Board Committees and Meetings

The board of directors held seven meetings during the fiscal year ended January 2, 2005. The board of directors has an audit committee, a compensation committee and nominating and corporate governance committee. Each director attended or participated in 75% or more of the aggregate of (i) the total number of meetings of the board of directors and (ii) the total number of meetings held by all committees of the board on which such director served during the 2004 fiscal year.

The audit committee currently consists of three directors, Mr. Bradbury (chairman), Ms. Eastham, and Dr. Rastetter, each of whom is independent as defined under Rule 4200 of the National Association of Securities Dealers listing standards and Rule 10A-3 of the Exchange Act. The board of directors has determined that all audit committee members are financially literate under the current listing standards of the National Association of Securities Dealers. The board also determined that Ms. Eastham qualifies as an audit committee financial expert as defined by the SEC rules adopted pursuant to the Sarbanes-Oxley Act of 2002. The audit committee is responsible for approving the services performed by our independent auditors and reviewing our accounting practices and systems of internal accounting controls. The audit committee held eight meetings during 2004. The audit committee is governed by a written charter approved by the board of directors.

The compensation committee currently consists of two directors, Ms. Eastham (chairman), and Dr. Rastetter. The compensation committee is primarily responsible for reviewing and approving our general compensation policies and setting compensation levels for our executive officers. The compensation committee also has the authority to administer our 2000 employee stock purchase plan and our 2000 stock plan. The compensation committee held one meeting during 2004.

The nominating and corporate governance committee currently consists of two directors, Mr. Bradbury and Dr. Rastetter, each of whom the board has determined is an independent director under the rules of the Nasdaq Stock Market. Due to the departure of R. Scott Greer in April 2005, the committee currently has one vacancy and expects to fill it in due course. The nominating and corporate governance committee's responsibilities include recommending to the board of directors nominees for possible election to the board of directors and providing oversight with respect to corporate governance.

Director Compensation

Each non-employee director receives an annual cash retainer fee of \$10,000 per year, which is paid quarterly. Non-employee directors also receive \$2,000 for each board meeting attended and \$1,000 for each board committee meeting attended. We also reimburse our non-employee directors for their expenses incurred in connection with

attending board and committee meetings. Several directors have purchased shares of our common stock pursuant to restricted stock purchase agreements, subject to repurchase rights in our favor which lapse over time. David R. Walt, as a member of our Scientific Advisory Board, received a consulting fee of \$16,667 and other consulting fees of \$10,000 in fiscal year 2004.

Under our 2000 stock plan, as amended, directors who are not our officers or employees receive:

annual option grants of 10,000 shares vesting annually over four years, which are to be automatically granted on the date of each annual stockholder meeting with exercise prices equal to the fair market value of our common stock on the date of grant.

On the date of the annual meeting, our existing non-employee board members, Ms. Eastham, Dr. Rastetter, Dr. Walt and, if re-elected, Mr. Bradbury, will automatically receive option grants of 10,000 shares of our common stock. The exercise price per share under each such option will be equal to the fair market value per share of common stock on the grant date.

Code of Ethics

Stock Option Grants

We grant options to our executive officers under our 2000 stock plan. As of January 31, 2005, options to purchase a total of 6,526,331 shares of our common stock were outstanding under the stock plan and options to purchase 5,640,315 shares of our common stock remained available for future grant.

The following tables show for the 2004 fiscal year, information regarding options granted to, exercised by, and held at year end by, each of the named executive officers. No stock appreciation rights were granted to the named executive officers during the 2004 fiscal year.

The exercise price of each option was equal to the closing sales price of our common stock as reported on the Nasdaq Stock Market on the date of grant. The exercise price may be paid in cash or through a cashless exercise procedure involving a same-day sale of the purchased shares. The options vest ratably over a 60-month period,

Table of Contents

beginning February 2004. Each of the options has a maximum term of 10 years measured from the applicable grant date, subject to earlier termination if the optionee's service with us ceases. In the event that we are acquired by merger or asset sale, each outstanding option which is not to be assumed by the acquiring entity will become immediately fully vested and exercisable.

The potential realizable value is calculated based on the 10-year term of the option at the time of grant. Stock price appreciation of 5% and 10% is assumed under the SEC rules and does not represent our prediction of our stock price performance. The potential realizable value at 5% and 10% appreciation are calculated by assuming that the stock price on the date of grant appreciates at the indicated annual rate, compounded annually for the entire term of the option and that the option is exercised and sold on the last day of its term for the appreciated stock price. There can be no assurance provided to any named executive officer or other holder of our securities that the actual stock price appreciation over the 10-year term will be at the assumed 5% and 10% levels or at any other defined level. Unless the market price of the common stock appreciates over the option term, no value will be realized from the option grants made to the named executive officers. On December 31, 2004, the last trading day of our 2004 fiscal year, the closing sales price of our common stock, as reported on the Nasdaq National Market, was \$9.48.

