LAIDLAW INTERNATIONAL, INC.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTH PERIODS ENDED FEBRUARY 28, 2005**

Note 1 Corporate overview and basis of presentation

Corporate overview

Laidlaw International, Inc. (the Company) operates in three reportable business segments: education services, public transit services and Greyhound. The education services segment provides school bus transportation, including scheduled home-to-school, extra-curricular and charter and transit school bus services, throughout the United States and Canada. The public transit services segment provides fixed-route municipal bus service and paratransit bus transportation for riders with disabilities. Greyhound, a national provider of inter-city bus transportation in the United States and Canada, provides scheduled passenger service, package delivery service, charter bus service and, in certain terminals, food service. As discussed in Note 2 Discontinued operations, during the second quarter of fiscal 2005, the healthcare transportation services and emergency management services segments were sold and are presented as discontinued operations.

Basis of presentation

The accompanying interim consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States for interim reporting and accordingly, do not include all of the disclosures required for annual financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included. All such adjustments are of a normal, recurring nature. Operating results for the three and six months ended February 28, 2005 are not necessarily indicative of the results that may be expected for the full year ending August 31, 2005. For further information, see the Company's consolidated financial statements, including the accounting policies and notes thereto, included in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2004.

Prior period amounts have been reclassified to reflect the discontinuance of the healthcare businesses and also to conform to the current period presentation.

Note 2 Discontinued operations

On February 10, 2005 the Company completed the sale of its healthcare transportation services and emergency management services segments to an affiliate of Onex Corporation for \$818.0 million. After payment of transaction costs, net cash proceeds received by the Company were \$789.1 million. Proceeds from the transaction were used in part to retire all outstanding borrowings under the Company's Term B senior secured term facility aggregating \$574.1 million.

Table of Contents

The following table details the components of income from discontinued operations:

(\$ in millions)	Three Months Ended		Six Months Ended	
	February 28, 2005	February 29, 2004	February 28, 2005	February 29, 2004
Revenue	\$ 282.6	\$ 400.9	\$ 696.2	\$ 796.3
Pre-tax income from operations	8.6	6.7	18.5	10.0
Provision for income taxes	(3.5)	(3.3)	(7.8)	(5.0)
Income from operations	5.1	3.4	10.7	5.0
Pre-tax gain on sale of businesses	201.0		201.0	
Income tax benefit	9.4		9.4	
Gain on sale after taxes	210.4		210.4	
Income from discontinued operations	\$ 215.5	\$ 3.4	\$ 221.1	\$ 5.0

For all periods presented, the Company has allocated interest expense under the Term B and Revolver to discontinued operations since the Company was required by the creditors to pay off the debt upon sale of the healthcare businesses. Additionally, \$23.6 million of deferred financing fees related to the Term B and Revolver were written off against the gain on sale in discontinued operations giving rise to the \$9.4 million tax benefit allocated to the gain on sale. While the remaining amount is a gain for book purposes, for tax purposes the sale generated a substantial capital loss. As discussed in Note 6 – Income Taxes, the Company has provided a full valuation allowance against the capital loss carryforward.

Note 3 Goodwill and other intangible assets

On August 31, 2004, as a result of fresh start accounting, the Company had recorded goodwill of \$139.1 million and other intangibles including contract values of \$118.6 million. The Company also had established a valuation reserve against a portion of its deferred tax assets.

As discussed in Note 6 – Income Taxes, during the second quarter of 2005, the Company reduced its deferred tax valuation allowance and, as required under fresh start accounting, made a corresponding reduction to eliminate goodwill and to reduce other intangibles by \$44.2 million.

The contract values remaining are net of \$10.6 million of accumulated amortization at February 28, 2005 and \$10.7 million at August 31, 2004. The accumulated amortization at February 28, 2005 is less than the August 31, 2004 balance due to the reduction in contract values that occurred in the second quarter of 2005 as discussed above.

Note 4 Stock awards and options

Pursuant to the Company's Amended and Restated 2003 Equity and Performance Incentive Plan, the Company issued stock based compensation to various employees and non-employee directors. These grants to employees represent the long-term incentive portion of the Company's overall compensation plan for management. The Company accounts for all stock-based compensation based on estimated fair value at the date of issue and recorded an expense related to these plans of approximately \$2.3 million and \$0.8 million during the six month periods ended February 28, 2005 and February 29, 2004, respectively. A summary of stock based compensation issued during the current fiscal year is as follows:

Table of Contents

Stock options On December 8, 2004, the Company issued 452,625 non-qualified stock options to employees and non-employee directors with a strike price of \$18.85 per share. The grant price was equal to the fair market value of the Company's stock at the date of grant. The stock options have a ten-year life and vest ratably over three years.

