PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

MAY 24, 2007

This Proxy Statement relates to the Annual Meeting of the stockholders (the Annual Meeting) of Imperial Industries, Inc., a Delaware corporation (the ACompany@) to be held at 10:00 A.M., local time, on Thursday, May 24, 2007 at the law offices of Legon, Ponce & Fodiman, P. A., 1111 Brickell Avenue, Suite 2150, Miami, Florida, and at any and all postponements or adjournments thereof, for the purposes set forth in the accompanying Notice of Annual Meeting.

We will begin sending this Proxy Statement, the attached Notice of Annual Meeting and the accompanying Proxy Card to our stockholders who are entitled to vote at the Annual Meeting on or about April 11, 2007.

Why This Proxy Statement is Being Sent

This Proxy Statement and the enclosed Proxy Card are being sent to you by our Board of Directors for the solicitation of proxies from the holders of our common stock so that the holders of common stock may vote their shares at our Annual Meeting of Stockholders. This Proxy Statement summarizes the information you need to know to vote at the Annual Meeting. If you do not wish to attend the Annual Meeting to vote your shares, you may instead complete, date, sign and return the enclosed Proxy Card to vote.

What is Being Voted on at the Annual Meeting

Our Board of Directors is asking stockholders to vote on one matter, the election of two Class III directors for a term of three years. We are not aware of any other matter that will be acted upon at the Annual Meeting.

Who may attend the Meeting

Subject to space availability, all stockholders of record on the Record Date, or their duly appointed proxies, may attend the Annual Meeting. Since seating is limited, admission to the Annual Meeting will be on a first come, first served basis. Registration and seating will begin at 9:30 a.m. If you attend, please note that you may be asked to present valid picture identification, such as a driver=s license or passport. Cameras, recording devices and other electronic devices will not be permitted at the Annual Meeting.

Please also note that if you hold your shares in Astreet name@ (that is, through a broker or other nominee), you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the Record Date and check in at

the registration desk at the Annual Meeting.

Who May Vote

Stockholders who owned common stock at the close of business on March 28, 2007 are entitled to vote at the Annual Meeting (the ARecord Date@). On the Record Date, we had issued and outstanding 2,506,502 shares of common stock. Common stock is the only issued and outstanding class of voting stock. You do not have cumulative voting rights. You have one vote for each share of common stock that you own.

Votes Needed for a Quorum

A majority of the shares of common stock that are issued and outstanding on the Record Date must be present or voted by proxy for a quorum at the Annual Meeting. If you return your Proxy Card or attend the Annual Meeting in person, your common stock will be counted for the purpose of determining whether a quorum exists, even if you wish to abstain from voting on any or all of the matters presented at the Annual Meeting. In determining whether a quorum exists at the Annual Meeting, all votes Afor@ or Aagainst,@ as well as abstentions will be counted. Broker non-votes will also be counted as present or represented for the purpose of determining whether a quorum is present for the transaction of business. If you hold your common stock through a broker, bank or other nominee, generally the nominee may only vote the common stock which it holds for you in accordance with your instructions. We do not count abstentions or broker non-votes as Afor@ or Aagainst@ any proposal.

If a quorum is not present at the Annual Meeting, no official business can be conducted. However, if a quorum is not present or represented at the Annual Meeting, the stockholders who do attend the Annual Meeting in person or who are represented by proxy, may adjourn the Annual Meeting until a quorum is present or represented. At any adjournment where there is a quorum, any business may be transacted that might have been transacted at the original meeting.

How You May Vote by Proxy

A proxy is a person you appoint to vote on your behalf. Because many of our stockholders are unable to attend the Annual Meeting in person, our Board of Directors solicits proxies by mail to give each stockholder an opportunity to vote on all matters that will come before the Annual Meeting. In order to ensure that your vote will be recorded, you are urged to:

-

Read this Proxy Statement carefully;

-

Specify your choice on each matter by marking the appropriate box on the enclosed Proxy Card; and

-

Sign, date and return the Proxy Card in the enclosed envelope.

By signing the Proxy Card, you will be designating S. Daniel Ponce and Howard L. Ehler, Jr. as your proxies. They may act together or individually on your behalf and will have the authority to appoint a substitute to act as proxy. They will vote your shares in accordance with your directions. However, if you sign and return the Proxy Card without instructions marked on it, it will be voted FOR each of the nominees for Class III director listed on the Proxy Card.

If any other matter is validly presented at the Annual Meeting, your proxies will vote in accordance with their best judgment. We do not currently know of any other matter that will be acted on at the Annual Meeting.

How You Can Revoke Your Proxy

You may revoke your proxy at any time prior to the Annual Meeting by doing any of the following:

-

giving written notice of its revocation to the Company,

-

by submission of another duly executed proxy dated after the Proxy Card to be revoked, or

-

by attending the Annual Meeting and voting in person.

Your mere presence at the Annual Meeting will not revoke the prior appointment.

Vote Required For Election of Directors

Each stockholder is entitled to one vote for each share of common stock registered in his name on the Record Date for each matter brought before the stockholders at the Annual Meeting. The two nominees for director for Class III receiving the highest number of votes will be elected for the term of such directorships. A properly executed proxy marked "Withhold authority" with respect to the election of one or more directors will not be voted with respect to the director or directors indicated. However, it will be counted for purposes of determining whether there is a quorum.

If you hold your shares in "street name" through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Thus, if you do not give your broker or nominee specific instructions, your shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval. Shares represented by such "broker non-votes" will however, be counted in determining whether there is a quorum.