Percentages shown under **Percentage of Total Options Granted in 2004** are based on an aggregate of 1,453,400 options granted to employees of Illumina under our stock option plans during 2004.

Employment Contracts, Termination of Employment and Change in Control Arrangements

We have not entered into employment agreements with any of our named executive officers.

We have entered into restricted stock purchase agreements with several of our executive officers, including each of our named executive officers, providing that upon the closing of an acquisition of Illumina for cash or publicly traded securities, the lapsing of our repurchase right accelerates as to 50% of each officer's shares of common stock then subject to our repurchase right and, with respect to the remaining 50%, on the first anniversary of the closing date of the acquisition. If the acquirer terminates the officer's employment without cause within one year of the closing date, our repurchase right lapses with respect to all shares.

The compensation committee of the board of directors, as plan administrator of our stock plans, has the authority to provide for accelerated vesting of any outstanding options or waiver of forfeiture restrictions of unvested stock held by our executive officers, for any reason, including upon a change of control.

Compensation Committee Interlocks and Insider Participation

Our executive compensation program has been administered by the compensation committee of our board of directors. As of January 2, 2005, the compensation committee consisted of Ms. Eastham, Mr. Greer and Dr. Rastetter. None of these individuals was an employee or an officer of ours.

None of our current executive officers has ever served as a member of a board of directors or compensation committee of any other entity that has or has had one or more executive officers serving as a member of our board of directors or compensation committee during the last fiscal year.

Board Compensation Committee Report on Executive Compensation

The compensation committee's responsibility is to administer and review the base salaries, annual incentive compensation and long-term incentives of our executive officers, including our Chief Executive Officer, and to establish the general compensation policies for such individuals. The compensation committee engaged an independent third-party compensation consultant to review and provide recommendations regarding compensation, bonus and stock programs. The compensation committee also has the authority to make discretionary option grants to our executive officers under our 2000 stock plan.

Compensation Philosophy. Our philosophy is to maintain an executive compensation program that allows us to attract, retain and reward executive officers who contribute to our long-term success and to link that compensation to both individual performance and the value created for our stockholders. We have adopted a challenging strategy with an aggressive set of underlying goals and our success will in large part be determined by the quality of personnel we are able to recruit. A competitive compensation program will be a crucial part of recruiting the people required to help us achieve these goals. Our compensation program consists of three elements; base salary, incentive bonuses and long-term equity incentives. In general, our goal is to provide a total compensation package that is competitive with the biotechnology and life science instrumentation companies with which we compete for talent.

Base Salary. The salaries for executive officers for 2004 were generally determined on an individual basis by the compensation committee. Determinations of appropriate base salary levels are made based on level of responsibility, prior experience and breadth of knowledge as well as competitive pay practices in our industry. Initial salary levels are set at the market average when compared to leading companies in our industry, adjusted for size. Subsequent changes to base salary are based on individual performance measured against pre-established objectives and competitive factors at the time.

Table of Contents

Incentive Bonus. The compensation committee awards bonuses to executive officers based on an incentive bonus program. The incentive bonus opportunity of each executive is expressed as a percentage of his or her base salary and reflects the relative capacity of each executive to affect the results of the Company. The intent of the bonus program is to motivate and reward executives for performance as measured against well defined performance goals. The goals are based on both individual milestones that vary with the individual's position as well as our overall financial performance. After year-end results have been confirmed, the Chief Executive Officer reviews with the compensation committee each executive's performance against the previously established goals. After taking into consideration the Company's overall revenue and earnings performance, the compensation committee decides upon bonus awards, which are then reported to the full board of directors. A similar review of the Chief Executive Officer's performance is conducted annually by the compensation committee, the results of which are then reported to the full board of directors.

Long-Term Equity Incentives. Stock options and stock ownership are a key element in our total compensation program as it links the interests of the executive with the long-term interests of the stockholders and emphasizes the creation of stockholder value. We have granted stock options to executives under the 2000 stock plan at both the time of hire and as subsequent awards. Grants are awarded based on a number of factors, including our achievement of specific milestones, the individual's level of responsibility, the amount and term of stock or options already held by the individual, the individual's contributions to the achievement of our financial and strategic objectives, and industry practices and norms. The size of option grants to executives is determined by the compensation committee. Options are granted at 100% of the fair market value on the date of grant. Option grants to executives generally vest over periods ranging from five to eight years, with opportunities in some cases for earlier vesting based upon the achievement of specified goals.

