NOTES TO FINANCIAL STATEMENTS  
THREE MONTHS ENDED SEPTEMBER 30, 2010  
(A Development Stage Company)  
(Unaudited)

NOTE 1 – BASIS OF PRESENTATION

The accompanying financial statements of Veracity Management Global, Inc (the "Company", "VCMG") at September 30, 2010 have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in conformity with generally accepted accounting principles have been omitted or condensed pursuant to such rules and regulations. These statements should be read in conjunction with VCMG's audited financial statements and notes thereto included in VCMG's Form 10-K. In management's opinion, these unaudited interim financial statements reflect all adjustments (consisting of normal and recurring adjustments) necessary for a fair presentation of the financial position and results of operations for each of the periods presented. The accompanying unaudited interim financial statements for the three months ended September 30, 2010 are not necessarily indicative of the results which can be expected for the entire year.

Basis of Presentation

The Company follows accounting principles generally accepted in the United States of America. Certain prior period amounts have been reclassified to conform to the September 30, 2008 presentation. On August 2, 2007, the Company's Board of Directors approved a 1 for 73 reverse split of the Company's common stock by Action of the Board and a majority of shareholders. All information related to common stock, warrants to purchase common stock and earnings per share have been retroactively adjusted to give effect to the stock split.

The statements of operations show the effect of a reclassification of the distribution of the subsidiary companies until July 1, 2008. The reclassification included all parts of the prior operations for both subsidiary companies as loss from discontinued operations for the prior reported period.

In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The financial statements include the accounts of Veracity Management Global, Inc and the operations of Secured Financial Data, Inc and Veracity Management Group, Inc. are being reported as loss from discontinued operations. Any inter-company transactions have been eliminated as part of the transaction.

As a development stage company, the Company continues to rely on infusions of debt and equity capital to fund operations. The Company relies principally on cash infusions from its directors and affiliates, and paid a significant amount of personal services and salaries in the form of common stock.

Recently Issued Accounting Standards

In April 2008, the FASB issued ASC 350-10, "Determination of the Useful Life of Intangible Assets." ASC 350-10 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under ASC 350-10, "Goodwill and Other Intangible Assets." ASC No. 350-10 is effective for fiscal years beginning after December 15, 2008. The adoption of this ASC did not have a material impact on our financial statements.

NOTES TO FINANCIAL STATEMENTS  
THREE MONTHS ENDED SEPTEMBER 30, 2010  
(A Development Stage Company)  
(Unaudited)

In April 2009, the FASB issued ASC 805-10, "Accounting for Assets Acquired and Liabilities assumed in a Business Combination That Arise from Contingencies—an amendment of FASB Statement No. 141 (Revised December 2007), Business Combinations". ASC 805-10 addresses application issues raised by preparers, auditors and members of the legal profession on initial recognition and measurement, subsequent measurement and accounting and disclosure of assets and liabilities arising from contingencies in a business combination. ASC 805-10 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. ASC 805-10 will have an impact on our accounting for any future acquisitions and its financial statements.

In May 2009, the FASB issued ASC Topic 855, "Subsequent Events". ASC Topic 855 established principles and requirements for evaluating and reporting subsequent events and distinguishes which subsequent events should be recognized in the financial statements versus which subsequent events should be disclosed in the financial statements. ASC Topic 855 also requires disclosure of the date through which subsequent events are evaluated by management. ASC Topic 855 was effective for interim periods ending after June 15, 2009 and applies prospectively. Because ASC Topic 855 impacts the disclosure requirements, and not the accounting treatment for subsequent events, the adoption of ASC Topic 855 did not impact our consolidated results of operations or financial condition. See Note 10 for disclosures regarding our subsequent events.

On July 1, 2009, the Company adopted ASU No. 2009-05, Fair Value Measurements and Disclosures (Topic 820) (ASU 2009-05). ASU 2009-05 provided amendments to ASC 820-10, Fair Value Measurements and Disclosures – Overall, for the fair value measurement of liabilities. ASU 2009-05 provides clarification that in circumstances in which a quoted price in an active market for the identical liability is not available, a reporting entity is required to measure fair value using certain techniques. ASU 2009-05 also clarifies that when estimating the fair value of a liability, a reporting entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of a liability. ASU 2009-05 also clarifies that both a quoted price in an active market for the identical liability at the measurement date and the quoted price for the identical liability when traded as an asset in an active market when no adjustments to the quoted price of the asset are required are Level 1 fair value measurements. The adoption of ASU 2009-05 did not have a material impact on the Company's results of operations or financial condition.

Effective July 1, 2009, we adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 105-10, Generally Accepted Accounting Principles—Overall ("ASC 105-10"). ASC 105-10 establishes the FASB Accounting Standards Codification (the "Codification") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. GAAP. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative U.S. GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority. The Codification superseded all existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification is non-authoritative. The FASB will not issue new standards in the form of Statements, FASB Staff Positions or Emerging Issues Task Force Abstracts. Instead, it will issue Accounting Standards Updates ("ASUs"). The FASB will not consider ASUs as authoritative in their own right. ASUs will serve only to update the Codification, provide background information about the guidance and provide the bases for conclusions on the change(s) in the Codification. References made to FASB guidance throughout the financials have been updated for the Codification.

In August 2009, the FASB issued ASU No. 2009-05, Measuring Liabilities at Fair Value, which provides additional guidance on how companies should measure liabilities at fair value under ASC 820. The ASU clarifies that the quoted price for an identical liability should be used. However, if such information is not available, an entity may use the quoted price of an identical liability when traded as an asset, quoted prices for similar liabilities or similar liabilities traded as assets, or another valuation technique (such as the market or income approach). The ASU also indicates that the fair value of a liability is not adjusted to reflect the impact of contractual restrictions that prevent its transfer and indicates circumstances in which quoted prices for an identical liability or quoted price for an identical liability traded as an asset may be considered level 1 fair value measurements. This ASU is effective October 1, 2009. We are currently evaluating the impact of this standard, but would not expect it to have a material impact on our results of operations or financial condition.

Management does not anticipate that the adoption of these standards will have a material impact on the financial statements.

#### NOTE 2- GOING CONCERN

Veracity Management Global, Inc.'s financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities and commitments in the normal course of business for the foreseeable future. Since inception, the Company has accumulated losses aggregating to \$4,142,573 and has insufficient working capital to meet operating needs for the next twelve months as of September 30, 2010, all of which raise substantial doubt about VCMG's ability to continue as a going concern.
