90 days after the occurrence of any default with respect to the debt securities of any series, the trustee will mail to all holders of the debt securities of that series notice of that default, unless that default has been cured or waived. However, the

12

indenture provides that the trustee may withhold notice of a default with respect to the debt securities of that series, except a default in payment of principal, premium, if any, interest, if any, additional amounts, if any, or sinking fund payments, if any, if the trustee considers it in the best interest of the holders to do so. In the case of a default in the performance or the breach of any covenant or warranty in the indenture with respect to debt securities or that series, no notice will be given until at least 30 days after the occurrence of the default or breach. As used in this paragraph, the term "default" means any event which is, or after notice or lapse of time or both would become, an event of default with respect to the debt securities of any series.

The indenture provides that if an event of default, other than an event of default relating to events of bankruptcy, insolvency or reorganization with respect to any series of debt securities occurs and is continuing, either the trustee or the holders of at least 25% in principal amount of the debt

securities of that series then outstanding may declare the principal of, or if debt securities of that series are original issue discount securities, the lesser amount as may be specified in the terms of that series of debt securities, and accrued and unpaid interest, if any, on all the debt securities of that series to be due and payable immediately. The indenture also provides that if an event of default relating to events of bankruptcy, insolvency or reorganization with respect to any series of debt securities occurs, the principal of, or if debt securities of that series are original issue discount securities, the lesser amount as may be specified in the terms of that series of debt securities, and accrued and unpaid interest, if any, on all the debt securities of that series will automatically become and be immediately due and payable without any declaration or other action on the part of the trustee or any holder of the debt securities of that series. However, upon specified conditions, the holders of a majority in principal amount of the debt securities of a series then outstanding may rescind and annul an acceleration of the debt securities of that series and its consequences.

Subject to the provisions of the Trust Indenture Act requiring the trustee, during the continuance of an event of default under the indenture, to act with the requisite standard of care, the trustee is under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of debt securities of any series unless those holders have offered the trustee reasonable indemnity.

Subject to this requirement, holders of a majority in principal amount of the outstanding debt securities of any series issued under the indenture have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee under the indenture with respect to that series. The indenture requires the annual filing by us with the trustee of a certificate which states whether we are in default under the terms of the indenture.

Notwithstanding any other provision of the indenture, the holder of a debt security will have the right, which is absolute and unconditional, to receive payment of the principal of and premium, if any, and interest, if any, on that debt security on the respective due dates for those payments and to institute suit for the enforcement of those payments, and this right will not be impaired without the consent of the holder.

Modification and waivers

The indenture permits us and the trustee, with the consent of the holders of a majority in principal amount of the outstanding debt securities of each series issued under the indenture and affected by a modification or amendment, to modify or amend any of the provisions of the indenture or of the debt securities of the applicable series or the rights of the holders of the debt securities of that series under the indenture. However, no modification or amendment may, without the consent of the holder of each outstanding debt security issued under the indenture affected by the modification or amendment, among other things:

- . change the stated maturity of the principal of, or premium, if any, or any installment of interest, if any, on or any additional amounts, if any, with respect to any debt securities issued under the indenture;

- . reduce the principal of or any premium on any debt securities or reduce the rate of interest on or the redemption or repurchase price of any debt security, or any additional amounts with respect to any debt securities,

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

or change our obligation to pay additional amounts;

- . reduce the amount of principal of any original issue discount securities that would be due and payable upon an acceleration of the maturity of the debt security;
- . adversely affect any right of repayment or repurchase at the option of any holder;
- . change any place where or the currency in which the principal of, any premium or interest on, or any additional amounts with respect to, any debt securities are payable;
- . impair the holder's right to institute suit to enforce the payment of any debt securities on or after their stated maturity or, in the case of redemption, on or after the redemption date; or
- . reduce the percentage of debt securities of any series issued under the indenture whose holders must consent to any modification or amendment or any waiver of compliance with specific provisions of the indenture or specified defaults under the indenture and their consequences.

The indenture also contains provisions permitting us and the trustee, without the consent of the holders of any debt securities issued under the indenture, to modify or amend the indenture, among other things:

- . to evidence the succession of another person to us under the indenture and the assumption of our obligations contained in the indenture and the debt securities;
- . to add to our covenants for the benefit of the holders of all or any series of debt securities issued under the indenture or to surrender any right or power conferred upon us in the indenture with respect to all or any series of debt securities issued under the indenture;
- . to add to or change any provisions of the indenture to facilitate the issuance of bearer securities;
- . to establish the form or terms of debt securities of any series and any related coupons, including, deletions from or additions or changes to the indenture in connection with the modification or amendment, so long as those deletions, additions and changes are not applicable to any other series of debt securities then outstanding;
- . to cure any ambiguity or correct or supplement any provision in the indenture which may be defective or inconsistent with other provisions in the indenture, or to make any other provisions with respect to matters or questions arising under the indenture which will not adversely affect the interests of the holders of the debt securities of any series then outstanding;
- . to add any additional events of default with respect to all or any series of debt securities; or
- . to amend or supplement any provision contained in the indenture, provided that the amendment or supplement does not apply to any outstanding debt securities issued before the date of the amendment or supplement that is entitled to the benefits of that provision.

