ARC Wireless Solutions, Inc.
Notes to Condensed Consolidated Financial Statements
September 30, 2007

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. For further information, refer to the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

During the nine months ended September 30, 2007, the Company operated in two

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

business segments, which are identified as Manufacturing and Cable, offering a wide variety of wireless component and network solutions to service providers, systems integrators, value added resellers, businesses and consumers. During the nine months ended September 30, 2006, the Company operated in three business segments, Distribution, Manufacturing and Cable. The Distribution segment has been classified as a discontinued operation, see Note 2, as it was sold effective October 31, 2006.

Operating results for the nine months ended September 30, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007 or any future period.

Income Taxes

Our income taxes are computed using the asset and liability method of accounting. Under the asset and liability method, a deferred tax asset or liability is recognized for estimated future tax effects attributable to temporary differences and carry-forwards. The measurement of deferred income tax assets is adjusted by a valuation allowance, if necessary, to recognize future tax benefits only to the extent, based on available evidence; it is more likely than not such benefits will be realized. Our deferred tax assets were fully reserved at September 30, 2007 and December 31, 2006.

Effective January 1, 2007, we adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes -- An Interpretation of FASB Statement No. 109, or FIN 48. FIN 48 provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements in accordance with SFAS No. 109. Tax positions must meet a "more-likely-than-not" recognition threshold at the effective date to be recognized upon the adoption of FIN 48 and in subsequent periods. Upon the adoption of FIN 48, we had no unrecognized tax positions. During the nine months ended September 30, 2007, we recognized no adjustments for uncertain tax positions.

We recognize interest and penalties related to uncertain tax positions in income tax expense. No interest and penalties related to uncertain tax positions were accrued at September 30, 2007.

The tax years 2003 through 2006 remain open to examination by the major taxing jurisdictions in which we operate. We expect no material changes to unrecognized tax positions within the next twelve months.

Reclassifications

Certain balances in the prior year consolidated financial statements have been reclassified in order to conform to the current year presentation. The reclassifications had no effect on financial condition, gross profit, income (loss) from operations or net income.

7

ARC Wireless Solutions, Inc.
Notes to Condensed Consolidated Financial Statements
September 30, 2007

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates and such

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

differences may be material to the financial statements.

Consolidation Policy

The accompanying unaudited condensed consolidated financial statements include the accounts of ARC Wireless Solutions, Inc. ("ARC" or the "Company") and its wholly-owned subsidiary corporations, Winncom Technologies Corp. ("Winncom"), until the date of its sale, which was October 31, 2006, Starworks Wireless Inc. ("Starworks") and ARC Wireless Hong Kong Limited ("ARCHK"), since their respective acquisition dates, after elimination of all material intercompany accounts, transactions, and profits.

Share Based Compensation

On January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123(R) ("SFAS 123(R)") related to accounting for share-based payments and, accordingly, the Company is now recording compensation expense for share-based awards based upon an assessment of the grant date fair value for stock options and restricted stock awards. Prior to 2006, share based compensation was accounted for in accordance with Accounting Principles Board Opinion No. 25. We are using the modified prospective method of adoption, which allows us to apply SFAS 123(R) on a going-forward basis rather than restating prior periods.

Stock compensation expense for stock options is recognized on a straight-line basis over the vesting period of the award. The Company accounts for stock options as equity awards.

The following table summarizes share-based compensation expense recorded in selling, general and administrative expenses during each period presented:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Stock options	\$ 4,000	\$ 3,000	\$15,000	\$ 7,000
Total share-based compensation expense	\$ 4,000	\$ 3,000	\$15,000	\$ 7,000

Prior to January 1, 2006, the Company followed APB Opinion No. 25 and related interpretations in accounting for its stock options and grants because the alternative fair market value accounting provided for under Statement of Financial Accounting Standards (SFAS) No. 123 ("SFAS No. 123") required use of grant valuation models that were not developed for use in valuing employee stock options and grants. Under APB Opinion No. 25, if the exercise price of the Company's stock grants and options equals or exceeds the fair value of the underlying stock on the date of grant, no compensation expenses are recognized.