Voting is Confidential

Proxy cards, ballots and tabulations that identify individual stockholders are confidential. Only the inspectors of election and certain of our employees associated with processing proxy cards and counting votes have access to your proxy card. Additionally, all comments directed to the Company (whether written on the proxy card or elsewhere) remain confidential, unless you ask that your name be disclosed.

We Pay the Cost of Solicitation of Proxies

Your proxy is being solicited by our Board of Directors. We will pay all expenses associated with this proxy solicitation. Such costs include preparing, printing, assembling and mailing the Notice of Annual Meeting, the proxy statement and the proxy card, as well as all costs of soliciting proxies. We will primarily solicit proxies by mail. However, our officers, directors and regular employees may solicit by telephone, facsimile transmission, e-mail or in person. Such officers, directors and employees will not receive additional compensation for such solicitations. We will also request brokerage firms, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners of shares held of record by such persons and we will reimburse such persons, including our transfer agent, for their reasonable out-of-pocket expenses in forwarding such materials. We may retain the services of a proxy solicitation firm to solicit proxies and will pay all reasonable costs associated with such firm.

The Company's officers and directors are required to file Forms 3, 4 and 5 with the Securities and Exchange Commission in accordance with Section 16(a) of the Securities and Exchange Act of 1934, as amended and the rules and regulations promulgated thereunder. Based solely on a review of such reports furnished to the Company as required by Rule 16(a)-3, the following officer failed to file certain of his reports required thereunder in the time required: Fred Hansen failed to file his Form 3 in January 2006 upon his appointment as President of DFH, Inc.

ELECTION OF DIRECTORS

Pursuant to our Certificate of Incorporation, our Board of Directors is currently divided into three classes, with one class standing for election each year for three year terms. The terms of the Class III directors are scheduled to expire at the Annual Meeting. Accordingly, the terms of the two nominees for Class III director listed below, if elected at the Annual Meeting, will expire at the 2010 annual meeting of stockholders. The terms of the other current directors listed below will expire at the 2008 and 2009 annual meetings of stockholders, as indicated below.

The two persons designated by the Board of Directors as nominees for election as Class III directors with terms expiring at the 2010 Annual Meeting are Lisa M. Brock and S. Daniel Ponce.

The nominees for Class III Director receiving the greatest number of affirmative votes of the shares of common stock represented at the Annual Meeting will be elected as Directors. Stockholders are not entitled to cumulate their votes for the election of the Class III directors.

Unless a contrary direction is indicated, it is intended that proxies received will be voted for the election as directors of the two nominees to serve for three-year terms expiring at the 2010 annual meeting, and in each case until their successors are elected and qualified. In the event any nominee for director declines or is unable to serve, the proxies may be voted for a substitute nominee selected by the Board of Directors. The nominees for Class III Director receiving the greatest number of affirmative votes of the shares of Common Stock represented at the Annual Meeting will be elected as Directors. Stockholders are not entitled to cumulate their votes for the election of the Class III directors.

BOARD OF DIRECTORS AND ITS COMMITTEES

The Board of Directors is currently divided into three classes, each class having three year terms that expire in successive years. Directors hold office until the expiration of their respective terms and until their successors are elected or until death, resignation or removal.

Director Independence

Our Common Stock is listed on the NASDAQ Capital Market. The NASDAQ requires that a majority of our directors be independent directors, as defined by the listing standards of the NASDAQ Stock Market, promulgated by the National Association of Securities Dealers, Inc. Generally, a director does not qualify as an independent director if the director (or in some cases, members of the director's immediate family) has, or in the past three years has had, certain material relationships or affiliations with the Company, its external or internal auditors, or other companies that do business with the Company. The Board has affirmatively determined that four of the Company's six current directors have no other direct or indirect material relationships with the Company and therefore are independent directors on the basis of the NASDAQ listing standards and an analysis of all facts specific to each director. The independent directors are Lisa M. Brock, Nadine Gramling, Milton J. Wallace, and Morton L. Weinberger.

Board Attendance

The Board of Directors conducts its business through meetings of the Board and through its committees. Each director is expected to dedicate sufficient time, energy and attention to ensure the diligent performance of his or her duties, including attending meetings of the stockholders of the Company, the Board and committees of which he or she is a member. The Board of Directors met seven times in fiscal 2006. Each director attended all of the Board of Directors meetings in 2006.

The Company's non-management directors meet separately from the other directors in regularly scheduled executive sessions at least annually and at such other times as may be scheduled by the Chairman of the Board. During 2006, the non-management directors held two meetings without management.

The Board does not have a formal policy with respect to members of the Board of Directors attendance at annual stockholder meetings. However, each Board member attended the Company's annual stockholders meeting held in May 2006 and it is expected that all directors will attend the 2007 Annual Meeting as well.

Director Nominating Process

Our Board of Directors does not maintain a Nominating Committee. The Board of Directors has determined that it is in our best interest that the entire Board takes the appropriate actions that would normally be delegated to such a committee. Accordingly, each member of the Board of Directors participates in the consideration of director nominees. A majority of the Company's Board of Directors is independent as that term is defined by the listing standards of the NASDAQ Stock Market, promulgated by the National Association of Securities Dealers, Inc. The Board of Directors does not have a separate nominating committee charter. However, it has adopted Board resolutions establishing the procedures for the nomination of directors, which is outlined below.

The Board of Directors considers candidates for Board membership suggested by its members, as well as management and stockholders. A stockholder who wishes to recommend a prospective nominee for the Board should notify the Company's Corporate Secretary or any member of the Board of Directors in writing with whatever supporting material the shareholder considers appropriate.

