Commission File No. 333-121211

Rule 424(b)(3)

PROSPECTUS

4,349,000

SHARES

VoIP, INC.

COMMON STOCK

The persons listed in this Prospectus under "Selling Shareholders" may offer and sell from time to time up to an aggregate of 4,349,000 shares of our common stock that they have acquired or will acquire from us, including those shares that may be acquired upon exercise of warrants granted by us. Information on the selling shareholders, and the times and manner in which they offer and sell shares of our common stock, is provided under "Selling Shareholders" and "Plan of Distribution" in this Prospectus.

We will not receive any proceeds from the sale of the common stock by the selling shareholders. We will bear the costs and expenses of registering the common stock offered by the selling shareholders. Selling commissions, brokerage fees, and applicable transfer taxes are payable by the selling shareholders.

Our common stock is listed on the Over-The-Counter Bulletin Board ("OTCBB") under the symbol "VOII"). On December 07, 2004, the closing bid price for our common stock on the OTCBB was \$1.56 per share.

BEFORE PURCHASING ANY OF THE SHARES COVERED BY THIS PROSPECTUS, CAREFULLY READ AND CONSIDER THE RISK FACTORS INCLUDED IN THE SECTION ENTITLED "RISK FACTORS" BEGINNING ON PAGE 5 YOU SHOULD BE PREPARED TO ACCEPT ANY AND ALL OF THE RISKS ASSOCIATED WITH PURCHASING THE SHARES, INCLUDING A LOSS OF ALL OF YOUR INVESTMENT.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this Prospectus is January 5, 2005

You should rely only on the information contained in this Prospectus. We have not authorized any other person to provide you with information different from that contained in this Prospectus. The information contained in this Prospectus is complete and accurate only as of the date of the front cover page of this Prospectus, regardless of the time of delivery of this Prospectus

Edgar Filing: VOIP INC - Form 424B3

or the sale of any common stock. The Prospectus is not an offer to sell, nor is it an offer to buy, our common stock in any jurisdiction in which the offer or sale is not permitted.

We have not taken any action to permit a public offering of our shares of common stock outside of the United States or to permit the possession or distribution of this Prospectus outside of the United States. Persons outside of the United States who came into possession of this Prospectus must inform themselves about and observe any restrictions relating to the offering of the shares of common stock and the distribution of this Prospectus outside of the United States.

2

PROSPECTUS SUMMARY

The following summary is qualified in its entirety by, and should be read in conjunction with, the more detailed information and financial statements, including the notes, appearing elsewhere in this Prospectus.

CERTAIN RISKS

Detailed information about the risks of investing in the offering are set forth in "Risk Factors" beginning on page 5. Potential investors should specifically be aware of the following:

- o We have never achieved a profitable level of operations.
- o For the past two fiscal years, our auditors have expressed a qualified opinion on our financial statements, expressing substantial doubts about our ability to continue operating as a going concern.
- o Our net losses in 2003 were \$352,968.
- o Our net losses for the period ending September 30, 2004 were \$4,610,370 versus a loss of \$53,621 for the same period in 2003.
- o As of September 30, 2004, our working capital deficit was \$348,950 and our accumulated deficit was \$5,235,017.
- o We have relied upon sales of debt and equity securities, many to persons related to management, to obtain enough funds to continue operating. Such sales amounted to \$2,170,572 through

Edgar Filing: VOIP INC - Form 424B3

November 30, 2004.

- o As of November 30, 2004, a total of 6,200,000 shares of common stock are issuable upon exercise of warrants at rates as low as \$1.00 per share, which will result in additional dilution to our common shareholders.
- o There is an inactive trading market in our common stock, and the market for our stock is illiquid and volatile.

THE COMPANY

VoIP, Inc., a Texas corporation, is a holding company of businesses centered on the development and sale of technology, services and products for Voice-over-Internet Protocol (VOIP), wireless and multimedia applications.

For a more detailed discussion of our history and our business, see "Business and Properties" beginning on page 16, and "Management Discussion and Analysis or Plan of Operation," beginning on page 24.

THE OFFERING

Up to 4,349,000 shares of our issued and outstanding common stock are being offered and sold by the selling shareholders. We will not receive any of the proceeds from the sale of those shares. Such shares include 2,549,000 shares sold in private placements to accredited investors from July 2004 until November 11, 2004 and 1,800,000 shares issuable upon exercise of stock purchase warrants granted in connection with the sale of the common stock, at exercise prices ranging from \$1.20 to \$1.75.

PLAN OF DISTRIBUTION

Sales of common stock may be made by or for the account of the selling shareholders in the over-the-counter market or on any exchange on which our common stock may be listed at the time of sale. Shares may also be sold in block transactions or private transactions or otherwise, through brokers or dealers. Brokers or dealers may be paid commissions or receive sales discounts in

3

connection with such sales. The selling shareholders must pay their own commission and absorb the discounts. Brokers or dealers used by the selling shareholders will be underwriters under the Securities act of 1933. In addition, any selling shareholders that are a broker/dealer will be underwriters under the Securities Act with respect to the common stock offered hereby. In lieu of making sales through the use of this Prospectus, the selling shareholders may also make sales of the shares covered by this Prospectus pursuant to Rule 144 or Rule 144A under the Securities Act.

SELECTED FINANCIAL INFORMATION

Balance Sheet Data:	September 30, 2004 (unaudited)	December 31, 2003
Total assets	\$ 8,567,407	\$ 259,458
Long-term liabilities, net	--	--
Total liabilities	1,896,516	151,166

Edgar Filing: VOIP INC - Form 424B3

Shareholders' equity 6,670,891 108,292

Statements of Operations Data:	Nine Months Ended September 30		Year Ended December 31,	
	2004	2003	2003	2002
Revenue	\$ 1,015,065	\$ 5,075	\$ 8,678	\$ 1,018
Operating (loss) (1)	(4,610,370)	(53,621)	(101,434)	(61,926)
Net (loss) (1)	(4,610,370)	(53,621)	(352,968)	(61,926)
Net (loss) per common share	(0.42)	(0.03)	(0.20)	(0.04)

(1) Includes \$3,520,000 non-cash compensation expenses resulting from the issuance to executive officers of warrants to purchase 4,400,000 shares of common stock for \$1.00 per share.

See "Financial Statements" beginning on Page F-1.

RISK FACTORS

You should carefully consider each of the following risk factors and all of the other information in this Prospectus. If any of the following risks and uncertainties develops into actual events, our business, financial condition or results of operations could be materially and adversely affected. If that happens, the trading price of our Shares could decline significantly. The risk factors below contain forward-looking statements regarding our company. Actual results could differ materially from those set forth in the forward-looking statements.

Cautionary Statement Regarding Forward-Looking Statements

This Prospectus contains forward-looking statements relating to events anticipated to happen in the future. These forward-looking statements are based on the beliefs of our management, as well as assumptions made by and information currently available to our management. Forward-looking statements also may be

Edgar Filing: VOIP INC - Form 424B3

included in other written and oral statements made or released by us. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. The words "believe," "anticipate," "intend," "expect," "estimate," "project" and similar expressions are intended to identify forward-looking statements. Forward-looking statements describe our expectations today of what we believe is most likely to occur or may be reasonably achievable in the future, but they do not predict or assure any future occurrence and may turn out to be wrong. Forward-looking statements are subject to both known and unknown risks and uncertainties and can be affected by inaccurate assumptions we might make. Consequently, no forward-looking statement can be guaranteed. Actual future results may vary materially. We do not undertake any obligation to publicly update any forward-looking statements to reflect new information or future events or occurrences. These statements reflect our current views with respect to future events and are subject to risks and uncertainties about us, including, among other things:

- o our ability to market our services successfully to new subscribers;
- o our ability to retain a high percentage of our customers;
- o the possibility of unforeseen capital expenditures and other upfront investments required to deploy new technologies or to effect new business initiatives;
- o our ability to access markets and finance network developments and operations;
- o our expansion, including consumer acceptance of new price plans and bundled offerings;
- o additions or departures of key personnel;
- o competition, including the introduction of new products or services by our competitors;
- o existing and future laws or regulations affecting our business and our ability to comply with these laws or regulations;
- o our reliance on the Regional Bell operating company's systems and provisioning processes;
- o technological innovations;
- o the outcome of legal and regulatory proceedings;
- o general economic and business conditions, both nationally and in the regions in which we operate; and
- o other factors described in this document, including those described in more detail below.

We caution you not to place undue reliance on these forward-looking statements, which speak only as of the date of this document.

RISK FACTORS RELATED TO OUR INDUSTRY

Our business may be adversely affected by developments in the telecommunications industry.

Through the year 2000, the telecommunications market experienced rapid growth spurred by a number of factors, including deregulation in the industry, entry of a large number of new emerging service providers, growth in data traffic and the availability of significant capital from the financial markets. Commencing in 2001 and continuing thereafter, the telecommunications industry experienced a reversal of some of these trends, marked by a sharp contraction in the availability of capital, dramatic reductions in capital expenditures by service providers and financial difficulties and, in some cases, bankruptcies experienced by service providers. These conditions caused a substantial reduction in demand for telecommunications equipment.

We expect the developments described above to continue to affect our business in the following manner:

- o our ability to accurately forecast revenues is diminished;
- o our revenues could be reduced; and
- o we may incur losses because a high percentage of our operating expenses are and will continue to be fixed in the short-term.

Our business, operating results and financial condition could be materially and adversely affected by any one or a combination of the above.

The market for VoIP products for the new public network is evolving and our business will suffer if it does not develop as we expect.

The market for our products is rapidly evolving. Our technology may not be widely accepted as a platform for voice and a viable market for our products may not develop or be sustainable. If this market does not develop, or develops more slowly than we expect, we may not be able to sell our products in significant volumes, or at all.

If we do not respond rapidly to technological changes or to changes in industry standards, our products could become obsolete.

The market for VoIP products is likely to be characterized by rapid technological change and frequent new product introductions. We may be unable to respond quickly or effectively to these developments. We may experience difficulties with software development, hardware design, manufacturing or marketing that could delay or prevent our development, introduction or marketing of new products and enhancements. The introduction of new products by our competitors, the market acceptance of products based on new or alternative technologies or the emergence of new industry standards could render our existing or future products obsolete. If the standards adopted are different from those that we have chosen to support, market acceptance of our products may be significantly reduced or delayed. If our products become technologically obsolete, we may be unable to sell our products in the marketplace and generate revenues.

RISKS RELATED TO OUR COMPANY

Our revenues have been generated from a limited number of customers, and we will not be successful if we do not grow our customer base.

To date, we have sold our products to a limited number of customers. To be successful, we will need to greatly expand our customer base and users of our products.

The growth of our customer base could be adversely affected by:

- o customer unwillingness to implement our new VoIP products;
- o any delays or difficulties that we may incur in completing the development and introduction of our planned products or product enhancements;
- o new product introductions by our competitors;
- o any failure of our products to perform as expected; or
- o any difficulty we may incur in meeting customers' delivery requirements.

If we do not expand our customer base to include additional customers

Edgar Filing: VOIP INC - Form 424B3

that deploy our products in all of their applications, our revenues will not grow significantly, or at all.

6

We will not retain customers or attract new customers if we do not anticipate and meet specific customer requirements or if our products do not interoperate with our customers' existing networks.

To achieve market acceptance for our products, we must effectively anticipate, and adapt in a timely manner to, customer requirements and offer products that meet changing customer demands. Prospective customers may require product features and capabilities that our current products do not have. The introduction of new or enhanced products also requires that we carefully manage the transition from older products in order to minimize disruption in customer ordering patterns and ensure that adequate supplies of new products can be delivered to meet anticipated customer demand. If we fail to develop products and offer services that satisfy customer requirements, or to effectively manage the transition from older products, our ability to create or increase demand for our products would be seriously harmed and we may lose current and prospective customers.