The holders of a majority in aggregate principal amount of the outstanding debt securities of any series may waive our compliance with some of the restrictive provisions of the indenture, which may include covenants, if any,

which are specified in the applicable prospectus supplement. The holders of a majority in aggregate principal amount of the outstanding debt securities of any series may, on behalf of all holders of debt securities of that series, waive any past default under the indenture with respect to debt securities of that series and its consequences, except a default in the payment of the principal of, or premium, if any, or interest, if any, on debt securities of that series or a default in respect of a covenant or provision which cannot be modified or amended without the consent of the holder of each outstanding debt security of the affected series.

14

Discharge, defeasance and covenant defeasance

Unless otherwise provided in the applicable prospectus supplement, upon our direction, the indenture will cease to be of further effect with respect to any series of debt securities issued under the indenture specified by us, subject to the survival of specified provisions of the indenture, when:

- . either
 - all outstanding debt securities of that series and, in the case of bearer securities, all related coupons, have been delivered to the trustee for cancellation, subject to exceptions, or
 - all debt securities of that series and, if applicable, any related coupons have become due and payable or will become due and payable at their stated maturity within one year or are to be called for redemption within one year and we have deposited with the trustee, in trust, funds in United States dollars, in the foreign currency in which the debt securities of that series are payable, or direct or indirect obligations of the United States or the government which issued the applicable foreign currency ("government obligations") in an amount sufficient to pay the entire indebtedness on the debt securities of that series in respect of principal, premium, if any, and interest, if any, and, to the extent that the debt securities of that series provide for the payment of additional amounts and the amount of any additional amounts which are or will be payable is at the time of deposit reasonably determinable by us, in the exercise of our sole discretion, those additional amounts, to the date of the deposit, if the debt securities of that series have become due and payable, or to the maturity or redemption date of the debt securities of that series, as the case may be;
- . we have paid all other sums payable under the indenture with respect to the debt securities of that series; and
- . the trustee has received an officers' certificate and an opinion of counsel called for by the indenture.

If the debt securities of any series provide for the payment of additional amounts, we will remain obligated, following the deposit described above, to pay additional amounts on those debt securities to the extent that they exceed the amount deposited in respect of those additional amounts as described above.

Unless otherwise provided in the applicable prospectus supplement, we may elect with respect to any series of debt securities either

- . to defease and be discharged from all of our obligations with respect to that series of debt securities ("defeasance"), except for, among other things,

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

- the obligation to pay additional amounts with respect to payments on that series of debt securities to the extent that those additional amounts exceed the amount deposited in respect of those amounts as provided below,
- the obligation to register the transfer or exchange of those debt securities,
- the obligation to replace temporary or mutilated, destroyed, lost or stolen debt securities,
- the obligation to maintain an office or agency in respect of that series of debt securities,
- the obligation to hold moneys for payment in trust, and
- the obligation, if applicable, to repurchase or repay debt securities of that series at the option of the holders in accordance with their terms, or
- . to be released from our obligations with respect to the debt securities of the series under specified covenants in the indenture including those described under the heading "Restrictive covenants" and, if applicable, other covenants as may be specified in the applicable prospectus supplement, and any omission to comply with those obligations will not constitute a default or an event of default with respect to that series of debt securities ("covenant defeasance"),

15

in either case upon the irrevocable deposit with the trustee, or other qualifying trustee, in trust for that purpose, of an amount in United States dollars or in the foreign currency in which those debt securities are payable at stated maturity or, if applicable, upon redemption, and/or government obligations which, through the payment of principal and interest in accordance with their terms, will provide money in an amount sufficient to pay the principal of and any premium and any interest on, and, to the extent that the debt securities of that series provide for the payment of additional amounts and the amount of the additional amounts which are or will be payable is at the time of deposit reasonably determinable by us, in the exercise of our sole discretion, the additional amounts with respect to, that series of debt securities, and any mandatory sinking fund or analogous payments on that series of debt securities, on the due dates for those payments.

The defeasance or covenant defeasance described above will only be effective if, among other things:

- . it will not result in a breach or violation of, or constitute a default under, the indenture or any other material agreement or instrument to which we are a party or are bound;
 - . in the case of defeasance, we will have delivered to the trustee an opinion of independent counsel confirming that
- we have received from or there has been published by the Internal Revenue Service a ruling, or
 - since the date of the indenture there has been a change in applicable federal income tax law,

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

in either case to the effect that, and based on this ruling or change the opinion of counsel will confirm that, the holders of the debt securities of the applicable series will not recognize income, gain or loss for federal income tax purposes as a result of the defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance had not occurred;

- . in the case of covenant defeasance, we will have delivered to the trustee an opinion of independent counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for federal income tax purposes as a result of the covenant defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the covenant defeasance had not occurred;
- . if the cash and/or government obligations deposited are sufficient to pay the principal of, and premium, if any, and interest and additional amounts, if any, with respect to the debt securities of that series provided those debt securities are redeemed on a particular redemption date, we will have given the trustee irrevocable instructions to redeem those debt securities on that date; and
- . no event of default or event which with notice or lapse of time or both would become an event of default with respect to debt securities of that series will have occurred and be continuing on the date of the deposit into trust; and, solely in the case of defeasance, no event of default arising from specified events of bankruptcy, insolvency or reorganization with respect to us or any restricted subsidiary or event which with notice or lapse of time or both would become an event of default will have occurred and be continuing during the period through and including the 91st day after the date of the deposit into trust.

