ALBERTO-CULVER COMPANY AND SUBSIDIARIES**Notes to Consolidated Financial Statements****(1) BASIS OF PRESENTATION**

The consolidated financial statements contained in this report have not been audited by independent public accountants, except for balance sheet information presented at September 30, 2001. However, in the opinion of the company, the consolidated financial statements reflect all adjustments, which include only normal adjustments, necessary to present fairly the data contained therein. The results of operations for the periods covered are not necessarily indicative of results for a full year. Certain amounts for the prior year have been reclassified to conform to the current year's presentation.

(2) STOCKHOLDERS' EQUITY

In fiscal year 1998, the Board of Directors authorized the company to purchase up to 6.0 million shares of its Class A common stock. This authorization was increased to 9.0 million shares in fiscal year 1999. As of June 30, 2002, the company had purchased approximately 7.3 million Class A common shares under this program at a total cost of \$162.9 million. No Class A shares have been purchased under this program since October, 1999. In July, 2002, the Board of Directors re-authorized the company to purchase up to 1.7 million shares of the Class A common stock remaining on the 1998-1999 authorizations.

During the nine months ended June 30, 2002, the company acquired \$28.3 million of Class A and Class B common shares surrendered by employees in connection with the exercises of stock options and the payment of withholding taxes as provided under the terms of certain incentive plans. Shares acquired under these plans are not subject to the above-mentioned stock repurchase program.

(3) WEIGHTED AVERAGE SHARES OUTSTANDING

The following table provides information about basic and diluted weighted average shares outstanding (in thousands):

(6) GOODWILL AND TRADE NAMES

In June 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations and SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 141 addresses financial accounting and reporting for business combinations. SFAS No. 142 addresses financial accounting and reporting for acquired goodwill and other intangible assets, requires companies to discontinue the amortization of goodwill and certain other intangible assets and requires an impairment test of existing goodwill and certain other intangible assets based on a fair value method. The company adopted SFAS No. 141 in the fourth quarter of fiscal year 2001. The company also adopted SFAS No. 142 in the fourth quarter of fiscal year 2001 for new acquisitions and in the first quarter of fiscal year 2002 for previously acquired intangibles. In accordance with SFAS No. 142, the company determined that its trade names have indefinite lives and, therefore, the amortization of trade names was discontinued effective October 1, 2001. Based on the results of the company's transitional impairment testing, no impairment of indefinite-lived trade names existed at October 1, 2001. In addition, as required by SFAS No. 142, the company ceased the amortization of goodwill effective October 1, 2001. In accordance with the adoption provisions of SFAS No. 142, the company has completed the required transitional goodwill impairment tests and has determined that goodwill was not impaired as of October 1, 2001, the date of adoption. Prospectively, goodwill will be reviewed for impairment at least annually, with its ongoing recoverability monitored based on applicable reporting unit performance and consideration of significant events or changes in the overall business environment.

In accordance with SFAS No. 142, fiscal year 2001 results in the consolidated statement of earnings have not been restated for the effects of ceasing goodwill and trade name amortization. Had goodwill and trade name amortization been discontinued effective October 1, 2000, net earnings and earnings per share for the three and nine months ended June 30, 2002 and 2001 would have been as follows (in thousands, except per share data):

(7) NEW ACCOUNTING PRONOUNCEMENTS

In May 2000, the FASB's Emerging Issues Task Force (EITF) reached a consensus on Issue No. 00-14, Accounting for Certain Sales Incentives. EITF Issue No. 00-14 addresses the recognition, measurement and income statement classification for various types of sales incentives including coupons, rebates and free products. In April 2001, the EITF reached a consensus on Issue No. 00-25, Vendor Income Statement Characterization of Consideration Paid to a Reseller of the Vendor's Products. EITF Issue No. 00-25 addresses the income statement classification for various types of consideration paid by a vendor to a retailer. The company adopted the provisions of EITF Issue Nos. 00-14 and 00-25 in the first quarter of fiscal year 2002. In connection with the adoption of EITF Issue Nos. 00-14 and 00-25, the company reclassified certain amounts for the third quarter and first nine months of fiscal year 2001 to conform to the current year presentation resulting in a \$29.4 million reduction in net sales, a \$1.9 million increase in cost of products sold and a \$31.3 million decrease in promotion expense for the three months ended June 30, 2001 and a \$88.7 million reduction in net sales, a \$7.7 million increase in cost of products sold and a \$96.4 million decrease in promotion expenses for the nine months ended June 30, 2001. Consolidated net earnings were not affected by these reclassifications.