Restricted Shares On December 8, 2004, the Company issued 25,313 shares of restricted common stock to non-employee directors. The restricted shares vest at the end of a three-year period and during the vesting period the participant has the rights of a shareholder with respect to voting and dividend rights but is restricted from transferring the shares.

Deferred Shares Deferred shares are granted to key employees and vest ratably over a four-year period. On each vesting date the employee receives common stock of the Company equal in number to the deferred shares that have vested. Upon delivery of the Company common stock an equal number of deferred shares are terminated. The participant has no voting rights with respect to the deferred shares. On December 8, 2004, the Company granted an additional 275,000 deferred shares to key employees.

Note 5 Pension plans

The Company, collectively with all of its wholly-owned U.S. subsidiaries, is party to an agreement with the Pension Benefit Guaranty Corporation regarding the funding levels of the Company's pension plans (the "PBGC Agreement"). Under the PBGC Agreement, 3.8 million shares of the Company's common stock were issued to a trust formed for the benefit of the pension plans (the "Pension Plan Trust").

In February 2005, the Company purchased all of the shares held in the Pension Plan Trust for \$22.37 per share, or aggregate consideration of \$84.5 million. The purchase price per share was based upon the closing price per share on the New York Stock Exchange on the date of purchase. All net proceeds from the stock sale were contributed directly to the pension plans and the 3.8 million shares were retired.

The components of net periodic benefit cost for the Company's pension plans were as follows:

	Three Months Ended		Six Months Ended	
	February 28, 2005	February 29, 2004	February 28, 2005	February 29, 2004
(\$ in millions)				
Components of net pension benefit cost				
Service cost	\$ 2.2	\$ 1.4	\$ 4.3	\$ 2.8
Interest cost	14.4	13.6	28.7	27.2
Expected return on plan assets	(14.1)	(12.7)	(28.5)	(25.5)
Net pension benefit cost	\$ 2.5	\$ 2.3	\$ 4.5	\$ 4.5

Note 6 Income taxes

At August 31, 2004, the Company had recorded a valuation allowance against its deferred tax assets of \$305 million. During the second quarter of fiscal 2005 the Company wrote-off \$127 million of deferred tax assets against the valuation allowance for carryforwards that will be used as part of a recent settlement with the IRS and for carryforwards which management believes will not likely be available for use against future income. The remaining \$178 million of valuation allowance was reversed in its entirety as recent historical, and current projected, results

reflect a level of income that supports a conclusion that it is more likely than not that the Company will fully recover the remaining surviving carryforwards. The results of the Company considered the sale of the healthcare segments and the retirement of the Term B debt and reduction in related interest costs. As required under fresh start accounting rules, the reversal first eliminated all remaining

Table of Contents

goodwill established at fresh start, with the balance reducing other intangibles established in conjunction with fresh start accounting.

As discussed in Note 2 Discontinued operations, in the second quarter of fiscal 2005 the Company sold its healthcare segments for a pre-tax book gain of \$201.0 million. For tax purposes the sale generated a substantial capital loss. As capital losses may only be applied against capital gains, and the Company does not generate capital gains in the ordinary course, a valuation allowance has been established for this deferred tax asset since the Company believes it is more likely than not that the capital loss carryforward will not be realized.

Note 7 Material contingencies

Legal proceedings

Contingent Liabilities Relating to Sale of AMR

On February 10, 2005 the Company completed the sale of American Medical Response, Inc. (AMR) to an affiliate of Onex Corporation in accordance with the Stock Purchase Agreement dated December 6, 2004, as amended (the Stock Purchase Agreement). Pursuant to the terms of the Stock Purchase Agreement, the Company may be subject to indemnification obligations related to certain investigations and matters previously disclosed relating to AMR, including potentially those set forth below.

On May 9, 2002, AMR received a subpoena duces tecum from the Office of Inspector General for the United States Department of Health and Human Services (HHS). The subpoena requested copies of documents for the period from January 1993 through May 2002. The subpoena required AMR to produce a broad range of documents including those relating to Regional Emergency Services contracts in Georgia and Colorado. The government investigations in Georgia and Colorado are continuing.