Once the Board of Directors has identified a prospective nominee, the Board would make an initial determination as to whether to conduct a full evaluation of the candidate. This information is based on whatever information is provided

to the Board with the recommendation of the prospective candidate, as well as the Board's own knowledge of the prospective candidate. This information may be supplemented by inquiries to the person making the recommendation or others. The preliminary determination is based primarily on the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood that the prospective nominee can satisfy the evaluation factors described below. If the Board determines that additional consideration is warranted, it may request a third party search firm to gather additional information about the prospective nominee's background and

experience and report its findings to the Board. The Board would then evaluate the prospective nominee based on the following criteria:

-

The ability of the prospective nominee to represent the interests of the stockholders of the Company, rather than any special interest or constituency;

-

The prospective nominee's standards of integrity, commitment and independence of thought and judgment;

-

The prospective nominee's ability to dedicate sufficient time, energy and attention to the diligent performance of his or her duties, including the prospective nominee's service on other public company boards;

-

The extent to which the prospective nominee contributes to the range of talent, skill and expertise appropriate for the Board; and

-

Be free from interests that would present the appearance of being adverse to, or conflict with, the interests of the Company.

The Board also considers such other relevant factors as it deems appropriate, including the current composition of the Board, the balance of management and independent directors and the need for Audit Committee expertise. After completing the evaluation process, the Board would determine the nominees to the Board, which must be approved by a majority of the independent directors.

Stockholder Communications

Stockholders wishing to communicate with the Company may do so by writing to the Company at 3790 Park Central Boulevard North, Pompano Beach, Florida, 33064 Attn: Investor Relations, or by sending an e-mail to information@imperialindustries.com.

Stockholders and other parties interested in communicating directly with the Chairman of the Board or with the non-management directors, individually or as a group may do so by writing to the Chairman of the Board, Imperial Industries, Inc., 3790 Park Central Boulevard North, Pompano Beach, Florida 33064. The mailing envelope should contain a notation indicating that the enclosed letter is a Stockholder-Board Communication. All such letters must identify the author as a stockholder and clearly state whether the intended recipients are all members of the Board of Directors or certain specified individual directors. The Corporate Secretary reviews all such correspondence, make copies of all such letters and circulates them to the appropriate director or directors. If any communication is not directed to any particular director, the communication will be forwarded to all members of the Board. Concerns relating to accounting, internal controls or auditing matters should be addressed to the Chairman of the Audit Committee and will be handled in accordance with procedures established by the Audit Committee with respect to such matters.

Code of Conduct and Ethics

The Board of Directors has adopted a Code of Business Conduct, applicable to its directors, executive officers and employees. The Code of Business Conduct is available on the Company's website at www.imperialindustries.com. The Code of Business Conduct complies with Securities and Exchange Commission (the "SEC") requirements, including procedures for the confidential, anonymous submission by employees or others of any complaints or concerns about the Company or its accounting, internal accounting controls or auditing matters. The Company will also mail these materials to any stockholder who requests a copy. Requests may be made by contacting the Corporate Secretary as described above under "Stockholder Communications."

Board Committees

The Board has established a number of standing committees to assist it in the discharge of its responsibilities. The Board presently has two standing committees: the Compensation and Stock Option Committee and the Audit Committee. Information regarding the principal responsibilities of each committee, their present membership and the number of meetings held by each committee are described below. Any action taken by a committee of the Board is reported to the Board of Directors, usually at the next Board meeting.

Audit Committee: The Audit Committee's main role is to assist the Board of Directors with oversight of (1) the integrity of the Company's financial statements, (2) the independent auditor's qualifications and independence and (3) the performance of the Company's internal audit function and independent auditors. As part of its duties, the Audit Committee assists in the oversight of (a) management's assessment of, and reporting on, the effectiveness of internal control over financial reporting, and (b) the independent auditor's audit, which includes expressing an opinion on the conformity of the Company's audited financial statements with United States generally accepted accounting principles. The Audit Committee oversees the Company's accounting and financial reporting process and has the authority and responsibility for the appointment, retention and oversight of the Company's independent auditors, including pre-approval of all audit and non-audit services to be performed by the independent auditors. The Audit Committee annually reviews and approves the firm to be engaged as independent auditors for the Company for the next fiscal year, reviews with the independent auditors the plan and results of the audit engagement, reviews the scope and results of the Company's procedures for internal auditing and monitors the design and maintenance of the Company's internal accounting controls. The Audit Committee Report appears on page 25 of this proxy statement. A current copy of the written charter of the Audit Committee is available on the Company's website at www.imperialindustries.com.

The current members of the Audit Committee are Morton L. Weinberger, as Chairman, Milton J. Wallace, Lisa M. Brock and Nadine Gramling. The Audit Committee met six times during 2006. All members of the Audit Committee are independent of the Company and management, as defined in the listing standards of NASDAQ and SEC Rule 10A-3.

The Board of Directors has determined that Morton L. Weinberger meets the requirements adopted by the SEC for qualification as an audit committee financial expert. Mr. Weinberger is a certified public accountant and has served as an independent auditor with independent public accounting firms as described in his biography above.