Notes to Consolidated Financial Statements (Continued)

(8) INTEREST RATE SWAP

On May 1, 2002, the company entered into an interest rate swap agreement with a notional amount of \$100 million in order to convert a portion of its fixed rate 8.25% senior notes into a variable rate obligation. The swap agreement, which was terminated subsequent to June 30, 2002, had a maturity date of November 1, 2005, and was designated as a fair value hedge. Under the interest rate swap agreement, the company was to receive semi-annual interest payments at a fixed rate of 8.25% and was required to make semi-annual interest payments at a variable rate based on a fixed spread over the six-month London Interbank Offered Rate (LIBOR). The differential to be received on the interest rate swap for the six months ended November 1, 2002, was being amortized over that period as a reduction of interest expense. On a pro-forma basis taking into account the interest rate swap, approximately 69% of the company's \$322.5 million of long-term debt at June 30, 2002 was based on a fixed interest rate with the remaining 31% based on a variable interest rate. The fair value of the interest rate swap as of June 30, 2002 was a gain of \$1.1 million, which was included in other assets on the consolidated balance sheet with an offsetting amount included in long-term debt.

On July 24, 2002, the company terminated the interest rate swap resulting in a gain of \$2.8 million. The gain will be amortized over the remaining term of the 8.25% senior notes (due in November, 2005) as a reduction of interest expense.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

RESULTS OF OPERATIONS

Third Quarter and Nine Months Ended June 30, 2002 versus Second Quarter and Nine Months Ended June 30, 2001

The company achieved record third quarter net sales of \$681.1 million in fiscal year 2002, up \$76.0 million or 12.6% over the comparable period of the prior year. For the nine-month period ended June 30, 2002, net sales reached a new high of \$1.95 billion, representing a 10.9% increase compared to last year's nine-month period total of \$1.76 billion. Fiscal year 2002 sales were negatively affected by foreign exchange rates. Had foreign exchange rates this year been the same as the third quarter and first nine months of fiscal 2001, sales would have increased 12.7% for the third quarter and 11.5% for the first nine months.

Net earnings were \$36.4 million for the three months ended June 30, 2002 or 25.2% higher than the prior year's third quarter net earnings of \$29.1 million. Basic earnings per share of 63 cents in the third quarter of fiscal year 2002 were 11 cents or 21.2% higher than the same period of fiscal year 2001. Diluted earnings per share for the current quarter increased 22.0% to 61 cents versus 50 cents in the same period of the prior year.

Net earnings for the nine months ended June 30, 2002 were \$98.3 million or 25.1% higher than the prior year's first nine-month net earnings of \$78.6 million. Basic earnings per share of \$1.72 in fiscal year 2002 were 32 cents or 22.9% higher than the same period of fiscal year 2001. Diluted earnings per share increased 22.1% to \$1.66 compared to \$1.36 in the first nine months of fiscal year 2001.

As discussed under *New Accounting Pronouncements*, the company discontinued the amortization of goodwill and trade names at the beginning of fiscal year 2002. Had last year's results been restated to eliminate goodwill and trade name amortization, net earnings for the three months and nine months ended June 30, 2002 would have increased \$5.2 million or 16.6% and \$13.4 million or 15.7%, respectively, compared to prior year. Basic earnings per share for the three-month and nine-month periods ended June 30, 2002 would have increased 8 cents or 14.5% and 21 cents or 13.9%, respectively, versus the prior year while diluted earnings per share would have increased 7 cents or 13.0% and 19 cents or 12.9%, respectively.

Compared to the same periods of the prior year, sales of Alberto-Culver North America (*North America*) consumer products increased 9.8% and 9.6% in the third quarter and first nine months of fiscal year 2002, respectively. The increases were primarily due to higher sales of Alberto V05 shampoos and conditioners, TRESemme shampoos, conditioners and styling products, TRESemme Hydrology shampoos and conditioners, St. Ives Swiss Formula lotions and body washes and Mrs. Dash seasonings along with increased sales for custom label filling operations. Sales for the current nine month period also increased due to higher sales of Pro-Line's Soft & Beautiful Botanicals and TCB ethnic hair care products.

Sales of Alberto-Culver International consumer products (*International*) increased 1.2% in the third quarter and decreased 0.3% in the first nine months of fiscal 2002 compared to the same periods last year. Fiscal year 2002 sales were negatively affected by foreign exchange rates. Had foreign exchange rates this year been the same as the third quarter and first nine months of fiscal 2001, International sales would have increased 1.9% and 2.3%, respectively.