Unless otherwise provided in the applicable prospectus supplement, if after we have deposited funds and/or government obligations to effect defeasance or covenant defeasance with respect to debt securities of any series,

- . the holder of a debt security of that series is entitled to, and does, elect under the indenture or the terms of that debt security to receive payment in a currency other than the currency in which the deposit has been made, or
- . a conversion event, as defined below, occurs in respect of the foreign currency in which the deposit has been made,

the indebtedness represented by that debt security will be deemed to have been, and will be, fully discharged and satisfied through the payment of the principal of and premium, if any, and interest, if any, on that debt security as

it becomes due out of the proceeds yielded by converting the amount deposited in respect of that debt security into the currency in which that debt security becomes payable as a result of the election or conversion event based on, in the case of payments made under the first bullet above, the applicable market exchange rate for the foreign currency in effect on the second business day before the payment date, or, with respect to a conversion event, the applicable market exchange rate for the foreign currency in effect, as nearly as feasible, at the time of the conversion event.

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

For purposes of the indenture, a "conversion event" is the cessation of the use of a foreign currency both by the government of the country or the confederation which issued the foreign currency and for the settlement of transactions by a central bank or other public institutions of or within the international banking community, or any currency unit or composite currency for the purposes for which it was established.

In the event we effect covenant defeasance with respect to debt securities of any series and those debt securities are declared due and payable because of the occurrence of any event of default other than an event of default with respect to the covenants as to which covenant defeasance has been effected, which would no longer be applicable to the debt securities of that series after covenant defeasance, the amount of monies and/or government obligations deposited with the trustee to effect covenant defeasance may not be sufficient to pay amounts due on the debt securities of that series at the time of any acceleration resulting from that event of default. However, we would remain liable to make payment of those amounts due at the time of acceleration.

The applicable prospectus supplement may further describe the provisions, if any, permitting or restricting defeasance or covenant defeasance with respect to the debt securities of a particular series.

Regarding the trustee

We and our subsidiaries may maintain deposit accounts and conduct other banking transactions with the trustee or its affiliates in the ordinary course of business, and the trustee and its affiliates may from time to time in the future provide us with banking and financial services in the ordinary course of their business.

PLAN OF DISTRIBUTION

The company may sell securities through underwriters or agents or directly to other purchasers, including broker-dealers as principals. The prospectus supplement with respect to the securities sets forth the terms of the offering of the securities, including the name or names of any underwriters and the respective amount of the securities underwritten, the names of any agents involved in the offer or sale of the securities, the purchase price of the securities and the proceeds to the company from such sale, any underwriting discounts and other items constituting underwriters' compensation, any commissions payable to agents, any initial public offering price, and any discounts or concessions allowed or reallocated or paid to dealers. Any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

If the securities are sold through underwriters, they will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The securities may be offered to the public either (i) through underwriting syndicates or (ii) directly by one or more firms acting as underwriters. The underwriter or underwriters with respect to a particular underwritten offering of securities are named in the prospectus supplement relating to such offering, and if an underwriting syndicate is used, the managing underwriter or underwriters are set forth on the cover of such prospectus supplement. Unless otherwise set forth in the prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to certain conditions precedent and the underwriters will be obligated to purchase all the securities if any are purchased.

Edgar Filing: BAXTER INTERNATIONAL INC - Form 424B5

If broker-dealers are used in the sale, the company will sell the securities to the dealers as principals. The dealers may then resell the securities to the public at varying prices to be determined by such dealers at the time of resale.

The securities may be sold directly by the company or through agents designated by the company from time to time. Unless otherwise indicated in the prospectus supplement, any such agent is acting on a best efforts basis for the period of its appointment. As one of the means of direct issuance of the securities, the company may, through an agent, conduct an electronic "dutch auction" of the securities among potential purchasers who are eligible to participate in such auction, as more fully described in the prospectus supplement.

In the event that the securities are not listed on a national securities exchange, certain broker-dealers may make a market in the securities, but will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given that any broker-dealer will make a market in the securities or as to the liquidity of the trading market for the securities, whether or not the securities are listed on a national securities exchange. The prospectus supplement with respect to the securities will state, if known, whether or not any broker-dealer intends to make a market in such securities. If no such determination has been made, the prospectus supplement will so state.

If so indicated in the prospectus supplement, the company will authorize agents, underwriters or broker-dealers to solicit offers from certain types of institutions to purchase securities from the company at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future.

Agents, underwriters and broker-dealers may be entitled under agreements entered into with the company to indemnification by the company against certain civil liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribution with respect to payments which the agents, underwriters or broker-dealers may be required to make in respect thereof. Agents, underwriters and broker-dealers may be customers of, engage in transactions with, or perform services for the company in the ordinary course of business.
