PROSPECTUS SUPPLEMENT

(To Prospectus dated December 20, 2005)

Teva Pharmaceutical Finance Company, LLC

\$500,000,000 0.25% Convertible Senior Debentures due 2026

Payment of principal and interest unconditionally guaranteed by and convertible into American Depositary Receipts of

Teva Pharmaceutical Industries Limited

This is an offering by Teva Pharmaceutical Finance Company, LLC (*Teva Finance*) of \$500,000,000 of its 0.25% Convertible Senior Debentures due 2026. *Teva Finance* will pay interest on the debentures on February 1 and August 1 of each year, beginning August 1, 2006 to the holders of record at the close of business on the preceding January 15 and July 15, respectively. Payment of all principal and interest payable on the debentures is unconditionally guaranteed by Teva Pharmaceutical Industries Limited (*Teva*).

Holders of the debentures may convert them into American Depositary Receipts (*ADRs*) of *Teva* at any time, at an initial rate of 21.2037 *ADRs* per \$1,000 principal amount (equal to a conversion price of approximately \$47.16 per *ADR*), subject to adjustment.

Teva Finance will settle any conversion of debentures in cash in an amount equal to the lesser of the aggregate principal amount of the debentures to be converted and the total conversion obligation of *Teva Finance* with any remaining conversion obligation of *Teva Finance* to be satisfied in *Teva ADRs*.

On or after February 1, 2008, *Teva Finance* may redeem some or all of the debentures at a redemption price equal to the principal amount of the debentures, plus accrued and unpaid interest. Holders of the debentures may require *Teva Finance* to repurchase their debentures on February 1, 2008, 2011, 2016 and 2021. Holders of the debentures may require *Teva Finance* to repurchase their debentures upon a change of control or a termination of trading.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

Teva ADRs are quoted on the Nasdaq National market under the symbol of TEVA . The last reported sale price of the ADRs on January 26, 2006, was \$41.01 per ADR. Each ADR currently represents one ordinary share of Teva. Teva ordinary shares are traded on the Tel Aviv Stock Exchange.

The debentures will be unsecured senior obligations of Teva Finance, and the guarantee will be an unsecured senior obligation of Teva. Teva Finance is an indirect subsidiary of Teva. Teva Finance intends to use the proceeds from the offering to refinance short-term bridge financing incurred in order to facilitate the consummation of Teva's merger with IVAX Corporation (Ivax).

Concurrently with this offering we and one of our affiliates will offer, by means of a separate prospectus supplement, (i) 5.550% Senior Notes due 2016 in the aggregate principal amount of \$500,000,000 and 6.150% Senior Notes due 2036 in the aggregate principal amount of \$1,000,000,000 and (ii) 1.75% Convertible Senior Debentures due 2026 in the aggregate principal amount of \$750,000,000. The senior notes will be our unsecured senior obligations and the convertible senior debentures will be the unsecured senior obligations of Teva Pharmaceutical Finance Company B.V., another wholly-owned indirect subsidiary of Teva, and will be guaranteed as to principal and interest by Teva.

Investing in the debentures involves risks. See Risk Factors beginning on page S-18 of this prospectus supplement and page 3 of the accompanying prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	<u>Per Debenture</u>	<u>Total</u>
Offering Price	100%	\$ 500,000,000
Underwriting Discount	0.729%	\$ 3,645,833
Proceeds to Teva Finance (before expenses)	99.271%	\$ 496,354,167

We have granted the underwriters a 30-day option to purchase up to an additional \$75,000,000 aggregate principal amount of the debentures to cover over-allotments on the same terms and conditions as set forth above.

Lehman Brothers, on behalf of the underwriters, expects to deliver the debentures on or about January 31, 2006.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights information contained elsewhere or incorporated by reference in this prospectus supplement and the accompanying prospectus. This is not intended to be a complete description of the matters covered in this prospectus supplement and the accompanying prospectus and is subject to, and qualified in its entirety by, reference to the more detailed information and financial statements (including the notes thereto) included or incorporated by reference in this prospectus supplement and the accompanying prospectus. Unless otherwise indicated, all references to the Company, we, us, our or Teva refer to Teva Pharmaceutical Industries Limited and its subsidiaries. All references to Teva Finance refer to Teva Pharmaceutical Finance Company, LLC, an indirect subsidiary of Teva.

The Company

We are a global pharmaceutical company producing drugs in all major treatment categories, including both generic and proprietary pharmaceutical products. We are one of the world's largest global generic drug companies and have the leading position in the U.S. generic market. We have successfully utilized our production and research capabilities to establish a global pharmaceutical operation focused on supplying the growing demand for generic drugs and on opportunities for proprietary branded products for specific niche categories, with our leading branded drug being Copaxone® for multiple sclerosis. Our active pharmaceutical ingredients (API) business provides both significant revenues and profits from sales to third party manufacturers and strategic benefits to our own pharmaceutical production through its timely delivery of significant raw materials.

Our operations are conducted directly and through subsidiaries in North America, Europe, Israel and several other jurisdictions. During the first nine months of 2005, we generated approximately 60% of our sales in North America, 29% in Europe and 11% in the rest of the world, predominantly in Israel.

Generic Pharmaceutical Products. Teva Pharmaceuticals USA, Inc. (Teva USA), our principal subsidiary, is the leading generic drug company in the United States. Teva USA markets approximately 220 generic products representing approximately 600 dosage strengths and packaging sizes, which are distributed and sold in the United States.

We are also participating in the growth and development of the European market for generic products. Through our European subsidiaries, we manufacture approximately 450 generic products representing over 4,000 dosage strengths and packaging sizes, which are sold primarily in The Netherlands, the United Kingdom, Hungary, France and Italy.

The potential for future sales growth of our generic products lies in our pipeline of pending generic product registrations, as well as tentative approvals already granted. As of December 31, 2005, we had:

149 product applications, some significant, awaiting approval by the U.S. Food and Drug Administration, which we refer to as the FDA, including 32 applications for which tentative FDA approval has already been granted. Collectively, the products covered by these 149 applications have corresponding annual U.S. branded sales of approximately \$87.4 billion. Of these 149 applications, 85 were submitted pursuant to a Paragraph IV procedure. We believe we are first-to-file on 41 of these applications, with annual U.S. branded sales of approximately \$27.3 billion; and

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

818 applications pending in Europe for 127 compounds in 264 formulations.

Proprietary Pharmaceutical Products. In the area of proprietary drugs, we leverage our access to Israeli-based academic research in order to develop innovative compounds for use in selected therapeutic markets. Our

S-1

Table of Contents

proprietary research and development pipeline is currently focused mainly in the areas of neurological disorders and autoimmune diseases, primarily in the development of Copaxone® for the treatment of multiple sclerosis, which has been sold in the United States since 1997, and the development of Agilect®/Azilect® (rasagiline's brand name in the United States and Europe, respectively) for the treatment of Parkinson's disease.

Copaxone®, our leading product and our first major innovative drug, is the first non-interferon agent used in the treatment of relapsing-remitting multiple sclerosis. Multiple sclerosis, or MS, is a debilitating autoimmune disease of the central nervous system. We launched Copaxone® in Israel in December 1996 and in the United States in March 1997. According to IMS Health Inc. (IMS) data, in the third quarter of 2005, Copaxone® further augmented its position as the U.S. market leader in both new and total prescriptions, reaching a total prescription share of 32.9% in September 2005. The ongoing growth in sales of Copaxone® in the United States has been enhanced by the continued penetration of Copaxone® in most European countries, with the most significant being Germany. Copaxone® has been approved for marketing in 44 countries, including the United States, Mexico, Israel, Canada, twenty-two countries in the European Union, Switzerland, Australia, Russia, Brazil and Argentina.

In September 2003, following the successful completion of two phase III clinical trials, we submitted to the FDA a New Drug Application for Agilect® for the treatment of Parkinson's disease. Final marketing authorization for Azilect® covering European Union countries was granted by the European Commission in February 2005. Azilect® was launched in the United Kingdom in June 2005, following its introduction into the Israeli market in March 2005, and is on track to be launched progressively in other European countries during 2006. In the United States, on August 5, 2005, we received a letter from the FDA regarding our NDA for Agilect®, reiterating the FDA's position that the application is approvable, although there remain a number of issues that we believed we had resolved with our submissions, but as to which the FDA continues to have concerns. We have subsequently had a follow-up meeting with the FDA to discuss issues raised in their letter, and we have then made additional submissions of information to the FDA. We intend to continue to work closely with the agency to resolve the open issues.

Pharmaceutical Production. We operate 20 finished dosage pharmaceutical plants in North America, Europe and Israel, including a new state of the art production facility recently opened in Jerusalem. The plants manufacture solid dosage forms, injectables, liquids and semi-solids. During 2005, our plants produced approximately 22 billion tablets and capsules and over 200 million injectable units.

Active Pharmaceutical Ingredients. We also possess significant manufacturing operations for the production of active pharmaceutical ingredients, and our active pharmaceutical ingredients division currently offers over 200 products to the market. With a leading global market share in certain major chemicals for generic pharmaceuticals, our active pharmaceutical ingredients business also facilitates our entry into new drug markets and offers a cost effective source of raw materials for our own pharmaceutical production.

We were incorporated in Israel on February 13, 1944 and are the successor to a number of Israeli corporations, the oldest of which was established in 1901. Our executive offices are located at 5 Basel Street, P.O. Box 3190, Petach Tikva 49131 Israel, telephone number 972-3-926-7267.

Teva Finance

Teva Finance is a Delaware limited liability company that was formed on December 16, 2005 to issue debt securities pursuant to the accompanying prospectus. Its address is 1090 Horsham Road, North Wales, Pennsylvania 19454, telephone number (215) 591-3000.

Table of Contents

Recent Developments

Ivax Acquisition

On January 26, we consummated the acquisition of IVAX Corporation (Ivax). The aggregate consideration for the Ivax acquisition was approximately \$8.75 billion comprised of approximately \$3.75 billion in cash and \$5.0 billion in ADRs based on the value of our ADRs at the close of trading on January 26, 2006.

About Ivax. Ivax is a multinational company engaged in the research, development, manufacture and marketing of pharmaceutical products. Ivax manufactures and/or markets several brand name pharmaceutical products and a wide variety of brand equivalent and over-the-counter pharmaceutical products, primarily in the United States, Europe and Latin America. Ivax markets a number of proprietary and brand name products treating a variety of conditions. These products are marketed by its direct sales force to physicians, pharmacies, hospitals, managed care organizations, or MCOs, and government agencies.

Ivax has substantial expertise in the development, manufacture and marketing of respiratory drugs, primarily for bronchial asthma, in metered-dose and dry powder inhaler formulations. Its United Kingdom subsidiary is the third largest respiratory company in that market based on IMS sales data for 2004. At the core of Ivax 's respiratory franchise are advanced delivery systems, which include a patented breath-actuated dose inhaler called Easi-Breathe and a patented dry-powder inhaler called Airmax, as well as conventional metered-dose inhalers. Ivax has pioneered the development of aerosol products that do not contain CFCs (chlorofluorocarbons), chemicals that are believed to be harmful to the environment, which are being phased out on a global basis.

Proprietary Pharmaceutical Products. Ivax has been committed to the cost-effective development of proprietary pharmaceuticals directed primarily towards indications having relatively large patient populations or for which it believes limited or inadequate treatments are available, with an emphasis on the development of products in the neurological, oncology and respiratory fields. As part of this strategy, from time to time, Ivax has entered into licensing and collaborative alliances, which allow it to exploit its drug development capabilities or provide it with valuable intellectual property and technologies.

Generic Pharmaceutical Products. Ivax also markets a broad line of brand equivalent pharmaceutical products, both prescription and over-the-counter. In the United States, Ivax manufactures and markets approximately 81 brand equivalent prescription drugs in an aggregate of approximately 183 dosage strengths. In the United States, Ivax distributes approximately 190 additional brand equivalent prescription and over-the-counter drugs as well as vitamin supplements. In the United Kingdom, Ivax is a leading provider of brand equivalent pharmaceutical products, marketing approximately 438 brand equivalent drugs, about half of which it manufactures. As of December 31, 2005, Ivax had:

61 abbreviated new drug applications awaiting approval by the FDA. Ivax believes it is first-to-file on twelve of these applications, with annual U.S. branded sales of approximately \$11.6 billion during the twelve months ended September 30, 2005; and

over 300 generic applications pending with agencies in 14 countries outside of the United States.

Ivax was incorporated in Florida in 1993, as successor to a Delaware corporation formed in 1985. Its executive offices are located at 4400 Biscayne Boulevard, Miami, FL 33137, telephone number (305) 575-6500.

Table of Contents

Strategic Rationale. We believe that a business combination with Ivax provides a unique opportunity to advance our strategic goal of being a world leader in supplying the growing global demand for generic drugs, while simultaneously pursuing opportunities for proprietary branded products for specific niche categories. The merger will provide us with an ability to respond, on a global scale, to a wider range of requirements of patients, customers and healthcare providers, both therapeutically and economically. Key elements of this unique strategic fit include:

Complementary Geographies. The acquisition of Ivax will provide us with both complementary and added geographic coverage in a large variety of markets for generic drugs. The merger will strengthen our leadership in the U.S. generics market in terms of the breadth of our product offerings, a further deepening of our already rich generic product pipeline and an expansion of the technologies available to us for both current and future products. In European markets for generic drugs, the merger will enhance our current leadership position in the United Kingdom, enable us to obtain a leadership position in France, Russia and the Czech Republic, and provide us with a strong base in Poland. The merger will also allow us to significantly accelerate and expand our presence in Latin America a region considered to be among the fastest growing pharmaceutical markets in the world where, in addition to complementing our existing position in Mexico and Argentina, the addition of Ivax operations will extend our reach into new Latin American markets including Venezuela, Chile and Peru. As a result of the merger, we will have a direct presence in more than 50 countries and indirect sales in numerous others, giving us an industry-leading global reach.

Global Generic Research and Development. We believe that the merger will enhance our generic research and development capabilities. We believe an increase in the number of filings at the FDA, complementary therapeutic areas and an increased likelihood of first-to-file status, will enhance the value of the combined pipeline of Teva and Ivax. The combined entity will have additional scientific capabilities and technologies across a broad range of markets and geographies, and will thus provide us a greater opportunity to leverage development across markets.

Expanded Therapeutic Proprietary Portfolio. The merger will give us a targeted presence in Ivax's key branded areas, specifically Ivax's presence in respiratory products, including its unique breath-actuated inhaler technology and its line of environmentally friendly inhalers. Respiratory products are one of the largest product categories that were missing from our otherwise broad line of pharmaceutical products. In addition, we will benefit from Ivax's extensive proprietary drug research pipeline that includes products in various stages of clinical and pre-clinical development and that, in many respects, complements our existing proprietary drug focus on multiple sclerosis, other central nervous system diseases and oncology.

Expanded Opportunities for Vertical Integration. The addition of Ivax operations to the Teva family of companies will provide us with an opportunity to expand the vertical integration between our active pharmaceutical ingredient business and Ivax's finished dose manufacturing operations in both existing and new geographic markets.

Animal Health Business. Through the merger we will acquire Ivax's animal health business. Ivax is a leading provider of generic drugs for companion and farm animals in the United States. Throughout much of our history, we have also been engaged in the veterinary business, primarily as a developer of products, especially vaccines for the care of livestock, albeit on a scale which is minor relative to the scope of our other operations. We believe that the combination of the two companies may provide potential product and technology synergies, and the potential for geographic expansion in the field of veterinary pharmaceuticals.

Complementary Technologies. The merger will increase our current technology coverage, such that the technologies which the combined companies could utilize and deploy will include tablets, capsules, controlled release products, ointments, creams, liquids, suspensions, soft gels, lyophilized products, injectibles, metered dose inhalers, nasal sprays and breath-actuated inhalers.

Table of Contents

Financial Benefits. We anticipate that the merger will become accretive to earnings within the first year after the effective time of the merger, and that substantial opportunities exist for both revenue and cost synergies in the combination of these two businesses. Such synergies could be expected to come from efficiencies in manufacturing and the integration of Ivax's manufacturing operations into our global supply chain, savings in sales, general and administrative expenditures and research and development expenses due to a consolidation of operations, and opportunities for significant reductions in cost of goods sold due to vertical integration and economies of scale in raw materials sourcing. The expansion of customer bases and geographic markets, complementary systems of distribution and the offering of a broader portfolio of products to existing customers could also be expected to result in enhanced opportunities for revenue growth.

Concurrent Senior Notes and Convertible Senior Debentures Offering

Concurrently with this offering, we and one of our affiliates will offer, by means of separate prospectus supplements, (i) 5.550% Senior Notes due 2016 in the aggregate principal amount of \$500 million (ii) 6.150% Senior Notes due 2036 in the aggregate principal amount of \$1,000 million and (iii) 1.75% Convertible Senior Debentures due 2026 in the aggregate principal amount of \$750 million. The senior notes will be our unsecured senior obligations and the convertible senior debentures will be the unsecured senior obligations of Teva Pharmaceutical Finance Company B.V., another wholly-owned indirect subsidiary of Teva, and will be guaranteed as to principal and interest by Teva.

Table of Contents

The Offering

Issuer	Teva Pharmaceutical Finance Company, LLC, an indirect, wholly owned subsidiary of Teva Pharmaceutical Industries Limited which has no assets or operations other than in connection with this offering.
Securities Offered	\$500 million in aggregate principal amount of 0.25% Convertible Senior Debentures due 2026. The debentures will be convertible into ADRs of Teva. Teva Finance has granted the underwriters a 30-day option to purchase up to an additional \$75 million in aggregate principal amount of debentures.
Guarantee	Teva will irrevocably and unconditionally guarantee the punctual payment when due of the principal of and interest and additional tax amounts as described in Description of the Debentures and the Guarantee Additional Tax Amounts, if any, on the debentures.
Ranking	<p>As indebtedness of Teva, the guarantee will rank:</p> <p style="padding-left: 40px;">senior to the rights of creditors under debt expressly subordinated to the debentures;</p> <p style="padding-left: 40px;">equally with other unsecured debt of Teva from time to time outstanding other than any that is subordinated to the debentures;</p> <p style="padding-left: 40px;">effectively junior to Teva's secured indebtedness up to the value of the collateral securing that indebtedness; and</p> <p style="padding-left: 40px;">effectively junior to the indebtedness of Teva's subsidiaries.</p>
Maturity	The debentures will mature on February 1, 2026, unless earlier redeemed, repurchased or converted.
Interest Payment Dates	February 1 and August 1, beginning August 1, 2006, and at maturity.
Interest Rate	0.25% per year. See Description of the Debentures and the Guarantee Payment of Interest and Principal.
Optional Conversion by Holders	<p> Holders may convert the debentures, unless previously redeemed or repurchased, into the conversion value of Teva ADRs initially at a conversion rate of 21.2037 ADRs per \$1,000 principal amount of debentures (equal to an initial conversion price of approximately \$41.01 per ADR). The conversion rate is subject to adjustment upon the occurrence of certain events. See Description of the Debentures and the Guarantee Conversion Rights Conversion Rate Adjustments. The debentures may be converted at any time prior to the close of business on the business day prior to February 1, 2026. See Description of the Debentures and the Guarantee Conversion Rights.</p>

Upon conversion, we will deliver cash in an amount equal to the lesser of the aggregate principal amount of the debentures to be converted and the total conversion obligation of Teva Finance with

S-6

Table of Contents

any remaining conversion obligation of Teva Finance to be satisfied in Teva ADRs as described under Description of the Debentures and the Guarantee Conversion Rights Settlement Upon Conversion.

Adjustment to the Conversion Rate Upon Certain Changes in Control

If and to the extent you convert your debentures in connection with a non-stock change of control as defined under Description of the Debentures and the Guarantee Adjustment to Conversion Rate Upon Certain Changes in Control before February 1, 2008, we will increase the conversion rate for the debentures by a number of additional ADRs by reference to the table in Description of the Debentures and the Guarantee Adjustment to Conversion Rate Upon Certain Changes in Control, unless we elect to adjust the conversion rate and related conversion obligation upon a non-stock change of control constituting a public acquiror change of control as defined under Description of the Debentures and the Guarantee Conversion After a Public Acquiror Change of Control.