Compensation and Stock Option Committee: The Compensation and Stock Option Committee (the Compensation Committee) is responsible for, among other things: (i) reviewing the Company's executive compensation goals, policies and philosophies and monitoring the appropriateness of the Company's executive compensation practices, (ii) reviewing and, as appropriate, approving management's recommendations regarding executive compensation, (iii) reviewing and, as appropriate, approving the Company's executive compensation plans, including designating plan participants, establishing objectives and applicable performance measurement criteria and making awards, (iv) reviewing surveys and other data to gauge the competitiveness and appropriateness of levels and elements of executive compensation and benefits, and (v) to the extent not undertaken by the entire Board, reviewing the level and composition of compensation, benefits and perquisites provided to non-employee members of the Board. The Compensation Committee also administers the Company's 2006 Stock Award and Incentive Plan and has the authority to determine, among other things, to whom to grant options or other equity awards, the amount of options or other equity awards, the terms of such awards and the exercise prices of options granted thereunder.

The Compensation Committee does not have a written charter. During fiscal 2006, the members of the Compensation Committee were Ms. Brock, as Chairman, and Messrs. Ponce, Wallace and Weinberger. The Compensation Committee met three times in fiscal 2006. Each member attended all of the meetings. In order to serve on the Compensation Committee, each member must be considered independent, as defined under the listing standards of NASDAQ. Each member of the Compensation Committee satisfied these requirements during 2006. The agenda and associated meeting materials for each meeting of the compensation committee is generally prepared by management, and reviewed and approved by the Committee chairman. Mr. Ponce resigned as a member of the Compensation Committee in March 2007.

On a periodic basis, the Compensation Committee reviews and approves executive compensation arrangements and, reviews and recommends to the full Board compensation arrangements for the Company's non-employee directors. The Compensation Committee has the authority to hire experts in the field of executive compensation, including the authority to approve the expert's fees and terms of retention, to assist it in the performance of its duties. In 2006, the Compensation Committee engaged Steven Hall and Partners, an independent compensation consultant, to review the

Company's long term compensation policies and plans. The opinions and recommendations of Steven Hall and Partners are included as part of the Compensation Committee's executive compensation review. Additional information regarding the Compensation Committee processes and

procedures relating to the consideration and determination of executive compensation policies and decisions is included in Executive Compensation Compensation Discussion and Analysis below.

The Compensation Committee periodically conducts a non-employee director compensation review involving analysis of individual components of compensation, including cash and equity compensation, and total compensation. Such review may include market analyses and peer company comparisons for non-employee director compensation. A non-employee director compensation review was last performed in February 2007, with recommendations made by the Compensation Committee for changes in such non-employee director compensation to the full Board. Additional information regarding non-employee director compensation is included in Compensation of Directors below.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The Board of Directors has delegated to the Compensation Committee the responsibility for, among other things, developing, recommending and approving the Company's executive compensation program. Management then administers the compensation arrangements in accordance with the policies developed by the Compensation Committee. The executives of the Company covered by the executive compensation program currently consist of the following four individuals:

-

Howard L. Ehler, Jr., Principal Executive Officer of the Company, President of Premix and Vice President of Just-Rite Supply, Inc.

-

Stephen C. Brown, President of Just-Rite Supply, Inc.

-

Steven Healy, Chief Financial Officer

-

Fred Hansen, President of DFH, Inc.

These individuals are referred to in this Compensation Discussion and Analysis as the Executive Officers. Following this section, you will find a series of tables containing specific information about the compensation earned or paid for 2006 to such Executive Officers. The discussion below is intended to help you understand the detailed information provided in such tables and put that information into context within our overall compensation program.

Compensation Philosophy and Objectives

Our overall goal in compensating our Executive Officers is to attract, retain and motivate individuals of superior ability who are critical to our success. We believe that both short and long-term compensation paid to our Executive Officers should be directly aligned with both the individual's and the Company's performance. Such compensation is intended to provide competitive compensation opportunities for such individuals that support our overall business strategy and objectives and which effectively serve the interests of our stockholders. The Compensation Committee's decisions with respect to Executive Officer Compensation are influenced by:

-

The Executive Officer's level of responsibility and functions within the Company;

-

Satisfaction of individual goals and projects assigned to such Executive Officer during the year;

-

The overall performance and profitability of the Company;

-

The Executive Officer's expected contribution to the Company's future success; and

-

An assessment of the competitive marketplace for similarly situated companies.

The Compensation Committee's philosophy is to focus on total compensation opportunities through a mix of base salary, annual cash bonuses, long-term incentives consisting of equity based awards and other benefits. Total compensation opportunities, such as cash bonuses and equity awards, provide upside potential for those Executive Officers who supply leadership resulting in superior financial performance and/or exhibit superior personal performance. We also believe that the best way to align the interests of the Executive Officers with the interests of our stockholders is to make sure that our Executive Officers receive a portion of their compensation in equity based awards.

The Compensation Committee has the flexibility to use these primary components in a manner that will effectively implement its stated objectives. Each of the primary components and certain other benefits are discussed elsewhere below. The Compensation Committee does not explicitly set compensation levels or opportunities in any particular year on the basis of what any of our Executive Officers have actually earned in prior periods other than base salary. The Compensation Committee believes that performance in each year should be determinative of total compensation for that year.

Executive Compensation Review Process

Generally, the Compensation Committee reviews and approves base salary and cash bonus arrangements for Executive Officers in February of each year. At that time, base salary for the Executive Officers is set for the ensuing year. Bonuses are determined at that time for prior year performance.

When making compensation decisions for our Executive Officers, the Compensation Committee takes many factors into consideration, including the executive's current position, level of responsibility, tenure, individual performance and contributions over the past year, expected future contributions towards achieving financial or other growth of the Company and any retention concerns. In addition to the factors above, the Compensation Committee will review and consider compensation data of comparable companies with respect to total aggregate compensation and each individual compensation component for each Executive Officer.

