Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On December 16, 2010, the Company entered into a \$2.75 billion four-year revolving credit facility (the 2010 Facility). The 2010 Facility expires in December 2014 and replaces a \$2.83 billion five-year revolving credit facility dated April 28, 2006. There are no outstanding loans or letters of credit under the 2010 Facility. The Company has not incurred any borrowings under this or prior similar facilities, and has no intention to do so. The 2010 Facility supports general corporate purposes, including commercial paper borrowings.

The 2010 Facility is unsecured and may be accessed under various interest rate alternatives, at the Company's option. Loans and letters of credit may be denominated in U.S. dollars or certain other currencies. The Company must pay facility fees on the aggregate amounts available under the 2010 Facility, as specified in the credit agreement. The 2010 Facility contains customary representations, warranties, covenants and events of default.

The foregoing summary of the 2010 Facility is not complete and is qualified in its entirety by reference to the actual credit agreement, which is attached as Exhibit 10.1 hereto and is incorporated herein by reference.

Item 7.01. Regulation FD Disclosure.

The following information is furnished pursuant to Regulation FD.

Emerson GAAP Underlying Orders 3 Month Summary

(Percent change. Trailing 3-month average versus prior year.)

	<u>September 10</u>	<u>October 10</u>	<u>November 10</u>
Process Management	>+20	>+20	>+20
Industrial Automation	>+20	>+20	>+20
Network Power	+10 to +15	+10 to +15	+5 to +10
Climate Technologies	0 to +5	-5 to 0	0 to +5
Tools and Storage	+5	+5 to +10	0 to +5
Total Emerson	+15 to +20	+15 to +20	+15 to +20

November 2010 Order Comments:

Order growth remained solid, led by strength from the capital goods businesses. Order comparisons will become more difficult as we move through fiscal 2011. Currency exchange rates had a negligible impact on the order growth rate.

Order rates support the full-year expectations provided in the November 2, 2010 earnings conference call, and we continue to expect:

- Underlying sales growth 7 to 10 percent
- Reported sales growth 12 to 15 percent
- Operating profit margin in the range of 17.2 to 17.5 percent
- Operating cash flow in the \$3.4 to \$3.5 billion range
- Pretax margin in the range of 14.2 to 14.7 percent
- Tax rate of approximately 30 percent

Order growth in Process Management was strong as global energy markets continued to recover. Longer lead-time project backlog is growing. Currency exchange rates negatively impacted orders by approximately one percentage point.

Order trends in the Industrial Automation segment remained strong, led by strength in the power generating alternator and electrical drives businesses.

Network Power order rates were solid, with broad strength across data center and telecommunication end markets.

Climate Technologies orders improved modestly with strength in the refrigeration business. Asian and European markets have softened.

Tools and Storage order growth moderated as consumer spending and residential investment are slow to recover from a low base.

Upcoming Investor Events:

On Tuesday, February 1, 2011, Emerson will issue the Company's first quarter 2011 results. Emerson senior management will discuss the results during an investor conference call that will be held the same day. The call will begin at 2:00 p.m. Eastern Standard Time (1:00 p.m. Central Standard Time).