During the first quarter of fiscal 2004, AMR was advised by the U.S. Department of Justice (DOJ), that it was investigating certain business practices at AMR. The specific practices at issue were (1) whether ambulance transports involving Medicare eligible patients complied with the medically necessary requirement imposed by Medicare regulations, (2) whether patient signatures, when required, were properly obtained from Medicare eligible patients; and (3) whether discounts in violation of the Federal Anti-Kickback Act were provided by AMR in exchange for referrals involving Medicare eligible patients. At this juncture, it is not possible to predict the ultimate conclusion of the investigations described in this and the preceding paragraph, nor is it possible to calculate any possible financial exposure, if any, to the Company, pursuant to the terms of the Stock Purchase Agreement.

Greyhound Default Judgment

On September 20, 2004, the Company's wholly owned subsidiary, Greyhound Lines, Inc. (Greyhound Lines), responded to proceedings brought in Georgia state court in August 2004 seeking to enforce a default garnishment judgment on funds in a Greyhound Lines bank account. This action stemmed from an October 1995 default judgment in the amount of approximately \$7 million (1995 Judgment) against Gary Jones, a former consultant to Greyhound Lines. More than four years later, in October 2000, the plaintiff who obtained the 1995 Judgment (Plaintiff) began garnishment proceedings against Greyhound Lines in Georgia state court seeking to recover amounts owed to Gary Jones, who then allegedly owed the Plaintiff the amount of approximately \$11 million based on the 1995 Judgment plus post-judgment interest. On May 2, 2001, a default judgment for \$11 million was entered by the Georgia state court against Greyhound Lines. On March 10, 2005, Greyhound Lines settled this matter for an immaterial amount and the Company has reflected the cost of the settlement as a

Table of Contents

component of other income (expense) in its Consolidated Statements of Operations for the quarter ended February 28, 2005.

Other

The Company is also a defendant in various lawsuits arising in the ordinary course of business, primarily cases involving personal injury, property damage or employment related claims. Some of these actions are covered to varying degrees by insurance policies. Based on an assessment of known claims and our historical claims payout pattern, management believes that there is no proceeding either threatened or pending against us relating to personal injury and/or property damage claims and/or employment related claims that would have a material adverse effect on the Company.

Greyhound Facility

Greyhound Lines is party to a revolving credit facility to fund working capital needs and for general corporate purposes (the Greyhound Facility) that expires on October 24, 2006. The Greyhound Facility is subject to certain affirmative and negative operating and financial covenants, including maximum total debt to cash flow ratio; minimum cash flow to interest expense ratio; minimum cash flow; limitation on non-bus capital expenditures; limitations on additional liens, indebtedness, guarantees, asset disposals, advances, investments and loans; and restrictions on the redemption or retirement of certain subordinated indebtedness or equity interests, payment of dividends and transactions with affiliates, including Laidlaw International, Inc. Although Greyhound Lines most recent financial forecast indicates they will remain in compliance with the financial covenants under the Greyhound Facility, increases in fuel prices, softness in discretionary travel or other unforeseen events or changes in assumptions may occur and result in material differences between Greyhound Lines future results and the current financial forecast. Those differences could result in management concluding in the future that Greyhound Lines may not be able to remain in compliance with the financial covenants under the Greyhound Facility.

As described above in Legal proceedings, Greyhound Lines has settled the matter brought in Georgia state court seeking to enforce a default garnishment judgment. Prior to the March 10, 2005 settlement, the default judgment could have been deemed to be an event of default under the Greyhound Facility. Following the settlement, the lenders under the Greyhound Facility have confirmed to Greyhound Lines that no event of default exists under the Greyhound Facility as a result of the default judgment.

Environmental matters

The Company s operations are subject to various federal, state, local and foreign laws and regulations relating to environmental matters, including those concerning emissions to the air; waste water discharges; storage, treatment and disposal of waste and remediation of soil and ground water contamination. We have incurred, and expect to incur, costs for our operations to comply with these legal requirements, and these costs could increase in the future. In particular, the Company has been named as a potentially responsible party under the United States Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, at various third-party sites at which the Company s waste was allegedly disposed. In addition, the Company is investigating or engaged in remediation of past contamination at other sites used in its businesses. The Company records liabilities when environmental liabilities are either known or considered probable and can be reasonably estimated. On an ongoing basis, management assesses and evaluates environmental risk and, when necessary, conducts appropriate corrective measures. As of the date of this report, management believes that adequate accruals have been made related to all known environmental matters, however actual environmental liabilities could differ significantly from these estimates.

Table of Contents**Income tax matters**

The respective tax authorities, in the normal course, audit previous tax filings. It is not possible at this time to predict the final outcome of these audits or to establish a reasonable estimate of possible additional taxes owing, if any.