8

ARC Wireless Solutions, Inc.
Notes to Condensed Consolidated Financial Statements
September 30, 2007

Stock option activity was as follows:

	Number of Shares	Weighted Average Exercise Price (\$)
	-----	-----

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

Balance at January 1, 2007	52,000	\$ 7.50
Granted	47,500	\$ 5.40
Exercised	--	
Forfeited or expired	(42,500)	\$ 7.50
	-----	-----
Balance at September 30, 2007	57,000	\$ 5.55
	=====	=====

The following table presents information regarding options outstanding as of September 30, 2007:

Weighted average contractual remaining term - options outstanding	7.26 year
Aggregate intrinsic value - options outstanding	-
Options exercisable	23,500
Weighted average exercise price - options exercisable	\$5.55
Aggregate intrinsic value - options exercisable	-
Weighted average contractual remaining term - options exercisable	4.27 year

There was no intrinsic value for options outstanding or options exercisable because no options were exercised during the nine months ended September 30, 2007.

The following weighted average assumptions were used:

	Three and Nine Months Ended September 30, 2007	Three and Nine Months Ended September 30, 2006
	-----	-----
Volatility	.52	1.024
Expected life of options (in years)	4.25	2
Dividend yield	0.00%	0.00%
Risk free interest rate	4.64%	4.00%

As of September 30, 2007, future compensation costs related to nonvested stock options was \$105,000. Management anticipates that this cost will be recognized over a weighted average period of 4.25 years.

Note 2. Discontinued Operations

On July 28, 2006, the Company executed a Stock Purchase Agreement ("Purchase Agreement") with Bluecoral Limited ("Bluecoral"), an Irish company, for the sale of the Company's wholly-owned subsidiary, Winncom Technologies Corp. ("Winncom"), to Bluecoral for \$17 million in cash, which was to be held in escrow per the terms of the Purchase Agreement.

On October 31, 2006, the stockholders of the Company approved the sale of Winncom and the remaining conditions under the Purchase Agreement were satisfied. The Company received the \$17,000,000 from the escrow agent on November 1, 2006.

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

Note 2. Discontinued Operations, continued

This business segment, Distribution, has been accounted for as a discontinued operation, as an asset held for sale. Accordingly the net assets and liabilities have been segregated from continuing operations in the accompanying consolidated balance sheets for all periods presented, and the results of operations have been excluded from continuing operations in the accompanying consolidated financial statements of operations and cash flows for all periods presented.

There were no discontinued operations for the three and nine months ended September 30, 2007. Information related to the discontinued operations for the three and nine months ended September 30, 2006 are as follows:

	Three Months Ended September 30, 2006	Nine Months Ended September 30, 2006
Sales, net	\$ 9,637,000	\$ 25,710,000
Contract revenue	7,392,000	17,482,000
	17,029,000	43,192,000
Cost of sales	8,578,000	22,438,000
Cost of contract revenue	7,008,000	16,378,000
	15,586,000	38,816,000
Gross profit	1,443,000	4,376,000
Operating expenses:		
Selling, general and administrative expenses	1,357,000	3,413,000
Income from operations	86,000	963,000
Other income (expense):		
Interest expense, net	(32,000)	(97,000)
Other income	26,000	128,000
Total other income (expense)	(6,000)	31,000
Income before income taxes	80,000	994,000
Provision for income taxes	61,000	(176,000)
Net income	\$ 141,000	\$ 818,000

Note 2. Discontinued Operations, continued

In October 2004, Winncom entered into a "Frame" Agreement (Agreement of Understanding) with Joint Stock Company Kazakhtelecom ("Kazakhtelecom"), Kazakhstan's national telecommunications operator for the Republic of Kazakhstan. This Agreement of Understanding gave Winncom the right, subject to

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

Winncom obtaining 100% financing for the project upon terms and conditions acceptable to Kazakhtelecom, and subject to a number of other matters, to undertake, on a turnkey basis, development of a modern telecommunications infrastructure to be located on the left bank of the City of Astana, Kazakhstan. With several competing bids, Winncom was awarded the contract after several months of negotiations. The total cost of the project was approximately \$55,000,000.