Optional Redemption by Teva Finance

On or after February 1, 2008, Teva Finance may redeem some or all of the debentures at a price equal to 100% of the principal amount of such debentures, plus accrued and unpaid interest. See Description of the Debentures and the Guarantee Optional Redemption by Teva Finance.

Right of Holders to Require Repurchase

Each holder of the debentures may require Teva Finance to repurchase some or all of the holder's debentures at 100% of their principal amount, plus accrued and unpaid interest

on February 1, 2008, 2011, 2016 and 2021; and

in certain circumstances involving a change of control of Teva or upon a termination of trading of its securities.

Use of Proceeds

Teva Finance intends to, indirectly through affiliates, use these funds to refinance short-term bridge financing incurred to pay a portion of the purchase price paid in the Ivax acquisition. More than 10% of the net proceeds of the offering will be paid to affiliates of some of the underwriters to repay the bridge facility used in connection with our acquisition of Ivax. See Underwriting.

Form, Denomination and Registration

The debentures will be issued only in fully registered form without coupons and in minimum denominations of \$1,000 and whole multiples of \$1,000 in excess thereof. The debentures will be evidenced by one or more global debentures deposited with the trustee of the debentures, as custodian for DTC. Beneficial interests in the global debentures will be shown on, and transfers will be effected through, records maintained by DTC and its direct and indirect participants.

Table of Contents

Absence of a Public Market for the Debentures The debentures are new securities for which no market currently exists. While the underwriters have informed us that they intend to make a market in the debentures, they are under no obligation to do so and may discontinue such activities at any time without notice. The debentures will not be listed on any securities exchange or included in any automated quotation system. We cannot assure you that any active or liquid market will develop in the debentures.

Nasdaq Symbol for Teva ADRs Teva ADRs are traded on the Nasdaq National Market under the symbol TEVA.

Table of Contents**Summary Selected Historical Financial Data of Teva**

The summary selected financial data set forth below for each of the years in the three-year period ended December 31, 2004 and at December 31, 2004 and 2003 are derived from Teva's audited consolidated financial statements and related notes incorporated by reference into this prospectus supplement, which have been prepared in accordance with accounting principles generally accepted in the United States, or U.S. GAAP. The selected financial data for each of the years in the two-year period ended December 31, 2001 and at December 31, 2002 are derived from other audited consolidated financial statements of Teva, which have been prepared in accordance with U.S. GAAP.

The summary selected unaudited financial data as of and for each of the nine month periods ended September 30, 2005 and 2004 are derived from unaudited consolidated financial statements incorporated by reference into this prospectus supplement. Such financial statements include, in Teva's opinion, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the results for the unaudited periods. You should not rely on these interim results as being indicative of results Teva may expect for the full year or any other interim period.

The information set forth below is only a summary and is not necessarily indicative of the results of future operations of Teva or the combined company, and you should read the summary selected historical financial data together with Teva's audited consolidated financial statements and related notes and "Operating and Financial Review and Prospects" included in Teva's Annual Report on Form 20-F and Reports of Foreign Private Issuer on Form 6-K incorporated into this prospectus supplement by reference. See the section entitled "Where You Can Find More Information" for information on where you can obtain copies of these documents.

- (1) Historical figures have been adjusted to reflect the two for one stock splits effected in June 2004, December 2002 and February 2000. Each ADR represents one ordinary share.
- (2) Diluted Earnings per ADR for the years 2003, 2002 and 2001 has been restated to reflect the potential dilution of convertible senior debentures, pursuant to the adoption of EITF No. 04-8, which requires that the shares issuable upon conversion of such debentures be included in the computation of diluted Earnings per ADR, regardless of the contingent features included in the instrument. Diluted Earnings per ADR for the nine months ended September 30, 2004, before one-time items, has also been restated, to reflect the potential dilution of convertible senior debentures due 2024, pursuant to the adoption of EITF No. 04-8. In computing earnings per ADR for the nine months period ended September 30, 2004, no account was taken of potential dilution that could occur upon the conversion of all convertible senior debentures, since such debentures would have had an antidilutive effect on earnings per ADR.
- (3) See the reconciliation set forth below.

Teva believes that excluding the following one-time items, which primarily relate to purchase accounting adjustments in connection with the acquisition of Sicor in January 2004 (mainly in-process R&D) and to certain product rights acquired as part of a litigation settlement, from its results of operations represents a better indicator of the underlying trends in its business. The results, after these exclusions and inclusions, are the primary results used by management and Teva's board of directors to evaluate Teva's operational performance, to compare against Teva's annual work plans and budgets, and ultimately to evaluate the performance of management.

Table of Contents**Summary Selected Historical Financial Data of Ivax**

The summary selected financial data set forth below for each of the years in the three-year period ended December 31, 2004 and at December 31, 2004 and 2003, and are derived from Ivax's audited consolidated financial statements and related notes incorporated by reference into this prospectus supplement, which have been prepared in accordance with U.S. GAAP. The selected financial data for each of the years in the two-year period ended December 31, 2001 and at December 31, 2002 are derived from other audited consolidated financial statements of Ivax, which have been prepared in accordance with U.S. GAAP.

The summary selected unaudited financial data as of and for each of the nine month periods ended September 30, 2005 and 2004 are derived from unaudited consolidated financial statements incorporated by reference into this prospectus supplement. Such financial statements include, in Ivax's opinion, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial position and operating results for the unaudited periods. You should not rely on these interim results as being indicative of results Ivax may expect for the full year or any other interim period.

The information set forth below is only a summary and is not necessarily indicative of the results of future operations of Ivax or the combined company, and you should read the summary selected historical financial data together with the audited and unaudited consolidated financial statements and related notes of Ivax included in Teva's Report of Foreign Private Issuer filed on December 16, 2005 (Form 6-K), incorporated into this prospectus supplement by reference. See the section entitled "Where You Can Find More Information" for information on where you can obtain copies of these documents.

- (1) On May 11, 2005, Ivax acquired PSI Holdings, Inc., the parent company of Phoenix Scientific, Inc. (Phoenix), a generic veterinary pharmaceutical manufacturing company. The operating results of Phoenix are included in the consolidated financial statements subsequent to the May 11, 2005 acquisition date.
- (2) Includes the post-acquisition results of companies acquired, either directly or indirectly, primarily Corporacion Medco S.A.C. and Botica Torres de Limatambo S.A.C. on June 2, 2004 and Kutnowskie Zaklady Farmaceutyczne POLFA SA on December 15, 2004. Also includes the effects of positive resolution of previously accrued potential service level claims, which increased net revenues and gross profit by \$8.1 million and the tax provision by \$3.0 million, and reversal of \$8.6 million of tax reserves, relating to prior years' tax issues at three foreign subsidiaries, that on review were determined to no longer be necessary, partially offset by \$2.8 million of additional valuation allowance recorded against a deferred tax asset at another European subsidiary. The total impact of these changes increased net income by \$10.9 million, or \$0.04 per diluted share.
- (3) Includes the post-acquisition results of companies acquired, primarily API Industries, Inc. on January 24, 2003, and a branded respiratory business in Europe on October 1, 2003. Also includes the effects of improvements in sales return and customer inventory experience,

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

doubtful accounts and analysis of tax reserves that increased net revenues by \$13.7 million, reduced cost of sales by \$0.8 million, reduced bad debt expense by \$3.7 million, reduced the income tax provision by \$2.7 million, increased net income by \$14.0 million and increased diluted earnings per share by \$0.06.

Table of Contents

- (4) The discontinued operations in 2003 relates to a number of agreements, for certain patent and product rights and settlement of litigation related to a contingent sale price dispute from our 1997 sale of McGaw, Inc. to B. Braun Melsungen AG.
- (5) The cumulative effect of a change in accounting principle relates to adoption of Statement of Financial Accounting Standards No. 142 in 2002 and Securities and Exchange Commission Staff Accounting Bulletin No. 101 in 2000.
- (6) Includes the post-acquisition results of companies acquired, primarily Laboratorio Chile S.A. on July 5, 2001, Ivax Scandinavia AB on March 13, 2001, and Ivax Pharmaceuticals Mexico, S.A. de C.V. on February 9, 2001, all of which were accounted for under the purchase method of accounting.

Notice regarding Arthur Andersen LLP

Ivax's consolidated financial statements as of and for each of the years ended December 31, 2001 and 2000, which are incorporated by reference into this prospectus supplement, were audited by Arthur Andersen LLP, which issued a publicly available audit report expressing its unqualified opinion with respect thereto. Ivax dismissed Arthur Andersen LLP in May 2002. Additionally, Ivax has not required its current auditors to re-audit these financial statements. Since Ivax has not obtained the consent of Arthur Andersen LLP, which has ceased operations, you may not be able to recover against Arthur Andersen LLP under United States securities laws for any misstatement of a material fact contained in the financial statements audited by Arthur Andersen LLP, or any omissions to state a material fact required to be stated therein. To the extent that any shareholder could make a successful claim against Arthur Andersen LLP for any matter related to these financial statements, due to Arthur Andersen LLP's current financial and legal circumstances, the ability of Arthur Andersen LLP to satisfy those claims may be limited as a practical matter.

Table of Contents

Summary Selected Unaudited Pro Forma Combined Condensed Financial Data

The following selected unaudited pro forma combined condensed financial data present the effect of the acquisition of Ivax by Teva pursuant to the merger agreement. The following selected unaudited pro forma combined condensed statements of income data is extracted from the historical consolidated statements of income of Teva and Ivax and combines them as if the merger had occurred on January 1, 2004. The following selected unaudited pro forma combined condensed balance sheet data is extracted from the historical consolidated balance sheet of Teva and the historical consolidated balance sheet of Ivax and combines them, giving effect to the merger as if it had occurred on September 30, 2005.

The allocation of the purchase price in the merger as reflected in these unaudited pro forma combined condensed financial data has, with the assistance of independent valuation specialists, been based upon preliminary estimates of the fair value of assets acquired and liabilities assumed as of the date of the merger. This preliminary allocation of the purchase price is based on available public information and is dependent upon certain estimates and assumptions, which are preliminary and have been made solely for the purpose of developing such pro forma combined condensed financial data.

For the reasons mentioned in the prior paragraph, a final determination of the fair values of Ivax's assets and liabilities, which cannot be made prior to the completion of the transaction, will be based on the actual net tangible and intangible assets of Ivax that exist as of the date of completion of the merger. Consequently, amounts preliminarily allocated to goodwill and identifiable intangibles could change significantly from those used in the combined condensed pro forma financial data presented below and could result in a material change in amortization of acquired intangible assets.

The unaudited pro forma combined condensed financial data do not include liabilities resulting from integration planning and adjustments in respect of possible settlements of outstanding litigation, as these are not presently estimable. In addition to the completion of the valuation, the impact of ongoing integration activities, the timing of completion of the transaction and other changes in Ivax's net tangible and intangible assets that occur prior to completion of the transaction could cause material differences in the information presented.

The unaudited pro forma combined condensed financial data are not necessarily and should not be assumed to be an indication of the results that would have been achieved had the transaction been completed as of the dates indicated or that may be achieved in the future.

This summary selected unaudited pro forma combined condensed financial data should be read in conjunction with the Unaudited Pro Forma Combined Condensed Financial Statements and related notes included in Teva's Report of Foreign Private Issuer filed on December 16, 2005 (Form 6-K), the historical consolidated financial statements and the related notes of Teva and other financial information pertaining to Teva, including Teva's Operating and Financial Review and Prospects included in Teva's Annual Report on Form 20-F, and the audited and unaudited consolidated financial statements and related notes of Ivax included in Teva's Report of Foreign Private Issuer filed on December 16, 2005 (Form 6-K), all of which is incorporated by reference into this prospectus supplement. See the section entitled "Where You Can Find More Information" for more information on where you can obtain copies of these documents.

- (1) On an as adjusted pro-forma basis to give further effect to the issuance and sale of the debentures and the concurrent issuance and sale of our (i) 5.550% Senior Notes due 2016 in an aggregate principal amount of \$500 million, (ii) 6.150% Senior Notes due 2036 in an aggregate principal amount of \$1,000 million and (iii) 1.75% Convertible Senior Debentures due 2026 in an aggregate principal amount of \$750 million (assuming no exercise of the underwriters' over-allotment options) and the application of the net proceeds we receive to repay the amount of short-term debt financing actually incurred in connection with the acquisition of Ivax.

Table of Contents

RISK FACTORS

Before you invest in the debentures, you should carefully consider the risks involved. Accordingly, you should carefully consider the information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus, including the risk factors listed below and in the accompanying prospectus. See Forward Looking Statements.

We may not be able to repurchase the debentures, if required, upon a change of control, a termination of trading or upon your exercise of your rights to cause Teva Finance to repurchase your debentures.

In certain circumstances involving a change of control of Teva, a termination of trading of Teva's securities or upon your exercise of your rights to cause Teva Finance to repurchase your debentures, you may require us to repurchase some or all of your debentures. Our ability to repurchase the debentures in such event may be limited by law or by the terms of agreements we may enter into.

Future sales of our ordinary shares and ADRs in the public market could lower our stock price.

We have a substantial number of ordinary shares and ADRs subject to stock options and convertible securities (including the debentures offered by this prospectus supplement). We cannot predict the effect, if any, that future sales of our ordinary shares and ADRs or the availability of our ordinary shares and ADRs for future sale, will have on the market price of our ordinary shares and ADRs. Sales of substantial amounts of ordinary shares or ADRs, including shares issued upon the exercise of stock options or warrants or the conversion of our convertible securities, or the perception that such sales could occur, may adversely affect prevailing market prices for our ordinary shares and ADRs or the debentures.

There may not be a liquid market for the debentures and you may not be able to sell your debentures at attractive prices or at all.

The debentures are a new issue of securities for which there is currently no trading market. Although one or more of the underwriters have advised us that they currently intend to make a market in the notes, they are not obligated to do so and may discontinue their market-making activities at any time without notice. We do not intend to apply for listing of the debentures on any exchange or any automated quotation system. If an active market for the debentures fails to develop or be sustained, the trading price of the debentures could fall, and even if an active trading market were to develop, the debentures could trade at prices that may be lower than the initial offering price. The trading price of the debentures will depend on many factors, including:

prevailing interest rates and interest rate volatility;

the markets for similar securities;

our financial condition, results of operations and prospects;

the publication of earnings estimates or other research reports and speculation in the press or investment community;

changes in our industry and competition; and

general market and economic conditions.

As a result, we cannot assure you that you will be able to sell the debentures at attractive prices or at all.

A downgrade, suspension or withdrawal of the rating assigned by a rating agency to the debentures, if any, could cause the liquidity or market value of the debentures to decline significantly.

We cannot assure you what rating, if any, will be assigned to the debentures. In addition, we cannot assure you that any rating so assigned will remain for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency if in that rating agency's judgment future circumstances relating to the basis of the rating, such as adverse changes in our business, so warrant.

S-18

Table of Contents

Because Teva is a foreign entity, you may have difficulties enforcing your rights under the guarantee.

Teva is an Israeli company. In addition, most of Teva's officers, directors or persons of equivalent position reside outside of the United States. As a result, service of process on them may be difficult or impossible to effect in the United States. Furthermore, due to the fact that a substantial portion of our assets are located outside of the United States, it may be difficult to enforce judgments obtained against us or any of our directors and officers in a United States Court.

An Israeli court may declare a judgment rendered by a foreign court in a civil matter, including judgments awarding monetary or other damages, enforceable if it finds that:

- (1) the judgment was rendered by a court which was, according to the foreign country's law, competent to render it;
- (2) the judgment is no longer appealable;
- (3) the judgment is enforceable according to the rules relating to the enforceability of judgments in Israel and the substance of the judgment is not contrary to public policy in Israel; and
- (4) the judgment can be executed in the state in which it was given.

A foreign judgment will not be declared enforceable by Israeli courts if it was given in a state, the laws of which do not provide for the enforcement of judgments of Israeli courts (subject to exceptional cases) or if its enforcement is likely to prejudice the sovereignty or security of Israel. An Israeli court also will not declare a foreign judgment enforceable if it is proved to the Israeli court that:

- (1) the judgment was obtained by fraud;
- (2) there was no due process;
- (3) the judgment was given by a court not competent to render it according to the laws of private international law in Israel;
- (4) the judgment is at conflict with another judgment that was given in the same matter between the same parties and which is still valid;
or
- (5) at the time the action was brought to the foreign court a claim in the same matter and between the same parties was pending before a court or tribunal in Israel.

The debentures will be subordinated to some of our existing and future indebtedness.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

Teva will irrevocably and unconditionally guarantee the punctual payment when due of the principal of and interest, if any, on the debentures. The guarantee will be Teva's general, unsecured obligations and will rank equally in right of payment with all of Teva's existing and future unsubordinated, unsecured indebtedness. The debentures will be effectively subordinated to any existing and future secured indebtedness Teva may have up to the value of the collateral securing that indebtedness and structurally subordinated to any existing and future liabilities and other indebtedness of our subsidiaries with respect to the assets of those subsidiaries. These liabilities may include debt securities, credit facilities, trade payables, guarantees, lease obligations, letter of credit obligations and other indebtedness. See Description of the Debentures and the Guarantee Description of the Guarantee. The indenture does not restrict us or our subsidiaries from incurring debt in the future, nor do they limit the amount of indebtedness we can issue that is equal in right of payment.

We will significantly increase our leverage as a result of the sale of debentures and the acquisition of Ivax.

In connection with the sale of the debentures and the acquisition of Ivax, we will incur approximately \$3,000 million of indebtedness, net of refinancings of indebtedness of Teva. As a result of this indebtedness, our principal and interest payment obligations will increase substantially. The degree to which we will be leveraged

Table of Contents

could affect our ability to obtain additional financing for working capital, acquisitions or other purposes and could make us more vulnerable to industry downturns and competitive pressures. Our ability to meet our debt service obligations will be dependent upon our future performance and access to financing, which will be subject to financial, business and other factors affecting our operations, many of which are beyond our control.

The adjustment to the conversion price upon the occurrence of certain types of changes in control may not adequately compensate you for the lost option time value of your debentures as a result of such change in control and may not be enforceable.

If certain types of changes in control occur on or prior to February 1, 2008, we will adjust the conversion price of the debentures to increase the number of ADRs issuable upon conversion. The number of additional ADRs to be issued will be determined based on the date on which the change of control becomes effective and the price paid per share of our common stock in the change of control as described under Description of the Debentures and the Guarantee Conversion Rights Conversion Procedures. While this adjustment is designed to compensate you for the lost option time value of your debentures as a result of certain types of changes of control, the adjustment is only an approximation of such lost value and may not adequately compensate you for such loss. In addition, if the price paid per share of our ADRs in the change of control is less than \$41.01 or more than \$70.00 (subject to adjustment), there will be no such adjustment.

The net share settlement feature of the debentures may have adverse consequences.

The net share settlement feature of the debentures, as described under Description of the Debentures and the Guarantee Conversion Rights Settlement Upon Conversion, may:

result in holders receiving no ADRs upon conversion or fewer ADRs relative to the conversion value of the debentures;

reduce our liquidity;

delay holders receipt of the proceeds upon conversion; and

subject holders to market risk before receiving any ADRs upon conversion.

The net share settlement value that you will receive upon conversion of the debentures will be dependent upon the Trading Price of Teva ADRs over a 20 trading day period as further described under Description of the Debentures and the Guarantee Settlement Upon Conversion. Accordingly, you will not be able to determine the net share conversion value at the time you tender your debentures for conversion. Except as described in the indenture governing the debenture, we will pay the net share conversion value in cash, up to the principal amount of the debentures being converted, and the residual net share conversion value, if any, in Teva ADRs. The indenture relating to the debentures provides for adjustments to the conversion rate only in certain circumstances.

Table of Contents

FORWARD LOOKING STATEMENTS

Our disclosure and analysis in this prospectus supplement contain or incorporate by reference some forward looking statements. Forward looking statements describe our current expectations or forecasts of future events. You can identify these statements by the fact that they do not relate strictly to historical or current facts. Such statements may include words such as anticipate, estimate, expect, project, intend, plan, and other words and terms of similar meaning in connection with any discussion of future operating or financial performance. In particular, these statements include, among other things, statements relating to:

our business strategy;

the development of our products;

our projected capital expenditures;

our liquidity; and

the results of our acquisition of Ivax.