Note 8 Earnings per share

The basic earnings per share figures are calculated using the weighted average number of shares outstanding during the respective periods. The diluted earnings per share for the three and six month periods ended February 28, 2005 and February 29, 2004 include the dilutive effect of the Company's stock based compensation and the weighted average shares outstanding of the Company's common shares held in trust up until February 17, 2005, the date they were re-purchased and retired by the Company.

Table of Contents**Note 9 Segment information**

The Company has three reportable segments: education services, public transit services and Greyhound. Revenues and EBITDA (operating income before depreciation and amortization) of the segments for the three and six months ended February 28, 2005 and February 29, 2004 are as follows:

(\$ in millions)	Three Months Ended		Six Months Ended	
	February 28, 2005	February 29, 2004	February 28, 2005	February 29, 2004
Education services				
Revenue	\$ 405.1	\$ 394.8	\$ 857.0	\$ 850.5
EBITDA	85.9	73.0	198.1	182.0
Public transit				
Revenue	\$ 73.9	\$ 72.5	\$ 150.9	\$ 144.6
EBITDA	4.9	(4.1)	8.2	(4.4)
Greyhound				
Revenue	\$ 284.7	\$ 294.3	\$ 569.5	\$ 581.4
EBITDA	25.1	11.5	36.9	22.0
Consolidated Total				
Revenue	\$ 763.7	\$ 761.6	\$ 1,577.4	\$ 1,576.5
EBITDA	115.9	80.4	243.2	199.6
Depreciation and amortization expense	(65.0)	(60.9)	(133.2)	(127.9)
Operating income	50.9	19.5	110.0	71.7
Interest expense	(19.8)	(19.4)	(39.1)	(38.0)
Other income (expense), net	3.6	(4.5)	5.0	(3.7)
Income tax benefit (expense)	(14.0)	8.2	(30.4)	(5.2)
Income from discontinued operations	215.5	3.4	221.1	5.0
Net income	\$ 236.2	\$ 7.2	\$ 266.6	\$ 29.8

Corporate expenses previously allocated to the healthcare transportation services and emergency management services segments exceeded the amount of direct charges incurred and allocated to discontinued operations. The previously allocated corporate costs in excess of the direct charges related to the discontinued segments have been re-allocated to the remaining segments above. Because of this change in allocation, EBITDA as now reported for the continuing segments may not agree to amounts previously reported.

Total identifiable assets by segment on February 28, 2005 and August 31, 2004 are as follows:

(\$ in millions)	February 28, 2005	August 31, 2004
Education services	\$ 1,155.2	\$ 1,222.8
Public transit	99.6	104.5
Greyhound	913.8	898.0
Total identifiable assets of segments	2,168.6	2,225.3
Corporate assets	1,010.4	805.0
Discontinued operations		918.1
Total assets	\$ 3,179.0	\$ 3,948.4

Table of Contents**Note 10 Condensed financial statements of restricted subsidiaries**

Pursuant to the terms of the Company's \$406.0 million Senior Notes, the Company is required to segregate the consolidated results of operations between the subsidiaries of the Company that are not a party to the agreement, which are comprised of the U.S. based businesses in the Greyhound segment (the Unrestricted Subsidiaries), and the Company and its remaining subsidiaries (the Restricted Subsidiaries).

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

Corporate overview

The following discussion and analysis presents factors which affected the Company's consolidated results of operations for the three and six month periods ended February 28, 2005 compared to the three and six month periods ended February 29, 2004 and the Company's consolidated financial position at February 28, 2005. The following information should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in this Form 10-Q and in the Company's Form 10-K for the year ended August 31, 2004. As used in this Report, all references to the Company, we, us, our and similar references are to Laidlaw International, Inc.

Our continuing operations consist of three reportable segments: education services, public transit services and Greyhound. See Note 9 Segment Information of Notes to Consolidated Financial Statements in this Report. As a result of the sale of our healthcare transportation services and emergency management services segments, prior period amounts have been reclassified to reflect the discontinuance of these segments.

Pursuant to the terms of the Company's \$406.0 million Senior Notes, the Company is required to segregate the consolidated results of operations between the Restricted and Unrestricted Subsidiaries as defined in Note 10

Condensed financial statements of restricted subsidiaries of the Notes to the Consolidated Financial Statements included in this Report.