Many of our customers will require that our products be designed to interface with their existing networks, each of which may have different specifications. Issues caused by an unanticipated lack of interoperability may result in significant warranty, support and repair costs, divert the attention of our engineering personnel from our hardware and software development efforts and cause significant customer relations problems. If our products do not interoperate with those of our customers' networks, installations could be delayed or orders for our products could be cancelled, which would seriously harm our gross margins and result in loss of revenues or customers.

We may not become profitable.

We have incurred significant losses since our inception and, as of September 30, 2004, had an accumulated deficit of \$5,235,017. We have not achieved profitability on an annual or quarterly basis and may incur additional net losses in future quarters and years. Our revenues may not grow and we may not generate sufficient revenues to sustain profitability.

The unpredictability of our quarterly results may adversely affect the trading price of our common stock.

Our revenues and operating results will vary significantly from quarter to quarter due to a number of factors, many of which are outside of our control and any of which may cause our stock price to fluctuate. The primary factors that may affect our revenues and results include the following:

- o fluctuation in demand for our VoIP products and the timing and size of customer orders;
- o cancellations or deferrals of existing customer orders or the renegotiations of existing contractual commitments;
- o the length and variability of the sales cycle for our products;
- o new product introductions and enhancements by our competitors and us;
- o timing of revenues recognition and amount of deferred revenues;
- o changes in our pricing policies, the pricing policies of our

Edgar Filing: VOIP INC - Form 424B3

- o competitors and the prices of the components of our products;
- o our ability to develop, introduce and ship new products and product enhancements that meet customer requirements in a timely manner;
- o the mix of product configurations sold;
- o our ability to obtain sufficient supplies of sole or limited source components;
- o our ability to attain and maintain production volumes and quality levels for our products;
- o costs related to acquisitions of complementary products, technologies or businesses; and
- o general economic conditions, as well as those specific to the telecommunications, networking and related industries.

Our operating expenses are largely fixed in the short-term and, as a result, a delay in generating or recognizing revenues for the reasons set forth above, or for any other reason, could cause significant variations in our operating results. If revenues for a particular quarter are below expectations, we may not be able to reduce operating expenses proportionally for the quarter. Any such revenue shortfall would, therefore, have a disproportionate effect on our operating results for the quarter.

7

We believe that quarter-to-quarter comparisons of our operating results are not a good indication of our future performance. It is likely that in some future quarters, our operating results may be below the expectations of public market analysts and investors. In this event, the price of our common stock will probably substantially decrease.

We have incurred substantial losses resulting from issuance of warrants at prices below the market value of the common stock.

On August 4th, 2004, the Company issued 4,400,000 warrants to two executives to acquire 2,200,000 shares at \$1.00 per share each. The additional compensation of \$3,520,000, shown in General and Administrative expenses in the Consolidated Statement of Operations, is the difference between the market price of the shares and the \$1.00 purchase price.

If we fail to retain needed personnel, the implementation of our business plan could slow or our future growth could halt.

Our business depends upon highly-skilled engineering, sales, marketing and customer support personnel. Any failure to retain needed qualified personnel could impair our growth. Our future success depends upon the continued services of our executive officers who have critical industry experience and relationships that we rely on to implement our business plan. None of our officers or key employees is bound by employment agreements for any specific term. The loss of the services of any of our officers or key employees could delay the development and introduction of, and negatively impact our ability to sell, our products.

We may face risks associated with international sales that could impair our ability to grow our revenues abroad.

We intend to market our products into international markets. This expansion will require significant management attention and financial resources to successfully develop direct and indirect international sales and support channels. In addition, we may not be able to develop international market demand

Edgar Filing: VOIP INC - Form 424B3

for our products, which could impair our ability to grow our revenues. We have limited experience marketing, distributing and supporting our products internationally and, to do so, we expect that we will need to develop versions of our products that comply with local standards. Furthermore, international operations are subject to other inherent risks, including.

- o greater difficulty collecting accounts receivable and longer collection periods;
- o difficulties and costs of staffing and managing international operations;
- o the impact of differing technical standards outside the United States
- o the impact of recession in economies outside the United States;
- o unexpected changes in regulatory requirements and currency exchange rates;
- o certification requirements;
- o reduced protection for intellectual property rights in some countries;
- o fluctuation in currency exchange rates;
- o potentially adverse tax consequences; and
- o political and economic instability

We are entirely dependent upon our VoIP products and our future revenues depend upon their commercial success.

Our future growth depends upon the commercial success of our VoIP products. We intend to develop and introduce new products and enhancements to existing products in the future. We may not successfully complete the development or introduction of these products. If our target customers do not adopt, purchase and successfully deploy our current or planned products, our revenues will not grow.

If we fail to compete successfully, our ability to increase our revenues or maintain profitability will be impaired.

Competition in the telecommunications market is intense. This market has historically been dominated by large companies that possess greater resources and operating histories. We will also face competition from other large telecommunications and networking companies, some of which have entered our market by acquiring companies that design competing products. In addition, several smaller and most private companies have announced products that target the same market opportunities similar to those we address. Because this market is rapidly evolving, additional competitors with significant financial resources may enter these markets and further intensify competition.

8

Many of our current and potential competitors have significantly greater selling and marketing, technical, manufacturing, financial and other resources. Further, some of our competitors sell significant amounts of other products to our current and prospective customers. Our competitors' broad product portfolios, coupled with already existing relationships, may cause our customers to buy our competitors' products or harm our ability to attract new customers.

To compete effectively, we must deliver products that:

- o provide extremely high reliability and voice quality;

Edgar Filing: VOIP INC - Form 424B3

- o scale easily and efficiently;
- o interoperate with existing network designs and other vendors' equipment;
- o provide effective network management;
- o are accompanied by comprehensive customer support and professional services; and
- o provide a cost-effective and space-efficient solution for service providers.

If we are unable to compete successfully against our current and future competitors, we could experience price reductions, order cancellations, loss of revenues and reduced gross margins.

We depend upon contract manufacturers and any disruption in these relationships may cause us to fail to meet the demands of our customers and damage our customer relationships.

We rely on a small number of contract manufacturers to manufacture our products according to our specifications and to fill orders on a timely basis. Our contract manufacturers provide comprehensive manufacturing services, including assembly of our products and procurement of materials. Each of our contract manufacturers also builds products for other companies and may not always have sufficient quantities of inventory available to fill our orders or may not allocate their internal resources to fill these orders on a timely basis. We do not have long-term supply contracts with our manufacturers and they are not required to manufacture products for any specified period. Qualifying a new contract manufacturer and commencing commercial-scale production is expensive and time consuming and could result in a significant interruption in the supply of our products. If a change in contract manufacturers results in delays of our fulfillment of customer orders or if a contract manufacturer fails to make timely delivery of orders, we may lose revenues and suffer damage to our customer relationships.

We and our contract manufacturers rely on a single or limited source(s) for supply of some components of our products, and if we fail to adequately predict our manufacturing requirements or if our supply of any of these components is disrupted, we will be unable to shop our products.

We and our contract manufacturers currently purchase several key components of our products from single or limited sources. We purchase these components on a purchase order basis. If we overestimate our component requirements, we could have excess inventory, which would increase our costs. If we underestimate our requirements, we may not have adequate supply, which could interrupt manufacturing of our products and result in delays in shipments and revenues.

We currently do not have long-term supply contracts with our component suppliers and they are not required to supply us with products for any specified periods, in any specified quantities or at any set price, except as may be specified in a particular purchase order. In the event of a disruption or delay in supply, or inability to obtain products, we may not be able to develop an alternate source in a timely manner or at favorable prices, or at all. A failure to find acceptable alternative sources could hurt our ability to deliver high-quality products to our customers and negatively affect our operating margins. In addition, our reliance on our suppliers exposes us to potential supplier production difficulties or quality variations. Our customers rely upon our ability to meet committed delivery dates, and any disruption in the supply of key components would seriously impact our ability to meet these dates and could result in legal action by our customers, loss of customers or harm to our ability to attract new customers.

If we are not able to obtain necessary licenses of third-party technology at acceptable prices, or at all, our products could become obsolete.

From time to time, we may be required to license technology from third parties to develop new products or product enhancements. Third-party licenses may not be available or continue to be available to us on commercially reasonable terms. The inability to maintain or re-license any third-party licenses required in our current products, or to obtain any new third-party licenses to develop new products and product enhancements could require us to obtain substitute technology of lower quality or performance standards or at greater cost, and delay or prevent us from making these products or enhancements, any of which could seriously harm the competitiveness of our products.

Our ability to compete and our business could be jeopardized if we are unable to protect our intellectual property or become subject to intellectual property rights litigation, which could require us to incur significant costs.

We currently rely on a combination of patent, copyright, trademark and trade secret laws and restrictions on disclosure to protect our intellectual property rights. Despite our efforts to protect our proprietary rights, unauthorized parties may attempt to copy or otherwise obtain and use our products, services or technology. Monitoring unauthorized use of our products is difficult and we cannot be certain that the steps we have taken will prevent unauthorized use of our technology, particularly in foreign countries where the laws may not protect our proprietary rights as fully as in the United States. If competitors are able to use our technology, our ability to compete effectively could be harmed.

In addition, we may receive inquiries from other patent holders and may become subject to claims that we infringe their intellectual property rights. Any parties asserting that our products infringe upon their proprietary rights would force us license their patents for substantial royalty payments or to defend ourselves and possibly our customers or contract manufacturers in litigation. These claims and any resulting licensing arrangement or lawsuit, if successful, could subject us to significant royalty payments or liability for damages and invalidation of our proprietary rights. Any potential intellectual property litigation also could force us to do one or more of the following:

- o stop selling, incorporating or using our products that use the challenged intellectual property;
- o obtain from the owner of the infringed intellectual property right a license to sell or use the relevant technology, which license may not be available on reasonable terms, or at all; or
- o redesign those products that use any allegedly infringing technology.

Any lawsuits regarding intellectual property rights, regardless of their success, would be time-consuming, expensive to resolve and would divert our management's time and attention.

Any investments or acquisitions we make could disrupt our business and seriously harm our financial condition.

We have made four acquisitions, and we intend to consider investing in, or acquiring, complementary products, technologies or businesses. In the event of future investments or acquisitions, we could:

Edgar Filing: VOIP INC - Form 424B3

- o issue stock that would dilute our current shareholders' percentage ownership;
- o incur debt or assume liabilities;
- o incur significant impairment charges related to the write-off of goodwill and purchased intangible assets;
- o incur significant amortization expenses related to purchased intangible assets; or
- o incur large and immediate write-offs for in-process research and development and stock-based compensation.

Our integration of any acquired products, technologies or businesses will also involve numerous risks, including:

- o problems and unanticipated costs associated with combining the purchased products, technologies or businesses;

10

- o diversion of management's attention from our core business;
- o adverse effects on existing business relationships with suppliers and customers;
- o risks associated with entering markets in which we have limited or no prior experience; and
- o potential loss of key employees, particularly those of the acquired organizations.

We may be unable to successfully integrate any products, technologies, businesses or personnel that we might acquire in the future without significant costs or disruption to our business.

If we are subject to employment claims, we could incur substantial costs in defending ourselves.

We may become subject to employment claims in connection with employee terminations. In addition, companies in our industry whose employees accept positions with competitors frequently claim that their competitors have engaged in unfair hiring practices. These claims may result in material litigation. We could incur substantial costs defending ourselves or our employees against those claims, regardless of their merits. In addition, defending ourselves from those types of claims could divert our management's attention from our operations. If we are found liable in connection with any employment claim, we may incur significant costs that could adversely impact our financial condition and results of operations.