This prospectus supplement contains or incorporates by reference forward looking statements which express the beliefs and expectations of management. Such statements are based on management's current beliefs and expectations and involve a number of known and unknown risks and uncertainties that could cause our future results, performance or achievements to differ significantly from the results, performance or achievements expressed or implied by such forward looking statements. Important factors that could cause or contribute to such differences include our ability to successfully develop and commercialize additional pharmaceutical products, the introduction of competing generic products, the impact of competition from brand-name companies that sell or license their own brand products under generic trade dress and at generic prices (so-called authorized generics) or seek to delay the introduction of generic products, regulatory changes that may prevent us from exploiting exclusivity periods, potential liability for sales of generic products prior to a final court decision, including that relating to the generic versions of Allegra®, Neurontin®, Oxycontin® and Zithromax®, the effects of competition on Copaxone® sales, the impact of pharmaceutical industry regulation and pending legislation that could affect the pharmaceutical industry, the difficulty of predicting U.S. Food and Drug Administration (FDA), European Medicines Agency (EMA) and other regulatory authority approvals, the regulatory environment and changes in the health policies and structures of various countries, our ability to successfully identify, consummate and integrate acquisitions, including risks related to our acquisition of Ivax, our potential exposure to product liability claims, our dependence on patent and other protections for innovative products, the fact that we have significant operations outside the United States that may be adversely affected by terrorism or major hostilities, fluctuations in currency, exchange and interest rates, operating results and other factors that are discussed in this prospectus and in our other filings made with the SEC.

Forward looking statements speak only as of the date on which they are made, and we undertake no obligation to publicly update any forward looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any additional disclosures we make in our Annual Reports on Form 20-F and our 6-K reports to the SEC. Also note that we provide a cautionary discussion of risks and uncertainties under Risk Factors above and in the accompanying prospectus. These are factors that we think could cause our actual results to differ materially from expected results. Other factors besides those listed here or in the accompanying prospectus could also adversely affect us. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

Our ratio of earnings to fixed charges in accordance with U.S. GAAP for the periods presented are as follows:

	Nine Months Ended	Year Ended December 31,				
	September 30, 2005	2004	2003	2002	2001	2000
	(Unaudited)					
Ratio of earnings to fixed charges	30.20	13.17	18.33	9.43	7.58	4.70

Teva Finance did not have any operations for the relevant periods.

Table of Contents**CAPITALIZATION**

The following table sets forth our capitalization as of September 30, 2005:

On a historical basis;

On a pro-forma basis to give effect to the acquisition of Ivax and the related short-term financing; and

On an as adjusted pro-forma basis to give further effect to (i) the issuance and sale of the debentures, (ii) the concurrent issuance and sale of our 5.550% Senior Notes due 2016 in an aggregate principal amount of \$500 million and our 6.150% Senior Notes due 2036 in an aggregate principal amount of \$1,000 million and (iii) the concurrent issuance and sale of our 1.75% Convertible Senior Debentures due 2026 in an aggregate principal amount of \$750 million (assuming no exercise of the underwriters' over-allotment options) and the application of the net proceeds we receive to repay the amount of short-term debt financing actually incurred in connection with the acquisition of Ivax.

You should read this table together with the unaudited consolidated financial statements and the notes thereto and our supplemental financial data incorporated by reference in this prospectus supplement.

The number of outstanding ordinary shares includes ordinary shares held by our subsidiaries but excludes:

approximately 5.6 million ordinary shares and ordinary A shares, which do not confer on their holder voting rights or rights to appoint directors and are not listed for trading;

an aggregate of approximately 30.4 million ordinary shares issuable upon exercise of options under our stock option plans; and

the shares issued by a Canadian subsidiary that are exchangeable at any time, at the discretion of the holder, into approximately 11.6 million of our ordinary shares.

- (2) See Note 9 of the notes to our consolidated financial statements for the year ended December 31, 2004 incorporated by reference in this prospectus supplement for a discussion of these securities.
- (3) Subsequent to September 30, 2005, a significant portion of the 0.375% Convertible Senior Debentures due 2022 has been converted. As of January 18, 2006, the remaining outstanding principal amount of the 0.375% Convertible Senior Debentures due 2022 was \$227.5 million. Shareholders' equity increased by the corresponding amount between September 30, 2005 and January 18, 2006.
- (4) Excludes \$350 million of indebtedness incurred in November 2005 pursuant to a syndicated facility under which several European subsidiaries of Teva are borrowers. The proceeds of this indebtedness were used to refinance an old syndicated facility as well as for additional working capital needs.

S-24

Table of Contents

USE OF PROCEEDS

Teva Finance estimates that it will receive net proceeds of approximately \$496.4 million (\$570.8 million if the underwriters' over-allotment options are exercised in full). Teva Finance intends to, indirectly through affiliates, use these funds to refinance short-term bridge financing incurred from LIBOR (one week) plus 0.25% to LIBOR (one week) plus 0.65% to pay a portion of the purchase price paid in the Ivax acquisition. Because affiliates of some of the underwriters serve as lenders under the bridge facility, more than 10% of the proceeds will be paid to affiliates of the underwriters. See Underwriting.

S-25

DESCRIPTION OF THE DEBENTURES AND THE GUARANTEE

Teva Finance will issue the debentures under an indenture, to be dated as of January 31, 2006, among Teva Finance, Teva and The Bank of New York, as trustee, as supplemented by a supplemental indenture to be dated as of January 31, 2006. The terms of the debentures include those provided in the indenture. Teva will irrevocably and unconditionally guarantee the punctual payment by Teva Finance of the principal of and interest, if any, on the debentures.

The following description is only a summary of the material provisions of the debentures, the indenture and the guarantee. We urge you to read these documents in their entirety because they, and not this description, define your rights as holders of these debentures. You may request copies of these documents at our address set forth under Prospectus Supplement Summary The Company.

When we refer to Teva in this section, we refer only to Teva Pharmaceutical Industries Limited. When we refer to Teva Finance in this section, we refer to Teva Pharmaceutical Finance Company, LLC, an indirect, wholly owned subsidiary of Teva organized under the laws of the State of Delaware.

Brief Description of the Debentures

The debentures will be:

limited to \$500 million aggregate principal amount (plus an additional \$75 million aggregate principal amount if the underwriter's option is exercised in full), subject to reopening at the discretion of Teva Finance;

accruing interest at a rate of 0.25% payable semiannually in arrears on February 1 and August 1 or each year, beginning August 1, 2006 to the holders of record at the close of business on the preceding January 15 and July 15, respectively;

general unsecured obligations of Teva Finance;

convertible into ADRs of Teva at an initial conversion rate of 21.2037 ADRs per \$1,000 principal amount (which is equivalent to a conversion price of approximately \$47.16 per ADR) under the conditions and subject to adjustment described under Conversion Rights and Distribution of Teva Ordinary Shares Instead of Teva ADRs below, including an adjustment to increase the number of Teva ADRs issuable if you convert your debentures under certain circumstances in connection with certain changes of control;

upon conversion, Teva Finance will deliver cash equal to the lesser of the aggregate principal amount of the debentures to be converted and the total conversion obligation of Teva Finance;

Teva Finance will deliver Teva ADRs in respect of the remainder, if any, of Teva Finance's conversion obligation, as described below under Conversion Procedures.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

redeemable by Teva Finance for cash at its option on or after February 1, 2008 at the principal amount, plus accrued and unpaid interest;

subject to repurchase by Teva Finance for cash at your option on February 1, 2008, 2011, 2016 and 2021 or if a change of control or a termination of trading as defined in this prospectus supplement occurs at the principal amount, plus accrued and unpaid interest; and

due on February 1, 2026, unless earlier redeemed by Teva Finance at its option or converted or repurchased by Teva Finance at your option.

The indenture restricts Teva Finance from paying dividends, incurring other indebtedness other than those certain 5.550% Senior Notes due 2016 and 6.150% Senior Notes due 2036 or repurchasing its or Teva's securities, except with respect to the issuance of additional securities that have the same ranking, interest rate and other terms as the debentures or those certain 5.550% Senior Notes due 2016 and 6.150% Senior Notes due 2036. The indenture does not, however, contain any financial covenants or restrictions on the amount of additional

S-26

Table of Contents

indebtedness that Teva or any of its other subsidiaries may incur. The indenture does not protect you in the event of a highly leveraged transaction or change of control of Teva or Teva Finance except to the extent described under **Repurchase at Option of Holders Upon a Change of Control or a Termination of Trading** and **Adjustment to Conversion Rate Upon Certain Changes in Control** below. The debentures do not contain any sinking fund provisions.

You may present definitive debentures for conversion, registration of transfer and exchange without service charge, at our office or agency in New York City, which shall initially be the office or agency of the trustee in New York City. For information regarding conversion, registration of transfer and exchange of global debentures, see **Form, Denomination and Registration** below.

Description of the Guarantee

Teva will irrevocably and unconditionally guarantee the punctual payment when due, whether at maturity, upon redemption, by acceleration or otherwise, of the principal of and interest (including any additional amounts in respect of taxes as provided herein), if any, on the debentures. The guarantee will be enforceable by the trustee, the holders and their successors, transferees and assigns.

The guarantee will be an unsecured senior obligation of Teva. As indebtedness of Teva, the guarantee will rank:

senior to the rights of creditors under debt expressly subordinated to the debentures. At September 30, 2005, Teva had no subordinated debt outstanding;

equally with other unsecured debt of Teva from time to time outstanding other than any that is subordinated to the debentures. At September 30, 2005, Teva had \$227 million of senior unsecured debt outstanding;

effectively junior to Teva's secured indebtedness up to the value of the collateral securing that indebtedness. At September 30, 2005, Teva had no secured debt outstanding; and

effectively junior to the indebtedness of Teva's subsidiaries, including \$750 million of amounts on-loaned to Ivax from proceeds of the offering of those 1.75% Convertible Senior Debentures due 2026 made concurrently with the sale of these debentures, together with \$250 million of Ivax convertible notes expected to be outstanding after the completion of the merger, but only with respect to the assets of Ivax, and \$621 million of loan facility and other indebtedness, but only with respect to the assets of certain of Teva's subsidiaries outside the United States.

The indenture does not contain any financial covenants or restrictions on the amount of additional indebtedness that Teva or any of its subsidiaries (other than Teva Finance) may incur.

Payment of Interest and Principal

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

The debentures will bear interest at the rate of 0.25% per year. Teva Finance will pay interest semiannually in arrears on February 1 and August 1 of each year to the holders of record at the close of business on the preceding January 15 and July 15, respectively, beginning August 1, 2006. If an interest payment date falls on a day that is not a business day, interest will be payable on the next succeeding business day with the same force and effect as if made on such interest payment date. Interest generally will be computed on the basis of a 360-day year comprised of twelve 30-day months, and will accrue from January 31, 2006 or from the most recent interest payment date to which interest has been paid. References to payments of interest in this section, unless the context otherwise requires, refer to the payment of interest and additional amounts in respect of taxes, if any. In general, Teva Finance will not pay interest accrued and unpaid on any debenture that is converted into Teva ADRs. See Conversion Rights Conversion Procedures below.

Except as provided below, Teva Finance will pay interest on:

the global debentures to DTC in immediately available funds;

S-27

Table of Contents

any definitive debentures having an aggregate principal amount of \$5,000,000 or less by check mailed to the holders of these debentures; and

any definitive debentures having an aggregate principal amount of more than \$5,000,000 by wire transfer in immediately available funds at the election of the holders of these debentures

At maturity, Teva Finance will pay interest on the definitive debentures at our office or agency in New York City, which initially will be the office or agency of the trustee in New York City.

Teva Finance will pay principal on:

the global debentures to DTC in immediately available funds;

any definitive debentures at our office or agency in New York City, which initially will be the office or agency of the trustee in New York City.

Conversion Rights

General

You may convert any outstanding debentures at any time into the conversion value of Teva ADRs as described under Settlement Upon Conversion, initially at the initial conversion rate per \$1,000 principal amount of debentures of 21.2037 ADRs (which is equivalent to a conversion price of approximately \$47.16 per ADR).

The conversion rate is, however, subject to adjustment as described below. You will not receive fractional ADRs upon conversion of debentures. Instead, Teva Finance will pay a cash adjustment based upon the Trading Price, as defined below, of Teva ADRs on the business day immediately preceding the conversion date. You may convert debentures only in denominations of \$1,000 and whole multiples of \$1,000 in excess thereof.

You may exercise conversion rights prior to, but not later than, the close of business on the business day preceding the maturity date of the debentures.

However, if:

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

you are a holder of debentures that have been called for redemption, you must exercise your conversion rights prior to the close of business on the second business day preceding the redemption date, unless Teva Finance defaults in payment of the redemption price; or

you are surrendering your debentures for conversion in connection with a non-stock change of control as defined under Adjustment to Conversion Rate Upon Certain Changes in Control, you must exercise your conversion rights within 30 days after the date on which Teva Finance sends to holders a notice of such change of control in order to receive the additional Teva ADRs.

In addition, if you have exercised your right to require Teva Finance to repurchase your debentures you may convert your debentures into the conversion value of Teva ADRs only if you withdraw your notice prior to the close of business on the business day immediately preceding the repurchase date.

The Trading Price of an equity security on any date of determination means:

the closing sale price of that security as reported on that date by the Nasdaq National Market;

if that security is not so quoted on the Nasdaq National Market on that date, the closing sale price of that security on the New York Stock Exchange (NYSE) on that date;

S-28

Table of Contents

if that security is not so quoted on the Nasdaq National Market and not listed on the NYSE on that date, the closing sale price as reported on that date in the composite transactions for the principal U.S. securities exchange on which that security is listed;

if that security is not so listed on a U.S. national or regional securities exchange or quoted on the Nasdaq National Market on that date, the dollar equivalent of the closing sale price of the security on that date on the Tel Aviv Stock Exchange, except that for purposes of this clause the Trading Price of Teva ordinary shares (converted into U.S. dollars) will be used instead of Teva ADRs to determine the Trading Price of Teva ADRs;

if that security is not so reported, the last price quoted by Interactive Data Corporation for that security on that date or, if Interactive Data Corporation is not quoting such price, a similar quotation service selected by us.

Conversion Procedures

You may exercise conversion rights at any time prior to the close of business on the business day prior to the final maturity date of the debentures.

Except as provided below, if you convert your debentures into the conversion value of Teva ADRs (as described under Settlement Upon Conversion) on any day other than an interest payment date, you will not receive any interest that has accrued on these debentures. By delivering to the holder the ADRs issuable upon conversion, together with a cash payment, if any, in lieu of fractional ADRs, Teva Finance will satisfy its obligation with respect to the debentures. However, for U.S. federal income tax purposes, accrued but unpaid interest will be deemed to be paid in full rather than canceled, extinguished or forfeited.

If you convert after a record date for an interest payment but prior to the corresponding interest payment date, you will receive on the interest payment date interest accrued and unpaid on such debentures, notwithstanding the conversion of such debentures prior to such interest payment date, because you will have been the holder of record on the corresponding record date. However, at the time you surrender such debentures for conversion, you must pay Teva Finance an amount equal to the interest that is scheduled to be paid on such interest payment date in respect of the debentures being converted.

You are not required to make such payment if you convert your debentures after they are called by Teva Finance for redemption. Accordingly, if Teva Finance calls your debentures for redemption on a date that is after a record date for an interest payment but on or prior to the business day following the corresponding interest payment date, and prior to the redemption date you choose to convert your debentures, you will not be required to pay Teva Finance at the time you surrender such debentures for conversion the amount of interest on such debentures you will receive on the date that has been fixed for redemption. Furthermore, if Teva Finance calls your debentures for redemption on a date that is prior to a record date for an interest payment date, and prior to the redemption date you choose to convert your debentures, you will receive on the date that has been fixed for redemption the amount of interest you would have received if you had not converted your debentures.

You will not be required to pay any taxes (other than income taxes, if any) or duties relating to the issuance or delivery of Teva ADRs if you exercise your conversion rights, but you will be required to pay any tax or duty which may be payable relating to any transfer involved in the issuance or delivery of the ADRs in a name other than yours. ADRs will be issued or delivered only after all applicable taxes and duties, if any, payable by you have been paid. In addition, you will be required to pay ADR issuance fees upon conversion of the debentures into ADRs. See Description of American Depositary Shares Charges of Depositary in the accompanying prospectus.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

To convert interests in the global debentures, you must deliver to DTC, Euroclear Bank S.A./N.V as operator of the Euroclear System (Euroclear) or Clearstream Banking S.A. (formerly Cedelbank)

S-29

Table of Contents

(Clearstream), as applicable, the appropriate instruction form for conversion pursuant to DTC's conversion program or in accordance with the normal operating procedures of Euroclear or Clearstream, as applicable, after application has been made to make the underlying ADRs eligible for trading on Euroclear or Clearstream, as applicable. To convert a definitive debenture, you must:

complete the conversion notice on the back of the debenture or a copy of the notice;

deliver the completed conversion notice and the debentures to be converted to the specified office of the conversion agent;

pay all funds required, if any, relating to interest on the debentures to be converted to which you are not entitled, as described in the second and third preceding paragraphs; and

pay all taxes or duties, if any, and ADR issuance fees, as described in the preceding paragraph.

The conversion date will be the date on which all of the foregoing requirements have been satisfied. The debentures will be deemed to have been converted immediately prior to the close of business on the conversion date.

Settlement Upon Conversion

In connection with any conversion, Teva Finance will satisfy its obligation to convert the debentures (the conversion obligation) by delivering to holders in respect of each \$1,000 aggregate principal amount of debentures being converted a settlement amount consisting of:

- (1) cash equal to the lesser of \$1,000 and the settlement value, and
- (2) if the settlement value exceeds \$1,000, a number of Teva ADRs for each of the 20 trading days in the settlement period equal to 1/20th of (x) the conversion rate then in effect minus (y) the quotient of \$1,000 divided by the Trading Price of Teva ADRs on that day (plus cash in lieu of fractional ADRs if applicable).

The settlement period means the 20 trading day period:

ending one trading day immediately preceding the redemption date, if Teva Finance has called the debentures delivered for conversion for redemption;

with respect to conversions following notice of repurchase following a change of control or termination of trading or notice upon a change of control, ending one trading day prior to the 30th day after which the notice was sent by Teva Finance;

ending one trading day immediately preceding the maturity date, with respect to conversion notices received during the period beginning 25 trading days preceding the maturity date and ending one trading day preceding the maturity date;

in all other cases, beginning on the second trading day following the conversion date for those debentures.

The settlement value for each \$1,000 principal amount of debentures being converted means an amount equal to the sum of the daily settlement values for each of the 20 trading days in the settlement period, where the daily settlement value for any trading day equals 1/20th of the conversion rate in effect on that day multiplied by the Trading Price of Teva ADRs on that day.

You will not receive fractional ADRs upon conversion of debentures. Instead, Teva Finance will pay a cash adjustment based upon the Trading Price of Teva ADRs on the business day immediately preceding the conversion date. On conversion of a debenture, a holder will not receive any cash payment of interest unless such conversion date occurs between a record date and the interest payment date to which that record date relates. Teva Finance will deliver the settlement amount on the third business day following the date the settlement amount is determined.