The Company follows the percentage-of-completion method of accounting for long-term contract revenue. Contracts are considered complete upon completion of all essential contract work, including support for integrated testing and customer acceptance.

Under the percentage-of-completion method, income is recognized on contracts as work progresses based on the relationship between total contract revenues and total estimated contract costs. The percentage of work completed is determined by comparing the accumulated labor costs incurred to date with management's current estimate of total labor costs to be incurred at contract completion. Revenue is recognized based on applying the percentage against the total contract amount. The uninstalled portion of equipment was excluded from the calculation of accumulated costs in measuring contract progress and recognizable contract revenue.

Contract costs include all direct material and equipment, subcontractor costs, and labor costs and those indirect costs related to contract performance. Revisions in profit estimates during the period of a contract are reflected in the accounting period in which the revised estimates are made on the basis of the stage of completion at the time. If estimated total costs on a contract indicate a loss, the entire amount of the estimated loss is provided for when known.

11

ARC Wireless Solutions, Inc.
Notes to Condensed Consolidated Financial Statements
September 30, 2007

Note 3. Earnings Per Share

SFAS 128 provides for the calculation of basic and dilutive earnings (loss) per share. Basic earnings (loss) per share includes no dilution and is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share, reflects the potential dilution of securities that could share in the earnings of the entity. For periods where the Company has incurred a net loss, stock options and stock warrants were not included in the computation of diluted loss per share because their effect was anti-dilutive, therefore, basic and fully diluted loss per share are the same for those periods.

The following table represents a reconciliation of the shares used to calculate basic and diluted earnings per share for the respective periods indicated:

Three Months Ended September 30,		Nine Months Ended September 30,	
----- 2007	2006	----- 2007	2006

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

Numerator: Net income (loss) from continuing operations	\$ (173,000)	\$ (331,000)	\$ (365,000)	\$ (928,000)
Numerator: Net income from discontinued operations	--	\$ 141,000	--	\$ 818,000
Denominator:				
Denominator for basic earnings per share - weighted average shares	3,089,000	3,088,000	3,089,000	3,086,000
Effect of dilutive securities				
Employee stock options (**)	--	--	--	--
Denominator for diluted earnings per share - adjusted weighted average shares and assumed conversion	3,089,000	3,088,000	3,089,000	3,086,000
Basic earnings (loss) per share, continuing operations	\$ (.06)	\$ (.11)	\$ (.12)	\$ (.30)
Diluted earnings (loss) per share, continuing operations	\$ (.06)	\$ (.11)	\$ (.12)	\$ (.30)
Basic earnings per share, discontinued operations	--	\$.05	--	\$.25
Diluted earnings per share, discontinued operations	--	\$.05	--	\$.25

** There are no dilutive shares used in the calculation of diluted earnings per share, continuing operations for the three months and nine months ended September 30, 2007 and 2006, since the Company had net losses from continuing operations for those periods. Potential dilutive shares totaled 2,000 for the nine months ended September 30, 2007 and 2006 and 1,000 for the three months ended September 30, 2007 and 2006.

12

ARC Wireless Solutions, Inc.
Notes to Condensed Consolidated Financial Statements
September 30, 2007

Note 4. Inventory

Inventory is valued at the lower of cost or market using standard costs that approximate average cost. Inventories are reviewed periodically and items considered to be slow-moving or obsolete are reduced to estimated net realizable value through an appropriate reserve. Inventory consists of the following:

	September 30, 2007	December 31, 2006
Raw materials	\$ 1,148,000	\$ 900,000
Work in progress	116,000	128,000
Finished goods	608,000	454,000
	1,872,000	1,482,000

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

Inventory reserve	(705,000)	(694,000)
	-----	-----
Net inventory	\$ 1,167,000	\$ 788,000
	=====	=====