Non-GAAP Measures

EBITDA is presented solely as a supplemental disclosure with respect to liquidity because management believes it provides useful information regarding our ability to service or incur debt. EBITDA is not calculated the same way by all companies. We define EBITDA as operating income plus depreciation and amortization. EBITDA, as reported here, is the same as reported for each of our segments in Note 9 Segment information of Notes to Consolidated Financial Statements included in this Report. EBITDA is not intended to represent cash flow for the period, is not presented as an alternative to operating income as an indicator of operating performance, should not be considered in isolation or as a substitute for measures of performance prepared in accordance with generally accepted accounting principles (GAAP) and is not indicative of operating income or cash flow from operations as determined under GAAP.

Table of Contents

The following is a reconciliation of our EBITDA to income from continuing operations and net cash used in operating activities, the GAAP measures management believes to be most directly comparable to EBITDA:

Unrestricted Subsidiaries	17.7	6.9	25.0	15.9
Total	\$ 115.9	\$ 80.4	\$ 243.2	\$ 199.6

Education services

Revenue in the education services segment increased by \$10.3 million and \$6.5 million for the three and six months ended February 28, 2005 compared to the same periods in fiscal 2004. More operating days on existing contracts increased revenue by \$4.6 million during the three month period ended February 28, 2005 compared to the prior year. The increase in days operated was principally due to lost days as a result of bad weather in the prior year period. Most of the lost operating days in the second quarter of 2004 were recovered in the third and fourth quarter of fiscal 2004. The remaining increase in revenue is principally due to a strengthening of the Canadian dollar relative to the U.S. dollar that had the effect of increasing revenue compared to the corresponding periods last year by \$3.7 million and \$7.4 million for the three and six months ended February 28, 2005, respectively. Revenue from new contracts and rate increases on existing contracts were largely offset by decreased revenue from lost contracts.

In the three and six months ended February 28, 2005, EBITDA in the education services segment improved \$12.9 million and \$16.1 million over the three and six months ended February 29, 2005 primarily due to lower accident claim costs as reduced compensation and administrative costs as a percentage of revenue were largely offset by increased fuel prices. Accident claims costs during the three and six months ended February 28, 2005 were \$8.6 million and \$15.2 million, respectively, lower than the comparable periods in the prior year. Due to favorable trends in accident frequency and severity not being reflected in actuarial estimates until the fourth quarter of fiscal 2004, 68% of the annual accident claims costs in fiscal 2004 were recognized during the six months ended February 29, 2004. These favorable trends have continued during the first half of fiscal 2005 thus resulting in the reduced costs as compared to prior year. Management currently expects that accident claims costs will be recognized somewhat more evenly during fiscal 2005 and, therefore, believes that it is likely that accident claims costs during the second half of fiscal 2005 will exceed the amounts recorded during the second half of fiscal 2004.

Public transit

Revenue in the public transit services segment increased \$1.4 million and \$6.3 million for the three and six months ended February 28, 2005 compared to the same periods in fiscal 2004 primarily due to volume and price increases on existing contracts.

EBITDA in the public transit services segment in the three and six months ended February 28, 2005 improved \$9.0 million and \$12.6 million, respectively, over the same period in 2004 primarily due to lower accident claims costs as reduced compensation and administrative costs as a

Table of Contents

percentage of revenue were largely offset by increased fuel prices. Accident claims costs during the three and six months ended February 28, 2005 were \$9.0 million and \$10.3 million, respectively, lower than the comparable periods in the prior year. Due to favorable trends in accident frequency and severity not being reflected in actuarial estimates until the fourth quarter of fiscal 2004, 68% of the annual accident claims costs in fiscal 2004 were recognized during the six months ended February 29, 2004. These favorable trends have continued during the first half of fiscal 2005 thus resulting in the reduced costs as compared to prior year. Management currently expects that accident claims costs will be recognized somewhat more evenly during fiscal 2005 and, therefore, believes that it is likely that accident claims costs during the second half of fiscal 2005 will exceed the amounts recorded during the second half of fiscal 2004.

Greyhound

Revenue in the Greyhound segment during the three and six months ended February 28, 2005 declined \$9.6 million and \$11.9 million, respectively, from the three and six months ended February 29, 2004, principally due to a decrease in passenger revenue somewhat offset by an increase in the Canadian exchange rate. Passenger revenue and miles driven are down due to management's focus on improving profitability by reducing lower yielding long-distance trips and eliminating low-performing routes or frequencies. Had there been no change in the exchange rate, revenue would have decreased by \$14.4 million and \$20.9 million for the three and six months ended February 28, 2005 compared to the prior year periods.

