Explanatory Note

Services Acquisition Corp. International (the “Company”) is filing this Amendment No. 2 to its Current Report on Form 8-K, as filed with the Securities and Exchange Commission on August 3, 2006 (the “Form 8-K”), for the purpose of clarifying when management of the Company concluded that the Company's financial statements should no longer be relied on as previously disclosed under Item 4.02 of the Form 8-K. Item 4.02 has been amended and restated in its entirety as set forth below.

ITEM 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review

As a result of comments received from the staff (the “Staff”) of the Securities and Exchange Commission (the “Commission”) in connection with its review of the Company's preliminary proxy statement which was initially filed with the Commission on March 29, 2006 (the “Proxy”), and after several discussions with the Commission and the Company's auditors, the Company determined on August 1, 2006 that its previously issued financial statements should no longer be relied on and that a restatement of the Company's previously reported financial information was required after further considering the application of EITF 00-19, “Accounting For Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock” to determine whether there were any embedded derivative instruments in the warrants to purchase common stock associated with the units sold at the initial public offering of the Company. The Company's financial results for the fiscal year ended December 31, 2005 and for the interim periods ended September 30, 2005 and March 31, 2006 will be restated to reflect additional non-operating gains and losses related to the classification of and accounting for the warrants described above, and the Company's previously filed financial results should not be relied upon. The Company has determined that these warrants should have been classified as derivative liabilities and therefore, the fair value of each warrant must be recorded as a derivative liability on the Company's balance sheet. Changes in the fair values of these instruments will result in adjustments to the amount of the recorded derivative liabilities and the corresponding gain or loss will be recorded in the Company's statement of operations. The loss reflected in the restated financials is (1) a non-cash, non-operational item; (2) results from market volatility of SACI's stock; and (3) the requirement that outstanding warrants be marked to market. The Company believes that these restatements will have no effect on the Company's ability to consummate the currently contemplated merger with Jamba Juice Company.

The authorized officers of the Company have discussed with Rothstein, Kass & Company, P.C., the Company's independent registered public accounting firm (“RKC”), the matters disclosed in this Current Report on Form 8-K.