The Compensation Committee also takes into account the recommendations for executive compensation made by Mr. Ehler, the Company's principal executive officer, with regard to the other Executive Officers. Prior to the Compensation Committee's meeting in February, Mr. Ehler provides performance evaluations for each of the other Executive Officers. Such performance evaluations include an analysis of each officer's work performance, historical compensation levels, the specific achievements of each Executive Officer during the year, the relative profitability of each of their respective operating divisions, their success in reaching objective and subjective goals established prior to the year, their contributions to the overall profitability of the Company and other factors related to their performance. Mr. Ehler will also set forth expected performance responsibilities and tasks for each Executive Officer for the following year. As part of the performance evaluations, Mr. Ehler will make recommendations for base salary and cash bonus compensation for each of the other Executive Officers. Mr. Ehler does not make a recommendation regarding his own compensation.

The Compensation Committee then reviews and considers such recommendations. It will also look at comparative data of compensation of executive officers at similarly situated companies. The Compensation Committee recognizes the inability to provide exact comparisons due to both the difficulty of matching position responsibilities and the difficulty of comparing companies and as such will also rely on their own backgrounds and experience in business. Although consideration has been given from time to time to engage a compensation consultant to review the Company's compensation package, the Compensation Committee did not feel there was a need to engage compensation consultants for a broad based review for compensation in 2006. The Compensation Committee did engage Steve Hall and Partners in 2006 to review the Company's long term equity compensation plans and requested recommendations thereon for 2006. Such recommendation resulted in the Company's adoption of the 2006 Plan. Based upon all of the above, the Compensation Committee will then set base salaries and awards, if appropriate, cash bonuses for each Executive Officer.

Long term equity incentive compensation is generally determined separately and at different times than cash compensation.

The Company does not have a formal policy regarding ownership of Company stock by its executive officers. The Company does encourage each Executive Officer to maintain an equity position with the Company

Primary Components of Executive Compensation

As described above, the aggregate compensation paid to our Executive Officers is historically comprised of three primary components: base salary, annual cash bonuses and long-term-equity awards. Each component is described below in more detail. Each Executive Officer also receives other benefits as outlined below. When setting the compensation arrangements for each Executive Officer, the Compensation Committee considers these components individually, as well as on an aggregate basis.

Base Salary

Base pay is a traditional element of compensation provided almost universally by businesses. The Compensation Committee reviews base salaries for each of our Executive Officers annually. The base salary for each Executive Officer is set by the Compensation Committee after consideration of a number of factors, including the executive's position, level of existing and any expected changes in responsibility, tenure with the Company, historical salary levels and past and expected job performance. These factors are not weighted or ranked in any particular way. The Compensation Committee will also consider the compensation levels of executives of comparable companies, based on size and industry, and the recommendations made by Mr. Ehler.

The Compensation Committee reviews salary levels annually to reflect these factors. Accordingly, the Compensation Committee established base salaries for Executive Officers for 2007 at its meeting in February 2007. Base salary increases for Messrs. Ehler, Brown, Healy and Hansen ranged from 6.3% to 56.3% over their prior years' base salaries. Mr. Hansen received the largest increase by 56.3% to \$150,000 after taking into account the above factors and recognizing the significant increased job responsibilities expected of Mr. Hansen in fiscal 2007. While Mr. Ehler's base salary has a minimum annual increase included in his employment agreement tied to the cost of living, the Compensation Committee reviewed his job performance and history with the Company and determined to increase his base salary for 2007 by 16.7% to \$210,000.

Annual Cash Incentive Payments

For most of our Executive Officers, the annual cash bonus will represent a significant variable element in their respective compensation. In some cases, such bonuses will be relatively modest unless our overall performance exceeds budget and their individual performance exceeds expectations. Annual cash incentives are discretionary on the part of the Compensation Committee and are intended to reward Executive Officers based upon, among other things, their individual superior performance and the profitability of the Company.

The determination of annual cash bonuses are based on subjective criteria reviewed by the Compensation Committee. Bonuses are not based on specific targets or formulas based on Company financial performance. Mr. Ehler will include his recommendations for cash bonuses for the other Executive Officers as part of his evaluation process. In addition, the Compensation Committee will review the Company's financial performance during the year and the impact each Executive Officer had on such performance. The Company will take into account specific tasks assigned to each Executive Officer during the prior year and whether such officer succeeded in such tasks for the proceeding year.

The Compensation Committee awarded cash bonuses for fiscal year 2006 performance at its meeting held in February 2007. At such meeting, the Compensation Committee concluded that the Company's performance exceeded expectations. As a result, the Compensation Committee awarded an aggregate of \$284,000 in cash bonuses to its Executive Officers for 2006. The Compensation Committee did not set an aggregate pool for Executive Officer cash bonuses. Each Executive Officer's bonus was determined independently of any other Executive Officer's award. Mr. Ehler's bonus of \$125,000 was granted after consideration of the Company's overall performance, particularly in light of the change in the general business climate for the Company's industry, his responsibilities in managing the Company and its personnel through such changes, as well as his long term loyalty and history with the Company.

Mr. Hansen's bonus was awarded at a Compensation Committee meeting held in March 2006. The bonus of \$60,000 was in part due to his significant involvement in selling the Company's manufacturing assets related to its Acrocrete product line, the closure of the facility in Kennesaw, Georgia and the transition from manufacture of such product line to distribution of such products manufactured by another company. Such transition included ensuring that the quality of such products as manufactured by the third party was consistent with the quality of such products previously manufactured by the Company. Since Mr. Hansen received his bonus during 2006, no further award was made to him for 2006 performance.