CEO Compensation. The compensation of Jay T. Flatley, our Chief Executive Officer, is established consistent with Illumina's general compensation philosophy. In setting that salary, the compensation committee considered several factors, including the achievement of company goals during 2004, such as exceeding the sales goals for genotyping service contracts and system sales and minimizing cash burn, as well as the level of leadership and management required to develop and market our products. Mr. Flatley's salary was increased from \$360,400 in 2003 to \$399,315 in 2004 in recognition of these and other competitive factors. Mr. Flatley also received a \$147,747 bonus in 2004 based on the same incentive plan as the other executive officers.

Compliance with Internal Revenue Code Section 162(m). Section 162(m) of the U.S. Internal Revenue Code of 1986, as amended (the Code), generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid during a single year to the CEO or any of the four other most highly compensated officers. Performance-based compensation arrangements may qualify for an exemption from the deduction limit if they satisfy various requirements under Section 162(m). Although Illumina considers the impact of this deduction-loss rule when developing and implementing its executive compensation programs, the Company believes that it is important to preserve flexibility in designing such programs. Accordingly, the Company has not adopted a policy that all compensation paid must qualify as deductible under Section 162(m). The amount of compensation income paid to and recognized by each of our officers during 2004 did not with respect to any single officer exceed \$1 million.

It is the opinion of the compensation committee that the executive compensation policies and plans provide the necessary total remuneration program to properly align our performance and the interests of our stockholders through the use of competitive and equitable executive compensation in a balanced and reasonable manner, for both the short and long-term.

We conclude our report with the acknowledgement that no member of the compensation committee is a current officer or employee of Illumina.

The audit committee has reviewed and discussed the consolidated financial statements with management and Ernst & Young, the Company's independent auditors. Management is responsible for the preparation, presentation and integrity of Company's financial statements; accounting and financial reporting principles; establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)); establishing and

maintaining internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)); evaluating the effectiveness of disclosure controls and procedures; evaluating the effectiveness of internal control over financial reporting; and evaluating any change in internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting. Ernst & Young LLP is responsible for performing an independent audit of the consolidated financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States of America, as well as expressing an opinion on (i) management's assessment of the effectiveness of internal control over financial reporting and (ii) the effectiveness of internal control over financial reporting.

During the course of fiscal 2004, management completed the documentation, testing and evaluation of Company's system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations. The audit committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with this oversight, the audit committee received periodic updates provided by management and Ernst & Young LLP at each regularly scheduled audit committee meeting. The audit committee also held a number of special

meetings to discuss issues as they arose. At the conclusion of the process, management provided the audit committee with, and the audit committee reviewed a report on the effectiveness of the Company's internal control over financial reporting. Based on the reviews and discussions referred to above, the audit committee recommended to the board of directors that the audited financial statements be included in our annual report on Form 10-K for the fiscal year ended January 2, 2005, for filing with the Securities and Exchange Commission.

ITEM 13. Certain Relationships and Related Transactions.

We entered into a license agreement with Tufts University in 1998 in connection with the license of patents filed by Dr. David Walt, one of our directors. Dr. Walt is the Robinson Professor of Chemistry at Tufts. Under that agreement, we pay royalties to Tufts upon the commercial sale of products based on the licensed technology. It is our understanding that Tufts University pays a portion of the royalties received from us to Dr. Walt, the amount of

which is controlled solely by Tufts University. All future transactions between us and our officers, directors, principal stockholders and affiliates will be approved by a majority of the independent and disinterested members of our board of directors, and will be on terms no less favorable to us than could be obtained from unaffiliated third parties.

Our bylaws provide that we will indemnify our directors and executive officers and may indemnify other officers, employees and other agents to the fullest extent permitted by the Delaware law. We are also empowered under our bylaws to enter into indemnification contracts with our directors and officers and to purchase insurance on behalf of any person whom we are required or permitted to indemnify. Pursuant to this provision, we have entered into indemnity agreements with each of our directors and officers.

In addition, our certificate of incorporation provides that to the fullest extent permitted by Delaware law, our directors will not be liable for monetary damages for breach of their fiduciary duty of care to Illumina and its stockholders. This provision in the certificate of incorporation does not eliminate the duty of care, and in appropriate circumstances equitable remedies such as an injunction or other forms of nonmonetary relief would remain available under Delaware law. Each director will continue to be subject to liability for breach of the director's duty of loyalty to Illumina, for acts or omissions not in good faith or involving intentional misconduct or knowing violations of law, for acts or omissions that the director believes to be contrary to the best interests of Illumina or its stockholders, for any transaction from which the director derived an improper personal benefit, for acts or omissions involving a reckless disregard for the director's duty to Illumina or its stockholders when the director was aware or should have been aware of a risk of serious injury to Illumina or its stockholders, for acts or omissions that constitute an unexcused pattern of inattention that amounts to an abdication of the director's duty to Illumina or its stockholders, for improper transactions between the director and Illumina and for improper distributions to stockholders and loans to directors and officers. This provision also does not affect a director's responsibilities under any other laws, such as the federal securities laws or state or federal environmental laws.