Note 5. Revolving Bank Loan Agreements

On May 4, 2007, the Company renewed its \$1.5 million revolving line-of-credit agreement (the "Credit Facility") with Citywide Banks. The current Credit Facility has an annual maturity, which is currently due May 10, 2008, accrues interest at 1.5% over prime (9.75% at September 30, 2007), contains covenants to maintain certain financial statement ratios, and is collateralized by essentially all of the assets of ARC and its wholly-owned subsidiary, Starworks. The borrowing base is calculated on a percentage of trade accounts receivable and inventory for ARC and Starworks combined. As of September 30, 2007 and December 31, 2006, ARC was in compliance with these covenants. The balance outstanding on the revolving line of credit at September 30, 2007 and December 31, 2006 was \$1,358,000 and \$830,000, respectively.

Note 6. Equity Transactions

On February 9, 2007, the Company announced a one-for-fifty reverse stock split of its issued and outstanding common stock to be effective as of February 12, 2007 (the "Effective Date"). Pursuant to the reverse stock split, each fifty shares of the Company's issued and outstanding common stock were reclassified and combined into one share of the Company's common stock as of the Effective Date. The number of shares of the Company's common stock authorized remained at 250 million shares, without any change in par value per common share, and the number of shares of the Company's preferred stock authorized remained at 2 million shares.

As of the Effective Date, the exercise or conversion price, as well as the number of shares issuable under each of the Company's outstanding stock option agreements, were proportionately adjusted to reflect the reverse stock split. In addition, the number of shares authorized for issuance under the Company's equity compensation plans, were proportionately reduced as of the Effective Date to reflect the reverse stock split.

13

ARC Wireless Solutions, Inc.
Notes to Condensed Consolidated Financial Statements
September 30, 2007

Note 6. Equity Transactions, continued

Stockholders' equity, common stock, and stock option activity for all periods presented have been restated to give retroactive recognition to the reverse stock split. In addition, all references in the accompanying consolidated financial statements, to the weighted average shares, per share amounts, and market prices of the Company's common stock have been restated to give retroactive recognition to the reverse stock split.

During the nine months ended September 30, 2007, the Company recorded the issuance of 2,409 shares of common stock to a director for outstanding obligations for accrued directors' fees in the amount of \$12,000.

Note 7. Recent Accounting Pronouncements

Fair Value Option - In February 2007, the FASB issued FAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (FAS 159). FAS 159

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

permits an entity to irrevocably elect fair value on a contract-by-contract basis as the initial and subsequent measurement attribute for many financial assets and liabilities and certain other items including insurance contracts. Entities electing the fair value option would be required to recognize changes in fair value in earnings and to expense upfront costs and fees associated with the item for which the fair value option is elected. FAS 159 is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FAS No. 157, Fair Value Measurements. The Company is currently evaluating the impact, if any, of adopting FAS 159 on its financial condition or results of operations.

ARC Wireless Solutions, Inc.

Note 8. Industry Segment Information

SFAS No. 131 "Disclosure about Segments of an Enterprise and Related Information" requires that the Company disclose certain information about its operating segments where operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Generally, financial information is required to be reported on the basis that is used internally for evaluating segment performance and deciding how to allocate resources to segments.

The Company has two reportable segments that are separate business units that offer different products as follows: antenna manufacturing and cable products. Each segment consists of a single operating unit and the accounting policies of the reporting segments are the same as those described in the summary of significant accounting policies. Intersegment sales and transfers are recorded at cost plus an agreed upon intercompany profit on intersegment sales and transfers. Due to the sale of Winncom effective October 31, 2006, which constituted the Company's Distribution segment, distribution is no longer classified as an operating segment but is classified as discontinued operations in the accompanying consolidated financial statements for the periods ended September 30, 2006.

