The consideration paid for Eldor was approximately \$84 million in cash subject to post-closing adjustment based on the audit of certain financial performance measures of Eldor for 2002. The purchase price was determined through negotiations between the parties taking into account various factors including, but not limited to, the nature and monetary and strategic value of the business being acquired; historical and projected sales, gross profits and cash flows of Eldor. The funds for the purchase price were obtained from internal cash reserves.
