**Table of Contents**

**Consolidated Business Results**

For the first quarter of fiscal 2005, ended June 30, 2004, consolidated operating revenue was ¥163,487 million (US\$1,513.8 million), a 7.2% increase over the corresponding period in the previous year. For the same period, operating income was ¥5,004 million (US\$46.3 million), a 34.8% decrease, and net income decreased by 49.1% to ¥1,497 million (US\$13.9 million). The average value of the yen was up 7.9% against the U.S. dollar and up 1.8% against the euro from the corresponding period in the previous year.

**Home Electronics** sales increased 1.7% from the corresponding period in the previous year to ¥51,967 million (US\$481.2 million). In Japan, sales decreased by 12.6% to ¥13,855 million (US\$128.3 million), due to a decline in sales of recordable DVD drives for personal computers and audio products, despite the sales increase of DVD recorders and home-use plasma displays. Overseas sales increased 8.2% to ¥38,112 million (US\$352.9 million), due to rises in sales of home-use plasma displays and DVD recorders worldwide, despite a decline in sales of DVD players and audio products worldwide, as well as digital cable TV set-top boxes in North America.

**Car Electronics** sales amounted to ¥79,555 million (US\$736.6 million), up 6.4% over the corresponding period in the previous year. In Japan, sales increased 3.1% to ¥32,331 million (US\$299.4 million). This resulted from continuous strong sales of car navigation systems to automobile manufacturers, despite the decreased sales in consumer markets of both car navigation systems, due to new model switches in this quarter later than in the corresponding quarter of the previous fiscal year, and car audio products. Overseas sales increased 8.8% to ¥47,224 million (US\$437.3 million), due to growth in sales of car navigation systems in North America and Europe as well as higher sales of car audio products in other regions.

Royalty revenue from **Patent Licensing** decreased 15.9% from the corresponding period in the previous year to ¥2,875 million (US\$26.6 million). This reflects the expiration of the Company's optical disc-related patents in certain areas.

**Others** sales increased 25.2% from the corresponding period in the previous year to ¥29,090 million (US\$269.4 million). In Japan, sales decreased 2.5% to ¥12,653 million (US\$117.2 million) reflecting a shift in sales to China of semiconductors related to laser pickups and lower sales of business-use plasma displays, despite the increase in sales of factory-automation systems. Overseas, sales were up 60.2% to ¥16,437 million (US\$152.2 million), due to increased sales of optical disc manufacturing systems in Asia and semiconductors related to laser pickups in China, despite the decrease in sales of business-use plasma displays.

**Table of Contents**

Operating income decreased 34.8% from the corresponding period of the previous year to ¥5,004 million (US\$46.3 million). This was despite increased net sales, and reflected a decrease in gross profit margin due to intensified competition and adverse effects of the stronger yen against major currencies. Net income came to ¥1,497 million (US\$13.9 million), a 49.1% decrease from the corresponding period of last year, due to a decrease of operating income.

Basic net income per share of common stock was ¥8.53 (US\$0.08), compared with ¥16.75 for the corresponding period in the previous year. Diluted net income per share was ¥7.46 (US\$0.07), compared with ¥16.75 for the corresponding period in the previous year.

**Cash Flows**

Cash flows from operating activities decreased by ¥11,981 million to ¥5,676 million (US\$52.6 million) net cash used, compared with ¥6,305 million net cash provided in the corresponding period of the previous year. This decrease is mainly attributable to increased operating capital requirement, resulting from increases in inventories and payments for income taxes and employee bonuses. Net cash used in investing activities was ¥13,283 million (US\$123.0 million), up by ¥2,645 million compared with ¥10,638 million cash used in the corresponding period last year, mainly due to an increase in capital expenditures.

**Business Forecasts for Fiscal 2005**

Our consolidated business forecasts for fiscal 2005, ending March 31, 2005, are unchanged from those announced on April 27, 2004, which are shown below. We assume average yen-U.S. dollar and yen-euro exchange rates for the remaining period of fiscal 2005 of ¥105 and ¥130, respectively.