The Company is substantially controlled by its management.

As of November 30, 2004, the executive officers, key employees and directors of the Company and their family members and associates beneficially owned approximately 68% of the shares of outstanding common stock. Accordingly, and because there is no cumulative voting for directors, our executive officers and directors will be in a position to influence the election of all the directors of the Company and to control through their stock ownership the business of the Company.

RISKS RELATED TO OUR STOCK

We may seek to raise additional capital in the future, which may not be available to us, and if it is available, may dilute the ownership of our common stock.

Edgar Filing: VOIP INC - Form 424B3

In the future, we may seek to raise additional funds through public or private debt or equity financings in order to:

- o fund ongoing operations and capital requirements;
- o take advantage of opportunities, including more rapid expansion or acquisition of complementary products, technologies or businesses;
- o develop new products; or
- o respond to competitive pressures.

Any additional capital raised through the sale of convertible debt or equity may further dilute an investor's percentage ownership of our common stock. Furthermore, additional financings may not be available on terms favorable to us, or at all. A failure to obtain additional funding could prevent us from making expenditures that may be required to grow or maintain our operations.

Our stock price has been and may continue to be volatile.

The market for technology stocks in general and our common stock in particular, has been and will likely continue to be extremely volatile. The following factors could cause the market price of our common stock to fluctuate significantly:

- o the addition or loss of any major customer;
- o changes in the financial condition or anticipated capital expenditure purchases of any existing or potential major customer;
- o quarterly variations in our operating results;
- o changes in financial estimates by securities analysts;
- o speculation in the press or investment community;

11

- o announcements by us or our competitors of significant contracts, new products or acquisitions, distribution partnerships, joint ventures or capital commitments;
- o sales of common stock or other securities by us or by our shareholders in the future;
- o securities and other litigation;
- o announcement of a stock split, reverse stock split, stock dividend or similar event;
- o economic conditions for the telecommunications, networking and related industries; and
- o worldwide economic instability.

We do not expect to pay dividends.

We do not anticipate paying any cash dividends on our common stock in the foreseeable future. We intend to retain profits, if any, to fund growth and expansion.

USE OF PROCEEDS

WE WILL NOT RECEIVE ANY PROCEEDS FROM THE SALE OF THE COMMON STOCK OFFERED BY THIS PROSPECTUS. THE SELLING SHAREHOLDERS WILL RECEIVE ALL OF THE PROCEEDS.

Edgar Filing: VOIP INC - Form 424B3

We, however, will receive funds upon any exercise of the warrants held by the selling shareholders. If any of such warrants are exercised, we will receive the exercise price for the warrants. Any funds received upon exercise of the warrants will be applied to our working capital needs. There can be no assurance that any of the warrants will be exercised.

SELLING SHAREHOLDERS

We have agreed to register 4,349,000 shares of our common stock, beneficially owned by the selling shareholders. These shares were acquired or will be acquired by the selling shareholders pursuant to private placement offerings of our securities (the "Placements") completed in November 2004 and the warrants issued under the Placements. Included in the total number of shares we are registering for resale up to 1,800,000 shares of common stock and may be issued upon the exercise of warrants issued to certain of the selling shareholders. The shares of common stock beneficially owned by each of the selling shareholders are being registered to permit public secondary trading of these shares, and the selling shareholders may offer these shares for resale from time to time. See "Plan of Distribution."

The following table sets forth the names of the selling shareholders, the number of shares of common stock owned beneficially by each Selling Shareholder as of November 17, 2004 and the number of shares that may be offered pursuant to this Prospectus. Except as may be identified in the footnotes to the table, none of the selling shareholders has, or within the past three years has had, any position, office or material relationship with us or any of our predecessors or affiliates. The table has been prepared based upon information furnished to us by or on behalf of the selling shareholders.

The selling shareholders may decide to sell all, some, or none of the shares of common stock listed below. We cannot provide you with any estimate of the number of shares of common stock that any of the selling shareholders will hold in the future.

For purposes of this table, beneficial ownership is determined in accordance with the rules of the SEC, and includes voting power and investment power with respect to such shares. All percentages are approximate.

As explained below under "Plan of Distribution", we have agreed to bear certain expenses (other than broker discounts and commissions, if any) in connection with the registration statement, which includes this Prospectus.

12

Selling Shareholder -----	Shares Beneficially Owned Prior to Offering		Number of Shares Subject to Warrants -----	Number of Shares Offered Hereby -----	Shares Benef Owned After th Number -----
	Number -----	Percent -----

- (1) Alpha Capital AG is a Liechtenstein corporation. The shares beneficially owned consist of 625,000 shares of common stock, 187,500 warrants exercisable at \$1.75 per share and 312,500 warrants exercisable at \$1.20 per share. Alpha Capital AG has informed the Company that Konrad Ackerman has dispositive and voting power for all of its shares in the Company.
- (2) Cordillera Fund Ltd. is a Texas limited partnership. The shares beneficially owned consist of 625,000 shares of common stock, 187,500 warrants exercisable at \$1.75 per share and 312,500 warrants exercisable at \$1.20 per share. Cordillera Fund Ltd. has informed the Company that James Andrew or Stephen Carter have dispositive and voting power for all of its shares in the Company.
- (3) Consists of 352,500 shares of common stock, 93,750 warrants exercisable at \$1.75 per share, and 156,250 warrants exercisable at \$1.20 per share.
- (4) Whalehaven Capital Fund is a Bermuda company. The shares beneficially owned consist of 375,000 shares of common stock, 112,500 warrants exercisable at \$1.75 per share and 187,500 warrants exercisable at \$1.20 per share. Whalehaven Capital Fund has informed the Company that Michael Finkelstein has dispositive and voting power for all of its shares in the Company.
- (5) Stonestreet Limited Partnership is a Canada Limited Partnership. The shares beneficially owned consist of 312,500 shares of common stock, 93,750 warrants exercisable at \$1.75 per share and 156,250 warrants exercisable at 1.20 per share. Stonestreet Limited Partnership has advised the Company that Michael Finklestein has dispositive and voting power for all of its shares in the Company.

PLAN OF DISTRIBUTION

The shares may be sold from time to time by the selling shareholders or by pledges, donees, transferees or other successors in interest. Such sales may be made in the over-the-counter market or on any stock exchange on which the common stock of the Company may be listed at the time of sale or otherwise at prices and terms then prevailing or at prices related to the then current market price, or in negotiated transactions. The shares may be sold by one or more of the following:

- o ordinary brokerage transactions and transaction in which the broker-dealer solicits purchasers;
- o block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- o purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o an exchange distribution in accordance with the rules of the applicable exchange;
- o privately-negotiated transactions;
- o broker-dealers may agree with the selling shareholders to sell

Edgar Filing: VOIP INC - Form 424B3

a specified number of such shares at a stipulated price per share;

14

- o a combination of any such methods of sale; and
- o any other method permitted pursuant to applicable law.

The selling shareholders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the selling shareholders may arrange for other broker-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling shareholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The selling shareholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved.

We have agreed to pay for all costs and expenses incident to the issuance, offer, sale and delivery of the shares of common stock offered by the selling shareholders, including all expenses and fees of preparing, filing and printing the registration statement and prospectus and related exhibits, amendments and supplements thereto and mailing of such items. We will not pay sales or brokerage commissions or discounts with respect to sales of the shares offered by the selling shareholders.

Any broker-dealers or agents that are involved in selling the shares are "underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. No selling shareholder is a registered broker dealer.

We are required to pay all fees and expenses incident to the registration of the shares, including fees and disbursements of counsel to the selling shareholders, but excluding brokerage commissions or underwriter discounts. We have agreed to indemnify the selling shareholders against certain losses, claims, damages and liabilities under the Securities Act.

DIVIDEND POLICY AND MARKET DATA

Dividends

We have no current plans to pay any future cash dividends on the common stock. Instead, we intend to retain all earnings, other than those required to be paid to the holders of the preferred stock, to support our operations and future growth. The payment of any future dividends on the common stock will be determined by the Board of Directors based upon our earnings, financial condition and cash requirements, possible restrictions in future financing agreements, if any, business conditions and such other factors deemed relevant.

Market Information

The common stock is traded on the Over-the-Counter Bulletin Board under the symbol VOII. The quotations below reflect inter-dealer prices, without retail markup, markdown or commissions and may not represent actual transactions. The following table shows the bid price range of our common stock for the time periods indicated:

FROM	TO	HIGH	LOW
------	----	------	-----

Holders

As of September 30, 2004, there were approximately 220 shareholders of record and an unknown number of beneficial holders holding through brokers.

BUSINESS AND PROPERTIES

General

VoIP, Inc. a Texas corporation formerly known as Millennia Tea Masters, Inc. is a development stage holding company for businesses in two segments. The first segment is the Company's historical business of importing and selling a line of fine teas, which business we are ceasing. The second segment is the development and sale of technology, services and products for voice over Internet (VoIP), wireless and multimedia applications.

To date our sales have been minimal and we are characterized as a development stage company. Millennia Tea Masters, Inc. began business in 1998 selling its line of teas imported from Sri Lanka. Absence of capital and personal forced the company to concentrate its order efforts via direct mail and the Internet. Management of the Company was receptive to an opportunity to expand its business into one or more activities providing greater opportunities for growth.

On March 1, 2004, Millennia announced that it had accepted an unsolicited offer to issue a controlling block of common stock to an investor wishing to contribute his business assets, intellectual property and sales opportunities to a publicly traded company. On February 27, 2004, the Company issued 12,500,000 shares representing 87.8% of shares outstanding in exchange for \$12,500 with the agreement to contribute two companies to engage in a specialty telecommunications business as described below.

The Company then moved its headquarters from Dallas, Texas to Fort Lauderdale, Florida and underwent a change in the Board of Directors and management.

Products and Services

The Company will market its Voice over IP broadband telephony service to business and residential consumers through its eGlobalphone, Inc. subsidiary. eGlobalphone service requires that customers have a high-speed Internet connection to their home or business. A growing number of households and business both in the United States and abroad have access to these broadband connections through their local cable or Telephone Company. Broadband penetration in the United States is about 58 percent and is expected to reach 70 percent by 2007.

The company plans to expand its service footprint in about 25 new

Edgar Filing: VOIP INC - Form 424B3

markets monthly concentrating primary on the major United States metropolitan areas. The company's plans is to launch service in over 200 markets by year's end as part of VoIP, Inc.'s strategic focus on IP-based communications services. International markets will be opened in parallel with domestic US markets, but at a slower pace and only as market demand is evidenced. Due to the nature of IP telephony, these markets are not significantly more complex to weave into the existing back-office design, though often there are regulatory issues in each nation which must be managed appropriately. The Company's goal is to sign up 2.3 million business and consumer customers by 2007, including domestic and international subscribers.

eGlobalphone plans to support the marketing of eGlobalphone Service with an extensive communications campaign that will include mass market advertising on television, radio and in print and through direct mail, viral marketing and online advertising in addition to an extensive network of resellers through out the world. We have emphasized on sales in the international marketplace through resellers and wholesalers, believing that the need for a less expensive service is vital in many countries globally. We will seek marketing partners in each country that is identified as a potential market, in order to provide a local presence. Manuals, interfaces, voice prompts, and operators will be tailored for the primary language of the nationality, and the sales force will operate locally to provide "high-touch" comfort to these localized markets. A major opportunity for resale is being developed with a private retail wireless vendor, to allow for a very "high-touch" interaction with customers. This model has proven to be successful in wireless sales, and it is believed that the same marketing strategy and distribution channel will be successful for other telephony services that the company can offer consumers.