The Company reviewed Mr. Healy's performance and took into account his significant undertaking as Chief Financial Officer in instituting a new computer system and the enhancement of the Company's internal controls during the year. Mr. Brown's bonus was based in large part on his responsibilities as the president of the Company's distribution facilities and its relative financial performance as part of the Company's consolidated operating results.

Long Term Equity Based Compensation Awards

The goal of the Company's long-term equity based awards is to align the interests of the Executive Officers with those of the Company's stockholders and to provide each Executive Officer with a significant incentive to focus on the long term profitability of the Company. All awards to date were in the form of stock options, with exercise prices at the market price of the underlying common stock at the time of grant. Therefore, the Executive Officer would not receive any benefit unless the Company's share price increases, aligning the officers' interest with those of the Company's stockholders.

Prior to 2006, the Company provided long-term equity compensation to its executive officers through grants of stock options under the 1999 Employee Stock Option Plan (the "Employee Plan"). The Employee Plan gave the Company the ability to grant stock options to the Executive Officers and such other employees of the Company as determined by the Compensation Committee in its discretion. As part of the Company's review of its long-term equity compensation program, the Company engaged Steven Hall and Partners to review and consider restructuring such program. As a result, the Compensation Committee recommended that the Company adopt the 2006 Award and Stock Plan (the "2006 Plan").

Historically, the Compensation Committee would typically grant options to its Executive Officers on an annual basis at a regularly scheduled meeting of the Compensation Committee. In certain circumstances, newly hired officers and other employees may receive one time option grants at the next scheduled meeting of the Compensation Committee following their start date of employment. All such options are granted and priced as of the date they are approved by the Compensation Committee. In all cases, the exercise price is the market price of the Company's common stock on the date of grant. The Company makes no effort to time any grants to any specific period or market event.

Following the adoption of the 2006 Plan, the Company no longer grants stock options under the Employee Plan. All Executive Officers and other employees are now eligible for participation in the 2006 Plan. The Company has the ability under the 2006 Plan to make grants of restricted stock; (ii) stock appreciation rights; (iii) restricted stock awards; (iv) restricted stock units, (v) other awards based in common stock; (vi) dividend equivalents; (vii) performance shares or other stock-based performance awards; (viii) cash-based performance awards tied to achievement of specific performance objectives; and (ix) shares assumable in lieu of rights to cash compensation. The Compensation Committee has the authority to administer the 2006 Plan and make all awards thereunder.

The Company last made an award of stock options in December 2005. As such, the Compensation Committee made a determination that it would not make any grants of long term equity compensation during 2006. The Company has engaged Steven Hall and Partners to provide recommendations for the types of awards that may be appropriate in 2007 for the Compensation Committee to consider.

Executive Benefits

The Compensation Committee believes that certain benefits provided to our Executive Officers are important in assisting in the attraction and retention of key executive talent and that they are reasonable, competitive and consistent with our overall executive compensation philosophy. The following is an overview of the benefits and perquisites available to our Executive Officers.

General Benefits

Each of our Executive Officers receives health insurance, vacation pay and sick pay on levels that are generally available to all employees of the Company. In addition, the Company maintains a 401(k) Plan for its employees. The 401(k) Plan permits participants to defer portions of their salary for retirement. The Company matches a portion of those contributions for Executive Officers and other eligible participants. The Committee believes it is appropriate to maintain this additional contributory plan, with the matching feature, to provide an additional incentive for the participants to further provide for their

retirement. Each Executive Officer is eligible to contribute to such plan on the same basis as other employees and receives a corresponding matching contribution by the Company. The contributions by our Executive Officers are not treated any differently than contributions to other employees.

Automobile Allowances

Each of our Executive Officers receives either a Company car or an allowance. The Company currently provides an automobile to Mr. Ehler for his use. Mr. Ehler and the Company determine an allocation on a year to year basis as to the business and personal uses of the automobile and Mr. Ehler is taxed on the personal use of the automobile. The Company provides automobile allowances to each of the other Executive Officers.

Deferred Compensation Plan

The Company has established a Deferred Compensation Plan (the "Deferred Plan"). The eligible persons under such plan are S. Daniel Ponce, the Company's Chairman of the Board, Mr. Ehler and such other executive officers of the Company as the Compensation Committee shall designate from time to time. As of the date hereof, no other Executive Officer participates in the Deferred Plan.

Pursuant to the Deferred Plan, the Company agreed to make non-discretionary contributions of \$30,000 year for Mr. Ehler for a period of five (5) years commencing with fiscal 2004, so long as Mr. Ehler is an employee as of the end of each year. The Company may also make additional discretionary contributions for the benefit of Mr. Ehler or such other participants.

The contributions to the Deferred Plan are fully vested at the times of such contributions. Participants are given the ability to elect certain investment vehicles for the contributions, such as mutual funds. In general, a participant's account would be distributed on the earlier of the fourth anniversary of the date on which such participant commenced participation in such plan or the first day of the month immediately following the participant's termination of employment; provided however, Mr. Ehler is not entitled to receive distributions on account of his termination other than for reasons of death or disability until six months following such termination. Each participant has the right to further defer payment under certain circumstances; provided however distributions would be made to participants in the form of a lump sum payment or at the election of the participant in monthly installments of no less than 24 months and no more than 60 months.