14

ARC Wireless Solutions, Inc.
Notes to Condensed Consolidated Financial Statements
September 30, 2007

Note 8. Industry Segment Information, continued

Financial information regarding the Company's two continuing operating segments (which include the elimination of intersegment sales) for the three months ended September 30, 2007 and 2006 are as follows:

		Manufacturing -----	Cable -----	Corporate -----
Net sales	2007	\$ 1,976,000	\$ 10,000	-
	2006	\$ 1,753,000	\$ 84,000	-
Income (loss) from continuing operations before income taxes	2007	(42,000)	49,000	(180,000)
	2006	(90,000)	(26,000)	(264,000)
Net income (loss) from continuing operations	2007	(42,000)	49,000	(180,000)
	2006	(41,000)	(26,000)	(264,000)
Identifiable assets	2007	4,872,000	122,000	13,449,000

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

2006 3,990,000 142,000 (837,000)

Corporate represents the operations of the parent Company, excluding segment eliminations.

Financial information regarding the Company's two continuing operating segments (which include the elimination of intersegment sales) for the nine months ended September 30, 2007 and 2006 are as follows:

		Manufacturing -----	Cable -----	Corporate -----
Net sales	2007	\$ 5,561,000	\$ 95,000	-
	2006	\$ 4,886,000	\$ 324,000	-
Income (loss) from continuing operations before income taxes	2007	14,000	47,000	(426,000)
	2006	(405,000)	(25,000)	(725,000)
Net income (loss) from continuing operations	2007	14,000	47,000	(426,000)
	2006	(178,000)	(25,000)	(725,000)
Identifiable assets	2007	4,872,000	122,000	13,449,000
	2006	3,990,000	142,000	(837,000)

Corporate represents the operations of the parent Company, excluding segment eliminations.

15

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

Results of Continuing Operations for the Three Months Ended September 30, 2007 and 2006

Total revenues were \$1,986,000 and \$1,837,000 for the three month periods ended September 30, 2007 and September 30, 2006, respectively. The 8% increase in revenues during the three months ended September 30, 2007 compared to the three months ended September 30, 2006 is primarily attributable to a \$223,000 increase in revenues from our Wireless Communications Solutions Division partially offset by a decrease of \$74,000 in revenues from our subsidiary, Starworks. For the foreseeable future, management has determined to minimize efforts to sell cable through its Starworks subsidiary so that it can focus on higher margin products through its Wireless Communications Products Division. However, the Company will continue to purchase cable through its cable subsidiary for its own use while it is seeking a suitable overseas cable manufacturer for its cable distribution business.

Gross profit margins were 31% and 25% for the three months ended September 30, 2007 and September 30, 2006, respectively. The 24% increase in gross margin is primarily the result of lower operating costs resulting from our efforts in successfully transitioning some of our production to China through our Hong Kong subsidiary, ARCHK, as well as reducing overhead from our U.S. operations.

Selling, general and administrative expenses (SG&A) increased by \$199,000 for the three months ended September 30, 2007 compared to the three months ended September 30, 2006. Approximately \$42,000 was due to increased costs (salaries and rent) associated with the cost of operating our ARC Wireless Hong Kong Limited subsidiary, \$25,000 represents a reduction in allocated overhead due to the sale of Winncom in 2006, whereby those costs were not allocated in 2007. Other increases in SG&A costs comparing 2007 to 2006, except for those of ARC

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

Wireless Hong Kong Limited, include; salaries, payroll taxes and fringe benefits (\$71,000), audit fees (\$6,000), 401(k) employer contribution (\$20,000), and outside services. SG&A as a percent of total revenues was 51% and 44% for the three months ended September 30, 2007 and 2006, respectively. Salaries and wages(including commissions), payroll taxes and fringe benefits which increased \$42,000 from 2006 to 2007, primarily due to additional sales and engineering staff, remains the largest component of SG&A, constituting 56% and 62% of the total SG&A for the three months ended September 30, 2007 and September 30, 2006, respectively.

Net interest expense was \$5,000 for the three months ended September 30, 2007 compared to \$36,000 for the three months ended September 30, 2006. The decrease is due to the Company's available cash during 2007 significantly reducing the need to use our available line of credit. Most of the interest expense for 2007 related to capitalized leases.

Other income for the three months ended September 30, 2007 primarily represents interest income on funds invested from the sale of Winncom of \$163,000 and gain on debt settlements of \$55,000. No such income was earned in 2006.

There was no provision for income taxes as we currently have a net operating loss and have net operating loss carry-forwards from prior years.