16

Customers can access the eGlobalphone network for long-distance telephony from any high speed Internet connection anywhere in the world. The eGlobalphone service provides a two line patent pending MTA (Multimedia Terminal Adaptor) with built-in router and many enhanced functions such as Quality of Service (QoS) bandwidth management, failure-resistant backup systems, and low-bandwidth codec support. The MTA is manufactured by iCable System Co. Ltd. a Korean company that is contractually tied to VoIP-Solutions, Inc a wholly owned subsidiary of VoIP, Inc. By having our own propriety MTA with custom designed enhanced features we feel that we have a distinct advantage over our competition based on these enhancements and our patent pending 911 emergency access. eGlobalphone is believed to be the only VoIP (voice over internet protocol) company offering 911 emergency access and integration with the existing infrastructure without the use of a third party database. This proprietary system utilizes an automated switching circuit to route the call to the user's local emergency service provider (911 call center) and will also "fail safe" in the event of a power outage or internet service interruption.

eGlobalphone Service is different than traditional phone services because through the use of IP-based networks it will offer customers typical features such as call waiting, three-way calling, and call forwarding, and far more advanced ones as well. Indeed, consumers will get unprecedented convenience and control with advanced (and often free) features including: voicemail, caller ID, call transfer, caller ID blocking, call forwarding, and voicemail-to-email service. Low-priced directory information (411) services, conference call capabilities, "follow-me" calling, and other features are offered as additional line items or per-call products which contribute to the revenue stream for this product.

Edgar Filing: VOIP INC - Form 424B3

There are significant new features that the company will introduce in the next year which are currently under development. These features will further extend the abilities of the platform to function as a flexible telephony tool for end users and not merely be a replacement for traditional telephony. Much in the same way that cell phone features have driven the successful launch of new companies in the mobile market, eGlobalphone believes that a combination of features in the hardware and service will quickly develop the customer base.

The Company's VoIP Solutions, Inc. subsidiary is an emerging global service provider of Voice over IP based solutions to Internet Service Providers, Telecommunications Service Providers and Cable Operators in strategic countries around the world. VoIP, Inc, through its subsidiary, provides a comprehensive portfolio of IP multimedia-based solutions ranging from subscriber based voice services, to SIP based infrastructure design and deployment, to broadband customer premise equipment design and implementation services, as well as engineering design, manufacturing and distribution of wireless broadband technology. VoIP, Inc. has applied for a patent for its state of the art VoIP Multimedia Terminal Adaptor which today supports the FCC Commission's desire for VoIP providers to deliver Emergency 911 Calling and Law Enforcement Access capabilities to the marketplace.

VoIP, Inc. plans to support marketing of the VoIP-Solutions subsidiary with an extensive communications campaign that will include mass market advertising directly to industry leaders, and through direct mail, viral marketing and online advertising in addition to an extensive network of value added resellers through out the world. The biggest problem facing small carriers and cable operators is that they lack the money to build a telephone network. Prior to this year, getting into voice was considered capital-intensive and out of reach for small and medium-level operators, thus one of the primary reasons that VoIP-Solutions has been created. We have entered into the market to offer the 'back office' infrastructure to make voice possible for small and medium-sized cable companies, IPS's and MSO's.

More and more cable companies want to get into phone service as a way to remain competitive, especially as satellite companies and even local telephone carriers are snatching away customers by offering video and high-speed Internet capability. It's a free-for-all land grab in the home telephone market and one of the reasons that we have put so much emphasizes on our VSP (Virtual Service Provider) model. This product is a perfect fit for the small and medium-sized cable companies, IPS's and MSO's allowing them to maintain customer ownership and increase revenues while eliminating the cost of network infrastructure and the learning curve that is sometimes, an expensive lesson.

17

On July 14, 2004 the company announced its first Virtual Service Provider partner; and continues to establish its products in a niche market with small- and medium-sized cable companies, IPS's and MSO's. The company plans to add over 100 Virtual Service Provider partners by the December 31, 2004, year end.

We have emphasized on sales in the international marketplace through resellers and wholesalers, believing that the need for a less expensive service is vital in many countries across the globe. We will seek marketing partners in each country that is identified as a potential market, in order to provide a local presence. Manuals, interfaces, voice prompts, and operators will be tailored for the primary language of the nationality, and the sales force will operate locally to provide "high-touch" comfort to these localized markets.

Edgar Filing: VOIP INC - Form 424B3

Our experience in the IP networking and VoIP technology arenas allow us to offer rapid project assessment and subsequent deployment of a voice services infrastructure to a customer with an existing IP network such as an ISP (Internet Service Provider), CLEC (Competitive Local Exchange Company), PTT (Public Telephone and Telegraph) and PCO, (Private Cable Operator.) Our solutions involve delivery of portions of a SIP-based infrastructure (cost-effective media gateways, transcoding solutions, SIP proxies) or a full turn-key system with components that are custom designed to work with each other: (Billing system, invoice system, least-cost-routing, rate import/exports, etc.) Our combined technology, expertise, resources within the telephony community, and ability to provide right-priced solutions comprise a strong value combination for our customers as they bring their existing base of Internet users into a VoIP product line.

Our strategy is to be a recognized worldwide leader in providing IP telephony, customer premise equipment in addition to premium voice over the Internet subscriber based telephony services and innovated wireless fidelity ("WiFi") technology solutions for residential and enterprise customers.

With the new benefits of wireless networks, VoIP Solutions can leverage the use of the VoIP-Solutions MTA product and knowledge.

Services provided in a potential VoIP Solutions package to customer could include:

- o Billing systems/Platform
- o Customer Premise Equipment (CPE)
- o Service and application design
- o Network design
- o Switching platforms
- o Back Office/OSS systems
- o Web site design and back office integration
- o Telephone number management applications
- o Auto CPE provisioning systems
- o Wholesale call termination
- o Installation and training
- o Support agreements
- o Consultancy

The company maintains a stock of all VoIP-Solution's products for sale to end-users, carriers and resellers. Included is the Flag Ship product "MTA" (Multimedia Terminal Adaptor) the MTA's are manufactured with varying options to meet the demands of today's network operators for tomorrows future IP networks, products include:

VoIP ADSL Modem (SIP)

- o MTA-A201C - 1 line VoIP, 1 line PSTN
- o MTA-A201W - 2 lines VoIP / LAN (802.11b) or (g)
- o MTA-A201CW - 1 line VoIP, 1 line PSTN / LAN (802.11b) or (g)

VoIP Cable Modem (SIP)

- o MTA-C102 - 2 Line VoIP

Edgar Filing: VOIP INC - Form 424B3

- o MTA-C101C - 1 Line VoIP, 1 Line PSTN
- o MTA-C102W - 2 lines VoIP / LAN (802.11b) or (g)
- o MTA-C102CW - 1 line VoIP, 1 line PSTN / LAN (802.11b) or (g)

VoIP MTA (SIP)

- o MTA-102 - 2 lines VoIP
- o MTA-102C - 1 line VoIP, 1 line PSTN
- o MTA-102W - 2 lines VoIP / LAN (802.11b) or (g)
- o MTA-102CW - 1 line VoIP, 1 line PSTN / LAN (802.11b) or (g)

The Company has developed intellectual property and software for the soft switch platform and associated applications developed for the eGlobalphone service. This includes the source code for the switching servers and related application servers. An agreement with Porta One provides access to software source code and database schemas that permit custom application, layer development and integration. Along with the billing and back office application, VoIP Solutions can supply all of the components, services and customization to fully equip a VoIP Telco.

DTNet Technologies Inc. is a primary importer and distributor of cable network components, cable modems, ADSL modems, wireless products and other Customer Premise Equipment for the cable and Telco industries. Established in 1999, their 1,000 plus clients include AT&T, Comcast, Cox Cable, Bell South, Time Warner as well as regional and local Multiple Service Operators (MSO's). DTNet has experienced strong growth sales for the past three years have increased from approximately \$2 million in 2001 to \$2.9 million in 2002 and \$4.7 million in 2003. With the addition of the products from VoIP, Inc., specifically the Multi Media Terminal Adaptor and the Virtual Service Provider solution, 2004 sales are projected to reach \$7.5 million. DTNet has established itself as a respected supplier to the cable industry. This includes a strong relationship with the National Cable Television Cooperative (NCTC) representing over 1000 cable operator members.

VoIP Inc. acquired 100% of DTNet on June 25, 2004 through a stock purchase. In addition to the existing business and revenues, the acquisition provided VoIP Inc. with direct access to a valuable market and a nationwide sales force to sell products and services from other VoIP Inc. companies. There is also a demand within the group for the existing products distributed by DTNet. Additionally, the existing customer base of DTNet consists of firms which are the primary target for other VoIP, Inc. products. This customer base and the existing relationships that DTNet has developed is one of the primary benefits of the acquisition strategy.

VoIP, Inc.'s DTNet subsidiary seeks to pursue cable companies for voice deals: The availability of VoIP hardware and services from other VoIP Inc. subsidiaries has positioned DTNet to be a leader in marketing VoIP, Inc. products and services into this channel. The NCTC is in the process of evaluating DTNet as the preferred VoIP vendor and contracts are in progress with over 20 members for the supply of outsourced services, Customer Premise Equipment (CPE), and wholesale long-distance, local, and international call termination/origination. The desire of cable companies to diversify their service offerings to increase their revenue and profitability will be the motivation for interest in the combined offerings of DTNet and VoIP, Inc.'s newly combined abilities and product lines.

The Company previously announced a joint venture arrangement known as

Edgar Filing: VOIP INC - Form 424B3

iMax Solutions with iCable Co., Ltd. to market iCable products in the Western Hemisphere. Such venture required a \$5 million capital contribution from the Company in exchange for sales contracts and leads from iCable that would be divided 51% to VoIP and 49% to iCable. The Company determined that its resources would be better utilized by renegotiated the relationship with iCable to a world wide distribution arrangement.

19

On August 12, 2004 VoIP Inc. renegotiated the relationship with iCable to a distribution arrangement for North America and South America. As part of the new Agreement in principle, iCable is no longer obliged to warrant the sales revenue of iMax. This increases VoIP Inc.'s holding to 100% of iMax Solutions Inc. with no further requirement for VoIP Inc. to pay iCable \$5 million for the distribution rights.

The Company has made an agreement in principle with iCable to terminate the Investors Agreement and instead enter into a Distribution Agreement for North and South America. Such arrangement will result in (i) elimination of the VoIP capital contribution, (ii) iMax being owned 100% by VoIP, and (iii) the elimination of the guarantee of sales from iCable.

VoIP Inc. is actively selling iCable products to a growing number of OEM customers, resellers, wholesale Virtual Service Providers and uses of the eGlobalphone VoIP service. The new agreement will not materially change the forecasted sales of iMax. The joint development of products and features specifically catering for the U.S. market continues.

Employees; Corporate Headquarters

VoIP, Inc. currently employs 35 persons in the following capacities: 5 executive officers, 8 general administrative, 11 sales and marketing, and 11 technology personnel, respectively. We consider our relations with our employees to be good. We have never had a work stoppage, and none of our employees is represented by collective bargaining agreements. We believe that our future success will depend in part on our ability to attract, integrate, retain and motivate highly qualified personnel, and upon the continued service of our senior management and key technical personnel. None of our key personnel are bound by employment agreements that prohibit them from ending their employment at any time. Competition for qualified personnel in our industry and geographical location is intense. We cannot assure you that we will be successful in attracting, integrating, retaining and motivating a sufficient number of qualified employees to conduct our business in the future.

Our corporate headquarters are located at: 12330 SW 53rd Street, Ft. Lauderdale, FL 33330.