In the three and six months ended February 28, 2005, EBITDA in the Greyhound segment was \$13.6 million and \$14.9 million higher, respectively, than the three and six months ended February 29, 2004. The improvement in Greyhound's EBITDA is primarily due to management's continued focus on improving revenue per bus mile and reducing operating costs. These actions reduced compensation costs and vehicle related costs as a percentage of revenue, however, the improvements were somewhat offset by an increase in fuel costs. Additionally, Greyhound has had lower accident claims costs due both to the reduction in miles operated and due to favorable development on prior years claims recognized during the three months ended February 28, 2005.

Restricted Subsidiaries

The \$17.2 million and \$23.6 million increase in the Restricted Subsidiaries revenue during the three and six months ended February 28, 2005 compared to the prior year is a result of the increases in revenue in education services, public transit and Greyhound Lines of Canada. A large portion of the increase was due to the increased strength of the Canadian dollar compared to the U.S dollar. Had there been no change in the exchange rate, revenue would have increased by \$8.7 million and \$7.2 million for the three and six months ended February 28, 2005, respectively, compared to the prior year periods.

In the three and six months ended February 28, 2005, EBITDA for the Restricted Subsidiaries improved \$24.7 million and \$34.5 million respectively, over the three and six months ended February 29, 2004 primarily due to lower accident claims costs.

Unrestricted Subsidiaries

The Unrestricted Subsidiaries revenue decreased \$15.1 million and \$22.7 million during the three and six months ended February 28, 2005, primarily due to reduced passenger revenue and miles driven as discussed in the Greyhound segment above.

In the three and six months ended February 28, 2005, EBITDA in the Unrestricted Subsidiaries increased \$10.8 million and \$9.1 million, respectively, compared to the three and six months ended February 29, 2004 due to

increased revenue per mile and reduced operating costs as discussed in the Greyhound segment above, somewhat offset by fuel cost increases.

Table of Contents

Depreciation and amortization expense

Depreciation expense for the three and six months ended February 28, 2005 increased \$4.2 million and \$5.3 million over the three and six months ended February 29, 2004. The increase is mostly attributable to the Unrestricted Subsidiaries and is principally due to a decrease in the estimated useful lives of Greyhound buses.

Amortization expense for the three and six months ended February 28, 2005 was \$2.1 million and \$4.4 million respectively, virtually unchanged from the same periods in fiscal 2004. Amortization is primarily related to customer contracts capitalized under fresh start accounting. Virtually all of the amortization expense was recorded by the Restricted Subsidiaries. Following the reduction of customer contract intangible assets as a result of the reversal of the tax valuation allowance established at fresh start, ongoing amortization costs are expected to be reduced by approximately \$2.7 million annually.

Interest expense

In the three and six months ended February 28, 2005, interest expense was \$19.8 million and \$39.1 million respectively, compared to \$19.4 million and \$38.0 million for the three and six months ended February 29, 2004. The increase is attributable to a slightly higher average debt balance at Greyhound.

Other income (expense), net

Other income (expense), net was \$3.6 million and \$5.0 million, respectively, for the three and six months ended February 28, 2005. The income was primarily driven by income on investments and proceeds received by the Company from the finalization of Greyhound's 1990 bankruptcy proceedings, offset somewhat by certain other non-operating expenses.

Other income (expenses), net was (\$4.5) million and (\$3.7) million in the three and six months ended February 29, 2004, respectively, and primarily related to legal fees to defend former directors and officers of the Predecessor Company from shareholder and creditor lawsuits that originated prior to the Company's emergence from bankruptcy.

Discontinued operations

Income from discontinued operations includes the operating results of our healthcare transportation services and emergency management services segments through the date of their sale on February 10, 2005. Income from the operations of our discontinued segments was \$5.1 million and \$10.7 million for the three and six months ended February 28, 2005 respectively compared to \$3.4 million and \$5.0 million for the three and six months ended February 29, 2004. Additionally, during the three month period ended February 28, 2005, income from discontinued operations includes \$210.4 million related to the gain on sale of these businesses.

Income tax expense

Income tax expense for continuing operations for the three and six months ended February 28, 2005 was \$14.0 million and \$30.4 million, respectively, compared to a net benefit of \$8.2 million and a net expense of \$5.2 million in the three and six months ended February 29, 2004. During the three and six month periods ended February 29, 2004, the Company recorded a one-time benefit of \$6.6 million due to a change in a Canadian tax rate. The effective tax rate was 40% for the three and six months of fiscal 2005 compared to 36% and 39% in the three and six months of fiscal 2004 excluding the effect of the one-time rate change.

Table of Contents

Of the \$14.0 million and \$30.4 million provided in the three and six months ended February 28, 2005, \$0.8 million and \$1.6 million, respectively, represents cash taxes payable and the balance reflects the utilization of deferred tax assets.