The Specialty distribution Sally (*Sally*) business segment achieved sales increases of 16.5% for the third quarter and 14.1% for the first nine months of fiscal year 2002. The sales increases were mainly attributable to the expansion of Sally's full-service operations, including acquisitions, higher sales for established Sally Beauty Company outlets and the addition of stores during the year. At June 30, 2002, Sally had 2,662 stores, including 130 franchise stores, offering a full range of professional beauty supplies.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

RESULTS OF OPERATIONS (continued)

Cost of products sold as a percentage of net sales was 51.2% for the third quarter and 51.3% for the first nine months of fiscal year 2002 compared to 51.5% for the third quarter and 51.6% for the first nine months of the prior year. The decreased cost of products sold percentages in the third quarter and first nine months of fiscal year 2002 was primarily attributable to increased sales of higher margin products and lower manufacturing costs.

Compared to the prior year, advertising, marketing, selling and administrative expenses in fiscal year 2002 increased \$26.7 million or 10.9% for the third quarter and \$65.3 million or 9.1% for the first nine months. The increase primarily resulted from the higher selling and administrative costs associated with the growth of the Sally Beauty Company business and higher expenditures for advertising and marketing.

Advertising and marketing expense was \$47.6 million for the third quarter and \$140.9 million for the first nine months of fiscal 2002 versus \$47.1 million for the third quarter and \$134.8 million for the first nine months of fiscal year 2001. The increase in advertising and marketing expense for the first nine months of fiscal year 2002 versus the prior year primarily resulted from higher advertising expenditures for North America.

The provision for income taxes as a percentage of earnings before income taxes was 35.0% for the third quarter and first nine months of fiscal year 2002 compared to 34.0% for the third quarter and first nine months of the prior year. The higher tax rate for the first half of fiscal year 2002 is mainly due to the mix of foreign taxable earnings.

FINANCIAL CONDITION

June 30, 2002 versus September 30, 2001

Working capital at June 30, 2002 was \$483.0 million, a decrease of \$3.6 million from \$486.6 million at September 30, 2001. The resulting ratio of current assets to current liabilities was 2.13 to 1.00 at June 30, 2002 compared to 2.25 to 1.00 at September 30, 2001. The decrease in fiscal year 2002 working capital and the ratio of current assets to current liabilities was primarily due to the cash paid for the acquisitions of Armstrong-McCall and other full-service beauty supply distributors by Sally Beauty Company and capital expenditures, offset in part by working capital generated from operations.

Cash and cash equivalents decreased \$52.5 million during the first nine months of fiscal year 2002 primarily due to the \$100.6 million of acquisitions of full-service beauty supply distributors by Sally Beauty Company, the repurchase of \$40.0 million of accounts receivable previously sold under the company's conduit facility and \$45.1 million of capital expenditures, partially offset by cash flows from operating activities.

Accounts receivable increased \$48.4 million to \$218.0 million during the first nine months of fiscal year 2002 primarily due to the repurchase of \$40.0 million of accounts receivable previously sold under the company's conduit facility.

Inventories increased \$35.3 million or 7.4% to \$513.6 million during the first nine months of fiscal year 2002 principally due to the acquisitions of full-service beauty supply distributors and the growth of Sally Beauty Company.

Net goodwill increased \$76.0 million during the first nine months of fiscal year 2002 mainly due to goodwill from acquisitions during the year, partially offset by the effects of foreign exchange rates.

Accounts payable increased \$23.3 million to \$214.7 million during the first nine months of fiscal year 2002 primarily due to increased inventory levels required to support sales growth and the timing of vendor payments.

Accrued expenses increased \$29.0 million to \$194.5 million primarily due to higher accruals for advertising and marketing, compensation and insurance expenditures.

Income taxes payable and deferred income taxes decreased \$16.9 million to \$52.7 million during the first nine months of fiscal year 2002 mainly due to the timing of tax payments and tax benefits realized from the exercise of employee stock options in fiscal year 2002.

Accumulated other comprehensive income - foreign currency translation increased \$14.0 million during the first nine months of fiscal year 2002 primarily due to the effect of the devaluation of the Argentine Peso.

NEW ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations and SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 141 addresses financial accounting and reporting for business combinations. SFAS No. 142 addresses financial accounting and reporting for acquired goodwill and other intangible assets, requires companies to discontinue the amortization of goodwill and certain other intangible assets and requires an impairment test of existing goodwill and certain other intangible assets based on a fair value method. The company adopted SFAS No. 141 in the fourth quarter of fiscal year 2001. The company also adopted SFAS No. 142 in the fourth quarter of fiscal year 2001 for new acquisitions and in the first quarter of fiscal year 2002 for previously acquired intangibles. In accordance with SFAS No. 142, the company determined that its trade names have indefinite lives and, therefore, the amortization of trade names was discontinued effective October 1, 2001. Based on the results of the company's transitional impairment testing, no impairment of indefinite-lived trade names existed at October 1, 2001. In addition, as required by SFAS No. 142, the company ceased the amortization of goodwill effective October 1, 2001. In accordance with the adoption provisions of SFAS No. 142, the company has completed the required transitional goodwill impairment tests and has determined that goodwill was not impaired as of October 1, 2001, the date of adoption. Prospectively, goodwill will be reviewed for impairment at least annually, with its ongoing recoverability monitored based on applicable reporting unit performance and consideration of significant events or changes in the overall business environment.