Legal Proceedings

VOIP Corp. v. VoIP, Inc., Case No. 04-CA-8140-35, in the Circuit Court of the Ninth Judicial Circuit, Orange County, Florida. Plaintiff accuses VOIP of deceptive trade practices and unfair competition in using a name deceptively similar to Plaintiff's and seeks unspecified damages and injunctive relief. VoIP intends to defend the case and believes it has meritorious defenses based upon (i) VoIP, Inc. is qualified to do business in Florida under the name VoIP Holdings; (ii) VoIP also conducts business in Florida under the name of VoIP Solutions; (iii) VoIP is a generic and unprotectible term -- every federal trademark using "VOIP" requires that the applicant disaffirm any protection of "VOIP"; (iv) there are 24 other Florida companies using the name "VOIP" as part

Edgar Filing: VOIP INC - Form 424B3

of its name; and (v) the original Florida corporation know as "VOIP, Inc.", which predates the Plaintiff's name filing, is now owed by VoIP.

Manufacturing and Sources of Supply

Our products are manufactured by iCable System Co. Ltd. a South Korean Company. iCableSystem provides offshore inventory and delivery services worldwide, and large scale orders are shipped directly from Korea to providers at any destination. iCableSystem has in-house PC board pressing, case design and manufacturing, and board processing facilities, making them less susceptible to supply chain dropouts that may cause other manufacturers difficulty.

The primary chipset used in the CPE units is the Broadcom chipset, for which there is an available supply path and rapid delivery periods. It is not anticipated that there will be any significant shortfalls in the ability to produce equipment or deliver equipment, given past experience and current operating procedures, even under heavy volume sales.

20

Equipment for VoIP Solutions, Inc. which involve a "solution" delivery for a customer are primarily software driven, and do not involve significant hardware resources that are manufactured in-house (except for CPE, as mentioned.)

Inventories

All the inventories are kept in our local facility in Ft. Lauderdale, Florida. Our local inventory and supply methods provide adequate capacity for most order volumes, but special orders or multi-thousand unit deliveries are typically drop-shipped from Korea. All softswitch and "back office" solution materials are also kept on-site for customer deployment, except in cases where local purchase of equipment is less difficult or less costly than in-country sourcing.

The "cascading provisioning" server method that is used in the network allows for the "out-of-box" configuration and deployment of CPE hardware without ever being configured on the customer's network. This means that deployment time can be reduced drastically for field-shipping equipment, and no intermediate warehouse or customer care steps are required. Devices are delivered from overseas and can be directly put into production by any of our customers without manual configuration. This is significantly different than most other hardware and softswitch providers, in that our solution removes the requirement for customer configuration of equipment (which is confusing and slow) or two-step shipping (which is costly and slow.)

Customers

Our initial significant customers include the following: Anew Broadband, Inc., Cima Telecom, Inc., SpeedVoip, Inc., Voip4U, Inc., eVoice International, Inc., Acumen Telecommunications, Inc., Virtual Communications, Inc., Parrot Communications, Inc., and FMC Telecom, Inc.

We also have the following companies testing or in the final field beta tests of our hardware and various products: IBM, Scientific Atlanta, Sprint, Alcatel, Qwest and DSLI.

Marketing and Business Strategy

Edgar Filing: VOIP INC - Form 424B3

eGlobalphone plans to support the marketing of eGlobalphone Service with an extensive communications campaign that will include mass market advertising on television, radio and in print and through direct mail, virtual marketing and online advertising in addition to an extensive network of resellers through out the world. We have emphasized sales in the international marketplace through resellers and wholesalers, believing that the need for a less expensive service is vital in many countries globally. We will seek marketing partners in each country that is identified as a potential market in order to provide a local presence. Manuals, interfaces, voice prompts, and operators will be tailored for the primary language of the nationality, and the sales force will operate locally to provide "high-touch" comfort to these localized markets. A major opportunity for resale is being developed with a private retail wireless vendor, to allow for a very "high-touch" interaction with customers. This model has proven to be successful in wireless sales, and it is believed that the same marketing strategy and distribution channel will be successful for other telephony services that the company can offer consumers.

Most competitors are focused on the United States market. While providing innovative and focused solutions for reseller channels in the United States, we will be focused on the international market. The highest margin revenue stream is from the off net termination of international calls from customers outside the United States. The extensive industry experience and potential customer and partner contacts of the Company executives will assist the rapid establishment of competitive services and aggressive international sales channels.

Each country has domestic and regional markets. Through the use of multiple web sites, regional rate plans and multi-language support, and multi-currency billing, we will work with in-country partners to provide local Points of Presence (POP's) that will permit local telephone and 800 numbers to be available for local marketing and for the sale to overseas customers. Interconnection with local carriers and PTT's will in turn reduce the off net termination costs to that country and open access to the multi-billion dollar international wholesale minutes market.

21

Competition

At the present time, we believe that no direct competitor offers the full suite of components that VoIP, Inc. will be able to provide to customers once all pending acquisitions are completed. Each individual solution is offered by a wide variety of competitors, most of which are larger and better capitalized than we.

These primary competitors of each company include the following:

eGlobalphone: Vonage, Packet8, DeltaThree, Voicepulse

VoIP Solutions/iMax: (Hardware): Sipura, Grandstream, Cisco, Mediatrix

VoIP Solutions: (SIP softswitch): Nuera, Broadsoft, Pingtel, Nortel

VoIP Solutions: (integration): Accenture, Hughes Software

Wireless: (Hardware) Cisco, 3 Com, Motorola, Terabeam

Industry Overview

Edgar Filing: VOIP INC - Form 424B3

According to Internet World - Stats, the current world market for telecommunications is estimated at 513 billion dollars and the worth of global information industry as at least 1.3 trillion dollars.

The advance of broadband delivery into residential and small offices has opened up a large market for high-speed services to be delivered in a manner that is independent of the actual wires being connected to each property. Nearly three out of four households with basic phone service have Internet access, and of that 75% of all households in the US, almost half have broadband access. (Source: Nielsen/NetRatings) The penetration of broadband is rising at around 2.5% per month. These growth figures are even higher in other nations, which have only recently been implementing systems after understanding and modeling their platforms on what has become the standard in the United States.

An additional factor in the cost savings of VoIP is the relatively inexpensive nature of IP data at the "core" of the Internet. In the late 90's, a large amount of capital was invested in fiber connectivity in between major metropolitan areas. Due to market forces, this fiber became available at incredibly inexpensive rates, and a "bandwidth glut" or "fiber glut" occurred at the core of the Internet, driving costs down.

The costs paid by consumers for traditional telephony are still in the hundreds of billions of dollars. It is possible for VoIP services to undermine large sections of that revenue and provide significant cost savings by using packet-switched networks to deliver the same call quality to the same destinations, but at a heavily discounted rate to the service provider. The "fiber glut" at the core of the network is fueling this growth by keeping bandwidth prices low for IP services even over long distances, while traditional telephony providers are unable to compete against the new model that strips the usefulness from their antiquated telephony equipment, which is still capitalized at billions of dollars over its (now) very low value.

Intellectual Property

The Company has developed several important intellectual property features.

VoIP. The patent pending E911 bypass system developed and integrated into the CPE is a key differentiator in equipment for VoIP deployment. The equipment connects to the existing E911 emergency call services platform and permits 911 calls, even in situations where there is a network failure or power failure, and requires no configuration by the end user.

The "cascading provisioning server" feature for deployment of zero-touch hardware deployment is additionally a novel approach with respect to the end-user device market, and is a new development that is exclusive to VoIP,

Inc.'s platform. The system allows each device to auto-provision without any customer interaction even in situations where there are multiple levels of VAR or resellers to distribute the product to their customers (to any number of resale levels.) This allows for installations without any customer service or technical support time spent in configuration issues.

The company has developed significant software resources in all areas of it's business. Many of the core features of the Company's services and deliverables are constructed on software that has been custom-designed and completely owned by the Company. Hardware inventory control, accounting, least

Edgar Filing: VOIP INC - Form 424B3

cost routing, customer records, telephony element management, network monitoring and administration, billing reconciliation, and internal sales resource tools are some of the integrated features of the Company's software development effort.

Regulation

The company currently is operating in unregulated industry segments. The hardware, integration, softswitch, and wireless portions of the firm are expected to remain unthreatened by regulation in major nations in which the Company expects to do business. The eGlobalphone service offering may potentially experience regulatory pressures as the United States makes changes in its telecommunications law to encompass VoIP services. The imposition of government regulation on our business could adversely affect our operations by requiring additional expense to meet compliance requirements.

- 1) Regulation is expected to be applied the following areas of our service: E911, CALEA (law enforcement wiretap) and USF taxation.
 - a. Our existing E911 service already addresses this concern, and we are working with industry groups to also address E911 delivery via the network when that technology becomes mature and affordable. The combined delivery methods should adequately protect the company against negative regulatory or economic pressure in the future.
 - b. CALEA data delivery is already almost complete in the system for the basics of call status and PIN tapping. The additional steps of call monitoring and call splitting are yet to be even defined, though it is not anticipated that their deployment would require anything other than minor expense for adequate compliance with these laws, given current technology.
 - c. USF taxation has been explicitly not required for data services. The classification of VoIP as a data service has clearly indicated that it is outside of the USF charter.
- 2) Comments by FCC staff have indicated that VoIP will be handled in a relatively "hands-off" manner until the industry is more mature and capable of competing directly with RBOC and ILEC carriers. This is anticipated to be at least another two years. Importantly, comments by the FCC have addressed VOIP traffic as "interstate", which means that State-specific legislation will most likely have little effect on costs for calls terminated through VOIP networks.
- 3) Even with additional regulations if they were to be applied, the costs of compliance would be significantly lower than those of traditional telephony, as these regulatory structures are already being considered and compensated for in design aspects of the network.
- 4) Our focus on non-US customers should limit our exposure from one nation's regulatory and tariff environment.

MANAGEMENT DISCUSSION AND ANALYSIS
OR PLAN OF OPERATION

The information presented in this section should be read in conjunction with the information contained in the financial statements, including the notes thereto, and the other financial statements appearing elsewhere in this Prospectus.

General

The following discussion should be read in conjunction with the Consolidated Financial Statements and the notes thereto and the other financial information appearing elsewhere in this Prospectus. Certain statements contained in this Prospectus and other written material and oral statements made from time to time by us do not relate strictly to historical or current facts. As such, they are considered "forward-looking statements" that provide current expectations or forecasts of future events. Such statements are typically characterized by terminology such as "believe," "anticipate," "should," "intend," "plan," "will," "expect," "estimate," "project," "strategy" and similar expressions. Our forward-looking statements generally relate to the prospects for future sales of our products, the success of our marketing activities, and the success of our strategic corporate relationships. These statements are based upon assumptions and assessments made by our management in light of its experience and its perception of historical trends, current conditions, expected future developments and other factors our management believes to be appropriate. These forward-looking statements are subject to a number of risks and uncertainties, including the following: our ability to achieve profitable operations and to maintain sufficient cash to operate its business and meet its liquidity requirements; our ability to obtain financing, if required, on terms acceptable to it, if at all; the success of our research and development activities; competitive developments affecting our current products; our ability to successfully attract strategic partners and to market both new and existing products; exposure to lawsuits and regulatory proceedings; our ability to protect our intellectual property; governmental laws and regulations affecting operations; our ability to identify and complete diversification opportunities; and the impact of acquisitions, divestitures, restructurings, product withdrawals and other unusual items. A further list and description of these risks, uncertainties and other matters can be found elsewhere in this Prospectus. Except as required by applicable law, we undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

See "Financial Statements" beginning on Page F-1.

24

Results of Operations - 2003 compared to 2002.

The Company commenced operations during the fourth quarter of 1998 and focused significant resources through December 2003 in procuring and importing its tea inventory and developing sales and distribution channels. Accordingly, the Company has generated only minimal revenues and experienced cumulative losses of approximately \$624,647 which amount includes the recording of an inventory reserve of \$251,534.

During this start-up phase, the Company was dependent upon cash advances from affiliates to provide working capital. The Company's continued existence is dependent upon its ability to generate sufficient cash flows from operations to supports its daily operations as well as provide sufficient resources to retire any incurred liabilities and/or obligations on a timely basis.

Through direct mail advertising, we increased our customer base during the year, but still at a very low level. Budget constrains limited our campaign expenditures, thus growth will continue to be limited. We continued to explore other avenues which may bring us increased revenue and customer base, but the results are as yet unknown.

Even though tea has unlimited shelf life if kept under proper conditions, any deterioration of our products, which represents essentially all of the Company's assets, could become worthless.

For the respective quarters ended September 30, 2004 and 2003, the Company had revenues of \$929,767 and \$4,291.

For the respective nine month periods ended September 30, 2004 and 2003, the Company had revenues of \$1,015,065 and \$5,075.

The significant increase in revenues was provided primarily by Voipamericas and DTNet. As mentioned in the financial statements, the company acquired DTNet Technologies, Inc. in June 2004 and Voipamericas in September 2004. DTNet provides customer premises equipment to cable and DSL Internet providers throughout North America. DTNet sales were approximately \$4.7 million in 2003. Voipamericas revenues for the first nine months of the year were \$1.4 million. Management believes that the acquisitions of DTNet and Voipamericas will provide proven distribution channels and leadership in sales throughout the Americas. DTNet and Voipamericas complement the company's strategy to deliver Voice over Internet Protocol over a wireless local loop and deliver service provider solutions to cable operators.

Edgar Filing: VOIP INC - Form 424B3

Net losses for the respective quarters ended September 30, 2004 and 2003 were \$4,179,389 and \$21,955. Net loss per share was approximately \$0.21 and \$0.01 respectively for each period. Total net losses for the respective nine months ended September 30, 2004 and 2003 were \$4,610,370 and \$53,621. Net loss per share was approximately (\$0.42) and \$(0.03) respectively for each nine month period. This included the one time event of the issuance of 4,400,000 warrants to two executives to acquire 2,200,000 Company shares at \$1.00 for each. The difference between the market value and the \$1.00 share price is \$3,520,000. Additionally, there is an increase of \$884,937 in operating costs attributable basically to start up operations.

Liquidity and Capital Resources

The Company financed its operations during calendar year 2003 through cash advances (loans) from its affiliates. The loans that have been received from affiliates are unsecured. We have not executed any promissory notes or other instruments, but merely receive the funds based upon a verbal agreement that we are to repay any and all such loans from any excess cash that we may have on hand upon sale of products in the future.

Liquidity for the period from inception through September 30, 2004 has been mainly provided by sales of common stocks through private placements and borrowing from affiliates. Management has taken actions directly related to the generation of product sales during calendar 2004 and anticipates that these efforts will be sufficient to provide sufficient resources to sustain its operations during 2005.

25

The Company anticipates that all working capital requirements for the current annual period will be satisfied from the operation of the newly acquired business and the sales of additional common shares through private placements.

In November, 2004, the Company formalized funding in the amount of \$1,550,000 by issuing 2,249,500 shares of common stock to five subscribers.

Payments Due by Period

The following table illustrates our outstanding debts and the terms of that debt as of March 31, 2004:

Contractual Obligations	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Accounts Payable	\$ 1,169,840	\$ 1,169,840	0	0	0
Bank Line Of Credit	350,000	350,000	0	0	0
Other Liabilities	299,157	299,157	0	0	0
Notes Payable	77,519	77,519	0	0	0
Total	1,896,516	1,896,516	0	0	0

Market Risk

We market investment securities issued by various securities issuers. The issuers of these products retain all interest rate and default risk.

Edgar Filing: VOIP INC - Form 424B3

Recent Developments

We have recently made a number of announcements regarding key business development milestones that should start to materially contribute to our revenues and profitability improvement during the last quarter of 2004.

On December 9, 2004, VoIP Inc. announced that it has hired Bill Burbank as Chief Operating Officer. Burbank joins VoIP, Inc., at a time when the company is experiencing tremendous growth. Burbank has vast experience working in senior Business Development and Operations positions with both private and public companies. He was co-founder of Incite Global Services, a consulting firm specializing in Business Development, Operations and Crisis Management for software companies in the communication space. Prior to IGS, he was co-founder and was President of Foresight Technology. At Foresight, he played an instrumental role in fostering Foresight's leadership in computer telephone integration (CTI) and customer premise-based speech recognition products. Prior to Foresight, Burbank served as Vice President of Worldwide Sales and Marketing for Registry Magic Inc., where he led the sales of the company's speech recognition call routing system, which became the leading product in the industry. As Vice President of Sales for The Automatic Answer Inc., a voice and unified messaging software company, he drove sales to achieve the growth that earned the company the distinction of being named one of Inc. Magazine's 500 fastest growing private companies for three consecutive years.

On December 8, 2004, VoIP Inc. announced that it has signed a Virtual Service Provider (VSP) Agreement with Parrot Communications Ltd., a Hong Kong company. Service will be first launched in the New Zealand market where Parrot has a subsidiary and will be expanded into other markets. Under the Agreement, VoIP Inc. will supply their proprietary Internet Telephony services so that Parrot can establish services throughout the Asia Pacific region. In addition, VOIP Inc. will be supplying Multimedia Terminal Adaptors (MTA's) from its wholly owned subsidiary, VoIP Solutions Inc. ECommerce, web site applications and customer billing will be outsourced to VoIP Inc. The service will be launched this month primarily to small and medium size businesses initially in New Zealand and Australia with plans to expand operations into Japan and China early next year.

26

On October 19, 2004, VoIP Inc. announced at the Fall VON 2004 conference that it has signed a Virtual Service Provider contract with J & N Cable Systems a Private Cable Operator (PCO) located in the western US serving 10 cities in 2 states. J & N Cable Systems will offer voice over IP (VoIP) telephone service to its customer base, allowing those customers to bypass traditional phone companies, signaling the start of a technological shift that could change the cable industry--one of the biggest and most important industries in the US economy.

On October 8, 2004, VoIP Inc. announced the company has been awarded a VoIP Service Provider Award by Technology Marketing Corporation (TMC(R))'s INTERNET TELEPHONY(R) magazine at the INTERNET TELEPHONY Conference and EXPO Fall 2004 in Los Angeles. The three day event is the largest VoIP trade show in the world. The INTERNET TELEPHONY VoIP Service Provider Award is presented to companies whose VoIP visions have delivered on the promise of excellence for their clients in a genuine and measurable way.

On October 7, 2004, VoIP Inc. announced the company has been awarded a VoIP Service Provider Award by Technology Marketing Corporation (TMC(R))'s INTERNET TELEPHONY(R) magazine at the INTERNET TELEPHONY Conference and EXPO

Edgar Filing: VOIP INC - Form 424B3

Fall 2004 in Los Angeles. The three day event is the largest VoIP trade show in the world. The INTERNET TELEPHONY VoIP Service Provider Award is presented to companies whose VoIP visions have delivered on the promise of excellence for their clients in a genuine and measurable way.

On September 29, 2004, VoIP Inc. announced that VoIP-Americas has been named to the 2004 "pulver100" - which is the VoIP industry's premiere listing of growth companies that represent the future of the communications ecosystem. VoIP-Americas has been named to the list due to its most prestigious listing of growth companies that represent the future of the communications ecosystem.

On September 24, 2004, VoIP Inc. announced a 1 million minute increase in its wholesale traffic division VoIP-Americas. VoIP-Americas is a wholly-owned subsidiary of VoIP, Inc. and comprise the wholesale VoIP traffic division.

On September 15, 2004, VoIP Inc. announced that it's wholly owned subsidiary, VoIP Solutions, Inc., has received a purchase contract for its MTA-V102 Multimedia Terminal Adapters valued at more than \$1 million (USD) from FMC Telecom of Davie, Florida.

On August 16, 2004, VoIP Inc. announced the expansion of its residential and business Voice over Internet Protocol (VoIP) phone service, eGlobalphone. The expansion includes Texas, Ohio, Washington, Pennsylvania, North Carolina, Michigan, Minnesota and Missouri. The availability of the eGlobalphone Service to residents and businesses in 8 additional states marks the commitment by VoIP, Inc. the parent company of eGlobalphone to meet the needs of customers globally; offering a high-tech alternative for their communications needs.

On July 14, 2004, VoIP Inc. announced that it has signed a Virtual Service Provider (VSP) Agreement with VOIP-4U, a United Kingdom-based Telco. Under the Agreement, VoIP Inc. will supply their proprietary media gateways for local Interconnection with British Telecommunications service providers in addition to supplying MTA's (Multimedia Terminal Adaptors) from its wholly owned subsidiary, VoIP-Solutions Inc.

MANAGEMENT

Directors, Executive Officers, Promoters and Control Persons

The following table contains information concerning the Company's executive officers and directors.

Name	Age	Position with Company	Start Date with Company
----	---	-----	-----
Steven Ivester	40	Chairman, Chief Executive Officer, Secretary and Sole Director	March 2004
Clive Raines	45	President of International Operations	March 2004
John Todd	33	Chief Technology Officer	March 2004
Oswaldo Pitters	45	Chief Financial Officer	May 2004
Bill Burbank	46	Chief Operating Officer	December 2004

Steven Ivester, Chairman, Chief Executive Officer, Secretary and Sole Director, joined the Company in March 2004 when he made an agreement with prior

Edgar Filing: VOIP INC - Form 424B3

management to contribute the assets and intellectual property rights of two start-up companies, eGlobalphone, Inc. and VoIP Solutions, Inc. Prior to that, since early 2001, he was a self-employed consultant for other voice-over-Internet companies. From early 1997 until the present, he has also been engaged as Chief Executive Officer of Navigator, PC, which supplies computer-navigation and display equipment to the U.S. military services.

Clive Raines, President of International Operations, developed an international business model for USA Talks. He was relocated as European CEO in London, UK from 1998 to 2002. During 2003 he worked with Voiceglo as a Director.

John Todd, Chief Technology Officer, has been involved since 1999 with Internet companies, including Collocation Corporation, Inc. from September 2001 to December 2002 as network Services Manager; 10-20.com, Inc. from September 2001 to present as President; Onyx Networks.

Oswaldo Pitters, Chief Financial Officer and Treasurer, was employed from January 2003 to April 2004, as Contoller of Cima Telecom Group. From January 2002 to January 2003, he was the Chief Operating Officer of Price Waterhouse Coopers-Dominican Republic. He also worked seven years with Price Waterhouse Chile and two years with Price Waterhouse London, England. He also worked with Pepsi Co. for several years in several countries within the Latin American Division.