S-30

Table of Contents

Conversion Rate Adjustments

Teva Finance will adjust the initial conversion rate with respect to debentures upon:

1. the issuance of Teva ordinary shares as a dividend or a distribution on Teva ordinary shares, in which event the conversion rate will be adjusted by multiplying the conversion rate by a fraction:

the numerator of which is the sum of (a) the number of Teva ordinary shares outstanding on the record date fixed for the dividend or distribution plus (b) the total number of shares constituting the dividend or distribution; and

the denominator of which is the number of Teva ordinary shares outstanding on the record date fixed for the dividend or distribution;

2. subdivisions, splits and combinations of Teva ordinary shares, in which event the conversion rate will be proportionately increased or reduced;

3. the issuance by Teva of rights or warrants to all holders of Teva ordinary shares entitling holders to subscribe for or purchase Teva ordinary shares for less than their current market price, in which event the conversion rate will be adjusted by multiplying the conversion rate by a fraction:

the numerator of which is the sum of (a) the number of Teva ordinary shares outstanding on the record date fixed for the distribution plus (b) the total number of additional Teva ordinary shares offered for subscription or purchase; and

the denominator of which is the sum of (a) the number of Teva ordinary shares outstanding on the record date fixed for the distribution plus (b) the total number of Teva ordinary shares which the aggregate offering price of the total number of Teva ordinary shares offered for subscription or purchase would purchase at the current market price;

4. distributions to all holders of Teva ordinary shares of our assets, debt securities, shares of our capital stock or rights or warrants to purchase our securities (excluding (A) any dividend, distribution or issuance covered by clause (1) or (3) above and (B) any dividend or distribution paid exclusively in cash), in which event the conversion rate will be adjusted by multiplying the conversion rate by a fraction:

the numerator of which is the current market price of a share of Teva ordinary shares; and

the denominator of which is (a) the current market price of a share of Teva ordinary shares minus (b) the fair market value, as determined by our board of directors, except as described in the following paragraph, of the portion of those assets, debt securities, shares of capital stock or rights or warrants so distributed applicable to one ordinary share.

In the event that we make a distribution to all holders of Teva ordinary shares consisting of capital stock of, or similar equity interests in, a subsidiary or other business unit of ours, the conversion rate will be adjusted based on the market value of the securities so distributed relative to the market value of Teva ordinary shares, in each case based on the average of the closing sales prices of those securities for each of the 10 trading days commencing on and including the fifth trading day after the date on which ex-dividend trading commences for such dividend or

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

distribution on the TASE, Nasdaq National Market, or such other national or regional exchange or market on which the securities are then listed or quoted;

5. distributions by us consisting exclusively of cash to all holders of Teva ordinary shares, excluding any cash dividend on Teva ordinary shares to the extent that the aggregate cash dividend per share of Teva ordinary shares in any quarterly period does not exceed \$0.06327 (the dividend threshold amount),

in which event the conversion rate will be adjusted by multiplying the conversion rate by a fraction:

the numerator of which will be the current market price of a share of Teva ordinary shares; and

the denominator of which will be (a) the current market price of a share of Teva ordinary shares minus (b) the amount per share of the dividend increase (as defined below) or distribution.

S-31

Table of Contents

The dividend threshold amount is subject to adjustment on an inversely proportional basis whenever the conversion rate is adjusted; provided that no such adjustment shall be made whenever the conversion rate is adjusted pursuant to this clause (5).

If an adjustment is required to be made under this clause (5) as a result of a cash dividend in any three-month period that exceeds the dividend threshold amounts, the adjustment would be based upon the amount by which the distribution exceeds the dividend threshold amount (the dividend increase). If an adjustment is otherwise required to be made under this clause (5), the adjustment would be based upon the full amount of the distribution; and

6. purchases of Teva ordinary shares (including Teva ordinary shares represented by Teva ADRs) pursuant to a tender offer made by Teva or any of its subsidiaries to the extent that the cash and value of any other consideration included in the payment per share exceeds the current market price of a share of Teva ordinary shares on the trading day next succeeding the last date on which tenders or exchanges may be made pursuant to such tender or exchange offer (the expiration time), in which event the conversion rate will be adjusted by multiplying the conversion rate by a fraction:

the numerator of which will be the sum of (x) the fair market value, as determined by our board of directors, of the aggregate consideration payable for all ordinary shares (including ordinary shares underlying ADRs) we purchase in such tender or exchange offer and (y) the product of the number of Teva ordinary shares outstanding at the expiration time less any such purchased shares and the current market price of a share of Teva ordinary shares on the trading day next succeeding the expiration time; and

the denominator of which will be the product of (x) the number of Teva ordinary shares outstanding (including any tendered shares) at the expiration time and (y) the current market price of Teva ordinary shares on the trading day next succeeding the expiration time.

If rights or warrants for which an adjustment to the conversion rate has been made expire unexercised, the conversion rate will be readjusted to take into account the actual number of such rights or warrants which were exercised.

The above adjustments assume that each ADR continues to represent one Teva ordinary share. If the number of Teva ordinary shares represented by each ADR changes, the conversion rate will be adjusted accordingly.

We will not be required to make an adjustment in the base conversion rate unless the adjustment would require a change of at least 1% in the base conversion rate; provided that we will carry forward any adjustments that are less than 1% of the base conversion rate and make such carried forward adjustments within one year of the first such adjustment carried forward or immediately following any notice of redemption, regardless of whether the aggregate adjustment is less than 1%, or, if earlier, the date on which such carried forward adjustments first exceed 1% of the base conversion rate.

If Teva:

reclassifies or changes its ordinary shares (other than changes resulting from a subdivision, split or combination); or

consolidates or combines with or merges into any person, or sells or conveys to another person all or substantially all of the property and assets of Teva and its subsidiaries, or liquidates, dissolves or winds up

and the holders of Teva ordinary shares receive ordinary shares, other securities or other property or assets (including cash or any combination thereof) with respect to or in exchange for their ordinary shares, the debentures will become convertible into the consideration they would have received if they had converted their debentures solely into Teva ADRs immediately prior to such reclassification, change, consolidation, combination, merger, sale or conveyance except when there is a public acquiror change of control in which we elect to have the debentures become convertible into public acquiror common stock as described below under Conversion After a Public Acquiror Change of Control.

S-32

Table of Contents

In the event holders of Teva ADRs or ordinary shares have the right to make elections as to the kind or amount of securities, cash or other properties receivable upon any such transaction, then from and after the effective date of such transaction the debentures shall be convertible into the kind and amount of such securities, cash or other property receivable by the greatest number of ordinary shares who made such elections. Teva may not become a party to any such transaction unless its terms are consistent with the foregoing.

The conversion rate at which, and the property or assets into which, the debentures are convertible after an adjustment described in this section

Conversion Procedures shall be subject to further adjustment in the same manner when subsequent events of the type described in this section occur.

If a taxable distribution to holders of Teva ADRs or ordinary shares or other transaction occurs which results in any adjustment of the conversion rate, you may be deemed to have received a distribution subject to U.S. income tax as a dividend. In other circumstances, the absence of an adjustment may result in a taxable dividend to the holders of our ADRs. See United States Federal Income Tax Considerations.

Teva Finance may from time to time, to the extent permitted by law, increase the conversion rate of the debentures by any amount for any period of at least 20 days. In that case, Teva Finance will give at least 15 days notice of such increase.

Distribution of Teva Ordinary Shares Instead of Teva ADRs

Upon conversion of your debentures, you may receive ADRs representing Teva ordinary shares. If you receive Teva ADRs and prefer to hold Teva ordinary shares directly, you may withdraw the underlying Teva ordinary shares by following the relevant procedures of the depository for the Teva ordinary shares. Such withdrawals are expected to be subject only to

1. any temporary delays caused by closing transfer books of the depository or Teva or the deposit of shares in connection with voting at a shareholders meeting, or the payment of dividends, if applicable.
2. the payment of any related fees, taxes, and similar charges (which you will be responsible for), and
3. compliance with any U.S. or foreign laws or governmental regulations in force at that time relating to Teva ADRs or to the withdrawal of deposited securities.

If, following conversion of your debentures into ADRs, you decide to withdraw the underlying Teva ordinary shares in exchange for your ADRs, your ability to sell the ordinary shares on the Tel Aviv Stock Exchange may be restricted under Israeli law under the following restrictions:

1. you may not sell the ordinary shares on the Tel Aviv Stock Exchange for a period of 12 months following the initial issuance of the debentures, and in addition

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

2. you may be subject to certain volume limitations on the sale of such shares for an additional 24 month period.

However, these restrictions will not affect your ability to sell the ADRs or your ability to sell the ordinary shares other than on the Tel Aviv Stock Exchange.

Each Teva ADR currently represents one Teva ordinary share. Teva ADRs may, however, in the future represent other securities or property as well, as a result of any non-cash distributions in respect of Teva ordinary shares that are not distributed to Teva ADR holders but instead are held by the depositary on behalf of Teva ADR holders. The terms of the deposit agreement defining the rights of holders of Teva ADRs may be altered at any time, and the deposit agreement may be replaced by another deposit agreement with differing terms.

Any Teva ADRs delivered to you will be transferable by you to the same extent as the debentures you held (assuming you are not affiliated with Teva or Teva Finance and excepting any transfer restrictions you have yourself caused). You will be responsible for paying any and all brokerage costs if you sell any Teva ADRs you receive. Teva will not issue fractional Teva ADRs.

S-33

Table of Contents

If Teva ordinary shares cease to be represented by ADRs issued under a depositary receipt program sponsored by Teva, or Teva ADRs cease to be quoted on the Nasdaq National Market (and are not at that time listed on the New York Stock Exchange or another United States national securities exchange) all references in this prospectus supplement to the Teva ADRs will be deemed to have been replaced by a reference to:

1. the number of Teva ordinary shares corresponding to the Teva ADRs on the last day on which the Teva ADRs were quoted on the Nasdaq National Market; and
2. as adjusted pursuant to the adjustment provisions above, any other property the Teva ADRs represented as if such other property had been distributed to holders of the Teva ADRs on that day.

Adjustment to Conversion Rate Upon Certain Changes in Control

If:

You elect to convert your debentures in connection with a change of control described below under **Repurchase at Option of Holders Upon a Change of Control or a Termination of Trading** (determined without regard to the 110% trading price exception described in such definition); and

10% or more of the consideration for Teva ordinary shares (including Teva ordinary shares represented by Teva ADRs) (other than cash payments for fractional shares and cash payments made in respect of dissenters' appraisal rights) in such change of control transaction consists of cash or securities (or other property) that are not traded or scheduled to be traded immediately following such transaction on a U.S. national securities exchange or the Nasdaq National Market (a non-stock change of control);

then we will increase the conversion rate by a number of Teva ADRs as described below unless the transaction is a public acquiror change of control (as defined below under **Conversion After a Public Acquiror Change of Control**) and Teva Finance elects to adjust the conversion rate instead.

A conversion of debentures by a holder will be deemed for these purposes to be in connection with a change of control if the conversion agent receives the conversion notice within 30 days after the date on which Teva Finance sends to holders a notice of the change of control (which is similar to a repurchase notice described under **Repurchase at Option of Holders Upon a Change of Control or Termination of Trading**). Holders will not receive the conversion consideration for any debentures surrendered for conversion in connection with such change of control before the date on which Teva Finance sends to holders the foregoing notice.

The number of additional Teva ADRs issuable upon conversion, or the cash equivalent of such ADRs, as applicable (the additional Teva ADRs), will be determined by reference to the table below, based on the date on which the non-stock change of control becomes effective (the effective date) and the price (the stock price) paid for each ordinary share (in U.S. dollars) in such non-stock change of control. If holders of ordinary shares receive only cash in such transaction, the stock price shall be the cash amount paid (in U.S. dollars) for each ordinary share. Otherwise, the stock price shall be the average of the Trading Price of Teva ADRs on the five trading days prior to but not including the effective date of such change of control transaction.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

The stock prices set forth in the first row of the table below will be adjusted as of any date on which the conversion rate of the debentures is adjusted, as described above. The adjusted stock price will equal the stock price applicable immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the conversion rate immediately prior to the adjustment giving rise to the conversion rate adjustment and the denominator of which is the conversion rate as so adjusted. The number of additional Teva ADRs in the chart below will be adjusted in the same manner as the conversion rate.

S-34

Table of Contents

The following table sets forth the number of additional Teva ADRs issuable per \$1,000 principal amount of the debentures:

Effective Date	Stock Price						
	\$41.01	\$45.00	\$50.00	\$55.00	\$60.00	\$65.00	\$70.00
February 1, 2006	3.1806	2.0574	1.1536	0.6173	0.3074	0.1342	0.0421
August 1, 2006	3.1697	1.9646	1.0241	0.4957	0.2111	0.0652	0.0000
February 1, 2007	3.1633	1.8460	0.8685	0.3724	0.1362	0.0318	0.0000
August 1, 2007	3.0929	1.5509	0.5252	0.1382	0.0048	0.0000	0.0000
February 1, 2008	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000	0.0000

The exact stock price and effective date may not be set forth on the table; in which case, if the stock price is:

between two stock price amounts on the table or the effective date is between two dates on the table, the number of additional Teva ADRs will be determined by straight-line interpolation between the number of additional Teva ADRs set forth for the higher and lower stock price amounts and the two dates, as applicable, based on a 360-day year comprised of twelve 30-day months;

in excess of \$70.00 per Teva ADR (subject to adjustment), no additional Teva ADRs will be issued upon conversion; and

less than \$41.01 per Teva ADR (subject to adjustment), no additional Teva ADRs will be issued upon conversion.

Notwithstanding the foregoing, in no event will the conversion rate exceed 24.3843 per \$1,000 principal amount of debentures, which maximum amount is subject to adjustments in the same manner as the conversion rate as set forth under Conversion Rights Conversion Rate Adjustments.

Conversion After a Public Acquiror Change of Control

In the case of a non-stock change of control constituting a public acquiror change of control, as defined below, Teva Finance may, in lieu of increasing the conversion rate as described in Adjustment to Conversion Rate Upon Certain Changes in Control above, elect to adjust the conversion rate and the related conversion obligation such that from and after the effective date of such public acquiror change of control, holders of the debentures will be entitled to convert their debentures, subject to the satisfaction of certain conditions, into a number of shares of public acquiror common stock, as defined below, by multiplying the conversion rate in effect immediately before the public acquiror change of control by a fraction:

the numerator of which will be (i) in the case of a share exchange, consolidation, merger or binding share exchange, pursuant to which ordinary shares of Teva (including those represented by Teva ADRs) are converted into cash, securities or other property, the average value of all cash and any other consideration (as determined by our board of directors as of the effective date of the transaction) paid or payable per ordinary share or (ii) in the case of any other public acquiror change of control, the average Trading Price of Teva ADRs for the five consecutive trading days prior to but excluding the effective date of such public acquiror change of control; and

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

the denominator of which will be the average Trading Price of the public acquiror common stock for the five consecutive trading days commencing on the trading day next succeeding the effective date of such public acquiror change of control.

A public acquiror change of control means a non-stock change of control in which the acquiror has a class of common stock traded on a U.S. national securities exchange or quoted on the Nasdaq National Market, regardless of whether the stock itself is so listed or traded or ADRs representing such stock are so listed or

S-35

Table of Contents

traded, or which will be so traded or quoted when issued or exchanged in connection with such change of control (the public acquiror common stock). If an acquiror does not itself have a class of common stock satisfying the foregoing requirement, it will be deemed to have public acquiror common stock if a corporation that directly or indirectly owns at least a majority of the acquiror has a class of common stock satisfying the foregoing requirement; in such case, all references to public acquiror common stock shall refer to such class of common stock. Majority owned for these purposes means having beneficial ownership (as defined in Rule 13d-3 under the Exchange Act) of more than 50% of the total voting power of all shares of the respective entity's capital stock that are entitled to vote generally in the election of directors.

Upon a public acquiror change of control, if Teva Finance so elects, holders may convert their debentures (subject to the satisfaction of the conditions to conversion described under Conversion Procedures above) at the adjusted conversion rate described in the second preceding paragraph but will not be entitled to receive additional Teva ADRs upon conversion as described under Adjustment to Conversion Rate Upon Certain Changes in Control. Teva Finance is required to notify holders of its election in its notice to holders of such transaction. Following any such election, the provisions set forth herein, including those set forth under Settlement Upon Conversion, shall continue to apply except that reference to Teva ADRs shall be deemed to refer to the public acquiror common stock. In addition, upon a public acquiror change of control, in lieu of converting debentures, the holder may be entitled to require us to repurchase all or a portion of its debentures as described below.

Optional Redemption by Teva Finance

At any time on or after February 1, 2008, Teva Finance may redeem some or all of the debentures at a redemption price equal to 100% of the principal amount of the debentures plus accrued and unpaid interest, except for debentures that it is required to repurchase as provided under Repurchase at Option of Holders On Specified Dates. Teva Finance must give at least 20 but not more than 60 days' notice of any redemption.

In addition, Teva Finance will pay interest on the debentures being redeemed, including those debentures that are converted into Teva ADRs after the date the notice of the redemption is mailed and prior to the redemption date. This interest will include interest accrued and unpaid to, but excluding, the redemption date. If the redemption date is after a record date and on or before the succeeding interest payment date, Teva Finance will pay the interest to the holder of record on the corresponding record date, which may or may not be the same person to whom Teva Finance will pay the redemption price.

If Teva Finance does not redeem all of the debentures, the trustee will select the debentures to be redeemed in principal amounts of \$1,000 or whole multiples of \$1,000 by lot or on a pro rata basis. If any debentures are to be redeemed in part only, Teva Finance will issue a new debenture or debentures in principal amount equal to the unredeemed principal portion thereof. If a portion of your debentures is selected for partial redemption and you convert or elect repurchase of a portion of your debentures, the converted or repurchased portion will be deemed to be taken from the portion selected for redemption.

If you have exercised your right to require Teva Finance to repurchase your debentures, you may participate in a redemption by Teva Finance only if you withdraw your notice prior to the close of business on the business day preceding the repurchase date.

Repurchase at Option of Holders

On Specified Dates

Each holder may require Teva Finance to purchase the debentures for cash on the following dates: February 1, 2008, 2011, 2016 and 2021.

On these dates, you will have the right to require Teva Finance to repurchase all of your debentures, or any portion of those debentures, that is equal to \$1,000 or a whole multiple of \$1,000, for which a written purchase

S-36

Table of Contents

notice has been properly delivered and not withdrawn. You may submit your debentures for repurchase to The Bank of New York, as paying agent (the paying agent) at any time from the opening of business on the date that is 20 business days prior to the repurchase date until the close of business two business days prior to the repurchase date.

The repurchase price of a debenture will be equal to 100% of its principal amount plus accrued and unpaid interest to, but excluding, the repurchase date.

Teva Finance will be required to give notice on a date not less than 20 business days prior to the repurchase date to all holders of debentures, stating among other things the procedures that holders must follow to require Teva Finance to purchase their debentures.

The repurchase notice given by each holder electing to require Teva Finance to repurchase debentures shall state:

the certificate numbers of the holder's debentures to be delivered for repurchase;

the portion of the principal amount of debentures to be repurchased, which must be \$1,000 or an integral multiple of \$1,000; and

that the debentures are to be purchased by Teva Finance pursuant to the applicable provisions of the debentures.

Any repurchase notice may be withdrawn by the holder by a written notice of withdrawal delivered to the paying agent prior to the close of business on the business day prior to the repurchase date. In the event that Teva Finance exercises its right to redeem the debentures, you may participate in a redemption only if you provide such written notice of withdrawal on a timely basis.

The notice of withdrawal shall state:

the principal amount being withdrawn;

the certificate numbers of the debentures being withdrawn; and

the principal amount, if any, of the debentures that remains subject to the purchase notice.

In connection with any purchase offer, Teva Finance will:

comply with the provisions of Rule 13e-4, Rule 14e-1 and any other tender offer rules under the Exchange Act which may then be applicable: and

file Schedule 13E-4 or any other required schedule under the Exchange Act.

Payment of the purchase price for a debenture for which a purchase notice has been delivered and not validly withdrawn is conditioned upon delivery of the debenture, together with necessary endorsements, to the paying agent at any time after delivery of the purchase notice. Payment of the purchase price for the debenture will be made promptly following the later of the purchase date or the time of delivery of the debenture.

Holders may surrender a debenture for purchase by Teva Finance by means of book entry delivery in accordance with the provisions set forth in the indenture and the regulations of DTC. A security will be considered to have been surrendered to a paying agent upon receipt by such paying agent of a copy of an irrevocable notice given by DTC to the holder of the certificate corresponding to such security instructing it to deliver such certificate to the relevant registrar for cancellation.

If the paying agent holds money or securities sufficient to pay the purchase price of the debenture on the business day following the purchase date in accordance with the terms of the indenture, then, immediately after the purchase date, the debenture will cease to be outstanding and interest on such debenture will cease to accrue,

S-37

Table of Contents

whether or not the debenture is delivered to the paying agent. Thereafter, all other rights of the holder shall terminate, other than the right to receive the purchase price upon delivery of the debenture.