The Company established the Deferred Plan in 2004 in part to recognize the long term contributions Mr. Ehler made to the Company and to provide for a retirement benefit that is not otherwise available to Mr. Ehler.

Employment Agreements

The Company does not generally believe that employment agreements are necessary to attract and retain a management team committed to the Company's success and therefore do not typically enter into employment agreements with our Executive Officers. However, we are party to a one year renewable employment agreement with Mr. Ehler, which was entered into in 1993. The only severance arrangement the Company maintains with its executive officers is also reflected in Mr. Ehler's employment agreement. In connection with such employment agreement, the Company has the right to terminate Mr. Ehler's employment, without cause, at any time upon thirty days written notice, provided the Company pays to Mr. Ehler a severance payment equivalent to 50% of his then current annual base salary.

The employment agreement was entered into with Mr. Ehler in 1993 in consideration for the length of time that Mr. Ehler had spent with the Company (at that time in excess of 17 years). The Company believes that due to Mr. Ehler's lengthy service with the Company, Mr. Ehler was entitled to a certain level of severance in the event that his employment was terminated without cause. Mr. Ehler's employment agreement is more fully described in

Executive Compensation Employment Agreements below. No other executive has an employment agreement or severance arrangement with the Company.

Change in Control/Severance Arrangements

The Company also does not generally believe in change of control arrangements. However, there is a change of control provision contained in Mr. Ehler's employment agreement. In the event of a change in control, Mr. Ehler's employment agreement would be automatically extended to a three year period. Thereafter, Mr. Ehler would be entitled to terminate his employment with the Company for any reason at

any time. In the event Mr. Ehler so terminates his employment, Mr. Ehler would be entitled to receive the lesser of (i) a lump sum equal to the base salary payments and all other compensation and benefits Mr. Ehler would have received had the employment agreement continued for the full term; or (ii) three times Mr. Ehler's base salary then in effect on the effective date of termination. Mr. Ehler would also be entitled to such payments in the event the Company terminates Mr. Ehler's employment without cause after a Change of Control.

Mr. Ehler has served in several executive capacities with the Company for over 30 years and the Company believes that it is in the best interests of the Company and our stockholders to ensure that if a hostile or friendly change of control is ever under consideration, Mr. Ehler will be able to advise the Board about the potential transaction in the best interests of the stockholders without being unduly influenced by personal considerations, such as fear of economic consequences resulting from losing his job as a result of the change of control. The Compensation Committee believes that only Mr. Ehler would be in a position to provide such advice among the Executive Officers and due to his long history with the Company has earned the right to such economic protection.

Impact of Accounting and Tax Treatment of Compensation

Section 162(m) of the Internal Revenue Code generally limits the corporate tax deduction for compensation paid to our Executive Officers that is not performance based to \$1 million annually per executive officer. The annual and long-term incentive plans are designed so that awards granted to the covered individuals meet Section 162(m) requirements for performance-based compensation, and thus, these awards should not be counted toward the \$1 million limitation on tax deductions for an executive officer's compensation in any fiscal year. The annual and long-term incentive plans give the Company flexibility to pay qualifying performance-based compensation and it is our intention to structure compensation so that Section 162(m) does not adversely affect the Company's tax deduction. However, there may be instances in which we determine that we cannot structure compensation accordingly. In those instances, the Compensation Committee may elect to structure elements of compensation (such as certain qualitative factors in annual bonuses) to accomplish business objectives that it believes are in the best interests of the Company and its stockholders, even though doing so may reduce the amount of our tax deduction for said compensation.

Other provisions of the Internal Revenue Code also can affect the decisions which the Compensation Committee makes. Under Section 280G of the Internal Revenue Code of 1986, as amended (the Code), a 20% excise tax is imposed upon executive officers who receive excess payments upon a change in control of a public corporation to the extent the payments received by them exceed an amount approximating three times their average annual compensation. The excise tax applies to all payments over one time annual compensation, determined by a five year average. A company also loses its tax deduction for excess payments. The Company's change-in-control arrangement with Mr. Ehler does not provide for gross ups so that Mr. Ehler would be responsible for any tax consequences.

Effective January 1, 2006, the Company adopted Financial Accounting Standard SFAS 123R, Share Based Payment, for accounting of all equity based compensation. The Company's accounting for the long-term incentive compensation (e.g., expensing of stock options) is compliant with FASB 123R.

Section 409A of the Internal Revenue Code imposes distribution requirements on nonqualified deferred compensation plans and arrangements. If a nonqualified deferred compensation plan or arrangement fails to comply with Section 409A, an executive participating in such plan or arrangement will be subject to adverse tax consequences (including an additional 20% income tax on amounts deferred under the plan or arrangement). Our nonqualified deferred compensation plan for Mr. Ehler and any other executive officer, who may be eligible in the future, is intended to comply with Section 409A, or to be exempt from the requirements of such section. In the event of non-compliance, Mr. Ehler would not receive a gross up so that Mr. Ehler would be responsible for any tax consequences.

