UROPLASTY, INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

1. Basis of Presentation

We have prepared our condensed consolidated financial statements included in this Form 10-Q, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted, pursuant to such rules and regulations. The consolidated results of operations for any interim period are not necessarily indicative of results for a full year. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended March 31, 2008.

The condensed consolidated financial statements presented herein as of September 30, 2008 and for the three and six-month periods ended September 30, 2008 and 2007 reflect, in the opinion of management, all material adjustments consisting only of normal recurring adjustments necessary for a fair presentation of the consolidated financial position, results of operations and cash flows for the interim periods.

We have identified certain accounting policies that we consider particularly important for the portrayal of our results of operations and financial position and which may require the application of a higher level of judgment by our management, and as a result are subject to an inherent level of uncertainty. These are characterized as critical accounting policies and address revenue recognition, accounts receivable, inventories, foreign currency translation and transactions, impairment of long-lived assets, share-based compensation, defined benefit pension plans and income taxes, each of which is described in our Annual Report on Form 10-K for the year ended March 31, 2008. Based upon our review, we have determined that these policies remain our most critical accounting policies for the three and six-month periods ended September 30, 2008, and we have made no changes to these policies during fiscal 2009.

2. Short-term Investments

Short-term investments consist of certificates of deposit that mature within the next twelve months. Based on the short-term nature of these investments, their cost approximates their fair market value.

3. Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market (net realizable value). Inventories consist of the following:

| | September 30, 2008 | | | March 31, 2008 |
|--|-----------------------|------------------------------|----|------------------------------|
| Raw materials Work-in-process Finished goods | \$ | 186,815 29,870 310,775 | \$ | 215,378 15,438 327,841 |
| | \$ | 527,460 | \$ | 558,657 |

We purchase several medical grade materials and other components for use in our finished products from single source suppliers meeting our quality and other requirements. Although we believe our supply sources could be replaced if necessary without due disruption, the process of qualifying new suppliers could cause an interruption in our ability to manufacture our products, which could have a negative impact on sales.

4. Intangible Assets

Intangible Assets. Our intangible assets are comprised of patents and licensed technology which we amortize on a straight-line basis over their estimated useful lives or contractual terms, whichever is less.

| | | | September 30, 2008 | |
|------------------------|--------------------|-------------------|--------------------|--------------|
| | Estimated Lives | Gross Carrying | Accumulated | |
| | (Years) | Amount | Amortization | Net value |
| Licensed technology | 5 | \$ 26,290 | \$ 26,290 | \$ |

| | | \$ 5,475,520 | \$ 1,274,630 | \$4,200,890 |

In April 2007, we acquired from CystoMedix patents and certain intellectual property assets related to the Urgent PC product and terminated the April 2005 exclusive manufacturing and distribution agreement. In consideration, we issued CystoMedix 1,417,144 shares of common stock valued at approximately \$4.7 million. We have capitalized the consideration plus approximately \$77,000 of costs related to the transaction as patents and inventions. Estimated annual amortization for these assets for the years ending March 31, is as follows:

| | 422,000 |
|------|---------|
| 2010 | 840,000 |
| 2011 | 839,000 |
| 2012 | 839,000 |
| 2013 | 839,000 |
| | |

\$3,779,000

5. Deferred Rent and Leasehold Improvements

We entered into an 8-year operating lease agreement, effective May 2006, for our corporate facility in Minnesota. As part of the agreement, the landlord provided an incentive of \$280,000 for leasehold improvements. We recorded this incentive as deferred rent and are amortizing it as a reduction in lease expense over the lease term in accordance to SFAS 13, Accounting for Leases and FASB Technical Bulletin 88-1, Issues Relating to Accounting for Leases. We are amortizing the leasehold improvements over the shorter of the asset life or the lease term.

6. Comprehensive Loss

Comprehensive loss consists of net loss, translation adjustments and additional pension liability as follows:

| | Three Months Ended September 30, | | Six Mont Septem | |
|---|-------------------------------------|---------------|--------------------|----------------|
| | 2008 | 2007 | 2008 | 2007 |
| Net loss | \$(560,963) | \$(1,384,692) | \$ (967,612) | \$(2,225,327) |

| | | | | |
| Comprehensive loss | \$ (875,927) | \$(1,236,154) | \$(1,273,685) | \$ (2,057,962) |

Other accumulated comprehensive income (loss) at September 30, 2008 totalled \$(31,600) and consists of \$94,241 for accumulated translation adjustment and \$(125,841) for accumulated additional pension liability.

7. Net Loss per Common Share

The following restricted stock, options and warrants outstanding at September 30, 2008 and 2007, to purchase shares of common stock, were excluded from diluted loss per common share because of their anti-dilutive effect:
