TELKONET DEBT HOLDERS ELECT TO CONVERT \$6.3M TO EQUITY PROVIDING ADDITIONAL  
\$3.8M FUNDING

Annapolis, Md. - Telkonet, Inc. (OTCBB: TLKO - News), the leader in delivering high-speed Internet access over electrical wiring, today announced that certain convertible and senior note holders have elected to convert \$6.3 million into equity including the exercise of \$3.8 million of warrants, resulting in a cash position of \$8.4 million, shareholder's equity in excess of \$5.1 million and outstanding shares of 29.7 million as of June 30, 2003. The proforma balance sheet as of June 30, 2003 below illustrates the effect of the conversion of debt and exercise of warrants.

Telkonet's PlugPlusInternet(TM) products deliver high-speed Internet access over standard electrical wiring, eliminating the need to rewire a building and enabling users to access the Internet from virtually any electrical outlet. Ron Pickett, President of Telkonet, stated, "The election of our debt holders to convert this debt to equity along with the purchase of their warrants demonstrates the continued commitment of our funding partners and their confidence in Telkonet".

Telkonet's products provide connectivity over existing electrical wiring and do not require the costly installation of additional wiring, or major disruption of business activity. In many situations, the Telkonet system can be implemented more quickly and less expensively than adding dedicated wiring or installing a wireless system. The Telkonet PlugPlusInternet family of Internet access products offers a viable and cost-effective alternative to the challenges of hardwiring and wireless local area networks (LANs). Telkonet PlugPlusInternet products are designed for use in commercial and residential applications, including multi-dwelling units and the hospitality and government markets.

Statements included in this release may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements involve a number of risks and uncertainties such as competitive factors, technological development, market demand and the Company's ability to obtain new contracts and accurately estimate net revenues due to variability in size, scope and duration of projects, and internal issues in the sponsoring client. Further information on potential factors that could affect the Company's financial results, can be found in the Company's Registration Statement and in its Reports on Forms 8-K filed with the Securities and Exchange Commission (SEC).