Liquidity and capital resources

Net cash proceeds received by the Company from the sale of the healthcare businesses during the three months ended February 28, 2005, totalled \$789.1 million of which \$574.1 million was used to retire all outstanding borrowings under the Company's Term B senior secured term facility. Additionally, following the pay down of the Term B facility, the Company was able to reduce \$40 million of the cash collateral under its cash collateralized letter of credit facility. Management expects to recover the remaining \$60 million of cash collateral under this facility before the end of the fiscal year. During the three months ended February 28, 2005, the Company also purchased, and retired, all of the shares held in the Pension Plan Trust (as discussed in Note 5 - Pension Plans) for \$84.5 million.

For the six months ended February 28, 2005, cash provided by operating activities was \$54.2 million compared to \$47.9 million for the six months ended February 29, 2004. Net expenditures for the purchase of capital assets was \$52.6 million for the six months ended February 28, 2005 compared to \$89.4 million for the six months ended February 29, 2004 as the current years capital spend is more weighted to the second half of the fiscal year.

The Company has available a senior secured revolving credit facility (the Revolver) due June 2008 to finance operating needs. Under the Revolver, as of February 28, 2005, there were no cash borrowings and \$15.8 million was outstanding for the issuance of letters of credit, leaving availability of \$184.2 million. Greyhound Lines utilizes its own revolving line of credit (the Greyhound Facility). As of February 28, 2005, Greyhound Lines had no cash borrowings under the Greyhound Facility, had issued letters of credit of \$61.1 million and had credit availability of \$50.0 million. See Note 7 - Material contingencies for further discussion of the Greyhound Facility.

Under the terms of the Company's various debt agreements the Company is required to meet certain financial covenants, including a fixed charge coverage ratio, leverage ratio, interest coverage ratio, net tangible asset ratio and maximum senior secured leverage ratio as well as certain non-financial covenants. Except as discussed in Note 7 - Material contingencies regarding the Greyhound Facility, as of February 28, 2005, the Company was in compliance with all such covenants.

The Company requires significant cash flows to finance capital expenditures and to meet its debt service and other continuing obligations. We believe that existing cash and cash flow from operations, together with borrowings under our Revolver as necessary, will be sufficient to fund our anticipated capital expenditures and working capital requirements for the foreseeable future, including payment obligations under our debt agreements and other commitments.

Commitments and Contingencies

Reference is made to Note 21 - Commitments and contingencies of Notes to the Consolidated Financial Statements in the Company's Form 10-K for the year ended August 31, 2004 for a description of the Company's material commitments. Reference is made to Note 7 - Material contingencies of Notes to Consolidated Financial Statements in this Report for a description of the Company's material contingencies.

Table of Contents

Forward-looking statements

Certain statements contained in this report on Form 10-Q, including statements regarding the status of future operating results and market opportunities and other statements that are not historical facts, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by the use of terminology such as: believe, hope, may, anticipate, should, intend, plan, will, expect, estimate, continue, project, positioned, strategy and similar expressions. Such statements involve certain risks, uncertainties and assumptions that include, but are not limited to:

- Economic and other market factors, including competitive pressures and changes in pricing policies;
- The ability to implement initiatives designed to increase operating efficiencies or improve results;
- Greyhound Lines' ability to remain in compliance with the financial covenants under the Greyhound Facility;
- Control of costs related to accident and other risk management claims;
- Costs and risks associated with litigation;
- Changes in interpretations of existing, or the adoption of new legislation, regulations or other laws;
- Changes in homeland security or terrorist activity;
- Significant restrictive covenants in the Company's and its subsidiaries' various credit facilities;
- Potential changes in the mix of businesses we operate; and
- Increases in prices of fuel and shortages.

Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual outcomes may vary materially from those indicated. In the light of these risks and uncertainties you are cautioned not to place undue reliance on these forward-looking statements. The Company undertakes no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures the Company makes on related subjects as may be detailed in the Company's other filings made from time to time with the Securities and Exchange Commission.

LAIDLAW INTERNATIONAL, INC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in market risk from the disclosures provided in Item 7A. Quantitative and Qualitative Disclosures About Market Risk as set forth in the Company's Form 10-K for the year ended August 31, 2004.

Item 4. Controls and Procedures

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. As of the end of the period covered by this quarterly report, an evaluation was carried out under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective.