The Company had a net loss from continuing operations of \$173,000 for the three months ended September 30, 2007 as compared to a net loss from continuing operations of \$331,000 for the three months ended September 30, 2006. The primary reasons for the improvement are 1) an increase in sales of \$149,000, 2) an increase in the gross margin of \$156,000, and 3) interest income of \$172,000 from the invested proceeds from the sale of Winncom and 4) gain on debt settlements of \$55,000, partially offset by an increase in SG&A of \$199,000.

16

Results of Discontinued Operations for the Three Months Ended September 30, 2006 (See Note 2, Discontinued Operations for the detailed operating results of the discontinued operations).

Results of Continuing Operations for the Nine Months Ended September 30, 2007 and 2006

Total revenues were \$5,656,000 and \$5,210,000 for the nine months ended September 30, 2007 and September 30, 2006, respectively. The 9% increase in revenues during the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006 is attributable to a \$675,000 increase in revenues from our Wireless Communications Solutions Division partially offset by a decrease of \$229,000 in revenues from our subsidiary, Starworks. For the foreseeable future, management has determined to minimize efforts to sell cable through its Starworks subsidiary so that it can focus on higher margin products through its Wireless Communications Products Division. However, the Company will continue to purchase cable through its cable subsidiary for its own use while it is seeking a suitable overseas cable manufacturer for its cable distribution business.

Gross profit margins were 32% and 25% for the nine months ended September 30, 2007 and September 30, 2006, respectively. The 28% increase in gross margin is primarily the result of lower operating costs resulting from our efforts in successfully transitioning some of our production to China through our Hong Kong subsidiary, ARCHK, as well as reducing overhead from our U.S. operations.

Selling, general and administrative expenses (SG&A) increased by \$424,000 for the nine months ended September 30, 2007 compared to the nine months ended

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

September 30, 2006. Approximately \$79,000 was due to increased costs (salaries and rent) associated with the cost of operating our ARC Wireless Hong Kong Limited subsidiary, and \$75,000 represents a reduction in allocated overhead due to the sale of Winncom in 2006, whereby those costs were not allocated in 2007. Other increases in SG&A costs comparing 2007 to 2006, except for those of ARC Wireless Hong Kong Limited, include; salaries and benefits (\$46,000), audit fees (\$18,000) and legal fees (\$8,000), outside consulting services (\$74,000), 401(k) employer contribution (\$44,000), research and development, (\$19,000), and stock listing and shareholder meeting costs (\$52,000). SG&A as a percent of total revenues increased from 45% for the nine months ended September 30, 2006 to 49% for the nine months ended September 30, 2007. Salaries and wages and fringe benefits, including commissions, remains the largest component of SG&A, constituting 59% and 68% of the total SG&A for the nine months ended September 30, 2007 and September 30, 2006, respectively.

Net interest expense was \$16,000 for the nine months ended September 30, 2007 compared to \$96,000 for the nine months ended September 30, 2006. The decrease is due to the Company's available cash significantly reduced the need to use our available line of credit. Most of the interest expense for 2006 related to capitalized leases.

Other income for the nine months ended September 30, 2007 primarily represents interest income on funds invested from the sale of Winncom of \$500,000 and gain on debt settlements of \$82,000. No such income was earned in 2006.

The benefit for income taxes in 2006 represents an increase in deferred income taxes for which there was no comparable benefit in 2007.

The Company had a net loss from continuing operations of \$365,000 for the nine months ended September 30, 2007 as compared to a net loss from continuing operations of \$928,000 for the nine months ended September 30, 2006. The primary reasons for the reduction in the net loss are; 1) an increase in sales of \$446,000, 2) an increase in gross margin of \$552,000, 3) interest income of \$500,000 realized from the proceeds from the sale of Winncom and 4) \$82,000 gain on debt settlements.

Results of Discontinued Operations for the Nine Months Ended September 30, 2006 (See Note 2, Discontinued Operations for the detailed operating results of the discontinued operations).

