Exchange Act (17 CFR 240.13e-4(c))

Edgar Filing: TECHNITROL INC - Form 8-K

Item 2.02 Results of Operations and Financial Condition

On April 25, 2005, Technitrol, Inc. issued a press release regarding its results of operations for its first fiscal quarter ended April 1, 2005, a copy of which is attached as Exhibit 99.1 to this Current Report.

The information in Item 2.02 of this Current Report and Exhibit 99.1, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the provisions of that Section, nor shall it be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended, or other document filed with the Commission, except as expressly set forth by specific reference in such filing.

Item 2.05 Costs Associated with Exit or Disposal Activities

On April 25, 2005, the Company committed to divest AMI Doduco's bimetall and metal cladding operations. The decision to divest this business is based on its non-core nature and the projected costs of maintaining its market position in future years relative to the expected returns and the Company's decision to invest available capital in its core precious metal contacts business. Based in Reidsville, North Carolina, this business contributed approximately \$21 million in revenues to AMI Doduco during fiscal 2004, posting an operating loss of \$0.3 million. The Company is presently evaluating the costs that may be incurred in selling the bimetall and cladding operations, which for accounting purposes are now treated as discontinued operations. The Company is unable to estimate the costs that may be incurred in connection with such divestiture at this time, if any, other than severance costs. The Company estimates that it will incur severance costs in the range of \$1.5 to \$1.8 million, however, this estimate is preliminary and subject to change upon finalization of the divestiture. The severance costs may be offset, in whole or in part, by the consideration received for the sale of the bimetall and metal cladding operations, including real property, from third parties. The Company expects to substantially complete the divestiture by December 31, 2005.

In order to, among other things, address current challenges in the marketplace, including the negative effects of high dollar-to-euro exchange rates and the resulting significant foreign exchange advantage of dollar-functional Chinese competitors affecting the consumer division of Pulse Engineering, Inc. ("Pulse"), a subsidiary of Technitrol, Inc., on April 22, 2005, Pulse committed to a restructuring plan to reduce cost of goods sold in the consumer division. Although Pulse's consumer division intends to remain a local source of supply in Europe, the restructuring plan includes relocating a significant portion of its flyback transformer production and substantially all of its switch-mode transformer production to existing Pulse facilities in the Peoples Republic of China and reducing the work force in the consumer division's headquarters in Italy and manufacturing plants in Turkey. It is expected that all actions pertaining to the restructuring plan will be substantially completed by December 31, 2005. The Company estimates the severance expenses will be in the range of \$800,000 to \$1 million, however, this estimate is preliminary and subject to change as the plan is finalized and implemented. While the Company expects to incur other charges in connection with such plan, it is unable to estimate such charges at the present time.

2

Item 2.06 Material Impairments

In connection with the restructuring plan described in Item 2.05 above, the Company expects to record asset impairment charges during the second quarter of 2005. Assets used in Pulse's consumer division including equipment, goodwill and separately-identified intangible assets may be subject to impairment. The

Edgar Filing: TECHNITROL INC - Form 8-K

amounts of such impairment expenses cannot be estimated at the present time.

Item 9.01 Financial Statements and Exhibits

(c) Exhibits

99.1 Press Release dated April 25, 2005 regarding Technitrol Inc.'s results of operations for the first fiscal quarter ended April 1, 2005.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