During the most recent fiscal quarter, there have not been any changes in the Company's internal controls over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Contingent Liabilities Relating to Sale of AMR

On February 10, 2005 the Company completed the sale of American Medical Response, Inc. (AMR) to an affiliate of Onex Corporation in accordance with the Stock Purchase Agreement, dated December 6, 2004, as amended (the Stock Purchase Agreement). Pursuant to the terms of the Stock Purchase Agreement, the Company may be subject to indemnification obligations related to certain investigations and matters previously disclosed relating to AMR, including potentially those set forth below.

On May 9, 2002, AMR received a subpoena duces tecum from the Office of Inspector General for the United States Department of Health and Human Services (HHS). The subpoena requested copies of documents for the period from January 1993 through May 2002. The subpoena required AMR to produce a broad range of documents including those relating to Regional Emergency Services contracts in Georgia and Colorado. The government investigations in Georgia and Colorado are continuing.

During the first quarter of fiscal 2004, AMR was advised by the U.S. Department of Justice (DOJ), that it was investigating certain business practices at AMR. The specific practices at issue were (1) whether ambulance transports involving Medicare eligible patients complied with the medically necessary requirement imposed by Medicare regulations, (2) whether patient signatures, when required, were properly obtained from Medicare eligible patients; and (3) whether discounts in violation of the Federal Anti-Kickback Act were provided by AMR in exchange for referrals involving Medicare eligible patients. At this juncture, it is not possible to predict the ultimate conclusion of the investigations described in this and the preceding paragraph, nor is it possible to calculate any possible financial exposure, if any, to the Company, pursuant to the terms of the Stock Purchase Agreement.

Greyhound Default Judgment

On September 20, 2004, the Company's wholly owned subsidiary Greyhound Lines, Inc. (Greyhound Lines) responded to proceedings brought in Georgia state court in August 2004 seeking to enforce a default garnishment judgment on funds in a Greyhound Lines bank account. This action stemmed from an October 1995 default judgment in the amount of approximately \$7 million (1995 Judgment) against Gary Jones, a former consultant to Greyhound Lines. More than four years later, in October 2000, the plaintiff who obtained the 1995 Judgment (Plaintiff) began garnishment proceedings against Greyhound Lines in Georgia state court seeking to recover amounts owed to Gary Jones, who then allegedly owed the Plaintiff the amount of approximately \$11 million based on the 1995 Judgment plus post-judgment interest. On May 2, 2001, a default judgment for \$11 million was entered by the Georgia state court against Greyhound Lines. On March 10, 2005, Greyhound Lines settled this matter for an immaterial amount and the Company has reflected the cost of the settlement as a component of other income (expense) in its Consolidated Statements of Operations for the quarter ended February 28, 2005.

Other

The Company is also a defendant in various lawsuits arising in the ordinary course of business, primarily cases involving personal injury, property damage or employment related claims. Some of

Table of Contents

these actions are covered to varying degrees by insurance policies. Based on an assessment of known claims and our historical claims payout pattern, management believes that there is no proceeding either threatened or pending against us relating to personal injury and/or property damage claims and/or employment related claims that would have a material adverse effect on the Company.

Environmental

The Company's operations are subject to various federal, state, local and foreign laws and regulations relating to environmental matters, including those concerning emissions to the air; waste water discharges; storage, treatment and disposal of waste and remediation of soil and ground water contamination. We have incurred, and expect to incur, costs for our operations to comply with these legal requirements, and these costs could increase in the future. In particular, the Company has been named as a potentially responsible party under the United States Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, at various third-party sites at which the Company's waste was allegedly disposed. In addition, the Company is investigating or engaged in remediation of past contamination at other sites used in its businesses. The Company records liabilities when environmental liabilities are either known or considered probable and can be reasonably estimated. On an ongoing basis, management assesses and evaluates environmental risk and, when necessary, conducts appropriate corrective measures. As of the date of this report, management believes that adequate accruals have been made related to all known environmental matters, however actual environmental liabilities could differ significantly from these estimates.

Item 2. Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities

On February 17, 2005 the Company purchased 3.8 million shares of its stock held in Trust with the Pension Benefit Guaranty Corporation on February 17, 2005 for \$84.5 million. The purchase price per share of \$22.37 was based upon the closing price of the Company's stock on the New York Stock Exchange on the purchase date. All proceeds for the stock sale were contributed directly to the Company's pension plans and the 3.8 million shares were immediately retired. The Company has no commitments to buy back Company stock at this time.

Table of Contents**Item 4. Submission of Matters to a vote of Security Holders**

The Company's annual stockholders' meeting was held on February 8, 2005. At the meeting, the following proposals were voted on:

Proposal 1: Election of two Directors for a term of three years.