17

Financial Condition

The net cash used in operating activities from continuing operations was \$1,056,000 for the nine months ended September 30, 2007 compared to \$549,000 for the nine months ended September 30, 2006. The increase in the net cash used in operating activities from continuing operations in 2007 was primarily due to an increase in trade accounts receivables and inventory partially offset by a reduction in the net loss from continuing operations. The increase in inventory is to meet the increase in demand as a result of increased sales and also a need to stock more finished goods for standard products to satisfy customer expectations of wanting to consummate sales with shorter lead times. The increase in trade accounts receivable is the result of the increased sales and the time frames in which they occurred and does not reflect a slowdown in the average collection period. Net sales were approximately \$1.3 million for the quarter ended December 31, 2006 compared to sales of approximately \$2.0 million for the quarter ended September 30, 2007. The net cash used in continuing operations for the nine months ended September 30, 2006 was primarily due to the net loss from continuing operations of \$928,000, an increase in trade receivables of approximately \$125,000, an increase in deferred taxes of

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

\$232,000, partially offset by an increase in trade payables and other accrued expenses of \$609,000.

The net cash used in investing activities from continuing operations was \$95,000 for the nine months ended September 30, 2007 compared to \$86,000 for the nine months ended September 30, 2006, primarily the result of expenditures for patents and equipment. The net cash used in investing activities from discontinued operations was \$58,000 for the nine months ended September 30, 2006, primarily the result of expenditures for equipment.

For the nine months ended September 30, 2007, net cash provided by financing activities for continuing operations was the result of advances from the revolving line of credit. For the nine months ended September 30, 2006, net cash provided by financing activities from continuing operations was also the result of advances from the line of credit. For the nine months ended September 30, 2006, the net cash used in financing activities for discontinued operations was the result of net payments on lines of credit.

The Company's working capital at September 30, 2007 was \$15,288,000, compared to \$15,679,000 at December 31, 2006. The decrease of \$391,000 as of September 30, 2007 is due primarily to the net loss from continuing operations for the nine months ended September 30, 2007.

On May 4, 2007, the Company renewed its \$1.5 million revolving line-of-credit agreement (the "Credit Facility") with Citywide Banks. The current Credit Facility has an annual maturity, which is currently due May 10, 2008, accrues interest at 1.5% over prime (9.75% at September 30, 2007), contains covenants to maintain certain financial statement ratios, and is collateralized by essentially all of the assets of ARC and its wholly-owned subsidiary, Starworks. The borrowing base is calculated on a percentage of trade accounts receivable and inventory for ARC and Starworks combined. As of September 30, 2007 and December 31, 2006, ARC was in compliance with these covenants. The balance outstanding on the revolving line of credit at September 30, 2007 and December 31, 2006 was \$1,358,000 and \$830,000, respectively.

Effective October 31, 2006, the Company completed the sale of Winncom. In connection with the sale, we received \$17,000,000 in cash on November 1, 2006. Management believes that the proceeds from the sale of Winncom, current working capital and available borrowings on existing bank lines of credit will be sufficient to allow the Company to maintain its operations through December 31, 2007 and into the foreseeable future.

18

Forward-Looking Statements

This Quarterly Report on Form 10-Q includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact included in this Quarterly Report, including "Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations", regarding our financial position, business strategy, plans and objectives of our management for future operations and capital expenditures, and other matters, other than historical facts, are forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements and the assumptions upon which the forward-looking statements are based are reasonable, we can give no assurance that such expectations will prove to have been correct.

Additional statements concerning important factors that could cause actual

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

results to differ materially from our expectations were disclosed in Item 1A, "Risk Factors" on our Annual Report on Form 10-K for the year ended December 31, 2006. There have been no material changes to the Company's risk factors from those disclosed in the Company's 2006 Annual Report on Form 10-K. The words "believe", "may", "will", "when", "estimate", "continue", "anticipate", "intend", "expect" and similar expressions, as they relate to ARC, our business or our management, are intended to identify forward-looking statements. All written and oral forward-looking statements attributable to us or persons acting on our behalf subsequent to the date of this Quarterly Report are expressly qualified in their entirety by the Risk Factors set forth in our 2006 Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We have not used derivative financial instruments.

