Item 7.01. Regulation FD Disclosure

The following information is furnished pursuant to Item 7.01:

The Offshore and Land Rig Fleet and Contract Status Reports for Rowan Companies, Inc., each as of August 18, 2010, is attached as Exhibit 99.1 and 99.2. The Reports have been updated to provide details of recent drilling commitments for the jack-up rigs, Ralph Coffman and Bob Palmer.

Item 8.01. Other Events

Following the Deepwater Horizon incident, the Bureau of Ocean Energy Management, Regulation and Enforcement (formerly known as the Minerals Management Service) issued two Notices to Lessees (NTLs) implementing new safety regulations and information requirements applicable to shallow water drilling operations in the U.S. Gulf of Mexico. These NTLs impact the ability of our customers to obtain new permits on a timely basis and continue operations uninterrupted under existing permits. We are working with our customers to meet these requirements.

To date and as set forth in the Company's Offshore Fleet Status filed as an exhibit to this Current Report on Form 8-K, the Company currently has nine jack-up drilling rigs that are located in the U.S. Gulf of Mexico which may be impacted by the requirements of these recent NTLs from time to time.