No debentures may be purchased for cash at the option of holders if there has occurred and is continuing an event of default with respect to the debentures described under **Events of Default** other than a default in the payment of the purchase price with respect to such debentures.

Upon a Change of Control or a Termination of Trading

If a change of control, as defined below, or a termination of trading occurs, you will have the right to require Teva Finance to repurchase all of your debentures not previously called for redemption, or any portion of those debentures that is equal to \$1,000 or a whole multiple of \$1,000. The repurchase date is 45 days after the date Teva Finance gives notice of a change of control or a termination of trading.

The repurchase price of a debenture will be equal to 100% of its principal amount plus accrued and unpaid interest to, but excluding, the repurchase date. However, if the repurchase date is after the record date and on or prior to the corresponding interest payment date, the interest will be paid on the repurchase date to the holder of record on the record date.

Within 10 days after the occurrence of a change of control or a termination of trading, Teva Finance is required to notify you of such occurrence and your resulting repurchase right. The notice will be similar to the notice described under **Repurchase at Option of Holders On Specified Dates**. To exercise the repurchase right, you must deliver prior to or on the 30th day after the date of Teva Finance's notice, written notice to the trustee of your exercise of your repurchase right.

The repurchase notice given by each holder electing to require Teva Finance to repurchase debentures shall contain the information described under **Repurchase at Option of Holders On Specified Dates**.

You may withdraw this notice by delivering to the paying agent a notice of withdrawal prior to the close of business on the business day immediately preceding the repurchase date, so long as you also convert those debentures prior to the close of business on the business day immediately preceding the repurchase date. Teva Finance will not pay interest accrued and unpaid on any of the debentures you convert.

A **change of control** will be deemed to have occurred at such time after the original issuance of the debentures when either of the following has occurred:

the acquisition by any person including any syndicate or group deemed to be a **person** under Section 13(d)(3) of the Exchange Act of beneficial ownership, directly or indirectly, through a purchase, merger or other acquisition transaction or series of transactions of shares of Teva's capital stock entitling that person to exercise 50% or more of the total voting power of all shares of Teva's capital stock entitled to vote generally in elections of directors, other than any acquisition by Teva, any of its subsidiaries, including Teva Finance, or any employee benefit plans; or

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

Teva's consolidation or merger with or into any other person, any merger of another person into Teva, or any conveyance, transfer, sale, lease or other disposition of all or substantially all of Teva's properties and assets to another person, other than any transaction (A) that does not result in any reclassification, conversion, exchange or cancellation of outstanding shares of Teva's capital stock or (B) pursuant to which holders of Teva's capital stock immediately prior to the transaction have the entitlement to exercise, directly or indirectly, 50% or more of the total voting power of all shares of Teva's capital stock entitled to vote generally in the election of directors of the continuing or surviving person immediately after the transaction.

However, a change of control will be deemed not to have occurred if:

1. at least 90% of the consideration in the transaction or transactions constituting a change of control consists of securities traded or to be traded immediately following such change of control on a U.S.

S-38

Table of Contents

national securities exchange or the Nasdaq National Market and, as a result of such transaction or transactions, the debentures become convertible solely into such security; or

2. the closing sale price per share of Teva ADRs for any five trading days within:

the period of 10 consecutive trading days ending immediately after the later of the change of control or the public announcement of the change of control, in the case of a change of control under the first clause of the definition of change of control above, or

the period of 10 consecutive trading days ending immediately before the change of control, in the case of a change of control under the second clause of the definition of change of control above,

equals or exceeds 110% of the conversion price of the debentures in effect on each such trading day (the trading price exception).

The beneficial owner shall be determined in accordance with Rule 13d-3 promulgated by the SEC under the Exchange Act. The term person includes any syndicate or group which would be deemed to be a person under Section 13(d)(3) of the Exchange Act.

A termination of trading will be deemed to have occurred if neither our ADRs nor our ordinary shares are listed for trading on a U.S. national securities exchange, reported on a U.S. national securities system subject to last sale reporting or quoted on the Nasdaq National Market.

In connection with any purchase offer, Teva Finance will:

comply with the provisions of Rule 13e-4, Rule 14e-1 and any other tender offer rules under the Exchange Act which may then be applicable; and

file Schedule 13E-4 or any other required schedule under the Exchange Act.

Teva Finance may, to the extent permitted by applicable law, at any time purchase the debentures in the open market or by tender at any price or by private agreement. Any debenture so purchased may, to the extent permitted by applicable law, be reissued or resold or may be surrendered to the trustee for cancellation. Any debentures surrendered to the trustee may not be reissued or resold and will be canceled promptly.

The change of control feature of the debentures may in certain circumstances make more difficult or discourage a takeover of Teva and thus, the removal of incumbent management. The repurchase right is not the result of Teva or Teva Finance's knowledge of any effort of any party to accumulate any ADRs or ordinary shares or to obtain control of Teva by means of a merger, tender offer, solicitation, or otherwise, or part of a plan by us to adopt a series of anti-takeover provisions. Instead, this right is the result of negotiations between us and the underwriters.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

The foregoing provisions would not necessarily protect holders of the debentures if highly leveraged or other transactions involving us occur that may adversely affect holders.

Teva Finance's ability to repurchase debentures on February 1, 2008, 2011, 2016 and 2021, upon the occurrence of a change of control or upon a termination of trading is subject to important limitations. The occurrence of a change of control or a termination of trading could cause an event of default under, or be prohibited or limited by, the terms of debt that Teva may incur in the future.

Events of Default

Each of the following constitutes an event of default under the indenture:

1. Teva Finance's failure to pay when due the principal of any of the debentures at maturity, upon redemption or exercise of a repurchase right or otherwise;

S-39

Table of Contents

2. Teva Finance's failure to pay an installment of interest on any of the debentures for 30 days after the date when due;
3. Teva's failure to perform its obligations under the guarantee;
4. Except as permitted by the indenture, the guarantee by Teva shall be held in any final, nonappealable judicial proceeding to be unenforceable or invalid or shall cease for any reason to be in full force and effect or Teva, or any person acting on behalf of the Teva, shall deny or disaffirm its obligations under its guarantee;
5. Teva's or Teva Finance's failure to perform or observe any other term, covenant or agreement contained in the debentures or the indenture for a period of 60 days after written notice of such failure, requiring Teva or Teva Finance, as the case may be, to remedy the same, shall have been given to Teva Finance by the trustee or to Teva Finance and the trustee by the holders of at least 25% in aggregate principal amount of the debentures then outstanding;
6. Teva's or Teva Finance's default under any Indebtedness (as defined below) for money borrowed by it, the aggregate outstanding principal amount of which is in an amount in excess of \$25 million, for a period of 30 days after written notice to Teva Finance by the trustee or to Teva Finance and the trustee by holders of at least 25% in aggregate principal amount of the debentures then outstanding, which default:

is caused by Teva or Teva Finance's, as the case may be, failure to pay when due principal or interest on such Indebtedness by the end of the applicable grace period, if any, unless such Indebtedness is discharged; or

results in the acceleration of such Indebtedness, unless such acceleration is waived, cured, rescinded or annulled; and

7. Teva or Teva Finance's, bankruptcy, insolvency or reorganization.

The indenture will provide that the trustee shall (other than in the case of (6) above, which shall result in the debentures becoming immediately due and payable), within 90 days of the occurrence of a default, give to the registered holders of the debentures notice of all uncured defaults known to it, but the trustee shall be protected in withholding such notice if it, in good faith, determines that the withholding of such notice is in the best interest of such registered holders, except in the case of a default in the payment of the principal of or interest on, any of the debentures when due or in the payment of any redemption or repurchase obligation.

If an event of default shall occur and be continuing, the trustee or the holders of at least 25% in aggregate principal amount of the debentures affected then outstanding may declare the principal amount of the debentures due and payable together with accrued interest, and then the trustee may, at its discretion, proceed to protect and enforce the rights of the holders of debentures by appropriate judicial proceedings. Such declaration may be rescinded or annulled either with the written consent of the holders of a majority in aggregate principal amount of the debentures then outstanding or a majority in aggregate principal amount of the debentures represented at a meeting at which a quorum is present, in each case upon the conditions provided in the indenture.

The indenture contains a provision entitling the trustee, subject to the duty of the trustee during default to act with the required standard of care, to be indemnified by the holders of debentures before proceeding to exercise any right or power under the indenture at the request of such holders. The indenture provides that the holders of a majority in aggregate principal amount of the debentures then outstanding through their written consent, or the holders of a majority in aggregate principal amount of the debentures then outstanding represented at a meeting at which a quorum is present by a written resolution, may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred upon the trustee.

Teva Finance will be required to furnish annually to the trustee a statement as to the fulfillment of its obligations under the indenture.

Table of Contents

Indebtedness means, with respect to any person:

- (1) any liability for borrowed money, or evidenced by an instrument for the payment of money, or incurred in connection with the acquisition of any property, services or assets (including securities), or relating to a capitalized lease obligation, other than accounts payable or any other indebtedness to trade creditors created or assumed such person in the ordinary course of business in connection with the obtaining of materials or services;
- (2) obligations under exchange rate contracts or interest rate protection agreements;
- (3) any obligations to reimburse the issuer of any letter of credit, surety bond, performance bond or other guarantee of contractual performance;
- (4) any liability of another person of the type referred to in clause (1), (2) or (3) which has been assumed or guaranteed by such person; and
- (5) any obligations described in clauses (1) through (3) secured by any mortgage, pledge, lien or other encumbrance existing on property which is owned or held by such person, regardless of whether the indebtedness or other obligation secured thereby shall have been assumed by such person.

Additional Tax Amounts

Neither Teva Finance as the issuer nor Teva as the guarantor will withhold or deduct from payments made with respect to the debentures on account of any present or future taxes, duties, assessments or governmental charges imposed by or on behalf of any United States or Israeli taxing authority unless such withholding or deduction is required by law. In the event that Teva Finance or Teva is required to withhold or deduct on account of any such taxes from any payment made under or with respect to the debentures, Teva Finance or Teva, as the case may be, will pay such additional tax amounts so that the net amount received by each holder of debentures, including those additional tax amounts, will equal the amount that such holder would have received if such taxes had not been required to be withheld or deducted.

Additional tax amounts will not be payable with respect to a payment made to a holder of debentures to the extent:

- (1) the holder is:

able to avoid such withholding or deduction by making a declaration of non-residence or other claim for exemption to the tax authority, or

liable for such taxes, duties, assessments or governmental charges in respect of the debentures by reason of its having some connection with the taxing jurisdiction other than merely by the holding of the debentures:

- (2) of any estate, inheritance, gift, sales, transfer or personal property taxes imposed with respect to the debentures, except as otherwise provided in the indenture; or

- (3) that any such taxes would not have been imposed but for the presentation of such debentures, where presentation is required, for payment on a date more than 30 days after the date on which such payment became due and payable or the date on which payment thereof is duly provided for, whichever is later, except to the extent that the holder would have been entitled to additional tax amounts had the debentures been presented for payment on any date during such 30-day period.

Teva Finance, as the issuer, and Teva, as the guarantor, will pay any present or future stamp, court or documentary taxes or any other excise or property taxes, charges or similar levies that arise from the execution, delivery, enforcement or registration of the debentures or any other document or instrument in relation thereto.

S-41

Table of Contents

Consolidation, Merger or Assumption

Teva Finance may, without the consent of the holders of debentures, consolidate with, merge into or transfer all or substantially all of its respective assets to any other corporation, limited liability company, partnership or trust organized under the laws of the United States, any state thereof and the District of Columbia, provided that:

the successor entity assumes all of the obligations of Teva Finance under the indenture and the debentures;

if as a result of such transaction the debentures become convertible into common stock or other securities issued by a third party, such third party fully and unconditionally guarantees all obligations of us or such successor under the debentures and the indenture; and

at the time of such transaction, no event of default, and no event which, after notice or lapse of time, would become an event of default, shall have happened and be continuing.

Teva may, without the consent of the holders of debentures, consolidate with, merge into or transfer all or substantially all of its respective assets to any other corporation provided that:

the successor corporation assumes all of the obligations of Teva under the indenture and the debentures; and

at the time of such transaction, no event of default, and no event which, after notice or lapse of time, would become an event of default, shall have happened and be continuing.

The indenture provides that so long as any debentures are outstanding, all of Teva Finance's membership interests will be owned directly or indirectly by Teva or its successor.

Modifications, Amendments and Meetings

Changes Requiring Approval of Each Affected Holder

The indenture cannot be modified or amended without the written consent or the affirmative vote of the holder of each debenture affected by such change to:

change the maturity of the principal of or any installment of interest on that debenture;

reduce the principal amount of or interest on that debenture;

change the currency of payment of that debenture or interest thereon;

impair the right to institute suit for the enforcement of any payment on or with respect to that debenture;

modify Teva Finance's obligations to maintain an office or agency in New York City;

except as otherwise permitted or contemplated by provisions concerning corporate reorganizations, affect the repurchase option of holders upon a change of control or termination of trading or the conversion rights of holders of the debentures in a manner adverse to the holders of debentures;

modify Teva's obligation to own, directly or indirectly, all of Teva Finance's outstanding membership interests;

modify the redemption provisions of the indenture in a manner adverse to the holders of debentures;

modify the guarantee in a manner adverse to the holders of the debentures;

reduce the percentage in aggregate principal amount of debentures outstanding necessary to modify or amend the indenture or to waive any past default; or

reduce the percentage in aggregate principal amount of debentures outstanding required for the adoption of a resolution or the quorum required at any meeting of holders of debentures at which a resolution is adopted.

Table of Contents

Changes Requiring Majority Approval

Except as described above, the indenture may be modified or amended either:

with the written consent of the holders of at least a majority in aggregate principal amount of the debentures affected at the time outstanding; or

by the adoption of a resolution at a meeting of holders by at least a majority in aggregate principal amount of the debentures affected represented at such meeting.

Changes Requiring No Approval

The indenture may be modified or amended by Teva Finance, Teva and the trustee, without the consent of the holder of any debenture, for the purposes of, among other things:

adding to Teva or Teva Finance's covenants for the benefit of the holders of debentures;

surrendering any right or power conferred upon Teva or Teva Finance;

providing for conversion rights of holders of debentures if any reclassification or change of Teva ADRs or ordinary shares or any consolidation, merger or sale of all or substantially all of Teva's assets occurs;

providing for the assumption of Teva or Teva Finance's obligations to the holders of debentures in the case of a merger, consolidation, conveyance, transfer or lease;

increasing the conversion rate, provided that the increase will not adversely affect the interests of the holders of debentures;

complying with the requirements of the SEC in order to effect or maintain the qualification of the indenture under the Trust Indenture Act;

curing any ambiguity, supplying any omission or correcting any defective provision contained in the indenture; provided that such modification or amendment does not, in the good faith opinion of Teva Finance's board of managers adversely affect the interests of the holders of debentures in any material respect; *provided, further*, that any amendment made solely to conform the provisions of the indenture to the description of the debentures contained in this prospectus supplement will not be deemed to adversely affect the interests of the holders of the debentures; or

adding or modifying any other provisions which Teva Finance and the trustee may deem necessary or desirable and which will not adversely affect the interests of the holders of debentures.

Meetings

The indenture contains provisions for convening meetings of the holders of debentures to consider matters affecting their interests.

Quorum

The quorum at any meeting called to adopt a resolution will be persons holding or representing a majority in aggregate principal amount of the debentures affected at the time outstanding and, at any reconvened meeting adjourned for lack of a quorum, 25% of the aggregate principal amount.

Satisfaction and Discharge

Teva Finance and Teva may satisfy and discharge their obligations under the indenture while debentures remain outstanding if:

all outstanding debentures have become due and payable at their scheduled maturity; or

all outstanding debentures have been called for redemption,

and, in either case, Teva Finance has deposited with the trustee an amount sufficient to pay and discharge all outstanding debentures on the date of their scheduled maturity or the scheduled date of redemption.

Table of Contents

Governing Law

The indenture and the debentures will be governed by, and construed in accordance with, the law of the State of New York.

Information Concerning the Trustee, Paying Agent and Conversion Agent

The Bank of New York, as trustee under the indenture, has been appointed by us as paying agent, conversion agent, registrar and custodian with regard to the debentures. The Bank of New York, 101 Barclay Street, New York, New York, 10286, is the depositary for Teva ADRs. The trustee or its affiliates may from time to time in the future provide banking and other services to us in the ordinary course of their business.

Form, Denomination and Registration

Denomination and Registration. The debentures will be issued in fully registered form, without coupons, in denominations of \$1,000 principal amount and whole multiples of \$1,000 in excess thereof.

Global Debentures; Book-Entry Form. The debentures will be represented by permanent global debentures in definitive, fully registered form without interest coupons. The global debentures will be deposited with the trustee as custodian for DTC and registered in the name of a nominee of DTC in New York, New York for the accounts of participants in DTC.

Except as set forth below, the global debentures will be transferable, in whole or in part, only to another nominee of DTC or to a successor of DTC or its nominee.

DTC has advised us that it is:

a limited purpose trust company organized under the laws of the State of New York;

a member of the Federal Reserve System;

a clearing corporation within the meaning of the New York Uniform Commercial Code; and

a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

DTC was created to hold securities of institutions that have accounts with DTC and to facilitate the clearance and settlement of securities transactions among its participants in securities through electronic book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include:

securities brokers and dealers;

banks;

trust companies; and

clearing corporations.

Access to DTC's book-entry system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant whether directly or indirectly.

Upon the issuance of the global debentures, DTC credited, on its book-entry registration and transfer system, the respective principal amounts of the individual beneficial interests represented by the global debentures to the accounts of participants. The accounts credited were designated by the underwriters of the beneficial interests. Ownership of beneficial interests in the global debentures is limited to participants or persons

S-44

Table of Contents

that may hold interests through participants. Ownership of beneficial interests in the global debentures is shown on, and the transfer of those ownership interests will be effected only through, records maintained by DTC (with respect to participants' interests) and the participants (with respect to the owners of beneficial interests in the global debentures other than participants).

So long as DTC or its nominee is the registered holder and owner of the global debentures, DTC or its nominee, as the case may be, will be considered the sole legal owner of the debentures represented by the global debentures for all purposes under the indenture and the debentures. Except as set forth below, owners of beneficial interests in the global debentures will not be entitled to receive definitive debentures and will not be considered to be the owners or holders of any debentures under the global debentures. Teva Finance understands that under existing industry practice, in the event an owner of a beneficial interest in the global debentures desires to take any action that DTC, as the holder of the global debentures, is entitled to take, DTC would authorize the participants to take the action, and that participants would authorize beneficial owners owning through the participants to take the action or would otherwise act upon the instructions of beneficial owners owning through them. No beneficial owner of an interest in the global debentures will be able to transfer the interest except in accordance with DTC's applicable procedures, in addition to those provided for under the indenture and, if applicable, those of Euroclear and Clearstream.

Teva Finance will make payments of the principal and interest on the debentures represented by the global debentures registered in the name of and held by DTC or its nominee to DTC or its nominee, as the case may be, as the registered owner and holder of the global debentures.

Teva Finance expects that DTC or its nominee, upon receipt of any payment of principal or interest in respect of the global debentures, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global debentures as shown on the records of DTC or its nominee. Teva Finance also expects that payments by participants and indirect participants to owners of beneficial interests in the global debentures held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for accounts of customers registered in the names of nominees for these customers. The payments, however, will be the responsibility of the participants and indirect participants, and none of Teva Finance, Teva, the trustee or any paying agent or conversion agent will have any responsibility or liability for:

any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the global debentures;

maintaining, supervising or reviewing any records relating to the beneficial ownership interests;

any other aspect of the relationship between DTC and its participants; or

the relationship between the participants and indirect participants and the owners of beneficial interests in the global debentures.

Unless and until it is exchanged in whole or in part for definitive debentures, the global debentures may not be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC.

Participants in DTC will effect transfers with other participants in the ordinary way in accordance with DTC rules and will settle transfers in same-day funds. Participants in Euroclear and Clearstream will effect transfers with other participants in the ordinary way in accordance with the rules and operating procedures of Euroclear and Clearstream, as applicable. If a holder requires physical delivery of a definitive debenture for any reason, including to sell debentures to persons in jurisdictions which require physical delivery or to pledge debentures, the holder must transfer its interest in the global debentures in accordance with the normal procedures of DTC and the procedures set forth in the indenture.