Bill Burbank, Chief Operating Officer, was co-founder of Incite Global Services, a consulting firm specializing in Business Development, Operations and Crisis Management for software companies in the communication space. Prior to IGS, he was co-founder and was President of Foresight Technology. At Foresight, he played an instrumental role in fostering Foresight's leadership in computer telephone integration (CTI) and customer premise-based speech recognition products. Prior to Foresight, Burbank served as Vice President of Worldwide Sales and Marketing for Registry Magic Inc., where he led the sales of the company's speech recognition call routing system, which became the leading product in the industry. As Vice President of Sales for The Automatic Answer Inc., a voice and unified messaging software company, he drove sales to achieve the growth that earned the company the distinction of being named one of Inc. Magazine's 500 fastest growing private companies for three consecutive years

Executive Compensation

Summary Compensation Table. The following table sets forth the compensation earned by the Company's Chief Executive Officer for the year ended December 31, 2003 in salary and bonus for services rendered in all capacities to the Company for the fiscal years ended December 31, 2003, 2002 and 2001:

Name/Principal Position	Year	Annual Compensation			Long-Term Compensation	
		Salary	Bonus	Other Annual Compensation	Securities Underlying Options or Warrants	All Other Compensation
Kevin B. Halter, CEO (1)	2003	\$ 0	\$ 0	\$ 0	0	0
	2002	\$ 0	\$ 0	\$ 0	0	0
	2001	\$ 0	\$ 0	\$ 0	0	0

 (1) Mr. Halter resigned in 2004.

Edgar Filing: VOIP INC - Form 424B3

Name	Number of Shares Acquired or Exercised	Realized Value	Number of Securities Underlying Unexercised Options at Fiscal Year End		Value In-the-Exercise
			Exercisable	Unexercisable	
None					

Name	Number of Shares, Under or Other Rights #	Performance or Other Period Until Maturation or Payout	Threshold (\$ or #)	Estimated Future Payment Non-Stock Price-Based
				Target (\$ or #)
None				

Stock Option Plan

The Company's Stock Option Plan (the "2004 Option Plan") provides for the grant to eligible employees and directors of options for the purchase of Common Stock. The Option Plan covers, in the aggregate, a maximum of 4,000,000 shares of Common Stock and provides for the granting of both incentive stock options (as defined in Section 422 of the Internal Revenue Code of 1986) and nonqualified stock options (options which do not meet the requirements of Section 422). Under the Option Plan, the exercise price may not be less than the fair market value of the Common Stock on the date of the grant of the option.

The Board of Directors administers and interprets the Option Plan and is authorized to grant options thereunder to all eligible employees of the Company, including officers. The Board of Directors designates the optionees, the number of shares subject to the options and the terms and conditions of each option. Each option granted under the Option Plan must be exercised, if at all, during a period established in the grant which may not exceed 10 years from the later of the date of grant or the date first exercisable. An optionee may not transfer or assign any option granted and may not exercise any options after a specified period subsequent to the termination of the optionee's employment with the Company.

Certain Relationships and Related Transactions

The Company was organized by Kevin Halter and members of his family in 1998, when they purchased 1,000,000 shares at its par value. Then in March 2004, the Company sold 12,500,000 shares of stock to Steven Ivester for par value (\$12,500), plus his agreement to contribute two operating companies. Such companies were contributed in May 2004, effective April 15, 2004.

As of December 31, 2003, the Company had amounts due to affiliated entities and/or shareholders and/or officers of approximately \$151,000. These advances were unsecured, due upon demand and are non-interest bearing. Subsequently, in April 2004, the Company issued 339,242 shares of common stock to satisfy the balance due at December 31, 2003.

Edgar Filing: VOIP INC - Form 424B3

Promoters

On February 27, 2004, the Company issued and sold 12,500,000 shares of common stock to Steven Ivester in exchange for cash of \$12,500 and his agreement to contribute the intellectual property rights and related assets of two start-up companies formed to engage in the telecommunications industry. The shares issued represented approximately 88% of the shares outstanding after the exchange, as a result of which Mr. Ivester became the controlling shareholder of the Company.

On May 25, 2004 (but effective for all purposes as of April 15, 2004), the Company completed the acquisition of two Florida-based subsidiaries, eGlobalphone, Inc. and VoIP Solutions, Inc., both Florida Corporations.

On August 4, 2004, the Company issued warrants to purchase 2,200,000 shares of common stock for an exercise price of \$1.00 per share to each of John Todd and Clive Raines.

Messrs. Ivester, Todd and Raines may be considered to be "promoters" by the Company.

29

DESCRIPTION OF SECURITIES

General

The following summary is qualified in its entirety by reference to the Company's Articles of Incorporation and its By-Laws. The Company's authorized capital stock consists of 100,000,000 shares of common stock, \$.001 par value per share.

Common Stock

As of November 18, 2004, 23,563,982 common shares of the Company's common stock are held of record by approximately 250 persons. Each share of common stock entitles the holder of record thereof to cast one vote on all matters acted upon at the Company's shareholder meetings. Directors are elected by a plurality vote. Because holders of common stock do not have the cumulative voting rights, holders or a single holder of more than 50% of the outstanding shares of common stock present and voting at an annual meeting at which a quorum is present can elect all of the Company's directors. Holders of common stock have no preemptive rights and have no right to convert their common stock into any other securities. All of the outstanding shares of common stock are fully paid and non-assessable.

Holders of common stock are entitled to receive ratably such dividends, if any as may be declared from time to time by the Board of Directors in its sole discretion from funds legally available therefore. In the event the Company is liquidated, dissolved or wound up, holders of common stock are entitled to share ratably in the assets remaining after liabilities and all accrued and unpaid cash dividends are paid.

Transfer Agent

The Company's transfer agent is Securities Transfer Corporation, Frisco, Texas.

Edgar Filing: VOIP INC - Form 424B3

PRINCIPAL SHAREHOLDERS

The following table sets forth certain information with respect to the beneficial ownership of our Common Stock as of December 07, 2004, before this offering and as adjusted to reflect the sale of 4,357,000 shares in this offering, by all officers and directors and by all those known by us to be beneficial owners of more than 5% of our Common Stock.

Unless otherwise specified, the business address of the shareholder is our address as set forth in this memorandum. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally means sole or shared power to vote or direct the voting or to dispose or direct the disposition of any Common Stock. Except as indicated by footnote, and subject to community property laws where applicable, the persons named in the table below have sole voting and investment power with respect to all shares of Common Stock shown as beneficially owned by them.

30

LEGAL MATTERS

Legal matters in connection with the common stock being offered hereby will be passed upon for the Company and selling shareholders or by Andrews Kurth LLP, Dallas, Texas.

EXPERTS

Our financial statements as of December 31, 2003 and 2002, and for the years then ended, included in this Prospectus have been audited by the firm of Tschopp, Whitcomb & Orr, P.A., independent certified public accountants, as set forth in their report therein included, and have been so included in reliance

Edgar Filing: VOIP INC - Form 424B3

upon such report being given upon their authority as experts in accounting and auditing.

AVAILABLE INFORMATION

We have filed with the Securities and Exchange Commission (the "Commission") a Registration Statement on Form SB-2, together with all amendments, schedules and exhibits thereto, pursuant to the Securities Act with respect to the securities offered by this prospectus. This prospectus does not contain all information set forth in the registration statement and the exhibits. The statements contained in this prospectus as to the contents of any contract or other document identified as exhibits in this prospectus are materially complete, but in each instance, reference is made to a copy of such contract or document filed as an exhibit to the Registration Statement. For further information with respect to the Company and the securities offered hereby, reference is made to the Registration Statement and exhibits which may be inspected without charge at the Commission's principal office at Judiciary Plaza, 450 Fifth Street, NW, Washington, D. C. 20549.

We are subject to the reporting requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and in accordance therewith will file reports, proxy statements and other information with the Commission. Such reports, proxy statements and other information can be inspected and copied at the public reference facilities of the Commission at 450 Fifth Street, NW, Washington, D. C. 20549. Copies of such material may also be obtained from the Public Reference Section of the Commission at prescribed rates. Our Registration Statement on Form SB-2, as well as any reports to be filed under the Exchange Act can also be obtained electronically after we have filed such documents with the Commission through a variety of databases, including among others, the Commission's Electronic Data Gathering, Analysis and Retrieval ("EDGAR") program, Knight-Ridder Information, Inc., Federal Filings/Dow Jones and Lexis/Nexis. Additionally, the Commission maintains a Website (<http://www.sec.gov>) that contains such information regarding the Company.

We intend to furnish our shareholders with annual reports containing audited financial statements and such other reports as we deem appropriate or as may be required by law.

Requests for information may be directed to Steven Ivester, CEO, c/o the Company at 12330 S.W. 53rd Street, Suite 712, Fort Lauderdale, Florida 33330, telephone (954) 434-2000.

TSCHOPP, WHITCOMB & ORR, P.A.
2600 Maitland Center Parkway, Suite 330
Maitland, FL 32751

Report of Independent Certified Public Accountants

Board of Directors and Stockholder
Millennia Tea Masters, Inc.

We have audited the accompanying balance sheets of Millennia Tea Masters, Inc. (a development stage company) as of December 31, 2003 and 2002 and the related statements of operations, changes in stockholders' equity, and cash flows for the years then ended and for the cumulative period from August 3, 1998 (date of inception) through December 31, 2003. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. The cumulative statements of operations, changes in stockholders' equity and cash flows for the period from August 3, 1998 (date of inception) through December 31, 2003 include amounts for the period from August 3, 1998 (date of inception) through December 31, 2001 which were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the period from August 3, 1998 (date of inception) through December 31, 2001 is based solely on the report of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a

Edgar Filing: VOIP INC - Form 424B3

reasonable basis for our opinion.

In our opinion, based on our audits and the report of other auditors, the financial statements referred to above, present fairly, in all material respects, the financial position of Millennia Tea Masters, Inc. (a development stage company) as of December 31, 2003 and 2002, and the results of its operations and its cash flows for the years then ended and for the cumulative period from August 3, 1998 (date of inception) through December 31, 2003 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in note 2 to the financial statements, the Company has experienced limited sales and incurred cumulative operating losses since its inception. The Company has been dependent upon the proceeds from the sales of common stock and advances from related parties to provide working capital. This situation raises a substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

/s/ Tschopp, Whitcomb & Orr, P.A.

F-5

MILLENNIA TEA MASTERS, INC.
(A Development Stage company)

Notes to Financial Statements

December 31, 2003 and 2002

(1) Organization and Description of Business

Millennia Tea Masters, Inc. (Company) was incorporated on August 3, 1998 under the laws of the State of Texas. The Company was formed to engage principally in the marketing and sale of imported teas.

The Company has had no substantial operations since inception. Due to the lack of sustaining operations the Company generated no significant operating revenues and has incurred cumulative operating losses of approximately \$625,000. Accordingly, the Company is still considered to be in the development stage.

The Company's principal product, imported teas from Sri Lanka, is processed by a single unrelated Sri Lankan entity. In the event of any disruption in the availability of imported teas from Sri Lanka, the Company may experience a negative economic impact. The Company believes that other processors of imported teas of comparable quality and price are available from the same region and that no interruption of product availability will occur.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial

Edgar Filing: VOIP INC - Form 424B3

statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) Going Concern Uncertainty

The Company commenced operations during the fourth quarter of 1998 and has focused significant resources in procuring and importing inventory and developing sales and distribution channels since that date. Management is investigating alternative methods to generate product demand and market acceptance.

The Company has generated only minimal revenues since inception and has incurred cumulative operating losses of approximately \$625,000 which includes an inventory reserve of \$251,534. Since inception, the Company has been dependent upon the sale of common stock and advances from affiliates to provide working capital. The Company's continued existence is dependent upon its ability to generate sufficient cash flows from operations to support its daily operations as well as provide sufficient resources to retire existing liabilities and obligations on a timely basis. This situation raises a substantial doubt about the Company's ability to continue as a going concern.

(Continued)

F-6

MILLENNIA TEA MASTERS, INC.
(A Development Stage Company)

Notes to Financial Statements

(2) Going Concern Uncertainty - (Continued)

Management is reviewing the actions to be taken in future periods to generate operational results sufficient to provide resources to sustain its operations. Further, management believes that its efforts to raise additional capital through the sale of equity securities and/or new debt financing will provide additional cash flows. However, there can be no assurance that the Company will be able to obtain additional funding or, that such funding, if available, will be obtained on terms favorable to or affordable by the Company.