In accordance with SFAS No. 142, fiscal year 2001 results in the consolidated statement of earnings have not been restated for the effects of ceasing goodwill and trade name amortization. Had goodwill and trade name amortization been discontinued effective October 1, 2000, net earnings and earnings per share for the three and nine months ended June 30, 2002 and 2001 would have been as follows (in thousands, except per share data):

	Three Months Ended June 30,		Nine Months Ended June 30,

In May 2000, the FASB's Emerging Issues Task Force (EITF) reached a consensus on Issue No. 00-14, Accounting for Certain Sales Incentives. EITF Issue No. 00-14 addresses the recognition, measurement and income statement classification for various types of sales incentives including coupons, rebates and free products. In April 2001, the EITF reached a consensus on Issue No. 00-25, Vendor Income Statement Characterization of Consideration Paid to a Reseller of the Vendor's Products. EITF Issue No. 00-25 addresses the income statement classification for various types of consideration paid by a vendor to a retailer. The company adopted the provisions of EITF Issue Nos. 00-14 and 00-25 in the first quarter of fiscal year 2002. In connection with the adoption of EITF Issue Nos. 00-14 and 00-25, the company reclassified certain amounts for the third quarter and first nine months of fiscal year 2001 to conform to the current year presentation resulting in a \$29.4 million reduction in net sales, a \$1.9 million increase in cost of products sold and a \$31.3 million decrease in promotion expense for the three months ended June 30, 2001 and an \$88.7 million reduction in net sales, a \$7.7 million increase in cost of products sold and a \$96.4 million decrease in promotion expenses for the nine months ended June 30, 2001. Consolidated net earnings were not affected by these reclassifications.

In August, 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS No. 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets, including the presentation of discontinued operations in the statement of earnings. The company is required to adopt the provisions of SFAS No. 144 no later than the first quarter of fiscal year 2003 and does not expect its implementation to have a material effect on the consolidated financial statements.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein, if any, may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on management's current expectations and assessments of risks and uncertainties and reflect various assumptions concerning anticipated results, which may or may not prove to be correct. Some of the factors that could cause actual results to differ materially from estimates or projections contained in such forward-looking statements include the pattern of brand sales, including variations in sales volume within periods; competition within the relevant product markets, including the ability to develop and successfully introduce new products, ensuring product quality, pricing, promotional activities, introduction of competing products, continuing customer acceptance of existing products and loss of distributorship rights; risks inherent in acquisitions and strategic alliances; the loss of one or more key employees; the effects of a prolonged United States or global economic downturn or recession; changes in costs, including changes in labor costs, raw material prices or advertising and marketing expenses; the costs and effects of unanticipated legal or administrative proceedings; variations in political, economic or other factors such as currency exchange rates, inflation rates, tax changes, legal and regulatory changes or other external factors over which Alberto-Culver Company has no control. Alberto-Culver Company has no obligation to update any forward-looking statement in this Quarterly Report on Form 10-Q or any incorporated document.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the company's market risk during the three months or nine months ended June 30, 2002.

On May 1, 2002, the company entered into an interest rate swap agreement with a notional amount of \$100 million in order to convert a portion of its fixed rate 8.25% senior notes into a variable rate obligation. The swap agreement, which was terminated subsequent to June 30, 2002, had a maturity date of November 1, 2005, and was designated as a fair value hedge. Under the interest rate swap agreement, the company was to receive semi-annual interest payments at a fixed rate of 8.25% and was required to make semi-annual interest payments at a variable rate based on a fixed spread over the six-month London Interbank Offered Rate (LIBOR). The differential to be received on the interest rate swap for the six months ended November 1, 2002, was being amortized over that period as a reduction of interest expense. On a pro-forma basis taking into account the interest rate swap, approximately 69% of the company's \$322.5 million of long-term debt at June 30, 2002 was based on a fixed interest rate with the remaining 31% based on a variable interest rate. The fair value of the interest rate swap as of June 30, 2002 was a gain of \$1.1 million, which was included in other assets on the consolidated balance sheet with an offsetting amount included in long-term debt.

On July 24, 2002, the company terminated the interest rate swap resulting in a gain of \$2.8 million. The gain will be amortized over the remaining term of the 8.25% senior notes (due in November, 2005) as a reduction of interest expense.