Table of Contents

Cross-market transfers between DTC, on the one hand, and directly or indirectly through Euroclear or Clearstream participants, on the other, will be effected in DTC in accordance with DTC rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, these cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in the system in accordance with its rules and procedures and within its established deadlines (Brussels time). Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the global debentures in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in the global debentures from a DTC participant will be credited during the securities settlement processing day immediately following the DTC settlement date, and the credit of any transactions interests in the global debentures settled during the processing day will be reported to the relevant Euroclear or Clearstream participant on that day. Cash received in Euroclear or Clearstream as a result of sales of interests in the global debentures by or through a Euroclear or Clearstream participant to a DTC participant will be received with value on the DTC settlement date, but will be available in the relevant Euroclear or Clearstream cash account only as of the business day following settlement in DTC.

Teva Finance expects that DTC will take any action permitted to be taken by a holder of debentures only at the direction of one or more participants to whose accounts at DTC interests in the global debentures are credited and only in respect of the portion of the aggregate principal amount of the debentures as to which the participant or participants has or have given direction. However, if there is an event of default under the debentures, DTC will exchange the global debentures for definitive debentures, which it will distribute to its participants.

Although Teva Finance expects that DTC, Euroclear and Clearstream will agree to the foregoing procedures in order to facilitate transfers of interests in the global debentures among participants of DTC, Euroclear and Clearstream, DTC, Euroclear and Clearstream are under no obligation to perform or continue to perform these procedures, and these procedures may be discontinued at any time. None of Teva Finance, Teva or the trustee have any responsibility for the performance by DTC, Euroclear or Clearstream or their participants or indirect participants of their obligations under the rules and procedures governing their operations.

If DTC is at any time unwilling or unable to continue as a depository for the global debentures or ceases to be a clearing agency registered under the Exchange Act and Teva Finance does not appoint a successor depository within 90 days, Teva Finance will issue definitive debentures in exchange for the global debentures.

Definitive Debentures. Definitive debentures may also be issued in exchange for debentures represented by the global debentures if Teva Finance does not appoint a successor depository as set forth above under Global Debentures; Book-Entry Form or in other circumstances set forth in the indenture.

Table of Contents

DESCRIPTION OF ORDINARY SHARES

For a description of Teva ordinary shares, see "Description of Ordinary Shares" in the accompanying prospectus. Due to a change in the Israeli Companies Law effective January 2006, the record date for purposes of determining the shareholders entitled to participate and vote at a meeting of shareholders may be no less than 28 days before the meeting, provided that notice of the general meeting was published prior to the record date. Prior to this amendment, the record date could have been as few as four days before the meeting.

S-47

Table of Contents**UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS**

The following is the opinion of Willkie Farr & Gallagher LLP, U.S. tax counsel to Teva, as to the material U.S. federal income considerations relating to the purchase, ownership and disposition of the debentures and of ADRs into which the debentures may be converted. It is not, however, a complete analysis of all the potential tax considerations that may be applicable to all potential investors. This summary is based on the provisions of the U.S. Internal Revenue Code (the "Code"), the applicable Treasury regulations promulgated thereunder ("Treasury Regulations"), judicial authority and current administrative rulings and practice, all of which are subject to change, possibly with retroactive effect. This summary deals only with holders that purchase debentures at their original issuance at their issue price. This summary also deals only with holders that will hold debentures and ADRs into which the debentures may be converted as "capital assets" (within the meaning of section 1221 of the Code). This summary does not deal with all aspects of U.S. federal income taxation that might be relevant to particular investors in light of their personal investment circumstances or status, nor does it address tax considerations applicable to investors that may be subject to special tax rules, such as certain financial institutions, tax-exempt organizations, S corporations, insurance companies, broker, dealers, traders, expatriates subject to Code section 877 persons that own, or are deemed to own, 10% or more of outstanding vote or value of the stock of Teva Finance and taxpayers subject to the alternative minimum tax. It also does not discuss debentures held as part of a hedge, straddle, synthetic security or other integrated investment, or situations in which the functional currency of the holder is not the U.S. dollar. Moreover, it does not discuss the effect of any applicable state, local or foreign tax laws. Teva has not sought any ruling from the Internal Revenue Service (the "IRS") with respect to the statements made in the following summary, and there can be no assurance that the IRS will agree with such statements.

This summary is based on the Internal Revenue Code of 1986, as amended to the date hereof, administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, as well as the Convention Between the Government of the United States of America and the Government of Israel with Respect to Taxes on Income, which we refer to as the U.S.-Israel tax treaty, changes to any of which subsequent to the date of this Prospectus Supplement may affect the tax consequences described herein. Persons considering the purchase of convertible notes are urged to consult their tax advisors with regard to the application of the U.S. federal income tax laws to their particular situations as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

The following discussion is for general information only. Investors considering the purchase of debentures should consult their own tax advisors with respect to the application of the U.S. federal income tax laws to their particular situations as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction or under any applicable tax treaty.

Unless otherwise stated, this summary deals only with U.S. Holders. The term "U.S. Holder" means a beneficial holder of a debenture or ADR that is, for U.S. federal income tax purposes, one of the following:

- (1) a citizen or resident of the United States;
- (2) a corporation or any other entity taxable as a corporation created or organized under the laws of the United States or any state thereof;
- (3) an estate, the income of which is includable in gross income for U.S. federal income tax purposes regardless of its source;
- (4) a trust, if a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

A non-U.S. Holder is any beneficial holder of a debenture or ADR who or which is for U.S. federal income tax purposes:

an individual who is classified as a nonresident for U.S. federal income tax purposes;

S-48

Table of Contents

a foreign corporation; or

a foreign estate or trust.

A non-U.S. holder does not include a holder who is an individual present in the United States for 183 days or more in the taxable year of disposition and who is not otherwise a resident of the United States for U.S. federal income tax purposes. Such a holder is urged to consult his or her own tax advisor regarding the U.S. federal income tax consequences of the sale, exchange or other disposition of an ADR.

Special rules, not discussed in this document, may apply to persons investing through entities treated for U.S. federal income tax purposes as partnerships, and those persons should consult their own tax advisors in that regard.

Payment of Interest

It is expected (and this discussion assumes) that the notes will be issued without original issue discount for U.S. federal income tax purposes. Accordingly, a U.S. Holder must generally include interest (including any additional tax amounts) on a debenture in its ordinary income as U.S. source income at the time such interest is received or accrued, in accordance with such U.S. Holder's method of accounting for U.S. federal income tax purposes.

Sale, Exchange, Conversion or Redemption of the Debentures

Upon the sale, exchange, conversion or redemption of a debenture, a U.S. Holder generally will recognize U.S. source capital gain or loss equal to the difference between

- (1) the amount of cash proceeds and the fair market value of any other property received on the sale, exchange, conversion or redemption (except to the extent such amount is attributable to accrued and unpaid interest, which is treated as interest subject to the rules discussed above under "Payment of Interest") and
- (2) such holder's adjusted tax basis in the debenture.

A U.S. Holder's adjusted tax basis in a debenture generally will equal the cost of the debenture to such holder. Such capital gain or loss will be long-term capital gain or loss if the U.S. Holder's holding period for the debenture is more than one year at the time of sale, exchange or redemption.

Upon conversion of a debenture into ADRs, a U.S. Holder will generally take a basis in such ADRs equal to their fair market value at the time of conversion (less amounts attributable to accrued but unpaid interest). The U.S. Holder's holding period for such ADR will generally start on the day after the date of the conversion.

Adjustment of Conversion Price

If at any time (1) Teva distributes cash or property to its stockholders or purchases ADRs and such distribution or purchase would be taxable to such stockholders as a dividend for U.S. federal income tax purposes (*e.g.*, distributions of evidences of indebtedness or assets of ours, but generally not stock dividends or rights to subscribe for ADRs) and, pursuant to the antidilution provisions of the indenture, the conversion price of the debentures is decreased, or (2) the conversion price of the debentures is decreased at our discretion, such decrease in conversion price may be deemed to be the payment of a taxable dividend to U.S. Holders of debentures (pursuant to section 305 of the Code) to the extent of our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. Such holders of debentures could therefore have taxable income as a result of an event pursuant to which they received no cash or other property. In addition, any deemed dividend would not be eligible for the reduced rate of tax applicable to dividends received by certain non-corporate U.S. holders (see [Dividend on ADRs](#) below).

S-49

Table of Contents

Ownership of Teva ADRs

U.S. holders of Teva ADRs will be treated as owners of the Teva ordinary shares underlying their Teva ADRs. Accordingly, except as noted, the U.S. federal income tax consequences discussed below apply equally to U.S. holders of Teva ordinary shares and Teva ADRs, and deposits and withdrawals of Teva ordinary shares in exchange for Teva ADRs will not be taxable events for U.S. federal income tax purposes.

The U.S. Treasury has expressed concerns that parties to whom Teva ADRs are released may be taking actions that are inconsistent with the claiming of foreign tax credits for U.S. holders of Teva ADRs. Such actions would also be inconsistent with the claiming of the reduced rate of tax, described below, applicable to dividends received by certain non-corporate U.S. holders. Accordingly, the analysis of the availability of foreign tax credits and the reduced tax rate for dividends received by certain non-corporate U.S. holders, described below, could be affected by actions taken by parties to whom the Teva ADRs are released.

Dividends on ADRs

The amount of any distribution paid to a U.S. holder, including any Israeli taxes withheld from the amount of such distribution, will be subject to U.S. federal income taxation as ordinary income to the extent paid out of Teva's current or accumulated earnings and profits, as determined for U.S. federal income tax purposes. Subject to applicable limitations and provided Teva is not a passive foreign investment company (PFIC) for U.S. federal income tax purposes, dividends paid to non-corporate U.S. holders with respect to taxable years beginning on or before December 31, 2008 generally are subject to tax at a maximum rate of 15%. Teva believes that it is not a PFIC and will not be considered a PFIC in the foreseeable future. Any dividend received will not be eligible for the dividends-received deduction generally allowed to U.S. corporations in respect of dividends received from U.S. corporations. To the extent that an amount received by a U.S. holder exceeds that U.S. holder's allocable share of Teva's current and accumulated earnings and profits, such excess will be applied first to reduce that U.S. holder's tax basis in the ADRs and then, to the extent the distribution exceeds that U.S. holder's tax basis, will be treated as capital gain.

Dividends paid in Israeli NIS will be included in a U.S. holder's income in a U.S. dollar amount calculated by referenced to the exchange rate in effect on the date of the U.S. holder's (or, in the case of ADRs, the depository's) receipt of the dividend, regardless of whether the payment is in fact converted into U.S. dollars. If the dividend is converted into U.S. dollars on the date of receipt, a U.S. holder should generally not be required to recognize foreign currency gain or loss in respect of the dividend income. A U.S. holder may have foreign currency gain or loss, which will be treated as income from sources within the United States, if he or she does not convert the amount of such dividend into U.S. dollars on the date of receipt. The amount of any distribution of property other than cash will be the property's fair market value on the date of the distribution.

Distributions paid out of earnings and profits with respect to the ADRs, generally will be treated as income from sources outside the United States and generally will be treated separately along with other items of passive income for purposes of determining the credit for foreign income taxes allowed under the Code. Subject to applicable limitations that may vary depending on a U.S. holder's circumstances, Israeli taxes withheld from dividends on the ADRs at the rate provided by the U.S.-Israel tax treaty will be creditable against a U.S. holder's U.S. federal income tax liability. The limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. The rules governing foreign tax credits are complex, and, therefore, you should consult your own tax advisor regarding the availability of foreign tax credits in your particular circumstances. Instead of claiming a credit, a U.S. holder may elect to deduct such otherwise creditable Israeli taxes in computing taxable income, subject to generally applicable limitations.

Transfers of ADRs

A U.S. holder that sells or otherwise disposes of ADRs generally will recognize capital gain or loss for U.S. federal income tax purposes equal to the difference between the U.S. dollar value of the amount realized and the tax basis, determined in U.S. dollars, in the ADRs. The gain or loss will generally be income or loss from sources within the United States for foreign tax credit limitation purposes.

S-50

Table of Contents

Non-U.S. Holders

The Debentures

Subject to the discussion below concerning backup withholding, payments of principal, interest and premium on the debentures by Teva Finance or any paying agent to any Non-U.S. Holder will not be subject to U.S. federal withholding tax, provided that, in the case of interest,

the Non-U.S. Holder does not own, actually or constructively, 10 percent or more of the total combined voting power of all classes of stock of Teva Finance or Teva USA entitled to vote and is not a controlled foreign corporation related, directly or indirectly, to Teva Finance or Teva USA through stock ownership; and

the certification requirement described below has been fulfilled with respect to the beneficial owner, as discussed below.

Subject to the discussion below concerning backup withholding, a Non-U.S. Holder of a debenture will not be subject to U.S. federal income tax on gain realized on the sale, exchange or other disposition of such debenture, unless the gain is effectively connected with the conduct by the Holder of a trade or business in the United States (and if an income tax treaty applies, to a permanent establishment in the United States).

Certification Requirement

Interest will not be exempt from U.S. withholding tax unless the beneficial owner of the debenture certifies on Internal Revenue Service Form W-8BEN, under penalties of perjury, that it is not a U.S. person. If the beneficial owner of a debenture fails to make this certification, payments of interest on that debenture will be subject to U.S. federal withholding tax at a rate of 30%.

If a Non-U.S. Holder of a debenture is engaged in a trade or business in the United States, and if interest on the debenture is effectively connected with the conduct of this trade or business (and, if an income tax treaty applies, is attributable to a permanent establishment or fixed base maintained by the Non-U.S. Holder in the United States), the Non-U.S. Holder, although exempt from the withholding tax discussed in the preceding paragraph, will generally be taxed in the same manner as a U.S. Holder (see Tax Consequences to U.S. Holders above), subject to any applicable income tax treaty providing otherwise, except that the Holder will be required to provide to Teva Finance a properly executed Internal Revenue Service Form W-8ECI in order to claim an exemption from withholding tax. These holders should consult their own tax advisors with respect to other U.S. tax consequences of the ownership and disposition of debentures including the possible imposition of a 30% branch profits tax.

Dividends on ADRs

A non-U.S. holder is not subject to U.S. federal income tax with respect to dividends paid on ADRs unless the dividends are effectively connected with the non-U.S. holder's conduct of a trade or business in the United States and, if required by an applicable income tax treaty as a condition for U.S. taxation, the dividends are attributable to a permanent establishment maintained in the United States. In such cases, a

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

non-U.S. holder will be taxed in the same manner as a U.S. holder. A corporate non-U.S. holder may also, under certain circumstances, be subject to an additional branch profits tax at a 30% rate, or at a lower rate if that corporate non-U.S. holder is eligible for the benefits of an income tax treaty providing for a lower rate, with respect to dividends that are effectively connected with its conduct of a trade or business in the United States.

Transfers of ADRs

A non-U.S. holder will not be subject to U.S. federal income tax on gain recognized on the sale or other disposition of ADRs unless (i) the gain is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States and, if required by an applicable income tax treaty as a condition for U.S.

S-51

Table of Contents

taxation, the gain is attributable to a permanent establishment maintained in the United States or (ii) the non-U.S. holder is an individual and present in the United States for at least 183 days in the taxable year of the sale and certain other conditions are met. In such cases, a non-U.S. holder will be taxed in the same manner as a U.S. holder. A corporate non-U.S. holder may also, under certain circumstances, be subject to an additional branch profits tax at a 30% rate, or at a lower rate if eligible for the benefits of an income tax treaty that provides for a lower rate, on effectively connected gains recognized.

Information Reporting and Backup Withholding

U.S. holders: Information returns will be filed with the Internal Revenue Service in connection with payments on the debentures, dividends on the ADRs and the proceeds from a sale or other disposition of the debentures or ADRs. A U.S. Holder will be subject to U.S. backup withholding tax on these payments if the U.S. Holder fails to provide its taxpayer identification number to the paying agent and comply with certain certification procedures or does not otherwise establish an exemption from backup withholding. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's U.S. federal income tax liability and may entitle the U.S. Holder to a refund, provided that the required information is furnished to the Internal Revenue Service.

Non-U.S. holders: Information returns will be filed with the U.S. Internal Revenue Service in connection with payments on the debentures and dividends on the ADRs. Unless the Non-U.S. Holder complies with certification procedures to establish that it is not a U.S. person, information returns may be filed with the U.S. Internal Revenue Service in connection with the proceeds from a sale or other disposition of the debentures or ADRs, and the Non-U.S. Holder may be subject to U.S. backup withholding tax on payments on the debentures, dividends on the ADRs, or on the proceeds from a sale or other disposition of the debentures or ADRs. The certification procedures required to claim the exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid the backup withholding tax as well. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder's U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is furnished to the Internal Revenue Service.

Table of Contents

ISRAELI TAX ISSUES

The following is a summary of certain material Israeli tax considerations relating to the purchase, ownership and disposition of the debentures and of ADRs into which the debentures may be converted by persons who are not residents of the State of Israel. It is not, however, a complete analysis of all the potential tax considerations that may be applicable to all potential investors.

The following discussion is for general information only. Investors considering the purchase of debentures should consult their own tax advisors with respect to the application of Israeli income tax laws to their particular situations as well as any tax consequences arising under any non-Israeli taxing jurisdiction or under any applicable tax treaty.

Withholding Taxes on Interest Payable by Teva to Non-Israeli Residents

An Israeli company paying interest on a debenture denominated in a foreign currency to an individual that is a non-Israeli resident is generally subject to a 20% withholding tax (except for interest paid to holders of 10% or more of the share capital of the company, who are subject to tax according to their marginal tax rate). Taxes to be withheld from non-Israeli residents with respect to interest received from an Israeli company may be reduced under an applicable tax treaty.

An Israeli company paying interest on a similar debenture to a non-Israeli resident corporate entity will be subject to 25% withholding tax.

The Israeli holding tax would only apply if Teva as a guarantor pays interest on the debentures.

In the event that interest is paid by Teva as guarantor to a United States resident entitled to the reduced tax rate under the U.S.-Israel tax treaty, then the tax rate on such gross interest amounts shall not exceed 17.5%.

Teva and Teva Finance have agreed to pay certain additional amounts in connection with withholding taxes or deductions that may be imposed by Israeli or United States authorities. See [Description of the Debentures and the Guarantees](#) [Additional Tax Amounts](#).

Withholding Taxes on Dividends Distributed by Teva to Non-Israeli Residents

Dividends distributed by an Israeli company to non-Israeli residents are generally subject to a 20% tax to be withheld at source. In the case of dividends distributed from taxable income attributable to an approved enterprise, the tax rate will be 15%. Such tax rates apply unless a lower rate is provided in a treaty between Israel and the shareholder's country of residence.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

Under the U.S.-Israel tax treaty, the maximum Israeli tax and withholding tax on dividends paid to a holder of ordinary shares or ADRs who is a resident of the United States is generally 25%, but is reduced to 12.5% if the dividends are paid to a corporation that holds in excess of 10% of the voting rights of Teva during Teva's taxable year preceding the distribution of the dividend and the portion of Teva's taxable year in which the dividend was distributed. Dividends of an Israeli company derived from the income of an approved enterprise will still be subject to a 15% dividend withholding tax; if the dividend is attributable partly to income derived from an approved enterprise, and partly to other sources of income, the withholding rate will be a blended rate reflecting the relative portions of the two types of income. The withheld tax is the final tax in Israel on dividends paid to nonresidents who do not conduct a business in Israel. The rate of tax withheld on the dividends declared and paid for the first nine months of 2005 was 18%.

A non-resident of Israel who has interest or dividend income derived from or accrued in Israel, from which tax was withheld at the source, is generally exempt from the duty to file tax returns in Israel in respect of such income, provided such income was not derived from a business conducted in Israel by the taxpayer.

S-53

Table of Contents

Capital Gains and Income Taxes Applicable to Non-Israeli Shareholders

Israeli law generally imposes a capital gains tax on the sale of securities and any other capital asset. If the ordinary shares of an Israeli company are traded on a recognized stock exchange (including the Tel Aviv Stock Exchange and NASDAQ), gains on the sale of ordinary shares held by non-Israeli tax resident investors will generally be exempt from Israeli capital gains tax. Notwithstanding the foregoing, dealers in securities in Israel are taxed at regular tax rates applicable to business income.

