Re: Unaudited First Quarter 2007 Financial Statements

**Summary**

Attached are CBOE's unaudited financial statements as of March 31, 2007. During the first quarter of 2007 CBOE recorded a pre-tax profit of \$30.3 million on average volume of 3,363,000 options contracts per day. During the same quarter last year CBOE recorded a pre-tax profit of \$8.3 million on average volume of 2,486,000 options contracts per day.

**Revenue**

Gross revenue totaled \$77.8 million for the first quarter of 2007 compared to \$59.2 million for the same period in 2006. The \$18.6 million increase (31% over 2006) resulted from higher trading volumes that increased transaction fees by \$17.5 million. Investment income increased by \$0.8 million during the 1st quarter of 2007, reflecting higher levels of excess working capital compared to the prior year. Other revenue increased by \$0.6 million compared to the same period last year, which reflects the increased level of license fees recovered related to our monthly firm fee cap.

**Expenses**

Expenses totaled \$47.6 million for the first quarter of 2007 compared to \$50.8 million for the same period in 2006. Employee costs decreased \$0.9 million as a result of decreased staffing levels for the three months ended March 31, 2007 as compared to same period in 2006. Severance expenses decreased for the three months ended March 31, 2007 as CBOE enacted a restructuring in 2006 at a cost of \$3.6 million while no such action has occurred in the same period in 2007. Depreciation and amortization decreased by \$0.7 million in the 1st quarter 2007 due to capital expenditures in 2004 and 2005 being slightly lower than historical averages. Travel and promotional expenses increased by \$0.5 million attributable to our corporate branding program in the 1st quarter 2007. Other expense increased by \$1.0 million mainly due to increased market linkage expense. This program that reimburses DPM's for the cost of linking customer orders to markets at other exchanges was initiated subsequent to March 31, 2006.

---

**Consolidated Balance Sheets**

Working capital (current assets minus current liabilities) increased by \$15.2 million to \$109.3 million while cash and investments increased by \$26.4 million to \$128.5 million at March 31, 2007. These increases are attributable to revenue exceeding cash expenses less capital expenditures resulting from high trading volume during the quarter as well as the prepayment of transaction fees for 2007 by some of our members. CBOE also spent \$8.7 million for capital expenditures mostly for systems hardware and capitalized software.