(3) Summary of Significant Accounting Policies

(a) Cash and Cash Equivalents

For purposes of reporting cash flows, the Company considers all cash on hand, in banks, including accounts in book overdraft positions, certificates of deposit and other highly liquid debt instruments with a maturity of three months or less at the date of purchase to be cash and cash equivalents.

Cash overdraft positions may occur from time to time due to the timing

Edgar Filing: VOIP INC - Form 424B3

of making bank deposits and releasing checks, in accordance with the Company's cash management policies.

(b) Inventory

Inventory consists of imported tea products and is valued at the lower of cost or market using the first-in, first-out method.

(c) Revenue Recognition

The Company sells its products to the general public through direct sales on a prepaid basis. Accordingly, the Company recognizes revenue at the point of shipment to its customers. Sales allowances are recorded concurrent with the related sale of product. Sales returns are recorded at the time and point that products are received back from a dissatisfied consumer.

(Continued)

F-7

MILLENNIA TEA MASTERS, INC.
(A Development Stage Company)

Notes to Financial Statements

(3) Summary of Significant Accounting Policies - (Continued)

(d) Income Taxes

The Company uses the asset and liability method of accounting for income taxes. At December 31, 2003 and 2002, the deferred tax asset and deferred tax liability accounts, as recorded when material to the financial statements, are entirely the result of temporary differences. Temporary differences represent differences in the recognition of assets and liabilities for tax and financial reporting purposes.

At December 31, 2003 and 2002 deferred tax assets are related solely to the Company's net operating loss carry forward of approximately \$600,000 which is fully reserved. If these carry forwards are not utilized, they will begin to expire in 2018.

(e) Earnings (Loss) Per Share

Basic earnings (loss) per share are computed by dividing the net income (loss) by the weighted-average number of shares of common stock and common stock equivalents (primarily outstanding options and warrants). Common stock equivalents represent the dilutive effect of the assumed exercise of the outstanding stock options and warrants, using the

Edgar Filing: VOIP INC - Form 424B3

treasury stock method. The calculation of fully diluted earnings (loss) per share assumes the dilutive effect of the exercise of outstanding options and warrants at either the beginning of the respective period presented or the date of issuance, whichever is later. As of December 31, 2003 and 2002, the Company had no warrants and/or options outstanding.

(4) Inventory

During the final quarter of the year ended December 31, 2003, management recorded an inventory reserve of \$251,534. The reserve has been established primarily as a result of lower than expected levels of sales volume over the last two years. The relatively small sales volume result from the Company's limited marketing resources and distribution capabilities. As a result of these factors management may find it necessary, for working capital purposes, to sell its inventory at prices substantially below its carrying value. While management expects sales volume to increase in 2004 there can be no assurance that projected levels of revenue will be achieved.

F-8

MILLENNIA TEA MASTERS, INC.
(A Development Stage Company)

Notes to Financial Statements

(5) Related Party Transactions

As of December 31, 2003, the Company has a net payable to two affiliated entities of \$151,166. These advances are unsecured, due upon demand and are non-interest bearing.

(6) Commitments

Beginning December 15, 2002, the Company leased an 8,000 sq. ft. office/warehouse under a lease from a non-related third party scheduled to expire December 31, 2004. The following summarizes the Company's current obligations under a three year lease as of December 31, 2002.

Date of lease	12-15-02
Lease term begins	01-01-03
Lease term ends	12-31-04
Renewal option	None
Contingent rents	No
Initial rent	\$3,750 per month
Escalation	None

Future minimum payments, by years and in the aggregate, under non-cancelable operating lease with initial or remaining terms of one year or more consisted of the following at December 31, 2003:

Year Ending December 31,	Amount

F-13

VoIP, Inc.

Notes to Financial Statements

Note A - Organization and Description of Business

The Company was incorporated on August 3, 1998 under its original name of Millennia Tea Masters, Inc. under the laws of the State of Texas.

The Company began operations in October 1998 with its initial order of imported teas from Sri Lanka, has elected a year-end of December 31 and uses the accrual method of accounting.

On April 13, 2004 the Company changed its name to VoIP, Inc. The Company and its subsidiaries develop and manufacture innovative IP telephony customer premise equipment in addition to premium voice over the internet subscriber based telephony services and state of the art long range WiFi technology solutions, for residential and enterprise customers, including multimedia applications.

On February 27, 2004 the Company entered into a stock purchase agreement that provided for the sale of 12,500,000 shares of its common stock in exchange for \$12,500 and a commitment by the purchaser to contribute the assets of two start-up companies, eGlobalphone, Inc. and VOIP Solutions, Inc., which occurred effective April 15, 2004.

On June 25, 2004, the Company closed the acquisition of VCG Technology, Inc. d/b/a DTNet Technologies, Inc. ("DTNet") a Florida corporation. The acquisition took the form of the issuance of 2,500,000 shares of VoIP, Inc. restricted common stock in exchange for all issued and outstanding shares of DTNet common stock.

On August 4th, 2004, the Company issued 4,400,000 warrants to two executives to acquire 4,400,000 shares at \$1.00 per share.

Effective September 1st, 2004, VoIP Inc. closed the acquisition of Vox Consulting Group, Inc., d/b/a VoIP Americas, a Florida corporation. The acquisition took the form of an exchange of 1,000,000 shares of VoIP restricted common stock in exchange the all issued and outstanding shares of VoIP Americas common stock.

During interim periods, the Company follows the accounting policies set forth in its Annual Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 on Form 10-KSB filed with the United States Securities and Exchange

Edgar Filing: VOIP INC - Form 424B3

Commission. The information presented herein may not include all disclosures required by generally accepted accounting principles, and the users of financial information provided for interim periods should refer to the annual financial information and footnotes contained in its Annual Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 on Form 10-KSB when reviewing the interim financial results presented herein.

In the opinion of management, the accompanying interim financial statements, prepared in accordance with the instructions for Form 10-QSB, are unaudited and contain all material adjustments, consisting only of normal recurring adjustments necessary to present fairly the financial condition, results of operations and cash flows of the Company for the respective interim periods presented. The current period results of operations are not necessarily indicative of results which ultimately will be reported for the full fiscal year ending December 31, 2004.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

F-14

Note B - Going Concern Uncertainty

The Company commenced operations during the fourth quarter of 1998 and focused significant resources during prior periods in procuring and importing inventory and developing sales and distribution channels. Accordingly, the Company had generated only minimal revenues through first quarter 2004.

Management has taken actions directly related to the acquisition of new business concept to provide, from their operations, sufficient working capital to preserve the entity. Management anticipates that the company will attempt to obtain additional funds from private placements of debt and equity securities.

The revenues through third quarter 2004 are \$1,015,065 and show an increase of 19,901% compared to the same period of 2003.

Accordingly, with the acquisitions consummated during last quarters and the projected results for the year, management considers that the Company is no longer in the development stage.

Note C - Summary of Significant Accounting Policies

1. Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, eGlobalphone, Inc., VoIP Solutions, Inc., DTNet Technologies, Inc., and VoIP Americas from their respective dates of acquisition. All significant inter-company balances and transactions have been eliminated in consolidation.

2. Cash and cash equivalents

Edgar Filing: VOIP INC - Form 424B3

For Statement of Cash Flows purposes, the Company considers all cash on hand and in banks, including accounts in book overdraft positions, certificates of deposit and other highly-liquid investments with maturities of three months or less, when purchased, to be cash and cash equivalents.

Cash overdraft positions may occur from time to time due to the timing of making bank deposits and releasing checks, in accordance with the Company's cash management policies.

3. Inventory

Inventory consists of finished goods and is valued at the lower of cost or market using the first-in, first-out method.

4. Organization costs

The Company has adopted the provisions of AICPA Statement of Position 98-5, "Reporting on the Costs of Start-Up Activities" whereby all organization and initial costs incurred with the incorporation and initial capitalization of the Company was charged to operations as incurred.

F-15

5. Advertising expenses

Advertising and marketing expenses are charged to operations as incurred.

6. Income Taxes

The Company uses the asset and liability method of accounting for income taxes. At September 30, 2004 and December 31, 2003, the deferred tax asset and deferred tax liability accounts, as recorded when material, are entirely the result of temporary differences. Temporary differences represent differences in the recognition of assets and liabilities for tax and financial reporting purposes.

At September 30, 2004 and December 31, 2003 deferred tax assets are related solely to the Company's net operating loss carry forward of approximately \$1,400,000 and \$303,000, respectively, which is fully reserved. If these carry forwards are not utilized, they will begin to expire in 2018.

7. Earnings (loss) per share

Basic earnings (loss) per share are computed by dividing the net income (loss) by the weighted-average number of shares of common stock and common stock equivalents (primarily outstanding options and warrants). Common stock equivalents represent the dilutive effect of the assumed exercise of the outstanding stock options and warrants, using the treasury stock method. The calculation of fully diluted earnings (loss) per share assumes the dilutive

Edgar Filing: VOIP INC - Form 424B3

effect of the exercise of outstanding options and warrants at either the beginning of the respective period presented or the date of issuance, whichever is later.

Note D - Fair Value of Financial Instruments

The carrying amount of cash, accounts receivable, accounts payable and notes payable, as applicable, approximates fair value due to the short term nature of these items and/or the current interest rates payable in relation to current market conditions.

Note E - Related Party Transactions

As of December 31, 2003, the Company has amounts payable to affiliated entities and/or officers of approximately \$151,000. These advances are unsecured, due upon demand and are non-interest bearing.

Note F - Acquisitions

On May 25, 2004 (but effective for all purposes as of April 15, 2004), the Company completed the acquisition of two Florida-based subsidiaries, eGlobalphone, Inc. and VoIP Solutions, Inc. Contribution of these start-up companies was the basis for the original decision to issue a controlling block of shares of common stock to Mr. Ivester. eGlobalphone, Inc. and VoIP Solutions Inc. are both Florida corporations.

In June 2004, the Company acquired DTNet Technologies, Inc. a Florida Corporation. The acquisition took the form of an exchange of 2,500,000 shares of the company's common stock in exchange for all issued and outstanding shares of DTNet common stock. The Goodwill amounting to \$5,210,563 is the difference between the fair market value of the DTNet assets as of the date of acquisition, and the valuation of 2,500,000 Company shares at market value at that date.

F-16

In September 2004, VoIP Inc. closed the acquisition of Vox Consulting Group, Inc., d/b/a VoIP Americas, a Florida corporation. The acquisition took the form of an exchange of 1,000,000 shares of VoIP restricted common stock in exchange for all issued and outstanding shares of VoIP Americas common stock. The Goodwill amounting to \$1,408,301 is the difference between the fair market value of the VoIP Americas assets as of the date of acquisition, and the valuation of 1,000,000 company shares at market value at that date.

Note G - Warrants

On August 4th, 2004, the Company issued 4,400,000 warrants to two executives to acquire 2,200,000 shares at \$1.00 per share each. The additional compensation of \$3,520,000, shown in General and Administrative expenses in the Consolidated Statement of Operations, is the difference between the market price of the shares and the \$1.00 purchase price.

Edgar Filing: VOIP INC - Form 424B3

Note H - Subsequent Events

On November 11th, 2004, the Company closed a subscription agreement to sell 1,937,500 shares of common stock to four investors for net proceeds to the Company of approximately \$1,400,000. The Company also issued Class A 5 year warrants to purchase a total of 589,250 shares at an exercise price of \$1.75 per share, and Class B warrants to purchase a total of 968,700 shares for an exercise price of \$1.20 per share during a 30 day period following the effectiveness of a registration statement to register the resale of all shares issued.