In addition, the U.S.-Israeli tax treaty exempts U.S. residents who hold an interest of less than 10% in an Israeli company, including Teva, and who did not hold an interest of 10% or more in the company at any time during the 12 months prior to a sale of their shares, from Israeli capital gains tax in connection with such sale. Certain other tax treaties to which Israel is a party also grant exemptions from Israeli capital gains taxes.

S-54

Table of Contents**UNDERWRITING**

We have entered into an underwriting agreement with Lehman Brothers Inc., Credit Suisse Securities (USA) LLC and Bear, Stearns & Co. Inc. as representatives of the underwriters, pursuant to which, and subject to its terms and conditions, we have agreed to sell to the underwriters and the underwriters have severally agreed to purchase from us the principal amount of debentures set forth in the following table.

Underwriters	Principal Amount of Debentures
Lehman Brothers Inc.	\$ 300,000,000
Credit Suisse Securities (USA) LLC	100,000,000
Bear, Stearns & Co. Inc.	100,000,000
Total	\$ 500,000,000

The underwriting agreement provides that the underwriters' obligations to purchase the debentures depends on the satisfaction of the conditions contained in the underwriting agreement, including:

the representations and warranties made by us to the underwriters are true;

there is no material change in the financial markets; and

we deliver customary closing documents to the underwriters.

The underwriters have advised us that they intend to offer the debentures initially at the offering price shown on the cover page of this prospectus supplement and to certain dealers at the offering price less a selling concession in each issue not to exceed \$4.37 per \$1,000 in aggregate principal amount of debentures. After the initial offering of the debentures, the underwriters may change the public offering price and the concession to selected dealers.

Option to Purchase Additional Debentures

We have granted to the underwriters an option to purchase an aggregate of up to an additional \$75 million principal amount of debentures at the public offering price, less underwriting discounts and commissions shown on the cover page of this prospectus supplement. Any additional purchases must be consummated on or before 30 days after the date of the underwriting agreement. To the extent that the options are exercised, the underwriters will be obligated, so long as the conditions set forth in the underwriting agreement are satisfied, to purchase these additional debentures in proportion to their initial commitment as indicated in the preceding table.

Commission and Expenses

The following table shows the underwriting fees to be paid to the underwriters by us in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment options to purchase additional debentures. The underwriting discounts and commissions are equal to 0.729% of the public offering price.

	<u>No Exercise</u>	<u>Full Exercise</u>
Per debenture	\$ 7.29	\$ 7.29
Total	\$ 3,645,833	\$ 4,192,708

The aggregate expenses of this offering and the concurrent offerings of 1.75% Convertible Senior Debentures due 2026, 5.550% Senior Notes due 2016 and 6.150% Senior Notes due 2036 that are payable by us, including registration, filing and listing fees, printing fees and legal and accounting expenses, but excluding underwriting discounts and commissions, will be approximately \$1.9 million.

Table of Contents

Prior to this offering, there has been no public market for the debentures. The underwriters have advised us that they presently intend to make a market in the debentures as permitted by applicable laws and regulations. The underwriters are not obligated, however, to make a market in the debentures, and they may discontinue this market making at any time in their sole discretion. Accordingly, we cannot assure investors that there will be adequate liquidity or adequate trading market for the debentures.

Price Stabilization and Short Positions

The underwriters may engage in over-allotment and stabilizing transactions or purchases and passive market making for the purpose of pegging, fixing or maintaining the price of the debentures and Teva ADRs in accordance with Regulation M under the Securities Exchange Act of 1934:

Over-allotment involves sales by the underwriters of debentures in excess of the number of debentures the underwriter is obligated to purchase, which creates a short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of debentures over-allotted by the underwriters is not greater than the number of debentures that they may purchase with their option to purchase additional debentures. In a naked short position, the number of debentures involved is greater than the number of debentures that they may purchase with their option to purchase additional debentures. The underwriters may close out any short position by either exercising their option and/or purchasing debentures in the open market. In determining the source of debentures to close out the short position, the underwriters will consider, among other things, the price of debentures available for purchase in the open market as compared to the price at which they may purchase debentures through their option. If the underwriters sell more debentures than could be covered by their option, a naked short position, the position can only be closed out by buying debentures in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the debentures in the open market after pricing that could adversely affect investors who purchase in the offering.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. These stabilizing transactions may have the effect of raising or maintaining the market price of the debentures or preventing or retarding a decline in the market price of the debentures. As a result, the price of the debentures may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the Nasdaq National Market or otherwise, and, if commenced, may be discontinued at any time.

Passive market making consists of displaying bids on the Nasdaq National Market no higher than the bid prices of independent market makers and making purchases at prices no higher than those independent bids and effected in response to order flow. Net purchases by a passive market maker on each day are limited to a specified percentage of the passive market maker's average daily trading volume in Teva ADRs during a specified period and must be discontinued when such limit is reached. Passive market making may cause the price of Teva ADRs to be higher than the price that otherwise would exist in the open market in the absence of such transactions. If passive market making is commenced, it may be discontinued at any time.

Neither we nor the underwriters make any representations or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the debentures. In addition, neither we nor the underwriters make representations that the representatives will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Electronic Distributions

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

This prospectus supplement and the accompanying prospectus in electronic format may be made available on the Internet sites or through other online services maintained by one or more of the underwriters or by their affiliates. In these cases, prospective investors may view offering terms online and, depending upon the

S-56

Table of Contents

underwriter, prospective investors may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of debentures for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriters on the same basis as other allocations.

Other than this prospectus supplement and the accompanying prospectus in electronic format, the information on any underwriter's web site and any information contained in any other web site maintained by any underwriter is not a part of this prospectus supplement and the attached prospectus, has not been approved and/or endorsed by us or the underwriters in their capacity as underwriters and should not be relied upon by investors.

Lock-up Agreements

Teva Finance and Teva have agreed that, unless we receive the prior written consent of Lehman Brothers Inc., Credit Suisse Securities (USA) LLC and Bear, Stearns & Co. Inc., we may not, subject to certain customary exceptions and other than Teva ADRs to be issued under Ivax stock option plans, during the period ending 90 days after the date of the prospectus supplement, directly or indirectly, offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to sale of or otherwise transfer or dispose of any Teva ADRs or any security convertible into Teva ADRs or substantially similar securities.

Teva Finance and Teva have agreed with the underwriters of our concurrent public offering of our 5.550% Senior Notes due 2016 in an aggregate principal amount of \$500 million and our 6.150% Senior Notes due 2036 in the aggregate principal amount of \$1,000 million that, unless we receive the prior written consent of the representatives of that offering, we may not, subject to certain customary exceptions, including borrowings pursuant to existing bank credit lines, during the period ending 90 days after the date of the prospectus supplement relating to those securities, directly or indirectly, offer, sell, or contract to sell, or otherwise dispose of any debt securities issued or guaranteed by Teva Finance or Teva.

Indemnification

We have agreed to indemnify the underwriters against liabilities relating to the offering, including liabilities under the Securities Act of 1933 and liabilities arising from breaches of certain representations and warranties contained in the underwriting agreement, and to contribute to payments that the underwriters may be required to make for these liabilities.

Stamp Taxes

Purchasers of the debentures offered by this prospectus supplement may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price listed on the cover page of this prospectus supplement. Accordingly, we urge you to consult a tax advisor with respect to whether you may be required to pay taxes or charges, as well as any other consequences that may arise under the laws of the country of purchase.

Israeli Legal Matters

This prospectus supplement and the accompanying prospectus are not, and under no circumstances are to be construed as, an advertisement or a public offering of securities in Israel. Any public offer or sale of notes in Israel may be made only in accordance with the Israeli Securities Act 1968 (which requires, *inter alia*, the filing of a prospectus in Israel) or under an exemption from the requirements of the Israeli Securities Act 1968 (which has not been provided nor requested).

United Kingdom Legal Matters

Each underwriter has represented and warranted that:

- (1) It has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of

S-57

Table of Contents

Section 21 of the Financial Services and Markets Act 2000 (the FSMA) received by it in connection with the issue or sale of the debentures in circumstances in which Section 21(1) of the FSMA does not apply to us or Teva Finance.

- (2) It has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the debentures in, from or otherwise involving the United Kingdom.

We have agreed that we will not issue any press or other public announcement referring to the proposed issue of the debentures unless the announcement adequately disclosed or will disclose that stabilizing action may take place in relation to the debentures and that we have not taken any other action that may result in the loss of the stabilization safe harbor by the representative.

European Economic Area Legal Matters

In relation to each Member State of the European Economic Area that has implemented the Prospectus Directive (each, a Relevant Member State), each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date), it has not made and will not make an offer of the debentures to the public in that Relevant Member State prior to the publication of a prospectus in relation to the debentures that has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of debentures to the public in that Relevant Member State at any time:

- (1) to legal entities that are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- (2) to any legal entity that has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts; or
- (3) in any other circumstances that do not require the publication by us of a prospectus pursuant to Article 3 of the Prospectus Directive.

For purposes of this provision, the expression an offer of debentures to the public in relation to any debentures in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the debentures to be offered so as to enable an investor to decide to purchase or subscribe for the debentures, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Other Legal Matters

Each underwriter has represented and agreed that it will comply with applicable laws and regulations in each jurisdiction (including each jurisdiction in the European Economic Area that has not, as of the date of this prospectus supplement, implemented the Prospectus Directive) in which it acquires, offers, sells or delivers the notes, or has in its possession or distributes any free writing prospectus and any preliminary prospectus or final prospectus relating to the notes.

Table of Contents

Other Relationships

From time to time, the underwriters and their respective affiliates have directly and indirectly provided investment and/or commercial banking services to us and Ivax, for which they have received customary compensation and expense reimbursement, including, but not limited to, serving as:

Financial advisors to us and Ivax in connection with the merger with Ivax and providing commitments for bridge loan facilities and otherwise assisting in obtaining financing necessary to consummate the proposed merger;

Initial purchasers and providing investment banking services for our concurrent public offering of our (i) 5.550% Senior Notes due 2016 in an aggregate principal amount of \$500 million and our 6.150% Senior Notes due 2036 in an aggregate principal amount of \$1,000,000 and (ii) 1.75% Convertible Senior Debentures due 2026 in an aggregate principal amount of \$750,000,000; and

Lenders under our and Ivax's other credit facilities.

The underwriters and their respective affiliates may directly or indirectly provide investment and/or commercial banking services to us in the future, for which we expect to pay them customary compensation and expense reimbursement.

Affiliates of Lehman Brothers Inc. and Credit Suisse Securities (USA) LLC are lenders under that certain Loan Agreement, dated as of January 18, 2006, by and among Teva, Ivory Acquisition Sub, Inc., a wholly owned subsidiary of Teva, the several banks and other financial institutions parties thereto, Lehman Brothers Inc., as sole lead arranger and sole bookrunner, Credit Suisse First Boston LLC, as syndication agent, and Lehman Commercial Paper Inc., as administrative agent. On January 26, 2006, we borrowed approximately \$2 billion from the lenders under this bridge facility to partially finance our acquisition of Ivax and the transactions contemplated thereby. Because we intend to use the net proceeds from this offering to repay such indebtedness, affiliates of some of the underwriters will receive more than 10% of the net proceeds from this offering through such repayment. As a result, we are conducting this offering in compliance with Rule 2710(h) of the Conduct Rules of the National Association of Securities Dealers, Inc., or NASD. The NASD does not, however, require that we use a qualified independent underwriter for this offering because a bona fide independent market exists for our ADRs.

Table of Contents

EXPERTS

The consolidated financial statements of Teva as of December 31, 2004 and 2003, and for each of the three years in the period ended December 31, 2004 incorporated in this prospectus supplement by reference to Teva's Annual Report on Form 20-F for the year ended December 31, 2004, have been so incorporated in reliance on the audit report of Kesselman & Kesselman, independent registered public accounting firm in Israel and a member of PricewaterhouseCoopers International Limited, given on the authority of said firm as experts in auditing and accounting.

The consolidated financial statements of Ivax at December 31, 2004 and 2003, and for each of the three years in the period ended December 31, 2004, included in Teva's Report of Foreign Private Issuer filed on December 16, 2005 (Form 6-K), which is referred to and incorporated by reference in this prospectus supplement, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their report appearing therein, and are incorporated by reference in reliance upon such report given on the authority of such firm as experts in auditing and accounting.

LEGAL MATTERS

Certain legal matters with respect to United States and New York law with respect to the validity of the debentures offered by this prospectus supplement and of the ADRs issuable upon conversion thereof will be passed upon for the issuers by Willkie Farr & Gallagher LLP, New York, New York. Certain legal matters with respect to Israeli law with respect to the validity of the debentures offered by this prospectus supplement and of the ADRs issuable upon conversion thereof will be passed upon for the issuers by Tulchinsky-Stern & Co., Israel. Certain legal matters relating to this offering will be passed upon for the underwriters by Cleary Gottlieb Steen & Hamilton LLP, New York, New York and by Meitar Liquornik Geva & Leshem Brandwein, Ramat Gan, Israel.

WHERE YOU CAN FIND MORE INFORMATION

This prospectus supplement is part of a registration statement that we filed with the SEC. The registration statement, including the attached exhibits, contains additional relevant information about us. The rules and regulations of the SEC allow us to omit some of the information included in the registration statement from this prospectus supplement. In addition, we file annual and special reports and other information with the SEC. You may read and copy such material at the public reference facilities maintained by the SEC at 100 F Street, N.E., Room 1580, Washington, D.C. 20549, as well as at the SEC's regional offices. You may also obtain copies of such material from the SEC at prescribed rates by wiring to the Public Reference Section of the SEC, 100 F Street, N.E., Room 1580, Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference rooms.

The SEC maintains an Internet website at <http://www.sec.gov> that contains reports, proxy, information statements and other material that are filed through the SEC's Electronic Data Gathering, Analysis and Retrieval (EDGAR) system and filed electronically with the SEC. We began filing through the EDGAR system beginning on October 31, 2002.

Our ADSs are quoted on the Nasdaq National Market under the symbol TEVA. You may inspect certain reports and other information concerning us at the offices of the National Association of Securities Dealers, Inc., 1735 K Street, N.W., Washington, D.C. 20006.

Information about us is also available on our website at <http://www.tevapharm.com>. Such information on our website is not part of this prospectus supplement.

ABOUT THIS PROSPECTUS

This prospectus is part of a Registration Statement that Teva and the other registrants filed with the SEC utilizing a shelf registration process. Under this shelf process, any of the registrants may, from time to time, sell the securities described in this prospectus in one or more offerings.

This prospectus provides you with a general description of the securities which we may offer and the related guarantees, if any, of those securities. Each time we sell securities we will provide a prospectus supplement that will contain specific information about the terms of the offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with additional information described below under the heading **Where You Can Find More Information** before purchasing any of our securities.

You should rely only on the information contained or incorporated by reference in this prospectus. Incorporated by reference means that we can disclose important information to you by referring you to another document filed separately with the SEC. We have not authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making, nor will we make, an offer to sell securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus and any supplement to this prospectus is current only as of the dates on their respective covers. Our business, financial condition, results of operations and prospects may have changed since that date.

Unless the context otherwise requires, references in this prospectus and any supplement to this prospectus to **Teva**, **we**, **us** and **our** refer to Teva Pharmaceutical Industries Limited and its subsidiaries, collectively. References to **Teva Finance Company LLC** refer to Teva Pharmaceutical Finance Company, LLC. References to **Teva Finance III LLC** refer to Teva Pharmaceutical Finance III, LLC. References to the **LLCs** refer to Teva Finance Company LLC and Teva Finance III LLC. References to **Teva Finance BV** refer to Teva Pharmaceutical Finance Company B.V. References to the **finance subsidiaries** refer to the LLCs and Teva Finance BV, collectively.

TEVA PHARMACEUTICAL INDUSTRIES LIMITED

We are a global pharmaceutical company producing drugs in all major treatment categories, including both generic and proprietary pharmaceutical products. We are one of the world's largest global generic drug companies and have the leading position in the U.S. generic market. We have successfully utilized our production and research capabilities to establish a global pharmaceutical operation focused on supplying the growing demand for generic drugs and on opportunities for proprietary branded products for specific niche categories, with our leading branded drug being Copaxone® for multiple sclerosis. Our active pharmaceutical ingredients business provides both significant revenues and profits from sales to third party manufacturers and strategic benefits to our own pharmaceutical production through its timely delivery of significant raw materials.

We are a party to a merger agreement entered into among us, IVAX Corporation (**Ivax**) and two newly formed subsidiaries of ours, Ivory Acquisition Sub, Inc. and Ivory Acquisition Sub II, Inc. Under the merger agreement, and on the terms and subject to the conditions stated therein, Ivory Acquisition Sub, Inc. will merge with and into Ivax, with Ivax surviving the merger. Immediately thereafter, Ivax will merge with and into Ivory Acquisition Sub II, Inc., with Ivory Acquisition Sub II, Inc. continuing as the surviving corporation and as our wholly owned subsidiary. Closing of the merger agreement remains subject to obtaining clearance under the U.S. Hart-Scott-Rodino Antitrust Improvements Act of 1976 and the satisfaction of the other closing conditions contained in the merger agreement.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

We were incorporated in Israel on February 13, 1944 and are the successor to a number of Israeli corporations, the oldest of which was established in 1901. Our executive offices are located at 5 Basel Street, P.O. Box 3190, Petach Tikva 49131 Israel, telephone number 972-3-926-7267.

Table of Contents

FINANCE SUBSIDIARIES

Teva has organized various finance subsidiaries for the purpose of issuing debt securities pursuant to this prospectus. There are no separate financial statements of the finance subsidiaries in this prospectus because these entities are, or will be treated as, subsidiaries of Teva for financial reporting purposes. We do not believe the financial statements would be helpful to the holders of the securities of these entities because:

Teva is a reporting company under the Securities Exchange Act of 1934 (referred to in this prospectus as the Exchange Act) and owns, directly or indirectly, all of the voting interests of these entities;

these entities do not have any independent operation and do not propose to engage in any activities other than issuing securities and investing the proceeds in Teva or its affiliates; and

these entities' obligations under the securities will be fully and unconditionally guaranteed by Teva.

These entities are exempt from the information reporting requirements of the Exchange Act.

Teva Finance Company LLC

Teva Finance Company LLC is a limited liability company that was formed on December 16, 2005 under the Delaware Limited Liability Company Act, as amended. Its address is 1090 Horsham Road, North Wales, Pennsylvania 19454, telephone number (215) 591-3000.

Teva Finance III LLC

Teva Finance III LLC is a limited liability company that was formed on December 5, 2003 under the Delaware Limited Liability Company Act, as amended. Its address is 1090 Horsham Road, North Wales, Pennsylvania 19454, telephone number (215) 591-3000.

Teva Finance BV

Teva Finance BV is a Netherlands Antilles limited liability company that was formed on November 23, 2005. Its address is Teva Pharmaceutical Finance Company B.V., Schottegatweg Oost 29-D, Curaçao, Netherlands Antilles, telephone number +5999 7366066.

Table of Contents

RISK FACTORS

Before you invest in our securities, you should carefully consider the risks involved. In addition, we may include additional risk factors in a prospectus supplement to the extent there are additional risks related to the securities offered by that prospectus supplement. Accordingly, you should carefully consider the following factors, other information in this prospectus or in the documents incorporated by reference and any additional risk factors included in the relevant prospectus supplement:

Risks Associated with Teva and the Pharmaceutical Industry

Our success depends on our ability to successfully develop and commercialize additional pharmaceutical products.

Our future results of operations depend, to a significant degree, upon our ability to successfully commercialize additional generic and innovative branded pharmaceutical products. We must develop, test and manufacture generic products as well as prove that our generic products are the bio-equivalent of their branded counterparts. All of our products must meet and continue to comply with regulatory and safety standards and receive regulatory approvals; we may be forced to withdraw a product from the market if health or safety concerns arise with respect to such product. The development and commercialization process, particularly with respect to innovative products, is both time consuming and costly and involves a high degree of business risk. Our products currently under development, if and when fully developed and tested, may not perform as we expect, necessary regulatory approvals may not be obtained in a timely manner, if at all, and we may not be able to successfully and profitably produce and market such products. Delays in any part of the process or our inability to obtain regulatory approval of our products (including certain products filed by Andrx Corporation, IMPAX Laboratories Inc. and Biovail Corporation, for which we have exclusive marketing rights) could adversely affect our operating results by restricting or delaying our introduction of new products. The continuous introduction of new generic products is critical to our business.