Options granted under the Employee Plans have a term up to 10 years and are exercisable six months from the grant date. A total of 225,000 shares are presently reserved for issuance under the Employee Plan. As of December 31, 2006, there were outstanding options to purchase 52,971 shares under the Employee Plan. The exercise prices for the outstanding options range from \$.72 to \$14.75 per share. All options expire five (5) years from the date of grant and are fully vested. Audit Committee Pre-Approval Policy

The Audit Committee has adopted procedures for pre-approving all audit and permissible non-audit services provided by the independent auditor. The Audit Committee may either pre-approve such services based on the amount of fees associated with such services without consideration of specific case-by-case services (general approval) or pre-approve specific services (specific pre-approval). Unless a type of service to be provided by the independent auditor has received general pre-approval, it will require specific pre-approval by the Audit Committee. For both types of pre-approval, the Audit Committee considers whether such services are consistent with the SEC's rules on auditor independence. The Audit Committee also considers whether the independent auditor is best positioned to provide the most effective and efficient services, for reasons such as familiarity with the Company's business, people, culture, accounting systems, risk profile and whether the services enhance the Company's ability to manage or control risks and improve audit quality.

The Audit Committee has considered whether the provision of non-audit services to the Company by Grant Thornton, LLP or PricewaterhouseCoopers LLP was compatible with maintaining the independence of Grant Thornton, LLP or PricewaterhouseCoopers LLP. Additional information concerning the Audit Committee and its activities with Grant Thornton, LLP or PricewaterhouseCoopers, LLP can be found in the sections of the proxy statement: ABoard Committees and Meetings@ and AReport of the Audit Committee.@

REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

This Report concerns the Audit Committee's activities regarding oversight of the Company's financial reporting and auditing process. The Company's Audit Committee is comprised of four non-employee members of the Company's Board of Directors and operates under a written charter adopted by the Audit Committee and approved by the Board of Directors. The complete text of the Audit Committee Charter is attached Annex I to the Company Proxy Statement for its annual meeting of stockholder for 2004 and is also available on the Company's website at www.imperialindustries.com. The composition of the Audit Committee, the attributes of its members and the responsibilities of the Audit Committee, are as reflected in the Audit Committee Charter.

All of the current members of the Audit Committee are independent as defined by the listing standards of the NASDAQ Stock Market, promulgated by the National Association of Securities Dealers, Inc.

As set forth in more detail in the Audit Charter, the Audit Committee's primary responsibilities fall into three broad categories:

- **Financial Reporting Oversight.** The Audit Committee is charged with monitoring the preparation of quarterly and annual financial statements by the Company's management, including discussions with management and the Company's independent auditors about draft annual financial statements and other accounting and reporting matters.

- **Independent Auditor Relationship.** The Audit Committee is responsible for matters concerning the relationship between the Company and its independent auditors, including recommending their appointment or removal; reviewing the scope of their audit services and related fees, as well as other services being provided to the Company; and determining whether such auditors are independent; and

- **Internal Controls Oversight.** The Audit Committee oversees management's implementation of effective systems of internal controls, including review of policies relating to regulatory compliance, ethics and conflicts of interest..

During the year ended December 31, 2006, the Audit Committee met six times. The Audit Committee schedules its meetings with a view to ensuring that it is able to devote sufficient time and attention to all of its tasks. The meetings were designed to facilitate and encourage private communications between the members of the Audit Committee, management and the Company's independent auditors, Grant Thornton, LLP. In addition to formal meetings of the Audit Committee, the Chairman of the Audit Committee meets regularly with the Company's management and accounting staff to review financial reporting and internal controls, as well as with the Company's independent auditors. The Chairman then reports to the Audit Committee on his findings. The Audit Committee reports on its activities to the full Board of Directors, usually at the next Board meeting.

The Company's management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles and internal controls. Grant Thornton, LLP is responsible for performing an independent audit of the consolidated financial statements in accordance with generally accepted auditing standards and expressing an opinion on the conformity of those audited financial statements and for

expressing an opinion on management's assessment of the effectiveness of internal controls and on the effectiveness of the Company's internal controls over financial reporting.

The functions of the Audit Committee are not intended to duplicate, or to certify, the activities of management and the independent auditors. The Audit Committee provides a Board-level oversight role, in which it provides advice, counsel and direction to management and the auditors on the basis of the information it receives, discussions with management and the auditors, and the experience of the Audit Committee's members in business, financial and accounting matters.

In overseeing the preparation of the Company's consolidated financial statements, the Audit Committee met with both management and representatives of Grant Thornton, LLP to review and discuss the Company's audited financial statements for the year ended December 31, 2006 and quarterly operating results prior to their issuance, including a discussion of the reasonableness of significant judgments and the clarity of disclosure in the financial statements. During fiscal 2006, Management advised the Audit Committee that all financial statements were prepared in accordance with generally accepting accounting principles and reviewed significant accounting and disclosure issues with the Audit Committee. The Audit Committee met with Grant Thornton, LLP., with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting.

The Audit Committee's review included discussion with the independent auditors of matters required to be discussed pursuant to *Statement on Auditing Standards No. 61, A Communication with Audit Committees*,@ including the quality of the Company's accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

Grant Thornton, LLP also provided the Audit Committee with the written disclosures required by Independence Standards Board *Standard No. 1, A Independence Discussions with Audit Committees*.@ The Audit Committee discussed the independence of Grant Thornton, LLP., including the compatibility of non-audit services provided by such firm with its independence to the Company.

In addition, the Audit Committee reviewed the effectiveness of the Company's internal control structure. As part of this process, the Audit Committee continued to monitor the scope and adequacy of the Company's internal auditing program, reviewing staffing levels and steps taken to implement recommended improvements in internal procedures and controls.

Based upon the above described reviews and the Audit Committee's discussions with management and Grant Thornton, LLP., the Audit Committee recommended that the Board of Directors include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the SEC. The Audit Committee has not yet made a recommendation as to the independent auditors for the Company's financial statements for the fiscal year ending December 31, 2007.

Respectfully Submitted,

Audit Committee