We are exposed to market risk through variable interest rates related to our notes payable to the banks, each of which has a variable interest rate equal to the existing bank prime rate (8.25% as of September 30, 2007) plus 1.50%. The prime interest rate increased from 7.25% to 8.25% between January 1, 2006 and December 31, 2006. An increase in the bank's prime interest rates on the various notes payable by 1% would increase our yearly interest expense by approximately \$5,000, assuming borrowed amounts remain outstanding at the average balance for the nine months ended September 30, 2007. Management believes that fluctuation in interest rates in the near term will not materially affect our consolidated operating results, financial position or cash flow.

Item 4. Controls and Procedures

The Company maintains a set of disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports filed by the Company under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. As of the end of the quarterly period covered by this report, the Company carried out an evaluation, under the supervision of the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There have been no significant changes in the Company's internal controls over financial reporting or other factors that have materially affected, or are reasonably likely to materially affect, those controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

19

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company and its subsidiaries are involved in various legal proceedings of a nature considered normal in the course of its operations. These are principally accounts receivable collections. While it is not feasible to predict or determine the final outcome of these proceedings, management has reserved an allowance for doubtful accounts that portion of the accounts receivable it estimates will be uncollectible.

Item 1A. Risk Factors

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

Additional statements concerning important factors that could cause actual results to differ materially from our expectations were disclosed in Item 1A, "Risk Factors" of our Form 10-K for the fiscal year ended December 31, 2006. There have been no material changes from the risk factors previously disclosed in our Form 10-K for the fiscal year ended December 31, 2006, except as noted below.

Approximately 30% of our revenues for the nine months ended September 30, 2007 resulted from sales to a customer that has incurred significant historical losses and the customer has announced that it is in its best interests to actively pursue the sale of their Company and/or its assets. We have implemented procedures to minimize credit and inventory risk, however, should this customer default, or not be successful in selling its business and/or its assets, or otherwise discontinue doing business with us, it could have a negative impact on our results of operations for the fourth quarter 2007 and for 2008.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On July 10, 2007, the Company recorded the issuance of 809 shares of common stock to Mr. Robert E. Wade, a director, for outstanding obligations for accrued director's fees in the amount of \$4,000. These shares were issued pursuant to exemptions from registration set forth in Section 4(2) of the Securities Act of 1933, as amended, and Regulation D promulgated thereunder. This issuance qualified for exemption from registration because (i) the securities were issued to a single accredited investor, (ii) the Company did not engage in any general solicitation or advertising in connection with the issuance and (iii) Mr. Wade received "restricted securities."

Item 3. Defaults Upon Senior Securities

None.

20

Item 4. Submission of Matters to a Vote of Security Holders

The Company held its annual meeting of shareholders on September 17, 2007, and 2,867,114 shares were represented at the meeting. The following are the results of the voting on matters submitted to the shareholders, all of which were approved:

(1) For election of the following nominees as directors:

Name	Number of Shares For	Withheld
----	-----	-----
Sigmund A. Balaban	2,809,082	58,032
Donald A. Huebner	2,700,761	166,353
Randall P. Marx	2,700,731	166,383
Robert E. Wade	2,833,302	33,812

(2) Proposal to approve the Company's 2007 Stock Incentive Plan

Number of Shares:

Edgar Filing: ARC WIRELESS SOLUTIONS INC - Form 10-Q

1,663,735 (For) 34,227 (Against) 1,765 (Abstain) 1,167,387 (Not Voting)

- (3) Proposal to ratify the selection of HEIN + Associates, LLP as the Company's independent registered public accounting firm.

Number of Shares:

2,859,114 (For) 6,804 (Against) 1,196 (Abstain) 0 (Not Voting)

- (4) In their discretion, the Proxies as authorized to vote upon such as other business as may properly come before the meeting.

Number of Shares:

2,688,363 (For) 174,024 (Against) 4,727 (Abstain) 0 (Not Voting)

Item 5. Other Information

None.