Our revenues and profits from any particular generic pharmaceutical products decline as our competitors introduce their own generic equivalents.

Selling prices of generic drugs typically decline, sometimes dramatically, as additional companies receive approvals for a given product and competition intensifies. To the extent that we succeed in being the first to market a generic version of a significant product, and particularly if we obtain the 180-day period of market exclusivity for the U.S. market provided under the Hatch-Waxman Act, our sales, profit and profitability can be substantially increased in the period following the introduction of such product and prior to a competitor's introduction of the equivalent product or the launch of an authorized generic. Our ability to sustain our sales and profitability on any product over time is dependent on both the number of new competitors for such product and the timing of their approvals. Our overall profitability depends, among other things, on our ability to continuously and timely introduce new products.

Our generic pharmaceutical products face intense competition from brand-name companies that sell or license their own generic products or seek to delay the introduction of generic products.

Brand-name pharmaceutical companies have taken aggressive steps to thwart competition from generic companies. In particular, brand-name companies continue to sell or license their products directly or through licensing arrangements or strategic alliances with generic pharmaceutical companies (so-called "authorized generics"). No significant regulatory approvals are required for a brand-name company to sell directly or through

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

a third party to the generic market. Brand-name companies do not face any other significant barriers to entry into such market. In addition, such companies continually seek new ways to delay generic introduction and decrease the impact of generic competition, such as

filing new patent applications on drugs whose original patent protection is about to expire;

filing an increasing number of patent applications that are more complex and costly to challenge;

Table of Contents

filing suits for patent infringement that automatically delay FDA approval;

filing citizens petitions with the FDA contesting approval of the generic version of the product due to alleged health and safety issues;

developing controlled-release or other next-generation products, which often reduces demand for the generic version of the existing product for which we are seeking approval;

changing product claims and product labeling; or

developing and marketing as over-the-counter products those branded products which are about to face generic competition.

These strategies may increase the costs and risks associated with our efforts to introduce generic products and may delay or prevent such introduction altogether.

Changes in the regulatory environment may prevent us from utilizing the exclusivity periods that are important to the success of our generic products.

The FDA's policy regarding the award of 180-days market exclusivity to generic manufacturers who challenge patents relating to specific products continues to be the subject of extensive litigation in the United States. The FDA's current interpretation of the Hatch-Waxman Act is to award 180 days of exclusivity to the first generic manufacturer who files a Paragraph IV certification under the Act challenging the patent of the branded product, regardless of whether the generic manufacturer was sued for patent infringement. Although the FDA's interpretation may benefit some of the products in our pipeline, it may adversely affect others.

The Medicare Prescription Drug Act provides that the 180-day market exclusivity period provided under the Hatch-Waxman Act is only triggered by the commercial marketing of the product. However, the Medicare Act also contains forfeiture provisions which, if met, will deprive the first Paragraph IV filer of exclusivity. As a result, under certain circumstances, we may not be able to exploit our 180-day exclusivity period since it may be forfeited prior to our being able to market the product.

In addition, legal and administrative battles over triggering dates and shared exclusivities may also prevent us from fully utilizing the exclusivity periods.

If we elect to sell a generic product prior to any court decision or prior to the completion of all appellate level patent litigation, we could be subject to liabilities for damages.

At times we or our partners seek approval to market generic products before the expiration of patents for those products, based upon our belief that such patents are invalid, unenforceable, or would not be infringed by our products. As a result, we are involved in a number of patent litigations the outcome of which could materially adversely affect our business. Based upon a complex analysis of a variety of legal and commercial factors, we may, in certain circumstances, elect to market a generic product even though litigation is still pending. This could be

before any court decision is rendered or while an appeal of a lower court decision is pending. To the extent we elect to proceed in this manner, we could face substantial liability for patent infringement if the final court decision is adverse to us and could be required to cease the sale of certain products. For example, we launched, and continue to sell, generic versions of Allegra[®], Neurontin[®], Oxycontin[®] and Zithromax[®] despite the fact that appellate litigation with the branded companies was still pending. Our ability to introduce new products may depend upon our ability to successfully challenge patent rights held by branded companies.

Our sales of Copaxone[®] could be adversely affected by competition.

Copaxone[®] is our leading innovative product, from which we derive substantial revenues and profits. To date, we and our marketing partners have been successful in our efforts to establish Copaxone[®] as a leading therapy for multiple sclerosis and have increased our global market share among the currently available major therapies for multiple sclerosis. However, Copaxone[®] faces intense competition from existing products, such as

Table of Contents

Avonex[®], Betaseron[®] and Rebif[®]. We may also face competition from additional products in development or a product which may be re-introduced into the market. In addition, the exclusivity protections afforded us in the United States through orphan drug status for Copaxone[®] expired on December 20, 2003. If our patents on Copaxone[®] are successfully challenged, we may also face generic competition for this product.

We are subject to government regulation that increases our costs and could prevent us from marketing or selling our products.

We are subject to extensive pharmaceutical industry regulations in the United States, Canada, the European Union, and its member states including England, Hungary, The Netherlands, France and Italy, in Israel and in other jurisdictions. We cannot predict the extent to which we may be affected by legislative and other regulatory developments concerning our products. We are also subject to various environmental laws and regulations in the jurisdictions where we have manufacturing operations.

We are dependent on obtaining timely approvals before marketing most of our products. In the United States, any manufacturer failing to comply with FDA or other applicable regulatory agency requirements may be unable to obtain approvals for the introduction of new products and, even after approval, initial product shipments may be delayed. The FDA also has the authority to revoke drug approvals previously granted and remove from the market previously approved drug products containing ingredients no longer approved by the FDA. Our major facilities, both in the United States and outside the United States, and products are periodically inspected by the FDA, which has extensive enforcement powers over the activities of pharmaceutical manufacturers, including the power to seize, force to recall and prohibit the sale or import of non-complying products, and halt operations of and criminally prosecute non-complying manufacturers.

In Europe and Israel, the manufacture and sale of pharmaceutical products is regulated in a manner substantially similar to that in the United States. Legal requirements generally prohibit the handling, manufacture, marketing and importation of any pharmaceutical product unless it is properly registered in accordance with applicable law. The registration file relating to any particular product must contain medical data related to product efficacy and safety, including results of clinical testing and references to medical publications as well as detailed information regarding production methods and quality control. Health ministries are authorized to cancel the registration of a product if it is found to be harmful or ineffective or manufactured and marketed other than in accordance with registration conditions.

Data exclusivity provisions exist in many countries worldwide, although their application is not uniform. Similar provisions may be adopted or modified by additional countries. Data exclusivity provisions were recently modified in the European Union and adopted in Israel. In general, these exclusivity provisions prevent the approval and/or submission of generic drug applications to the health authorities for a fixed period of time following the first approval of a novel brand name product in that country. As these exclusivity provisions operate independently of patent exclusivity, they may prevent the approval and/or submission of generic drug applications for some products even after the patent protection has expired.

We may not be able to successfully identify, consummate and integrate future acquisitions, including our pending acquisition of Ivax.

In the past, we have grown, in part, through a number of significant acquisitions, including our pending acquisition of Ivax and our recent acquisition of Sicor Inc. We continue to be engaged in various stages of evaluating or pursuing potential acquisitions and may in the future acquire other pharmaceutical and active pharmaceutical ingredients businesses and seek to integrate them into our own operations. In particular, we have recently agreed to acquire Ivax for an aggregate of approximately \$7.8 billion in cash and ADSs, based on the value of our ADSs at the time of the agreement. Closing of the acquisition remains subject to various conditions, including clearance under the U.S. Hart-Scott-Rodino Antitrust Improvements Act of 1976. For a more detailed discussion regarding our acquisition of Ivax, read carefully the section below entitled Risks Associated with our Pending Acquisition of Ivax.

Table of Contents

Future acquisitions involve known and unknown risks that could adversely affect our future revenues and operating results. For example:

We compete with others to acquire companies. We believe that this competition has intensified and may result in decreased availability or increased prices for suitable acquisition candidates.

We may not be able to obtain the necessary regulatory approvals, including the approval of anti-competition regulatory bodies, in any countries in which we may seek to consummate potential acquisitions.

We may ultimately fail to consummate an acquisition even if we announce that we plan to acquire a company.

We may fail to successfully integrate our acquisitions in accordance with our business strategy.

Potential acquisitions may divert management's attention away from our primary product offerings, resulting in the loss of key customers and/or personnel and expose us to unanticipated liabilities.

We may not be able to retain the skilled employees and experienced management that may be necessary to operate the businesses we may acquire and, if we cannot retain such personnel, we may not be able to locate or hire new skilled employees and experienced management to replace them.

We may purchase a company that has contingent liabilities that include, among others, known or unknown patent or product liability claims.

As a pharmaceutical company, we are susceptible to product liability claims that may not be covered by insurance, including potential claims relating to products that we previously sold or currently sell and that are not covered by insurance.

Our business inherently exposes us to claims relating to the use of our products. We sell, and will continue to sell, pharmaceutical products for which product liability insurance coverage is not available, and accordingly, we may be subject to claims that are not covered by insurance as well as claims that exceed our policy limits. Additional products for which we currently have coverage may be excluded in the future. In addition, product liability coverage for pharmaceutical companies is becoming more expensive and increasingly difficult to obtain. As a result, we may not be able to obtain the type and amount of coverage we desire. Because of the nature of these claims, we are generally not permitted under U.S. GAAP to establish reserves in our accounts for such contingencies.

Reforms in the health care industry and the uncertainty associated with pharmaceutical pricing, reimbursement and related matters could adversely affect the marketing, pricing and demand for our products.

Increasing expenditures for health care have been the subject of considerable public attention in Israel, North America and many European countries. Both private and governmental entities are seeking ways to reduce or contain health care costs. In many countries in which we currently operate, including Israel, pharmaceutical prices are subject to regulation. In the United States, numerous proposals that would effect changes in the United States health care system have been introduced or proposed in Congress and in some state legislatures. Similar activities are taking place throughout Europe. We cannot predict the nature of the measures that may be adopted or their impact on the marketing, pricing and demand for our products.

The success of our innovative products depends on the effectiveness of our patents and confidentiality agreements to defend our intellectual property rights.

Our success with our innovative products depends, in part, on our ability to protect our current and future innovative products and to defend our intellectual property rights. If we fail to adequately protect our intellectual property, competitors may manufacture and market products identical or similar to ours. We have been issued numerous patents covering our innovative products, and have filed, and expect to continue to file, patent applications seeking to protect newly developed technologies and products in various countries, including the

Table of Contents

United States. Any existing or future patents issued to or licensed by us may not provide us with any competitive advantages for our products or may even be challenged, invalidated or circumvented by competitors. In addition, such patent rights may not prevent our competitors from developing, using or commercializing products that are similar or functionally equivalent to our products.

We also rely on trade secrets, unpatented proprietary know-how, trademarks, data exclusivity and continuing technological innovation that we seek to protect, in part, by confidentiality agreements with licensees, suppliers, employees and consultants. It is possible that these agreements will be breached and we will not have adequate remedies for any such breach. Disputes may arise concerning the ownership of intellectual property or the applicability of confidentiality agreements. Furthermore, our trade secrets and proprietary technology may otherwise become known or be independently developed by our competitors or, if patents are not issued with respect to products arising from research, we may not be able to maintain the confidentiality of information relating to such products.

We have significant international operations, including in Israel, which may be adversely affected by acts of terrorism, major hostilities or adverse legislation or litigation.

Significant portions of our operations are conducted outside of the United States, and we import a substantial number of products into the United States. We may, therefore, be directly affected and denied access to our customers by a closure of the borders of the United States for any reason or as a result of other economic, political and military conditions in the countries in which our businesses are located. We may also be affected by currency exchange rate fluctuations and the exchange control regulations of such countries or other political crisis or disturbances, which impede access to our suppliers.

Our executive offices and a substantial number of our manufacturing facilities are located in Israel. Our Israeli operations are dependent upon materials imported from outside of Israel. We also export significant amounts of products from Israel. Accordingly, our operations could be materially and adversely affected by acts of terrorism or if major hostilities should occur in the Middle East or trade between Israel and its present trading partners should be curtailed, including as a result of acts of terrorism in the United States. Any such effects may not be covered by insurance.

We may be subject to legislation in Israel, primarily relating to patents and data exclusivity provisions, that would prevent us from exporting Israeli-manufactured products in a timely fashion. Additionally, the existence of third party patents in Israel, with the attendant risk of litigation, may cause us to move production outside of Israel or otherwise adversely affect our ability to export certain products from Israel. Although legislation addressing some of these problems has been proposed, we can not assure you that it will be enacted.

Because we and certain of the finance subsidiaries are foreign entities, you may have difficulties enforcing your rights under the securities offered by this prospectus.

We are an Israeli company and Teva Finance BV is a non-U.S. entity. In addition, most of our officers, directors or persons of equivalent position reside outside the United States. As a result, service of process on them may be difficult or impossible to effect in the United States. Furthermore, due to the fact that a substantial portion of our assets are located outside of the United States, it may difficult to enforce judgments obtained against us or any of our directors and officers in a United States Court. See [Enforcement of Civil Liabilities](#) below.

Risks Associated with our Pending Acquisition of Ivax

We may experience difficulties in integrating Ivax's business with our existing businesses.

The merger involves the integration of two companies that have previously operated independently. The difficulties of combining the companies operations include:

the necessity of coordinating and consolidating geographically separated organizations, systems and facilities; and

Table of Contents

integrating our management and personnel with that of Ivax, maintaining employee morale and retaining key employees.

The process of integrating operations could cause an interruption of, or loss of momentum in, the activities of one or more of the combined company's businesses and the loss of key personnel. The diversion of management's attention and any delays or difficulties encountered in connection with the merger and the integration of the two companies' operations could have an adverse effect on the business, results of operations, financial conditions or prospects of the combined company after the merger.

Achieving the anticipated benefits of the merger will depend in part upon whether we can integrate their businesses in an efficient and effective manner. We may not accomplish this integration process smoothly or successfully. If management is unable to successfully integrate the operations of the two companies, the anticipated benefits of the merger may not be realized.

We may not achieve the revenue and cost synergies we have anticipated for the combined company.

Our rationale for the merger is, in part, predicated on the projected ability of the combined company to realize certain revenue and cost synergies. Achieving these synergies is dependent upon a number of factors, some of which are beyond our control. These synergies may not be realized in the amount or time frame that we currently anticipate.

Charges to earnings resulting from the merger could have a material adverse impact on the combined company's results of operations.

In accordance with United States generally accepted accounting principles, the combined company will allocate the total purchase price of the merger to Ivax's net tangible assets, amortizable intangible assets, intangible assets with indefinite lives and in-process research and development, based on their fair values as of the date of completion of the merger. The combined company will record the excess of the purchase price over those fair values as goodwill. The portion of the estimated purchase price allocated to in-process research and development will be expensed by the combined company in the quarter in which the merger is completed. The preliminary estimate of the amount to be expensed in the quarter in which the merger is completed related to in-process research and development is \$1,300 million. The combined company will incur additional depreciation and amortization expense over the useful lives of certain of the net tangible and intangible assets acquired in connection with the merger. Annual amortization of intangible assets of Ivax, currently estimated at \$28.4 million for 2006, will result in an estimated increase in amortization expense of \$71.6 million on an annual basis. In addition, to the extent the value of goodwill or intangible assets becomes impaired in the future, the combined company may be required to incur material charges relating to the impairment of those assets. These amortization and in-process research and development and potential impairment charges could have a material impact on the combined company's results of operations.

Table of Contents

FORWARD LOOKING STATEMENTS

Our disclosure and analysis in this prospectus contain or incorporate by reference some forward-looking statements. Forward-looking statements describe our current expectations or forecasts of future events. You can identify these statements by the fact that they do not relate strictly to historical or current facts. Such statements may include words such as anticipate, estimate, expect, project, intend, plan, believe and other terms of similar meaning in connection with any discussion of future operating or financial performance. In particular, these statements include, among other things, statements relating to:

our business strategy;

the development of our products;

our projected capital expenditures;

our liquidity; and

the results of our pending acquisition of Ivax.

This prospectus contains or incorporates forward-looking statements which express the beliefs and expectations of management. Such statements are based on management's current beliefs and expectations and involve a number of known and unknown risks and uncertainties that could cause our future results, performance or achievements to differ significantly from the results, performance or achievements expressed or implied by such forward-looking statements. Important factors that could cause or contribute to such differences include our ability to successfully develop and commercialize additional pharmaceutical products, the introduction of competing generic products, the impact of competition from brand-name companies that sell or license their own brand products under generic trade dress and at generic prices (so-called authorized generics) or seek to delay the introduction of generic products, regulatory changes that may prevent us from exploiting exclusivity periods, potential liability for sales of generic products prior to a final court decision, including that relating to the generic versions of Allegra®, Neurontin®, Oxycontin® and Zithromax®, the effects of competition on Copaxone® sales, the impact of pharmaceutical industry regulation and pending legislation that could affect the pharmaceutical industry, the difficulty of predicting U.S. Food and Drug Administration (FDA), European Medicines Agency (EMA) and other regulatory authority approvals, the regulatory environment and changes in the health policies and structures of various countries, our ability to successfully identify, consummate and integrate acquisitions, including risks related to our pending acquisition of Ivax, our potential exposure to product liability claims, our dependence on patent and other protections for innovative products, the fact that we have significant operations outside the United States that may be adversely affected by terrorism or major hostilities, fluctuations in currency, exchange and interest rates, operating results and other factors that are discussed in this prospectus and in our other filings made with the SEC.

Forward looking statements speak only as of the date on which they are made, and we undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any additional disclosures we make in our Annual Reports on Form 20-F and our 6-K reports to the SEC. Also note that we provide a cautionary discussion of risks and uncertainties under Risk Factors above. These are factors that we think could cause our actual results to differ materially from expected results. Other factors besides those listed here could also adversely affect us. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

Teva's ratio of earnings to fixed charges in accordance with U.S. GAAP for the periods presented are as follows:

	(Unaudited)	Year Ended December 31,				
	Nine Months Ended					
	September 30, 2005	2004	2003	2002	2001	2000
Ratio of earnings to fixed charges	30.20	13.17	18.33	9.43	7.58	4.70

The finance subsidiaries did not have any operations for the relevant periods.

PRICE RANGE OF ADRS AND ORDINARY SHARES**Ordinary Shares**

Teva's ordinary shares have been listed on the Tel Aviv Stock Exchange since 1951. The table below sets forth in U.S. dollars the high and low reported sales prices of the ordinary shares on the Tel Aviv Stock Exchange during the periods specified as reported by the exchange. The translation into U.S. dollars is based on the daily representative rate of exchange published by the Bank of Israel then in effect.

In each of February 2000, December 2002 and June 2004, Teva effected a 2 for 1 stock split. Each holder of an ordinary share or ADR, as the case may be, was issued another share. All figures in this prospectus have been adjusted to reflect these stock splits.

ADRs

Teva ADRs have been traded in the United States since early 1982 and were listed and admitted to trading on the NASDAQ in 1987. The ADRs are quoted under the symbol TEVA. The Bank of New York serves as depositary for the ADRs. In November 2002, Teva was added to the NASDAQ 100 Index. Each ADR represents one ordinary share. For a more detailed description of the ADSs and ADRs, see below under Description of American Depositary Shares.

The American Stock Exchange, the Chicago Options Exchange and the Pacific Stock Exchange quote options on ADRs under the symbol TEVA. ADRs are also traded on SEAQ International in London and on exchanges in Frankfurt and Berlin.

Edgar Filing: TEVA PHARMACEUTICAL INDUSTRIES LTD - Form 424B5

The table below sets forth in U.S. dollars the high and low reported sales prices of the ADRs on NASDAQ, during the periods as specified as reported by the market, giving retroactive effect to stock splits and stock dividends:
